

CULTIVATION ONLINE

MyLittleBrother

Chapter 1 - Cultivation Online

"Brother! I got the game you wanted!" The teenager said cheerfully next to the young man laying on the bed. In her grasp was a large helmet that looked like a bike helmet, but with more of a sci-fi look.

The young man's eyes were closed, seemingly asleep, but the girl continued to speak: "Here, let me help you put it on..."

The girl climbed on the large bed that could fit an entire family of four, and she lifted his head, putting the helmet she had prepared on his head.

"Thank you..." The young man finally spoke in a hoarse voice after she gently laid his head back down.

The girl smiled, tenderly caressing his hair so it wouldn't bother him.
"Brother, although I will be busy with school this week, next week for sure, I will play with you."

"Un..."

"I will come back later, so until then, have fun!" After those words, she went to touch the button on the side of the helmet and waited a few moments before leaving the young man alone.

—

It only took a few seconds after the button was pressed for the young man's body in the real world to fall into a state similar to slumber. He could no longer smell the aroma that was unique to his room or feel the weight of the blanket pressing down on his body. Instead, he could feel himself standing, something he didn't have the opportunity to experience for many years.

The world before him was mostly black, like the night sky without stars, and he could see white numbers floating above him, slowly counting down.

"I can see... I can feel my limbs... I... am no longer blind or a cripple..." The young man broke down in this darkness, becoming emotional and falling to his knees.

He was born with an incurable illness that left him blind at the age of 7 and crippled at the age of 13. He is now 18 years old, and for the past 5 years he would lay in his bed, unable to do anything else besides just laying there; it was a gruesome and unimaginable life that one wouldn't even dare to imagine themselves in.

However, for this young man who has spent more than half of his life living in a world void of light, he was able to continue living without giving in to despair because of his caring younger sister, who supported him every day without any complaints.

"So this is the world's first VRMMORPG with 100% immersion, huh."

When he first heard of the game from his younger sister, he almost couldn't believe it.

A game that operates inside the mind of the individual, allowing that person to live in another world without the need to move a single limb — who would believe that such an incredible and advanced technology could exist? Not to mention that this high-tech technology was announced to be affordable enough for even the most common families to enjoy.

It was unimaginable at first, but experiencing it firsthand, the young man can only believe it.

The countdown continued to lower as the young man tries to familiarize himself with the feeling of moving his limbs. Although it was difficult at first, even tripping after every few steps, he gradually became familiarized with his body again.

As the system's notice appeared, the black space quickly brightened, becoming a bright white room. And right before the young man, a crack appeared out of thin air, looking like a glass window being cracked.

Crack. Crack. Crack...

The crack grew larger and larger — until it was large enough for an adult to fit.

Suddenly, the large crack broke apart entirely, revealing the darkness behind it, and a beautiful woman with a graceful and elegant body slowly walked out from within the cracked space, looking like a goddess appearing from another world.

"This is..." The young man could only watch in a daze as the beautiful woman who just came out of the cracked space began looking at him from top to bottom with a seemingly cold expression on her otherworldly face. Dressed in unfamiliar red and golden robes, her figure was supple and graceful. Her facial features are sharp, symmetrical, and peerless. All in all, she looked like an otherworldly goddess. However, despite all of her perfect features, her gaze was anything but friendly.

She stared at him with her golden eyes that overflowed with a feeling of dominance, and her aura radiated with a tyrannical power that the young man cannot comprehend.

"Mortal, place your hand on this." The beauty spoke to him with a cold voice that was fitting for a ruler, and the young man watched as she pulled out a crystal ball from thin air.

"Okay." Believing that she was an NPC, the young man followed her instructions and placed his hand on the crystal ball without thinking about it too much, and words began appearing inside the crystal ball.

Name: ???

Cultivation: None

Legacy: None

Bloodline: None

Physique: Heaven Refining Physique

Physical Strength: 34

Mental Strength: 275

Soul Strength: 1,210

Physical Defense: 10

Mental Defense: 1,121

"?!?!" The beauty's expression suddenly changed upon seeing the information in the crystal ball, her clear eyes filled with disbelief.

"Heaven Refining Physique!" Her hands trembled along with the crystal ball in her grasp. "Not to mention his Soul Strength is at the rank of Spirit Warrior despite being only a mortal with no cultivation — No, that is nothing when compared to his physique!"

The beauty has never been this shocked before, even to the point of her body trembling.

"Is something wrong?" The young man asked her upon seeing her silence and excited expression.

She lifted her head to look at him, thinking to herself: 'I must rope him into joining my faction before the others find him...'

"What is your name?" she asked him with a serious expression.

"You can call me Yuan."

"Take this token and keep it with you until we meet next time." The beauty retrieved a jade medallion from thin air and suddenly tossed it to him. "I don't have much time left here. Make sure you don't lose the token, I will see you again."

"Huh? Wait, I have some..." Before Yuan can even ask her any questions, the beauty walked back into the cracked hole, disappearing alongside the crack in the air.

"What an odd NPC. What should I do now?" He looked around the empty place.

«Character evaluation complete. Teleportation will occur in 10 seconds.»

«00:02»

«00:01»

As the timer reached zero, Yuan's vision suddenly twisted, giving him a slight headache. When he blinked and opened his eyes, he found himself on some kind of stage where many people that wore the same white robe as him were gathered in a spacious area.

"This is... Cultivation Online?" His eyes widen when he saw mountains floating in the sky above the clouds and what appeared to be houses built on these floating mountains.

"Welcome, Mortals! I am Elder Song, in charge of making sure that before you all leave this place and adventure this vast world that you will have a goal of what you want to do here set in your mind." An old man in blue robes suddenly greeted everybody with a booming voice, causing everybody there to look above them.

"He's flying! He is really flying while standing on that sword!" The people exclaimed the obvious.

Elder Song smiled and said: "I will answer your questions later, but first, let me explain to you about this world — the world of Cultivation."

"First and foremost, this is the Heavenly Continent, and we are currently at Mountain #96. Before you were transported here, everyone should have met a representative from our world that gave you an evaluation. That is your character status; it tells you almost everything about yourself."

"We will start with the basics. In this world, humans and monsters cultivate their bodies and mind with Spirit Qi that allows them to obtain supernatural powers. We call people like them Cultivators, and the higher the cultivation you reach, the stronger you will be in this world. Legacy and Bloodlines are special features that can be obtained later on if you are fortunate enough. As for Physique, everyone here should have one. Whether or not it is useless, this will tell you."

Elder Song waved his long sleeves and thousands of talisman flew towards the people there.

"Activate it with your thoughts," said Elder Song.

The crowd followed his instruction, and loud exclamations resounded soon afterward.

"It says that I have an Earth-ranked Physique! What does that mean?"

Elder Song looked at the young man who just spoke and said to him, "There is a one in ten thousand chances one is born with an Earth-rank Physique. Congratulations. You are what we call 'talented'."

"Elder, how many ranks of Physiques are there?"

"The rank for Physiques consists of Mortal, Earth, Heaven, and Divine."

"Elder, what does having a Mortal-rank Physique mean, and what is the difference between the ranks?"

Elder Song remained silent for a moment, before speaking with a grin, "Having a Mortal Physique means you are only ordinary, but having an Earth Physique means you are talented. The difference is obvious — you are naturally inferior to those who have a better physique than you! The more talented you are, the easier it will be for you as a Cultivator!"

His words caused many faces to sink, especially those with a Mortal Physique.

"Can our Physiques be changed?" Someone suddenly asked.

"Physiques can be changed, but the process is a long and painful one, so most people just accept their fate."

The people sighed in relief after hearing that their Mortal Physique can be changed.

"Does anyone here happen to have a Divine rank Physique?" Elder Song's eyes flickered with expectation, but when nobody replied to his question the light in his eyes dimmed.

'The chances of someone having a Divine Physique is one in a hundred million, a genius above genius that knows no equal, so it isn't surprising that such a prodigy wouldn't appear amongst a mere thousand people.' He shook his head inwardly.

"Elder, I have a Heaven-ranked Physique." An individual suddenly said out loud, causing everybody there to look at him.

"Hoh? The chances of a Heaven Physique appearing is one in a million. You are a very fortunate one, young genius. What is your name?"

"My name is Shen Ming," replied the handsome young man.

"Shen Ming? Isn't he the eldest son of Shen Li, the CEO of Royal Entertainment?"

Some people there recognized the handsome young man whose face looked exactly the same as he does in real life.

"Did you receive something from the representative who did your evaluation?" Elder Song asked him with great interest.

"Yes, I did." Shen Ming did not hide that fact and told him the truth. "I received this pouch from the representative."

"Oho... That is a storage pouch used to store items, there may be a few things in there that could benefit you. However, only cultivators are capable of using it. Additionally, if you can meet the person who gave you that gift again, they might even recruit you as a disciple for their Sect."

"Sect? You mean like guilds?"

"A Sect is a place created by one or a group of people for the purpose of nurturing its disciples to become powerful Cultivators — a school for Cultivators, basically." Elder Song briefly explained. "Is that it? Does nobody else have a Heaven Physique?"

After a moment of silence, Elder Song shook his head and thought to himself, 'What a pity that there is only one person out of the thousands here worth investing in. But even then, I don't know who had given him that storage pouch. It'd be rude of me if I were to steal away their target, and I might even offend someone I cannot afford to offend.'

"I have one question for everybody here before I let you leave... What do you desire to achieve in this world? Strength? Status? Wealth? Handsome men? Beautiful women? Tell me, Mortals from another world!"

"I want to fly like you!"

"I wish for power!"

"I want to be famous!"

"I want enough money to make a mountain!"

"I want to walk around with beautiful women in both my arms!"

"I want handsome men to pamper me!"

Elder Song smiled upon hearing the masses' desires. "If you want to survive in a world such as this, then you must have power! In this world, the strong rules the weak! Wealth and fame will naturally come if you are strong! People will flock to you if you are strong! Remember my words, young ones — this world looks down on the weak and the inferior, respecting only the strong! Having strength means you have everything!"

"Who do you think have the most power in this world?" Elder Song glanced at the people below with a narrowed gaze, sending chills down their spine.

"Cultivators! We, Cultivators, are a symbol of power, wealth, fame, and respect — we are the rule of this world!"

"Cultivators, is that some sort of class?" The people wondered.

"Elder, how do I become a Cultivator?"

Elder Song smiled. "It's simple, really." He suddenly waved his sleeves, and thousands of glowing orbs appeared out of the blue and flew towards the people and directly at their forehead, submerging into their brain.

"I have just given you all the method to cultivate. It is now up to you to decide whether you want to cultivate or remain as a mortal." Elder Song waved his sleeves again, and four portals appear not too far away from the group. "Each portal represents a Continent. In this world, we have Four Great Continents not including this Heavenly Continent. Once you step inside, it will take you to a place within one of these Four Great Continents randomly, but even I will not know exactly where you'll land so it is up to your fate."

«You have learned: Basic Qi Gathering Technique»

«Rank: Mortal»

«Mastery Level: 1»

«Description: Absorbs 1 Qi every second. Can only be activated when sitting in the lotus position.»

"Now, scram. I have spent too much of my precious time dealing with you mortals. You will learn more about this world as you travel. Even if I use the remaining of my longevity, I won't be able to explain to you everything about this world."

With another wave of his sleeve, everybody there began flying towards the portal as though they were being pulled towards them.

"Ahhhhh!!!"

Shocked cries resounded, and those who entered the portal would soon appear in this vast and unknown world at random.

—

After being thrown into the portal, Yuan felt the slight dizziness again, and before he was aware, he was in the middle of a forest.

"Where is this? Is there a map I can use?"

Suddenly, a large map with four large continents separated by water appears before him.

"Eastern Continent?" That was the only information he could gather from the map. Everything else was blacked out.

Yuan tilted his head to look at the bright sky and sighed. "I didn't get to ask him about my Physique. That old man said that there only exist four ranks of Physiques: Mortal, Earth, Heaven, and Divine, so why does my Physique not belong to any one of these four ranks? Do I have a special body?"

In his grasp was a talisman with the following words on it:

«Heaven Refining Physique»

«Rank: Celestial»

Chapter 2 - Mysterious Little Girl

"Character status." Yuan activated the system command through his mind as he did with the talisman.

Name: Yuan

Cultivation: None

Legacy: None

Bloodline: None

Physique: Heaven Refining Physique

Physical Strength: 34

Mental Strength: 275

Soul Strength: 1,210

Physical Defense: 10

Mental Defense: 1,121

"What do these stats do?" He pondered and pondered, but alas, without a guide or someone to teach him, he was clueless. "From what the creators of this game said, there will be no guides or manuals, leaving us, the players, to learn about this game for ourselves..."

"There should be a leveling system in these types of games, but where is the experience bar? What is my level? This feels more like reality than playing a game." Yuan opened and closed his hands into a fist.

Bang!

Suddenly, he punched a nearby tree.

"Ah! It really hurts! Does it hurt because this game is sending pain signals to my brain, making it believe that I am actually hitting a real tree? That's... scary no matter how I think about it."

What if he got stabbed by a sword? What would that feel like? He didn't want to think about it.

"Umm... excuse me, the brother over there..." A sweet voice suddenly resounded behind Yuan, making him turn his head.

"Huh?"

Standing right behind him was a cute little girl in red robes who looked to be around 10 years old, hugging a red ball in one arm and a book in the other.

'How did she get so close behind me without making a single sound? I didn't even notice her presence! And what is such a young girl doing here, in the middle of nowhere? Perhaps there is a city nearby?' Yuan became curious.

"Are you an NPC or a Player?" He asked her, who tilted her head sideways with a puzzled expression.

"NPC? Player? Xiao Hua is Xiao Hua," replied the little girl.

"So your name is Xiao Hua, huh. My name is Yuan."

"How did Brother Yuan manage to get in here?" She suddenly asked him with a curious gaze, almost like it is her first time seeing another person in her life.

"Get in here? We are outside, aren't we?"

She shook her head and said, "We are inside my family's garden."

"Huh? Garden?" Yuan looked stupefied at her answer. "This forest is your garden...?"

She nodded.

If this place that looks like a forest is her family's garden, then how big was the house itself? He couldn't imagine it. While it sounded unbelievable, it also explained why such a small girl like her would appear here.

"Sorry for intruding, but I was teleported here by some old man against my will..." He tried to explain without sounding too crazy. "I'll leave immediately, so can you tell me the way?"

But out of his expectations, the little girl shook her head. "Brother Yuan, since you are already here, why don't you play with Xiao Hua?"

"You want me to play with you?" He did not expect such a request from her.

"Xiao Hua is always alone and it is boring to play with herself."

"What about your family?"

"They are always busy and cannot play with Xiao Hua."

"Is that so..." Yuan felt sorry for her. He himself would be an outcast if it were not for his younger sister, so he knew very well what it feels like to be alone.

"Okay, this big brother will play with you!" He patted his chest with confidence. Due to his illness that left him unable to move even a limb, he did not have the leisure to play with his younger sister when she was young, so he saw this as an opportunity to experience what it would be like if he wasn't born with that illness.

"Really? You will play with Xiao Hua?" Her eyes glittered like the tiny stars in the sky, and her bright expression was adorable enough to soften the hearts of even the cruelest killers out there.

"Un. What do you want to play?"

"Then Xiao Hua will throw the ball to you, and you will throw it back, okay?" She placed the book down and showed him the ball.

"Let me get some distance... Okay, I am ready."

And without further ado, the two began playing throwing ball, and soon after, the merry laughter of a joyous little girl would echo in the forest.

While Yuan was spending his time entertaining a mysterious little girl, other Players would either be strengthening themselves or trying to gain more information about this world. Everybody rushed to surpass their friends and rivals in this new game that just came out, especially those who wish to become a professional and are required to be ahead of everybody else.

Minutes quickly turned into hours, and while everyone was grinding in their own ways, Yuan continued to play with the little girl.

'What monstrous stamina this little girl has! We have been throwing this ball back and forth for many hours, yet there is not a drop of sweat on her face! Even her small body shows no sign of fatigue!' Yuan smiled bitterly, his entire body drenched in sweat. How could he, a young man, get worn out before a little girl that's half his age while playing throwing ball? Although he has not moved a muscle for many years in the real world, this was virtual reality; he shouldn't even be sweating, let alone feeling fatigued!

"What's wrong, Brother Yuan? You do not look so good... Are you sick?" Xiao Hua's words dealt significant damage to his pride.

"No... I am... just a bit... tired..." he said in an exhausted voice.

Hearing his words, she no longer threw the ball at him. "Then do you want to take a rest before we resume?"

"You... you still want to play?"

"Un!" she nodded vigorously, nearly making him cry.

"Okay... but let me rest for a bit..."

He sits down at a nearby tree, and Xiao Hua follows him, sitting beside him.

"Where is Brother Yuan from?" she asked.

"I am from a faraway place called Earth."

"Earth?"

Seeing her glittering eyes, Yuan smiled. "Do you want to hear about my homeland? Although it is not much, I still have memories of the places I went as a child."

"Yes! I want to hear stories about this Earth!"

"Very well, then..."

Yuan began telling stories to Xiao Hua of the things he has done as a child, and she quickly became engrossed in his stories.

After an hour of nonstop storytelling, when he ran out of both breaths and stories to tell her, Xiao Hua opens the book in her grasp and spoke, "Since Brother Yuan played with Xiao Hua and even told her stories, Xiao Hua shall also tell you stories," she said. "This is Xiao Hua's gratitude to you, Brother Yuan!"

Yuan did not refuse and humbly accepted her appreciation.

However, when she began reading the book in her hands, he was surprised to find out that he wasn't able to understand a single word coming out of her mouth. It sounded more like chanting than a story!

But he didn't want to be rude to her, so he continued to listen. Soon, without being aware, he closed his eyes. After closing his eyes, he began feeling more relaxed and comfortable, almost as though he was experiencing some kind of hypnotization.

The weird chanting from Xiao Hua became less gibberish — he was beginning to comprehend her words, and information he never knew was being fed into his head. This continued for a whole hour before a sharp sound would suddenly wake Yuan from his meditative state.

«You have learned Heaven's Secret Art»

"Heaven's Secret Art...?"

Xiao Hua smiled gently upon hearing Yuan's mumble.

And suddenly, above the sky for every player to witness, a grand system notice appears.

«Player Yuan has become the world's first player to have learned a Divine-rank Skill! Congratulations!»

The announcement shocked every witness there, especially those Players at the top. The game has not even been out for a day, yet someone has managed to obtain a Divine-rank Skill already? Who was this Player 'Yuan', and what did he do to obtain it?

Chapter 3 - Becoming A Cultivator

"What's wrong, Brother Yuan?" Xiao Hua asked him, who looked dazed while staring at the sky.

"Oh, the announcement..." He pointed to the words in the sky.

"I don't see anything, though?" She said.

"Hm? You cannot see the words in the sky?"

She shook her head, prompting Yuan to ponder. 'Perhaps NPCs cannot see the game's notifications?'

«Description: Absorbs 5 Qi per second. Can only be activated when sitting in the lotus position.»

—

"Xiao Hua, what is Qi?" Yuan decided to ask her, who he believes to have more knowledge than him regarding this world.

"Qi is the essence of this world; it is what people use to cultivate."

"Cultivate, huh. That old man had said the same... Let me try this..." he closed his eyes and positioned himself to sit in the lotus position before activating the skill.

Ding!

«You have cultivated for the first time, unlocking Qi Experience»

«5/5,000»

«10/5,000»

«15/5,000»

His Qi Experience increased by 5 for every second he cultivated. Additionally, when he activated the Consuming Heaven Technique, his breathing naturally became calm and rhythmic, and his entire body felt refreshed, almost as though it was breathing through every existing pore.

Within just a few minutes, Yuan suddenly felt his entire body explode with a cool feeling, almost like he had been thrown into a pool of cool water on a hot day.

«You have succeeded in breaking through your mortal shackles, becoming a Spirit Apprentice!»

«All stats +100»

'All I have to do is sit here and cultivate to grow stronger in this game? How boring!' Yuan ignorantly thought to himself. 'But it does feel pleasant, almost like I am relaxing in a warm bath or something of sorts.'

"Congratulations on becoming a Cultivator, Brother Yuan." Xiao Hua said to him with a smile.

"It is all because of you, Xiao Hua. You have my gratitude."

"Then let's continue to play!" She stood up with the ball already in her hands, ready to be thrown.

Yuan smiled bitterly, but he didn't refuse and continued to play with her.

Surprisingly, when he stood up, all the fatigue he had just moments ago was gone; he had fully recovered all of his exhausted energy the moment he became a Cultivator.

The two began playing again, but the speed the ball was being thrown seemed to be at a much faster pace than previously.

—

Meanwhile, the world was in turmoil from the game's first world announcement.

Rich and powerful companies in the real world began looking into this player named Yuan with hopes to find his real identity. However, it was a near-impossible task due to the way the game handled the players' privacy.

Unlike other games where one can see the players' names at glance, Cultivation Online did not have that feature. Unless the individual allows it, nobody would be able to see their name, not even their friends.

After spending many resources and time looking for Yuan, people quickly came to a realization that unless Yuan willingly revealed himself, his identity would remain unknown forever. But that alone was not enough to force these people into giving up on trying to find him.

The internet, game forums, even newspapers, people began offering real money for information on Yuan, even outright paying thousands for the person himself to reveal himself.

Virtual reality has become so deeply involved in the real world that it would not be an exaggeration to say that professional gamers and top rankers have more fame and respect than even the top celebrities in the world.

Some professional gamers, in fact, earn seven digits every month just from s alone!

In fact, even casual gamers can earn more money than people with normal jobs just by selling in-game items for real money!

With so much appeal, it would only be obvious for people to want to become a gamer where they can have fun and earn money instead of choosing work that involves labor.

Furthermore, according to last year's gaming report, at least half of the world's population is a virtual gamer!

—

After throwing the ball for a few hours without breaking a sweat, Yuan suddenly stops.

"What's wrong? Are you feeling tired again?" Xiao Hua asked him.

"My sister is calling for me; it is time for dinner," he said.

"You are going to leave?" Her expression instantly turned gloomy upon hearing his words, feeling reluctant to let him leave. She was afraid that he wouldn't come back once he had left.

"Don't leave Xiao Hua alone!" She hurriedly said, almost breaking into tears.

Yuan patted her head with a smile. "I will be back to play with you later, I promise."

"...You promise?"

"If I break my promise, then I shall swallow ten thousand needles!" He swore clearly in a loud voice.

"Okay... then Xiao Hua will wait for Brother Yuan here." She took a seat by the same tree and closed her eyes to rest.

"Log off!"

Yuan's vision blurred, and the warmth in his limbs gradually disappeared. Darkness surrounded his view, and he could no longer see nor feel anything.

"Brother, how was the game?" His sister's voice resounded beside him.

"It was... fun." He showed a gentle smile, but deep inside, he was reluctant to leave that bright and colorful world where his body was not useless.

"What's for dinner today?" He asked her despite already knowing the answer.

"Chicken soup!"

Yuan smiled bitterly. He has been eating nothing but soup for the last few years, after all.

"Here, let me help you up." She took off the helmet on his head before lifting his head and adjusting his body to a sitting position.

She began feeding him warm soup with a spoon soon later. "How is the temperature?"

"Perfect..."

The room became quiet with Yuan drinking soup being the only sound that could be heard.

After Yuan finished dinner that was only one large bowl of soup, she laid him back down on the bed. "I will be right back for your cleaning," she said.

Moments later, she returns to the room with a towel, a bucket of warm water, and new clothes.

"Excuse me, brother." She said before stripping him completely naked.

"...Yu Rou..."

"What is it?"

"I'm sorry..."

"..."

The room instantly turned silent.

"What are you saying now? You are being weird, brother," she chuckled, breaking the silence.

"I know, but I am — Mmm?!" His words were interrupted by a warm towel pressing down on his face.

"You don't have to worry about me, brother. When you cure your illness one day, then you can pay me back."

"...Un..." An indescribable feeling welled up in Yuan's heart.

'Will such a day ever come?' he wondered inwardly.

"Okay! You are all clean now, brother! Even your precious little thing! Hehe..." Teased Yu Rou with a sheepish laugh.

"Ah! You little! Don't play around with my body because I can't feel anything!"

"Eh? What are you talking about? I definitely did not touch anything!"

"You definitely did!"

Laughter filled the room.

"Yu Rou, thank you." Yuan suddenly said, "I will repay you one day, this I promise..."

Putting his clothes on for him, Yu Rou smiled, "I won't be humble when that time comes."

—

"Alright brother, we are done for tonight. I will be back in the morning."

"Ah, can you put the helmet back on before you leave?"

"You want to continue playing? What about sleep?"

"I don't think I can sleep tonight, and playing the game is already considered sleeping, you know?"

"What am I going to do with you if you get addicted? Only tonight, okay?"

"Un."

—

"Brother Yuan, you're really back!" Xiao Hua instantly stood up with a happy expression upon seeing him appear out of nowhere like a ghost.

"I did make a promise to you," he patted her, who was poking her head at him with clear indications.

"What do you want to do now that the stars are already out?" he then asked.

"Play games!" She answered without hesitation.

"I figured." He nodded with a smile.

Chapter 4 - Hidden Ques

Yuan continued to play with Xiao Hua throughout the night without a care in the world. Meanwhile, other Players were either trying to find the best way to strengthen themselves or were already in the process of grinding their strength.

The Players also grew addicted to their new profound strength, with the power to smash rocks with mere fists and skip meters into the distance; it gave them a sense of superiority, and it made them feel really good about themselves.

However, for someone who is crippled and blind in the real world, Yuan wouldn't mind spending all of his time just playing with Xiao Hua, who has many resemblances to his younger sister.

The world under the night sky seemed still, with the only thing moving being two shadowy figures and a ball.

"Xiao Hua, will you be fine with playing out here till so late? Won't your parents be worried if you don't return soon?" Yuan asked her after noticing that she has been out here playing with him for nearly the entire day.

"It is okay. Xiao Hua is always out here playing by herself, so they are used to it."

"..." His pity towards her increased with every passing moment he spent with her. "Xiao Hua, how about we take a rest from playing and let me tell you some more stories?"

"Stories?" Her eyes began flickering like the stars in the night sky upon hearing the magic word, and she instantly sat by the tree.

Yuan followed and sat beside her. "The stories I will be telling you today are fairy tales from my homeland."

"Fairy tales? Like mythology and legends?"

"Well... not exactly. Fairy tales are more short stories made for entertainment rather than legends and such. They are pure fiction, so it's not real."

"What's the difference?"

"...You will know when you hear it."

Yuan began telling her famous and classical fairy tales from Earth that he's heard when he was young such as a certain individual poisoning a girl who awakened due to a kiss from a prince, mermaids in the ocean, and pirates fighting in the sea.

While it has been many years since Yuan has heard of these stories, he was still able to recall them clearly and greatly entertain Xiao Hua, who was not used to this genre of stories.

"These people... are they all mortals?" She suddenly asked him.

"To my knowledge, yes."

"This is nothing like stories of mythical beasts ruling the world or immortals overturning Heaven. It is normal, yet it brings so much entertainment." She didn't know mortals could be so entertaining despite being the focus of these stories.

"Do you have any more fairy tales to tell Xiao Hua?" She asked.

"Unfortunately, that was all I could remember. But I will find some more to tell you later."

"It's a promise!"

"It's a promise." Yuan smiled.

"Okay, then it is Xiao Hua's turn to read." She opened the same book she used to teach him Heaven's Secret Art.

"That's..." Yuan wondered if she was going to teach him another skill.

"Although Brother Yuan has already learned the technique, you have not fully mastered it. However, with your powerful comprehension skills, Xiao Hua believes that Brother Yuan will master it in no time."

Thus, she began reading.

However, this time around, Yuan was only able to understand everything from the beginning only to lose comprehension later on. It felt like he was listening to a story with a plot that quickly deepens as it progresses, becoming more mysterious and profound.

—

It took Xiao Hua nearly an hour to finish reading the book that was only a dozen pages thick.

When she finished, she looked at Yuan to see the expression he was making. He was sitting still with his eyes closed, and on his face was a calm expression, looking as though he was in a trance.

'Brother Yuan is truly a genius💎💎' she mumbled to herself, 'What takes others many tries to comprehend takes you only one time. What takes others many years to learn — you learn in just a few hours.'

Her gaze stared at his face nonstop, seemingly enchanted by his expression. 'Who are you, really?'

—

When Yuan opened his eyes again, Xiao Hua was resting her head on his lap, and the night sky had already long passed with the sun peeking in the horizon.

"It's already morning?" He wondered how long he had been in that trance state.

"Oh... You're awake, Brother Yuan." Xiao Hua rubbed her eyes and casually sat up. "Did you learn anything new during your enlightenment?"

"Enlightenment? Is that what that feeling was?"

"Un."

"I see... Right, I have reached the second stage of Heaven's Secret Art and learned Heaven Splitting Sword Strike."

Xiao Hua looked at him with her eyes slightly widened more than usual, seemingly filled with surprise.

"Good job, Brother Yuan." She gave him a thumbs up a moment later. "But your cultivation base is lacking, so you will not be able to use it right away."

"Right, it says I need 10,000 Qi for its activation. Is it the same Qi as the one I absorb when cultivating?"

She nodded to his question.

"It says I have 5,010/10,000 Qi right now. If I max it out and use the skill, won't my Qi be depleted and I will have to cultivate until I gain it back?"

"Your depleted Qi will naturally recover until it returns to its original state so you will not have to cultivate every time you use a technique. However, recovering Qi naturally takes time, and it will slow down your cultivation. That is why Cultivators do not use their Qi pointlessly." Xiao Hua explained to him as though she was an expert. "Additionally, if your Qi falls below a certain point, then your body will be in a weakened state until you recover your Qi. In extreme cases, you may lose consciousness or even the ability to Cultivate."

Yuan took his time digesting all of the information. "So if I have 100 Qi and I use a skill that requires 10 Qi, my remaining 90 Qi will naturally recover back to 100 without the need to cultivate?" He asked her just in case.

Seeing her nod, Yuan fully understood the system. "So it is just like any other game but with a slight twist that requires more management. Qi is required for skills but also for a breakthrough in cultivation; it would be unwise to use it unless necessary."

"Thank you, Xiao Hua. If not for you, I would still be clueless right now."

"Brother Yuan, gratitude is shown with action, not with words." She patted her own head, causing him to laugh.

"Right, right. Thank you very much..." He said with his hands on her head.

—

After Xiao Hua was satisfied, Yuan stood up and said, "It is about time for me to leave again, but I will be back later."

Xiao Hua didn't stop him this time and nodded. "Bye-bye, Brother Yuan. Play with Xiao Hua again when you get back, okay? Here, you can use this to call me." She handed him a necklace that she had just removed from her neck.

Yuan accepted the necklace without much thought. "Then, I will see you later." He waved at her before disappearing from the sunlight like a ghost.

After Yuan left, Xiao Hua stared at where he stood before logging off, seemingly in a daze. "Thank you, for playing with Xiao Hua..." Her body suddenly began to flicker, and her body glowed with beautiful light.

"It was fun... really, really fun..." Her body slowly broke down into tiny lights resembling fireflies before floating towards the clouds and disappearing.

«Congratulations! Player Yuan has completed the world's first Hidden Quest!»

"Brother Yuan..." That night, a sweet and childish voice echoed across the starry sky.

Chapter 5 - Death Penalty

"Good morning, brother."

"Morning."

"I have breakfast with me," she said, placing the bowl of soup on the adjustable table on the bed.

"Yu Rou, can I ask you for a favor?" Yuan asked her as he's being fed like a patient in a hospital.

"What is it?"

"I'd like to hear some fairy tales tonight." His words dumbfounded her, who wasn't expecting such a request.

"Why fairy tales?" She asked in a worrying tone, afraid the illness might have finally messed up his mind.

"I made a friend in the game, and she happens to be a young NPC. I promised her that I'd tell her more fairy tales," he explained.

"You are telling fairy tales to NPCs? Brother... what are you doing, really?" Yu Rou sighed, thinking how silly he was being.

"Don't let the fact that they are NPCs fool you into thinking that they are not worth your time. They move, think, react, and speak like real Players. You wouldn't know if they are a real Player or not unless you ask them.

"Yeah, yeah. Just don't do anything weird to her, alright?"

"W...Weird? Why would I do anything weird?" Yuan asked.

"Haven't you heard? There have been plenty of perverts getting killed for touching NPCs inappropriately. The penalty for death is extremely harsh in this game from what I heard."

"Perverts touching NPCs? You can do that in this game?" Yuan lifted his eyebrows in surprise. What a profound game!

"Ah! You're thinking about doing something perverted, aren't you!? Don't even think about it, brother! I prohibit you from doing that as your sister!"

"That only works if you are the older one, no?" He smiled.

"Then... then I will stop taking care of you! Hmph!"

"Aiii... Do you think your brother is some kind of pervert that likes to touch NPCs? Unlike some people, I have morals, you know." He sighed, and continued to speak, "Anyway, what is this death penalty, and what happens if you die?" He was more interested in that than the perverts in the game.

"According to those who have died, some became unable to cultivate after death while some have even lost their cultivation base entirely, requiring them to restart from scratch."

Yuan pondered. "So you basically have to start from the beginning... That is indeed very harsh for a game."

"Additionally, some people have already tried to buy new consoles to start fresh but guess what? They still appear in the game with the same character!"

"So we are limited to one character no matter what?" Yuan cannot comprehend the game creators' motive for creating such a system; it's almost as if they want humans to live in another world with life as realistic as possible.

"Ah, brother, it's time for me to go to school. I will pick up some fairy tales on the way home," she said before leaving.

"Thank you."

"She's not here..." Yuan looked around for a small figure, but Xiao Hua was nowhere to be found. "I guess she went home."

He decided to sit down and cultivate to wait for her. Seconds turned into minutes, and minutes turned into hours. Until night came, Yuan sat there like a stone statue, cultivating and unaware that time had passed by so quickly.

Yuan did not stop cultivating until it was time for him to eat dinner. "We couldn't play today but that's fine. At least I will have stories ready for the next time we meet." He stared at the night sky for a moment before logging off.

—

After feeding Yuan and getting him cleaned, Yu Rou began reading fairy tales to him like a mother would tell stories to her child before bedtime, but her voice was still too immature to sound like a real mother.

"How was my narration?" she asked him in a cheeky tone.

"It sucked..."

"What—Fine! You can read it yourself next time!"

"Ah! I'm sorry, Yu Rou. I was only joking." Yuan hurriedly corrected himself, "Your voice was so heavenly that I thought you were a real fairy!"

Yu Rou blushed. "It was embarrassing to read these childish stories out loud, you know?" she said later, "I will remember this debt you owe me!"

"Yes yes, I will even give you my life, so find me a few more fairy tales, okay?"

"..."

"Yu Rou?" He called out to her after receiving no answer.

"Brother, please don't say things like that ever again," said Yu Rou with a serious expression on her face, her voice somewhat sorrowful.

Yuan quickly realized that he had screwed up. "I'm sorry..." he apologized right away.

"As long as you understand..." Yu Rou left his side to close the light, "Brother, it is getting late, you should go to sleep now."

"Un. Goodnight."

"Goodnight, brother."

—

Inside her room, Yu Rou surfed the internet on her phone for some time before sleeping like always.

"This player Yuan is very mysterious and baffling. In just two days since the game's launch, he was able to become the first Player to obtain a Divine-rank skill and finish a Hidden Quest. Is he even human?"

Despite not being able to play the game due to school and Yuan, she would still keep up with the newest information about the game so when the time comes for her to play, she wouldn't feel too lost. "Meanwhile, my brother is fooling around with a young NPC..." she smiled bitterly at that thought.

"Wow, his bounty has increased to five million already!" Her eyes widened at the effort and money others were willing to put out just to find this one player.

"So much fame... how envious..." she turned the phone off and closed her eyes. "Brother too... used to be flickering with lights under the spotlight..." she sighed before slowly falling asleep.

Chapter 6 - Servants

"How is the search going? Have you found any information on this player Yuan yet?" A handsome young man sat on his bed with Cultivation Online's console—the helmet— still on his head, his gaze at the middle-aged man standing by the door.

"Sorry, young master, but this player seems resolute in keeping his identity a secret. Not even our offer was able to lure him out," said the middle-aged man in a tired tone. He has gone without sleep for the past two days just to look for information on Yuan, but alas, the results came back in a box of disappointment filled with a whole lot of nothing.

"Not taking the bait? Then all we have to do is increase the temptation. Go and adjust the reward to twenty million. Unless this player is already super wealthy, then he will surely bite the bait sooner or later," said the young man casually, as though twenty million means nothing in his eyes.

"Understood." The middle-aged man then left the young man alone.

"I will have my hands on this player no matter the price. This individual is either Lady Luck's child or has connections to the game creators, allowing him to obtain things in the game that normal people will never have a chance to obtain. If I get him to join my faction, then my family's position within the ranks will surely rise!"

Similar scenes played out throughout the world with many high-standing figures doing whatever they can in their power to learn more about this player Yuan who is already light-years ahead of everyone else in the game, unaware that Yuan still has no idea how much of a stir he has created in the real world just because of a few system announcements. While Cultivation

Online is just a mere game in Yuan's eyes, that was not the case for others, who have their own ulterior motives.

After eating breakfast, Yuan went into the game, but alas, the small figure of Xiao Hua's was still nowhere to be found.

"Did she get in trouble with her family for staying out so late?" He thought of that possibility. "Maybe she was lying about her family not worrying so we could play for a bit longer..."

Yuan sighed, missing the cheerful little girl. Without her, what else is there to do in this world? Strength, wealth, fame — Yuan was not interested in any of these. All he wanted to do was have fun and use his body normally, something he cannot achieve in the real world.

He pulled out the necklace she gave him before she left. Shaking his head, he sighed. "I shouldn't be so impatient. I will wait for her just like she had waited for my return."

Thus, he sat down to cultivate again. While it was boring at first, as he slowly grew used to cultivating, he began feeling pleasure, like getting a massage during a nap.

Time passed quickly, and the night sky appears once again.

"It is taking longer and longer to advance to the next level, and the requirement needed is doubling with every level. Just how many more levels is there?" Yuan pondered, but knowing he's still an apprentice makes him worry about the later stages. "It will take a month of straight cultivating to advance one level in the later stages at this rate! This cultivation thing is such a chore..."

Just as Yuan was about to log off for tonight, an announcement appears in the sky, attracting countless gazes from below.

«Congratulations! Player White Lotus has become the world's first player to have obtained a Servant!»

While Yuan wondered what type of Servant this White Lotus had obtained, everybody else was surprised to see 'Player White Lotus' instead of 'Player Yuan' who was thought to have another shock for the world. But of course, many players were also relieved to know that Yuan would no longer be the only 'Ancestor' in the world.

'Ancestor' is a title created by the community that refers to those who have appeared in the system as a 'world's first' after Yuan's first announcement.

"Servants, huh." Yuan suddenly began having desires of obtaining a Servant. But how does one obtain a Servant?

After logging off the game, Yu Rou was already beside him with dinner in her hands.

"Yu Rou, how do you obtain Servants in this game?" He decided to ask her.

"Servants? Did someone obtain a Servant already?" She asked with curiosity. "Also, I don't know anything about obtaining Servants."

"It was someone named White Lotus."

"White Lotus!" Yu Rou immediately recognized that name. "She is one of the top players at the moment who has a cultivation base at Fifth Level Spirit Apprentice! Furthermore, she is actually a rich young lady in real life, too."

"Fifth Level Spirit Apprentice is considered the top?" Yuan, who is already a Seventh Level Spirit Apprentice, was surprised to hear that someone who is two whole levels behind him is at the top.

'Are they really top players? I barely cultivated and I'm already two levels above one of the top rankers!' He wondered.

"Yu Rou, who has the highest cultivation in the game as of this moment?"

"I believe it is someone known as Lightning Emperor, who is a Sixth Level Spirit Apprentice."

"Whoa, what an edgy name..."

"That's what you're concerned about?" Yu Rou chuckled. "Say, what's your cultivation now? Since you spent most of your time fooling around, it

should be pretty low, right? Let me take a guess... you are a Second Level Spirit Apprentice."

Yuan grinned, "Wrong!"

"First Level Spirit Apprentice?"

"Wrong again."

"What... Don't tell me... you have yet to cultivate?!"

"Yu Rou, since when have I become so pitiful and weak in your eyes? Your brother is disappointed..." Yuan said in a sorrowful voice. "Aiii, nevermind, I am just a nobody in the game, anyway. And like you have said, I have been fooling around, so hurry up and play with me so we can do things together."

"This week is impossible since I still have school, but next week for sure when summer break begins."

"School, huh. I am envious." Yuan smiled bitterly.

"Going to school is nothing to be envious about, brother. It is boring and tiring," sighed Yu Rou.

"But I still envy you and every student out there..." He sighed inwardly.

After talking for a few more minutes, Yu Rou went back to her room to sleep, and Yuan himself also went to sleep.

"If she doesn't appear by tomorrow, I should use that necklace..." He told himself before falling asleep.

Chapter 7 - Heaven Splitting Sword Strike

"Xiao Hua, where are you? Your favorite brother is here to play with you!" Yuan shouted loudly in the forest the moment he logged into the game.

"Aiii... What am I doing?" He sat down afterward, his hand reaching for the necklace around his neck.

Despite it seemingly made out of steel with a piece of jade attached, the necklace was as light as a feather, nearly weightless.

«Xiao Hua's Necklace»

«Grade: ???»

«Description: Obtained from Xiao Hua.»

"Even though she said to use this to call her... how do I use it?" He played around with the necklace as he pondered.

He tried poking it, caressing it, commanding it to open, even licking it, but alas, the necklace remained unchanged. After many minutes and many failures later, Yuan decided to stop trying to activate the necklace.

"Oh, Xiao Hua. How can you give me something so complicated without explaining its functions?" He sighed loudly.

Suddenly, as though the heavens heard his sigh, the earth trembled.

—

The sound of metal clashing resounded, followed by loud cursing.

"Eat my Coiling Sword Strike, you bastard!"

"Courting death!"

Boom! A loud explosion appeared in the distance, startling Yuan. What just happened? Why did the earth tremble the way it did just now? Did someone drop a bomb?

Clang! The sound of metal clashing resounded again, and a gust of wind suddenly swept the place, nearly lifting Yuan into the air.

"Devil Meng Li! If I don't kill you today, then I am not Zhan Xuegang!"

"Ahahaha! A mere half-step Spirit Grandmaster like you think you can kill me? Today will be the day you will realize your foolish existence — in hell!"

Clang! Clang! Clang!

Visible ripples filled with profound power swiftly swept the sky after every clash, sending chills down Yuan's spine every time it swept past him.

"It is actually two people fighting against each other that is causing this phenomenon?!" Yuan was shocked, to say the least. "To fight in someone else's garden, how disrespectful!"

Soon, two figures could be seen fighting each other in the air from where Yuan stood. One with long red hair and one with long black hair. They were flying back and forth, throwing powerful sword strikes at each other that would create ripples upon being blocked by the other person.

"They are flying, just like that old man!" Yuan recalled Elder Song, the old man who gave him and thousands of other players a brief explanation about this world while standing on a sword in the air.

The fight in the air lasted for many minutes without either one gaining an advantage over the other; they seemed to be equally matched.

However, as they were getting closer and closer to where Yuan stood, the destructive ripples created by their sword clashes also became painful to bear for him.

Despite not being apart of the fight, Yuan could feel a dominating pressure making it difficult for him to breathe, and his body felt as though it was carrying a large rock.

"Die for me! Seven Earthly Sword Strikes!"

"Ahahaha! Too weak! Way too weak! Bloody Sword Strike!"

A ripple far superior to the previous swept through the place until it could no longer be seen on the horizon.

Cough! Yuan could no longer resist the pressure and coughed up a mouthful of blood. "Damn! This is really uncomfortable!" He wiped the blood from his mouth with his hand.

"I can even taste the iron-like taste of blood..." Yuan was completely immersed at this moment. The pain in his body and the realistic features of this game temporarily made him forget that this was just a game.

"If they get any closer, I will definitely die from collateral damage!" He began running away from the two, but the clashes between them were also getting stronger.

"Nine Earthly Sword Strikes!"

"Devil's Blood!"

Boom! Trees fell and the clouds scattered from the impact, and Yuan was sent flying towards a tree, losing consciousness a moment later.

—

"Hahahaha! Zhan Xuegang, what's wrong? Didn't you say that you will kill me today?" One of the figures began laughing while pointing at the other

person who was missing an arm. "The Prime Disciple of the Profound Sword Sect is only so-so—just like that junior sister of yours... Hahahaha!"

"I will... I WILL KILL YOU!" Zhan Xuegang roared, his eyes turned red, and his cultivation base suddenly increased dramatically.

"What!?" The eyes of Devil Ming Li widened from shock. "You... you had a breakthrough in the middle of our fight?!"

"I will avenge Junior apprentice-sister Xia today by killing you even if I have to lose all four of my limbs and become a cripple!" His eyes and nose began bleeding, and veins appeared all over his body.

"Was she your lover by any chance? Then let me tell you something important before you die... her body was amazing! It is truly a pity that she had killed herself so quickly or else I would have surely enjoyed her body even more! Hahahaha!"

"MENG LI, GO TO HELLLLLLL!!!!" The blue sword in Zhan Xuegang's grasp glowed a dark blue light, and killing intent soared beyond the clouds.

"SPIRIT BLADE!"

"Trying to bring me down with you? Just because you are now a Spirit Grandmaster like me does not mean we are on equal standing, you fool!" Meng Li's red hair glowed a crimson color along with his eyes, looking like a real devil from hell.

"Hell's Fire!"

Suddenly, before the two of them could release their techniques, a little girl in red robes appeared in-between them like a ghost, and in her grasp was a necklace covered in fresh blood.

"For disturbing the peace of our place, your cultivation base shall be crippled as a punishment." The little girl waved her sleeves, and Meng Li and Zhan Xuegang felt their entire cultivation base collapse an instant later.

Without any cultivation to support them, the two were no longer able to control their attacks or fly, and they fell straight to the ground, breaking many bones upon hitting the earth.

"Who are you?!" Meng Li cried out loud as he laid on the ground, experiencing major pain across his body. To cripple him, a Spirit Grandmaster, with a mere wave of her sleeves, her background must be shocking.

As for Zhan Xuegang, he could only stare at the little girl in the air with wide eyes. He was too shocked to think.

"What did we do to offend you?! Answer me!" Meng Li shouted again after receiving no answer from her.

However, the little girl ignored him, descended from the sky to a nearby tree, and walked to where Yuan's unconscious body laid.

"That's the trash who was watching us fight..." Meng Li was aware of Yuan's presence and that he had been watching them, but because he was too weak to affect them, Meng Li treated Yuan like an ant and ignored him. The same goes for Zhan Xuegang.

The little girl kneeled to wipe the blood off Yuan's lips, her hands trembling slightly. "For injuring him... you shall be punished with death..."

After wiping the blood from Yuan's lips, the little girl stood and turned to face the two figures lying on the floor, her expression grim and filled with killing intent.

"Heaven Splitting Sword Strike..." The world suddenly trembled, and the heaven dimmed, almost turning into night. And a sword made from a golden light appeared in the grasp of the little girl.

"Heaven Splitting Sword Strike?! Impossible! What are you doing here in the Lower Heavens?!" Zhan Xuegang recognized the technique being witnessed, and his heart nearly stopped from shock.

The little girl ignored his question and suddenly slashed the sword downwards, and the heavens seemed to have split into two at that moment.

BOOM! A massive earthquake shook the entire Eastern Continent, shocking many experts within the continent, even alerting many ancient experts around the world.

—

Yuan slowly opened his eyes, and the first thing that he noticed was the obviously large earth fissure in front of him with an end that he cannot physically see, looking as though it separated the earth in half.

"What—Did those two cause this?! This is ridiculous!" Yuan's back was soaked in cold sweat upon seeing the earth fissure that seemed endless. He couldn't imagine the power that was required to cause this much destruction. This earth fissure was more than enough to change the geography of this world!

Suddenly, Yuan's heart jumped. He slowly turned his head, and it was this moment he realized that he had been sleeping on the soft lap of this little girl.

"Xiao Hua!" He was pleasantly surprised to see her sitting beside him, even allowing him to sleep on her lap. "Are you hurt anywhere?"

Yuan felt relieved upon seeing no injuries on her.

Xiao Hua suddenly pulled his head back down to her lap. "Master, you shouldn't move too much. You are injured."

"Eh?" Yuan became dumbfounded. "What did you just call me? Master? What kind of game are we playing this time?"

"This is not a game. Xiao Hua has accepted Brother Yuan as her Master." She showed him the necklace covered in blood with a serious expression.

"That's the necklace you gave me—Oh... so that's what you meant by using that to call you... to summon you as a Servant?" He facepalmed upon

realizing the real meaning behind her words, making a loud slapping sound.
"Xiao Hua... you... Aiya!" He sighed loudly.

"Do you not accept Xiao Hua?" Her expression saddened. "Is Xiao Hua a bad girl?"

"That's not it. I really like you, but... to keep you as a Servant is too much... since it will cause many unnecessary misunderstandings..."

"Misunderstands? Xiao Hua does not mind..."

'But I do!' Yuan replied inside his head.

After a moment of silence, Yuan finally said to her, "Brother Yuan."

"Huh?" Xiao Hua looked at him with a puzzled expression on her face.

"As long as you call me Brother Yuan like normally, then there will be no misunderstandings." He explained to her.

"Then..." Her eyes began sparkling. "Brother Yuan!"

She suddenly hugged him, hiding the bashful smile on her face.

«Congratulations! Player Yuan has obtained the world's first Divine grade Servant!»

When the announcement appeared above the sky, countless cries of shock resounded around the world, and rumors of Player Yuan being a cheater quickly began spreading like wildfire on this day.

Chapter 8 - An Overwhelming Advantage

"What the hell! This player Yuan is clearly already at endgame while the rest of us are still picking herbs just to earn barely enough money for a common weapon!"

"The game hasn't even been out for a week and he is already obtaining things that will probably take months, even years of grinding!"

"Can he even be considered a player at this point anymore? He is ahead of the entire player-base—and not by a small margin!"

"At this rate, couldn't he potentially rule over everybody at some point?"

"This asshole must be cheating! There is no way he can obtain all these things so quickly. Even the current best players are nowhere near him, and I refuse to believe that some no-name can possibly be so far ahead of everyone else without cheating!"

"That's right! He's clearly cheating! Where are the admins? What about the game creators? He needs to be punished!"

"He either has balls that are hard as steel or he's completely nuts. To cheat so openly, does he think it wouldn't raise even a little bit of suspicion?"

Rumors of Yuan cheating in the game began spreading like wildfire across the internet.

Cheaters nowadays, especially in popular games, are punished more severely than older times where cheating would only be frowned upon but nobody really tries anything major to stop them.

Furthermore, if you are caught cheating, then there is a high possibility of receiving a fine that is more expensive than ten years of rent for housing, and there are even many cases of cheaters being jailed for up to four years.

With so many risks involved, only those who are rich and really don't care would be willing to cheat.

However, even these types of people wouldn't cheat so openly. So in Yuan's case, people could only assume that he was completely nuts to be so obvious in the current most popular game in the world!

—

"Cheating, huh. What do you think, White Lotus? Do you also believe this Yuan to be a cheater?" A handsome young man in purple robes kicked the decapitated wolf head by his feet to the side. In his grasp was a steel sword with a black handle, and blue lightning snakes would coil around the blade every so often that was dripping with fresh blood.

Beside him stood two other people, both beautiful ladies.

The beautiful young lady with elegant features by his side silently stared at the announcement in the sky. "Whether he is cheating or not does not concern me," she said a moment later, her gaze switching from the announcement to the large black cat beside her. "But I am interested in what a Divine-rank Servant would look like..."

Her Two-tailed Black Cat is a normal monster without a grade, but it has great agility and powerful attacks. If compared to Cultivators, then its power would be equivalent to a Fourth Level Spirit Apprentice.

"This Divine-grade Servant... with this, his influence within and outside the game is massive and can no longer be ignored, and his actions could very well greatly impact the world..."

"What's this? Is the Lightning Emperor, ranked third in the Legacy Ranking, feeling pressure from a no-name?" The other beautiful lady laughed charmingly.

"Do you feel nothing regarding our situation, Fiery Queen?" Lightning Emperor looked at her with a serious expression. "This is not a joking matter. Forget about me, the entire Legacy Ranking may be thrown into disorder because of this Yuan."

"I'd be lying if I say I am not interested in this Player, but the entire Legacy Ranking? That's an exaggeration. He's is probably just another cheater."

"What if he turns out to be the real deal, someone with extreme luck and skills? What will you do then?"

The cheerful expression on Fiery Queen's face turned serious after his question. "Then I will obviously do what I have to and recruit him."

"Hah! Do you think you are the only one with that thought? Forget about the Feng Family who is currently ranked first, every family within the Legacy Ranking is actively looking for him even as we speak!"

"Che. I know that already. But it doesn't matter how many are looking for him. As long I find him first, then he will be mine!"

Lightning Emperor only snorted at her words. "Talking to you is a waste of breath."

—

"We're here... the Skeleton Graveyard." Lightning Emperor readied his sword, his awareness alert.

In front of the current three top players was a large graveyard with many skeletons walking around awkwardly, like wooden puppets with stiff movements.

"Let's quickly finish this. I am feeling sick just from your presence," said Fiery Queen.

"You willingly followed us..."

"Only because we happen to have accepted the same quest."

"Che. Let's go. They have already noticed us."

Fiery Queen retrieved her weapon, which was a long whip. White Lotus followed, holding a normal-looking sword in front of her.

Despite being top players, neither of them had any chance to obtain weapons with a grade, so they can only put up with these normal weapons with no grade.

"Lightning Element." Lightning Emperor caressed his sword, causing the lightning snakes to return, coiling around the blade as though it was dancing.

"Body Enhancement—Speed." Fiery Queen's supple body glowed blue, and her body could no longer feel any weight, feeling as though she has become as light as a feather.

"Xu Hei." White Lotus said softly, and the black cat stood in front of her.

"Let's go!" Lightning Emperor kicked his feet, flying towards the skeletons at a quick speed.

"Don't order me around!" Fiery Queen also charged forward, followed by White Lotus and her Servant.

—

"Xiao Hua... you..." Yuan was shocked upon seeing her character status. Although he doesn't understand what they meant, they were obviously not ordinary.

"To have a companion this powerful so early on in the game... Isn't this technically cheating?" Yuan was aware of the advantage he currently has over all the other players, but because he isn't playing for competitive reasons, he doesn't on planning to use this advantage.

"Say, Xiao Hua. Compared to a Spirit Apprentice cultivator, how much stronger are you as a Spirit King?" He asked her so he could better comprehend the differences between them.

"..." Xiao Hua looked at him weirdly for a moment before saying, "one thousand... ten thousand...? Brother Yuan, they cannot be compared because the difference is too vast."

"The difference is too vast? How so?"

"Hmmm... That mountain over there... Xiao Hua can make it disappear with one attack." She pointed at the large mountain at the horizon and said casually.

"Disappear with one attack?" Yuan's eyes popped when he heard her confident words. If what she said was true, wouldn't that make her a walking bomb with destructive power equivalent to a nuke? One that can be used multiple times? How could she possibly be a mere Servant? Wouldn't her existence be considered a bit unbalanced for a game? Or are all cultivators this powerful once they reach a certain stage?

Yuan couldn't help but wonder what the game creators were thinking when they thought that giving such a small girl like her so much power would be a great idea.

"Xiao Hua, do not use your powers recklessly, okay? I don't want to see you accidentally destroy a city or a piece of land—" He suddenly turned to look at the earth fissure, his eyes wide open.

"X...Xiao Hua... did you do this?" He asked her after having a feeling that it wasn't the two cultivators who had created this mess.

"Un." She nodded calmly, seemingly thinking nothing much of it.

"Aiii!" Yuan sighed loudly. "What if you had accidentally hit somebody with that? Xiao Hua, listen up. Do not use your power unless I give you permission, okay?"

"Un." She accepted his request quite easily.

"Good." Yuan looked at the earth fissure one more time before turning away with a bitter smile on his face. "Let's go, Xiao Hua. It'd be bad if someone

were to see us here right now..."

Thus, the two began walking further from the crime scene.

—

"Xiao Hua, what will you do now that you have become my Servant?" Yuan asked her, still unsure of what the purpose of Servants is in this game.

"Xiao Hua will follow Brother Yuan wherever he goes," she answered quickly. "And she will lead you to the next realm."

"Huh? Lead me to the next realm?"

"Un."

"Well... nevermind that for now. What about your family? What will they say if you decide to leave home to follow me?"

"Brother Yuan is Xiao Hua's family now, so there are no problems." She looked at him with flickering eyes.

"I don't think that logic would work..." He shook his head, unsure of what to do with her.

Taking a child who he met only a few days ago away from her family would cause countless problems if this was the real world, but Yuan recalled that he was in a game and she is only an NPC, so there shouldn't be any problems.

"Alright, do as you wish, Xiao Hua." He finally said with a forfeiting smile.

Chapter 9 - Jade Frog

«Congratulations! Player Lightning Emperor, Player White Lotus, and Player Fiery Queen has become the first players to have cleared Skeleton Graveyard!»

The sudden announcement shocked many players, but it was not because they were the first to clear this dungeon but because three different families from the Legacy Ranking were grouped together! In other words, they were cooperating, something that is rarely seen by the public, if ever.

"Holy shit! Three of the top 10 families within the Legacy are actually cooperating to clear a dungeon together!"

"Perhaps they have decided to make an alliance to bring down this Player Yuan?"

"That is a possibility..."

Many players gossiped about the new announcement online, some even making conspiracies. The Legacy Ranking is a system in the real world — or a real-world ranking so to speak, where professional players fight each other competitively to obtain a spot within the Legacy Ranking.

There can only be 100 players in the Legacy Ranking, ranked one to one hundred. Being a part of the Legacy Ranking brings countless profits and almost no downfalls. Wealth, fame, authority, power — one can obtain all that just by being in the Legacy Ranking. Additionally, once a player becomes a part of the Legacy Ranking, regardless of their rank, their family will also become a Legacy Family, allowing them to recruit talented players to help them remain or climb the ranks within the Legacy Ranking, almost like a guild or clan in games.

Countless players, young and old, fight in worldwide tournaments just to obtain the qualifications to challenge someone who is within the Legacy Ranking to steal their spot. Furthermore, only one game would be chosen every decade as the focus. Because of this, the rankings would usually have major changes every decade, except for those at the very top of the ranking.

The game the Legacy Ranking had chosen to be the main focus for this decade was obviously Cultivation Online, the hottest VRMMORPG in the world to date.

Moments after the announcement, another one appears above the clouds.

«Congratulations! Player Xiong Lu has obtained the world's first Spirit grade equipment!»

"He's finally appeared, huh." Lightning Emperor narrowed his gaze at the name on the announcement.

Xiong Lu of the Heaven's Divinity, standing at the top of the Legacy Ranking as the number one Player in this world. He is a major figure even in the real world, owning one of the biggest gaming companies out there.

"Even an unsurpassable monster like him could only obtain the lowest grade equipment in this game after so many hours... yet this Yuan..." Fiery Queen sighed loudly.

"Xiao Hua, what are the grades for equipment?" Yuan asked her after the announcement disappeared.

"Spirit, Earth, Heaven, Divine, each broken into four tiers of quality: Low, Medium, High, and Peak. There are other grades higher than Divine, but there is no need to worry about that since you can only find them in the higher realms."

"Realm... you also mentioned that before. What did you mean by bringing me to the next realm?"

"Brother Yuan is currently in the lowest realm — the Lower Heaven. Xiao Hua's job is to help Brother Yuan reach the highest realm — the Supreme Heaven."

"Your job?" He questioned. Why and who would give her such a job?

"Xiao Hua accepted the Supreme Heaven's Legacy, so it became her job to find a successor."

"...What a deep game." Yuan looked at the sky, "How do we get to the next realm?" he asked.

"Brother Yuan is too weak right now and should only worry about getting stronger. After that, we can challenge the Realm Guardian for access to the next realm."

"So it's that kind of game, huh." Yuan became more understanding of the goal of this game.

"Is there a reward for getting there? The Supreme Heaven," he asked out of curiosity, not expecting anything too much.

"Everything," she answered after a moment of silence, "The winner shall obtain everything this world has to offer... so... they become this world's God."

"Eh?" Yuan totally did not expect such a generous reward. "Allowing Players to become God? So the game creators are essentially giving admin powers to those who reach that point? How generous of them."

'But I have no use for such power, so I will enjoy my life to the fullest and leave it to others to fight for that reward.' Yuan thought to himself. He was content with just having the ability to use his eyes and limbs as he wishes.

—

After walking for some time, Yuan finally realized that they were walking aimlessly without a destination. "Xiao Hua, where should we go now? Or rather, what should we do?" he asked her, who seemed to be the one leading this journey.

Xiao Hua looked at him with a nonchalant expression and said, "Help Brother Yuan get stronger."

"And how will we do that?" Although he doesn't really desire strength, it wasn't something he would refuse either.

"That..." Xiao Hua suddenly pointed to the distance where there was an open field, and in this middle of this open field was a large figure at least 5 meters tall.

"That's... a frog?" Yuan quickly blinked a few times nonstop when he saw the massive frog with jade-like skin sitting in the middle with its eyes closed, seemingly sleeping.

"That is a Jade Frog; it has power equivalent to a Ninth Level Spirit Apprentice cultivator."

"Ninth Level Spirit Apprentice?! I am only a Seventh Level Spirit Apprentice! Are you telling me to go kill myself?!" Yuan nearly cried upon hearing her words.

"Although the Jade Frog is two levels above Brother Yuan's cultivation base, it shouldn't matter because Brother Yuan has cultivated the Heaven Consuming Technique, allowing him to be stronger than most Cultivators at the same level."

"Is that really how it works?"

"Un."

"But I also don't know how to fight — Ah... it noticed us." Yuan suddenly pointed at the Jade Frog, its head turned towards their direction with killing intent radiating from its gaze.

Whoosh! The Jade Frog suddenly leaped and appeared dozens of meters into the sky, almost as though it was trying to touch the clouds.

"Watch out!" Yuan instinctively grabbed Xiao Hua by her waist with one hand and jumped back to avoid the shadow. Seconds later, the Jade Frog lands at where they originally stood, creating a dent in the ground.

"That was close..." Yuan wiped the invisible sweat from his forehead when he saw the hole on the ground. They could've been meat paste if he didn't dodge that.

"Brother Yuan, good luck." She gave him a thumbs up and casually walked to the side to watch, dumbfounding Yuan.

Thinking that she was just an ant, the Jade Frog ignored her and kept its gaze on Yuan.

"You... How am I supposed to fight this monster without any weapons?!" he cried out loud.

"Then Brother Yuan can use this..." Xiao Hua retrieved a small pouch from her robes, pulling out a steel sword from inside.

However, when she pulled out the sword, it also alerted the Jade Frog, causing it to leap towards her. In the Jade Frog's eyes, Xiao Hua, who has a weapon, was more of a threat than Yuan who was empty-handed, so it ignored Yuan and went for her instead.

"Xiao Hua! Watch out!" He shouted to warn her, but Xiao Hua only watched it fall on her with a calm expression.

Boom! The ground slightly shook when the Jade Frog landed on Xiao Hua's small frame.

Yuan's eyes widened, and his jaw dropped from shock. In his mind, Xiao Hua has most likely turned into a pancake after being squashed by the Jade Frog's massive body and weight.

Suddenly, purple mists began seeping out from beneath the Jade Frog, almost like it had farted, and Yuan returned to his senses.

The purple mist distanced itself from the Jade Frog and gathered beside Yuan, before forming into the figure of a small girl.

"Xiao Hua!" Yuan was baffled by what he'd just witnessed. What just happened?

"What's wrong, Brother Yuan?" she asked him in a normal voice as though she did not just get flattened by the Jade Frog.

"You... what happened just now?"

"Xiao Hua's Purple Mist Physique?"

"Yes... but I am also talking about why you just stood there to take its attack! You nearly gave me a heart attack!"

"But Brother Yuan said Xiao Hua cannot use her power until Xiao Hua has permission, and Xiao Hua did not have permission..."

Yuan looked at her with wide eyes, his expression perplexed. "Are you an idiot?!" he suddenly yelled at her.

Startled, Xiao Hua shrunk her head like a scared turtle.

"Even if you didn't want to use your powers, you could've just dodged! There was no reason for you to stand there and take the hit!" Yuan was upset, but mostly at himself for telling her to do something without thinking about it.

Xiao Hua is just an NPC, someone programmed to act and do things a certain way, so if Yuan told her to sit, then she will sit without questioning him, her 'master'. But Yuan didn't take into consideration that she was an NPC, who is also his Servant, and treated her as a real human, hence why he believed that she would have some logic in her when he told her to not use her power recklessly.

"Sorry..." Xiao Hua apologized.

"Aiii!" Yuan facepalmed when he saw her sad face. "I should be the one apologizing, Xiao Hua... I had told you to do something without thinking... I'm sorry."

"?"

"When I told you to not use your powers, I didn't mean to completely seal off your power and be a punching bag... If you are in danger or feel like you need to use your powers, then just use it."

"What about Brother Yuan's permission?"

"Forget I had ever said that and use it according to your judgment. What I am trying to say is there's no need to crack an egg by smashing it with a large rock, and think about your surroundings and the environment before you decide to use it."

"Xiao Hua understands." She nodded.

"Good. Now, give me that sword. I have a debt to settle with this damn frog."

The moment Yuan grabbed the steel sword by the handle, information about the sword appeared in his head.

«Spirit Sword»

«Grade: Spirit»

«Quality: Peak»

«Physical Strength Required: 900»

«Mental Strength Required: 1,500»

«Sharpness: 1,000»

«Description: Cuts metal like butter.»

"Good sword!" Yuan instantly took a liking to it after swinging it a few times in the air.

Chapter 10 - A Natural Prodigy

The Jade Frog remained unmoving, its gaze seemingly filled with confusion as it stared at Xiao Hua, who didn't even bother to return its gaze, as though it was nothing in her eyes. How did this insignificant-looking little girl escape unscathed after being crushed by its massive weight, it wondered.

Yuan walked forward in a calm manner, his gaze deeply focused on the Jade Frog. Although he has never been in a fight before, he felt oddly calm at this moment, as though it was only natural.

"I have never been in a fight before, let alone use a sword. I have spent the majority of my life in a bed, silently rotting away. However, as powerless I may be outside of this world, I can use my limbs and eyes to the fullest in this world! As long as I am here, I feel as though I can achieve anything, even defeating this giant frog!" Yuan suddenly dashed towards the Jade Frog, alerting it. His speed was faster than even the fastest man on earth, and he arrived in front of Jade Frog in the blink of an eye.

"Witness! Remember! Learn! Execute!" The fight between the two cultivators flashed inside his head, and his hands moved accordingly.

Slash! The sword in his grasp had easily sliced the skin of the Jade Frog, causing blood to gush out from its stomach. The Jade Frog screamed from the pain, and it jumped back to avoid him.

Xiao Hua's eyes widened when she witnessed the movements of Yuan's sword. "Although it was stiff and seemed like the swing of an amateur... it was clearly a sword technique."

Yuan did not chase after the Jade Frog and only looked at the sword in his grasp, and on his face was dissatisfaction. "Che. I moved exactly as that guy

did, but something about it did not feel right..."

"Brother Yuan... you..." Xiao Hua could only be shocked. What she just witnessed was the technique of one of the two cultivators she had killed. Did he learn it just from watching them fight for a brief moment?

For someone to learn and execute a technique only after watching it once and only for a few moments, Yuan could only be described as a prodigy.

"I executed the movements perfectly and it had hit the target, but there was something missing..." Yuan pondered. "Perhaps... Qi?"

As though he had received enlightenment, Yuan smiled, and his gaze returned to the Jade Frog. "This time, I will slay you!" he exclaimed with confidence, his sword pointing at the trembling Jade Frog.

The Jade Frog was confused. The human looked incredibly weak and vulnerable just moments ago, yet the moment he grabbed the sword, everything about him changed. His weak aura became sharp like the sword, and his gaze showed dominance, even a hint of arrogance. What had happened to him that caused this change?

Even Xiao Hua was also a bit baffled by his change. It was as if he had gone from a mortal who knew nothing about the world to a profound swordmaster! Even the aura he emitted has changed entirely!

Yuan dashed towards the Jade Frog while it was dazed, and his hands maneuvered the sword in his hands with the same movements but with more precision and speed. The sword in his hand suddenly glowed red —

"Bloody Sword Strike!"

Sha! The Jade Frog instinctively leaped back, but its movements were too slow when compared to Yuan's sword strike, and it split in half in mid-air, causing organs and blood to fly everywhere.

«You have learned Bloody Sword Strike»

—

«Bloody Sword Strike»

«Rank: Earth»

«Mastery Level: 1»

«Description: Consumes 900 Qi. Must wield a sword to activate. A technique from the Blood Sect.»

«Player Yuan has become the world's first player to have learned an Earth-ranked skill! Congratulations!»

«Player Yuan has become the first player to have killed the Elite Boss: Jade Frog!»

Two announcements appeared, back to back, for the world to see.

After the Jade Frog died, Xiao Hua ran up to Yuan and asked him, "Brother Yuan, where did you learn that technique?"

The sharp aura around Yuan disappeared the moment he heard Xiao Hua's voice. "Hm? Oh, it was a skill used by that red-haired dude fighting in the sky," he said casually.

Xiao Hua silently looked at him with her eyes flickering with admiration. "No wonder Brother Yuan comprehended the Heaven's Secret Art in such a short time..." she mumbled to herself.

"Anyway, I feel like I have gotten stronger from that fight just now. It also felt great to use my body in such a way!" Yuan laughed, "Perhaps I have a talent for fighting? Hahaha!"

"Brother Yuan is a genius, no doubt." Xiao Hua nodded with a serious face.

"Stop it... you're embarrassing me with your flattering..."

"Xiao Hua is not flattering. Brother Yuan's ability to comprehend things is otherworldly. Such talents are rarely seen even in the higher heavens, let alone this Lower Heaven..."

Yuan shook his head, "I was able to beat that frog with ease only because of the powerful sword you gave me. Thank you, Xiao Hua." He patted her head.

"Then when Brother Yuan becomes strong enough, Xiao Hua will give Brother Yuan more powerful weapons!" she said cheerfully.

"You have equipment stronger than this sword? What are you, a walking weapon shop?"

"Un. But Brother Yuan is too weak to wield any of them, so Xiao Hua can only wait until he gets strong enough to wield them without exploding to death."

"E...Exploding to death?" Yuan shivered upon hearing her cruel words. "Surely you must be joking..."

"Unlike normal weapons without a grade, Spirit-grade and above weapons are called Spiritual Weapons that have the ability to gain their own consciousness. If one tries to wield a Spiritual Weapon stronger than their own strength, then the conscious in the weapon may try to kill that person depending on its personality." Xiao Hua explained to him.

"How dangerous... it's almost as if everything in this game will try to kill you if you are too weak..." Yuan thought to himself.

"Weapons, monsters, even humans... it does not matter... if it is strong, then it will dominate the weak. That's why Brother Yuan has to become strong, so he will not be bullied by the strong."

"I will be fine as long as I have you, Xiao Hua." Yuan tried to praise her, but she only turned solemn.

"Brother Yuan, Xiao Hua is only strong in this Lower Heaven... In the higher heavens, Xiao Hua is only an ant when compared to the real experts..." she sighed.

"Only an ant?" Yuan cannot imagine how powerful the cultivators in the higher heavens are when Xiao Hua is already strong enough to destroy an entire mountain.

Xiao Hua suddenly walked away and towards where the dead Jade Frog laid.

"Where are you going?" Yuan followed her.

"When monsters die, some of them will drop a monster core." Xiao Hua shoved her entire arm into the Jade Frog's corpse without flinching and pulled out a small crystal a moment later. "Monster cores are very important to Cultivators because they can greatly assist them in cultivation with Qi stored inside."

"Here you go, Brother Yuan." She handed Yuan the monster core.

"What about you? Don't you also need to grow stronger?" He asked.

"The amount of Qi inside this monster core is too little to have any effect on Xiao Hua, so Brother Yuan should use it."

Yuan nodded, and he threw the monster core into his mouth without hesitation. "Taste like candy..." he thought.

"Ah! Brother Yuan!" Xiao Hua shouted loudly, looking baffled and scared at the same time when she saw Yuan throw the monster core directly into his mouth.

"Hm? What's wrong?" Yuan looked at her casually.

"Monster cores are not meant to be swallowed like that!" she said urgently, "Hurry up and spit it out!"

When Yuan saw her panicking face, he also panicked. What will happen to him now that he ate one?

Cold sweat soaked Yuan's back, but there was nothing he could do because the monster core had melted in his mouth the moment it touched his tongue and have already entered his stomach...

"I... already swallowed it..." Yuan spoke in a stiff tone. "I know it is already too late, but what happens if someone swallows a monster core?"

Xiao Hua dropped to her knees and said, "Monster cores contain the entire cultivation base of its retainer before death, so if someone tries to swallow so much Qi in one go... they will explode to death..."

"Exploding to death again!?" Yuan's jaw dropped from shock. There are too many things in this game that will cause him to explode to death!

Suddenly—

"..."

"...."

"Brother Yuan, did you just have a breakthrough?" Xiao Hua asked after a long silence, her voice filled with disbelief.

"I did..." he answered with a weird smile.

Chapter 11 - A Priceless Treasure

Xiao Hua looked at Yuan with a pondering gaze. "Brother Yuan's cultivation base was only at the early stages of Seventh Level Spirit Apprentice before consuming the Jade Frog monster core. Even if Brother Yuan consumes the entire Jade Frog monster core, he shouldn't be able to break through to Eighth Level Spirit Apprentice right away and would only be halfway there..."

"Additionally, Brother Yuan also directly absorbed the entire monster core and did not receive any backlash but had a breakthrough instead... Xiao Hua has never seen anything like this before..."

"Perhaps it had something to do with my physique?" Yuan said.

"Brother Yuan's physique?"

"It's called Heaven Refining Physique," he said, hoping she'd know something about it.

However, Xiao Hua only tilted her head. "Heaven Refining Physique? Xiao Hua has never heard of it before..."

"But if it has something to do with why Brother Yuan was able to consume that Jade Frog monster core, then we can obtain some more monster cores to experiment."

"Hmm..." Yuan suddenly retrieved the token given to him by the goddess during his character evaluation and showed it to her. "Then do you know what this thing is, or its purpose?"

Xiao Hua's eyes instantly widened with shock when she saw the jade token in his hand. "Ancient Spirit Jade! And so big!" she exclaimed loudly,

"Where did Brother Yuan obtain this!?"

"It was given to me by some beauty. I don't know her name, though. What does it do?" Yuan became curious when he saw her shocked expression, looking as though she just witnessed the heavens collapse before her.

"This is a Spirit Jade; it is somewhat similar to a monster core but holds far more Qi within. Even a pebble-sized Royal Spirit Jade of low quality, the lowest grade, is extremely valuable in the higher heavens... since it can awaken or bestow bloodlines..." Xiao Hua forcefully swallowed her saliva and continued, "The Ancient Spirit Jade in Brother Yuan's grasp is three grades above the Royal Spirit Jade... and is probably of high quality... Not to mention it is the size of a palm-sized rock..."

The presence of the Ancient Spirit Jade was enough to make the usually calm Xiao Hua tremble uncontrollably — it was just that valuable of a treasure.

"Hmmm... So I can consume this and obtain Qi like monster cores, right?" Yuan licked his lips when he thought about how sweet the Jade Frog monster core tasted. "I wonder how much stronger I'll grow if I were to eat this..."

Xiao Hua nearly received a heart attack when she heard his words and hastily grabbed his hands. "You mustn't! If Brother Yuan consumes this, even if you have a unique physique, you will surely explode to death! Even a peak Spirit Emperor would not dare to imagine consuming it!"

Yuan chuckled when he saw the anxious face she made, "Relax, Xiao Hua. I won't consume it. Such a valuable item, how could I consume it before I find that beauty to ask her why she gave me this Spirit Jade?"

'For that person to have this Ancient Spirit Jade, she must have a shocking background... Maybe someone from the Supreme Heaven?' Xiao Hua thought to herself.

"Xiao Hua, here."

"?"

"!!!"

Xiao Hua's soul nearly abandoned her body when Yuan suddenly threw the Ancient Spirit Jade at her. Barely catching it, she looked at him with a baffled expression. "Brother Yuan...?"

"It'd be wiser if you were to keep this Ancient Spirit Jade for me until I become strong enough to protect it," he said.

"Xiao Hua cannot hold something this valuable!" She instantly refused while shaking her head, her hands already trembling from the invisible weight coming from the Ancient Spirit Jade.

Yuan frowned, "If you don't want to hold it, then who will? I am aware of my weak existence in this vast world, so having me hold something like that will only bring endless trouble. If I could, I would just throw it away, but now that I know its value... You know what I mean, right?"

Xiao Hua clenched her fist and nodded with a serious expression. "Xiao Hua vows to protect this Ancient Spirit Jade even at the cost of her life!"

"Wrong!" Yuan said loudly. "No matter how valuable that Spirit Jade is, it is only an object and will never be as valuable as your life! If it ever comes to losing your life or that Spirit Jade, then you will choose to lose the Spirit Jade!"

"But..."

"No buts! This is an order!" Yuan was adamant about his decision. In his eyes, there is nothing in this world that can be as valuable as Xiao Hua's life.

"...Xiao Hua understands..." She reluctantly nodded before storing the Ancient Spirit Jade in her storage pouch.

With the Ancient Spirit Jade gone from her sight, the atmosphere was no longer as heavy and suffocating.

'I was unable to learn more about that beauty or why she'd give me such a valuable treasure... How unfortunate.' Yuan sighed inwardly.

"Where do we go to obtain more monster cores?" Yuan asked her with the steel sword still in his grasp, his blood still heated from the battle with the Jade Frog.

"Any monster with a cultivation base of Seventh Level Spirit Apprentice and above will have a chance to drop a monster core," she said.

"Then what are we waiting for? Let's get hunting!"

Xiao Hua began leading Yuan around to find monsters for him to fight. With her cultivation base, it was an easy job for her to locate monsters within a thousand-meter radius.

"There's a middle-level monster 200 meters to the north."

Low-level are monsters between levels one to three, middle-level between levels four to six, and high-level are monsters between levels seven to nine.

"Eh? If it isn't at least at a Seventh Level, what point is there for us to hunt them if they don't drop monster cores?"

"Brother Yuan, no matter how talented an individual is or how many heavenly techniques they have, without the experience to use them properly, they will still be regarded as someone weak."

"I cannot argue against that..." Yuan nodded.

Thus, the two began slaughtering every monster that crossed paths with them... or more precisely, every monster that was unfortunate enough to be in that area.

Chapter 12 - Heaven

«Player Fire Red, Player Poisoned Fiend, Player Mad Dog, and Player Get Creamed has become the first players to have cleared Burning Cave for the first time! Congratulations!»

An announcement hung above the clouds as Yuan elegantly danced around with the steel sword in his grasp, quickly decapitating the four silver wolves surrounding him. The wolf corpses plummeted to the ground, but Yuan did not stop his sword movements and continued to dance, slaying the two wolves that were trying to run.

Xiao Hua, who was watching him at a distance clapped, like a spectator watching a street performance. "Brother Yuan's growth is simply astonishing, like a sponge absorbing water, he easily comprehends everything from his own weakness to his strength. In just a few mere hours, his swordsmanship and Qi manipulation has increased by leaps and bounds."

Her gaze suddenly flickered with regret. "If only Brother Yuan grew up in Supreme Heaven instead of this Lower Heaven where the Qi lacks in both quality and quantity..."

After slaying the last silver wolf, Yuan retrieved all monster cores he had collected during this grind.

"Only seven had dropped after killing dozens of monsters, huh." Yuan cried inwardly at the small amount of monster core he has obtained after spending so much time and effort into slaying monsters.

"Seven monster cores is considered a pretty successful hunt..." Xiao Hua said to him upon seeing his disappointment. "If used properly, seven

monster cores can last a month of cultivation."

"But in Brother Yuan's case..."

"This wouldn't even last a minute for me, let alone one month!" Yuan suddenly throws one into his mouth, and sure enough, it startled Xiao Hua again.

"Brother Yuan... you..." Xiao Hua looked at Yuan like he was a ghost, her gaze filled with shock and bewilderment.

"Taste like candy." Yuan licked his lips and said, "Although it did not have as much Qi as the Jade Frog's monster core, it is still very beneficial towards my cultivation."

"B...B...Brother Yuan..." Xiao Hua called him, but she didn't know what to say after that.

"What's wrong?" He looked at her with an innocent gaze, seemingly unaware of how amazing his ability is.

"When a cultivator absorbs the Qi within a monster core, they can only absorb a limited amount of Qi from the monster core depending on the quality of the monster core. However, even a high-grade monster core will only allow one to absorb at most 50% of its total Qi before the rest

dissipates back into the world. This is a rule set by Heaven itself and cannot be defied. But... from Brother Yuan's situation... perhaps his Heaven Refining Physique can ignore this rule and defy the Heavens?" Xiao Hua trembled at the thought that Yuan could possibly have a heaven-defying physique.

"Defying the heavens, huh..." Yuan thought of his real body in real life. "If only I had such an ability in my other life, too..." he sighed inwardly.

Suddenly, Xiao Hua turned her head, and her gaze narrowed. "Brother Yuan, there are people near us..."

'Hm? People? Are they players or NPCs?' He wondered. Since this will be his first encounter with other people besides Xiao Hua since he started playing this game, he wanted to see them.

"Three people — two Seventh Level Spirit Apprentice and one Eighth Level Spirit Apprentice, and they are fighting a peak-level Fiery Lizard."

"I am interested," said Yuan. "Let's go take a look."

"Un."

—

Three young adults, two male, and one female stood a few meters away from a giant lizard with red scales that had black lines spread across like burn marks from a lightning strike. Their gaze flickered continuously with fear and nervousness, and underneath their clothes was a body covered in sweat. They have been fighting this Fiery Lizard for many minutes, yet none of them was able to break through this Fiery Lizard's defense.

"Shit! This thing's scale is as hard as steel! Senior apprentice-brother Mo, we need to leave now before we exhaust our Qi!"

"Junior apprentice-brother Wang is right! We cannot beat this beast with our current abilities! Let's leave before it's too late!"

The eldest among the three there, Mo Zhou, bit his lips as he stared at the Fiery Lizard before him. He has already exhausted all his techniques on this Fiery Lizard, yet there were only scratches on the surface of its scales. "I refuse!" he suddenly shouted.

"Senior apprentice-brother Mo!" The other two became anxious when they saw the stubbornness on his face.

"You two can leave, but I will stay here until either one of us dies! My life depends on this Fiery Lizard's monster core!" Mo Zhou bit his lips until it bled, but he continued to look at the Fiery Lizard with narrowed eyes filled with determination. "Either I die here or I return to the sect and die there! Since I will die either way, I might as well put everything on the line at this moment!"

"Then die here! I only helped you out of pity!" said the male before he turned to run away from the fight.

"This wouldn't be happening if you didn't offend Senior apprentice-brother Ren!" The female also abandoned the fight. Neither of those two was willing to risk their lives for him despite being friends for many years.

Mo Zhou sighed at his junior apprentice sister's words. "Junior apprentice-sister Ling is right... but I couldn't ignore my heart no matter what... not even knowing that I will be offending a Chosen by doing so..." He lifted his sword once again to face the Fiery Lizard. "Come, you trash!"

—

"Hmm? Xiao Hua, you said that there were three, but why is there only one here?" Yuan pointed at Mo Zhou, who was fighting the Fiery Lizard with fierce eyes and a bloodied robe.

"They left before we could arrive," she replied calmly.

"What about him? Do you think he'll win?"

Xiao Hua shook her head. "His cultivation base is almost dried up; it will only be a matter of time before he collapses due to Qi Deprivation."

"He is the only other person I have met so far besides you, Xiao Hua. It'd be a shame if he were to die here..." Yuan suddenly jumped into the fight with his sword raised. "Bloody Sword Strike!"

The Spirit Sword easily penetrated the unsuspected Fiery Lizard's steel-like scales and directly pierced its heart, instantly killing it with one strike. "Are you okay?" Yuan looked at the dazed Mo Zhou, who was staring at him like a dumb chicken, his mouth wide open and all.

Chapter 13 - Flying Sword Sec

"T...T...T...This..." Mo Zhou stuttered like a baby who just started speaking. He has never seen anyone penetrate the scales of a Fiery Lizard known for its nearly impenetrable defense with a single sword strike, let alone with such ease!

Yuan suddenly extended his hand for Mo Zhou, who had fallen to the ground from shock. "So? Why did you continue to fight that thing despite the obvious conclusion?" he asked as he pulled Mo Zhou off the ground.

Mo Zhou's expression stiffened upon hearing his question. "I will die if I fail to obtain a Fiery Lizard monster core, so I might as well die trying..." he sighed in a sorrowful tone.

"Why would you die if you cannot obtain one?" Yuan became interested in his situation.

Taking another deep sigh, Mo Zhou said, "Because I had offended a Chosen from my sect..."

"Chosen? What's that?"

Mo Zhou looked at him with a weird expression. How can anyone not know what a Chosen means?

"A Chosen is someone who is favored by the mighty heaven; they are all born with great talents and are respected by everyone."

"Favored by the heavens, huh..." Yuan nodded, "So you mean to tell me that you are going to die because you had offended this one guy? What did you do, kill his parents in front of him?"

Mo Zhou shook his head violently at his words. "No way! All I did was court senior apprentice-sister Xing... but because senior apprentice-brother Ren also fancies her... my actions angered him..."

"Are they dating?"

"No..."

"Aiya!" Yuan facepalmed, making a loud slapping sound. "He wants to kill you because you went ahead and confessed your love to this Xing girl? What kind of unreasonable man is this senior apprentice-brother Ren of yours?"

Mo Zhou became dumbfounded by his words. "But... this type of situation happens all the time...?" he thought to himself.

Yuan glanced at the Fiery Lizard corpse. "You need that, right?" he asked while pointing.

"...Yes."

"Take it."

"Eh?" Mo Zhou looked at him with a face full of surprise. This Fiery Lizard monster core is no doubt a valuable treasure that even the sect elders would covet, yet this young man was willing to give it to him, who he just met, just like that?

"Really...?" Mo Zhou mumbled in a doubtful tone. "But it was you who killed it..."

"Then I'll just take it for myself—" Yuan turned to walk towards the corpse.

Seeing his actions, Mo Zhou quickly panicked. "Wait! I want – No, please let me have it! I, Mo Zhou of the Flying Sword Sect, will be forever in your debt!"

"Brother Yuan is really kind. If it were anybody else, they would have definitely kept it for themselves." Xiao Hua thought to herself as she

watched Mo Zhou fall to his knees to kowtow to Yuan as a way to show his gratitude.

"If there is anything this savior needs from this Mo Zhou, he will do it without fail!" Mo Zhou said loudly with tears falling off the corner of his eyes.

Having never been in such a situation, Yuan didn't know how to react to Mo Zhou's actions. "No need to be so humble. If I can exchange a mere monster core for someone's life, of course, I will do it without hesitation," he said.

"Thank you! Thank you very much..." Mo Zhou stayed kowtowing. "Not only did you already save me once from the Fiery Lizard... you are also giving me this Fiery Lizard monster core... In such a short time, you have already saved my life twice! Please, accept this as my gratitude..."

"It is awkward seeing a grown man such as yourself in this position while crying... hurry and stand up already..."

—

It took a moment, but Mo Zhou eventually calmed down.

"I haven't gotten your name..."

"You can call me Yuan."

"Then, fellow Daoist Yuan, once again, I am Mo Zhou, an outer disciple of the Flying Sword Sect." Mo Zhou stretched his hands for a handshake.

"Flying Sword Sect? What's a sect, again?" Yuan asked, forgetting that he'd already heard of such a word when he first arrived in this world.

Mo Zhou instantly became dazed at his question.

"Brother Yuan, a Sect is an organization dedicated to the practices of cultivation, where people go to study cultivation." Xiao Hua explained to him.

"So in other words... a school for cultivators?" Yuan looked at Mo Zhou, and a profound light flashed in his eyes. "Hey, Mo Zhou, can you give me a tour around your Flying Sword Sect? I have never been to a sect before, you see..."

Mo Zhou trembled, waking up from his daze. "So you really are a rogue cultivator..." he mumbled in a voice of disbelief.

"Rogue cultivator?" Yuan looked at Xiao Hua with a question mark floating on the top of his head.

"They are independent cultivators that do not belong to any sect."

"Oh, I understand. But why do you look so shocked?" He turned to look at Mo Zhou.

"I can tell that Daoist Yuan is a Ninth Level Spirit Apprentice, but he was able to slay that Fiery Lizard that even Third Level Spirit Warriors would have trouble, and you even killed it with such ease..."

"What he is trying to say is Brother Yuan, who does not have the support of Sects, shouldn't be this powerful," Xiao Hua intervened.

She looked at the dumbfounded Mo Zhou and said, "Brother Yuan is special. Don't compare him with these geniuses. Even these so-called Chosen are nothing in front of Brother Yuan."

"Ah, you are making me blush with such a bashful statement..." Yuan sighed in a low voice, his face slightly red.

"No – as arrogant as it may have sounded, I believe it... that Daoist Yuan is no doubt a genius." Mo Zhou said with a serious expression. "As for visiting my Flying Sword Sect... I will have to get permission from my sect elder before I can say for sure..."

"Really? Then what are we waiting for?" Yuan said cheerfully. He didn't expect that he'd have the chance to go to school in a video game, something

he did not have the luxury of doing in the real world due to the limitations on his body.

"Ah! Give me a second to retrieve the monster core..." Mo Zhou said hastily, nearly forgetting about it.

Chapter 14 - Thousand Swords Formation

"Bloody Sword Strike!"

A red arc of light swept through the forest and directly beheaded the three meters tall ape without alerting it.

«Your comprehension with Bloody Sword Strike has reached a new level»

«Bloody Sword Strike Mastery Level (1) → (2)»

«Bloody Sword Strike»

«Rank: Earth»

«Mastery Level: 2»

«Description: Consumes 90,000 Qi. Must wield a sword to activate. A technique from the Blood Sect.»

When Yuan noticed how the Qi consumption had increased a hundred folds with a single mastery level increase, his jaw dropped from shock. Wouldn't his Heaven Splitting Sword Strike require one million Qi to activate at mastery level 2 at this rate?

"Fellow Daoist Yuan is really... incomprehensible..." Mo Zhou trembled in shock as he watched Yuan slay high-level monsters with ease, and all in a single strike. "Even that high-level Spirit Apprentice Bull Ape was slain in a single strike..."

Ever since they met and decided to visit the Flying Sword Sect, Yuan would hunt down every monster in their path, collecting a few more monster cores.

"Eleven so far, huh..." Yuan counted the number of monster cores he had obtained, and the bundle of glistening monster cores in Yuan's grasp dumbfounded Mo Zhou to the core, who thought he was in an auction house.

"So many monster cores!"

Mo Zhou exclaimed loudly. Monster cores are all valuable resources that greatly assist cultivators with their cultivation, and they are greatly desired by cultivators from all levels. And because they can only be acquired through high-level monsters, they are considered rare and hard to obtain. But now in front of his eyes, there are a dozen of them all gathered on one man's palm.

"You consider this many? It won't even fill the gap between my teeth if I eat them all..." Yuan sighed.

"What?"

Mo Zhou couldn't comprehend the meaning behind his words, but he had a premonition that he would regret it if he knew, so he decided to ignore it.

—

"We have been running into a lot of high-level monsters, haven't we? That was already the sixth one..." Mo Zhou pondered as another high-level monster falls to the ground with its head detached from its neck.

"You really like beheading things..."

"It's efficient and easy, after all." Yuan smiled casually: "Tch. No monster core from this one..."

"Easy, huh..."

Mo Zhou inwardly compared Yuan with the Chosen in his sect. Would they be able to say such bold words so casually? Would they also be able to behead high-level monsters with such ease? Most likely not.

A thought suddenly appeared in Mo Zhou's head: 'Since he is a rogue cultivator... there is a chance I can rope him into joining our Flying Sword Sect...?'

If the Flying Sword Sect accepted a genius like him into their ranks, they will surely be overjoyed. Hell, they may even consider him a candidate as a future Sect Leader!

"Say, Daoist Yuan... have you ever considered joining a Sect?" he decided to ask him.

Yuan thought about it for a moment and shook his head: "I did not know of the existence of these so-called 'Sects' until today, so no, I have never thought about it."

"Then... would you be interested in joining my Flying Sword Sect? I am sure the Sect will welcome you with wide arms."

"..."

While Yuan pondered, Xiao Hua decided to open her mouth and speak: "Brother Yuan, there is no need for you to join a Sect; it will only hinder your growth. Xiao Hua believes that Brother Yuan will grow stronger much faster when together with Xiao Hua as a rogue cultivator."

Mo Zhou's mouth dropped when he heard Xiao Hua's words. Because she has been silent, he didn't really pay much attention to her. He wondered about their relationship.

"If I ever join a Sect, it'd only be for fun," said Yuan. "However, it is still too early for me to join any Sect, so I will have to refuse that offer for now."

"Is that so..."

While Mo Zhou was dispirited due to Yuan refusing his offer, he understood that there was still hope for him to join the Flying Sword Sect in the future. "Then, if you ever feel like joining a sect, please come to my Flying Sword Sect."

"I'll keep that in mind."

—

After walking for a few more hours, the group finally arrived at a vast valley surrounded by high mountains.

"This is the Flying Sword Sect?" Yuan was mesmerized by the scene of the thousand swords hovering in the air above the valley, looking as though there was a roof made of swords covering the place.

"That's the Thousand Swords Formation; it is a Heaven-ranked battle formation. If activated, they will all attack at once, like a rain of arrows. Though, it has been over 100 years since it was last activated." Mo Zhou wanted to leave a deep impression on Yuan with the Sect's power, hoping it would increase the chances of him join the Sect.

Mo Zhou's words and the magnificent scene indeed left a deep impression within Yuan, who has never seen anything like this before. As for Xiao Hua, she only glanced at it for a second before looking away.

"Please wait here for a moment while I go ask for permission to give you a tour around as a guest."

"Un." Yuan nodded and waited outside for him.

—

"A genius rogue cultivator, you say?" An old man sat in his exquisite wooden chair, his gaze as the young man standing before him.

"That's right, Elder Jiang. He managed to slay a high-level Fiery Lizard with a single sword strike, even piercing its steel-like scales known for its

impenetrable defense!" Mo Zhou shared his experience with Yuan to the old man before him.

The old man was Elder Jiang, a sect elder of the Flying Sword Sect, who was also in charge of the administration for the sect.

"If this young man is really as good as you praised him to be, then I'd like to meet him myself." Elder Jiang stood up and walked towards the door. "What are you waiting for? Let's go."

"Yes!"

Mo Zhou led Elder Jiang outside the sect where Yuan and Xiao Hua waited patiently.

"Fellow Daoist Yuan! Thank you for waiting... umm..."

"Hmm... Ninth Level Spirit Apprentice... how old are you, young man?" Elder Jiang could tell Yuan's cultivation base with a single glance.

"You seem to be around Mo Zhou's age... not bad for a rogue cultivator who cultivated without any proper guidance." He nodded with approval.

"You are...?"

"This is Elder Jiang, he is in charge of the sect's administrations for the Outer Court disciples." Mo Zhou introduced Elder Jiang to Yuan.

"I see. Nice to meet you, Elder Jiang."

Elder Jiang gently brushed his white beard and said, "I will get straight to the point, do you want to join my Flying Sword Sect as a disciple? The Sect provides countless benefits and resources to its disciples to help them grow. If you join, then your cultivation base will definitely rise faster than before. Perhaps you may even qualify to become an Inner Court disciple one day."

"Inner Court disciple?" Yuan wondered if Inner Court disciples meant being something like an upperclassman.

"You..."

Elder Jiang frowned and looked at Mo Zhou.

"Elder Jiang, you see... Daoist Yuan has actually never been aware of the existence of sects until today, hence why he wanted to visit our Flying Sword Sect..." Mo Zhou explained to him with a bitter smile.

"What...? How is that even possible?" Elder Jiang doubted his words, but even an idiot could come up with a better excuse.

Elder Jiang looked at Yuan again, and he sighed. "Whatever. I do not care about your circumstances. Well? What is your answer? I will accept you as an Outer Court disciple right this moment if you so wish."

Mo Zhou saw the chance and urged Yuan. "Daoist Yuan, you are really lucky! Under normal circumstances, one would have to pass the entrance exam before they get admitted into the sect as a disciple. However, Elder Jiang here has the authority to accept you into the sect without any of that hassle! This is a once-in-a-lifetime chance that anyone would be willing to die for!" he said with excitement.

"..." Yuan turned silent for a moment.

However, despite the enticing offer, Yuan still shook his head. "Although I appreciate the gracious offer, I will have to decline..."

"Why?!" Mo Zhou exclaimed. How could anybody let such a chance go to waste? This could be his ticket to becoming an Inner Court disciple of a great sect such as the Flying Sword Sect – a chance every Outer Court disciple like Mo Zhou would die for!

"Like I have already said... I am not yet ready to join any factions. I am currently waiting for someone, and until she arrives, I will not make any big decisions," said Yuan.

Xiao Hua glanced at Yuan when he mentioned that he was waiting for someone. Who could this person be?

"..."

"..."

"...Very well..." Elder Jiang said with his eyes closed, "If that is your decision then so be it. However... do not come back one day and ask for my generosity again as you have already lost it once."

Mo Zhou sighed. All of his efforts were wasted in such a short amount of time. Perhaps the reason Elder Jiang did not put any real effort into pursuing Yuan was that he still doesn't fully trust his words – that Yuan was a prodigy that even Inner Court disciples may not be able to match.

"Umm... about the tour... am I still allowed to see your sect?" Yuan asked with a sly expression; he still wanted to see the inside even after all that he's said.

Mo Zhou looked at Elder Jiang with the corner of his eyes, waiting for his answer.

Elder Jiang coldly snorted and said, "Let him see what he's missed out."

He walked away afterward.

"..."

Yuan was speechless. Refusing Elder Jiang's offer must have offended him.

Mo Zhou sighed again and said with an apologetic expression, "Don't worry about it too much, Daoist Yuan. It was my fault to begin with... If I hadn't spoken so highly of you in front of Elder Jiang with the intention of recruiting you then this would've never have happened."

Yuan shook it off and said, "I don't mind it. He's just a grumpy old man, after all."

"G-Grumpy old man... Daoist Yuan... please don't ever let him hear you say that in front of him or else he will definitely kill you..." Mo Zhou, with a

terrified expression, turned to see whether or not Elder Jiang had heard Yuan. When he couldn't see Elder Jiang's figure, Mo Zhou sighed in relief.

"Forget about him and let's hurry and go inside. I have been itching to see the inside since the sight of the Thousand Sword Formations!" Yuan said in an urging tone.

Mo Zhou smiled bitterly and said, "Alright... follow me..." He turned around and led the two inside, where disciples could be seen bustling around.

"Wow... they all carry swords with them..." Yuan's eyes flickered with excitement. He couldn't be more excited at this moment. In his eyes, this place was just begging for him to explore!

Chapter 15 - The Stone Tablets

"That building over there is the cafeteria for Outer Court disciples like me. The Inner Court disciples eat at a separate building." Mo Zhou explained as he guided Yuan around the Flying Sword Sect.

"Un. Un." Yuan nodded his head in excitement.

"Do you see that open area over there? That is where disciples go for lectures from Sect Elders once a week."

"That tall building is where disciples train to sharpen their sword techniques," said Mo Zhou as he pointed to the pagoda that was in the distance.

"What a unique shape for a building..." Yuan silently admired the elegant tower.

"Do you think I can go inside for a closer look?" he then asked Mo Zhou, who quickly shook his head in an apologetic manner.

"I'm sorry, Daoist Yuan, but visitors are not allowed inside any building with a ceiling..."

"Che. What a stinky place. How will you attract new disciples if you block off everything?" Yuan shook his head in pity.

"Uhh..." Mo Zhou didn't know how to refute his ignorant statement and could only smile awkwardly. Because normally, one wouldn't tour around a Sect before deciding whether they want to join or not.

"Forget it." Yuan suddenly said. "Let's continue with the tour."

Mo Zhou heaved a sigh of relief when Yuan didn't continue the topic.

"Okay, then let me show you what disciples of the Flying Sword Sect deem as the most important thing in this Sect!"

"Ohh?"

Hearing his words, Yuan instantly became curious about this place.

After walking for a few minutes, they stopped in front of three tall stone tablets sitting beside each other.

These three stone tablets were perfectly rectangular and had dozens of names engraved on it, resembling a memorial for the dead. However, unlike the other two, the middle stone tablet only had a few names on it, and they were much bigger and sharper than the rest.

"What's this? A memorial for the dead?" Yuan opened his mouth to ask without thinking.

"Wha—" Mo Zhou looked at him with a scared look. He then looked around to see if anybody was there to hear his words.

After seeing that the place was empty, Mo Zhou heaved another sigh of relief.

"Daoist Yuan, even though I am aware of your ignorance about Sects, what you'd just said had greatly offended not only me but also every disciple in this Sect!"

"What?" Yuan looked at him with a baffled expression.

"This is not a memorial for the dead but a ranking for the entire Sect! Every name on these three tablets represents a genius within the Sect, and they are all respected by the thousands of disciples in this Sect! If others besides me had heard your words, they would've jumped at you with their swords raised, as that was extremely disrespectful to the individuals that have poured their sweat and blood just to be on that ranking!"

"I-Is that right? I had no idea, but I will still apologize for my rude remarks... Sorry." Yuan said in an apologetic tone.

Seeing his sincere apology, Mo Zhou nodded with an approving smile. "It's fine. I know you didn't mean it."

He then turned to the three stone tablets again and said: "Every stone tablet except the middle one holds forty-five names, with the middle having only ten, adding up to a total of one hundred names."

"These hundred names are the names of the strongest disciples within the Flying Sword Sect— not including the Sect Elders and the Sect Leader. And every single one of them receives the Sect's full backing, allowing them to enjoy almost an unlimited amount of resources provided by the Sect. Ah... and everybody in the middle stone tablets is given the title 'Core Disciple'."

Mo Zhou's eyes sparkled with admiration as he stared at the three stone tablets, especially when his gaze met with the middle one, seemingly mesmerized.

"Every disciple in this Sect— including me— desires to have our own names engraved on the stone tablet."

Suddenly, as Mo Zhou ended his words, the last name on the third stone tablet disappeared. And a few seconds later, another name engraved itself on the very same spot.

When Mo Zhou saw this, his eyes flickered with excitement.

"Look! Someone just replaced the 100th name!"

"Eh? How did the names on the tablet change itself? Aren't they engraved into it?" Yuan was more curious about the phenomenon than the event itself.

—

After staring at the stone tablet for a few moments, Yuan suddenly noticed the name 'Ren Fuchen'.

He pointed to the first stone tablet and asked Mo Zhou in a curious tone: "Hey, that Ren Fuchen... is he the same as the Ren that you had offended?"

When Yuan mentioned Ren Fuchen, Mo Zhou's complexion noticeably paled.

He then nodded in a dispirited motion, confirming Yuan's curiosity.

"His name is ranked... 14th. He's the 14th strongest disciple in this place?"

Mo Zhou nodded again but even slower this time.

"What about the girl you were courting? Is she also on the ranking?"

Hearing his question, Mo Zhou silently pointed to the last name engraved on the middle stone tablet.

"Xing Aiying... ranked 10th..." Yuan then turned to look at Mo Zhou with a surprised look. "You actually courted someone that has her name on the ranking — the middle one, no less? How bold and aspiring!"

"..."

Mo Zhou could only smile bitterly at Yuan's words that were seemingly filled with admiration and praise.

"Anyway, this is pretty much all there is to see, for guests like you at least," Mo Zhou said.

"Now I have to give this Fiery Lizard monster core to senior apprentice-brother Ren..." Mo Zhou sighed in a dejected manner.

"Do you really have to give it to him? You didn't do anything wrong, so there's no reason for you to listen to his nonsense," said Yuan.

Mo Zhou shook his head and said, "You don't understand, Daoist Yuan. This is a world where the strong makes the rules and the weak obey their rules, even if such rules are unreasonable and full of nonsense."

"And I'm telling you that only an idiot would follow such rules," Yuan shrugged. "You are the one who doesn't understand here."

"A-An idiot?" Mo Zhou looked at him, who'd unknowingly called everybody in this world an idiot, with a weird expression on his face.

"How about I come with you to meet this Ren guy?" Yuan suddenly said, dumbfounding him.

"It's fine," Mo Zhou said a moment later with a bitter smile, "This is my own problem, I cannot drag you into it, especially not after all that you've done for me already."

Yuan turned silent and looked at him with a calm expression.

"Is that so? Then—"

Suddenly, a loud voice resounded from the distance.

"Hey, isn't that the kid who tried to court senior apprentice-sister Xing and ended up offending you?"

Both Yuan and Mo Zhou turned to look in the direction of the voice, and Mo Zhou's face paled the instant he saw the two handsome young men in the distance looking at him.

"S-Senior apprentice-brother Ren! Senior apprentice-brother Zhen!"

When Yuan saw how Mo Zhou's legs were shaking like jello, he knew just how fearful he was towards these two individuals.

"Mo Zhou, you bastard! How dare you make me walk to your living quarters to look for you!" The handsome young man on the right approached Mo Zhou with an angry expression, his hands grasped tightly into fists.

"Where have you been hiding? Didn't I say that today was the last day for you to bring me a monster core from a Fiery Lizard or else—?!"

"I have it! I have a Fiery Lizard monster core with me! Here you go!"

Mo Zhou pulled out a small red crystal from his robe pockets and showed it to Ren Fuchen.

'That brat really managed to obtain a Fiery Lizard monster core!' Ren Fuchen's eyes widened upon seeing the crystal. He did not think that someone as weak as Mo Zhou would have the ability to slay a powerful beast like the Fiery Lizard, yet there was its monster core in his grasp.

"How did you get it? Don't tell me you bought it?"

"It doesn't matter how I obtained it! I have gotten what you asked, so leave me alone from now on!"

"Hahahaha!" Hearing his words, Ren Fuchen burst out laughing. "You really are an idiot! You really think that I'd leave you alone just because you somehow managed to obtain the monster core? That was only an excuse for me to beat you up!"

"What?!" At this point, Mo Zhou's heart was filled with bitterness. "You promised that you'd forget about me courting senior apprentice-sister Xing if I give you the Fiery Lizard monster core!"

"Of course, I will honor my words and forget about your disgraceful act of courting senior apprentice-sister Xing. However, after you give me the Fiery Lizard, it will no longer be about that. How dare a lowly trash such as yourself have feelings for senior apprentice-sister Xing! Just your feelings are enough for you to get beaten!"

Mo Zhou trembled uncontrollably upon hearing those words. Just his love for his senior apprentice-sister Xing is enough to get beaten? Where is the justice in that? But alas, he was weak and Ren Fuchen was a Chosen — their status in this world was simply too far apart.

"Wow, what a statement!" Yuan suddenly said loudly, causing Mo Zhou's body to mysteriously stop trembling. "Beating someone up just because they love the same person as you? What a messed up personality you have there." Yuan laughed out loud, almost like he was watching a funny movie.

"And who the fuck are you? You are clearly not a disciple of this Sect, so how did you get in here?" Ren Fuchen finally noticed Yuan and Xiao Hua standing by the side.

"Who am I? I am the person who gave him that Fiery Lizard monster core," said Yuan, his expression calm.

"Daoist Yuan!" Mo Zhou looked at him with wide eyes.

"Hoh? So you are the one..." Ren Fuchen looked at Yuan with narrowed eyes.

"Why did you give him something as precious as the Fiery Lizard monster core? What did he offer in return?" he asked.

"He didn't give me anything, nor do I want anything from him. I gave him it simply because I felt like it," Yuan casually replied.

"..."

Although he didn't know who Yuan was, Ren Fuchen was wary of him. After all, what kind of normal individual would give away something as valuable as a Fiery Lizard monster core for free?

"And? What do you want?"

"I'd appreciate it if you stop bullying him," said Yuan with a smile.

"And what if I said no?" While Ren Fuchen didn't want to offend someone as mysterious as him, he wasn't afraid of him. Not only is he a Chosen but they are still inside the Flying Sword Sect, where he has protection in every direction.

"Of course, you will refuse...." Yuan turned to look at Mo Zhou and said, "I have already saved his life once, it won't be weird if I do it again, right?"

"You..." Ren Fuchen instantly frowned at his words.

"Daoist Yuan!" As for Mo Zhou, he looked at Yuan with tears in his eyes, his gaze filled with admiration, and his heart filled with gratitude.

Chapter 16 - A Battle Maniac

"I do not know which hole you crawled from, but consider this is your last warning!" Ren Fuchen said as he unsheathed the sword by his side, causing the aura around him to change.

Yuan looked at Ren Fuchen with a smile. Instead of worrying that he might have to fight another human for the first time, he actually found this situation to be pretty entertaining.

"You wanna fight? Let's go! I have been wanting to test my sword on something that's not monster for once!" Yuan also retrieved his sword.

When Ren Fuchen saw Yuan's sword that was emitting a powerful and sharp aura, his eyes widened with shock.

"A Spirit-grade sword... and it's even peak quality! He actually has a peak quality spiritual weapon!"

Any weapons with a grade are considered precious treasures, as they are always many times stronger than normal weapons, especially weapons with higher quality.

And although Yuan's sword is only at the lowest grade, Spirit-grade, a peak quality weapon is something that even someone like Ren Fuchen, who is ranked 14th overall in this entire Sect, does not have.

Ren Fuchen frowned deeply after realizing that Yuan had a peak quality weapon whilst he only held a medium quality weapon. His attitude also changed, and he no longer looked at this situation as calmly as before. After all, he is already at a disadvantage before the fight even started! Compared to Yuan's peak quality weapon, his medium grade quality is akin to a wooden stick!

"What are you standing there for? If you don't want to fight then just say so." Yuan said to him when he doesn't move even after many moments, his voice with a hint of provocation.

'No! Although he has a superior weapon, I have the advantage in terms of Cultivation base! He's only a ninth level Spirit Apprentice whilst I am a fifth level Spirit Warrior! There's no way I could lose even if he has a peak quality weapon!' Ren Fuchen encouraged himself with such logic.

Even if Yuan has a peak quality weapon, if he does not have the Cultivation base to use its full potential, it will actually burden him instead.

"If you hand over that weapon as an apology, then I don't mind forgiving you for everything you've done up to this point, and I will even stop bothering Mo Zhou. How does that sound?"

Before Yuan could even open his mouth to speak, Xiao Hua opened her mouth for the first time, "Brother Yuan, this will be good practice for you. Although you have familiarized yourself with beasts, you have yet to fight another human and to be honest, you will most likely be fighting more humans than beasts in the future."

Yuan nodded and raised his sword to stand in an offensive stance. He had no intention of avoiding this fight, as he already considered this as an in-game event.

"Good! Then I shall take it off your dead body!"

Ren Fuchen roared as he charged towards Yuan with the sword in his grasp raised high in the air.

"Triple Sword Strike!"

Ren Fuchen connected three attacks together in the blink of an eye, making it seem as though he attacked three times with a single movement.

Yuan's eyes widened at his approach, but he was not shocked. Instead, he was watching Ren Fuchen's attack closely, almost as if he was analyzing it.

In the next instant, Yuan raised his sword, blocking all three strikes with a single move.

"What?!"

Ren Fuchen exclaimed in surprise after Yuan perfectly blocked his attack.

However, despite blocking it perfectly, Yuan was pushed back slightly from the power created by someone five whole levels above him.

"Amazing..."

Yuan looked at his trembling hands with a wide smile on his face.

"This tingly and numbing sensation... What a great feeling!"

Yuan, whose real body cannot feel anything, was excited to experience such a feeling for the first time, and it made him feel alive.

"Is he crazy?" Ren Fuchen looked at Yuan's smiling face and thought to himself.

"Come! Let's fight even more!"

It was Yuan's turn to be aggressive this time.

'Could Brother Yuan be a battle maniac?' Xiao Hua wondered to herself.

"Bloody Sword Strike!"

The blade of the sword suddenly glowed red, and killing intent filled the place.

"?!?!?!?!"

Ren Fuchen nearly crapped his pants when he realized that Yuan had just used an Earth-grade sword technique.

"Impossible! You are clearly only a Spirit Apprentice! How could you possibly use an Earth-grade sword technique!" He gasped in shock.

Ren Fuchen hastily raised his sword to block the incoming attack.

Bang!

The moment their swords collided, Ren Fuchen felt as though he was clashing against a mountain, and his knees were forced to the ground by the tyrannical pressure pressing down on him!

The next instant, Ren Fuchen noticed cracks appearing across his sword.

"Not good! At this rate, he will break my weapon!"

"Help me!" he suddenly called out to his fellow disciple that had been on standby.

In the next moment, the disciple retrieved his sword and approached them at high speed.

"Daoist Yuan! Watch out!"

Mo Zhou couldn't react in time to block the disciple and yelled out loud to warn Yuan of the incoming danger.

However, Yuan did not even turn to look at the disciple and swung his sword, throwing Ren Fuchen many meters into the distance.

Once Ren Fuchen was out of the picture, Yuan turned to face the second disciple.

"Bloody Sword Strike!"

He activated the same skill and quickly swung his sword, sending an arc of light towards the surprised disciple.

The disciple, who was not the least prepared for such a strike, could only watch as the arc sped towards his direction and separate one of his limbs.

"AAAAAAHHHHHHHHH!!! MY ARM! MY ARM!!!"

The disciple dropped on the floor and screamed in agony while clutching the right side of his body.

"Oops..."

Yuan had acted purely on instinct and did not really mean to cut off the disciple's arm, even feeling bad for him afterward.

Chapter 17 - Blood Sec

'H-He should be fine, right? This is just his reaction as an NPC, right? His arm will regrow as if nothing happened after I leave, right?' Yuan tried to convince himself so that he'd feel less guilty for cutting the disciple's arm.

"Y-You bastard! I will fucking kill you!" Ren Fuchen roared in anger, but he was secretly fearful of Yuan's tyrannical strength. Even now, his arms are shaking from Yuan's strike.

"It's not my fault he jumped into our fight," Yuan directed the blame towards the disciple, which caused the disciple to cough up a mouthful of blood upon hearing his words.

"AHHHH! HELP ME! I'M BLEEDING TO DEATH!"

The disciple continued to yell at the top of his lungs, but the nearby disciples did not assist him, as they did not want to be caught up in their ruckus.

Eventually, the disciple's voice reached Elder Jiang's ears, who was sipping tea not too far from the place.

Throwing his tea down, Elder Jiang leaped into the air and approached the noise. The way he jumped from rooftops to rooftops made it seem as though he could control the gravity around him, allowing him to be weightless.

When he arrived, Elder Jiang's eyes widened with shock at the puzzling situation. He then quickly reacted by stopping the blood from spurting out of the disciple's arm.

Once he fixed the problem by placing some sort of seal around the disciple's arm, Elder Jiang wiped the sweat from his forehead and turned to face Mo Zhou.

"What the hell is going on here, Mo Zhou?!"

He directed his anger towards Mo Zhou, who was trying his best not to piss his pants from listening to the disciple's agonizing screams.

"T-T-This... T-They confronted us with hostility, and in order to protect me, Daoist Yuan sparred with senior apprentice-brother Ren... When senior apprentice-brother was on the verge of losing, senior apprentice-brother Huang tried to back-stab Daoist Yuan, which resulted in this situation..."

"Daoist Yuan? That child?!"

Elder Jiang turned to look at Yuan, who was trying to hide the bloody sword in his hand behind his back while awkwardly smiling at him.

"This child, who is only a ninth level Spirit Apprentice, defeated not only Huang Ding but also Ren Fuchen, one of the top Inner Court disciples?"

Elder Jiang couldn't believe his ears. Although Cultivators achieving victory against people with a higher Cultivation base is not that uncommon, such a large skip in level is unheard of!

"It doesn't matter who is right or wrong here right now, but is this how you repay my generosity for letting you inside as a guest? I don't care what background you came from, prepare to face the consequences for attacking a disciple of the Flying Sword Sect!"

Elder Jiang began approaching Yuan, who felt something amiss here. They are clearly the ones in the wrong for confronting him, and he even defended one of their disciples from getting bullied, yet he's going to be punished?

Sure, he did slice that disciple's arm off, but that was an accident that could've been prevented if he didn't jump in the middle of their match.

"It doesn't matter who is right or wrong? Although I do not belong here, don't I have the right to be safe as a guest in your house? One of your students provoked me into fighting him, but you don't care about that. Your own students are being bullied by their fellow students in plain sight, yet nobody even bothered to prevent it. If this is how you act as a teacher of this place, then I don't think you should be a teacher!" Yuan said what was on his mind without saving any face for Elder Jiang.

"How dare you! Who are you to lecture me?!" Elder Jiang's eyes turned red from anger, clearly provoked by Yuan's words.

Seeing Elder Jiang emit faint killing intent, Xiao Hua also silently prepared herself. If Elder Jiang so much as tries to hurt Yuan, she will not hesitate to kill him.

Just as Elder Jiang prepared himself to punish Yuan for speaking out of line, a sudden voice resounded in his ears.

"Wait."

Elder Jiang instantly halted his movements and turned to look behind him.

When he saw that it was a middle-aged man with sharp features and a dominating presence standing behind him, his eyes widened with shock.

"S-Sect Leader!"

Not only Elder Jiang but everybody there exclaimed loudly.

"Step back, Elder Jiang. I will personally take care of this."

"What?!"

Elder Jiang was shocked speechless, but he didn't dare refuse and silently nodded.

Once Elder Jiang stepped back, the Sect Leader stepped forward.

He then looked at Ren Fuchen and Huang Ding and spoke, "I have been watching since the beginning."

His words dumbfounded the two, causing them to tremble in fear.

"How pathetic. Not only did you lose a two on one but you also had the audacity to attempt a back-stab. Where did you learn to fight like cowards? I do not recall teaching this type of swordsmanship in my Sect! I will surely discipline both of you afterward."

Ren Fuchen's expression paled upon hearing the Sect Leader's words. Knowing his character, they will surely be experiencing hell after this. As for Huang Ding, he directly fell unconscious after hearing the Sect Leader's words.

"What is your response?!" The Sect Leader suddenly roared.

"Y-Yes, Sect Leader!" Ren Fuchen replied in a cracked voice.

"Hmph." The Sect Leader coldly snorted.

He then turned to look at Yuan. "That technique you used just now... You must be from the Blood Sect."

'The Blood Sect?! That evil place?!' Elder Jiang cried inwardly.

He didn't expect someone innocent-looking like Yuan to be apart of that vile place! If he'd known, he would have never allowed him inside this place!

"I do not want any trouble with you or your place, so please just leave us alone. As for this incident, it was our fault, so you don't have to worry about anything."

"..."

Everybody there was speechless watching their domineering Sect Leader act so humble before someone way younger. Not many of them even have heard of this Blood Sect, so they were also puzzled.

"Uhhh..." Yuan was also speechless. He didn't expect the situation to make such a turn and was at a loss of what to do.

Chapter 18 - Mo Zhou's Gratitude

Chapter 18 - Mo Zhou's Gratitude

After standing there and pondering for a moment, Yuan decided that it would be better for him and Mo Zhou to just acknowledge being a disciple from the Blood Sect.

"That's right, I am indeed from the Blood Sect," he said with a confident voice.

"And I don't mind pretending what happened today did not occur, but you have to promise me that my friend, Mo Zhou, will no longer be bullied by his fellow disciples."

"Daoist Yuan!" Mo Zhou couldn't believe his ears and began crying. Why would Yuan go this far for him when he didn't do anything to really deserve this treatment?

"Mo Zhou, huh?" The Sect Leader turned to look at Mo Zhou for a moment before saying, "You will be my disciple starting today! Anyone who dares to touch you will have to answer me!"

"What?!"

When the Sect Leader made his announcement, everybody there gasped in shock, Mo Zhou included.

"Greet your new Master!" The Sect Leader continued.

Mo Zhou immediately kowtowed on the ground and bowed to him.

"This disciple greets Master!"

"Good! Starting today, you will be training under me!"

"Yes!"

Mo Zhou replied with enthusiasm in his voice.

Although Yuan did not expect such an outcome yet again, he was more than satisfied.

"Then I will be taking my leave," he said.

The Sect Leader nodded and looked at Mo Zhou again, "Go guide our guest to the exit!"

"Yes, Master!"

Thus, Mo Zhou brought Yuan and Xiao Hua away from the crowd.

Once they were gone, Sect Elder Jiang spoke, "Sect Leader... making Mo Zhou your disciple is a little bit..."

"Hmph!" The Sect Leader coldly snorted. "If you hadn't noticed by now, the sword technique used by that child is one of the Blood Sect's most powerful technique!"

"What?! Does this mean—"

"That child is definitely not just your average disciple from the Blood Sect. Judging from his prowess and ability to fight those many realms above himself, I won't be surprised if his Master is the Blood Sect's Master himself, Lord Blood!"

"Lord Blood!" Elder Jiang trembled in fear just by hearing his name.

"And if someone like him calls Mo Zhou his 'friend', then there's a high possibility that the Blood Sect will help us if we are ever in danger because of their relationship. If that's the case, then I won't hesitate to make him my disciple, even if it will make many disciples unhappy!"

Elder Jiang stared at him with a gaze filled with admiration. 'To think that the Sect Leader would be thinking so far ahead just to keep his Sect safe!

It's no wonder why he's the Sect Leader!'

"Sect Leader is sharp and wise, to think I doubted your decision even for a moment. Please, forgive me."

"If you want to be forgiven, then take care of the rest of this mess!" The Sect Leader said before walking away.

The news of Mo Zhou, a mere Outer Court disciple, suddenly becoming the Sect Leader's disciple came out of the blue and shocked every disciple within the Flying Swords Sect, especially those already at the top.

"What?! How could a nobody like Mo Zhou be chosen as the Sect Leader's disciple when the rest of us have been working our asses off just for that spot?!"

"The Heavens are unjust! This world is unfair!"

No doubt many people began to despise Mo Zhou because of his luck and bullshit, but alas, with the Sect Leader behind his back, who would dare to touch him now?

Outside the Flying Sword Sect, Mo Zhou dropped to his knees and kowtowed to Yuan, who was slightly taken back by his behavior.

"What are you doing?" Yuan tried to lift him off the floor.

"Daoist— No! Brother Yuan! Everything you have done for me, I do not know if I will ever be able to repay you but I will do my best as the Sect Leader's disciple and will one day return this debt!"

Yuan smiled and casually waved his hands, "Don't worry about it. Like I'd already said many times, I am not doing this because I want any reward."

"No! This is not a reward! I am doing this because I want to, just like you!" he quickly responded.

Yuan could tell that Mo Zhou will not change his mind no matter what he says at this point so he only shook his head inwardly and accepted the

outcome.

"Fine, do whatever you want."

"I will!"

"And good luck with that girl you fancy, I'm rooting for you."

"R-Right..." Mo Zhou began blushing.

"Then, I'll be leaving. I have already caused too much trouble in your place."

Yuan began walking away.

"Take care, Brother Yuan!" Mo Zhou waved at him from the Flying Sword Sect.

A few moments later, after Yuan left the Flying Sword Sect, messages appeared before his eyes:

«Congratulations! You have unlocked the Bond System!»

«'Mo Zhou' has been added to your Bond!»

«Mo Zhou's Bond level has increased to Acquaintance!»

«Mo Zhou's Bond level has increased to Friend!»

«Mo Zhou's Bond level has increased to Brotherhood!»

«Congratulations! Your Bond level with Mo Zhou has reached Brotherhood!»

«You have gained the following effect from Mo Zhou's Bond level: 'Mo Zhou's Gratitude'»

«Mo Zhou's Gratitude: Increases Sword Mastery by 25% and Sword Damage by 10%»

«Sword Mastery: Increases your control when wielding swords»

«Sword Damage: Increases your damage when wielding swords»

«Congratulations! You have unlocked Associations!»

«'Flying Sword Sect' has been added to your Associations!»

«Because of the drama you've caused there, your relationship with 'Flying Sword Sect' has decreased drastically!»

«Because of your bond level with 'Mo Zhou', Prime Disciple of 'Flying Sword Sect', your relationship with 'Flying Sword Sect' has increased greatly!»

«Congratulations! You have unlocked Fame!»

«Due to your actions at 'Flying Sword Sect', your Fame has increased by 10!»

«Fame: Increases as you make a name for yourself.»

Yuan nearly received a headache from the number of notifications being spammed.

"Where should we go now?" Yuan asked Xiao Hua as they left the area.

"Hmm..." Xiao Hua pondered as their figures entered the forest.

Chapter 19 - Spirit Warrior

As they traveled further away from the Flying Sword Sect, Xiao Hua thought to herself, 'It's only been a few days since Brother Yuan became a Cultivator, yet he is already powerful enough to hold his own against Spirit Warriors, even though he's only a Ninth Level Spirit Apprentice. This kind of growth is unheard of and is terrifying, to say the least. His experience with the sword is also increasing at a frightening rate, almost like he's the reincarnation of a Sword Emperor.'

"Besides wandering around aimlessly for valuable resources and collecting monster cores, there is really nothing else to do."

"Additionally, because Brother Yuan is already a Ninth Level Spirit Apprentice, he has to attain enlightenment before he can make a breakthrough and become a Spirit Warrior."

Xiao Hua turned to look at Yuan and spoke, "Brother Yuan, what would you like to do? Even if you keep consuming monster cores to fill your Qi, once you reach the peak of the Spirit Apprentice realm, you will not be able to gain more Qi unless you become a Spirit Warrior."

"How do I become a Spirit Warrior?" he asked her.

"To become a Spirit Warrior, you must comprehend the enlightenment that will come naturally once you reach the peak of the Spirit Apprentice realm. However, whether you will really gain enlightenment or not will depend on your fate and talent."

"What do you mean by that?"

Yuan expressed puzzlement.

"Although most people are born with the capability to cultivate, their max potential is predetermined before birth. For example, whilst Brother Yuan may be able to reach the peak of the Spirit Apprentice realm with ease, you might not gain enlightenment that is required to breakthrough to the Spirit Warrior realm, thus forever remaining a Spirit Apprentice."

"That being said, albeit valuable and hard to find, there are plenty of treasures out there that can help one exceed their limit and rewrite their fate."

Although she did not say it, Xiao Hua actually has a few of these treasures on her, so even if Yuan is destined to remain as a Spirit Apprentice forever, she can help him escape such a fate.

Yuan looked at his Qi Experience as he listened to Xiao Hua speak.

1,519,395/3,840,000

"If I consume 3 more monster cores, it should be more than enough to max out the Qi Experience..." Yuan thought to himself.

Suddenly, without thinking too much about it and excited to experience this enlightenment, Yuan retrieved three monster cores and threw them into his mouth all at once.

«Heaven Refining Physique activated»

«900,500 Qi has been refined from the Blood Ape's monster core»

«895,415 Qi has been refined from the Vampire Wolf's monster core»

«730,650 Qi has been refined from the Scaled Boar's monster core»

3,846,000/3,846,000

«You have absorbed enough Qi for a breakthrough»

«Because your Qi Experience is already full, you will not be able to receive anymore Qi until you reach the next realm»

The notifications disappeared for a few seconds before returning.

«You have met the requirements for a breakthrough»

«You have reached First Level Spirit Warrior»

«Your 'Enhanced Senses' has developed into 'Advanced Senses'»

«You have learned Enhanced Strength»

«All stats +1,000»

—

«Advanced Senses»

«Rank: Mortal»

«Description: Sharply enhances the functions of all available senses permanently. Requires no activation»

—

«Enhanced Strength»

«Rank: N/A»

«Description: Greatly enhances your strength and stamina»

Once Yuan has reached the Spirit Warrior realm, he could feel a large amount of profound energy expanding in this body; it made him feel as though his body had increased in size despite having no changes made to his actual body.

"..."

Xiao Hua stared at Yuan with eyes as wide as two round eggs, her cute and round face filled with shock and disbelief.

"B-B-Brother Yuan... Y-Y-You..."

She couldn't believe what she'd just witnessed!

Although the Spirit Warrior realm is nothing special in her eyes and could be easily disregarded, Yuan had actually managed to become a Spirit Warrior without any enlightenment! Such an achievement was unprecedented even in the higher Heavens!

"B-Brother Yuan... what did you just do?" she asked him in a trembling voice.

"Hm? But I didn't do anything? Just like before, I had enough Qi for a breakthrough, and before I could even react, I had already become a Spirit Warrior."

Yuan responded, sounding somewhat disappointed that he did not get to experience this 'enlightenment'.

"Unbelievable..."

Xiao Hua still couldn't believe it. Just what kind of cultivating prodigy is Yuan? Hell, calling him a prodigy is still an understatement considering what he'd just accomplished!

While Xiao Hua was dumbfounded by his achievements, Yuan looked at his current stats.

Cultivation: First Level Spirit Warrior

Legacy: None

Bloodline: None

Physique: Heaven Refining Physique

Physical Strength: 3,734

Mental Strength: 3,975

Soul Strength: 4,910

Physical Defense: 3,710

Mental Defense: 4,821

Qi Experience: 3,846,000/38,460,000

"38 million?! I need 38 million Qi for the next level?! This is ridiculous!"

Yuan felt slightly dizzy after seeing the long numbers and sudden spike in the Qi required for the next level.

"I might as well eat the rest of the monster cores right now!"

Yuan retrieved all of his remaining monster cores and tossed it into his mouth.

However, what happened next dumbfounded him greatly.

«Heaven Refining Physique activated»

«Because you have consumed a monster core that is not suitable for your cultivation base, the overall absorbed Qi will be reduced by 90%»

«88,000 Qi has been refined from the Blood Ape's monster core»

«82,500 Qi has been refined from the Vampire Wolf's monster core»

«70,500 Qi has been refined from the Scaled Boar's monster core»

«85,000 Qi has been refined from the Vampire Wolf's monster core»

«65,000 Qi has been refined from the Hairy Serpent's monster core»

«66,700 Qi has been refined...»

«54,650 Qi has been refined...»

Qi Experience: 4,500,000/38,460,000

"W-W-What the hell?! Why am I barely getting any Qi from the monster cores now?!"

Xiao Hua's voice responded to his puzzlement a few moments later,
"Because Brother Yuan is now a Spirit Warrior, any monster core that is not from a Spirit Warrior beast will no longer be as effective."

"N-No way... but that makes no sense!"

"Brother Yuan's existence also makes no sense..." Xiao Hua sighed.

After calming down and thinking about it for a moment, Yuan realized that such a system was actually quite logical and fair, as it would prevent those with power that far exceeded this area's level range from taking advantage of the weak too much and force them to hunt stronger monsters.

"Well, this is a good time to take a break from cultivation, since I am starting to get tired of all this hunting... mentally..." he thought to himself.

"Xiao Hua, can you lead us to the nearest city? We can talk about our plans after we take a break."

Xiao Hua nodded and said, "The nearest city is 10 kilometers away."

"10 kilometers... let's run there."

Having never felt this energetic before, Yuan suggested running there.

"Okay." Xiao Hua easily agreed.

Thus, the two began running towards the nearest city.

Chapter 20 - Spirit City

After half an hour of running, Yuan and Xiao Hua could finally see the city walls.

«You have discovered 'Spirit City'»

"This place seems to be called Spirit City," said Yuan after reading the system notification.

"Spirit City is one of the four Great Cities within the Eastern Continent, and it's ranked third in terms of influence." Xiao Hua quickly explained.

"Then what are we waiting for? Let's go!"

Yuan and Xiao Hua approached the city gate.

"What are they doing?"

As they approached, Yuan noticed the crystal ball in one of the guards' grasp.

"It's to inspect the visitors. Unless Brother Yuan is a wanted criminal, you don't have to worry about it."

Yuan nodded.

A few minutes later, they reached the guards at the gates.

"Entrance fee is 1 silver for each individual," said the guard once they got close enough.

"Uh... Xiao Hua, do you have any money?" Yuan, who was penniless, looked at her with an awkward expression, feeling slightly embarrassed to be asking such a little girl for money.

But alas, Xiao Hua shook her little head.

"What the hell. Do you want to enter this place without money? Where did such beggars come from?" The guards sneered inwardly when they realized that they were dealing with penniless people.

"If you have no money, then I cannot allow you inside," said one of the guards. "Get out of the way already! There are people behind waiting for you!"

Yuan sighed and prepared to leave.

However, before he could even take a step, the person standing behind him spoke, "If you want, I can pay for your entrance fee."

Yuan turned to look at the person who just spoke; it was a pretty young lady wearing a pair of fine robes.

"If you don't mind..." Yuan spoke with an embarrassed face.

"Young Lady, we shouldn't bother ourselves with these two beggars..."

The old man standing beside the young lady suddenly mumbled into her ears, unaware that his words were heard by Yuan, who has enhanced senses.

"..."

However, Yuan decided to ignore the old man's disrespectful remarks.

"As the young lady of the Xuan Family, how could I ignore people in need of help? And it's just two silvers."

The young lady shook her head at the old man, looking disappointed by his words.

"Excuse me, this will account for their entrance fee, too."

The young lady then handed four pieces of silver coins to the guards.

After a quick glance, the guard nodded and retrieved the crystal ball.

"Place your hands on it," said the guard.

Yuan placed his hands on the globe.

A few seconds later, it glowed a green light.

"You may pass."

The guard then turned to Xiao Hua, who also passed with a green light.

A few moments later, once they have passed the inspection and entered the city, Yuan bowed to the pretty young lady.

"Thank you. Although it's not much, please accept this as my gratitude."

Yuan pulled out a Monster Core and placed it in front of the young lady, who immediately covered her mouth in surprise.

"B-Blood Ape Monster Core! This is simply too much for two mere silvers! I cannot accept this!" The young lady quickly refused.

Most Blood Apes are around the Eighth Level Spirit Apprentice Realm, and their monster cores would usually fetch at least 100 gold coins in the market place! If she accepted this monster core, it would make her feel guilty for taking advantage of Yuan.

"Don't worry, I have no more use for this quality of monster core, and it's only something I picked up during my travel here." Yuan understood the reason for the young lady's hesitation but continued to urge her to accept it.

The pretty young lady looked at Yuan's honest face and the shiny monster core in his hands and forcefully swallowed.

"Since you insist, I will accept it..." she accepted the Blood Ape Monster Core with trembling hands.

Once the monster core was off his hands, Yuan said to Xiao Hua, "Let's go."

"W-Wait! What's your name? I am called Xuan Wuhan!"

"You can call me Yuan," he responded.

"Thank you, Yuan! If you need help with anything, you can find my Xuan Family in Spring City!" Xuan Wuhan then handed Yuan a medallion made of metal and imprinted with the word 'Xuan'.

Yuan casually accepted the medallion without thinking too much about it.

«'Xuan Wuhan' has been added to your Bond!»

«Xuan Wuhan's Bond has increased to Acquaintance!»

"Then, I will see you around," he said before leaving with Xiao Hua.

After Yuan left, the old man beside Xuan Wuhan spoke, "Young Lady, why did you give him the family medallion? That is not something strangers should hold."

"That young man... despite his young age, there was a formidable aura around him. He's most likely a genius cultivator from some large family. If I can be friends with him, it will benefit our Xuan Family, not to mention his honest character. I like people like him."

"Are you sure about his background? He wasn't able to take out two silvers just now..." The old man remained doubtful.

"Were you even watching just now? He handed me a Blood Ape Monster Core worth over 100 gold coins without batting an eyelid because I gave him two silvers! That is not something even I would do! He must be testing people on purpose!"

"B-But why would he do something like that? What would he accomplish by testing others?"

Xuan Wuhan shook her head and spoke, "Just like my grandfather, the more profound and powerful the individual, the less sense they make. It is not something people like us can fathom."

"Are you saying that the young man just now is as powerful as the Ancestor, who is a Spirit Master? That's a bit..."

"Of course, not. I am just saying." Xuan Wuhan said. "Anyway, let's go. We cannot miss the auction, or we will have to deal with my father's angry shouting later."

Meanwhile, Yuan and Xiao Hua wandered around the city aimlessly.

"Xiao Hua, we need to earn some money. How about we sell the monster cores we hunted on our way here? They seem quite valuable," he said.

"Un. One monster core will easily sell for over 100 gold and will last us for a while, and we still have four of them."

"Then the question now is where to sell these monster cores..."

"If you want the most money out of the monster cores, we can look for an auction house. Although it might take some time, we will get the most profit out of it. If you do not mind selling them for much cheaper, any regular store that deals with monster cores will do the job," said Xiao Hua.

"An auction house, huh? That sounds kind of fun. I have never been to one before. But where can we find one?"

"Most big cities will hold an auction every few weeks, not to mention this Spirit City, one of the four biggest cities on this continent. We should find one with relative ease if we ask around."

Yuan nodded.

"If it won't take too long, I will use the auction house to sell my monster cores. But if we have to wait a few weeks, I'd rather just sell them for cheaper."

After deciding their next course of action, Yuan began asking around in hopes to find an auction house to sell his monster cores, as he did not want to experience today's humiliation any more in the future.

Chapter 21 - Azure Phoenix Auction House

After walking around for half an hour and speaking to many people about the auction houses in this city, only one name came up repeatedly.

"This Azure Phoenix Auction House seems very popular. Let's give it a look," said Yuan.

Xiao Hua nodded and followed Yuan to the location of this Azure Phoenix Auction House.

According to the people Yuan spoke with, the Azure Phoenix Auction House is one of the wealthiest and most influential auction houses within the Eastern Continent. What's more, they are backed by the Azure Phoenix Sect, one of the most powerful backgrounds in this world.

"We are really fortunate to have arrived in this city right on the day it opens, right, Xiao Hua?"

"En." Xiao Hua nodded her little head.

The Azure Phoenix Auction House only opens once every three years because they have to stock up valuable treasures, and coincidentally, they came at the exact day it would open.

After walking around the Spirit City that occupies miles of land for many minutes, Yuan and Xiao Hua have finally arrived at the Azure Phoenix Auction House's entrance.

"Wow, this large place is the auction house?" Yuan couldn't help but become amazed by the luxurious building before him that took up an entire

street.

"Excuse me, is this the Azure Phoenix Auction House?" Yuan asked one of the people there just in case.

Once he confirmed that they were at the right place, Yuan approached one of two pretty young ladies standing silently by the entrance, assuming she was one of the workers here.

"Hello, do you work here?" he asked.

"I do," she replied with a gentle voice.

"Great! I came here today because I would like to sell something here."

"..."

The young lady looked at Yuan with a weird face after hearing his words.

"Umm... I'm sorry, but we stopped accepting things for the auction a month ago," she said a moment later.

"What...?"

Yuan stood there with a dumbfounded look.

The young lady chuckled and spoke, "Is this your first time at an auction house?"

"Yes..."

"Then let this sister teach you something about them. If you wish to sell something using auction houses, you must let them know ahead of time so they can put it on a list to let the guests know. People won't go to auction houses if they don't know what will be sold, you know? They have to prepare, too."

"I see... that makes sense..." Yuan sighed, feeling disappointed and slightly frustrated.

"Looks like I will have to sell these monster cores elsewhere..."

'Spirit Apprentice Realm monster cores?' The young lady noticed the monster cores in Yuan's hands and shook her head inwardly.

Even if Yuan was in time to sell his monster cores, the Azure Phoenix Auction House wouldn't accept something so insignificant. In fact, even if he brought Spirit Warrior Realm monster cores, the Azure Phoenix Auction House wouldn't even give it a glance.

The young lady did not want to disappoint Yuan anymore, who was clearly ignorant of many things, so she remained quiet.

However, the other worker there, who has been watching them since the beginning, burst out laughing, "Hahaha! Does this kid actually want to sell that trash at our Azure Phoenix Auction House?! This is hilarious!"

"Lian Rong! Why must everything that comes out of your mouth be so foul? He's clearly very young and ignorant! There's no need to mock him!"

The young lady beside Yuan frowned at her fellow worker's unsightly behavior.

"Hmph! I am only speaking the truth! And the earlier he learns, the faster he will grow up! Why are you even protecting a beggar like him, Na Ying?" Lian Rong coldly snorted, her gaze filled with mockery.

"Don't mind her, little brother. It's not a crime or disgraceful to be ignorant at times. " Na Ying tried soothing Yuan, acting like his next-door friendly sister.

"What's wrong with you, Na Ying? Are you perhaps charmed by this kid? Hahaha! I wonder how the disciples at Azure Phoenix Sect will react once they learn of this!" Lian Rong continued laughing.

"..."

Although Yuan did not mind Lian Rong's mockery, the little girl standing beside him was boiling with anger.

'This insignificant little ant has no idea who she's mocking! Brother Yuan is a genius among genius — a prodigy that will shock even the Upper Heavens! One day, Brother Yuan will become a figure that stands above all! I cannot allow him to continue being mocked!'

"Are you done embarrassing yourself yet? Even I am starting to feel ashamed just by being beside you!" Na Ying shook her head.

"You—! Are you looking for a fight, Na Ying?!"

"Oh? Do you want to fight me? Are you sure about that, senior apprentice-sister?" Na Ying narrowed her eyes, and the cultivation base of an expert at the peak Spirit Warrior Realm emitted from her body.

A bead of sweat appeared on Lian Rong's forehead after feeling Na Ying's pressure.

"J-Just you wait! Once we return to the sect, I will—"

"What's with the commotion here?!" A strong voice suddenly resounded.

A few seconds later, an old woman appeared in front of them with an annoyed face.

"Senior Chang!"

Both of the girls immediately stopped their argument and bowed to the old woman.

"Do not forget where the two of you are right now! Regardless of your status at the Azure Phoenix Sect, you are working for me now! And I will not tolerate this kind of behavior at my Azure Phoenix Auction House!"

"I am sorry..."

They quickly apologized.

"Enough. I will deal with you two afterward. The guests are already seated. Close the doors and come inside," said Senior Chang.

"Wait!"

Just as Senior Chang turned around, a cute but overbearing voice stopped her steps.

"X-Xiao Hua?" Yuan looked at her with wide eyes.

"What are you doing?" he whispered in her ears.

"Don't worry, Brother Yuan. Xiao Hua will deal with this," she responded with a smile on her face.

"Who the hell is this little girl?" Senior Chang frowned when she sensed a profound aura surrounding Xiao Hua's tiny body. It gave her a dreadful feeling.

"Are you the owner of this place?" Xiao Hua suddenly asked.

"That's right. And who are you?" Senior Chang responded.

However, Xiao Hua did not immediately respond and pulled out her storage pouch.

Then, right before their eyes, Xiao Hua pulled out a blue dagger from the pouch.

The instant the dagger was revealed to the world, an unfathomable presence suddenly appeared and enveloped the place.

"This presence—!!!" Senior Chang stumbled backward and nearly fell on her butt when she saw the dagger and sensed its aura.

"This dagger is a Heaven-grade weapon at the peak quality — Heavenly Frost Dagger," said Xiao Hua, and she continued in a calm manner, "Who I am is not important right now. What is important, though, is that I had planned to sell this dagger at your Azure Phoenix Auction House. However, because one of your workers mocked Brother Yuan and angered me, I am now having second thoughts."

After a moment of silence, Senior Chang's stiff body began trembling.

"Who?! Who dared to offend you?! I will kill that bastard for you!" Senior Chang's attitude took a sudden turn, shocking both Lian Rong and Na Ying, who has never seen her this agitated before, acting as though someone had just killed her son.

Even Yuan couldn't help but look at Xiao Hua with wide eyes. Since when did they come here to sell that dagger? And why does she feel so different right now?

"That girl over there!" Xiao Hua wasted no time pointing her small fingers.

Senior Chang turned to look at Lian Rong, who was as pale as a ghost right now, looking like all of her blood had just been drained out of her body.

"What have you done, Lian Rong?!" Senior Chang roared at her with a furious expression.

"I...I...I..."

Unable to respond and filled with despair, the young lady named Lian Rong fell to her knees, even pissing her pants due to fear.

Na Ying covered her mouth from shock as she witnessed this unexpected turn of events.

What's going to happen now?

Chapter 22 - VIP Room

"Senior Chang, this is what had happened..." Na Ying began explaining to her the events that took place right before she'd arrived.

"You... you foolish thing!" Senior Chang was speechless.

To think that Lian Rong, someone usually with keen eyes and great intelligence to misjudge a hidden expert due to her arrogance.

"There is nobody you can blame but yourself for being so arrogant and failing to recognize Mt. Tai!" she shook her head.

"Please! Senior Chang! You can't kill me! I am an Inner Disciple from the Azure Phoenix Sect!" Lian Rong began begging for her life.

"I am not the one who will decide whether you live or die today! You are begging the wrong person!"

After hearing Senior Chang's words, Lian Rong immediately ran to Yuan and kotowed before him, and she begged him with a face filled with tears and snot.

"Please, Young Master! This lowly one has failed to recognize someone as prestigious as you!"

"..."

Yuan was speechless. This is the first time he'd seen a young lady begging for him to spare her life.

"Young man, although she has wronged, I would also like to request for your forgiveness. After all, she is an Inner Disciple of the Azure Phoenix

Sect. If you kill her, they will surely..."

Yuan suddenly raised his hand and stopped her sentence.

"Wait a moment. I never said anything about killing her. You were the one who spoke such words. Do not try to act as though I was the one who wants her dead."

"I... I understand. Lian Rong! Be grateful! This young man has decided to spare your life!"

"Thank you, benefactor!" Lian Rong cried.

"..."

Yuan couldn't but help find these peoples' behavior weird and unnecessarily exaggerated. Why must she be executed for mocking him? If he was to kill anyone that has offended him, who knows how many people will die.

'I hope this won't become a trend amongst NPCs...' Yuan silently prayed.

"Ummm... now that everything has been settled... are you willing to sell your Heaven-grade dagger at our auction house? I promise you that you will not regret it! 80... no! You will receive 90% of the revenue, and we will only take 10%! Normally, it would be 75/25, but because we have troubled you today, I am willing to make it 90/10!" Senior Chang suddenly said.

In fact, Senior Chang did not care about the revenue of the Heavenly Frost Dagger. All that matters to her was the reputation that would come from selling it.

The last time a Heaven-grade weapon was sold at the Azure Phoenix Auction House was one hundred years ago, and it was only a low-quality weapon at that time! As for a Heaven-grade weapon at the peak quality — this would be the first one in their thousands of years of history!

Once the world learns of this, the Azure Phoenix Auction House will surely skyrocket in popularity, and they will receive much more attention and

guests in the future!

"You are asking the wrong person. I am not the owner of that weapon — she is." Yuan pointed to Xiao Hua, who was casually holding the dagger as though it was a normal weapon.

"En. I am willing to sell it but only under one condition." Xiao Hua said.
"You must also sell his monster cores at your place."

"Okay! I accept that condition!" Senior Chang immediately accepted without even needing to think about it.

Even if the Azure Phoenix Auction House loses a bit of face or becomes a laughing stock for selling Spirit Apprentice level monster cores, the Heaven-grade weapon will make up for it and more!

"Xiao Hua..." Yuan smiled warmly after realizing her intentions. To think that she'd be willing to sell such a precious item just for him, he couldn't thank her enough.

"Are you sure, Xiao Hua? That's a precious item, right? You don't have to force yourself to sell it. I can sell the monster cores elsewhere." Yuan said to her.

When Senior Chang heard Yuan's words, she felt the urge to beat him up and seal his mouth shut.

"It's only a Heaven-grade weapon, Xiao Hua has many more of them. And Brother Yuan does not use daggers, so it would only continue collecting dust." Xiao Hua said, dumbfounding Yuan.

'How can one have so many rare items but no money at the same time?' he wondered where she got all of these items from.

A few moments later, Xiao Hua handed the Heavenly Frost Dagger and the four Spirit Apprentice level monster cores from Yuan to Senior Chang.

"If you steal anything, I will destroy this place." Xiao Hua gave Senior Chang a stern warning before following Na Ying, who was assigned to

serve them, to one of the VIP rooms.

After they left, Senior Chang sighed a breath of relief.

"Even though she's a little girl, her attitude and presence are beyond normal, almost like that of an Immortal's! Not to mention that she actually dared to take out a peak quality Heaven-grade weapon out in the open! Even idiots would not dare steal from her..." Senior Chang felt the chills just thinking about her.

Just as Senior Chang began walking, she noticed that Lian Rong was sitting on the floor with a dazed face.

"Use this chance and change that arrogant attitude of yours. Even if you are an Inner Disciple of the powerful Azure Phoenix Sect, there are countless people in this world that you shouldn't offend."

"Yes, Senior..." Lian Rong nodded.

"Anyway, hurry up and return to work. I'm not paying you guys to stand around and be depressed all day," said Senior Chang before disappearing into the auction house.

Meanwhile, Yuan and Xiao Hua just stepped into the VIP room, where there were several other individuals.

"Kids?"

The people there turned their attention to Yuan and Xiao Hua, seemingly curious about their identity.

"Who are these kids? I don't recognize them."

"I don't know them, either."

"How could strangers enter this VIP room? They must have a shocking background that we are not aware of."

"I don't mean to brag, but I am familiar with every background that is capable of entering the VIP room, and even I don't know them."

It seemed as though nobody in the VIP room recognized Yuan, but that was to be expected, as he does not belong to any background and arrived in this world only recently.

"Yuan! I did not expect to see you so soon again!"

Suddenly, a pretty young lady approached him.

"You are... Xuan Wuhan?" Yuan also did not expect to see her here, especially when they were together not too long ago.

"If I knew that you were coming here, we could've come here together!" she said.

"Hahaha... I did not plan on coming here at first. It's only a coincidence."

"Coincidence or not, we are together again. Come here and sit at my table."

Yuan nodded and followed Xuan Wuhan to her table, where the old man from before and two unfamiliar handsome young men sat.

"The Young Lady was right... to enter this room, his background is not so simple after all." The old man was surprised to see Yuan in the VIP room.

"Who are they?" One of the young men asked after seeing Xuan Wuhan return with strangers.

"Friends I recently made," she said.

"Hmmm..."

The two handsome young men looked at Yuan with a pondering gaze.

"Which noble family are you from? I am Du Bai from the Du Family," said the handsome young man on the left.

"I am Du Hai, his twin brother," said the one on the right.

"Uh... I am not from any family," Yuan casually responded as he sat down beside Xuan Wuhan.

"What?"

They all looked at him with a surprised expression.

"Then you must be a disciple of a powerful sect. Which sect do you belong to?"

"I am also not a part of any sect. I'm a Rogue Cultivator," he said.

"..."

Once Yuan said those words, the entire room went silent, as everyone in the room was paying attention to him trying to figure out his identity.

"A... A Rogue Cultivator, you say? Hahaha... what a good joke..."

A few moments later, the entire room burst with laughter.

"There's no way some Rogue Cultivator would have the privilege to enter this VIP room!"

"Hahaha! He must really want to keep his background hidden!"

"Too bad that only makes me more intrigued!"

"..."

It was Yuan's turn to be speechless. He did not understand why they were laughing at him or why they couldn't believe his words. But regardless of the reason, since they don't believe him, there was nothing he could do. And it's not as though he cared whether they believed him or not.

"Just ignore them, Yuan." Xuan Wuhan said to him.

And just as she said those words, the lights in the room suddenly dimmed.

"The auction is finally starting," said Xuan Wuhan as she pointed to the large stage that was right below their VIP room.

Chapter 23 - Beginning Of The Auction

"Hello, esteemed guests! Welcome to the Azure Phoenix Auction House! I will be your main host today, Qing Qing!"

A beautiful young lady appeared on the stage with a dazzling smile and a cheerful attitude, brightening the atmosphere despite the dimmed lights.

"Before we begin, allow me to remind you of the rules for this auction house! First of all, once you have made a bid on an item, it will be final and you cannot reclaim the offer! Rule number two, you are not allowed to pressure others with your background! This is an auction house, not the streets! After one warning, we will ask you to leave! And lastly, if you bid on an item and cannot afford it in the end, we will take whatever you have on hand until it's enough to pay the debt! If the debt is not paid, we will hold you until someone pays the debt!"

After announcing the rules, Qing Qing clapped her hands. A moment later, another beautiful lady appeared on the stage while pushing a cart covered by a thick cloth.

"Then without further ado, let me reveal the first item for today's auction — an Earth-grade medium quality chest plate made of silver metal, allowing it to have nearly no weight while retaining high defenses! As long as this armor is on your body, all damage dealt by those below the Spirit Master realm will be reduced in half!"

As Qing Qing announced the item, her assistant removed the cover on the cart and revealed the silver armor under it.

"50% damage reduction as long as their Cultivation is below the Spirit Master level? How powerful!" Yuan gazed at the armor with wide eyes. If he had such equipment, it would greatly increase his survivability in this world!

Xiao Hua noticed his desire for the armor in Yuan's eyes and spoke, "Brother Yuan, although it may sound powerful, it'll only work if your opponent is below the Spirit Master level. With your talent, you'll be fighting Spirit Masters in no time! What's more, with Xiao Hua here, nobody will be able to hurt you, even if they are a Spirit Grandmaster!"

Yuan chuckled at her confident face and nodded.

Meanwhile, the Du Brothers sitting on the other side of his table were glaring at the silver armor with drooling eyes.

"This is a must-have item! As long as we have this, we will be near-invincible within the Inner Court!"

They laughed loudly.

"Relying on treasures too much will affect your Cultivation, Du Bai, Du Hai." Xuan Wuhan reminded them after seeing their excited expressions.

However, as though they did not hear her, the Du Brothers continued to stare at the armor.

"The starting price for the armor will be 100,000 Gold!" Qing Qing announced.

"100,000 Gold!" Yuan could feel his heart skip a beat after hearing the price, and it was just the starting price. It's no wonder why they refused to accept his Monster Cores that would only sell for a measly 100 Gold.

"110,000 Gold!" The Du Brother immediately bid.

"115,000 Gold!"

"118,000 Gold!"

"120,000 Gold!

"130,000 Gold!"

The price went up by thousands with each call, and within minutes, it raised to 280,000 Gold!

"280,000 Gold... Even if there are players here, I doubt they'll have enough money to buy it..." Yuan thought to himself.

"280,000 Gold going once... going twice... and sold!"

"Yes! We got it!"

The Du Brothers hugged each other with joy after winning the bid.

"Their family must be filthy rich..." Yuan thought as he watched them celebrate.

"We will keep the item for now. After the auction ends, the winners may retrieve the item after paying the debt," said Qing Qing as she called for another assistant to go onto the stage.

"The next item will be a Spirit-grade Martial Technique, Fire Lotus Palm Strike! The ability packs devastating power and will also burn everything it touches! The starting price will be 10,000 Gold!"

"A single Spirit-grade skill costs over 10,000 Gold?!" Yuan was shocked.

Since all of his skills were either self-taught or taught by Xiao Hua, they were all free. He simply cannot imagine paying for an Earth-grade skill, much less a skill at the Divine-grade.

"Ummm... how much would a Divine-grade skill normally cost?" Yuan decided to ask Xuan Wuhan.

Xuan Wuhan looked at him with wide eyes. "Divine-grade? You cannot buy that kind of technique even with all of the money in this world! Hahaha!" she laughed afterward.

Yuan's jaw dropped to the ground after hearing her words. Cannot be bought with money? To think Xiao Hua would be so generous that she'd give out something like that for free! He suddenly felt the urge to wrap his arms around her and embrace her tightly!

A few minutes later, the Fire Lotus Palm Strike was bought by an old man in the VIP Room for 48,000 Gold.

"The third item is a Tier 3 pill, Soul Strengthening Pill with 80% purity, crafted by the renowned 3-Star Alchemist, Bai Ming!"

"Xiao Hua, what's an Alchemist? Do they turn things into gold?" Yuan asked her.

"Alchemists are medical experts that craft special medicine with their Cultivation, usually in the form of pills. Every pill has a different effect. Some can increase your strength while others can boost your stamina. Pills are usually expensive, so it's not an exaggeration to say they make gold..."

"I see..." Yuan nodded as though he understood something.

"Soul Strengthening Pill... it has a mind-calming effect, allowing you to achieve greater results during Cultivation. I want this!" Xuan Wuhan gripped her hands into a fist.

"Senior Bai personally crafted 15 Soul Strengthening Pill for today's auction, enough to fill three pill bottles, and we will be selling them separately. For the first bottle that contains 5 Soul Strengthening Pills, the starting price will be 5,000 Gold!"

Yuan's eyes nearly popped out of its sockets after hearing the price.

"Mother of fortune, 1,000 Gold for one tiny pill?! If I want to earn money quickly, it seems like becoming an Alchemist is the only way!" Yuan's interest in alchemy was piqued. He thought that if one day he has a chance to learn alchemy, he would definitely give it a try.

However, Xiao Hua also noticed this and quickly lowered his expectations of being an Alchemist by saying, "Although pills can be sold for good money, it's also incredibly hard to craft pills, and they usually end in failures unless you are a very skilled Alchemist. Even a single Tier 1 pill will require hours of effort to complete, not to mention that the supplies needed to craft the pill will also cost a lot of money. What's more, even geniuses will need to train for years before they can become a proper Alchemist. If Brother Yuan wants to become an Alchemist, you will need a lot of money, talent, and patience."

"..." Yuan's hype for Alchemists immediately dipped after hearing Xiao Hua's 'encouraging' words.

'Life is hard even inside a game, huh...' he sighed inwardly.

Chapter 24 - Heaven

"6,000 Gold!" Xuan Wuhan immediately bid for the Soul Strengthening Pill once the auction began.

"6,100 Gold!"

"6,200 Gold!"

A few minutes later, Xuan Wuhan managed to secure the Soul Strengthening Pill for 7,500 Gold.

"Yes! Now I will be able to breakthrough to the third level Spirit Warrior Realm!" she made a victorious fist.

However, Xuan Wuhan was not satisfied with just a single bottle, so she proceeded to bid on the other two bottles.

After a few more minutes, two more bottles of Soul Strengthening Pills were handed to Xuan Wuhan, and she ended up paying 25,000 Gold for all three bottles.

"Hey, Yuan." Xuan Wuhan suddenly called for him.

"What's the matter?" he turned to look at her.

Xuan Wuhan smiled and opened one of the pill bottles to retrieve a Soul Strengthening Pill.

"Here you go. It's not much but I hope we can be friends for years to come!" she said while handing it to him.

Yuan accepted the pill with slightly widened eyes.

"Thank you!" he said with a smile on his face.

When Yuan held the Soul Strengthening Pill in his hands, the system automatically analyzed it for him.

[Soul Strengthening Pill] [Tier 3] [Purity: 82%]

[Effects: Permanently increases Soul Strength by 1,000]

[Description: A Spiritual Pill concocted by Bai Ming.]

[Limit: 3]

"It increases my Soul Strength permanently! And by 1,000!" Yuan exclaimed.

Xiao Hua then spoke, "Most pills have a limitation on how many you can consume before it no longer benefits your body. These Soul Strengthening Pills can only be eaten 3 times before it stops benefiting your body. With that being said, even if it won't improve your body, it still has other benefits such as calming your mind during Cultivation, hence why she bought so many of them."

"I see..." Yuan nodded.

"Hey, why don't you give us one of those pills too, Lady Xuan. Aren't we also friends?"

The Du Brothers asked her after seeing her give one to Yuan.

"If you wanted some, why didn't you even try to buy it?" Xuan Wuhan asked them.

"That's because you were very eager to have them, so we didn't fight for them with you," said Du Hai with a cheeky smile.

"Are you saying that I only won because you allowed me to win?" Xuan Wuhan narrowed her eyes at him.

Du Hai's cheeky smile quickly became an apologetic one and said, "T-That wasn't my intention..."

"Then forget it!"

"..."

After Xuan Wuhan turned her eyes away from him, Du Hai looked at Yuan with narrowed eyes, almost like he blamed Yuan for being responsible for the situation.

Sometime later, after ten more items were auctioned, Yuan's monster cores finally made its appearance.

"Umm... for our next item, we have a few monster cores..." Qing Qing sounded less confident and somewhat embarrassed by her own words.

"Monster Cores? Could it belong to a Beast that was at the Spirit Master level?" The people were slightly surprised by the appearance of monster cores, as they are rarely sold in Auction Houses.

"They are Spirit Apprentice level monster cores," said Qing Qing with a weird tone.

"Spirit Apprentice monster cores? Did the Auction House mess up? How could they sell such trash here?"

"There must've been a mistake. I cannot imagine the Azure Phoenix Auction House purposefully selling trash."

"The Azure Phoenix Auction House does not make mistakes. Although I don't know the reason, these monster cores were approved by Senior Chang herself," said Qing Qing, and she continued, "The starting price for all four of these monster cores will be 500 Spirit Stones."

However, nobody made a bid even after many minutes. It was an unprecedented event for the Azure Phoenix Auction House.

"Just take those trash away from our sights! Are you mocking us with them? Nobody wants it!" Du Bai shouted loudly.

"That's right! What kind of joke is this? Even if you are the Azure Phoenix Auction House, there is a limit."

Following Du Bai, other guests also began complaining. To sell something worth so little in this high-end Auction House with treasures worth tens of thousands of Gold was akin to selling street meat in a luxurious restaurant. The guests were feeling as though they were being mocked by the auction house.

"What should I do...? Senior Chang told me to sell these even if we have to lose face!" Qing Qing cried inwardly.

Meanwhile, in the VIP Room, Yuan was slightly trembling from anger. Even though the complaints were directed at the auction house and Qing Qing, he felt as though they were all directed at him, who wanted to sell these monster cores.

Xuan Wuhan noticed the irritated expression on Yuan's face and wondered if the monster cores belonged to him. After all, he gave her one of them at the city's entrance.

"It's just a few hundred golds. If these monster cores really belong to him, it'll definitely benefit our relationship, and he might even owe me for giving him face. It might also be another one of his tests..."

Thus, Xuan Wuhan spoke the next moment, "I will bid 600 Gold for these monster cores."

"Lady Xuan! Why would you bid for the monster cores? They are just trash! Don't waste your money on them. If you want, I can give you some at the Spirit Warrior level for free as a gift!" Du Hai said to her.

"Shut up! Do I need your permission if I want to buy something? I just happened to need these monster cores, so I am buying them!" she coldly snorted.

"..." Yuan looked at her with wide eyes.

'Not only did she give me a Soul Strengthening Pill worth hundreds of Gold but she's also buying my monster cores... I will definitely thank her properly in the future...' he thought to himself with a warm smile on his face.

"Would you like to pay for the monster cores now?"

An assistant from the auction house asked Xuan Wuhan after she easily won the bid due to a lack of competitors.

Xuan Wuhan retrieved 600 Gold and handed it to the assistant. "I want it now," she said.

"Understood."

The assistant accepted the money and returned a few minutes later with the monster cores.

Meanwhile, on the stage, a new item was already being auctioned.

"For the next item, we have this piece of crystal that is of unknown origin. Although we cannot tell you the purpose of its existence, it has a large amount of Qi flowing within like a monster core. In fact, if it was a monster core, it would be comparable to one at the Spirit Grandmaster level." Qing Qing showed them the cobble-sized piece of crystal to the guests.

"Comparable to a Spirit Grandmaster monster core!"

The people were shocked, as monsters at the Spirit Grandmaster level were exceedingly rare and terrifying, and they have the power to wipe out a large city like this Spirit City with ease. In fact, the last time a Spirit Grandmaster monster appeared in this world was 1,000 years ago, killing millions of people and nearly destroying the world if not for the Spirit Grandmasters that sacrificed their own lives to kill it.

When Xiao Hua saw the cobble-sized crystal, her eyes slightly widened.

"Brother Yuan, that's a Spirit Crystal."

Xiao Hua's voice suddenly resounded in his head.

"Spirit Crystal? Like the Ancient Spirit Jade I have?" he asked.

"No, it's not real Spirit Jade. Real Spirit Jade, even at the lowest quality, would have more Qi. And even though it's not comparable to Spirit Jade, it'll still provide a big boost to your Cultivation. It can also be used as a currency in the upper Realms."

'I wonder how much Qi I would get from consuming it,' he pondered.

"Brother Yuan, you should bid for it." Xiao Hua suddenly said.

"What? But I don't have any money."

"We may have no money now but we will have plenty once we sell the Heavenly Frost Dagger. It'll be more than enough to buy something like this Spirit Crystal, and the people here seem to be unaware of its true value."

Yuan pondered for a moment and asked, "Are you sure? It's still your money."

Even if Xiao Hua allowed him to use the money from selling the Heavenly Frost Dagger, Yuan was not shameless enough to accept it. In fact, if he accepts it despite everything that she's already given him, it'll make him feel guilty instead.

"Buy it, Brother Yuan." Xiao Hua nodded with a resolute face.

"Okay, if you say so."

"I must get this piece of crystal that is overflowing with Qi! If I can cultivate the Qi inside, I might even breakthrough and become a Spirit Master in no time!"

Xuan Wuhan's eyes glittered with excitement.

"There's no way something that contains so much Qi is not a treasure! It must be a treasure with a powerful ability!"

Not just Xuan Wuhan but Du Brothers and the others in the VIP room were also trembling in excitement.

"Since we do not know its true value, we will let the guests decide. The auction begins now!" Qing Qing announced loudly.

"10,000 Gold!"

"30,000 Gold!"

"100,000 Gold!"

The people immediately began bidding, and the price fluctuated quickly.

Within mere minutes, the price for the Spirit Crystal reached half a million Gold.

"Xiao Hua... it's already at 500,000 Gold. Are we still going to buy it?" Yuan asked her.

Xiao Hua did not hesitate for a second and nodded.

"500,100 Gold!" Yuan made a bid for the first time in this auction and in his life.

"This brat... he's not a simple one, as expected..."

The people in the VIP room glanced at Yuan with the corner of their eyes.

'You want to buy something when I am here? Then you will have to ask me for permission first!' Du Hai coldly sneered in his heart and raised his hand.

"510,000 Gold!"

"510,100 Gold." Yuan calmly responded.

Du Hai gnashed his teeth and spoke loudly, "Are you purposely trying to provoke me by adding so little every time?!"

Yuan raised an eyebrow at Du Hai's words, as he truly didn't understand why Du Hai would be upset about that. "Is there something wrong with that?"

"..."

Du Hai trembled in anger at Yuan's response, thinking that he was being mocked.

"520,000 Gold! This is how you bid in an auction! What is the point in adding so little?!"

"520,100 Gold. What if I add too much and waste money? I'd rather play it safe." Yuan innocently shook his head.

After all, it was not his money that he's using to bid.

Xuan Wuhan chuckled after hearing Yuan's words, which only fueled Du Hai's rage even further.

"Good! Since you want to play that game, then I will also play!"

"520,200 Gold!"

"520,300 Gold."

"520,400 Gold!"

"520,500 Gold."

After a few minutes of bidding back and forth, Du Hai was finally unable to endure it and burst with anger, "You mother fucker! How dare you play with me like this!"

Seeing Du Hai lose control of his temper and preparing to strike Yuan, Na Ning, who had been standing in the background in silence stood forward

and spoke, "Esteemed guest, please behave yourself. If you continue any further, we will have to ask you to leave."

"Du Hai, sit back down!" Du Bai grabbed Du Hai's robes with a frown.

"Che!" Du Hai coldly snorted and returned to his seat. However, his narrowed gaze remained on Yuan even after many moments later.

"We cannot afford to offend the Azure Phoenix Sect! And give up on this treasure. Our money won't last till the end if you spend so much at once. If you want to deal with him, we can do it after the auction." Du Bai whispered in Du Hai's ears afterward.

"Yuan, the Du Brothers are unforgiving people. They will surely try to cause trouble for you afterward. I will speak to them later." Xuan Wuhan whispered in Yuan's ears when she noticed their suspicious gazes.

"Thank you for the warning. " Yuan nodded.

Although he was not afraid of them, he'd rather not have to deal with them.

A few minutes later, Yuan won the bid with 550,000 Gold.

"Esteemed guest, would you like to pay for the item now, or would you like to pay for it afterward?" Na Ning asked him with a polite tone and a respectful demeanor.

"You can subtract it from that item afterward." Xiao Hua said to her.

"I understand." Na Ning nodded and walked away.

Xuan Wuhan raised her eyebrows at Xiao Hua words, and she pondered. 'That item? Did they put something else besides the monster cores up for auction?'

After selling the Spirit Crystal, a few more items were sold.

"Before we start the auction for the final item we have today, allow me to introduce the owner of this auction house, Senior Chang!" Qing Qing

suddenly said, dumbfounding the people there.

"Madam Chang will be making an appearance today? How rare."

The people thought.

A few moments later, an old lady appeared on the stage with a wooden box in her hands.

"Thank you all for coming to my auction house today. Since the last item we have for today is a little bit special, I will be conducting the final auction." Senior Chang spoke in a low voice, yet her voice echoed in every corner of the room.

After saying those words, Senior Chang opened the wooden box and revealed the beautiful dagger resting inside.

"T-That aura! It's a Heaven-grade treasure!"

Without even needing Senior Chang to introduce the Heavenly Frost Dagger, the people there were already able to tell what kind of treasure it was from the profound aura that was shrouding the blue dagger.

"It's really a Heaven-grade treasure! Hahaha! I have lucked out by coming here today!"

"Even though I won't be able to afford it, I am already satisfied to witness something so valuable with my own eyes!"

The crowd went into an uproar after the appearance of the Heavenly Frost Dagger, as the last time something this precious appeared in the public was 100 years ago!

Chapter 25 - End Of The Auction

"Elder Jia, we must buy this Heaven-grade treasure at all cost!" Xuan Wuhuan said to the old man beside her with a serious expression.

"I agree with the Young Lady. Although it might get expensive very fast, Heaven-grade treasures do not appear very often in this world, and this one appears to be of great quality, too."

"Du Hai, this treasure..."

"Of course, we are going to try and bid for it! Even though we might not win, we cannot simply sit here and do nothing while there is such a treasure before us!" Du Hai spoke with a regrettable face.

Although the Du Family has decent wealth, compared to the other esteemed guests in the V.I.P room, their wealth is nothing significant. However, even if there's the slightest chance they could buy the Heaven-grade treasure, they will surely try.

The V.I.P room quickly became chaotic, and everybody there looked at the Heavenly Frost Dagger with lustful eyes.

Even if they have to use all of their money and replace the food on their dinner table with water for the next ten years, they felt that it would all be worth it if they obtained the treasure.

Once the anticipation within the auction house was at its maximum, Madam Chang spread her arms and spoke with a wide smile, "Then without further ado, let the bidding for this peak quality Heavenly Frost Dagger begin at 10 million gold!"

Despite the outrageous price, the people at the auction house began bidding like animals.

"11 million gold!"

"11.5 million gold!"

"13 million gold!"

Within minutes, the minimum price for the Heavenly Frost Dagger increased to 21 million gold.

"21 million gold..." Yuan listened to the biddings with a dazed face, seemingly in disbelief.

He cannot even begin to imagine what he could do with that much wealth.

"25 million gold!" Xuan Wuhuan suddenly shouted.

The sudden high bid by Xuan Wuhuan slowed the bidding pace briefly, but after a few moments, it returned to normal.

When the bidding reached 30 million gold, the pace finally slowed down permanently, as only very few individuals there could afford to bring out so much money.

"30.5 million!"

Of course, Xuan Wuhan, whose family belonged to the business circle, was one of these rich individuals.

"31 million!"

"31.5 million!"

After a few more minutes of bidding from the same three people, a new voice suddenly resounded.

"40 million gold."

The voice was profoundly calm, causing everybody in the V.I.P room to turn to look at the person who just spoke.

However, that person had not been in the V.I.P room since the beginning, and the people there wondered when this person arrived.

"T-That's Qi Jiguang from Heaven and Earth Palace! What's he doing in this place?!" Someone there exclaimed after realizing his identity.

"What?! The Heaven and Earth Palace?!" Although most people there were unfamiliar with the name Qi Jiguang, they all gasped in shock after hearing the name 'Heaven and Earth Palace'.

"That man is at the peak of the Spirit Grandmaster. He's considered as a peak expert in the Lower Heavens." Xiao Hua mumbled to Yuan, who seemed to be dazed by the profound aura surrounding this Qi Jiguang.

"I wonder what it would be like to fight someone as powerful as him..." Yuan said in a low voice.

Xiao Hua looked at him with raised eyebrows. "As expected of a battle junkie. In this entire room, you are probably the only one thinking such a thing, Brother Yuan. But at your current cultivation, you won't even last a second against a single finger from him. You'll die instantly."

"Hmm?"

When Qi Jiguang noticed the two of them looking at him, he also looked back.

Although there was nothing out of the ordinary about Yuan, he could sense an invisible yet formidable aura coming from Xiao Hua.

'That little girl... I cannot see her cultivation base, but she's without a doubt an expert like me.' Qi Jiguang thought to himself.

While her presence piqued his interest, he did not want to involve himself with another expert at his level without any good reason, as that might lead to unnecessary confrontation.

Many moments have passed since Qi Jiguang bid 40 million gold for the Heavenly Frost Dagger without anyone else trying to outbid him.

'Damn it! Why did someone like him have to appear here today?!' Xuan Wuhuan cried inwardly. While she had the ability to continue bidding, she did not want to fight against someone from the Heaven and Earth Palace and accidentally offend him, as that would be devastating for her family and its business.

"Since there doesn't seem to be any more bidders, the bid for this Heaven-grade treasure shall come to an end! Congratulations to the esteemed guest for winning this exquisite treasure!" Madam Chang clapped with smiles all over her face, as she just earned 4 million gold from this transaction alone.

After the auction ended, Xuan Wuhan said to Yuan, "If you ever need anything, come find me at Spring City. You can show anyone the medallion I gave you, and they will lead you to me. I hope to see you again later, Yuan."

The Du Brothers glanced at Yuan with narrowed eyes for a moment before leaving the place.

Sometime later, Na Ying approached them after the auction ended and said, "Esteemed Guests, please follow me to claim your sales."

Yuan nodded and proceeded to follow her to a private room at the top of the auction house.

"Madam Chang will be here in a few moments with your earnings, please relax in the meantime." Na Ying said to them as she poured them a cup of spiritual tea.

«You have gained the following effect from consuming Phoenix Blossom Tea»

«Increased Qi Absorption Rate by 10% for 12 hours»

«Soul Strength +500 permanently»

Yuan gained some stats after drinking the tea.

Chapter 26 - Wealth Leaderboards

"What wonderful tea..." Yuan mumbled after sipping the tea, feeling a little bit stronger after just a single sip.

"I'm glad you like this tea, Esteemed Guest. It's called the Phoenix Blossom Tea, a spiritual tea made by the Azure Phoenix Sect. Usually, only Elders within the Sect are allowed to enjoy this tea, but Madam Chang specifically wanted you to try it." Na Ying said to him with a smile.

A few minutes later, Madam Chang entered the room and bowed to them.

"Thank you for being patient with this one, Esteemed Guests. I have just finished organizing your sales."

She then placed a ring made of jade and a small red pouch on the table before them and continued, "I have already deducted the auction house's 10% share and your purchase worth 550,000 gold from the income, so there are 35 million gold and your purchase in the Spatial Ring from the Heaven-grade treasure and 540 gold in the Storage Pouch from the monster cores."

"And you can keep the Spatial Ring and the Storage Pouch as well. Although it's nothing significant when compared to the Heaven-grade treasure, please consider it as a small gift from the Azure Phoenix Sect."

«Spatial Ring»

«Grade: Earth»

«Mental Strength Required: 5,000»

«Description: A mythical ring that contains its own space, allowing you to store things inside and retrieve them with a thought.»

«Storage Pouch»

«Grade: Spirit»

«Mental Strength Required: 500»

«Description: A pouch that contains its own space. Although there's not much room inside, you can fit a few watermelons inside.»

Yuan picked up the jade ring and the red pouch, and a notification appeared before him.

«35,450,560 gold has been received»

«You have unlocked the Wealth Leaderboards»

«Congratulations! You have reached first place in 'Wealth Leaderboards', becoming the wealthiest player in Cultivation Online»

«Congratulations! You have obtained the unique title 'Rich Young Master'!»

«Fame +100»

When Yuan saw that he'd become the richest player in Cultivation Online, he didn't express any surprise. In fact, it would be more surprising if he wasn't in the first place!

"Xiao Hua, here, take this."

After receiving the Spatial Ring, he handed it to Xiao Hua, who looked at him with a puzzled face.

"Why are you giving it to me, Brother Yuan? It's your money."

However, Yuan shook his head and said, "To begin with, it was your treasure that was sold, and I will feel bad for accepting this much money when it doesn't even belong to me."

"Xiao Hua belongs to Brother Yuan. Everything in Xiao Hua's possession is also Brother Yuan's possession, so it's not weird."

"I know, but it still doesn't feel right with me, getting so much wealth when I didn't do anything to deserve it. Keep it. But when we really need that money, we can use it." Yuan was adamant about not accepting the 35 million gold.

He felt that it was too much money for him at his current level and that it would take away all of the fun in the game if he could buy whatever he wanted with such ease.

In fact, he even feels slightly guilty for having an overpowered companion such as Xiao Hua by his side.

However, obtaining a massive amount of resources without working for it and earning these resources by himself are two entirely different matters. Furthermore, as someone who could only rely on others to help him survive for almost his entire life, he did not want to rely too much on Xiao Hua, who resembled his real younger sister, hence why he refused the gold.

Seeing the stubbornness in Yuan's eyes, Xiao Hua ultimately nodded her head and accepted the Spatial Ring and all of the money inside.

However, after taking the Spatial Ring, she transferred the money inside the Spatial Ring to her own Storage Pouch, before handing the Spatial Ring back to Yuan.

"Brother Yuan, I will take the money, but you should keep the Spatial Ring. It'll be very convenient for you since you can carry many things with you without the burden of carrying its weight that way."

Yuan nodded and accepted the Spatial Ring without much thought, completely oblivious to the fact that the Spatial Ring itself was valued at a few hundred thousand golds.

Meanwhile, outside of the Azure Phoenix Action House, a large notification was hanging above the clouds with countless eyes staring at it.

«Player Yuan has become to first Player to unlock the Wealth Leaderboards by accumulating over 1,000,000 gold»

"Somebody has already earned over one million gold?! How is that even possible?!"

"Look! It's that alleged cheater, Yuan!"

"Holy shit! If you convert that amount of gold into real-life money, that's over ten million dollars at the market's current rates!"

Since Cultivation Online is a video game — a very popular one at that — there would obviously be people using the game to make profits in real life by trading in-game currencies for real-life currencies, and at the current state of the game, a single gold coin was worth around ten dollars in real life.

This type of business is usually called Real World Trading, RWT for short, and is against the terms of service for most online games out there. However, despite being against the terms of services, there are many people who would rather go out of their way to use such services to strengthen themselves in-game than to waste time and effort to earn them fairly.

Furthermore, this type of business is not limited to only in-game gold, as people buy in-game treasures and resources with real money, too.

With all that being said, RWT is not against Cultivation Online's terms of services, as such terms never existed in the first place, so there are already many players using their real-life money to buy Cultivation Online gold and vice-versa.

If Yuan were to convert all of his in-game gold to real-life currency, he'd have over 350 million dollars right now. But of course, Yuan is oblivious to such a business market, thus such thoughts never crossed his mind.

"If you ever need to sell anything to our Azure Phoenix Auction House, please come by again."

Madam Chang handed them a badge with the auction house's name on it.

«You have obtained Azure Phoenix Auction House Diamond Pass»

"As long as you have that pass, you can enter any auction house in this world that is owned by the Azure Phoenix Sect."

"Thank you."

After accepting the pass, Yuan and Xiao Hua left the auction house.

Chapter 27 - Stuffing His Face With Food

Once Yuan and Xiao Hua left the auction house, they wandered around the city aimlessly.

"What should we do now, Xiao Hua? Now that we have enough money, maybe we should better gear ourselves for the future."

However, Xiao Hua merely tilted her head in a puzzled manner and spoke, "But Xiao Hua has plenty of treasures you can use."

Yuan showed a bittersweet smile and said, "While that is true, I cannot rely on you for everything. I want to work hard and earn my own equipment, too."

Xiao Hua remained puzzled, and she asked, "Xiao Hua has noticed this for a bit now, but why does Brother Yuan want to work so hard? If it were someone else in your shoes, they would surely take advantage of the situation and not do so much work."

Yuan chuckled after hearing her words and said, "Although it may not seem like it, I have lived the majority of my life as a cripple, where I cannot even use the bathroom without help from someone else. I hate the feeling of being so powerless and useless, and despite breathing, I never felt alive. But now that I can finally use my useless body again, I want to enjoy life to the fullest and experience what it means to be alive."

"Brother Yuan... you must have lived a difficult life..."

"Past tense?" Yuan laughed in a dispirited tone, "Even though I may appear fine now, I am actually still living that pointless life."

"..."

"But Brother Yuan is no longer a cripple! He's even a cultivation genius!" Although Xiao Hua does not know his situation, she could feel a sense of loneliness and desperation within his tone.

"That may be true in this world, but once I log out, I will return to being a cripple in that dark and still world. Anyway, let's leave this depressing topic behind and enjoy ourselves with our newfound wealth." Yuan said as he continued walking around the city.

Meanwhile, Xiao Hua silently stared at him with a pondering gaze, seemingly in deep thoughts.

'Maybe there's something Xiao Hua can do to relieve Brother Yuan's pain...' she thought to herself.

Sometime later, they arrived at what appears to be an equipment shop.

"Welcome to the Dragon Armory!" The middle-aged man behind the counter said to them after noticing their presence. "We have all sorts of Spirit-grade weapons and armor! If you are looking for something specific, just let me know!"

"I will," Yuan said as he began looking around.

«Bone Sword»

«Grade: Spirit»

«Quality: Medium»

«Physical Strength Required: 300»

«Mental Strength Required: 600»

«Sharpness: 300»

«Description: A sword made from the bones from a Spiritual Skeleton»

«Price: 30,000 Gold»

«Fiery Lizard Scale Armor»

«Grade: Spirit»

«Quality: High»

«Physical Strength Required: 500»

«Mental Strength Required: 250»

«Physical Defense: 5,000»

«Description: Crafted with highly durable scales from a Fiery Lizard»

«Price: 80,000 Gold»

'Good lord, the equipment here is so expensive!' Yuan's eyes widened when he saw the price for these Spirit-grade weapons. It made the 540 Gold he'd earned completely insignificant!

"It's expensive, right?" Xiao Hua could read his expression and said with a smile. "Unless you are from a noble family or have the backing of a powerful Sect, nobody would come to these places to look for equipment."

"Why didn't you tell me before we walked in here? Now I feel like a beggar walking into a jewelry store..." Yuan sighed. "Let's leave and get something to eat instead."

When the middle-aged man saw that they were leaving after looking at just two items, he sucked his teeth in disdain, "Che! To think I'd wasted my breath greeting these poor bastards."

"..."

Hearing such words, Yuan stopped walking and turned around to look at the middle-aged man with a frown.

"What? Are you going to hit me for speaking the truth?" The middle-aged man remained nonchalant and even continued to insult him. "This store is owned by the Earth Dragon Sect. Hit me if you dare."

"..."

Yuan's eyebrows twitched at the irritating tone coming from the middle-aged man, but he had nothing to say, as he was truly poor. Furthermore, he didn't want to cause unnecessary trouble inside a shop owned by an NPC because who knows what the NPC might do.

However, Xiao Hua was not as kind as Yuan, and she despised people looking down on Yuan, her beloved Master. A moment later, she retrieved her storage ring and pulled out two peak quality Heaven-grade treasure—one in each of her small hands.

When the middle-aged man realized that she was holding two Heaven-grade weapons and was even treating them as though they are mere toys, his eyes rolled back from shock, and he collapsed the next moment.

'That's what you get for bullying Brother Yuan.' Xiao Hua sneered inwardly before putting away the Heaven-grade weapons and leaving the store with a satisfied expression on her cute face.

Once they left the store, Yuan and Xiao Hua went to a nearby restaurant, where they proceeded to fill their stomach with delicious food.

'Oh my god! This food is crazy delicious! I can't believe how real it tastes inside a game!' As though he'd turned into a starving beast, Yuan stuffed food into his mouth and down his throat, and both of his hands were occupied with food at all times.

Meanwhile, Xiao Hua watched him eat like an animal with her jaw hanging. This is the first time she has seen anyone eating so frantically. It was almost as though he'd never eaten anything before today.

"The food isn't going anywhere, Brother Yuan. If you don't eat slowly, you might choke to death," she said to him.

"I can't help it! My hands are moving by themselves! After all, I have eaten nothing but soup for the last few years!" Yuan said in a stuffed voice as he continued to mercilessly shove food into his mouth with tears flowing down his fat cheeks.

Xiao Hua merely shook her head before she began to eat her own plate of food with elegance.

Chapter 28 - Cooking Techniques

After spending nearly three hours stuffing his face with food in the restaurant, Yuan was finally satisfied with his stomach, which was fully bloated at this moment, making him appear fatter than normal.

"Unbelievable... Brother Yuan's stomach is a true mystery. Not only can you consume monster cores and feel perfectly fine, but you can also eat enough food to feed ten whole families..." Xiao Hua stared at him with wide eyes.

"Hahaha... I don't usually eat so much, but for some season, when I swallow the food, it feels as though the food disappears before it even reaches my stomach." Yuan said. "And my Qi has increased significantly, too."

After consuming so much food, his Qi Experience has increased by 1 million, comparable to the Jade Frog's monster core.

"That's because of the food Brother Yuan ate. It's not ordinary food, but spiritual food, which is cooked from monsters and contains spiritual energy."

"Is that why it also tasted so good? Man, I should eat more of these so-called spiritual foods." Yuan said as he rubbed his stomach.

However, when the bill appeared sometime later, Yuan immediately regretted eating so much.

"500 gold coins?! That's nearly everything I have! Why the hell is it this expensive?! Did they miscalculate the bill?" Yuan exclaimed with a terrified expression.

"Brother Yuan... did you order the food without looking at the prices? Spiritual food is considered luxury food... of course it would be expensive... and you ate so much of it..." Xiao Hua said to him.

Yuan sighed and spoke, "If it's like this, I'd rather hunt and cook my own food."

"That's an option, too." Xiao Hua nodded. "After all, it's just cooked monster meat."

"Then it's decided! In order to save money, I shall learn how to cook spiritual food!"

And he continued, "By the way, are there any techniques that teach you how to cook?"

Xiao Hua nodded and said, "It'll cost you a few gold coins, but you can find these kinds of techniques in any Cultivator market."

"Great. Then let's go shopping again after this."

After paying the massive restaurant bill that depleted almost everything he's earned from selling the monster cores, Yuan and Xiao Hua returned to strolling in the streets.

Sometime later, they approached a store with a large sign that read 'Cultivator Essentials'.

"Welcome to Cultivator Essentials! How may I assist you, Young Master?" A pretty lady greeted him with a warm smile after noticing their presence.

"Hello. Do you sell cooking techniques in this place?" Yuan asked her.

"Cooking techniques, huh? Give me a moment to check."

The pretty lady then went to the back of the shop.

A few minutes later, she returned with three books in her hand.

"We have three cooking techniques. Pick whichever is to your liking."

"Hmm..." Yuan looked at the three techniques before him.

"Thousand Knife Techniques... Heavenly Fire Control... Senior Wu's Recipes..."

Yuan made a weird expression after reading the title of these three books.

"Are they really cooking techniques? They look more like fighting techniques... And the last one... it's only a recipe book, right?"

The pretty lady behind the counter chuckled, and she said, "I can assure you that they are cooking techniques. If you aren't convinced, I can let you read a few pages for yourself."

"Really? Then excuse me..."

Yuan picked up the techniques and began reading them one at a time.

A few minutes later, a notification appeared.

«You have learned Thousand Knife Technique»

«Thousand Knife Technique»

«Rank: Mortal»

«Mastery Level: 1»

«Description: Consumes 100 Qi. Must wield a knife or dagger to activate. A common knife technique for chefs around the world.»

«You have learned Heavenly Fire Control»

«Heavenly Fire Control»

«Rank: Mortal»

«Mastery Level: 1»

«Description: Consumes 10 Qi per second. Allows you to control and adjust temperatures of regular fire with your spiritual energy.»

«You have read Senior Wu's Recipes»

«Your Cooking knowledge has increased significantly»

«You have learned Cooking Skill»

«Cooking Skill»

«Mastery Level: 1»

«You have learned new cooking recipes»

«You can now cook Tier 1 spiritual food»

"Uh..." Yuan did not mean to learn the techniques without paying, and he turned to look at the pretty lady with a worried face, but she appeared to be oblivious of what just happened.

"How much are these techniques, again?" he asked her with a shaky voice.

"Ten gold coins each!" she quickly responded with a bright smile.

"..."

Not wanting to feel like he'd just committed a robbery, Yuan decided to pay for these techniques even if it will cost him all of his remaining money.

"I will buy them..." He said in a sighing voice, before taking out 30 gold coins and placing it on the counter.

"Thank you very much for your purchase, Young Master!" The pretty lady immediately accepted his money with her face full of smiles.

After buying the three cooking techniques, Yuan and Xiao Hua left the shop.

"Haaa... I only have 10 gold coins left..." Yuan sighed deeply after taking a look into his empty wallet.

"Should Xiao Hua give you some money? After all, she made Brother Yuan pay for her own share of food in the restaurant." Xiao Hua said to him after seeing his saddened face.

"No, it's fine. You have already done enough for me. And it's about time for me to start helping you, even if it's as small as paying for your food..." Yuan said. "And if I really need money, I can just farm some more monster cores and sell them again."

"Don't mention it, Brother Yuan. It's only natural for Xiao Hua to assist you as your servant. It's her responsibility, after all."

Yuan showed a gentle smile on his face and said, "Thank you, Xiao Hua. But instead of a servant, you are like a little sister to me."

"Xiao Hua... Brother Yuan's little sister? Really?" she looked at him with sparkly eyes.

"That's right." Yuan nodded. "That's why you should stop calling yourself my servant."

Xiao Hua quickly nodded with a blissful smile on her face, "Okay! Then Xiao Hua will be Brother Yuan's little sister starting now!"

Chapter 29 - Leaving Spirit City

"Xiao Hua, it's about time for me to log off for dinner. I will be back later." Yuan said to her sometime after leaving the Cultivator shop.

"Where will you go during my absence?" he then asked her.

Xiao Hua pointed to the necklace around his neck, and she said, "You can call Xiao Hua using the necklace whenever you are back."

After saying those words, Xiao Hua's body began glowing, before being absorbed into the necklace.

"What a profound necklace..." Yuan mumbled to himself before logging off.

After logging off the game, Yuan patiently waited for Yu Rou to bring him dinner, and he felt as though time had stopped.

Unlike the colorful world in the game, the real world was pitch black, almost like he was living in the void, and his body felt nonexistent.

'Haaa... If only I could live inside Cultivation Online forever...' Yuan sighed inwardly.

After familiarizing himself with the world inside the game, his perception of the real world became even worse, and it felt even more lonely than usual.

Inside the game, whether it be the pedestrians or just the noises nature made, it was always lively. However, whenever he returned to his own room, the only thing he could hear was the sound of his own heart beating and very rarely subtle noises from outside his room, a world he hasn't stepped foot in for many years.

After waiting around for a few minutes that felt like hours, he could finally hear footsteps approaching his bed.

However, he could immediately tell that it was not Yu Rou, as these footsteps were too heavy to be Yu Rou's, so it was someone else in his room.

"Who's there...?" Yuan asked in a hoarse voice.

"Young Master, the Young Lady is currently busy with the Masters, so I will be taking care of you for today." A voice belonging to a middle-aged woman responded.

"..."

"For today's dinner, we have beef soup with—"

"It's fine..." Yuan suddenly interrupted.

"I am not hungry today..."

"Even if you say that... I have a job to do..." The person sighed in a troubled tone.

"I won't... repeat myself..."

"..."

Silence filled the room, and a moment later, the middle-aged woman spoke, "I understand. Please rest well, Young Master."

The door closed a few seconds later, and Yuan could barely hear the person who just left coldly snorting in disdain.

"With that useless body, it's a miracle that he hasn't been tossed out of this house already..."

"..."

'I can still hear you, you know?' Yuan smiled bitterly.

Since the only functioning part of his body were his mouth and ears, he has to rely on his hearing more than normal people, allowing him to hear things people normally wouldn't be able to.

'Perhaps my voice, even my ability to hear might abandon me in the future, just like the rest of my body had...'

Sometime later, Yuan returned to Cultivation Online.

However, he did not immediately call for Xiao Hua, as he had spent a few minutes silently staring at this colorful world.

'What am I doing? I don't have the time to be depressed! Every second I spend idling around is a second lost in this beautiful world! I may be useless and crippled in the real world, but I am not like that in this world!'

After calming down, Yuan summoned Xiao Hua using the necklace.

"You're back already, Brother Yuan?" she looked at him with a pondering gaze.

Despite Yuan's efforts to hide his emotions, Xiao Hua was able to notice the sadness within his eyes at a single glance.

"Are you okay, Brother Yuan? You seem a bit sad." She asked him.

"Don't worry about it. It's nothing I can't handle, and it'll quickly go away after I slay a few monsters!" He said.

Although she was worried, Xiao Hua did not want to force him.

"If Brother Yuan needs somebody to talk to, Xiao Hua will always be by your side."

"Thank you, Xiao Hua. I will keep that in mind." Yuan smiled.

Xiao Hua nodded, and she said, "Then let's continue Brother Yuan's training. Although you won't gain much from Monsters Cores at the Spirit Apprentice levels, you can still improve your sword techniques. And once you are more experienced in combat, we can start looking for monsters at the Spirit Warrior realm."

"Then what are we waiting for? Let's start training!"

Yuan and Xiao Hua began making their way out of the city.

Sometime later, once they were a few miles away from the city, Xiao Hua spoke in a low voice, "Brother Yuan, we are being followed."

"Could it be the Du Brothers from the Auction House? Xuan Wuhan did warn me that those two might be up to something before we separated."

Xiao Hua nodded and said, "Yes, but I can sense another person with them. He's a Cultivator at the peak of the Spirit Master realm."

"Spirit Master? That's one realm above me..." Yuan showed a worried expression, completely forgetting about the Spirit King walking beside him.

"Don't worry, Brother Yuan. If they try to do anything funny, Xiao Hua will take care of them. Let's just continue acting like we are unaware of their presence."

Yuan nodded, and the two of them delved deeper into the wilderness.

After walking for a few more miles, a familiar-sounding voice resounded.

"Stop right there, you little bastard!"

Yuan and Xiao Hua stopped walking and turned around, and standing a few meters behind them were the Du Brothers and a tall middle-aged man with a bulky frame.

"Following me all the way out here, what do you want from me? I doubt it's anything good, though." Yuan asked them with a frown on his face.

"Since you dared to ruin my face in the Auction House before so many people and even directly in front of Lady Xuan's presence, I will have you pay for it with your life!" Du Hai spoke loudly, his face filled with anger.

OceanofPDF.com

Chapter 30 - One Against Two

"Wait a second, what do you mean I ruined your face? Your face looks perfectly fine! I didn't even touch you!" Yuan said with a bewildered expression. "If you are going to lie, at least do it better!"

"Th-That's not what I mean! Are you making fun of me, you bastard?!" Du Hai stomped his feet in anger, and he continued, "Because of you, my reputation was ruined! You even embarrassed me in front of Lady Xuan! I won't forgive you even if you die!"

"What an exaggeration. If you are going to kill someone just because they embarrassed you a little bit, you'll have to kill a lot of people in the future. That's going to be a hard lifestyle." Yuan shook his head, and he was unable to comprehend the thought process of these kinds of people.

"So what?! I have already killed tons of people for messing with me, and it'll only get easier in the future! This is a world where the strong eats the weak and where the weak has no privilege to complain!"

Yuan frowned and said, "I don't care what kind of psychopathic world you live in, but I am not in a good mood today, so you should leave me out of it before I get angry."

"Hahahaha!"

The Du Brothers burst out laughing at his words, and they spoke, "So what if you get angry?!"

"What are you going to do to us?!"

"What CAN you do to us?! You are a mere single Spirit Warrior, and we have two Spirit Warriors and one peak Spirit Master!"

"Hahaha! I cannot believe that a nobody like you could be so entertaining!"

"Well, since you made us laugh, we'll give you a quick and painless death."

The Du Brothers withdrew their swords and pointed them at Yuan.

"..."

Yuan silently stared at the Du Brothers with a grim expression, his aura slowly growing sharper and sharper, almost like a sword.

When the Spirit Master saw this, he frowned and said to Du Brothers, "Young Masters, don't underestimate him. He's emitting a powerful aura that doesn't suit his level. He might have the strength to fight those above his own level."

"So what if he can fight people above his own level? We can also do the same!" Du Bai scoffed.

"Are you looking down on us? Even though you are at the Spirit Master level, you are still just a mere guard that's hired by my family!"

Meanwhile, on the opposite side, Yuan asked Xiao Hua, "Do you think I will be able to win against those two?"

"Both of them are in the fifth level Spirit Warrior realm. Although they are slightly better than the disciple you defeated before, it shouldn't be a problem for Brother Yuan."

"That's all I need to hear." Yuan nodded before retrieving his own sword.

"Oh? You also have a peak Spirit-grade weapon? I guess you really didn't wander into the VIP Room by accident! Hahahaha!"

"However, unfortunately for you, having that sword won't change the outcome!"

The Du Brothers then sheathed their swords and pulled out two peak Spirit-grade swords a few seconds later.

"I am going to warn you two one last time! Do not force my hands!" Yuan shouted at them with the sword in his hand tightly grasped.

"Enough bullshitting! Let's get him, Du Bai!"

Du Bai nodded, and the two of them began rushing at Yuan.

"This will be fun!" A wide grin appeared on Yuan's face as he also stepped forward.

A moment later, the three of them clashed, and Yuan maneuvered his sword like an expert, blocking both their sword strikes at once.

"Let's see how long you can keep this up!"

The Du Brothers began releasing a torrent of sword strikes at Yuan.

Ding! Ding! Ding!

However, Yuan either deflected their attacks or perfectly blocked them, albeit barely.

'This is much more difficult than I'd expected! If I want to win this fight, I will have to be the aggressive one!"

After being on the defensive side for a few more strikes, Yuan suddenly stepped forward and began attacking the Du Brothers, catching them off guard.

'What powerful blows!'

'He's not an ordinary one!'

The Du Brothers began sweating after tasting just a few of Yuan's sword strikes.

Meanwhile, Xiao Hua was not even paying attention to their fight, and she had her eyes on the Spirit Master this entire time, as she was prepared to kill him the moment he even tries to interfere with Yuan's fight.

'Just who is this brat? Which Family does he belong to? To think he'd be able to fight the Du Brothers by himself! And it even looks like he's slowly defeating them!' The Spirit Master watched their fight with wide eyes filled with disbelief, and he began worrying that they might have picked the wrong person to fight with.

"..."

The longer the Spirit Master watched Yuan's fight, the more shocked and worried he became.

'This young man is a genius! He's not only fighting back the Young Masters, but he's even growing stronger as he fights! He's a freaking monster! I cannot allow this to continue any longer, or the Young Masters will be in danger!'

The Spirit Master prepared to interrupt the fight, but he suddenly noticed an immense pressure not too far away, causing his eyes to shift to the small figure a few meters away, who was staring dagger at him.

'That little girl... she's an expert like me!'

The Spirit Master's back was instantly soaked in cold sweat after this realization. Anyone would think she was Yuan's little sister at glance, but to think that she would be his guardian instead! It was truly a shocking revelation!

And he was certain that this little girl's cultivation base was much more formidable than his own, as not even Spirit Grandmasters would be able to emit such a terrifying invisible pressure.

However, he cannot just stand there and watch the Du Brothers die to Yuan, as their parents would surely kill him for failing to protect them.

Chapter 31 - Negotiations

"Young Lady, why don't we talk about this?" The Spirit Master took the initiative to speak with Xiao Hua, as he was certain that he would not be able to defeat Xiao Hua in a fight, and if the Du Brothers continued fighting Yuan, they would also lose to him sooner or later and lose their lives.

With no more options at hand, he could only resort to pleading for their forgiveness, hoping that they would at least spare the Du Brothers' lives.

And he said, "Why don't we negotiate? If you let the Young Masters leave this place in one piece, the Du Family will compensate you for the trouble they have caused for your Young Master."

"Let them go... you say? But they were the ones who willingly jumped at Brother Yuan." Xiao Hua responded with a nonchalant expression.

"I won't deny that the Young Masters are the ones at fault here, but you gain nothing by killing them. In fact, if you kill them, regardless of your background, the Du Family will do everything in their power to avenge their deaths, and I'm sure neither of you would want the entire Du Family chasing after you."

"The Du Family? I have never heard of them before." Xiao Hua said.

"..."

The Spirit Master was dumbfounded. Although the Du Family is not the most powerful family in the world, they are considerably famous in the Cultivation world with multiple experts at the rank of Spirit Grandmaster within their family, and even if someone does not know of their achievements, they would at least know of their reputation.

"Furthermore, if I kill all three of you, how will the Du Family know who killed you? Even if one of you managed to escape, do you even know who we are? How are you going to find us?" Xiao Hua asked him with a cold gaze that did not fit her childish appearance.

The Spirit Master's complexion immediately paled after hearing Xiao Hua's word, and he began to realize the gravity of their situation. If Xiao Hua kills the Du Brothers including him, who will tell the Du Family about the culprits? Unless they can talk to ghosts, they will never find out the truth!

"P-Please, have mercy, Young Lady! There is no need to spill blood over such a minor complication, right? At the end of the day, those two are only Juniors who allowed their arrogance and pride to go to their head! There are many people like them out there, and I'm sure that even your Young Master has made mistakes before!" The Spirit Master began pleading, and if not for Xiao Hua's pressure on him, he would've kowtowed to her.

"Don't compare Brother Yuan to those two bullies! He's a kind brother who played with Xiao Hua when nobody else would!" Xiao Hua suddenly shouted, accidentally emitting killing intent, which suffocated the Spirit Master.

"I... can't... breathe...!" The Spirit Master began choking.

Meanwhile, right as Yuan knocked the Du Brothers to the ground, he noticed the ominous aura behind him, causing him to turn around and look.

"Xiao Hua!"

When he saw the unpleasant expression on Xiao Hua's face, his initial thought was that the Spirit Master had done something to her, so he ignored the Du Brothers and immediately rushed to her side.

"Are you okay, Xiao Hua?!"

"Hm?" Hearing Yuan's voice, Xiao Hua snapped out of her rage and turned to look at him, who was staring at her with a worried expression.

"Are you hurt anywhere?!" he asked her, and she nodded.

"Xiao Hua is okay, Brother Yuan."

"Is that so? That's great to hear," he sighed in relief.

After knowing that Xiao Hua was safe, Yuan finally noticed the Spirit Master that was laying on the ground, who was heavily panting, almost as he'd just ran a marathon.

"What happened to him?" he mumbled to Xiao Hua.

"Xiao Hua doesn't know." She casually shrugged.

After catching his breath, the Spirit Master spoke, "Please... I beg you... don't kill us..."

"That is not for me to decide." Xiao Hua said, and then she turned to look at Yuan, who appeared to be dumbfounded.

"What is he talking about? Why would I kill them?" Yuan asked.

"Eh? You're not going to kill us?" The Spirit Master looked at him with wide eyes filled with shock.

"Of course, not. While I am slightly angry about everything today, I am not like some people, who would kill another just because they were offended. However, that isn't to say I would never kill anyone because even I have a limit." Yuan said to him.

"T-Thank you, Young Master! Thank you for having mercy! I will immediately leave with those two, and we will never appear before you again!" The Spirit Master kowtowed to him with tears in his eyes.

"Wait a second! Who said you can leave so fast?" Yuan suddenly said.

"Huh?" The Spirit Master looked at him with wide eyes.

"I have unexpectedly used up most of my energy after fighting with those two, and I'd spend 500 gold coins filling up my stomach not long ago. Now I feel like I wasted my money. How are you going to compensate me for this tragedy?" Yuan said to him with a frown.

"..."

Not just the Spirit Master, but even Xiao Hua was staring at him with wide eyes filled with shock.

"O-Of course... Although this isn't much because the Young Masters had already used most of it, I will give you all of it..."

The Spirit Master quickly retrieved his money pouch and offered it to Yuan as though he was giving an offering to a God.

'I never thought a day where I would become a victim of extortion would come—and it's even to a mere Spirit Warrior Junior!' he cried inwardly, feeling his pride as a Spirit Master shattering into a thousand pieces.

Yuan cleared his throat and accepted the money pouch without a hint of shame on his face, and he spoke afterward, "Thank you for the donation."

'Donation, my ass!' The Spirit Master retorted inwardly, but he didn't dare to complain out loud, as he feared that Yuan might change his mind and kill all of them.

"You may leave now."

After receiving Yuan's permission, the Spirit Master immediately went to grab the Du Brothers and quickly left the scene.

"W-Wait a minute! Where are you taking us?! We haven't lost to him yet!"

"Let me fight him! I won't be able to sleep tonight if I don't beat him up!"

The Du Brothers struggled to escape the Spirit Master's grasp, but being an entire realm below him, they were effortlessly taken away by him, disappearing a few moments later.

Chapter 32 - Sword Aura

After the Spirit Master and the Du Brothers are long gone, Xiao Hua spoke, "Brother Yuan, why did you let them leave? Knowing their personalities, the Du Brothers definitely won't forgive you for what happened today, and they will surely come back even stronger for revenge one day."

"Xiao Hua is aware of Brother Yuan's kind personality, and Brother Yuan only very recently became a Cultivator, so killing people might still be difficult for you, but there are people in this world that are better off dead. Because even if they no longer pose any threat to you, they will surely be a threat to someone else."

"The Cultivation world is a place where if you do not consume your enemies, they will eventually consume you instead. So you must become the one who consumes others, not the other way around."

Hearing Xiao Hua's lecture, Yuan sighed, "I know that I may be naive, perhaps even a fool in your eyes, and that these people are only NPCs within a game, but I do not wish to kill another human being unless absolutely necessary, as I am afraid that it might affect my mind negatively, since there has already been a few times where I forgot that I am actually inside a video game, treating this world as though it's the real world."

"..."

Xiao Hua listened to his words in silence. And although she only understood half of it, she knew what he was trying to say, and she said afterward, "Brother Yuan, what you have experienced today is barely the tip of the Cultivation world and very common in our world. There will be many more people like the Du Brothers out there, and there will even be people with far worse personalities. You will also encounter similar

situations in the future, sometimes more than once in a single day. And unless you are strong — strong enough to handle any situation that comes your way, you will always be bullied by the strong and powerful ones."

A bitter smile appeared on Yuan's face.

"I guess living life as a Cultivator isn't as easy as I initially thought. I just hope that I won't become someone without morals or someone who is apathetic to other peoples' life like the Du Brothers."

"Don't worry, Brother Yuan. If you ever walk astray in your Cultivation path or feel like you are becoming a different person, Xiao Hua will be there to help you return back to normal."

"Thank you, Xiao Hua. I will also try my best to familiarize myself with this new world and lifestyle as a Cultivator without being a burden for you."

"People will always change, but it's how they change that truly matters. As long as Brother Yuan remains the kind brother that he is right now, it will be fine even if you change a little." Xiao Hua said to him.

"Hahaha... You are really like my little sister, who is actually more mature and intelligent than she appears." Yuan chuckled, feeling as though he could see Yu Rou in Xiao Hua's shadow.

"Anyway, how's Brother Yuan feeling? Were you injured during your fight with the Du Brothers?" Xiao Hua asked him sometime later.

"Besides having a few superficial scratches and feeling a little bit hungry again, I'm perfectly fine." He said with an energetic expression.

Xiao Hua nodded and continued to speak, "Brother Yuan's experience and insight have increased significantly from the fight. If we continue at this rate, Brother Yuan should be prepared to fight monsters at the Spirit Warrior level in no time."

"Then what are we waiting for? Let's continue training!" Yuan said with enthusiasm.

"Brother Yuan really likes to fight, huh?" Xiao Hua said with a smile.

"Of course, since I feel like I am actually alive when I fight. I also enjoy moving my body, swinging a sword around, and the thrill that comes from fighting." Yuan nodded.

The two of them began walking deeper into the wilderness shortly later, and Yuan would continue sharpening his sword skills while Xiao Hua assisted by locating all of the monsters for him.

After many hours of training with the sword, a notification appeared before Yuan.

«Your mastery with the sword has improved significantly»

«Your understanding of swords has reached a new level»

«You have met the criteria to learn 'Sword Aura'»

'Sword Aura...?'

Yuan raised his eyebrows at this new term.

"Xiao Hua, what's Sword Aura?" He decided to ask the only expert available.

"Sword Aura?! Has Brother Yuan's swordsmanship reached the level where he can already learn Sword Aura?!" Xiao Hua looked at him with a shocked face.

"I don't even know what that is... But after listening to your tone, I'm guessing it's something impressive?"

"Of course, it's something impressive! Only true swordsmen can learn Sword Aura! And it's not something one can learn just by training with a sword, as you can train with a sword for your entire life and not understand Sword Aura, whilst some people can do it within a few years of training! People with Sword Aura are also called Swordmasters! However, Brother Yuan has only trained with the sword for only a few days! If people learn of

your talent, there will be countless Swordmasters who will beg you to become their disciple!" Xiao Hua said to him with excitement.

"You're praising me too much, again... It's making me blush..." Yuan said with a slightly rosy face.

"Then can you teach me how to use this Sword Aura?" he asked her a moment later.

Xiao Hua shook her head and said, "That's not possible for Xiao Hua because she is not a Swordmaster, so she does not understand Sword Aura."

"I see... Then how do people normally learn Sword Aura?"

"Through training, Brother Yuan. Once you grasp the understanding of Sword Aura, it's only a matter of time before you learn it. In fact, all Swordmasters will eventually learn Sword Aura as long as they keep training with the sword." Xiao Hua said.

"Then I don't have to do anything special?"

Yuan asked, and Xiao Hua shook her head.

'I wonder how long it'll take for me to learn Sword Aura...' Yuan pondered to himself as he stared at the sword in his hand with a dazed expression.

'If the Du Brothers really decide to return for revenge, I will be ready for them, and I won't let them escape a second time.'

Chapter 33 - Monster Slayer

After meeting the criteria for learning Sword Aura, Yuan and Xiao Hua continued to hunt monsters for a few hours.

"I have been training with the sword nonstop for five hours now, but I still cannot seem to learn this Sword Aura..." Yuan sighed.

"It would be more shocking if Brother Yuan actually learns Sword Aura in such a short time. Even the top geniuses in the Higher Heavens need to train for many years before they can learn Sword Aura." Xiao Hua said to him.

"There's no need to be impatient, Brother Yuan. You are without a doubt a genius that was born with a high affinity with swords. If you train enough, you'll definitely learn Sword Aura sooner or later."

Yuan nodded, and they returned to hunting more monsters.

After killing a few monsters, a notification appeared before Yuan.

«Congratulations, you have slain a total of 1,000 monsters»

«You have gained the title 'Novice Monster Slayer»

«Because of your title 'Novice Monster Slayer', all of your damage dealt to monsters will be increased by 10%. Monsters will feel more pain from your attacks as your damage to them increases.»

'This is my second title, and it even comes with a very beneficial effect.' Yuan wondered to himself if Titles are a common thing in Cultivation Online. Of course, due to the lack of guides for this game, he cannot know for sure without talking to other people or looking it up online.

Sometime later, Xiao Hua suddenly stopped moving and said, "Brother Yuan, there's a person ahead of us."

"Oh? What's he doing?" Yuan asked.

"He seems to be pacing back and forth in front of this cave entrance with a distressful expression on his face."

Hearing Xiao Hua's words, Yuan pondered, 'Is he an NPC or a Player?'

"Let's go see the situation. If he's truly that worried, maybe there's something we can do to help him." He said.

Xiao Hua nodded, and they made their way toward this cave entrance.

A few minutes later, a middle-aged man with a pale complexion entered their view, and the middle-aged man noticed them at the same time.

"Ah! It appears that my pleading has finally reached the Heavens! Please, Esteemed Cultivators, I need your help!" The middle-aged man quickly approached them with teary eyes and a desperate expression.

"What's the matter?" Yuan asked him.

"My daughter— she was captured by a fearsome monster and was taken inside the cave! Please, can you help me by bringing her back?! I will do anything in return for your help! Please, Saviors!" The middle-aged man even got on his knees and kowtowed to Yuan.

«You have received a Quest»

«Quest: Unknown Man's Plea»

«Location: Demonic Spider's Silent Cave»

«Difficulty: Medium»

«Quest Description: Help the man by rescuing his daughter from the Demonic Spider»

'A Quest?' Yuan was immediately intrigued, as this is his first time encountering a normal quest.

"Xiao Hua, what's a Demonic Spider?" he decided to ask her first.

"Demonic Spiders are intelligent and deceptive monsters that mostly dwell within caves like this one, and they are usually within the Spirit Warrior levels." Xiao Hua said to him.

"Do you think I can defeat a Demonic Spider at my current level?"

Xiao Hua nodded, "As long as its cultivation is below the third level, it shouldn't be a problem for Brother Yuan."

Yuan sighed in relief after hearing her words, and he looked at the middle-aged man and said, "Okay, we'll help you rescue your daughter."

«You have accepted the Quest 'Unknown Man's Plea'»

"Oh! Thank you! Thank you very much, brave warrior!"

"You can thank me after I return with your daughter," Yuan said to him before he approached the cave.

«You are about to enter 'Demonic Spider's Silent Cave»

«Recommended Level: Third level Spirit Warrior and above»

"Let's go, Xiao Hua," Yuan said to her, who nodded with a mysterious glint in her gaze.

Once Yuan and Xiao Hua entered the cave shortly later, the middle-aged man standing outside cried inwardly: 'Finally! I am finally free!'

"This place isn't as dark as I'd expected," Yuan said after realizing that he was able to see inside clearly despite how dark it looked from outside.

"That's because all of Brother Yuan's senses have improved after becoming a Cultivator." Xiao Hua said.

And then she continued, "By the way, Brother Yuan should be careful."

"Huh? Can you already sense the Demonic Spider?"

However, Xiao Hua shook her head and said, "That man outside... he lied to us."

Yuan's eyes widened with surprise after hearing such words, and he asked, "W-What do you mean by that? Why would he lie to us? And how can you tell?"

"Because Xiao Hua has already searched this entire cave with her spiritual sense, and she was unable to sense the man's 'daughter' inside this place. However, there is a Demonic Spider in here."

"But the despair in his eyes seemed so real, and so was his tears... What if the Demonic Spider has already eaten his daughter?" Yuan asked, still feeling slightly doubtful.

"That's not possible, because Xiao Hua would've been able to sense her blood. Perhaps the man outside is working for the Demonic Spider by luring people into this place for it. After all, Demonic Spiders are very crafty and intelligent beings. It's not uncommon for them to use humans to bait other humans into their dwelling."

"No way..." Yuan stopped moving and stood there with a dazed expression on his face. He didn't doubt the man even for a second because of the Quest. If the man had really tricked them, why would a Quest appear, even asking him to save his daughter? It made no sense at all.

"Then should we turn around and leave this place?" Yuan asked her.

"We could do that, but doesn't Brother Yuan want to fight a monster at the Spirit Warrior level? This could be a good opportunity for Brother Yuan—at least Xiao Hua thinks so."

"You think so...?" Yuan showed a bitter smile on his face.

Should he continue on with this Quest that might be a trap, or should he just turn around and call it quits?

Chapter 34 - Demonic Spider

"..."

After standing there with a pondering face for some time, Yuan finally said, "Okay, let's do this. Even if that man may have lured us into this trap, if I leave now, who knows how many more people will fall victim to this scheme if I leave it alone."

"Tell me more about the Demonic Spider, Xiao Hua. Does it have any fatal weaknesses?"

Xiao Hua nodded and said, "Demonic Spiders are renowned for their powerful poison, which can easily kill someone below the Spirit Warrior level within mere seconds, and their sharp claws that can cut large boulders as though it's paper. However, as long as you avoid these two deadly attacks, the Demonic Spider is no different than just an oversized spider."

"...You make it sound like it's an easy task to dodge those attacks." Yuan looked at her with raised eyebrows.

"Although the Demonic Spider has powerful attacks, it lacks the speed to take advantage of its raw power. So as long as Brother Yuan pays attention, you shouldn't have any problems dodging its attacks."

"I hope so..." Yuan sighed.

The two of them began walking deeper into the cave until they encountered what appeared to be an entrance to another area in the cave.

"This is definitely the boss room..." Yuan mumbled to himself after seeing the suspicious entrance that oozed with an obnoxious feeling.

"The Demonic Spider is right beyond that point, Brother Yuan, and it appears to be at the fourth level Spirit Warrior realm." Xiao Hua said to him after scouting for him using her spiritual sense.

"Fourth level... That's one level higher than your recommended level..." Yuan said.

"Brother Yuan is a genius so it will be fine." Xiao Hua raised her thumb at him.

"I have a feeling that you are overestimating me..."

"Don't worry, Brother Yuan. If you are in trouble, Xiao Hua will come to your rescue, so you can fight to your heart's content."

"I guess so... What's the worst that can happen? I die and restart my cultivation? Well, here goes nothing."

After taking a moment to prepare himself mentally, Yuan began walking towards the boss room with a sword in his hand.

After entering the boss room, Yuan could see a spacious area with webs and bones littering the ground, but there was no sight of the Demonic Spider.

"Where's the Demonic Spider?" he asked after looking left and right without seeing the monster.

"It's above you, Brother Yuan." Xiao Hua said to him.

"Why didn't you tell me that before I entered this room?!" Yuan immediately looked up at the ceiling, where a 5-meter tall monster with a half-human and half-body spider was hanging on the webs that covered the entire cave ceiling.

"That thing is massive!" Yuan exclaimed with a terrified expression, as he has never seen anything this terrifying before.

Not only did it look like a monster straight out of a horror movie, but it also had eight massive and sharp legs, and each of them was as big as Yuan's

entire body.

"Be careful, Brother Yuan! It's coming!"

Right as Xiao Hua warned him, the Demonic Spider kicked its legs and jumped at Yuan with its large mouth wide open.

"Oh shit!" Yuan quickly jumped back.

Boom!

The Demonic Spider landed a moment later, destroying the solid ground with ease.

"Looks like we have quite the nimble one here." The Demonic Spider suddenly spoke in a hoarse voice.

"It can speak?!" Yuan was thoroughly shocked now, as he did not expect the Demonic Spider to suddenly start speaking in human language.

"Some demonic beings can gain the ability to speak once they reach a certain cultivation level." Xiao Hua said to him.

"Since it can speak, I might as well question it!" Yuan said, and he continued, "Demonic Spider! What happened to the daughter of the man outside?!"

"What... you ask? I ate her, of course.... Hahaha!" The Demonic Spider burst out laughing, sending chills down Yuan's body.

"Children's meat smells and tastes the best, after all! Although I'd promised that man that I'd return his daughter if he brings me 10 humans, I simply couldn't resist my urges, and I consumed her flesh and bones on the second day!" The Demonic Spider held a blissful expression on its human-like face as it recalled eating the human girl.

"You bastard..." Yuan narrowed his eyes in anger, and he emitted killing intent for the first time ever.

«You have gained new information for the Quest 'Unknown Man's Plea'»

«Quest 'Unknown Man's Plea' has been updated»

«Quest Description: Slay the Demonic Spider that consumed the man's daughter»

"I like the look in your eyes — it resembles that of a wild beast..." A grin appeared on the Demonic Spider's face, and it continued to speak, "However, you are only at the first level Spirit Warrior realm. You cannot defeat me, so you should just give up and let me eat you."

The Demonic Spider then turned to look at Xiao Hua and said, " This is truly my lucky day. Your skin is very smooth and beautiful; it also smells much better than the other child. I bet you are going to taste much better, too."

The smile on its face grew even wider when it imagined taking a bite from Xiao Hua's tempting body.

"Since you like to eat so much, I will let you eat my sword!"

Yuan shouted, and he rushed at the Demonic Spider with the sword in his hands raised.

"Bloody Sword Strike!"

A red aura covered the sword's blade, creating a red arc of sword light as it slashed towards the Demonic Spider.

Ding!

The Demonic Spider quickly blocked the Yuan's strike with one of its legs, and the impact made it sound as though two swords had collided.

'It's tough!' Yuan was surprised by how hard the Demonic Spider's legs were, feeling as though they were made out of metal.

However, Yuan was not the only one who was surprised after that exchange, as the Demonic Spider was also shocked by Yuan's strength.

'How does this human have such strength when he's only at the first level Spirit Warrior realm?! He'd even managed to cut my legs that are harder than steel in a single strike!' The Demonic Spider looked at the sword cut with wide eyes filled with shock.

Chapter 35 - Poison Sac

"Looks like you have some ability, Cultivator." The Demonic Spider showed him a grotesque smile and continued, "However, you won't be able to defeat me if that's all of your strength."

"You talk too much for a monster!" Yuan said, and he rushed at the Demonic Spider again.

"How brave!" The Demonic Spider used its legs to sweep at Yuan, but he dodged it with ease.

'Just as Xiao Hua said! Although it may be strong and tough, its speed is very slow compared to the Cultivators I've already fought!' Yuan felt relieved inwardly after seeing that he could dodge the Demonic Spider's attacks with no problem.

"Bloody Sword Strike!"

Yuan activated his sword skill, and he aimed it directly at the Demonic Spider's face.

"If I can't cut your legs, I will go straight for your face!"

Ding!

The Demonic Spider used two more legs to block its face.

"Hahaha! Did you forget that I have eight limbs?! Die for me!"

After blocking Yuan's attack, the Demonic Spider opened its mouth and spat out a lob of green liquid at him.

Yuan's eyes widened at the green liquid that was flying towards his face, but he was not caught off guard, as he'd been watching the Demonic Spider's every movement very carefully.

After dodging the poison spit, Yuan distanced himself from the Demonic Spider and raised his sword in a particular manner.

"I do not believe that I cannot cut you down!"

Yuan took a deep breath before closing his eyes.

"How dare you close your eyes during our fight?! Are you looking down on me?!" The Demonic Spider shouted in anger, and it began running at Yuan with a fierce aura.

However, Yuan remained calm, and he slowly opened his eyes a second later, which was glowing brilliantly, and his black eyes suddenly became golden.

When the Demonic Spider saw Yuan's golden eyes, it immediately stopped running at him and stared at him with narrowed eyes, feeling an ominous feeling coming from Yuan.

'This is my first time using this skill, but I have a feeling that it'll defeat the Demonic Spider.' Yuan felt very confident at this moment, and his senses were sharper, almost as though something within him had awakened.

'Oh? Brother Yuan is finally going to use that technique?' Xiao Hua watched with enthusiasm.

Yuan's body suddenly exploded with immense spiritual energy and a heavenly aura, and his sword gushed with a golden light that was so bright and thick that the blade itself could no longer be seen, almost as though it'd turned into a pillar of light.

After raising the sword towards the heavens, Yuan swung it vertically as though he wanted to split the seas and separate the heavens.

"Heaven Splitting Sword Strike!"

A golden beam of light then shot out from the sword and rushed at the Demonic Spider, and if one looked closely, they would be able to see the image of a dragon within the golden light.

The Demonic Spider watched the golden beam flying towards it with wide eyes, and it wanted to dodge it, but for some odd reason, it was unable to move its muscles, much less its legs, almost as though there were invisible chains bounding its body.

The Demonic Spider suddenly felt the urge to turn its head, so it slowly turned to look at the small figure standing a few meters away, and when it saw the barely noticeable smile on Xiao Hua's face, it immediately realized why it couldn't move its body, and it roared loudly.

"AAAAAHHHHHH! DAMN YOU, HUMANS!"

When the golden light finally reached the Demonic Spider, it consumed the Demonic Spider's figure, before destroying its body into a million pieces until there was nothing left of its existence.

However, the golden light did not stop even after erasing the Demonic Spider and continued to fly towards the end of the cave.

BOOM!

The entire cave shook violently as Yuan's sword strike created a massive hole in the cave.

«Congratulations! Player Yuan has become the first player to kill the Elite Boss: Demonic Spider»

«Congratulations! Player Yuan has become the first player to conquer the Demonic Spider's Silent Cave!»

Two announcements appeared in the sky for every Player in the world to see.

Meanwhile, inside the Demonic Spider's Silent Cave, Yuan silently stared at the gaping hole in the cave, seemingly surprised by the Heaven Splitting

Sword Strike's prowess.

"As expected of a Divine-rank Skill, its ability is through the roof..." Yuan mumbled in a dazed voice.

Sometime later, Xiao Hua approached Yuan with two items in her hand, and she said, "Brother Yuan, the Demonic Spider dropped its Monster Core and a Poison Sac."

"Oh, thank you..." Yuan accepted the Monster Core without hesitation but then looked at the Poison Sac with a worried expression.

"Xiao Hua, is it safe to be holding that thing?" he asked her.

"Un. The poison is contained inside the sac, so you won't get poisoned." She nodded.

«Poison Sac»

«Material»

«Description: A rare item dropped by Demonic Spiders. It can be used to enchant weapons or used to create poison pills»

"Anyway, let's get out of here," Yuan said.

The two of them began making their way out of the cave, and a few minutes later, they reached the exit.

"Y-You are! What happened?! Where's my daughter?!"

When the middle-aged man saw Yuan, his eyes widened with shock.

Why is he still alive? What happened to the Demonic Spider?

Seeing the middle-aged man, Yuan immediately frowned and said to him, "How dare you lie and bait us! You never wanted us to save your daughter!"

The middle-aged man immediately got on his knees and kowtowed to them, "I'm sorry, Cultivators! I had no choice because the Demonic Spider has my daughter! It said that if I brought ten humans to it, it would let my daughter live!"

Yuan shook his head and said, "Just like how you'd lied to us, the Demonic Spider also lied to you. It never planned on keeping its words. Your daughter... she was eaten by it on the second day."

"N-No! Impossible!"

The middle-aged man looked at Yuan with disbelief, and he begged Yuan in a voice filled with desperation, "Please! That cannot be true! She must be in there somewhere!"

"I don't gain anything by lying to you. If you do not believe me, you can go inside and check for yourself. I have already killed the Demonic Spider, so you don't have to worry about—"

Before Yuan could even finish his sentence, the middle-aged man got up and rushed into the cave, disappearing into the darkness.

Chapter 36 - Consuming The Demonic Spider's Monster Core

Chapter 36 - Consuming The Demonic Spider's Monster Core

Many minutes have passed since the middle-aged man rushed inside the Demonic Spider's Silent Cave to look for his daughter.

Meanwhile, Yuan and Xiao Hua waited for him outside.

'I wonder how much Qi I will gain by consuming the Demonic Spider's monster core.' Yuan thought to himself with the shiny monster core in his hands, preparing to pop it into his mouth like eating hard candy.

When Xiao Hua noticed Yuan staring at the Demonic Spider's monster core with craving eyes, she asked him, "Brother Yuan, are you going to eat the monster core...? Although Brother Yuan can eat Spirit Apprentice level monster cores without any problems, Xiao Hua is worried that Spirit Warrior level monster cores may contain too much Qi for you to consume..."

"We won't know that until I try it, right?" Yuan said.

"That is true, but..." Xiao Hua still wore a worried expression.

Yuan then said with a confident smile, "Don't worry, Xiao Hua. I have faith in my stomach!"

"But the Qi goes to your Dantian, not your stomach, Brother Yuan... It's not food, after all." Xiao Hua said to him with a dumbfounded face.

"What's the difference?" Yuan raised his eyebrows.

"The Dantian is every Cultivator's source of power and where you store your Qi. Without it, one cannot cultivate Qi. And any damage done to one's

Dantian is incredibly hard to heal, that's why every Cultivator cares for their Dantian more than their own life because they rather die than live life as a cripple." Xiao Hua explained to him the importance of one's Dantian.

"If one cannot cultivate, they are considered a cripple in this world? And people would rather die than to live as a 'cripple'? That's bullshit!" Yuan looked at her with wide eyes filled with disbelief, even feeling slightly angry at Cultivators.

As a cripple himself, Yuan couldn't help but feel offended to hear that Cultivators would rather die than being a 'cripple'. In fact, he doesn't even consider people who cannot cultivate to be real cripples, even finding it incredibly disrespectful.

"So what if one cannot Cultivate? That does not mean they should die! These Cultivators truly live a luxurious life, worrying about such insignificant matters!" Yuan sighed loudly.

"..." Xiao Hua was speechless.

Although it may not be of any importance to Yuan who grew up in a world without any Cultivation and in a relatively peaceful world, in the Cultivation world, whether one can cultivate or not was a matter of life or death, because if one cannot cultivate they will remain weak forever and will eventually be consumed by the stronger people who can cultivate.

'Brother Yuan may not understand the importance of Cultivation now, but once he grows stronger and experiences more of the Cultivation world, he'll see the real ugliness of this world.' Xiao Hua pondered to herself.

And while Xiao Hua was thinking to herself, Yuan tossed the monster core in his mouth.

"Brother Yuan!" Xiao Hua's heart skipped a beat after seeing this. No matter how many times she has witnessed Yuan eating monster cores, she could not get used to such an abnormal scene and would always feel nervous afterward.

"Calm down, Xiao Hua. I am fine." Yuan said to her as he savored the sweet taste in his mouth. Just like Spirit Apprentice level monster cores, the Demonic Spider monster core melted into a sweet substance the moment it touched his tongue.

After swallowing the Demonic Spider's monster core, Yuan could feel an enormous power growing from within his body, causing his aura and cultivation to skyrocket.

"B-B-Brother Yuan... you... you..." Xiao Hua glared at him with a terrified expression, as she has never seen anyone raise their cultivation by three levels in a single breath.

"See? I am fine even after consuming the monster core." Yuan said to her afterward with a bright smile on his face.

'What is going on?! How can Brother Yuan raise cultivation levels as easy as breathing? Could he be the Cultivation God's reincarnate?!' Xiao Hua cried inwardly.

However, Yuan obtained more than just Qi from consuming the Demonic Spider's monster core, as his Heavenly Refining Physique unexpectedly activated again.

"Xiao Hua, I also gained some resistance against poison after consuming the monster core, but this has never happened before." Yuan decided to ask her, who's still trying to recover from the earlier shock.

"Brother Yuan, what did you just say...?" Xiao Hua asked him with a dazed face.

"Uh... that I gained some poison resistance after consuming the monster core?" Yuan repeated himself.

"T-That's impossible!" Xiao Hua quickly shook her head, and she continued to speak in a shocked voice, "Xiao Hua has never heard of someone gaining something else besides Qi from consuming monster cores before!"

Yuan casually shrugged his shoulder and said, "There's a saying that there's always a first time for everything."

However, Xiao Hua was not convinced, as this would be an unprecedented event in the Cultivation world that has existed for countless millions of years!

'No... there is a story in the Upper Heavens that mentions an individual who has a similar ability... but that is only a legend from the ancient times...'

Chapter 37 - Quest Complete

"Brother Yuan is truly... unfathomable..." Xiao Hua could barely stand still at this moment, feeling as though her common sense regarding the Cultivation world had been flipped upside-down by Yuan's profound existence.

"Are you okay, Xiao Hua? Your expressions are more exaggerated than usual." Yuan suddenly said to her, completely unaware of how heaven-defying his own existence is.

"X-Xiao Hua is fine..." she nodded a moment later, and she continued, "But is Brother Yuan really fine? Does your body feel weird? You did just breakthrough three times in the blink of an eye, after all..."

"I feel perfectly fine," he said. "In fact, I feel even better than normal!"

And then he said, "By the way, Xiao Hua, remember that Spirit Crystal you bought from the auction house? Since it's similar to a monster core, maybe I can eat it too?"

When Xiao Hua heard his words, she immediately shook her head with a horrified expression and spoke in a stern voice, "Absolutely not, Brother Yuan! You cannot eat the Spirit Crystal! It contains spiritual energy that rivals even Spirit Grandmasters! And it's nothing like a monster core! Brother Yuan will definitely explode into a million pieces after eating it!"

"If you say so..." Yuan said with a slightly disappointed expression, as he was curious about the Spirit Crystal's taste.

—

A few minutes later, Xiao Hua suddenly said, "Brother Yuan, he's coming back."

Yuan turned to look at the cave, and the middle-aged man slowly walked out of the cave with an emotionless expression, almost as though he'd lost all of his will to continue living.

When Yuan saw the hopelessness in the middle-aged man's blank eyes, he also felt a slight pain in his heart, as he understood what the middle-aged man was feeling at this moment very well.

After living for so many years as a cripple who cannot even leave his own bed without another's assistance, even the world's toughest man would experience depression, much less someone as young and innocent as Yuan, and it was inevitable that he would have thoughts about ending his own life to make things easier for his little sister.

"That man... he's lost the will to live," Yuan mumbled in a low voice. "If only there's something we can do to relieve that sorrow."

Xiao Hua gently shook her head and spoke, "There is nothing we can do for him, Brother Yuan. This is the harsh reality for those without power — the weak will be consumed by the strong. There's only one way to avoid this kind of situation, and that is to become strong enough to protect the things you love."

"..."

Yuan was speechless, but he was beginning to understand this world better and why people—Cultivators thirst for power. If one was weak, they might experience the same situation as this middle-aged man, losing their loved ones to a stronger existence that's beyond their own abilities.

And somewhere within Yuan's heart, the desire for strength—the desire to protect this peaceful life he's living—began to bud.

"Ah... you're still here..." The middle-aged man stopped in front of Yuan and Xiao Hua.

"I'm sorry for your loss... If only I came to this place earlier..." Yuan sighed.

The middle-aged man shook his head and spoke in a low voice, "No, this is entirely my fault. If only I didn't bring her to this dangerous place to pick herbs with me..."

"But for poor people like us, this is the only way for us to continue living."

"Anyway, I would like to apologize for tricking you into the Demonic Spider's cave." The middle-aged man got on his knees and kowtowed to them with a sincere feeling, not daring to lift his head even many moments later.

"Please, you don't need to apologize for something you were forced to do. If I were in your shoes, I would've done the same thing." Yuan said while pulling the man off the floor.

"Then allow me to thank you for killing the Demonic Spider — for avenging my daughter's death..."

The middle-aged man reached into his pockets before taking out a beautiful plant with seven colorful leaves that resembled a rainbow.

"That's the Seven Colored Herb, Brother Yuan!" Xiao Hua immediately recognized this beautiful plant and said in an excited voice while pulling his sleeves.

"Is it valuable?" he asked.

"The Seven Colored Herb is an extremely rare medicine that does not grow in any specific location in this world! Most people live their entire life without seeing one! It's a priceless treasure!" she said.

"Are you sure that you want to part with such a precious item?" Yuan asked the middle-aged man, feeling hesitant about accepting such a priceless treasure. "Don't you need money? If you sell it..."

However, before Yuan could even finish his sentence, the middle-aged man shook his head and said, "Without my daughter, I no longer have any need

for money. And this medicine was found by my daughter. I'm sure that she would want you to have it, too."

"..."

"Please, young man, accept it." The man lowered his head and extended his arms until the Seven Colored Herb was right before Yuan's body.

Seeing this, Yuan sighed and accepted the herb.

"Thank you..."

Once Yuan accepted the Seven Colored Herb, the middle-aged bowed to him one last time before turning around and walking away.

"Please wait!" Yuan suddenly shouted at him.

When the man stopped walking and turned around, Yuan tossed a small pouch at him and said, "It may be nothing compared to your gift, but I hope you can live a carefree life for the rest of your life!"

The middle-aged man did not say anything and merely nodded his head before disappearing into the woods.

"I don't know how much money was inside that pouch since I didn't look in it after it was given to me by that Spirit Master, but I hope it was enough." Yuan sighed afterward.

"Don't worry, Brother Yuan. There was plenty of money inside." Xiao Hua said with a smile.

"Eh? How do you know? You didn't even touch it."

"A storage pouch without any protection is no different than an open book for Cultivators who can control their spiritual sense. Just like how Xiao Hua uses her spiritual sense to locate monsters for Brother Yuan, Xiao Hua can also use her spiritual sense to sense things that cannot normally be seen with the naked eyes." Xiao Hua said.

"Anyway, there were about 3,000,000 gold coins inside that pouch. But compared to the Seven Colored Herb he gave to Brother Yuan, it's akin to buying a priceless treasure with a grain of rice."

"This thing is that valuable...?" Yuan looked at the colorful plant in his grasp.

[Seven Colored Herb]

[Tier 7 Medicine]

[Description: An extremely rare herb with countless uses]

'Tier 7 medicine! Even the Soul Strengthening Pill Xuan Wuhan gave me is only Tier 3!' Yuan cried inwardly.

A few more moments later, a notification appeared before him.

«You have completed the Quest: Unknown Man's Plea»

«You have been rewarded with: 1x Seven Colored Herb»

«Fame +10»

«'Mu Qing' has been added to your Bond!»

«Mu Qing's Bond level has increased to Acquaintance!»

«Congratulations! You have gained the following effect from Mu Qing's Bond level: 'Mu Qing's Approval'»

Chapter 38 - Flying Sword

'Mu Qing's Approval...? Is Mu Qing that man just now?' Yuan raised his eyebrows in a puzzled manner after seeing the notification.

«Mu Qing's Approval: Grants you access to certain events»

'What kind of effect is this?' Yuan became even more puzzled after seeing the description.

Unlike Mo Zhou's Gratitude that grants him offensive benefits, this Mu Qing's Approval provided nothing of that sort except a vague description.

'I guess not every effect comes with benefits like Mo Zhou's Gratitude...' Yuan thought to himself.

"Xiao Hua, now that I have defeated a monster at the Spirit Warrior level, do you think I am ready to fight other monsters at the same level?" Yuan asked her sometime later.

"Un. But Spirit Warrior level monsters don't usually roam in this area. The Demonic Spider must have been a special occasion. If Brother Yuan wants to fight Spirit Warrior leveled monsters, we will have to travel further south to the Purple Bamboo Forest. There we can find monsters between the first level and the third level Spirit Warrior."

"How far away is this place?" Yuan asked.

"A few thousand miles," she casually responded.

"A few thousand?!" Yuan's eyes widened with shock, as that was akin to traveling from one continent to another in the real world! How long would it take for them to get there without a plane or any vehicle?

"Um... And how are we going to get there?" He decided to ask her.

"We fly, of course." Xiao Hua calmly responded. "Unless Brother Yuan wants to run there, which will take a couple of days."

"W-Wait a second... did you just say 'fly'? You can fly?!" Yuan looked at her with wide eyes, completely forgetting about her skills.

Xiao Hua nodded and said, "Once a Cultivator reaches the Spirit Grandmaster level, they can manipulate the spiritual energy within their body and their surroundings and soar in the sky. Of course, there are talented individuals out there who can fly before reaching the Spirit Grandmaster level."

"But since Brother Yuan can't fly yet, Xiao Hua will carry you with a flying sword."

After saying those words, Xiao Hua retrieved a sword from her storage pouch and tossed it in the air.

One would expect the gravity to pull the sword towards the ground, but the sword actually remained suspended in the air, almost as though there was an invisible hand holding it.

"Oh my god..." Yuan stared at the floating sword with bright eyes.

He has been wanting to try something like this ever since he saw that Cultivator floating in the sky while standing on his sword when he first arrived in this world. However, he didn't expect that such an opportunity would arise so fast.

"You are the best, Xiao Hua! I love you!" Yuan went to hug her out of sheer excitement.

"Oh..." Xiao Hua's soft cheeks turned slightly rosy after the hug.

"Anyway, how do I do this? Do I just jump on the sword?" Yuan asked her afterward.

"U-Un." Xiao Hua nodded, and she spoke, "Because Xiao Hua will control the sword for Brother Yuan, you will only need to control the spiritual energy in your legs and feet, or you will fall off the sword in the air."

"Okay, let's give this a try!"

Yuan immediately turned to face the flying sword with excitement in his gaze.

After preparing himself, he jumped on the sword.

"Ah!"

Yuan immediately fell off the sword a second later due to a mistake in his balancing.

"This is harder than I'd thought..." Yuan said, but he did not lose hope and tried again.

"Ack!"

"Ugh!"

"Oof!"

After many trials and errors that resulted in his face kissing the ground, Yuan finally began getting used to controlling his spiritual energy and balancing himself on the sword.

"Look! I am floating!" Yuan spoke with excitement after standing on the flying sword without falling for over a minute.

Seeing this Xiao Hua said, "Xiao Hua will move the sword now. Try to stay on the sword, Brother Yuan."

"Do it slowly!" He quickly warned her.

A second later, the flying sword began moving very slowly, traveling a single meter every few seconds.

"Hahaha! I am doing—"

Just as Yuan prepared to celebrate his achievement, he lost control over his spiritual energy and fell off the sword again.

"Don't worry, Brother Yuan, you'll get used to it." Xiao Hua encouraged him.

Thus, Yuan began training with this flying sword for the remainder of the day.

After many hours of training, Yuan was finally able to remain standing on the sword even when it was flying at 100 miles per hour. However, any faster than that and he would fall right off the sword.

By the end of the day, Yuan could finally withstand the flying sword traveling over 300 miles per hour. Of course, he still needed Xiao Hua to control the sword for him.

"Okay, Xiao Hua, it's about time for me to log off. We can start traveling to the Purple Bamboo Forest after I return." Yuan said to her at the end.

"Un." Xiao Hua nodded before returning to the necklace, and Yuan logged off shortly later.

After logging off, Yuan could already hear the sound of gentle footsteps approaching his room, and he immediately knew it was Yu Rou.

Once the door to his room opened, Yu Rou's soft voice resounded, "I apologize for not being able to take care of you yesterday, Brother."

"There's no need for you to apologize. Even you need to rest on some days. Anyway, are you okay? I heard from the maid that you were speaking with Father and Mother." Yuan said to her.

"Haha..." A low-spirited laugh escaped from Yu Rou's mouth, and she spoke, "Instead of speaking, it was more like being scolded."

"Eh? You were scolded? Now that's something you won't hear every day. What did you do?" Yuan was surprised to learn that Yu Rou had been scolded, as she was the role model type of girl who's always respectful and obedient towards her parents.

"Well, my grades in school dropped a little bit— enough for me to get scolded."

Although Yuan couldn't see her expression, he could hear the bitterness in her voice.

"I see... Our parents are very strict when it comes to performance, after all..." Yuan said.

"They can be too strict at times..." she sighed.

"Anyway, let's not talk about such a depressing subject. Why don't you tell me about your experience with Cultivation Online while I help you clean? How are you enjoying the game so far?" Yu Rou asked him a moment later.

"To say I am enjoying it is an understatement!" Yuan quickly said.

"Oh? Tell me more about it." Yu Rou smiled after hearing his voice that was filled with excitement and happiness, which was an unfamiliar feeling even for her.

Chapter 39 - Player Killing

"Just the other day, for the first time in many years, I got to eat something that's not soup or porridge!" Yuan recalled to Yu Rou the wonderful food he'd eaten in the game. "Even though I'd spent all of my money on it, I do not regret it!"

"And let me tell you— eating food in the game feels no different than eating in real life! You can taste every flavor and spice in the food! I don't know how they did it, but this kind of technology is simply otherworldly!"

"Is that all you've been doing in the game? Eating food?" Yu Rou chuckled at him. "What about your cultivation? Isn't that the main focus of the game? How far have you progressed?"

"I don't know how I am doing compared to the others, but I think I am progressing at a steady pace."

Hearing his words, Yu Rou said, "Most of the top players around the world are just reaching the ninth level Spirit Apprentice Realm. What level are you, Brother?"

'What? They are just reaching the ninth level? Why are they so slow? Does this make me a top player?' Yuan pondered to himself.

"Uhh... I am at the fourth level..." Yuan said a moment later, purposefully leaving out the 'Spirit Warrior Realm' so he can surprise her later on.

"The fourth level only?! Just how much have you been slacking, Brother? At this rate, I will catch up to you even though I am a week late to the game!"

"Does one's cultivation really matter? It's not as though you cannot play the game without cultivating..." Yuan said to her, unable to comprehend why everyone is trying so hard to improve their cultivation.

"And I feel like cultivating normally takes too much time, and it's too boring since you only sit there and breathe."

"While it's true that you do not need to cultivate to play the game, you are going to get bullied by other players and even NPCs if you are not strong in the game. The saying 'only the strong survives' is deeply rooted in the game's world and it's almost like nature itself there, so if you are not strong enough, you won't be able to survive, much less enjoy the game."

"There are even many players who are killing other players to loot their items, and Player Killing is getting more popular by the day." Yu Rou said to him.

"Ah? Player Killing? What a pain in the ass..." Yuan shook his head inwardly. Now he not only has to deal with psychopathic NPCs who will kill you if you even slightly bother them but also other players?

"Why can't everyone just enjoy the game peacefully? Why must they dirty such a beautiful world with blood and corpses?"

"It's the nature of the game so there's nothing we can do about it. Even if you try to mind your own business and not cause trouble for others, other players will still cause trouble for you. And if it's not a player, it'll be an NPC. That's why you should cultivate seriously if you wish to enjoy the game, Brother. I don't want to see anyone bullying you."

Hearing her concerned voice, Yuan spoke with a smile on his face, "Don't worry, Yu Rou. I won't let anyone bully me, nor will I let anyone bully you in the game. If they cause even the slightest trouble for you, your brother here will cut them down without mercy."

Yu Rou chuckled at his words and said, "Before you start cutting anyone, you should start improving your cultivation first."

"Then I shall raise my cultivation just for you, Yu Rou," Yuan said.

Sometime later, after Yu Rou finished cleaning and feeding Yuan, she asked him, "Do you have anything else you want to say before I leave?"

"Yeah, just one thing." Yuan said, and he took a deep breath before continuing, "Thank you, and good night."

"Good night, Brother. I can't wait to play with you in a few days." Yu Rou said to him before leaving the room.

After Yu Rou left the room, Yuan went to sleep shortly later.

Meanwhile, inside her own room, Yu Rou surfed the internet for the latest Cultivation Online news.

"Hmm? Player Yuan makes the headlines again? He sure is popular, even having his own forums." Yu Rou clicked on the link without even thinking and began reading the forums that only had posts about Player Yuan.

[Player Yuan has become the first player to accumulate over 1,000,000 gold coins in Cultivation Online, which is worth over 10,000,000 dollars at the current market rates!]

them.

"This Player Yuan's reputation is growing by the day— to the point where there are already people impersonating him. The questions people have about his existence are almost countless. It would be interesting if I could somehow meet this player in the game."

After spending an hour on the internet, Yu Rou entered her bed and went to sleep.

Chapter 40 - Contemp

Early in the morning, before the sun was even out, the alarm beside Yu Rou rang, waking her from her slumber.

After waking up and tidying her bed, Yu Rou went to the bathroom to take a quick shower, wash her face, and brush her hair, before going to the kitchen to cook breakfast. However, she was not feeding herself.

Once breakfast was finished, Yu Rou carried the bowl of soup she'd just cooked and some other things to a large room that was isolated at the end of the hall.

"Brother, are you awake?" Yu Rou knocked on the door before going into the room.

"I'm awake," Yuan spoke in a hoarse voice.

"Let me brush your teeth."

Yu Rou proceeded to lift Yuan into a sitting position before brushing his teeth and wiping his face with a warm towel.

A few minutes later, she began feeding him the soup she'd personally cooked.

"How's the temperature?" she asked him.

"Perfect."

Yu Rou wore a smile on her face as she continued feeding him a spoon at a time.

"Brother, my four-day vacation from school starts in three days, so I will finally be able to play with you soon." Yu Rou said to him.

"That's great... I want you to meet a friend I've made in the game. She reminds me of you a lot..." Yuan said with a smile on her face.

"She...?" A slight frown appeared on Yu Rou's face when she learned that Yuan made a female friend.

"Is she pretty?" she decided to ask him.

"Yeah, she's very cute. I'm sure that you'll get along with her easily." Yuan said without hesitation.

Yu Rou's eyebrows trembled at his words, and she said, "I highly doubt that, Brother."

"Why not? She's already like a second sister to me."

"Second sister?!" Yu Rou exclaimed in a surprised voice, and she quickly said, "I hope you are not getting fooled by her, Brother. You are not very experienced with that kind of stuff, after all."

Yu Rou was worried that Yuan might've been tricked by some sly fox with unkind intentions, as these kinds of people were a dime a dozen these days.

"Listen here, Brother. You may not know this but there are many people out there who will willingly pretend to be your friends for their personal benefits, and once they have what they wanted from you, they will toss you aside like trash! Even though it's just a game, you must stay vigilant, especially with the females! They are the craftiest ones! Who knows what kind of trouble you'll get into with them..." Yu Rou gave him a stern warning.

"Haha... you are overexaggerating..." Yuan chuckled at her words, and he said, "Xiao Hua is not that kind of person. You'll understand it once you meet her."

"Don't worry, Brother, that will be the first thing I do once I can play the game!"

After chatting for a few more minutes, Yu Rou said, "Brother, it's time for me to go. I'll see you again later tonight."

"Have a safe day," Yuan said to her before entering the game.

Once Yu Rou left Yuan's room, she went to eat breakfast that was prepared by someone else.

"Young Lady, for breakfast we have..."

A middle-aged lady wearing maid clothes began explaining the food on the table for Yu Rou.

After Yu Rou finished eating breakfast, the maid said to her, "The car is ready, Young Lady."

Yu Rou gracefully wiped her lips with a napkin before nodding her head.

Sometime later, Yu Rou was escorted outside by another maid.

"Haaa... why must the Young Lady waste her precious time on that cripple? I even heard that her performance in school was lower than usual. She must not be getting enough sleep because of that cripple." One of the maids sighed in a pained tone after Yu Rou was gone.

"There's nothing we can do about it. The Young Lady insists on taking care of him by herself, even restricting us from going into his room without her permission," said another maid.

"Why does she care so much for him? I doubt he is able to do anything for her with that useless body."

"I have only heard of this from the older servants, but apparently the Young Master used to have a healthy body."

"Does it really matter what happened in the past? The fact is that he's a cripple now and will continue to be one in the future. I simply cannot fathom the Young Lady's thoughts. She could easily gather countless men with her status and beauty, yet she'd rather spend her time with a bed stricken cripple who might die at any moment."

"You should really watch your mouth. If the Young Lady hears such words, losing your job will be the least of your worries..."

While the maids in the house talked behind Yuan's back, Yuan was having the time of his life soaring besides the clouds in the sky on a flying sword.

"WOOOHOOOO~~! This is the best feeling ever!" Yuan shouted from excitement as he flew over mountains and rivers, feeling as free as a bird.

"Be careful, Brother Yuan. You'll fall if you lose control of your spiritual energy." Xiao Hua warned him from behind. And unlike Yuan, who needed the assistance of the flying sword to fly, she was flying in the air with just her spiritual energy alone.

"I don't understand why anyone would walk if they can just ride these things. If I could fly, I'd be flying everywhere— even in the streets!"

"Flying gets tiring if you do it for too long, and it consumes too much spiritual energy. Most people would rather save as much spiritual energy as they can in case they run into trouble. And because not many people have reached the Spirit Grandmaster level in this place, we will barely run into any Cultivators who can fly." Xiao Hua explained to him.

"I see... Anyway, how long before we reach our destination?" Yuan asked her.

"We will arrive in a few hours. But we'll also take short breaks in-between because Brother Yuan cannot remain on the sword for long."

"Sounds good." Yuan nodded.

Chapter 41 - Pang City

After flying for a little under an hour, Yuan was beginning to feel fatigued from using his spiritual energy constantly.

'How am I feeling tired already?! I have over 100 million Qi!' Yuan was baffled by how quickly his Qi depleted when he had over 100 million Qi.

Either flying requires a massive amount of Qi to maintain or the large number of Qi does not justify his actual amount of Qi.

'No wonder why Cultivators rather walk than fly!' He sighed inwardly.

"Hold on a little bit longer, Brother Yuan." Xiao Hua suddenly said to him. "There's a small city up ahead. We can rest there."

A few minutes later, Yuan could see the city walls with buildings inside a few miles in the distance. Although it did not appear to be as big as Spirit City, it was still considerably spacious.

«You have discovered 'Pang City'»

Sometime later, Yuan and Xiao Hua descended from the sky and landed near the city entrance, instantly attracting the attention of everyone there.

"An expert! It's an expert!"

"I have never seen anyone fly without the assistance of a flying sword before!"

The people there began mumbling to each other with awe, their gazes filled with respect.

When the guards at the gates saw Yuan and Xiao Hua, they immediately approached them and bowed to them, "Welcome to Pang City, Seniors!"

"Seniors?" Yuan raised his eyebrows in a baffled manner. Does he really look that old in the eyes of these guards?

"Listen here, I am only 18 years old. Don't address me as if I am an old man... That's disrespectful." Yuan said to them.

"..."

The guards stared at Yuan with even larger eyes after hearing his words. What kind of prodigy could control a flying sword at such a young age?! Calling him a genius would still be an understatement!

"O-Our apologies, Young Master!"

The guards apologized when they snapped out of their daze.

"Brother Yuan, people care about your power above anything else in the Cultivation world. Being called a Senior means they acknowledge that your strength is above theirs, and it's not disrespectful at all."

"Is that so? But it still feels weird to be addressed in such a manner." Yuan said.

"Anyway, what do you want with us?" He asked the guards a moment later.

"If it's not too much to ask, we would like to know the Young Master and Young Lady's reason for visiting this place." The guards responded still with their heads lowered.

"We don't have any reason, really. We're only taking a break here before we resume our journey." Yuan said to them.

"If the Young Masters are looking for a place to rest, may we recommend the Lord's Manor," said one of the guards.

"The Lord's Manor? That sounds like a very expensive place, and we won't be staying here for long, so it's not necessary." Yuan quickly rejected their offer, as he was personally penniless.

"Don't worry about the expenses, Young Master. The Lord won't charge you even a single coin." The guards said to him.

"But I don't want to intrude on this person without any reason," Yuan said. In his eyes, it was simply too awkward for him to stay in someone's house without any good reason, not to mention a place as impressive-sounding as the 'Lord's Manor'.

"To tell you the truth, we are only following the Lord's orders, as he is currently in a troubled situation and is looking for experts for help." The guards suddenly revealed the real reason why they wanted him to go to the Lord's Manor.

"Oh?" Yuan's eyes flickered with interest upon hearing the guards' words.

'Could this be a quest? Maybe the real reason they approached me is because I am a player...' Yuan thought to himself.

"I guess it won't hurt to visit this person who might need our help. What do you think, Xiao Hua?" Yuan nodded a moment later.

"Xiao Hua will follow Brother Yuan's decision," she quickly responded.

"Okay, then let's go to this Lord's Manor," Yuan said to the guards, who immediately wore very bright smiles on their faces.

"Thank you very much, Young Masters! The Lord will be filled with joy once he learns of this!"

"Please wait a moment while I find an escort for the Young Masters!"

One of the guards quickly left the scene.

A few minutes later, the guard returned with a very beautiful lady who did not have the appearance of an ordinary escort.

"Welcome to Pang City, esteemed guests." The lady greeted them with courtesy before introducing herself, "I am Luo Ling, the eldest daughter of the Luo Family that governs this humble city. Allow me to escort you back to my home."

"You can call me Yuan, and this is Xiao Hua." Yuan gave her a quick introduction.

"Senior Yuan and Senior Xiao, right?"

"You can drop the formality and just call me Yuan." He said to her, as it felt incredibly weird for a beautiful lady who only appeared to be in her mid-twenties to call him 'Senior'.

"How does Daoist Yuan sound? I do not dare to address someone as powerful as you so casually." Luo Ling said to him.

"Powerful...? You are giving me too much credit. I am only at the Spirit Warrior level." Yuan said with a bashful smile.

"Despite that, you emit a very formidable aura, not to mention the Young Lady beside you..." Luo Ling looked at Xiao Hua with a nervous gaze.

Although she cannot see Xiao Hua's entire cultivation base, she was certain that Xiao Hua was at least at the Spirit Grandmaster level, as many people here have witnessed her flying without the assistance of a flying sword, and she even emits the aura of a true expert.

"Daoist Yuan is fine, I guess." He nodded a moment later.

Luo Ling proceeded to escort Yuan and Xiao Hua into the city.

Meanwhile, the people that had to wait in line to get inside the Pang City began mumbling to each other.

"Did you see that? I have never seen Lady Luo personally receive guests before!"

"Of course I saw it! I am not blind! And those two were clearly experts! It'd only be obvious that they would be treated with the utmost respect!"

"Hey... did you hear that young man just now? I think he called himself 'Yuan'..."

"Could he be the Player Yuan that everyone and their mother has been talking about?"

"Are you sure you heard right? He didn't give off the feeling of a Player, much less an unfathomable individual such as Player Yuan. He's probably just an NPC with a similar name."

"Yeah, probably."

"It would be amazing if he was the real Player Yuan, though."

A group of players within the line chatted with each other while they waited for their turn to enter the city.

Chapter 42 - Luo Family

After entering the city, Yuan said to Luo Ling, "The guards mentioned that the Lord of this city is currently in a troubled situation. What's troubling him, and how can we help him?"

"Well, it's like this, Daoist Yuan. A few days ago, some ignorant adventurer went into the mountains to hunt, and he accidentally killed the Mountain Lord's child. This greatly angered the Mountain Lord, who immediately blamed our city and swore to send an army of monsters to trample us very soon."

"Mountain Lord? Is that a person or...?" Yuan raised his eyebrows.

"The Mountain Lord is a fearsome beast at the fifth level of the Spirit Warrior realm, and it is a guardian of sorts for the Pang Mountain that's right beside our Pang City. If it attacks our city, only my father who's also at the fifth level of the Spirit Warrior realm can fight it, but then he won't be able to protect the city against the other monsters, and we are currently lacking in manpower with around 50 guards with most of them being at the Spirit Apprentice level." Luo Ling explained the situation to him.

"This is why we are looking for any help we can get. If Daoist Yuan is willing to lend us your power, it would definitely help us a lot, and we won't spare any effort into repaying you afterward." Luo Ling said to him with her head lowered.

"Since this city needs help and the strongest threat is only at the fifth level of the Spirit Warrior realm, there's no reason why I would refuse to give you my assistance." Yuan nodded.

Now that he is at the fourth level of the Spirit Warrior realm, he shouldn't have any problems fighting even seventh level Spirit Warriors, much less a Spirit Warrior at the fifth level.

"Thank you very much, Daoist Yuan! My father will definitely be ecstatic to hear this later!" Luo Ling bowed to him again before they continued walking.

Sometime later, they arrived at a massive building that was situated in the middle of the city.

"Welcome to my family's humble home." Luo Ling said to him when they were at the front gates.

"..."

Yuan looked at the decorated building with wide eyes. How can such a place be described as 'humble'?

"Welcome back, Young Lady. Welcome to the Lord's Manor, esteemed guests." The guards by the gate greeted them when they approached.

"Where's my father?" she asked them.

"Lord Luo should be finishing up with the other guests right as we speak—"

"Oh! Esteemed guests! You are finally here!"

A middle-aged man wearing luxurious official clothes suddenly came running out of the building in the middle of the guard's sentence.

"Welcome to my humble home, esteemed guests! The guards have already briefed me about your presence. Thank you so much for taking the time to even listen to our request despite being so busy yourselves." Lord Luo extended his hands to Yuan for a handshake.

"Don't worry about it. We are not actually that busy, anyway." Yuan said as he accepted Lord Luo's handshake.

"Please, let us continue speaking inside."

Lord Luo then led them into a large guest room and said to Luo Ling, "Bring us our finest tea, and bring the other two here while you're at it."

"Yes, father." Luo Ling nodded.

"Excuse me for a moment, Daoist Yuan." She said to him before leaving the room.

"Esteemed guests, once again, allow me to thank you for coming here." Lord Luo said to them a moment later.

"Just call me Daoist Yuan, and I have heard everything about your situation from Luo Ling," Yuan said to him. "You need help defending the city, right?"

"That's right, Daoist Yuan. As shameful as it may sound, being only a fifth level Spirit Warrior, I do not have what it takes to defend the city in this dire situation. We usually don't have to worry about the beasts within the Pang Mountain because of a peace treaty between the city and the Mountain Lord, but because of what happened with the Mountain Lord's child, the treaty was broken. We had even tried to bring the perpetrator directly to the Mountain Lord, hoping it'd at least spare the innocent people in the city, but alas, the Mountain Lord was too consumed in anger to even care." Lord Luo spoke in a sighing voice.

"Daoist Yuan, the city and I will be eternally grateful even if you can help us take care of the weaker monsters, as it's the people in the city that I am the most worried about, and I will handle the Mountain Lord by myself."

«You have received a Quest»

«Quest: Protecting Pang City»

«Difficulty: Easy»

«Quest Description: Defend the Pang City against the Mountain Lord's attack»

Yuan nodded his head and said, "Okay, we'll help you defend the city."

"Thank you! Thank you very much, Daoist Yuan!"

Sometime later, Luo Ling returned to the room with a teapot and two cups along with two other individuals that appeared to be around the same age as Yuan.

"Let me introduce you to my other children, Daoist Yuan." Lord Luo pointed at the handsome young man and said, "This is my eldest son Luo Ming, who is 20 years old and at the first level Spirit Warrior."

"Hello, fellow Daoist." Luo Ming nodded at him.

Lord Luo then moved to the beautiful young lady beside him and said, "This is my youngest child, Luo Li, who is at the same age as Daoist Yuan and at the peak of the Spirit Apprentice level."

"It's a pleasure to meet someone as talented and handsome as Daoist Yuan." She gave him a graceful bow with the colors on her cheeks slightly rosy.

'Handsome...?' Yuan raised his eyebrows. This is the first time anyone's ever praised him for being handsome.

'Now that I think about it, I don't know what my appearance looks like in this game...' Yuan suddenly came to this realization, as he never really cared about his own appearance, hence why he did not give it any thoughts until now.

Chapter 43 - Ulterior Motives

After his children introduced themselves, Lord Luo said to Yuan, "Daoist Yuan, you came to the Pang City to rest, right? I have already arranged two of our best rooms for you and the Young Lady. And from the information we've gathered, the Mountain Lord plans on attacking us either tomorrow or the day after, so you are free to do whatever you want until then."

"I will leave one of my children with you just in case you need anything." Lord Luo then turned to look at his youngest daughter, Luo Li with a sharp gaze.

Luo Li immediately realized what her father was trying to tell her and stepped forward.

"I will be taking care of all of your needs, Daoist Yuan. If there's anything you desire, don't hesitate to talk to me," she said to him.

Assisting the guests' needs are usually the servants' job, but Lord Luo specifically assigned his own daughter to take care of Yuan simply because he hoped that some kind of romantic relationship could bud between them, as it would definitely benefit their family to have a talented individual like Yuan with them.

"I'll be troubling you," Yuan calmly said, unable to take the obvious hint.

"Luo Li, show the guests their rooms. I have to return to the other guests since I kind of left them hanging to come here." Lord Luo said to her.

He then turned to look at Yuan and said, "I won't bother you any longer, Daoist Yuan. If you need anything — anything at all — just let my daughter know and she'll take care of it. Although she may be young, I can proudly say that I've raised a very competent daughter."

After Lord Luo and the others left the room, Luo Li said to Yuan, "Shall we head to your room now?"

Yuan nodded and followed her to a large room somewhere down the hall.

"This will be Daoist Yuan's room, and the one next to it will be the Young Lady's room." Luo Li said to them.

"Xiao Hua will stay with Brother Yuan." Xiao Hua suddenly said to her.

"That's okay, too. The bed is large enough to fit four people, after all." Luo Li nodded.

A few moments later, when they entered the room, Yuan was amazed by the spacious room that was decorated with Chinese antiques in almost every direction.

"What do you think, Daoist Yuan? Is this room to your taste?" Luo Li asked him a moment later.

"Un." He quickly nodded.

"Then I will leave you alone for now. If you need anything, I will be standing outside." Luo Li said to him.

"Eh? You don't have to do that. It would actually have the opposite effect, and I won't be able to relax." Yuan looked at her with wide eyes.

"Then what do you suggest, Daoist Yuan? My father told me to stay with you, after all. He won't like it if I left you alone."

Yuan scratched his head before saying, "I guess you can stay here for now. I have a few questions about a few things, too."

"Then I shall stay in this room with Daoist Yuan." Luo Li nodded before walking to the door and standing there like a guardian of sorts.

"You don't have to be so strict with yourself. Sit down and relax." Yuan said to her with a weird smile on his face, feeling kind of awkward with her

seriousness.

Sometime later, Yuan and Luo Li sat across each other on the couch.

"Your father mentioned other guests. Are they also going to be helping with defending the city?" Yuan asked her.

"Yes. Most of them are warriors who came from a very distant land, and they were all very eager to help us defend the city after we told them about our situation, and we cannot be more thankful to everyone for helping us, especially you, Daoist Yuan." Luo Li said with a beautiful smile on her face.

'A distant land? Could they be players like myself?' Yuan thought to himself.

"I see... then can you tell me more about this place?" he asked a moment later.

"Our Pang City? We're just an ordinary city with a few thousand citizens. Compared to Daoist Yuan's background, we're not even worth mentioning." Luo Li replied with an embarrassed smile.

"My background?" Yuan raised his eyebrows.

Luo Li nodded and said, "Despite being the same age as me, Daoist Yuan is already at the fourth level Spirit Warrior. I have never met anyone as talented as you before. Surely, you must come from a powerful sect or a renowned family."

However, Yuan quickly shook his head and said, "I'm neither from a powerful sect or a renowned family."

"Eh? Really? Then where did Daoist Yuan come from? And who taught you how to Cultivate?" Luo Li looked at him with wide eyes, as she cannot imagine someone as talented as Yuan coming from nowhere.

"Well, I am also from a distant land that is not well-known in this place. As for who taught me cultivation..." Yuan turned to look at Xiao Hua, who was

casually sitting beside him with a calm expression.

"This Young Lady taught you cultivation?" Luo Li stared at her with a dazed expression.

However, Xiao Hua shook her head and said, "Xiao Hua did not really do anything. It was Brother Yuan who learned everything by himself."

"That's not true, Xiao Hua. If not for you I would not have become a Cultivator so soon, and you were the one who gave me the cultivation technique and taught me what it means to be a Cultivator."

"Xiao Hua merely gave Brother Yuan the chance to learn the cultivation technique. It was mostly due to Brother Yuan's own effort and talent that he managed to learn it."

Luo Li was speechless. Hearing their conversation, it sounded as if Yuan had only become a Cultivator very recently.

"When did Daoist Yuan start cultivating?" she decided to ask him out of curiosity.

"Uhh... about a week ago?" Yuan said after pondering for a bit.

"..."

Luo Li stared at him with wide eyes that were filled with disbelief. It'd taken him only a week to reach the fourth level Spirit Warrior realm from the beginning? What kind of cultivation monster is he?!

Chapter 44 - Appearance

"Don't think too much about it, you'll only give yourself a headache," Xiao Hua suddenly said to Luo Li, almost as though she could read her mind. "Brother Yuan is a prodigy that appears once every few generations. You won't understand his talent with ordinary logic."

"Is...Is that so...?" Luo Li decided to take Xiao Hua's advice and stopped thinking about it.

Sometime later, Yuan said, "By the way, I would like to take a look around this city if you don't mind."

"Of course not! Let me speak with my father first, then I will guide you around the city!" Luo Li quickly said.

Yuan nodded, and Luo Li left the room shortly later.

Once Luo Li was gone, Yuan looked around the room with curiosity, as this is his first time being inside such a unique room, and that is when he noticed the tall mirror sitting at the corner of the room.

"Oh? A mirror?" Yuan immediately stood up and walked to the mirror with his heart filled with anticipation and nervousness. What does he look like in this world? Is he really as handsome as Luo Li described him?

"This is me...?"

Yuan stood before the mirror that was slightly taller than his head with a dazed face.

He had short but silky black hair on his oval-shaped head, clear brown eyes that were bright as crystals, long eyelashes that would make even females

jealous, sharp but neat eyebrows, and a small nose. Overall, his face was very symmetrical and pleasant-looking.

The last time he'd seen his own face was when he was 7 years old— before he lost his ability to see and became blind.

"If I recall correctly, Yu Rou once mentioned that one's appearance in the game will closely resemble their appearance in the real world, hence why I entered this game with an avatar already created for me. However, I do not know what I look like in the real world, and it has been over 10 years since I last saw my own face, so I cannot confirm whether this face really resembles my real appearance or not..."

Furthermore, because he does not know the standard regarding one's appearance, he cannot really tell whether he's really handsome or not.

Therefore, he decided to ask someone else for their opinion.

"Xiao Hua, I have a question for you." Yuan suddenly said to her.

"What is it, Brother Yuan?"

He then pointed at his own face and asked with a serious expression, "Without being biased, what do you think of my appearance? Would you say that I am handsome? Or am I ugly?"

"..."

Xiao Hua looked at him with wide eyes, seemingly speechless by his sudden question.

A few moments later, she spoke in a bashful voice and with slightly rosy cheeks, "Xiao Hua thinks Brother Yuan is very handsome..."

"Really? Are you sure that you're not just complimenting me because you don't want to hurt my feelings? It's okay to tell the truth, Xiao Hua." Yuan said to her, as he had a feeling that her judgment might be somewhat inaccurate because of their relationship.

"X-Xiao Hua is telling the truth! Brother Yuan is very handsome!" Xiao Hua said again, but her face was flushed with redness this time.

"Okay, I will trust your judgment." Yuan nodded.

"..."

Xiao Hua was speechless. Why would he even want this kind of feedback? Did he not look in the mirror just now? Anyone with a working brain would agree that Yuan was handsome. Or did he just want to tease her?

"Why are you asking about your appearance, Brother Yuan? Is it because of that Luo girl?" she decided to ask him.

However, Yuan quickly shook his head and said, "No, I was just wondering because I have never really cared for my own appearance."

"Don't worry, Brother Yuan. In the cultivation world, one's appearance isn't that important. As long as you are talented and powerful, unless you have the world's ugliest face, you'll be able to attract girls! And since Brother Yuan is both talented and handsome, you will, without doubt, have beauties fighting for you in every direction in the future!" Thinking that Yuan was worried about his appearance, Xiao Hua decided to cheer him up.

"Hahaha... My appearance is the least of my worries, Xiao Hua..." Yuan laughed in a bitter voice.

A few minutes later, Luo Li returned to the room. However, she looked a little bit different than before she left, almost as though she came back even prettier.

It was obvious that besides speaking with her father, Luo Li had spent some time improving her own appearance with light makeup.

Of course, as someone who doesn't pay much attention to appearances, Yuan was completely oblivious of this fact.

"Daoist Yuan, I have let my father know about your wishes to look around the city. We can leave whenever you want," she said to him.

"Okay, then let's leave now," Yuan said.

Sometime later, they left the Lord's Manor.

"Where do you wish to visit first, Daoist Yuan?" she asked him once they were outside.

Yuan shrugged and said, "I don't know what's in this city, so I'll let you choose where to visit."

However, as this is her first time giving a tour to someone, Luo Li was also unsure of where to go. Therefore, she decided to just walk around the city until they come across something that would pique Yuan's interest.

"That fruit stall over there is managed by Madam Ying, and it always has the freshest fruits in the city."

"That's Mister Wang's Treasure, the only weapon shop in our city."

"This is the residences' area, where most of the citizens live."

"That building over there is Li's Clinic..."

Luo Li gave a brief explanation for most of the shops and buildings they passed, and Yuan would listen to her with a bright face, looking as though he was in an amusement park.

However, he would show the most interest when Luo Li talked about the buildings that were related to food, and upon noticing this, Luo Li asked him, "Would you like to experience some of Pang City's finest cuisines?"

"Really?" Yuan immediately became excited. But when he remembered that his wallet was near empty, he asked her, "I only have ten gold coins on me. Will that be enough?"

Finding his question quite silly, Luo Li couldn't help but laugh slightly, "With 10 gold coins, you can eat everything on every single menu in this city and still have plenty of money left."

"What? The food here is that cheap? My last meal was atrociously expensive in comparison!" Yuan was shocked to learn that the food in this place was so cheap, especially when he'd spent 500 gold coins on his previous meal.

"Brother Yuan, that's because you were stuffing your face with expensive spiritual meat... Normal food will only cost a few silver coins at most." Xiao Hua said to him.

"Is that so? Then what are we waiting for? Let's go eat until our stomachs are round!" Yuan quickly said.

Chapter 45 - Bounty

Sometime later, Luo Li brought Yuan to one of their largest and most famous restaurants.

"Hundred Style Pork Shop?" Yuan looked at the sign above the door with a slightly wet mouth.

"As the name implies, this restaurant specializes in pork. Of course, there are other foods on the menu, but they are most famous for their pork." Luo Li said to them before they walked inside.

"Welcome to the Hundred Style Pork Shop, Lady Luo!" The receptionist immediately recognized and greeted Luo Li.

"Table for three," she said.

"I understand. Please, come with me."

The receptionist then led them to the largest table in the room that could easily fit even a large family.

"Here's the menu, Young Lady."

"Thank you. By the way, you can send the bill to my family." Luo Li then said to the receptionist.

"Eh? Are you sure?" Yuan asked her when he heard her words.

"Yes. Although it's not much, please allow my family to treat Daoist Yuan to this meal. If my father was here, he would've also said the same. After all, Daoist Yuan is still our esteemed guest. If we cannot even do something

as simple as feeding you, then it would bring shame upon the entire Luo Family." Luo Li said.

"You're exaggerating..." Yuan said with an awkward smile, as he was not used to this royalty-like treatment.

"Anyway, please order whatever you want, Daoist Yuan. My family will bear all of your bills today."

Seeing the stubbornly beautiful smile on Luo Li's face, Yuan could only nod his head and accept her offer.

A few moments later, Yuan began ordering from the menu.

"I'll have this braised pork, this seasoned pork, this pulled pork, this... this... this... and this..."

"..."

Both the receptionist and Luo Li stared at Yuan with wide eyes as he continued to name dishes after dishes until he named almost every dish that was available on the menu.

Meanwhile, Xiao Hua casually sat there with a calm expression, looking as though she was used to seeing this scene.

"V-Very well. I'll immediately notify the cooks..." The receptionist quickly left their table a few minutes later with her hands feeling slightly numb from writing essentially the entire menu.

"D-Daoist Yuan must have been starving from his journey..." Luo Li said to him with a stiff smile on her face, while silently wondering to herself whether Yuan really had the ability to eat so much food.

"Yes, I am quite exhausted after riding the flying sword for so long." Yuan nodded.

"If you don't mind me asking, where does Daoist Yuan plan on heading to after the Pang City?" she suddenly asked him.

"Oh, we are heading to the Purple Bamboo Forest for training," he said with a calm expression.

"The Purple Bamboo Forest?!" Luo Li covered her mouth in shock after hearing his words.

"Eh? What's the matter?" Yuan was surprised by her reaction.

"The Purple Bamboo Forest is renowned for nurturing powerful beasts above the Spirit Warrior realm! It's a dangerous place where beasts as powerful as the Mountain Lord are abundant, and only the strongest warriors would dare to train such a place!" Luo Li looked at Yuan with awe in her eyes, "To think Daoist Yuan would go to such a dangerous place just for training, you are truly on another level compared to me, who cannot even go to the Pang Mountain without supervision. I am now feeling ashamed to even share the same table as you..."

"It may be a dangerous place, but how else am I going to grow stronger?" Yuan laughed.

"Indeed, while it may be dangerous, the cultivation world is already filled with danger, and only those who are willing to risk their lives for improvements like Daoist Yuan can truly reach the peak. I really admire Daoist Yuan for that." Luo Li said to him with an adoring gaze.

Sometime later, the receptionist and a few servers returned to their table with dishes in both their hands.

"We will continue bringing the dishes as they are being cooked. Do you need another table to hold the dishes?" The servers asked them.

"No, it's fine. Brother Yuan will finish the dishes before you can even bring out new plates..." Xiao Hua said to them.

Sometime later, once the table was filled with dishes, Yuan quickly began stuffing his face with food.

"Oh, man! This food is really amazing! The meat is so flavorful and filled with juices! Every bite I take fills my mouth with bliss!"

"..."

Luo Li watched as Yuan constantly shove food into his mouth without stopping with a dazed face, silently wondering to herself, 'Daoist Yuan is truly unfathomable... How can so much food fit into that body?'

A few moments later, Luo Li also began eating the food, but unlike Yuan, she ate as slow and as gracefully as possible, as she was afraid of ruining her makeup.

And just like Xiao Hua had predicted, Yuan managed to finish the dishes on the table before the next round of plates were brought to them, which greatly shocked the servers there.

"Hey, did you hear? They increased their offer for Player Yuan again."

Suddenly, as he was chewing his food, Yuan heard the people sitting behind them mention his name, causing him to slow down.

"I saw it. It's up to 50 million dollars, right?"

"They are even awarding anyone who can identify Player Yuan with 5 million."

"5 million?! I will be set for life with that amount of money!"

"It will only be a matter of time before one of his friends or even family members reveal his real identity to the world for the money."

"I can't believe people are willing to pay that much money for a cheater like Player Yuan."

"You will never understand the rich."

"There are even some people who want to see Player Yuan being PK'd! I think the bounty is around 10 million right now."

"Hahaha... Reward or not, if I ever see this Player Yuan, I'm definitely going to Player Kill him!"

"..."

Yuan slowly turned around to look at the group of people chatting loudly behind him with a dumbfounded expression, his round cheeks still filled with food. Surely, they must be talking about someone else with the same name as him, right? After all, he does not recall doing anything that would make other players hate him to the point of putting a bounty on his head! Hell, he hasn't even encountered any other players until now!

Chapter 46 - Learning About The Situation

"What's the matter, Brother Yuan? Are you full already?" Xiao Hua asked him after noticing that he'd stopped eating the food.

"No... not yet..." Yuan quickly returned to stuffing food into his mouth, but his ears remained perked and focused on the group of players behind him, as he was curious about this 'Player Yuan' they were mentioning. Surely, they must be talking about someone else who has the same name as him, right? After all, it's not uncommon for people to have the same name in games nowadays, as they have removed the 'unrepeatable names' limit for most games these days, allowing players to have whatever name they want without the frustration of changing names because someone had already picked the name before them.

"Though, this Player Yuan sure is quite the mystery. Anyone with a working brain would not hide their existence when there's so much fame to their name. If he continues to hide his identity, people will eventually forget about him, wasting this massive opportunity to become famous."

"Do you think Player Yuan is actually someone within the Legacy?"

"That's not possible. Everyone in the Legacy has already announced their identity in the game to the world, and we know that it's not possible for one person to have two different characters in this game even if they buy two consoles."

"It doesn't matter who this Player Yuan is! As long as there's a bounty for his head, everyone will be aiming to PK him!"

'Good heavens, what on earth did this Player Yuan do to make the players so angry?' Yuan silently pondered to himself as he listened to the players talk.

A few minutes later, when Yuan could no longer contain his curiosity, he turned around and spoke to the players, "Excuse me, can you tell me more about this Player Yuan? What did he do to make the others want to Player Kill him?"

Hearing his question, the players looked at him with a weird expression.

"Hm? You don't know about Player Yuan? Have you not been on the internet lately? Even people who don't play the game know about him!" One of them said to them.

"Unfortunately, I haven't..." Yuan said with a bitter smile.

"Well, Player Yuan is a mysterious player who has been dominating the game with an impossibly fast progression recently, and there are even accusations of him being a cheater."

"A cheater?" Yuan's eyes widened with surprise. How does one even cheat in this game?

"Is that why people want to PK him? Because he's cheating?" He then asked.

"That's only one of many reasons why people want him dead. Well, the biggest reason is that they envy this Player Yuan, who is akin to a god-like existence in this game at this current moment."

"God-like existence?" Yuan expressed awe.

"Of course. He not only has a Divine-grade technique but also a Divine-grade servant! And it hasn't even been that long since the game launched! It's no wonder people are calling him a cheater! How else can you progress that fast?!"

"Eh...?" Yuan's eyes widened with shock after hearing such words. A Divine-grade technique and a Divine-grade servant?

He slowly turned to look at Xiao Hua and swallowed nervously. Surely, it must only be some kind of coincidence...

When the players saw Yuan's bewildered reaction, they all laughed loudly, "Hahaha! We know exactly how you feel, young man! We also felt the same when we first heard it!"

"However, this Player Yuan is not only powerful, but he's also incredibly rich, as he'd obtained over 1,000,000 gold coins not long ago, becoming the first person to enter the Wealth Leaderboards!"

"And he even soloed this dungeon recently!"

"..."

Yuan began sweating profusely at their words.

'Heavens! They are really talking about me!' He cried inwardly after this realization.

"I-I see..." Yuan tried his best to remain calm and said to them, "Thank you for this information, I will now also keep my eyes out for this Player Yuan..."

"Good luck, buddy! We'll also try our best to find and kill this Player Yuan! But because almost every player is currently looking for him, it won't be that easy!" The players said to him with bright smiles all over their faces, and they left the restaurant shortly later.

"..."

Yuan quickly turned around and continued eating with his back soaked in cold sweat.

'What the hell?! I am definitely not a cheater! How dare people accuse me of cheating when they don't even know anything?!'

It was at this moment that Yuan swore to keep his identity a secret from the other players, as it would be disastrous if people knew of his real identity. And even if he was powerful enough to defeat other players, he did not want to fight every player that crosses paths with him in the future.

'Why have things become so complicated now? Why must I be hunted by every player in the world because I got a little bit lucky? I only want to enjoy this game like everyone else!' Yuan sighed inwardly.

However, this situation is something he cannot control, and he could only hope that people will soon forget about him.

Meanwhile, Xiao Hua and Luo Li silently stared at Yuan with a contemplating expression, almost as though they were unable to comprehend Yuan's conversation with the other players just now. However, they quickly gave up a few seconds later and continued eating as though it wasn't their concern.

An hour later, Yuan rubbed his round stomach with a satisfied expression. "Ahh, that was amazing..."

Luo Li chuckled and said to him, "What's even more amazing is Daoist Yuan's stomach. I did not think you would really eat everything, and I apologize for doubting your ability."

"Young Lady, the bill will be 6 gold coins..." The server said to her afterward.

"I will have someone bring the money over later," she nodded.

A few minutes later, all of the servers and even the cooks in the restaurant came outside to bow to them.

"We thank Young Lady and her friends for their patronage." They said to them.

"What should we do now, Daoist Yuan?" Luo Li asked him after they left the restaurant.

"Let's return to the Lord's Manor. I'm too full to do anything right now."
Yuan said to her.

"Very well." She nodded.

Chapter 47 - Cultivation Technique Improvements

Upon returning to the Lord's Manor, Yuan went straight to his room with Xiao Hua, while Luo Li went to brief her father about their little tour and restaurant bill.

"What should we do now, Xiao Hua? We have plenty of time until the Mountain Lord attacks, but I don't want to just sit around and do nothing." Yuan said to her.

"Most people would cultivate during their free time, as every minute matters," she said to him.

"Eh... But I find cultivating normally very boring. I'm just sitting there and breathing, after all. And it'll take forever for me to reach the next level if I were to cultivate normally..." Yuan sighed.

Now that he needs millions upon millions of Qi to reach the next level, it would take him many days, even weeks to breakthrough a single level when his cultivation technique only absorbs 5 Qi per second.

"Cultivation, in general, takes a very long time," Xiao Hua said to him.

"Once Brother Yuan reaches the higher realms, it might take you decades of cultivation time to improve a single level."

"But since Brother Yuan doesn't want to cultivate normally, why don't Xiao Hua read her book for you?" Xiao Hua then suggested.

"Oh? That book?" Yuan nodded. Now that he's improved his cultivation, perhaps he might learn something new this time.

A few moments later, Xiao Hua retrieved her book and began reading it.

Yuan closed his eyes and focused on Xiao Hua's gentle and innocent voice.

Many minutes later, Luo Li returned to the room, but when she saw that Yuan had entered cultivation, she decided to remain outside until he was done, as it was very offensive to interrupt someone while they were cultivating, and it might even lead to internal injuries that are very difficult to heal.

A few hours later, Yuan opened his eyes, feeling as though new knowledge was gushing into his head.

'500 Qi per second! That's 100 times faster than before! And I need 10 million Qi to activate Heaven Splitting Sword Strike now?! That's 1,000 times more than before!' Yuan was shocked by the massive improvements to his cultivation technique.

'I guess it only makes sense that you would absorb and use more Qi the higher your level,' he thought to himself.

Seeing the formidable aura around Yuan, Xiao Hua could easily tell that he'd once again improved as a Cultivator.

'Just what is Brother Yuan's limit? Does he even have a limit to his talent?' Xiao Hua pondered to herself.

Every Cultivator under Heaven is either born with or without talent and for those born with talents, regardless of how much, there is always a limitation to their talents as set by the Mighty Heavens.

'No... There exist people who do not have a limit to their talents... but those people are...'

"Xiao Hua, my understanding of the cultivation technique has improved slightly," Yuan suddenly said to her. "I can now absorb more Qi with the cultivation technique."

Xiao Hua quickly tossed her thoughts to the side and said, "Brother Yuan is always improving so Xiao Hua is not surprised."

Meanwhile, when Luo Li heard the two of them talking, she knocked on the door and said, "Are you finished with cultivation, Daoist Yuan?"

"Eh? Don't tell me you have been standing outside this entire time?" Yuan quickly went to open the door for her.

"I did not want to bother Daoist Yuan, after all." She nodded.

"Anyway, I have some news for Daoist Yuan. We have new information on the Mountain Lord, and it might begin the invasion as early as tomorrow morning."

"I understand." He nodded.

"One more thing, my father would like to invite you for dinner later, but it's okay to refuse because we know that you might still be full from the restaurant earlier today."

"Dinner? That sounds great." Yuan immediately accepted their invitation regardless of how full his stomach was, as he would never turn down a meal as long as it wasn't only soup.

"That's great! I will let my father know." Luo Li said before disappearing again.

After Luo Li left, Yuan said to Xiao Hua, "I'm also going to leave for a bit. If she returns before I do, just let her know."

Xiao Hua nodded and watched as Yuan disappeared into thin air right before her eyes.

"..."

Silence filled the room after Yuan logged off, and Xiao Hua pondered with curiosity.

'How does Brother Yuan disappear and appear as he pleases like that? He shouldn't know any teleporting techniques. And where does he go?'

However, after pondering for a few seconds, almost as though something inside her head had flipped, Xiao Hua immediately lost all interest in Yuan's sudden disappearance and treated it as though it was only normal.

Meanwhile, after logging off the game, Yuan patiently waited for Yu Rou until she entered the room and began doing her daily routine.

"Yu Rou, I'm currently doing an important quest, and even though it might not happen until tomorrow morning, I'll be staying in the game for the night just in case," Yuan said to her.

"Oh? So you're finally playing the game seriously, Brother? Okay, I'll let you play. But you really shouldn't do this too often. I don't want your health to weaken because of it."

"Hahaha, you worry too much, Yu Rou. I have never felt better ever since I started playing the game, and there are even times when I feel as though my body is filled with energy. Of course, the only thing limiting me is my pathetic condition."

Sometime later, after being cleaned and fed by Yu Rou, Yuan returned to the game.

Chapter 48 - In

A few minutes after Yuan returned to the game, Luo Li knocked on the door.

"Daoist Yuan, dinner is ready," she said to him.

"I'm coming!" Yuan said before coming out of the room with Xiao Hua.

Luo Li then led the two of them into a large room with a long table in the middle where the rest of her family was waiting.

"Thank you for accepting our invitation, Daoist Yuan." Lord Luo said to him after seeing him.

"No, I should be thanking you for inviting me."

"Please, have a seat." Lord Luo gestured to the two empty seats beside him and two servants pulled out the chair for them.

"Thank you..."

After taking a seat, Lord Luo clapped his hands. A few seconds later, the servants began carrying dishes after dishes into the room.

"I have heard about your impressive appetite to eat an entire menu and made sure to have enough food so that you don't have to worry about holding back." Lord Luo said to him with a bright smile as the table was being filled to the brim with food.

They began eating shortly afterward.

"..."

"..."

"..."

The Luo Family watched with wide eyes as Yuan consumed the food on the table as though he was a food monster.

Even Luo Li, who had seen him eat before, couldn't help but stare at Yuan with wide eyes.

'How can he still eat like that when he'd already consumed so much not too long ago? Where does the food go after entering his stomach? It's almost as though there is a black hole inside his stomach which could consume even the entire world!'

Meanwhile, Lord Luo was beginning to worry about what might happen to their family's finances if they had to feed Yuan like this every day.

A little over an hour later, after they finished eating and the servants carried away the empty dishes, Lord Luo looked at Yuan and said to him, "Daoist Yuan, now that dinner is finished, why don't we have a little conversation? My family would like to ask you some questions."

"Since you have satisfied my stomach, I don't mind answering a few questions. What would you like to know?" Yuan said.

"Do you have any hobbies?" Luo Li was the first to ask him.

"It may sound simple, but I enjoy doing anything that requires me to exert myself. Whether it be hunting monsters or simply walking around town, I enjoy it all."

"I think it's wonderful." Luo Li said with an alluring smile.

"I will ask the next question," said Luo Ming. "Since you mentioned hunting monsters, what's the strongest beast you've defeated so far?"

"The strongest beasts, huh? I defeated a Demonic Spider that was at the fourth level Spirit Warrior realm not long before arriving at this place."

Yuan said in a calm voice.

"A Demonic Spider?!" Luo Ming exclaimed in a shocked voice. "Y-You are stronger than I'd expected, Daoist Yuan. Even the Elders at my sect would have trouble fighting a Demonic Spider..."

"..."

The other people in the room had similar expressions as Luo Ming after learning that Yuan had defeated a Demonic Spider. If only they knew that he'd obliterated it with a single strike.

A few moments later, Luo Ling asked him, "You don't have to answer this if you don't want to, Daoist Yuan, but do you have a Dao Companion?"

"..."

The room instantly turned silent with everyone's gaze staring intensely at Yuan, especially Luo Li, whose heart was beating loudly.

"Dao...Companion...?" Yuan lifted his eyebrows at this unfamiliar term. "I'm sorry, but what is a Dao Companion?"

Albeit a little bit surprised by his question, Luo Ling responded with a smile on her face, "A Dao Companion is someone you walk the cultivation path with for the rest of your life— a spouse so to speak."

"Like a wife? Then no, I do not have someone like that. I am way too young to be thinking about something like that." Yuan shook his head.

"What are you talking about, Daoist Yuan? You are already eligible for marriage at the age of 16! Then what about a girlfriend? Surely, someone as talented and handsome as you should have one or two already, right?" Luo Ling continued to ask him with a brave expression on her face.

"No... I also don't have someone like that..." he said with a bitter smile on his face.

'I am in no position to have someone like that in my life as I do not want them to waste their time on someone in my condition, and I'm sure that nobody would be willing to accept me if they knew about my real identity...' Yuan sighed inwardly.

Even if someone in the real world would be willing to take care of him, Yuan wasn't sure that he'd be able to endure the guilt, as his heart is already filled to the brim with guilt for making Yu Rou take care of him.

"I see... I'm sorry if my questions made you feel awkward, Daoist Yuan." Luo Ling apologized to him afterward. She then turned to look at Luo Li and winked at her.

Seeing this, Luo Li blushed.

"Anyway..."

Just as Lord Luo opened his mouth to speak, the door slammed open before a guard came rushing into the room.

"Who dares?! Do you have no manners?!" Lord Luo shouted at the guard who came into the room.

However, the guard ignored his anger and quickly said, "Please excuse my sudden entrance, Lord Luo! This is an emergency! There are thousands of beasts from the Pang Mountain rushing here as we speak!"

"What?!" Lord Luo immediately stood up with a surprised face, "The Mountain Lord is already attacking us?! I was told they wouldn't attack until tomorrow morning! This is too sudden!"

"Whatever! I will deal with whoever gave us the intel after we settle this situation!"

Lord Luo then turned to look at Yuan and said, "I deeply apologize for this, especially when you just filled your stomach, but it appears the Mountain Lord has already begun its revenge."

Yuan shook his head and said, "This just means I have more energy to fight with."

"Gather all of the guards and prepare to defend the city!" Lord Luo then ordered the guard.

Once the guard disappeared, Lord Luo said to his children, "I want the three of you to follow Daoist Yuan and defend the city with him. I am going to deal with the Mountain Lord."

"Yes, father!" They nodded.

A few moments later, Lord Luo also rushed outside.

"Please take care of us, Daoist Yuan."

The Luo Family bowed to Yuan afterward.

Sometime later, a notification appeared above Pang City.

«Event 'Mountain Lord's Invasion' has begun!»

«Slay the monsters attacking Pang City to receive points!»

«The Player with the highest points at the end will receive a special reward!»

"An in-game event?" Yuan looked at the notification in the sky with his interest piqued.

Chapter 49 - Domineering Presence

After seeing the notification on the sky and not wanting to let the others get ahead of him in points, Yuan quickly said to the others, "Let's go!"

Yuan and the Luo Family proceeded to run outside the city gates, where hundreds of people were already gathered.

There were around one hundred people wearing similar-looking armors whilst the rest of the people there were wearing common and unmatching gear. It was obvious who the players were and who were the NPCs at a glance.

'There are so many Players here...' Yuan was slightly surprised, even feeling a little nervous, worried that he might reveal his identity once he starts fighting.

"Xiao Hua..." he suddenly called for her, and he asked her, "Do you have any equipment that covers the face? Something like a mask..."

Not even questioning why he needed it, Xiao Hua nodded before rummaging her storage pouch.

"Here you go, Brother Yuan." Xiao Hua handed him an elegant-looking black face mask that could cover his entire face.

"Thank you, Xiao Hua. I will return it to you later," he said as he accepted the mask.

"Just like the sword, Brother Yuan can keep it." Xiao Hua said to him afterward.

Yuan nodded, and immediately after wearing the mask, he could feel his mind easing and feeling more tranquil.

The Luo Family wondered why Yuan felt the need to hide his face, but they didn't have time to ask him as someone there suddenly shouted with excitement, "The monsters are here!"

Once the people there heard that, they all retrieved their weapons and prepared to fight.

Very soon, hundreds of monsters between the third level and seventh level Spirit Apprentice could be seen rushing towards the city walls.

"DEFEND THE CITY!"

The guards roared loudly, causing the atmosphere to instantly change, and the place there quickly became a battlefield with both the NPCs and the Players engaged in fights with the monsters.

Yuan and the Luo Family also began attacking the monsters.

After Yuan swiftly beheaded three monsters with only normal sword techniques, he rushed to the front lines where there were barely any people

but filled with monsters and began slaying even more monsters with ease, each with a single sword strike.

The monsters that were slain by Yuan did not even have a chance to scream before becoming a corpse, and when the Luo Family saw how effortlessly he was slaying these monsters, their eyes widened with admiration and awe.

Granted, Yuan was a Spirit Warrior fighting monsters way below his level, but the way he so effortlessly executed the monsters was nothing short of perfection, and it was almost like a walk in the park for him.

However, it was not just the Luo Family that were surprised by Yuan's prowess, as the other Players have also taken notice of his domineering presence on the battlefield.

"Who the hell is that single-man-army?! He's killing the monsters as though they are defenseless chickens!"

"He's probably some expert NPC assisting with the situation!"

"Forget about him! Look at the little girl next to him! She's killing the monsters with her bare hands! And she's even making it look so effortless!"

The people there watched as Xiao Hua slapped every monster that dared to attack her with a single slap to the face, shocking everybody there greatly.

Points continuously flowed for Yuan even when Xiao Hua killed the monsters, racking up over two hundred points within mere minutes.

Meanwhile, the other players were having trouble dealing with just a single monster, and most of them had less than 10 points even after many minutes.

'How many monsters are there?!' Yuan cried inwardly after slaying over 500 monsters but was still surrounded by them.

He also wanted to use Heaven Splitting Sword Strike to clear the mobs faster, but he did not want to destroy the place in the process, as the Pang City was right behind him, so he could only give up on such thoughts and defeat the monsters without any flashy attacks.

"Daoist Yuan, the beasts coming here are growing stronger! The Mountain Lord should be near!" Luo Ling suddenly said to him.

"The Mountain Lord? If we kill it, won't its subordinates stop attacking the city?"

"Yes, and our father should be fighting the Mountain Lord right now!"

Yuan nodded, "Then let's continue defending the city until he defeats the Mountain Lord!"

"Bloody Sword Strike!"

The sword in Yuan's hand flickered, and three more monsters were slain in a single strike.

Many minutes of fighting later, as both Players and NPCs were beginning to run out of energy, someone wearing Pang City's armor approached the Luo Family and shouted at them in a panicked voice, "Young Ladies! Young Master! It's about your father, Lord Luo! He's currently in a critical condition after fighting with the Mountain Lord!"

"What?! What happened to our father?! And what about the Mountain Lord?!" Luo Ming quickly shouted back.

After taking a deep breath, the guard continued, "Lord Luo, he... he lost the fight against the Mountain Lord! However, he barely managed to escape with his life and is currently being treated by the doctors! And while his life is not in danger, he cannot continue fighting!"

"How could this be...?" Luo Li covered her mouth in shock, feeling lightheaded after hearing such news.

"Does this mean the Mountain Lord is still going on a rampage? If we don't defeat it soon, the monsters will eventually overwhelm the people here and destroy the city!" Luo Ming said with a frown.

"We will have to worry about our father later. Right now, we must defeat the Mountain Lord!" Luo Ling then turned to look at Yuan, who was still

slaying monsters not far away from them.

She then ran to him and said, "Daoist Yuan! We've just received news that our father lost to the Mountain Lord!"

"What?! Is your father okay?" Yuan said in a surprised tone.

She nodded and said, "His life is not in danger, but he won't be able to fight the Mountain Lord anymore, and you are the only one here that's strong enough to fight it. Please, help us defeat the Mountain Lord! I will do anything to repay you afterward!"

Yuan did not even need to think before nodding his head, "Okay, I will fight the Mountain Lord."

Chapter 50 - Heavenly Domain

"Lead us to the Mountain Lord!" Luo Ling said to the guard.

However, before they leave, Yuan said to Xiao Hua, "I alone should be enough to handle the Mountain Lord. Can you stay behind to make sure the people here aren't overwhelmed by the monsters? You can come to me afterward."

The people there were already looking exhausted and he cannot imagine what might happen to the defense here if he were to leave so abruptly.

Xiao Hua nodded and said, "Xiao Hua will take care of the beasts here."

"Thank you, Xiao Hua."

"The two of you also stay here and help her," Luo Ling said to her siblings.

Yuan then followed Luo Ling and the guard to the Mountain Lord whilst Luo Li and Luo Ming stayed behind with Xiao Hua to assist the people.

Once Yuan was gone, Luo Li bowed to Xiao Hua, "Senior Xiao, please take care of us."

Xiao Hua nodded, and she turned to look at the hundreds of monsters on the battlefield.

'It's going to take forever if I kill them one at a time...' she thought to herself.

'Brother Yuan said that I can use my powers as long as I am conscious of the surroundings and I don't destroy any nature...'

"Tell the guards the retreat." Xiao Hua suddenly said to Luo Li.

"R-Right away!" Luo Li nodded, not daring to doubt her words after seeing the serious expression on her face.

"Retreat! Guards! Retreat back to the gates!" Luo Li suddenly shouted loudly.

The guards quickly rushed back to the gates after hearing her words, even feeling relieved that they don't have to fight any longer.

However, the other players were left dumbfounded by this unexpected turn of events.

"What the heck?! What about the monsters?!"

"Are you trying to make us do all of the fighting, you damn NPC?!"

"Whatever! That just means more points for me!"

Despite the Players' anger, Luo Li ignored them and said to Xiao Hua, "Senior Xiao, the guards have retreated to the gates! Is this good enough for you?"

Xiao Hua nodded and took a deep breath before closing her eyes.

"..."

"..."

A few moments of silence later, she slowly opened her eyes, and her gaze flickered with a golden light that seemed to carry the Will of Heaven within.

She calmly raised her right arm into the air before pressing her palms down in a profound manner.

"Heavenly Domain..." Xiao Hua mumbled in a low voice.

BOOM!

Xiao Hua's Spirit King cultivation base suddenly exploded, causing the dark sky to brighten, and the entire place became filled with a golden light, almost as though they were bathed in sunlight.

"W-What is this golden light?! What is going on?!"

Both the players and the guards were baffled by this phenomenon.

In the midst of the players' confusion, the monsters suddenly began screaming in pain, sounding as though they were being slaughtered before...

Splat!

The monsters within the golden light— within Xiao Hua's Heavenly Domain were crushed into meat paste, almost as though an invisible boulder had suddenly fallen on them, squashing them flat.

And within mere seconds, only flattened beast corpses remained within the Heavenly Domain.

"..."

The place turned dead silent after the people there witnessed this shocking scene and Xiao Hua's terrifying prowess.

Meanwhile, on the other side of the city, Yuan was shocked when he suddenly gained thousands of points at once.

«+1,169 Points»

«+1,014 Points»

«+2,841 Points»

'What the heck? Where did all of these points come from? I hope Xiao Hua didn't go overboard again...' Yuan cried inwardly.

"There's the Mountain Lord!" The guard suddenly said.

"That's the Mountain Lord...?" Yuan was speechless when he saw a group of guards trying to fight a massive 7-meter tall black bear in the distance.

Luo Ling nodded with a serious expression on her face, "Indeed, that's the Mountain Lord—the Black Beast, and it seems to have advanced to the sixth level Spirit Warrior realm since the last time we saw it. No wonder why my father lost to it..."

"Do you think you can defeat it?" Luo Ling turned to look at him with a worried expression, as she was worried that she was asking too much from him.

"I will try my best," Yuan responded a moment later.

"Don't push yourself too hard, Daoist Yuan. If you cannot defeat it, just run away."

"How can I possibly do such a thing knowing that the city might fall if I don't defeat it here?" Yuan quickly shook his head.

"Daoist Yuan..." Luo Ling looked at him with a passionate gaze, looking like a child before her hero or a teenager before her idol.

A few moments later, once they were close enough, Luo Ling shouted at the guards that were already at their limit, "Get back! Reinforcement is here!"

"Young Lady!" A blissful expression appeared on the guards' faces when they saw Luo Ling's face and the masked expert beside her who was emitting a profound aura.

"I will assist you to the best of my ability, Daoist Yuan," she said to him after they arrived before the Mountain Lord.

Yuan nodded and stared at the Mountain Lord with a serious gaze through the holes in his mask.

'What a terrifying gaze and a bloodthirsty aura. This Mountain Lord is, without doubt, stronger than the Demonic Spider...'

Despite facing such a threatening opponent, Yuan was feeling calmer than when he fought the Demonic Spider. Perhaps it was due to the Black Jade Mask's effect, or maybe he was simply getting used to these situations, but his mind was completely tranquil at this moment.

"..."

When the Mountain Lord saw Yuan's confident aura, it narrowed its gaze and silently stared at him.

A few seconds later, it spoke in a grim voice, "No matter how many experts you humans bring, I will tear down this city and avenge my son!"

ROAAAR

The Mountain Lord released a deafening roar before it rushed at Yuan and Luo Ling with red eyes filled with killing intent, even causing the ground to tremble with each step it took.

Chapter 51 - Achieving First Place

"Here it comes, Daoist Yuan!" Luo Ling quickly said to him.

Yuan nodded and raised his sword as the Mountain Lord lifted its massive claws and swung at them.

Boom!

Yuan felt as though a large boulder was trying to crush him when he blocked the Mountain Lord's strike.

"I will back you up!" Luo Ling used this chance to thrust her sword at the Mountain Lord's face, but alas, with a single roar from the Mountain Lord, Luo Ling was sent flying away from the tremendous air pressure.

"Luo Ling! Are you okay?!" Yuan asked her whilst he pushed the Mountain Lord's claw to the side.

"I-I am not hurt..." she quickly responded.

"Get lost, you human ant! You don't have the qualifications to meddle in our battle!" The Mountain Lord roared at her.

"I understand that you are angry because of what happened to your child, but do you really have to kill so many innocent people and destroy an entire city for revenge?!" Yuan suddenly said.

"Don't try to persuade me, brat! I will kill everyone in this city even if it's the last thing I do and there's nothing you can do to stop it!"

The Mountain Lord roared again, and its aura began growing more powerful and tyrannical.

"If that's the case, then watch me stop you!" Yuan's eyes flickered with a bright light and his sword began trembling, almost as though it was filled with excitement.

"Bloody Sword Strike!"

A red light flashed before the Mountain Lord's eyes and before it could even react, Yuan's sword was already directly in front of its eyes.

"?!"

The Mountain Lord quickly closed its eyelids to protect its eyes with its steel-like skin, but alas, Yuan's sword was much sharper than it'd anticipated and pierced right through its tough skin.

"Aaaaaaagh!!!"

The Mountain Lord screamed in pain as blood squirted from its eyes.

"Che! I couldn't reach the brain and kill it in one shot." Yuan sucked his teeth after pulling his sword out of the Mountain Lord's face with effort.

"I will kill you! I will fucking kill you!"

The Mountain Lord roared before rushing at Yuan with its claws swinging recklessly.

Seeing this, Yuan immediately focused on dodging its strikes, feeling the tremendous pressure from each strike as it brushed by his face. If the Mountain Lord successfully hit him even once, he will most likely turn into meat paste and die.

After dodging a dozen strikes, Yuan finally saw an opportunity to strike back and quickly stabbed his sword at the Mountain Lord's uninjured eye.

"AAAAAAGH! HOW DARE YOU?!"

Without its sights, the Mountain Lord was severely crippled in its movements and ability to defend itself from Yuan's incoming attacks.

"It sucks without the ability to see, right? I know that feeling very well! And I am giving you one last chance to leave before I really kill you!" Yuan said, feeling that it was only right to show mercy to the Mountain Lord who had lost its child to a human even though it was a monster, not to mention that it was once peaceful with humans.

"Even if I leave today, my hatred for humans and for this place will never subdue! Unless you kill me today, I will definitely return for revenge!"

"Then you leave me with no other choice!" Yuan narrowed his eyes with a resolute feeling, and he tightened his grasp on the sword.

"Bloody Sword Strike!"

Yuan rushed at the Mountain Lord before thrusting his sword forward, and because the Mountain Lord could not see, it was unable to react, allowing Yuan to pierce its neck with ease.

«Congratulations! Player Yuan has become the first Player to kill the Elite Boss: Black Beast!»

«You have subdued the Lord of Pang Mountain!»

«+10 Fame»

«+5,000 Points»

«You have successfully defended Pang City from the Mountain Lord's Invasion!»

An announcement announcing the end of the event suddenly appeared above Pang City for all players to see after Mountain Lord was slain by Yuan, followed by another announcement a few moments later.

«Player Yuan has amassed a grand total of 11,690 points during this event, obtaining the most points out of all participants and will receive a special reward for such an achievement!»

When the other players saw the familiar name 'Player Yuan', they immediately began shouting in excitement.

"It's Player Yuan! He's actually in this place right now!"

"Where is he?! Who is Player Yuan?!"

"Holy shit! 11 thousand points?! I only have 300 points after killing over a hundred monsters! Just how on earth did he obtain so many points in such a short time?!"

It was at that moment the players there realized something.

"W-Wait a second... There's only one person who can possibly have so many points! That little girl who used some overpowered technique to kill most of the monsters here!"

"Now that you mentioned it, where is that little girl?!"

"Impossible! Player Yuan is actually a little girl?!"

"It all makes sense now! That golden light must have been a Divine-grade technique! No wonder why it was so powerful, even overpowered!"

"This new information is definitely going to shock the world!"

"Quick! Someone hurry and post it online! The world must know about this as soon as possible!"

"Hahaha! To think that we've been wasting our time looking for a male player when we should've been looking for a little girl this entire time! This is hilarious!"

The people there began logging off to spread the news on the internet, completely unaware of the chaos this misunderstanding will cause in the future.

Meanwhile, the real Player Yuan was silently staring at the Mountain Lord's corpse, feeling slightly guilty for killing it, as any normal human would go

crazy from sorrow if their children were killed.

"I cannot thank you enough for protecting the Pang City and the innocent citizens that live here, Daoist Yuan." Luo Ling had unknowingly appeared behind him and said to him with her head lowered.

"Thank you for defeating the Mountain Lord, Senior Yuan!" The guards also bowed to him at a 90-degree angle.

"There's no need to thank me. Although it had a valid reason for wanting revenge, I could not allow an entire city to fall and thousands of innocent people to die because of it." Yuan said to them.

A few moments later, Xiao Hua returned to his side and said, "Well done, Brother Yuan."

"You too, Xiao Hua."

"Daoist Yuan, the guards will handle everything from here. Let's return to my father's side for now. He needs to know that the city is no longer in danger." Luo Ling said to him sometime later.

While Luo Ling led Yuan back to the Lord's Manor, the real world was in utter chaos from the new information regarding Player Yuan that had just appeared on the internet.

[Shocking News! Player Yuan is actually female—and a little girl at that!]

[New information regarding Player Yuan has surfaced!]

[Player Yuan is currently at Pang City!]

The new information on Player Yuan shocked the whole world collectively. However, not everyone was willing to believe this new information despite the convincing evidence from the Players that had participated in defending Pang City, as it was simply too unbelievable that some little girl without any background could possibly be the number one player in the world.

There were even some people who wanted to see for themselves whether this information was true, so they began making their way towards Pang City regardless of how far away they were from the place at the moment.

Chapter 52 - Pang City's Hero

Chapter 52 - Pang City's Hero

"Father! Are you okay?!" Luo Ling went straight to her father's room where he was being treated after returning home.

"Ling'er... why are you here...? What happened to defending the city? What about the Mountain Lord...?" Lord Luo asked them with an anxious face while laying on the bed with bloodied bandages all over his body.

"Please calm down and listen to me, father! Everything has been resolved by Daoist Yuan! He not only defended the city gates from the invasion but even defeated the Mountain Lord by himself! The city is safe!" Luo Ling explained the situation to him with a bright face.

"W-What?! Is that true? Our Pang City is no longer in danger?!" Lord Luo's eyes flickered with emotions after hearing the news.

"Yes, father. It's all true, so you can rest and focus on healing your injuries." Luo Ling said to him.

"I-I don't know what to say, Daoist Yuan... I really don't know how to thank you for your contribution... If not for my condition, I would even kowtow to you right now..." Lord Luo said to him with a grateful expression.

"Your feelings are more than enough," Yuan said with a smile.

"No, that cannot do! I must thank you properly!"

An idea suddenly flashed inside his head, and he quickly said, "I know! You can have my daughter! And if Luo Li alone is not good enough for you, I can also give you Luo Ling here! And if you don't want to make them your wife, they can be your concubines!"

"Uh..."

Yuan looked at Lord Luo with a baffled expression, but before he could even respond, Lord Luo looked at Luo Ling and asked her, "What do you think, Ling'er? Are you willing to serve Daoist Yuan even as a concubine? You probably won't find someone like him again."

"Wait a..."

And as Yuan opened his mouth, Luo Ling bashfully nodded her head with a rosy face.

"I am willing," she mumbled in a low but clear voice.

The door opened a second later and the rest of the Luo Family entered the room.

"Father! How are your injuries?!" Luo Ming asked him without having a single clue as to what kind of situation he'd just walked into.

"Father!" Luo Li also approached the bed with a worried expression on her face.

However, instead of telling them that he was okay to calm them down, Lord Luo instead looked at Luo Li and said to her, "Li'er! I have already heard about the situation from Ling'er, and I am thinking about giving your hand and Ling'er's to Daoist Yuan for saving our city, and your elder sister has already agreed to become his concubine."

"Eh?! What?!" Luo Li immediately looked at Luo Ling with a shocked face.

"I'm sorry, little sister. I know that you already have feelings for Daoist Yuan, but I have also fallen for him..."

"Elder sister..." Luo Li looked at her with a perplexed feeling in her heart.

However, in the midst of their conversation, Yuan loudly cleared his throat and said, "Excuse me. I am flattered by your feelings, but I have already said that I am too young to marry, much less two of you."

"That's fine, Daoist Yuan! If you want to marry them in a few years, they can wait for you! I can also assure you that they have never been in a relationship before, so they are still maidens!" Lord Luo quickly said, clearly adamant about giving his daughters to him as a reward for saving the city.

"T-That's not what I am trying to say—"

"Are we not good enough for you, Daoist Yuan...?" Luo Ling suddenly asked him with a disheartened expression.

"Eh? I never said that..." Yuan quickly shook his head, feeling slightly overwhelmed by the situation as he has never been in this kind of situation before.

"If Daoist Yuan does not feel comfortable with us now, we are willing to wait until you are ready to accept us however long that might take... even if it's only as your concubines." Luo Li said to him a moment later.

Yuan was speechless. Why do they want to be with him so much? Or are they programmed to like whoever saves the city?

'What the heck even is a concubine?!' Yuan cried inwardly.

While Yuan was pondering in silence, Xiao Hua spoke in a calm voice, "Brother Yuan is destined to become a great figure who will rule the cultivation world in future, and there will be no lack of women who will want to be with him. Xiao Hua won't speak of your qualifications, but it won't be long before Brother Yuan challenges the Stairway to Heaven, and once that happens, who knows if you'll still be alive by the time he returns here."

"What?! Daoist Yuan is going to challenge the Stairway to Heaven?!"

Everyone in the room was shocked to hear Xiao Hua's words, but Yuan couldn't understand why. What even is this Stairway to Heaven?

"So we are underestimating Daoist Yuan even now... To think he'd be brave enough to participate in the Stairway to Heaven..." Luo Ming said with an awkward smile.

"If Daoist Yuan really plans on climbing the Stairway to Heaven, we will only become a burden for you. I'm sorry, Daoist Yuan, but you can forget about our conversation just now." Luo Ling released a deep sigh.

However, Luo Li's gaze remained resolved, and she said, "Daoist Yuan... If you still remember me by the time your adventure ends, please do visit this place again. I will wait for you until my last breath."

"..."

Seeing the sincere emotions in her gaze, Yuan couldn't help but nod his head.

"Although I don't know what will happen in the future, I definitely won't forget about you or my experience in this place," Yuan said with an innocent smile. "The next time we meet, let's eat together again, okay?"

"Un! It's a promise, Daoist... No, Brother Yuan!" Luo Li nodded with slightly teary eyes.

"Don't forget about me neither, okay?" Luo Ling also said to him.

"I won't," he nodded still with a smile on his face.

Once the barrage of notifications had stopped for Yuan, he said to the Luo Family, "I will stay in this city for one more day just in case the monsters return."

"Please! You can stay here as long as you want! I wouldn't even mind if you lived here forever!" Lord Luo laughed loudly despite the pain in his body.

"By the way, I will properly award you for helping us once the preparations are complete." Lord Luo then said to him.

"You really don't have to..."

"There's no need to be humble. You are already like family to us, anyway! And you can just think of it as an early wedding gift or something like that! Hahaha!" Lord Luo laughed again.

Cough

"Fuck! That hurts!" Lord Luo cursed in a painful voice after laughing too hard.

"Get some rest already, father. We will take care of everything for you." Luo Ling said to him.

"Thank you..." he mumbled before falling asleep a few moments later.

"You can rest in your room, Brother Yuan. If you need anything, just let me know and I will do my best to assist you." Luo Li said to him with rosy cheeks before she quickly walked towards the door.

"See ya later, Brother Yuan!" Luo Ming casually waved at him.

Once Luo Li and Luo Ming left the room, Luo Ling approached his ears and whispered to him, "If my sister is not enough for you, you can call for me afterward."

She winked at him in a seductive manner before leaving the room, completely unaware that Yuan was too innocent to understand the meaning behind her words.

Chapter 53 - Starry Abyss

"Did you hear? Player Yuan is currently at Pang City!"

"Where is that?"

"It's only 30 miles away from here. Want to go over there and take a look? There will be many other people who'll be going there to see for themselves whether Player Yuan is really a little girl or not."

"Let's go!"

After news of Player Yuan spread throughout the internet, thousands of Players began making their way towards Pang City in hopes of seeing Player Yuan, who was rumored to be a cute little girl.

Of course, Yuan himself was completely unaware of the misunderstanding about him that had spread throughout the internet, and he was silently cultivating in the Lord's Manor.

A few hours have passed since the Mountain Lord's invasion, and Luo Li took a deep breath before knocking on the door to Yuan's room.

Knock *Knock*

"Brother Yuan, it's Luo Li," she said to him from outside.

"You can come inside," Yuan responded a moment later.

"Were you cultivating? I hope I didn't interrupt your cultivation..." Luo Li said after seeing the spiritual energy that was gathered around him.

"It's okay. I was about to take a break anyway." Yuan said as he got off the bed, feeling a little bit stiff from sitting in the same position for many hours.

"Do you need something from me?" he asked her a moment later.

"Quite the opposite, actually. We have finished preparing the reward for your contribution during the Mountain Lord's invasion, and we would like you to receive it now,' she said.

"Okay." Yuan nodded before following her outside with Xiao Hua by his side.

A few minutes later, they entered this massive long room with Lord Luo sitting on a large chair at the end of the room, and he was still wrapped in bandages.

Luo Ming and Luo Ling were also in the same room, as were all of the servants in the building and a few guards.

Once Luo Li brought Yuan to the front, Lord Luo spoke in a clear voice, "Daoist Yuan, I have said this before, but I will say it again. Neither I— nor this city can thank you enough for what you have done for this place, and one can even say that you are the sole reason why this city and the thousands of citizens that live here are still alive right now."

"Although this reward isn't much, it's the most precious item our Pang City can afford."

Lord Luo suddenly clapped his hands, and two servants approached Yuan with two boxes in their grasp.

Once they opened the boxes, Lord Luo continued to speak, "For your contributions, from defending the Pang City from thousands of beasts to defeating the Mountain Lord, my Luo Family shall award you with 1,000,000 gold coins and our Luo Family's heirloom, the Starry Abyss."

Inside one of the boxes was a small storage pouch that contained 1,000,000 gold coins, whilst the other bigger box contained a beautiful dagger with a

golden handle and a pitch-black blade that seemed to be made from some kind of jade.

"The Starry Abyss has been passed down in my family for over ten generations, but nobody in the family has ever been able to wield it, almost as though it has its own consciousness. Perhaps you, Daoist Yuan, who will be climbing the Stairway to Heaven one day, might be able to wield it."

'A dagger...? But I have only ever practiced with a sword...' Yuan looked at the flickering black dagger that appeared to contain an entire universe within with a dazed expression, feeling some kind of connection to it.

"Brother Yuan, that's a Soul Weapon..." Xiao Hua suddenly said to him in a low voice, and when Yuan turned to look at her, he could only see a shocked expression on her face.

However, since this wasn't the time or situation to ask her for an explanation, Yuan could only wait until later to ask her.

"Thank you very much for your gift. I swear that I will keep it safe no matter what." Yuan humbly bowed to them before he accepted the gift, as he learned that bowing in this world meant a display of respect after seeing it so many times.

«Congratulations! You have obtained a Soul Weapon!»

Once Yuan accepted the gifts, an announcement appeared in the sky for everyone but Yuan to see.

«Congratulations! Player Yuan has become the first Player to obtain a Soul Weapon!»

However, the players were puzzled by the announcement, as this is their first time hearing about Soul Weapons. What even is a Soul Weapon, and how does it differ from regular weapons?

Once the rewards have been distributed, Lord Luo then said to Yuan, "By the way, we have collected all of the monster cores from Mountain Lord's

invasion. We were able to collect 241 monster cores at the Spirit Apprentice level and the Mountain Lord's Spirit Warrior realm monster core, and I'd also like to give them all to you, as you were the one who killed most of them, anyway."

However, Yuan said, "You can have the Spirit Apprentice level monster cores, I only need the Spirit Warrior monster core."

"Are you sure, Daoist Yuan? If you sold them, you could earn some more gold."

He nodded and said, "1,000,000 gold coins is more than enough for me right now. If anything, I'd like to donate those monster cores to the guards who also risked their lives defending the city yesterday."

When the guards in the room heard Yuan's words, their faces immediately brightened, and they silently thanked Yuan in their hearts.

"I understand. If that's your request, I will leave the Mountain Lord's monster core with you and share the rest with the guards." Lord Luo nodded with an approving smile on his face. Good-natured Cultivators like Yuan are hard to come by nowadays, and he cannot be any happier to know that his daughters might be taken care of by someone like him in the future.

Sometime later, Lord Luo said to him, "Breakfast is almost done, Daoist Yuan. Are you interested?"

"Of course!" He nodded without hesitation.

Chapter 54 - Soul Weapons

Once breakfast finished and Yuan returned to his room, he asked Xiao Hua, "What's a Soul Weapon?"

"Soul Weapons are as its name suggests— weapons that contain a soul, allowing it to have its own consciousness. They are exceedingly rare treasures even in the higher realms with nearly unlimited potential. And due to their uniqueness, they do not have specific Grades like ordinary weapons do. It's really shocking that the Luo Family would have something like this." Xiao Hua explained to him.

"A weapon with a soul... so there's somebody inside the weapon? How does that even happen?" Yuan asked, still confused about the concept.

"That's not quite right, Brother Yuan. There's nobody in the weapon. The term 'soul' does not actually mean there's someone in the weapon. It's just a weapon with just enough consciousness to pick their Masters."

"Oh... So I cannot talk with it?" Yuan said with a slightly disappointed expression.

"That might not be the case either, Brother Yuan. Because Soul Weapons are essentially living weapons that grow stronger with their Master, there's a chance its 'soul' can evolve in the future, allowing it to speak."

"Soul Weapons can grow stronger? No wonder why you say it has unlimited potential."

Xiao Hua nodded and said, "However, in order for it to grow, Brother Yuan must be able to wield it first, and Soul Weapons are not easy to control. Because regardless of your cultivation base, if the Soul Weapon does not

recognize you as its Master, it will be no different from an ordinary weapon, perhaps even worse."

Yuan nodded.

He then retrieved the beautiful black dagger and stared at it with a mesmerizing face.

«Starry Abyss»

«Level: 0»

«Rank: Soul Weapon»

«Growth Rate: Very Slow»

«Requirement: ???»

«Description: A beautiful dagger with an unknown origin. Appears to contain its own universe within the blade»

"How do I get it to recognize me?" Yuan asked her a moment later.

"Brother Yuan can try feeding it some of your blood to see whether it will recognize you or not." Xiao Hua suggested.

"Feed it my blood? How much blood?"

"A few drops should be enough," she said.

Yuan nodded and took a deep breath before pricking his finger with the tip of the Starry Abyss, feeding it a few drops of his own blood.

The moment Yuan's blood touched the dagger, his blood sunk into the dagger's blade, and Yuan could see his blood being absorbed by the flickering stars inside the blade.

A few seconds later, the dagger began trembling.

"W-What is going on, Xiao Hua?" Yuan asked her with a nervous expression.

"It's reacting to your blood, Brother Yuan! There's a good chance it will recognize you! Quickly, feed it more of your blood!" She urged him with excitement on her face.

Yuan nodded and squeezed a few more drops of blood onto the shaking dagger.

As the dagger absorbed more of Yuan's blood, the trembling grew stronger, and the dagger itself even started heating up.

"It's burning me!" Yuan dropped the dagger when it became unbearably hot to hold.

However, as though gravity stopped working, the Starry Abyss did not fall to the floor and remained levitating before Yuan.

After spending a few moments suspended in midair, the Starry Abyss finally stopped trembling.

"Try touching it, Brother Yuan." Xiao Hua suddenly said to him.

Yuan nodded and reached for the dagger.

After poking it a few times to make sure it wasn't hot, Yuan grabbed the dagger.

«Congratulations! You have been recognized by the Starry Abyss as its new Master!»

«You have obtained the title 'Soul Weapon Master'»

"I did it, Xiao Hua! It recognized me as its new Master!" Feeling some sort of connection with the dagger, Yuan said to her in excitement afterward.

Xiao Hua nodded with a smile, "The Soul Weapon definitely recognizes Brother Yuan's unlimited potential."

"How do I make it grow stronger?" he asked her.

"Soul Weapons will naturally grow strong with the Master, so as long as Brother Yuan continues growing stronger so will the Soul Weapon. Though, if you wish to make it grow faster, you can hunt monsters with the Soul Weapon so it can absorb their blood and grow stronger that way."

"But I don't know any dagger techniques besides the Thousand Knife Technique, and that's for cooking," he said.

"Even seemingly innocent and useless techniques like cooking techniques can become deadly in combat if used properly, Brother Yuan."

Yuan nodded and said, "I guess I can try using the Thousand Knife Technique with this dagger on weaker monsters when I have the time."

Meanwhile, in Lord Luo's room, a guard said to him, "Lord Luo, there has been an influx of visitors at our city ever since the Mountain Lord's invasion, and they're all Cultivators."

"What? Do you know why?" Lord Luo asked.

"We asked them for their reason for coming to our city, and a few of them said that they were here for 'Player Yuan'."

"Do they mean Daoist Yuan? But why would so many people come here just to see him?" Lord Luo pondered out loud.

"We have also asked them that question, but they did not provide us with any good reasons, saying things like they simply wanted to meet him."

Lord Luo nodded his head and said to the guard a few moments later, "Notify Daoist Yuan of the situation. Since these people came here for him, it'd be for the best to let him decide what we should do in this situation."

Sometime later, the guard explained the situation to Yuan, who was sweating by the end.

"Don't let them know that I am here! In fact, tell them that I have long left the city!" Yuan quickly said to the guard, who was slightly dumbfounded by his reaction, looking like he was on the run or something.

'It looks like Senior Yuan is more popular than we'd anticipated.' The guard thought to himself.

"Understood. We won't let them bother Senior Yuan no matter what." The guard said to him before leaving the room.

'Damn! This must be due to the announcement! Now every player in the world knows that I am in this city! I must leave this place as soon as possible!' Yuan sighed inwardly.

'However, it's too dangerous to leave now when there are so many people looking for me outside. I will leave once there are fewer people tomorrow.'

With that decided, Yuan returned to cultivating in silence to calm his mind.

Chapter 55 - Yu Rou's Evaluation

Chapter 55 - Yu Rou's Evaluation

Once Yuan realized that there were many people visiting Pang City to see him, he remained inside the Lord's Manor until it was dark outside, and after eating dinner with the Luo Family, he logged out and waited for Yu Rou to feed him once again.

"Brother, how is your progress in the game?" Yu Rou asked him as she wiped his body with a wet towel.

"Fairly good. I have made some new friends and got to eat some amazing food," he responded with a smile.

"Oh? Tell me about these new friends," she quickly asked him.

"Well, they are only NPCs, but they feel as real as Players with almost no distinctions between them."

"I have heard about that, too. Despite being NPCs, you will not be able to tell the difference between a Player and an NPC unless they start talking about our world."

"Yes, it's really shocking how realistic the world is."

Sometime later, once Yu Rou finished feeding and cleaning Yuan, she said to him, "Brother, I will be able to play with you after tomorrow. Where are you currently in the game? I will be entering the game after this and see where I start so that we can arrange a meeting once I begin playing."

"Me? I am in a place called Pang City," he responded without thinking.

"Hm? Pang City? Isn't that where the famous Player Yuan was last seen? Did you by any chance see this person?" Yu Rou asked him.

"P-Player Yuan? I have no idea..." Yuan quickly said.

"What a pity. I wanted to confirm whether the rumors are true or not," she sighed after hearing his words.

"Rumors? What kind of rumors?" Yuan asked her with his interest intrigued.

"Well, there were some players that had participated in the event at Pang City who claimed that they have seen Player Yuan with their own eyes and that 'he' is actually a 'she'." Yu Rou explained to him what she read on the internet.

"What the heck?!" Yuan cried out loud in a shocked voice. Why would anyone call him a female?

"I was shocked too when I first saw this information online. Apparently, she's a little girl who can use a very powerful technique that wiped out hundreds of monsters in the blink of an eye."

"A little girl...?"

If Yuan could feel his body right now, he would definitely be feeling the cold sweat soaking his back right now.

'How on earth did they mistake Xiao Hua as me?' he cried inwardly.

"I...I have a feeling that this information might be wrong..." Yuan suddenly said to her.

"Eh? What makes you say that?" Yu Rou asked him.

"I don't know. It's just a feeling I am getting," he responded.

"What a coincidence, Brother, as I am also getting a similar feeling." Yu Rou said.

"You seem very interested in this Player Yuan, why is that?" Yuan asked her a moment later.

"Even if you weren't interested in something at first, you will eventually become intrigued by it if you keep seeing it online constantly. Though, I am more interested in this Player's Servant more than anything."

"Servant?"

"Un." Yu Rou nodded, and she continued, "Because I personally don't like violence or fighting, I want to become a Cultivator who has servants that will fight for me, and I cannot help but wonder what a Divine-grade servant might look like. Any monster with such a high grade must be extremely powerful, right? Like a Phoenix or a Dragon."

'Actually, she's human... and a little girl at that...' Yuan responded to Yu Rou in his head.

After talking for a few minutes, mostly about what kind of servants she wants once she starts playing the game, Yu Rou said to him, "It's getting late, Brother. I am going to create my character tonight, and I will tell you where I am tomorrow morning."

"Okay. Good night, Yu Rou."

"Good night, Brother."

Yu Rou closed the lights before leaving the room.

'Since Yu Rou wants to have servants, I should ask Xiao Hua tomorrow if there are any methods to tame monsters...' Yuan thought to himself before falling asleep.

Meanwhile, inside her room, Yu Rou laid on the bed with the helmet used to play Cultivation Online on her head.

A brief moment after pressing the power button, Yu Rou could feel her consciousness slowly being transported to another place by a mysterious force.

Sometime later, when she opened her eyes, an old man with a profound gaze was already staring at her a few meters away, and they appeared to be

inside this white room.

"Hello..." Yu Rou took the initiation to speak to him.

"What is your name?" he asked her in a deep but clear voice.

"Yu Rou."

"Place your hand on this." The old man pushed a crystal ball towards her.

Yu Rou nodded and placed her hand on the crystal ball.

A few moments later, her status appeared.

Name: Yu Rou

Cultivation: None

Legacy: None

Bloodline: None

Physique: Pure Yin Physique

Physical Strength: 62

Mental Strength: 80

Soul Strength: 54

Physical Defense: 40

Mental Defense: 90

A disappointed light flickered within the old man's eyes after he saw Yu Rou's status, and he sighed inwardly, 'Another one with just above average talent, huh? Why am I so unlucky compared to that cold woman who encountered someone with the legendary Heaven Refining Physique? I am now certain that Heaven holds some kind of grudge against me.'

"Is everything okay, Senior?" Yu Rou asked him after seeing his dejected expression.

"Although you may not have amazing talents, you should be able to live a comfortable life with the Pure Yin Physique. Good luck, young lady." The old man said to her before disappearing into the cracked space behind him.

A few seconds after the old man left, Yu Rou felt her consciousness being transported to another place, and she could see a large crowd of people standing around her when she opened her eyes again.

"Welcome to the world of Cultivation, Mortals!"

A loud and clear voice resounded above Yu Rou, causing her and the other people there to look up at the sky, where a handsome middle-aged man was floating in the air and staring down at them with a smile on his face.

OceanofPDF.com

Chapter 56 - Leaving Pang City

"I am Elder Yang, and I will be giving you a brief introduction to our world before I let you explore this vast world by yourself," said the handsome middle-aged man floating in the sky.

"First and foremost, you should know about the existence of Cultivators, as we have the potential to become the most powerful beings in this world, even becoming a God. I am what you call a Cultivator, and as Cultivators, we absorb the energy of Heaven and Earth that are known as Qi or Spiritual Energy to cultivate our bodies. Once you've cultivated enough, you can do things like fly around the skies like a bird with wings or even split the seas with your fist."

"The next thing you should keep in mind is that in the cultivation world strength is all that matters. In a world where the strong eat the weak, if you do not have the power to defend yourself, you are essentially a chicken waiting to be hunted by the strong, and you can blame nobody but yourselves when that happens."

"Now that you know the basics of this world, allow me to bestow you the method of cultivation. Of course, this cultivation technique is only the most basic one out there. If you wish to obtain a stronger cultivation method, you must find it yourself in this vast world."

With a single wave of his sleeves, every player there received the skill 'Basic Qi Gathering Technique'.

"And before I send you all away, do any of you have either a Heaven-rank or Earth-rank Physique?" Elder Yang looked at the Players with an anticipating gaze.

Yu Rou looked at her own status.

«Pure Yin Physique»

«Rank: Earth»

"I have an Earth-ranked Physique called the Pure Yin Physique," she said as she raised her hand.

"Oh, the Pure Yin Physique, huh?" Elder Yang looked at Yu Rou while nodding his head with approval.

"Although it may only be Earth-ranked, the Pure Yin Physique is at the top of most Physiques at that rank, even beating some Heaven-rank Physique in terms of usefulness. As for what it does— it simply allows you to absorb Spiritual Energy or Qi that contains Yin Elements much easier than normal people. Furthermore, your body will dispose of all impurities for you, saving you the effort of needing to dispose of them by yourself. If you ever manage to reach the Higher Heaven, visit the Divine Yin Temple. They will gladly accept someone like you as their disciple, and don't forget to mention that Elder Yang from the Supreme Yang Temple referred you to them."

Yu Rou nodded at the Cultivator's words.

"Nobody else has either a Heaven-ranked or Earth-ranked Physique? What a disappointing bunch." Elder Yang shook his head in a disappointed manner before waving his sleeves again, sending the Players towards the teleporters right behind them.

"..."

Yu Rou opened her eyes again, finding herself in the middle of a busy city this time around.

"Where is this?"

Yu Rou proceeded to walk around the city for a few minutes, even asking the pedestrians about their location.

"This is the Spring City in the Eastern Continent," said one of the pedestrians.

"I see. Thank you."

Now that Yu Rou was aware of her location, she continued to explore the city and experience the beauty of this world for a few more minutes before logging off and going to sleep.

However, she did not fall asleep right away like usual, as the world of Cultivation Online had left a deep impression, filling her heart with excitement.

'I cannot wait to explore this world with Brother...' she thought to herself before falling asleep after much effort.

"..."

"..."

"..."

"Brother, are you awake?" Yu Rou entered his room early in the morning.

"Yes, I am. Did you enter the game last night?" he asked her.

"I did! And I was blown away by how amazing and realistic the world seemed! It exceeded my expectations on many levels! No wonder why it's the most popular game in the entire world right now! I almost didn't want to log off once I started playing!" Yu Rou spoke in a voice filled with excitement, sounding like a child who just went to the amusement park for the first time.

"Hahaha... So you finally understand..." Yuan said with a smile on his face.

"Anyway, after getting my character evaluated, I was given a brief explanation about the world by some Cultivator before being sent to this beginner's city called 'Spring City' in the Eastern Continent. I don't know how far away it is from Pang City, but I hope it's not too far."

"Don't worry, Yu Rou. No matter how far away you are, I will come to you. Spring City, right? I will definitely see you there."

"Un! I can't wait to play with you, Brother!" Yu Rou nodded with enthusiasm.

Sometime later, Yu Rou went to prepare for school whilst Yuan returned to the game.

"Welcome back, Brother Yuan." Xiao Hua said to him after seeing his face appear out of thin air like a ghost.

"Did anything happen while I was away?" he asked her.

"Luo Ling and Luo Li came to visit you last night, but I told them you had to go somewhere," she said to him.

"I see. Let's go talk to them now before we leave this place."

Xiao Hua nodded and followed him to meet with the Luo Family.

"Luo Li!" Yuan called out to her after seeing her figure in the hallway.

"Brother Yuan, you're back." Luo Li greeted him with a courteous bow.

"Sorry I missed you last night. I had to log off for the night."

"Don't worry about it. It wasn't anything important, anyway." Luo Li said to him with a slightly rosy face when she recalled the reason she visited him last night.

"Anyway, I was just about to call you for breakfast," she then said to him.

Yuan nodded and said, "Let's go. I need to fill my stomach before I return to my journey."

"You're leaving already?" Luo Li looked at him with a dispirited face. Although she knew that this moment would eventually come, she didn't

want to part with him so soon, as there were still many things that she wanted to do with him.

OceanofPDF.com

Chapter 57 - Teleportation Device

"Yes, I plan on leaving this place after breakfast," said Yuan after Luo Li asked about his departure.

"Is that so... I understand." Luo Li nodded before continuing, "Let's continue this conversation with everyone else."

"Okay."

Sometime later, Yuan and the Luo Family began eating breakfast.

"Where do you plan on going after this, Brother Yuan? Or are you still planning on going to the Purple Bamboo Forest for training?" Luo Ling asked him during breakfast. While they normally speak after breakfast, she didn't want to waste any more time after learning that he would be leaving soon.

"No, my plans have changed. I will be going to Spring City after this to meet up with someone. As for training at Purple Bamboo Forest... that will have to wait until a later date."

"Spring City? That's quite far away from here even if you are flying there on a sword." Lord Luo said to him.

"Really? How far is it?" Yuan asked him with a slightly anxious frown, worried that he might not be able to meet Yu Rou on time.

"Spring City is approximately 30 thousand miles from our Pang City. It will take you over 100 hours to fly there even if you flew without rest for the entire journey."

"No way..." Yuan's face immediately dropped after learning just how far away Spring City was from his current location. At this rate, Yu Rou's entire vacation will end by the time he even gets there, and he will have to wait another week before they can play together.

Seeing the desperation on Yuan's face, Luo Ming spoke out loud, "If you are in that much of a hurry to get to Spring City, why don't you use the Teleportation Device in Liang City? It's only 3,000 miles from here. Though, you will have to pay a tremendous amount of gold to use it."

"Really? I can reach Spring City in a short amount of time if I use this Teleportation Device?!" Yuan's dispirited expression immediately brightened.

"Yes, you should be able to reach Spring City before the day ends. However, it won't be cheap. After all, Teleportation Devices require a massive amount of spiritual energy to operate, and the further you need to go, the more expensive it'll cost you. 30,000 miles isn't bad at all, so the gold we gave you should be more than enough for you to use it." Luo Ming said to him.

"Thank you! I will use this Teleportation Device even if it'll cost me an arm and leg!" Yuan said to him.

"Why are you in such a hurry, Brother Yuan? Is this person you are meeting that important?" Luo Ling suddenly asked him.

"Yes, she's the most important person in my life!" He responded without hesitation.

"The most important person in your life...?" Luo Li repeated in a low voice, feeling somewhat envious of this person.

Even Xiao Hua couldn't help but look at him with her interest piqued.

"It's not an exaggeration to say if not for her, I would not be alive right now." Yuan nodded with a heartfelt expression on his face.

"Is she your lover, Brother Yuan?" Luo Ming couldn't help but ask him.

"Hahaha... of course, not." Yuan laughed at his words before saying, "She's my sister."

'Oh, it's just his sister...' The Luo Family sighed in relief after hearing his words.

"Brother Yuan's sister... what kind of person is she?" Xiao Hua suddenly asked him while staring at him intensively.

"She's a very kind individual who puts others' well-being above her own. Even though she's already busy enough with her own life, she never fails to take care of me every single day, even when she's exhausted herself, and I cannot thank her enough for her sacrifices."

"It sounds like you have a wonderful sister, Brother Yuan. I fully understand why you must leave now." Luo Li said to him with a smile.

Once the small conversation was over, they continued to eat.

Sometime later, once breakfast was finished, Lord Luo whispered to one of the servants.

The servant returned a few minutes later with a scroll in her hands and handed it to Yuan.

"That map will show you how to get to Liang City from here. Since you will be flying, it will be much easier for you, but you must pass a mountain range before you can see Liang City."

"Thank you," Yuan accepted the map.

"Allow me to walk you outside, Brother Yuan." Luo Ling stood up and said to him.

"I will come too." Luo Li also said.

A few moments later, Luo Ling suddenly embraced one of his arms close to her chest whilst Luo Li went for the other before leading him outside, making Yuan appear to be some kind of playboy with a beauty in each of his arms.

Once they were outside, Yuan was dumbfounded by the massive crowd that filled the streets.

"W-Why is there so many people here?" he was dumbfounded.

"After what happened with the Mountain Lord, our Pang City has been flooded with visitors. Many of them appeared to have come here looking for Brother Yuan, and even though we have already told them that you had long left this city, the numbers continued to grow." Luo Ling said to him.

"I see... then I can only fly out of here..." Yuan sighed.

"Goodbye, Luo Li, Luo Ling. I won't forget my experience here." He then said to them with a bright smile on his face.

"Can I hug you before you leave?" Luo Li suddenly asked him.

Yuan nodded and opened his arms without thinking too much about it.

Luo Li immediately leaped into his arms and embraced him tightly. "Come back here when you have the time, okay? I will always be waiting for you."

"I will."

After hugging him for a few moments, Luo Li released her arms and took a step back before suddenly propelling herself towards Yuan, kissing him on the cheeks.

"..."

Yuan was speechless, but he didn't mind it.

"I will see you later, Brother Yuan..." Luo Li said to him with a red face before running back into the house.

"It's my turn to say goodbye." Luo Ling also went to embrace him.

"I am going to miss you," she mumbled to him.

A few moments later, Luo Ling released him and kissed him on the other side of his cheeks, and unlike Luo Li, she did not immediately run away afterward.

"The next time you visit us, we can do something even more intimate," she winked at him in a seductive manner.

Although Yuan couldn't understand the meaning behind her words, he nodded his head regardless.

"I will see you later," he said to her.

Once Luo Ling also entered the house, Xiao Hua said to him, "Brother Yuan sure is popular with the ladies."

"Hehe..." he showed a bashful smile before speaking, "Anyway, let's head to Liang City for the Teleportation Device."

Yuan then retrieved his Spirit Sword to let Xiao Hua control it. A few moments later, the two of them soared towards the clear sky and left the city, shocking the people that saw them from below.

Chapter 58 - Liang City

After leaving Pang City, Yuan and Xiao Hua flew straight towards Liang City. However, because of Yuan's low cultivation base, they needed multiple breaks in between their journey.

"I am going to eat the Mountain Lord's monster core now," Yuan suddenly said during their third break.

A few moments later, he popped the monster core into his mouth like a piece of candy before swallowing the sweetness.

After consuming the Mountain Lord's Monster Core, Yuan could feel his exhausted energy instantly recover to the brim and more.

He then turned to look at his status screen.

Cultivation: Fifth Level Spirit Warrior

Legacy: None

Bloodline: None

Physique: Heaven Refining Physique

Physical Strength: 12,734

Mental Strength: 12,975

Soul Strength: 14,910

Qi Experience: 480,500,000/615,360,000

Fame: 80

Charm: 30

Luck: 10

Seeing these large numbers, Yuan couldn't help but wonder if it was normal for Cultivators at his level to have such high stats.

He then looked at his available skills.

Despite having so many techniques at hand, Yuan felt like he only had one or two from using the same technique over and over again. However, it was not as though there was any need for him to use the other techniques when Bloody Sword Strike is more than enough to handle most threats with ease.

"Are you okay, Brother Yuan?" Xiao Hua asked him in a worried tone after noticing that he had been staring at the empty air with a dazed face, worrying that he might have finally gone crazy from eating too many monster cores.

"Oh, I'm fine. I was just thinking about something," he said a moment later.

"Anyway, let's continue our journey now that I am full of energy again."

Xiao Hua nodded, and they returned to the sky shortly later.

"..."

"..."

"..."

"Do we need to rest again?" Xiao Hua asked him an hour later.

Yuan shook his head and spoke in a relaxed tone, "No, I am still filled with energy. I cannot believe how much stronger I got just from one level."

"The higher your cultivation, the more difference between each level." Xiao Hua said to him.

After flying for another hour, Yuan was finally beginning to feel tired, so they rested for half an hour, and they continued this routine until they reached Liang City.

"Finally... I can finally see the city!" Yuan spoke with teary eyes when he saw the tall city walls in the distance. It has been over 12 hours since they left Pang City, and the entire journey was simply mentally exhausting for someone like Yuan who has never traveled such a long distance in one go before.

Sometime later, they descended near the entrance where there was a decently long queue of people waiting to get inside the city.

However, when the guards saw how Yuan and Xiao Hua appeared out of nowhere from the skies, they immediately ignored the people in the line and rushed towards them.

"Welcome to our Liang City, Senior Cultivators. If there's anything you need, please let us assist you." The guards spoke after politely bowing to them.

"We're here for the Teleportation Device," said Yuan. "It's here, right?"

"That is correct. Our Liang City indeed has a Teleportation Device. However, it has a travel distance limit of 70,000 miles."

"That's more than enough. I only intend on traveling to Spring City, which should be around 30,000 miles away."

"I understand. Please come with me, I will lead you to the Teleportation Device."

Yuan nodded and followed one of the guards into the city while the other guards returned to assist the other people.

Sometime later, they reached the center of Liang City, where the Teleportation Device was in the middle of a crowded square street.

"That's the Teleportation Device?" Yuan raised his eyebrows in a surprised manner after seeing the large circular object that seemed to be made of some kind of metallic material. It looked like a massive round mirror but without the glass in the middle, and there was even a stage right before it.

"Is there anything else you need from me, Seniors?" The guard asked them after they arrived.

"No, this is all... Thank you for taking the time to bring us here." Yuan said to him.

"Please, you don't even need to mention it. I am merely doing my job."

The guard left a few moments later, leaving Yuan and Xiao Hua standing before the Teleportation Device.

"Where would you like to go?" An old man with a profound aura standing beside the Teleportation Device suddenly spoke to Yuan after noticing their presence.

"Spring City," he said.

"Spring City, huh. That would be 30,247 miles from here." The old man said to him.

"How much will it cost?"

"350,000 gold coins." The old man quickly responded.

'That much?!' Yuan cried inwardly. Although he had prepared himself for it, the price still shocked him greatly.

Seeing Yuan's dumbfounded expression, the old man said, "It requires an enormous amount of spiritual energy to operate the Teleportation Device; it's only natural it'll cost this much."

"Do you still want to use it?"

Yuan quickly nodded, "Yes, I do."

The old man then extended his wrinkly hands towards Yuan, signaling him for the payment.

Seeing this, Yuan sighed inwardly before taking out his storage pouch and handing the old man the money.

Chapter 59 - Xuan Family

After counting the money with his spiritual sense, the old man nodded with satisfaction and said to them, "Go ahead and step onto the stage."

Yuan and Xiao Hua proceeded to walk onto the stage and stood before the massive Teleportation Device.

The old man then walked to a stand that was only a few meters away and placed onto it a few chunks of beautiful crystal that emitted intense spiritual energy.

A few moments later, once the Teleportation Device was charged up with Spirit Qi from the crystals, the empty space before Yuan began to twist and turn, and a black portal appeared.

"You won't be directly teleported inside Spring City but a few miles out. Enter the Teleportation Device whenever you are ready but don't take too long because it will disappear in a minute."

Yuan nodded and turned to look at Xiao Hua.

"Are you ready?" He asked her.

"Whenever Brother Yuan is ready," she nodded her small head.

Yuan then extended his hand for her to hold, and Xiao Hua grabbed it without hesitation.

After taking a deep breath, Yuan took a step forward and walked into the portal while holding Xiao Hua's small hands, disappearing from Liang City.

And literally a second later, just like when he first entered the game and met Xiao Hua, Yuan found himself surrounded by trees in the middle of nowhere.

"Let's go up," Yuan said, and they soared to the sky a moment later to look for the city.

"I think it's that place over there," Yuan pointed at the city in the distance.

"Let's go."

They began flying towards the city.

«You have discovered 'Spring City'»

A few minutes later, they descended from the sky and landed in front of the city gates, and just like the guards from Pang City and Liang City, the guards at Spring City immediately approached them after seeing them descend from the Heavens.

"Welcome to our Spring City, Seniors. If you need anything, just let me know." The guard said to him.

"It's fine. We are only here to meet with someone." Yuan said to the guard.

"May I have the Seniors name so we can report to the Xuan Family of your presence?" The guard suddenly said.

"Xuan Family?" Yuan suddenly recalled Xuan Wuhan, who mentioned that her family was in this city.

"That's correct, Senior. The Xuan Family controls this city, and we were instructed to let them know if any experts arrive at our city to avoid any unnecessary trouble." The guard explained to him.

"Then do you know Xuan Wuhan?" Yuan asked him.

"The Young Lady? Are you acquainted with the Young Lady?" The guard showed a surprised face.

"Yes, she asked me to see her if I ever visit Spring City, and I have some time before my meeting. Here, she even gave me this."

Yuan showed him the medallion Xuan Wuhan gave him in Spirit City.

"That's the Xuan Family's Medallion!" The guards' eyes widened with surprise after seeing the medallion. Only those trusted by the Xuan Family would have something like that!

"Please follow me, esteemed guests! I will immediately bring you to the Xuan Family!" The guard bowed to them with respect.

"By the way, you can call me Yuan."

"Young Master Yuan!"

Meanwhile, another guard rushed to return to the Xuan Family before Yuan and Xiao Hua could arrive to alert them about their presence.

"What? Someone with my family's medallion is coming here? I don't recall anyone that goes by the name 'Yuan'." The head of the Xuan Family, Patriarch Xuan raised his eyebrows after hearing about Yuan.

"He mentioned the Young Lady's name, even claiming that she was the one who gave him the medallion," said the guard.

Patriarch Xuan nodded and said, "Bring my daughter here."

"Yes, Patriarch!"

Sometime later, Xuan Wuhan appeared before them with a messy appearance, looking like she'd just gotten out of bed.

"What's the matter, father? I was having a nice dream, you know?" she asked him with a tired expression.

"Do you know someone by the name of 'Yuan'?" Patriarch Xuan immediately asked her.

"How do you know about Daoist Yuan, father?" Xuan Wuhan's face immediately became energetic after hearing Yuan's name, and she looked at him with a surprised face.

"So you are acquainted with him?"

"Yes, I met him at Spirit City and the auction house there. Although I don't know his background, he's definitely not an ordinary individual, especially the little girl who follows him around. I have a feeling that she's a real expert like Grandpa."

"A Spirit Master like my father, huh? That's very likely, as the guards saw her flying with their own eyes."

"Wait a moment! They were here? In our city?!" Xuan Wuhan quickly asked him.

"Yes, and they are heading here as we speak."

"Why didn't you tell me that from the beginning! I am not ready to receive any guests, and I have already wasted plenty of time here!"

"Then you'd best hurry up and fix your appearance before they arrive." Patriarch Xuan shook his head at her. While Xuan Wuhan is known for being a hard worker by the people outside, she was the complete opposite at home, being a lazy girl who spends most of her time sleeping.

"I will be right back!" Xuan Wuhan said before she ran towards the bathroom.

Meanwhile, Yuan and Xiao Hua had just arrived at the Xuan Family's household.

"Heavens... This place is even bigger than the Luo Family's manor in Pang City. It's almost like comparing a small hut to a massive mansion!" Yuan spoke with a dazed look on his face as he stood right outside their building. It's no wonder why Xuan Wuhan was treated like a V.I.P at the auction house.

"The Xuan Family has already been notified of your arrival, esteemed guests."

Just as the guard finished his sentence, the door opened, and a handsome and tall middle-aged man with a profound aura walked out of the building and stared at Yuan with a sharp gaze.

'Fifth Level Spirit Warrior?! How old is this young man? He doesn't look any older than my daughter!' Patriarch Xuan was filled with surprise after seeing his cultivation base and young appearance.

However, what shocked him the most was Xiao Hua's formidable presence, who was naturally emitting a profound aura, yet he could not see the full extent of her cultivation base despite being a Spirit Master himself.

'A real expert! She's a real expert!' he cried inwardly.

Chapter 60 - What The Heck Happened To You?!

"You must be Daoist Yuan. I am the Patriarch of the Xuan Family and Xuan Wuhan's father, Xuan Chao. Thank you for taking the time to visit our humble family." Patriarch Xuan clasped his hands together and bowed to them respectfully with a friendly smile on his face.

"Thank you for having me." Yuan followed his movements and returned the bow.

"Please, come inside."

Yuan and Xiao Hua then followed him into the massive building.

"Welcome, Esteemed Guests."

Two rows of servants standing parallel to each other bowed to them in unison as they entered the house.

Once they were in the guest room, the servants served them tea, and Patriarch Xuan spoke as Yuan held the teacup, "I have heard about you from my daughter, Daoist Yuan, and I must say, you are as talented as... No, you have exceeded my expectations. Reaching the Fifth Level Spirit Warrior realm at such a young age, I can only imagine how talented your Master must be."

"And I cannot help but ask, just how old are you this year?" Patriarch Xuan looked at him with clear eyes filled with interest.

"I turned 18 three months ago," Yuan responded casually.

"E-E-Eighteen?!" Patriarch Xuan exclaimed, nearly standing up from shock. Although Yuan looked young, he did not really expect him to be such a young man since appearance is the most deceptive part about Cultivators with Xiao Hua as the perfect example.

"Unbelievable... I thought you were near my daughter's age, maybe even slightly older, but alas, to think you were actually younger than her by 3 years!" Patriarch Xuan praised him without feeling any shame, even feeling a little envious of his talent.

And while he wanted to ask Yuan about his background, Patriarch Xuan did not want to appear too inquisitive on their first meeting.

It was at this moment the door to the room opened, and a beautiful young lady wearing subtle yet striking makeup entered the room.

Yuan turned around to look at Xuan Wuhan and smiled upon seeing her, "Hello, Xuan Wuhan. I have come to visit you."

"Daoist Yuan! Thank you for— What the heck happened to you?!"

Xuan Wuhan suddenly exclaimed in a shocked tone midway through her sentence, dumbfounding Yuan and Patriarch Xuan.

"Eh?" Yuan watched with wide eyes as Xuan Wuhan ran towards him in an aggressive manner.

"How are you already at the Fifth Level Spirit Warrior realm?! The last time I saw you, you were only at the first level! And that was only a few days ago!" she looked at him with a gawking face.

"What!?" Patriarch Xuan stood up from shock after hearing his daughter's baffling words. Not even a cultivating monster can improve their cultivation so quickly! Just what kind of background does Yuan have?

"W-Well... A few things have occurred since the auction house..." Yuan said with a weird smile on his face.

"You must've had quite the fortunate encounter to raise your cultivation so quickly. How envious. I also want a fortunate encounter..." Xuan Wuhan sighed loudly.

"I wouldn't call them fortunate events, though..." Yuan shook his head with a bitter smile.

"Anyway, what brings you to Spring City? Don't tell me you are here just to see me?" she asked him with flickering eyes.

"I'm meeting with my sister here," Yuan calmly responded.

"Oh..." Xuan Wuhan mumbled, feeling somewhat disappointed.

"Then how long do you plan on staying here?" she asked a moment later.

"I'm not sure, but it probably won't be long," he said.

"Do you have a place to stay? If not, you can stay here for the time being. We have plenty of guest rooms."

"That probably won't be necessary, since I will be meeting with my sister in a few hours. Thank you for the offering, though."

"Don't worry. If you ever need a place to stay, you know where to go," she said to him.

"What about dinner? It's being prepared right now," Patriarch Xuan suddenly said.

"I can stay for that." Yuan nodded.

While they waited for dinner to be ready, Xuan Wuhan asked Yuan about his activities after they separated from the auction house.

Yuan then told them about his encounter with the Demonic Spider and the Mountain Lord at Pang City.

Both Xuan Wuhan and Patriarch Xuan listened to his adventure with dropping jaws. How can so much happen in just a few days? Furthermore, it doesn't explain how he managed to improve his cultivation base so quickly.

"You said that you don't belong to any sect, right? Do you intend on joining one in the future?" Xuan Wuhan asked him afterward.

"I honestly don't know. I haven't seen enough of this world yet to want to stay in one place for an extended amount of time," he said.

"If that is your only concern then I don't think you need to worry because only the newer disciples have their movements and activities limited to within the Sect, mostly for their own safety." Xuan Wuhan said, and she continued, "Inner Disciples and Core Disciples such as myself have plenty of freedom. In fact, most of us spend more time outside than inside the sect."

"Take me for example. I belong to a sect, yet I spend more time outside than at the sect. As long as I don't slack and continue to progress my cultivation, they won't restrict my movements."

"And with your talents and your current cultivation, it's almost guaranteed that you will become a Core Disciple the instant you join a sect. If you are still worried, then you can join my sect. My grandfather is an Elder at the sect, and with his backing, even the Sect Leader will have to think twice before doing anything to you."

Hearing her words, Yuan nodded and said, "I will think about it."

Although he wasn't interested in Sects at first, if he wants to have a better understanding of Cultivators, he should live around them for some time. And since Xuan Wuhan has reassured him that he won't have his freedom limited, it seemed like the perfect time to join one.

However, because he still needed his sister's opinion on this matter, he won't make any decisions for now.

Chapter 61 - Meeting With Yu Rou

"Take as long as you need to think about it. Although it's very common for Cultivators to join a Sect, it's not something you should take lightly, as it will more likely than not affect the rest of your life." Xuan Wuhan said to him.

"And if you ever decide to join a Sect, come to the Dragon Essence Temple. It's one of the top Sects in the world and also where I am currently. They'll treat you nicely—I can guarantee you that."

Yuan nodded, "I will keep that in mind."

Sometime later, once dinner was ready, Xiao Hua asked Yuan after they were seated at the dining table, "Are you going to be okay with so little food, Brother Yuan?"

Because the Xuan Family is not aware of Yuan's eating habits, she was worried that the food might not even fill the gap between his teeth.

"Although it won't be enough to fill my stomach, I don't need a full stomach every time I eat something," he said a moment later.

Xiao Hua no longer said anything and they began eating shortly later.

Many minutes later, after dinner, Yuan said to the Xuan Family, "Thank you for the wonderful dinner. I have to go now."

"You're leaving already? It's already dark outside." Xuan Wuhan said to him, seemingly reluctant to see him leave so quickly.

"I would like to stay for longer, but my sister should be arriving soon, and I have promised her that I won't make her wait for long."

"Is that so..." Xuan Wuhan nodded and said, "Then promise me that you'll come to visit me again in the future."

She then extended her hand to him like she was asking for a handshake.

Yuan did not hesitate to shake her hands and said, "I promise."

Once Yuan and Xiao Hua left the building a few moments later, Patriarch Xuan said to her, "You really like him, huh? I have never seen you act so friendly towards another man before."

"Even though he's extremely talented and powerful, it isn't obvious at glance, and that doesn't change even after you speak with him. He's a very kind and humble individual despite his status— completely opposite of the arrogant geniuses that I am used to seeing on a daily basis. It's a refreshing feeling." Xuan Wuhan said with a gentle smile on her face.

"I cannot argue with that. Talented Cultivators like him are very rare nowadays. They are usually filled with arrogance, and the more talented they are the worse their character. It only makes one wonder what kind of background he's from." Patriarch Xuan nodded in an approving manner.

"Why don't you go talk to your grandfather? Let him know about the situation and see if he can convince Daoist Yuan to join the Sect." He suddenly suggested.

However, Xuan Wuhan shook her head and said, "I will let grandpa know about his existence, but I won't tell him to convince Daoist Yuan. We can't look desperate, after all."

Meanwhile, outside the building, Yuan said to Xiao Hua, "I am going to log off for now."

"See you later, Brother Yuan." Xiao Hua said to him before disappearing into the necklace.

A few moments later, Yuan left the cultivation world and proceeded to wait for Yu Rou to return in the real world.

"Brother! I am back! I can finally play with you tomorrow!" Yu Rou's excited voice resounded outside his room, and Yuan could hear the sound of her running in the hallway.

"Welcome back, Yu Rou," Yuan said to her with a smile on his face after she entered his room a moment later.

"Un! Let me change out of my school uniform and prepare dinner for you first! I will be right back!" Yu Rou said to him, and she ran outside before Yuan could even tell her to calm down.

About half an hour later, Yu Rou returned to his room with all of the necessities on a small cart.

"How was your day, Brother? Do you think you'll be able to make it to Spring City by tomorrow morning?" Yu Rou asked him as she wiped his skinny body with a warm wet towel.

"You have underestimated me, Yu Rou. I am already in Spring City." Yuan responded with a smile.

"Really? I bet you were already close to it." Yu Rou said, completely unaware that he'd traveled over 30,000 miles and spent 350,000 gold coins just to get there.

"You have no idea..." Yuan said.

"And what do you mean tomorrow morning? Can you not play tonight?"

"I would love to play tonight, but I have piano practice at home early tomorrow morning, so I have to sleep right after this," she said as she changed the wet towel and wiped his body for the second time.

"I see... then I will also sleep early tonight to make time pass by faster," Yuan said.

After cleaning and feeding Yuan, Yu Rou went to shower and eat her own dinner before going to sleep, not even bothering to spend a few minutes on the internet as usual.

The following morning, Yu Rou woke up early and spent 2 hours with piano practice before returning to Yuan's room to wash his face and feed him breakfast.

"Let's meet at the front of the city by the entrance," Yu Rou said to Yuan as she wiped his lips after breakfast.

"Sounds good. I will see you there." Yuan said.

A few minutes later, Yuan entered the game while Yu Rou returned to her own room.

"Xiao Hua, let's go. We're going to meet my sister now."

"Un." Xiao Hua nodded her head, feeling slightly nervous for some reason.

"By the way, can you do me a favor?" Yuan suddenly asked her as they walked to the front of the city.

"What is it, Brother Yuan?" she looked at him.

"Can you not call me 'Yuan' when we are with my sister? I'd like to surprise her later," he said.

Xiao Hua tilted her head with a puzzled expression on her face after hearing his words.

"It's a bit complicated, but my real name is not really Yuan... I mean, it is, but it isn't at the same time," he revealed to her.

Chapter 62 - Yu Tian

"Then what should Xiao Hua call Brother Yuan?" she asked him.

"Tian... Yu Tian, that is my real name," Yuan said to her.

"Xiao Hua understands, Brother Tian," she nodded her head.

"Thank you, Xiao Hua."

Yuan and Xiao Hua continued to approach the city's entrance.

Many minutes later, they arrived at the city gate, and to their surprise, there was a small crowd gathered there and looking like they were surrounding something, and they were all young men.

"Fairy lady, what is your name? I am Bai Chen from the Heavenly Tiger Academy..."

"Forget about him, young fairy. My father is an Elder at the prestigious Nine Crane Sect!"

"Why are you standing here by yourself, young lady? Are you waiting for someone? Why don't you come with me instead—"

A clear and delightful-sounding voice suddenly interrupted these young men, "I am sorry, but I have no interest in accompanying any of you, and I already have a schedule with someone else."

"Are you saying this person you are waiting for is more important than me, Yin Zhou, Inner Disciple of the mighty Jade Fist Mountain!?" An arrogant voice resounded afterward.

"That's right." The feminine voice responded, sounding as calm as a still pond, "This person is more important to me than anything else in the world."

"This voice belongs to..." Yuan could instantly recognize this beautiful voice even if she mumbled a single word with a thousand people talking loudly around her.

"The audacity! I don't care if you have a pretty face, but how dare you slap my face before my fellow disciples—"

"Yu Rou!" Yuan shouted her name as he approached the crowd.

"Brother...?" Yu Rou's eyes flickered brightly after hearing his voice. Although it sounded clearer and more energetic than usual, she would never mistake his voice for another's.

"Who the hell are you?" The crowd around Yu Rou immediately turned their attention to Yuan with frowns, who wore a calm on his face.

"Oh? Are you perhaps the person she's waiting for— the person that's more important than me? Then you have exactly three seconds to turn around and leave before I—"

Before the man could even finish his sentence, Yuan took a step forward and swung his sword at a speed that could not be followed with one's eyes, stopping directly before the man's neck.

"I don't care who you are— You have three seconds to leave her alone before I send you to hell," Yuan spoke in a cold and demanding voice, his gaze filled with a dreadful feeling that threatened to destroy anything that dares to disobey his command.

Feeling the cold blade pressing against his neck, the man named Yin Zhou didn't even dare to swallow.

'This young man is in the fifth level Spirit Warrior realm! He's definitely a genius disciple from a renowned sect! I cannot mess with him!' Yin Zhou

cried inwardly after sensing the powerful aura emitting from Yuan's body.

"T-There must have been a misunderstanding, Young Master... I will immediately leave..."

Once the disciples from the Jade Fist Mountain left, the others also left in silence, not daring to offend this mysterious expert that came out of nowhere.

'Brother Yuan...' Xiao Hua was dumbfounded by the fierceness shown by Yuan just now, as this is her first time seeing him emit killing intent towards another human being. In fact, she didn't even know he could be this domineering.

When the path between the siblings was cleared and Yu Rou could finally see the tall and handsome young man that stood not too far away from her, she covered her mouth from shock, and her eyes flickered with many emotions simultaneously, causing it to become teary.

"You are taller than I'd anticipated, Yu Rou..." Yuan spoke with a warm smile on his face, his gaze at the beautiful young lady before him.

"Brother Tian... You... I..." Yu Rou was speechless. Even though she'd prepared in advance what she wanted to say to him, after seeing her brother who had been crippled for nearly his entire life standing and looking completely healthy, she was simply at a loss for words.

"What's wrong, Yu Rou? Why aren't you saying anything? Cat's got your tongue?" Yuan said to her after waiting long enough.

"Brother Tian! Waaaa!"

In response to his words, Yu Rou lunged herself at him with her arms wide open while crying out loud, "I cannot believe it... you... you look even better than I'd imagined you would if you were healthy!"

Yuan immediately opened his arms to catch her in his embrace before hugging her tightly, something he has been wanting to do for many years

but was not physically capable of. However, with Cultivation Online's 100% immersive system, it finally allowed Yuan to feel Yu Rou's warmth, and it allowed Yu Rou's dream to witness Yuan being healthy again to come true.

And albeit they were only inside a game and not in the real world, it still meant a great deal to them.

"Yes... you also look a lot different than I'd imagined," Yuan said to her.

A few minutes later, once Yu Rou cried enough and calmed down, Yuan said to her, "Let me introduce you to my little friend who has been with me since the beginning and helped me a great deal since then. It wouldn't be an exaggeration to say that if not for her, I wouldn't be here right now. I have said this before but she's like another little sister to me now."

"..."

Yu Rou turned to look at the pretty young girl standing behind Yuan.

'What a pretty girl! She looks just like a doll!' Yu Rou was surprised by Xiao Hua's doll-like appearance. There's no doubt that Xiao Hua would grow up to be a very beautiful woman.

"Nice to meet you, Brother Tian's sister. Xiao Hua is Xiao Hua," she introduced herself a moment later.

"She's an NPC, right? Why is she talking in third-person?" Yu Rou asked Yuan.

"Is that weird? I find it very cute," Yuan said.

"Cute..." Yu Rou looked at him with slightly narrowed eyes.

"Anyways, I am called Yu Rou. Since Brother Tian treats you like a little sister, let's try to get along, okay?" Yu Rou extended her hands towards Xiao Hua for a handshake.

Xiao Hua nodded and shook her hands, yet there was this fierce atmosphere between the two of them, almost like they were standing on an invisible battlefield.

Chapter 63 - Cultivators“ Haven

After shaking hands with Xiao Hua, Yu Rou turned to look at Yuan's handsome appearance some more, almost as though she was trying to engrave his image into her soul.

"Anyway, now that we are together, what do you want to do, Yu Rou?" Yuan asked her a moment later.

"I haven't really thought about it, but I would like to raise my cultivation a little bit first. I don't want to be a burden, after all."

"You don't have to worry about that since I will never see you as a burden. In fact, I would like you to rely on me, as I can only do something for you in this world." Yuan said to her.

"Thank you, Brother..." she nodded.

"Xiao Hua, are there any quiet places we can go so she can cultivate peacefully?" Yuan then asked her.

"We can rent a cultivation room," she quickly said. "They are made specifically for these kinds of situations where Cultivators need a place to cultivate in peace but do not have a place of their own."

"A cultivation room...? That sounds very interesting," Yu Rou said. "Where can we find one?"

"There are at least one in every city, so there should be one here too."

"Let's ask around." Yuan suggested.

A few minutes later, after speaking with some of the pedestrians, they learned of a place called 'Cultivators' Haven' that was only a few blocks away, so they began making their way towards that place.

Sometime later, they stood before a large and tall building that had over twenty floors, resembling a pagoda.

Once they entered the building, one of the receptionists there noticed them and immediately waved her hands at them.

"Welcome to Cultivators' Haven! How may I assist you?" The beautiful lady asked them once they approached her.

"Hello, we would like to rent a room for cultivation." Yuan responded.

The receptionist looked at them and asked, "One room for each of you or just one room?"

"One room is fine," he said.

"Then how long would you like to rent the room for?"

Yuan turned to look at Yu Rou and asked her, "How long?"

"I don't want to spend too much time on cultivation when I am with you so a few hours is enough," Yu Rou said.

Yuan nodded and returned to the receptionist, "Four hours is enough."

However, the receptionist responded with an apologetic expression, "I'm sorry, but we cannot rent the room for less than 24 hours at a time. Though, you can leave at any time you want."

"Okay, then we'll do 24 hours." Yuan nodded.

"Thank you. Now as for the room itself, which floor would you like a room in?"

"What's the difference?" Yuan asked.

"We have a total of 21 rooms available in our Cultivators' Haven, and the higher floor you go, the more effective your cultivation will be since we have placed special arrays to improve the quality of Spirit Qi in that room. Of course, it all comes at a higher cost."

"The rooms on floors 1 to 9 will have normal-quality Spirit Qi whilst floors 10-20 will have higher quality Spirit Qi— about a 30% improvement compared to cultivating outside normally and the rooms on floors 1 to 9. As for the rooms at the peak of the building— the 21st floor, it's about a 50% improvement. There are only three rooms available on that floor, and two of them are already occupied."

"Which floor would you like a room on?" The receptionist asked him after explaining their structure to him.

"I want the room on the 21st floor," Yuan responded without hesitation, as he only wanted the best for Yu Rou and would not accept anything less than the best.

"A-Are you sure, esteemed guest? It'll cost 1,000 gold coins to use the 21st-floor rooms for 24 hours, and you'll only be using it for a few hours..." The receptionist seemed slightly taken aback.

"1,000 gold coins!?" Yu Rou's eyes widened with shock, and she quickly tugged at Yuan's sleeves. "Brother, you don't have to spend so much money on me! We'll only be here for a few hours!"

However, Yuan shook his head with a resolute expression on his face, "Nonsense. This is the only way I can repay you for your sacrifices in the real world, and I am not going to be humble about it! I will pay for the room even if it costs 100,000 gold coins!"

Yuan quickly placed the money on the counter before Yu Rou could further persuade him and repeated, "I want a room on the 21st floor for 24 hours!"

"Right away, esteemed guest." The receptionist accepted the money with a bright smile on her face, as this would reflect positively on her position as someone who managed to rent out such an expensive room.

"Aiya... Brother... to think you'd really spend 1,000 gold coins without blinking an eye. How on earth did you obtain such wealth, anyway? Most players have at most a few dozen gold coins after grinding for days, and even the richest players out there that spend real money on the game wouldn't dare to spend so lavishly." Yu Rou sighed loudly, shocked speechless by Yuan's unhealthy spending habit.

Alas, if only she knew that he'd spent 350,000 gold coins just to meet her. One could only imagine the face she'd make then.

"If you don't mind me asking for your name, esteemed guest..."

"Yua— Yu Tian..." Yuan stuttered.

"Young Master Yu Tian, right? Please give me a moment to bring you the key."

A few moments later, the receptionist returned with a circular medallion that appeared to be made from some sort of jade or crystal and handed it to Yuan.

"The time will start from the moment you open the door with the key, and once the 24 hours is up, the room will block all Spirit Qi from entering the room." The receptionist explained to him afterward.

"I see. Thank you." Yuan said to her before walking up the stairs with the group.

Chapter 64 - Xiao Hua's Mission

Chapter 64 - Xiao Hua's Mission

After walking up 20 flights of stairs, Yuan and his small group finally reached the 21st floor. On this floor, there existed only three doors made of stone that were eventually distanced from each other and a stone tablet right beside each door. Two of the three stone tablets already had a key inserted into the hole, signaling that it was already occupied.

Therefore, Yuan and the others walked to the stone tablet that had an empty keyhole.

After inserting the key into the keyhole, the stone door began to tremble before it started opening. However, it was unlike any normal door, and it opened by levitating off the ground.

Once they walked into the empty room, the stone door closed itself, sealing them inside.

A few moments later, the empty room began filling with rich and dense spiritual energy, and a large drawing resembling a magic circle appeared on the floor that spread throughout the entire room.

"Wow, this feels entirely different from the Spirit Qi from the outside," Yuan expressed his surprise after feeling the spiritual energy in the room.

"There's a special array in the room that attracts Spirit Qi and increases its quality." Xiao Hua explained to him.

"Array? What is that?" Yuan continued to ask her.

"Arrays are also known as formations and they are techniques with an area of effect created by Array Masters, and anything inside that formation will have to obey the law set by the formation master within the array. For

example, if one were to set a movement restriction array inside this room, we would have our movements restricted in some way until we leave this room."

"I see... So that's what these weird symbols on the floor are..." Yuan said as he looked at the massive magic circle on the floor.

"Arrays circles usually reveal themselves after activation, hence why they are often used as traps by Array Masters," Xiao Hua said to him.

"Anyway, I am going to start cultivating now." Yu Rou suddenly said as she sat down in the middle of the room in the lotus position.

A few moments later, her breathing calmed down and became somewhat rhythmic.

«You have cultivated for the first time, unlocking Qi Experience»

A notification appeared before her as she absorbed her first Qi.

«Due to Qi Gathering Array, your Qi absorption rate has increased slightly»

1/5,000

3/5,000

4/5,000

6/5,000

7/5,000

9/5,000

While Yu Rou cultivated in silence, Yuan mumbled to Xiao Hua in a low voice to not distract Yu Rou.

"Xiao Hua, do you think you can let my sister learn the Divine-grade technique, too?" he asked her.

However, Xiao Hua quickly shook her head and said, "Because Xiao Hua is not from the Lower Heaven, Xiao Hua cannot help those in the Lower Heaven, or she will be punished by the Heavens."

"Huh? Then why are you helping me?" Yuan looked at her with a baffled face.

"Because Xiao Hua has chosen Brother Yu— Brother Tian to assist her with the Supreme Heaven's Legacy, and Xiao Hua can only help those who are participating in the Legacy."

"I have heard this before, but what exactly is the Supreme Heaven's Legacy?"

"The Supreme Heaven's Legacy is a mission given to Xiao Hua by the Heavens that she must fulfill, and Xiao Hua's mission is to find someone who can climb the Stairway to Heaven and reach the Supreme Heaven."

"Why are you burdened with this mission? And what happens if you fail?" Yuan raised his eyebrows in a puzzled manner, feeling more confused than in the beginning.

However, Xiao Hua did not immediately respond to him, even looking hesitant on speaking, almost like she was afraid of something.

"If you don't want to tell me now, you don't have to. Tell me whenever you feel ready, I'll always be willing to listen," Yuan said to her a moment later.

"Thank you, Brother Tian..." she nodded with a relieved look on her face.

"Then can you tell me about this Stairway to Heavens?" he continued to ask.

"Yes. The Stairway to Heaven is a path that will lead one to a higher realm if they manage to pass the challenges on that path."

"Oh, I remember you saying something about defeating the Realm Guardian before we can ascend to a higher realm." Yuan suddenly recalled his conversation with her around the time he defeated the Jade Frog.

Xiao Hua nodded and continued, "There are multiple Stairway to Heaven in this world, and there is a Realm Guardian at the end of every stairway before one can ascend to the next realm."

"Then where is this Stairway to Heaven? I would like to see it."

"Brother Tian is still too weak to challenge the Stairway to Heaven— he'll only die if he went right now," Xiao Hua spoke to him with a serious expression on her face.

"At what level should I challenge it, then?"

"Spirit Grandmaster... that's the lowest requirement for climbing the Stairway to Heaven even if you are a genius," she quickly replied.

"Spirit Grandmaster... that's quite far away..." Yuan sighed.

"With Brother Tian's talent, he'll reach Spirit Grandmaster in no time," Xiao Hua spoke in a confident voice.

About an hour later, Yu Rou opened her eyes and spoke in an excited voice, "Brother! I have entered the First Level Spirit Apprentice and became a Cultivator!"

«You have succeeded in breaking through your mortal shackles, becoming a Spirit Apprentice!»

«All stats +50»

"Congratulations, Yu Rou," Yuan said to her with a smile on his face.

"Un! I am going to cultivate some more before we start our adventure! Please be patient with me just a little longer, Brother Tian!" she said.

"Take as long as you need, I won't complain no matter how long you make me wait..." Yuan said with a bittersweet smile on his face.

If Yu Rou has the patience to take care of him nearly every day for the past five years without uttering a single complaint, he definitely won't complain

about a few mere hours.

Chapter 65 - Spoiling Yu Rou

After spending another hour inside the cultivation room, Yu Rou entered the second level Spirit Apprentice realm.

«You have absorbed enough Qi for a breakthrough»

«You have reached Second Level Spirit Apprentice»

«All stats +75»

Two more hours later, she entered the third level Spirit Apprentice.

«You have absorbed enough Qi for a breakthrough»

«You have reached Third Level Spirit Apprentice»

«All stats +100»

"Brother, I have cultivated enough, let's do something else." Yu Rou said to him afterward.

"Are you sure? You can cultivate some more if you want," he said to her.

"Honestly, I want to continue cultivating because I don't want to waste the 1,000 gold coins you'd spent to rent this room, but I also don't want to waste time cultivating here..." Yu Rou sighed with a perplexed expression on her face.

"I'm telling you, it's only 1,000 gold coins. I can earn that much by killing a few monsters and selling their monster cores," he said to her.

"Really? You can earn that much money from fighting monsters?" Yu Rou looked at him with suspicious eyes. If one could earn money using that method, wouldn't everyone be rich with gold coins by now?

"Of course." Yuan nodded.

"Anyway, if you want to leave, let's go buy you some equipment. We cannot have you leaving the city barehanded," he said to her.

Yu Rou nodded and followed Yuan outside the room. But before they could leave, they had to pull a lever next to the door so that it would open.

After leaving the room, Yuan took the key from the stone tablet and walked downstairs with the others.

"There are still 20 hours left. Give it to the next person that comes here." Yuan said as he handed the dumbfounded receptionist the key.

"Esteemed guest! You can simply keep this key with you and use it the next you come to our Cultivators' Haven. Furthermore, we have many branches across the Eastern Continent, and as long as you have this key, you can rent a room in any of the other branches." The receptionist explained to him.

"Really?" Yuan raised his eyebrows, "Then I'll give it to my little sister here. She can use it in the future."

Since he can cultivate by consuming monster cores, he didn't need to use niche places like the Cultivators' Haven to improve his cultivation.

"I would also like to spend 30,000 gold coins to buy more time in case she needs it in the future," Yuan said as he handed the money to the surprised receptionist.

"R-Right away, esteemed guest!" The receptionist quickly accepted the money and ran to the back.

"Brother!!!" Yu Rou suddenly called out to him.

"What?" He turned to look at her with an innocent-looking face.

"30,000 gold coins!? Even if you have that much money, you shouldn't have spent it on me!" she quickly lectured him.

30,000 gold coins were worth about 300,000 dollars in the real world— it was a massive fortune to spend on anything, much less renting out some cultivation room.

"Trust me, Yu Rou. It's only 30,000 gold coins. Your brother has plenty left. And it's a good investment in case we cannot play together and you want to improve your cultivation in a safe environment. Although it may seem overboard, you are already behind the majority of the players in terms of cultivation, and this will help you catch up even if it's only a little."

"..." Yu Rou was speechless, mostly because what Yuan said made sense. There will definitely be days where they won't be able to play with each other, and if she wants to improve cultivation during such days, she can simply go to the Cultivators' Haven and cultivate safely and peacefully, as she didn't like fighting or shedding blood.

A few minutes later, the receptionist returned with a new key and handed it to Yuan, "Esteemed guest, there is 40 days worth of time in this key. Please keep it safe."

"Huh? 40 days?" Yuan raised his eyebrows, as the math didn't add up.

"Yes, we have decided to give you 10 days as a bonus for doing business with us." The receptionist said with a smile on her face.

«Cultivators' Haven has been added to your Associations!»

«Your relationship with Cultivators' Haven has slightly increased from doing business with them!»

"I see... Thank you..." Yuan accepted the new key before giving it to Yu Rou.

"Thank you, Brother..." She accepted the key.

"Oh, I happen to have an extra storage pouch here. You can take this and keep your items inside." Yuan said as he handed her a storage pouch. Since he also has a spatial ring, he didn't need a storage pouch.

"You also have a storage pouch? Just how on earth did you obtain such a rare treasure? Only a handful of players have a storage pouch, and they are all top players!" Yu Rou looked at him with wide eyes. Did he really just play around this entire time? There was simply no way that a casual player would have so much money at this point of the game, much less a storage pouch. Just what on earth has he been doing in this game?

"Ah, it was given to me as a gift," Yuan said.

"A gift!? Whoever gave you this must be incredibly rich and generous." Yu Rou sighed in admiration.

"Anyway, let's find a store and get you some equipment," Yuan said a moment later.

"I feel bad for making you waste so much money on me, Brother... You are spoiling me too much."

"I am only getting started," he responded with a proud expression, feeling refreshed that he can finally be of help to Yu Rou. "In fact, I am going to spoil you until I am satisfied!"

Yu Rou merely shook her head and spoke with a bittersweet smile, "Although I am grateful, don't blame me when you are out of money..."

"I can simply hunt a few monsters and sell their monster core at that time!" He said with a bright smile on his face, and they began walking around Spring City in search of an equipment store.

Chapter 66 - Spirit Weaver

After walking around the city for some time, Yuan and the others finally decided on an equipment store that was named 'Spring City's Spiritual Treasures'.

Once they entered the store, the middle-aged man behind the counter shouted: "Welcome to our equipment store! What kind of equipment are the young ones looking for?"

"Hmm... What kind of weapon do you want to use?" Yuan asked her.

"I'm not sure, but something light and small is preferred," she said.

"Something light and small, huh?" The middle-aged man began to ponder for a moment before speaking, "We have daggers, throwing knives, and fans. Which of these suit the young lady's taste more?"

"Fans? They are considered as weapons?" Yuan was surprised, as this is his first time hearing such a thing.

"Of course! Anything can be a weapon in the hands of a Cultivator! However, fans are not commonly used due to their fragile appearance and weak presence, and most people prefer something that looks strong or cool — something like a sword." The middle-aged man explained to him.

"Can I look at the fans?" Yu Rou then asked.

"Sure thing! These are the best fans we have in store at the moment!"

The middle-aged man then retrieved a long wooden box from the room behind and placed it on the counter.

Upon opening the box, three beautiful fans that seemed to be made of special materials were revealed to Yu Rou.

"Wow... It's beautiful..." Yu Rou quickly became fond of these fans.

However, her excitement disappeared as quickly after seeing the prices for these fans.

«Jade Fan»

«Grade: Spirit»

«Quality: High»

«Physical Strength Required: 100»

«Mental Strength Required: 250»

«Price: 60,000 Gold»

«Red Metal Fan»

«Quality: High»

«Physical Strength Required: 170»

«Mental Strength Required: 300»

«Price: 75,000 Gold»

«Spirit Weaver»

«Quality: Peak»

«Physical Strength Required: 50»

«Mental Strength Required: 300»

«Price: 200,000 Gold»

"Do you have something less expensive...? A common fan is fine, too..." Yu Rou said to the middle-aged man while sighing inwardly. There was simply no way that she could shamelessly ask her brother to buy something so expensive for her after he'd already wasted 30,000 gold on her.

"If you want something normal, you can find them on the shelves over there. Most of them are less than 5 gold coins." The middle-aged man spoke as he pointed at the wooden shelves by the window.

However, Yuan suddenly spoke as the middle-aged man prepared to close the wooden box, "Wait, I will buy the Spirit Weaver."

"Eh?"

The middle-aged man immediately stopped his movements to look at Yuan, as did Yu Rou, who stared at him with a gawking expression on her face.

"Don't look at me like that, Yu Rou. I know you want it since you were staring so intensively at it." Yuan said to her with a smile as he paid the shopkeeper.

"E-Even if I want it, you can't spend 200,000 gold just like that! Just how much money do you have, Brother!?" she said to him, wondering if he'd taken out a loan from somewhere shady.

"I have enough..." he said with a smile.

"Thank you for the purchase, Young Master!" The middle-aged man changed the way he addressed Yuan, even speaking in a more respectful voice.

After counting the money, the middle-aged man handed the beautiful white fan to him and said, "The reason this one is more expensive than the others is not only because of its peak-quality but because this treasure was born naturally, and naturally born treasures are naturally more expensive than man-made treasures."

After accepting the white fan, Yuan extended his arms at Yu Rou and said to her, "Money is meant to be spent or else it isn't worth anything, Yu Rou. Furthermore, this is only a game. Accept it."

"While that is true, you still shouldn't spend so lavishly. Who do you think you are? Player Yuan, the richest player in the game?" Yu Rou shook her head with a defeated smile on her face.

"..."

The smile on Yuan's face immediately stiffened after hearing her words, and he didn't dare to respond to her question, fearing that he might reveal his identity sooner than he'd planned.

A few moments later, Yu Rou looked at the Spirit Waver with sparkling eyes. "This fan is truly beautiful! While I still want to fight using servants in the future, I definitely won't stop using this fan, either!"

Hearing Yu Rou's words, the shopkeeper suddenly said, "If you want servants, you can simply go to the Beast Contract shop that's down the street. You can find all sorts of beasts there."

"Really?! Let's go take a look, brother!" Yu Rou quickly said to him.

"Okay," he nodded.

They left the equipment store shortly later and then went straight to the Beast Contract shop that was mentioned by the middle-aged man.

"Welcome to our Beast Contract store! Are you looking to form a contract with a beast today, young guests?" The receptionist behind the counter called out to them after seeing them enter the store.

"We're just looking around for now," Yu Rou said.

"Perhaps I can help you with what you're looking for. What kind of beasts are you looking to get? We have matured beasts, young beasts, and even ones that are waiting to hatch."

"You sell even unhatched beasts? How does that work? I thought you can only form a contract with beasts with a will." Yu Rou asked.

"We simply do what's called a Forced Contract, which will forcefully establish a relationship between the unhatched beast and the seller so that they will be contracted to you immediately after their birth. Most customers tend to go for unhatched beasts because they are much easier to train than the young ones while the mature ones are harder to control. Of course, unhatched beasts are also more expensive than the others."

"Do you want to buy a servant here, Yu Rou?" Yuan asked her sometime later.

She shook her head and said, "No, I don't think I want to form a contract in such an unhealthy manner. I'd rather not force a contract and find a beast that's willing to become my servant, which will make our relationship that much more trustworthy and real."

"I understand," Yuan nodded.

Chapter 67 - Repeatable Quests

After leaving the Contract Beast store, Yuan asked Yu Rou, "What do you want to do now that you have a weapon?"

"Since this is a game, we should be completing quests and clearing dungeons for rewards, right?" she said to him.

"What have you been doing with Xiao Hua?" she then asked.

"Well... we mostly wander the wilderness and fight monsters," he responded after a quick ponder.

"That's all you've been doing? What about quests?" she looked at them with wide eyes.

"Uh... we completed only two quests so far."

"Two!? And you somehow managed to obtain so much money!? I don't believe you, brother. There must be something unique that you're doing differently from the other players for you to have so much money."

"Then do you want to hunt monsters with us? Of course, we'll only fight monsters at your level," Yuan suggested.

However, she shook her head and said, "We can fight monsters later. I want to experience more of this world first, so I am going to do a few small quests."

"You know where to find quests?" Yuan raised his eyebrows.

"Un. Most shops hand out quests if you asked," she nodded.

"Where did you learn that? I didn't even know about that!" he said.

"The internet is a wonderful source of information. You can learn almost everything on it. Anyway, this is how most players are earning their money — by doing quests and clearing dungeons."

"But since we have plenty of time to play together, I want to enjoy the casual things in this game with you before we start doing the serious stuff like clearing dungeons and hunting monsters."

"I am okay with that," Yuan nodded. "I will follow you around now, so lead the way."

"Okay!"

Yu Rou then led Yuan around Spring City until she found a medicine store and went inside.

"Hello, I am looking for a quest. Does this store need assistance with something?" Yu Rou asked the receptionist a moment later.

The receptionist nodded and said, "Oh, thank you for asking! I have been running low on some herbs, so if you don't mind, can you bring me 3 jins of Spirit Grass? They can be found ten miles away from the city."

«You have received a quest from 'Mr. Qiang's Medicine Shop'»

«Quest: Gathering Spirit Grass»

«Difficulty: Easy»

«Quest Description: Bring back 3 jins of Spirit Grass to Mr. Qiang's Medicine Shop»

«Reward: 30 silver»

"We'll be back with the Spirit Grass." Yu Rou said to the old man before walking out of the store with Yuan.

"That's it?" Yuan was surprised by how easy it was for them to receive quests.

"What did you expect, brother?" Yu Rou looked at him weirdly.

"Nothing... it's just that compared to the quests I have done, this is kind of... boring?"

"I don't know what kind of quest you've done but this is quite normal for quests, and it's also very popular among the players since it's relatively safe and rewarding."

'30 silvers are rewarding?' Yuan raised his eyebrows. Compared to the rewards he's been given, 30 silvers is practically nothing.

Seeing Yuan's doubtful look, Yu Rou said, "30 silvers may not seem much to someone as rich as you, but it's a considerable amount for other players. If one completes these quests ten times, they would have enough for common equipment and whatnot."

"Repeatable quests, huh..." Yuan nodded.

"Anyway, let's go harvest some Spirit Grass. I have already done some research last night about this place so I know pretty much everything that's around Spring City, including the location of Spirit Grass," Yu Rou said as she led Yuan outside the city.

"As expected of you, always prepared." Yuan smiled at her enthusiasm.

Sometime later, they left Spring City and began making their way towards the Spirit Grass.

"Brother Tian, there are some low-level Spirit Apprentice beasts ahead." Xiao Hua suddenly warned them.

Yuan then said to Yu Rou, "I will take care of them."

"Be careful, brother..." she nodded.

Yuan then retrieved the Starry Abyss and silently approached the monsters.

'Three Horned Pig at the third level Spirit Apprentice... This is a good time for me to use the Starry Abyss and practice my dagger skills...' Yuan thought to himself.

Once he was close enough, Yuan suddenly rushed forward and swung the Starry Abyss according to the techniques he'd learned from the Thousand Knife Techniques.

Whoosh!

The black dagger in Yuan's grasp flickered, and the three monsters were cleanly beheaded the following second without even having the chance to react.

'Hm? This feeling isn't that bad.' Yuan looked at the Starry Abyss with a pleasantly surprised face.

Meanwhile, Yu Rou stared at the scene with a shocked expression.

'His movements are so fast and crisp! I didn't even notice his arm had moved until he beheaded the monsters!' she cried inwardly after witnessing Yuan's prowess. If only she knew that this is his first time wielding a dagger.

"That was amazing, brother! You looked like an entirely different person just now!" She praised him afterward. "I guess you weren't lying when you said that you had hunted a lot of monsters!"

"Your cultivation must be fairly high right now. What's your cultivation, brother?" she then asked him.

"That's a secret," he said with a mysterious smile on his face.

"Eh? Why would you keep that a secret?" she raised her eyebrows.

"Because it's for a surprise I have for you later," he quickly replied.

"Hmm..." Yu Rou narrowed her eyes at him with a suspicious gaze.

Seeing this, Yuan laughed nervously before saying, "Anyway, now that the monsters are dealt with, let's continue."

"Huh? You're going to leave just like that? What about these three monsters?" Yu Rou suddenly asked him.

"What do you mean? What about these three monsters?" Yuan tilted his head in a puzzled manner.

"Don't tell me you were actually going to leave behind so much material on the ground?! That's so wasteful! If we sell these monsters' meat and bones to the store, we can earn much more money!" she explained to him.

"Oh... I never thought about that..." he mumbled in a low voice.

Chapter 68 - Divine Sense

'Did he really earn all that money just from selling monster cores? I cannot imagine how many monster cores one would need in order to earn hundreds of thousands of gold coins...' Yu Rou shook her head helplessly as Yuan, who didn't even know about selling the monsters' materials.

"Brother, we can either chop these pigs up like a butcher would and sell their materials separately or just sell the whole corpse at once. Which method would you rather choose? We'd earn more money from selling the materials individually, but it'll also require much more work," Yu Rou said to him a moment later.

"Let me chop them up for you," Yuan said to her.

"Do you know how to...?" Yu Rou looked at him with a doubting gaze. Butchering a whole monster is not something one can do without training and experience.

"Yes, I have this cooking technique called Thousand Knife Technique, and when I look at these corpses, my mind automatically tells me how to butcher it with my dagger, almost like it's only natural," Yuan said to her.

"Really? But I am more interested in why you have a technique meant for cooking..." she said to him.

"I'm not sure since I have never done it, but I feel very confident when looking at it."

Yuan approached the three Horned Pigs with the Starry Abyss still in his grasp. He then knelt in front of the corpses and began cutting monster corpses with the dagger.

His movements were neither too slow nor too fast with each cut done in a single smooth motion, making all of his movement appear extremely natural, almost like he has years of experience already.

"Wow... And you learned that from a cooking technique?" Yu Rou mumbled in awe.

"Yes. Do you want to learn it, too? I still have the technique book with me," Yuan asked her.

"You can share techniques with others?" Yu Rou raised her eyebrows.

"We'll know once we try it. Let me finish up butchering this pig, though."

After completely butchering the first horned pig perfectly, Yuan began working on the second horned pig, and his movements appeared even cleaner than previously.

"As expected of Brother Tian, he's learning at an extremely fast pace." Xiao Hua nodded her head in approval after seeing Yuan skillfully butcher the horned pigs.

"I'm not surprised, since my brother is a genius who learned to play nearly every instrument in the world professionally when he was only five years old, after all." Yu Rou also nodded her head, agreeing with Xiao Hua.

"Brother Tian can play the instrument?" Xiao Hua looked at him with wide eyes. Is there something this guy can't do?

"Not only can he play the instrument but he can play them flawlessly! There used to be tens of millions of people who admire—"

"That's enough, Yu Rou. It's all in the past. There's no need to bring it up anymore..." Yuan suddenly interrupted her with a solemn expression on his face.

"Oh... I am sorry, brother. I got too excited and brought up something I shouldn't have again..." Yu Rou quickly realized her mistake and apologized to him.

Although Yuan used to play the instrument, because of his illness that crippled his sight, he was forced to adapt to playing the instruments while blind and until he can no longer physically move his body.

"..."

Seeing the depressing atmosphere around them, Xiao Hua decided to not ask any questions for now and silently watched Yuan butcher the last horned pig.

A few minutes later, once all three Horned Pigs were flawlessly butchered by Yuan, he tossed the materials into his spatial ring.

"I'm speechless, brother. Even though that was your first time butchering a pig—a monster, you didn't make a mess! Even your hands are clean! It's almost like you never did it!" Yu Rou expressed her admiration for him once again.

"It's mostly thanks to the knife technique that I could even cut it at all and this knife that made it much smoother," Yuan said.

"Here, why don't you take a look at the technique yourself?" Yuan retrieved the Thousand Knife Technique he'd bought from the store and handed it to Yu Rou.

"It's like a book," she said as she began flipping through the pages.

Sometime later, Yu Rou finished reading the entire technique. She looked at Yuan with a tilted head and spoke, "How did you learn the technique? I read the entire thing word by word and still don't have the skill."

"I did exactly what you just did—I read the book," Yuan said.

He then turned to look at Xiao Hua and asked her, "Are these techniques a one-time use thing? If I already learned a technique from it, others won't be able to do the same?"

However, Xiao Hua shook her head and said, "That's not possible. Techniques are not like monster cores where they disappear after one use—

as long as you can comprehend the technique, you should be able to learn it."

"Then why can't I learn it?" Yu Rou asked her.

"That's simply because you haven't comprehended the technique. Unless you are a cultivation prodigy like Brother Tian who can comprehend something at a mere glance, you'll need to read that book over and over again until you can comprehend it. Of course, it is also possible that you are not compatible with the technique. If that's the case, you won't learn the technique no matter how many times you read it. However, that usually happens only with the more profound techniques— not some ordinary cooking technique."

"Oh... Then I'll try again at another time," Yu Rou said, sounding somewhat disappointed.

Yuan and the others returned to finding the Spirit Grass shortly later.

During their journey, they encountered two more monsters, both at the second level Spirit Apprentice realm, which Yuan swiftly and casually dealt with before spending some more time butchering.

Two hours have passed since Yuan and the others began the quest, and they have just reached the area where the Spirit Grass was located.

"What does Spirit Grass look like?" Yuan asked after they reached the location.

"It's like regular grass but with a blue tip— like this one," Yu Rou spoke as she harvested a single blade of Spirit Grass before showing it to Yuan.

"We need 3 jins of these? That's going to take forever!" Yuan's eyes widened after seeing the small grass.

"Actually, these are much heavier than regular grass, so we don't need as much as you think. Here, see for yourself." Yu Rou handed him the Spirit Grass.

"Wow! You're right! I can actually feel some weight behind it!" Yuan expressed awe. How can something so tiny and light-looking have such weight to it?

"Brother Tian, the most deceiving thing in the cultivation world is one's appearance. You should never judge a book by its cover, or you'll regret it." Xiao Hua warned him.

Yuan nodded his head before he began looking around.

After spending a few minutes looking around, Yuan decided to stop using his eyes to look for the Spirit Grass and began to try something new.

'The Spirit Grass has a unique aura to it... If I can sense it with my cultivation, I should be able to find them even without needing to use my eyes...'

Yuan then began expanding his own aura until he could sense things a few meters around him.

'Wow... Even though my eyes are closed, I can somehow still see the world in my mind, and it seems even clearer than using my eyes...' Yuan was amazed by this new finding. If only he could use this same technique in the real world. That way, he would still be able to see despite being blind.

«You have learned Divine Sense»

«Divine Sense»

«Rank: Earth»

«Mastery Level: 1»

«Description: As long as one activates their Divine Sense, they will be able to see everything in a certain distance, even things that normally can't be seen with the bare eyes.»

And within just a few moments, Yuan was able to locate over a dozen Spirit Grass at once.

"..." Xiao Hua looked at the expanded aura around Yuan with wide eyes.

'Divine Sense? Brother Tian somehow learned to use Divine Sense by himself? Even though he can only expand his Divine Sense a few meters, that's an incredible achievement for someone who's only at the Spirit Warrior realm!' Xiao Hua thought to herself.

Normally, only Cultivators at the Spirit Master realm are able to learn and use Divine Sense, yet Yuan managed to learn it when he's only in the Spirit Warrior realm.

However, compared to eating monster cores and his godlike comprehension talent, it didn't shock Xiao Hua too much, who was already getting used to his incomprehensible existence.

"Here, Yu Rou. I found 12 Spirit Grass," Yuan showed Yu Rou the Spirit Grass he found using his Divine Sense.

"What! How did you find this many so quickly?! I only found 2 myself!" Yu Rou looked at the small pile of Spirit Grass on his hands with wide eyes.

"Why don't you try using your cultivation to sense the Spirit Grass instead of looking for them with your bare eyes? It's much easier and more efficient because they have a unique aura that distinguishes them from the rest," Yuan said to her.

"How do I do something like that?" she raised her eyebrows in a puzzled manner.

"Uhh... I'm not sure either..." Yuan scratched his head, as it was such a natural feeling for him.

Chapter 69 - Player Killer

"Brother Tian, Divine Sense is not something anyone can use, and they must have an appropriate cultivation before they can even learn it," Xiao Hua said to him.

"Oh... Is that so?" Yuan nodded. "Then I will continue to look for Spirit Grass with my Divine Sense."

Once Yuan left to look for more Spirit Grass, Yu Rou turned to look at Xiao Hua and said to her, "You know a lot of things despite your young age..."

"...Xiao Hua has existed for longer than you think," she responded with a calm voice.

"Eh? Then how old are you?" Yu Rou looked at her with wide eyes.

"..."

However, Xiao Hua did not respond to her, acting as though she was deaf.

"You can't even tell a fellow lady?" Yu Rou insisted.

"One's age does not matter when you are a Cultivator..." Xiao Hua said, avoiding the question.

Yu Rou shook her head inwardly and sighed after seeing Xiao Hua's strong reluctance.

"Anyway, I can't let Brother Tian do all of the work by himself. I'll also continue looking for Spirit Grass..." Yu Rou returned to searching for Spirit Grass with her bare eyes.

Half an hour later, Yuan returned to Yu Rou and Xiao Hua with an abundant amount of Spirit Grass in his spatial ring.

"I should have around 20 jins of Spirit Grass in my spatial ring right now," Yuan said to her.

"20 jins?! That's way more than what we need," Yu Rou said.

"Yes, but if the quest is repeatable, we can complete it multiple times in a single run," Yuan said.

"Oh, that's quite smart, brother. Meanwhile, I have only managed to find 2 jins worth of Spirit Grass..." Yu Rou sighed.

"Brother Tian, Xiao Hua also gathered some Spirit Grass for you," Xiao Hua said.

"Thank you, Xiao Hua. You can keep it to yourself until we need to hand it in," Yuan said to her.

"Un," she nodded.

"Now that we've completed the quest, let's return to the medicine store and hand in our Spirit Grass," Yu Rou said.

Thus, they began making their way back to Spring City.

However, on their way back, Yuan and his small group encountered another group of players that appeared to be heading in their direction.

"Brother Tian, there are four Cultivators at the fifth level Spirit Apprentice realm ahead," Xiao Hua said to them way before the two groups even met.

"They must be players that are doing the same quest," Yu Rou said.

Once the two groups met, the other group asked them, "Hello, are you guys coming from the Spirit Grass location?"

"Yes, that's right. It's just a mile that way," Yuan pointed in the direction they came from.

The four players then exchanged gazes with each other and nodded with a determined gaze in their eyes before turning to look at Yuan again.

"Since you know where to find more Spirit Grass and it's not too far away, why don't you do us a solid favor and hand over the ones you already have to us?" One of the players said to them, and the other three players drew their weapons.

"..."

Yuan was speechless. Are they being robbed? In broad daylight?

"And before you get any ideas, let me warn you that there are four of us and only three of you— and one of them is a mere child!" The player said.

"What should we do, brother?" Yu Rou asked him as she grabbed his sleeves.

"Hmm..." Yuan narrowed his eyes at the four players and asked them a moment later, "The four of you are players, right?"

"So what if we are?!"

"Hurry up and give us all of your Spirit Grass, or do we have to take it from your corpses!?"

"..."

Yuan ignored the four players and turned to ask Yu Rou, "Can you confirm for me that if players die, they will respawn later?"

Yu Rou nodded and said, "If a player dies, they won't be able to control their character for an hour, and they'll respawn in the last city they were in."

"Are you going to kill them?" she asked him afterward.

"Yes," he nodded with a cold expression on his face.

"..."

Xiao Hua looked at him with wide eyes. He's willingly going to kill four Cultivators? What happened to his righteous speech about not wanting to kill anyone just a few days ago?

Yuan retrieved the Starry Abyss and approached the four players with a cold gaze, and he spoke in a low voice, "I don't care if you want to rob us. I wouldn't have cared even if you wanted to kill me... However, threatening to kill my sister before me, you have crossed a line that you should've never crossed..."

The four players looked at Yuan's serious expression and began laughing out loud.

"Are you going to fight the four of us by yourself!? Who the hell do you think you are?!"

"Stop wasting our time and die already!" One of the players suddenly rushed forward and swung the sword in his grasp at Yuan with sluggish movements, looking like a complete beginner with the sword.

"..."

Yuan remained calm despite the sudden attack, even looking at the player with disdain in his eyes.

"You call that a sword attack?" Yuan casually shifted his body and barely dodged the sword.

The second he dodged the player's attack, Yuan jerked his hand forward, stabbing the player in the chest with the Starry Abyss.

"..."

The player stared at him with wide eyes filled with disbelief for a moment before falling onto the ground.

«You have killed your first player!»

«You have gained the title 'Player Killer'!»

"H-He killed our brother! Kill him and avenge our brother!"

The remaining three players immediately sprang into action after witnessing their brother being killed by Yuan, their faces filled with anger.

"Thousand Knife Technique!"

However, Yuan swung the Starry Abyss before any of the players could even get close to him, and before the players could even react, a black light flashes right before their necks.

Plop *Plop* *Plop*

The three players collapsed onto the floor simultaneously a moment later with deep cuts in their necks.

After killing the four players, Yuan stared at the corpses on the floor, feeling an indescribable feeling in his heart.

'I thought I wouldn't be able to kill people, but it was surprisingly easy...' Yuan looked at his palms that were slightly trembling.

However, he was not scared, nor was he traumatized by the experience.

"This is... excitement?" Yuan mumbled to himself in disbelief.

When he fought the four players, he didn't see it as fighting another human. Instead, it felt no different than fighting monsters.

"Brother! Are you okay!?" Yu Rou and Xiao Hua approached him a moment later.

"Are you hurt anywhere?" Yu Rou began patting him all over his body to check for injuries.

"Don't worry, I am not injured," he said with a reassuring smile.

And then he continued, "Do you think I'll be punished for killing other players?"

"I don't think so, since there are many Player Killers out there but none of them have been punished for it," Yu Rou said to him.

"I see..."

"That was your first time killing another player, right? How do you feel, brother?" Yu Rou asked him afterward.

"I don't know, but one thing for sure is that I don't feel bad about it, and knowing that they don't die permanently made it much easier," he said. "I won't let anyone hurt you, Yu Rou, no matter who they are."

"Thank you, brother..." Yu Rou nodded with a bashful expression on her slightly rosy face.

"What should we do with their corpses?" Yuan asked sometime later.

"They'll respawn in an hour, so let's take their stuff before that happens," Yu Rou said as she began rummaging through their pockets.

"Y-You're going to take their stuff?" Yuan looked at her with wide eyes, as he didn't expect to see such savageness from her.

"Why not? You know that saying 'An eye for an eye'? They tried to rob us, so it's only fair that we do the same to them. And it feels no different from dismantling a monster after killing it."

Sometime later, Yu Rou returned with a disappointed expression on her face.

"Besides their weapons, they only had fifteen silvers and some minor recovery pills on them..." she sighed, "I guess it's better than nothing."

Sometime later, they continued walking back to Spring City.

"Xiao Hua, can you tell us if there are people close to us? I don't want to risk running into more people like the ones just now," Yuan said to her.

"Okay," she nodded.

Two hours later, they returned to Spring City, and then Mr. Qiang's Medicine Shop.

"Welcome back, young lady! Did you find the Spirit Grass?" The receptionist immediately recognized her beautiful face.

"Yes, we even brought more than you'd requested if you don't mind." Yu Rou said to him.

"Oh, that's perfect! I'll pay you 10 silver more for every extra jin of Spirit Grass you have for me."

The receptionist then placed a scale on the counter and said, "Throw everything you have on here."

Yu Rou nodded and placed her 2 jins worth of Spirit Grass onto the scale.

Then Yuan placed his 20 jins of Spirit Grass into the scale.

"You gathered 22 jins of Spirit Grass in such a short amount of time? I'm amazed!" The receptionist exclaimed his admiration.

"Wait, we still have more," Yuan said and turned to look at Xiao Hua.

"How much did you gather?" he asked her.

"318 jins," she responded calmly.

"Huh?"

Everyone in the store suddenly turned to look at her with wide eyes filled with disbelief.

Chapter 70 - Divine Crystal Of Heavenly Fortune

"I-I'm sorry, young lady, but I don't think I heard you properly just now. How much Spirit Grass did you say you have?" The receptionist cleaned his ears with his pinky finger before asking.

"318 jins of Spirit Grass," Xiao Hua repeated in a calm voice.

"3-318 jins... that's a whole year's worth of supply! And you mean to tell me that you gathered that much in a few hours?" The receptionist stared at her with clear disbelief.

"Un." Xiao Hua retrieved her spatial ring before dumping out a small mountain of Spirit Grass onto the counter, crushing the entire scale flat.

"..."

The receptionist and everyone else in the store was beyond words, as most of them have never seen so much Spirit Grass in one place before, and even Yuan and Yu Rou were staring at her with wide eyes.

How on earth did she gather so much Spirit Grass? Unless she plucked the entire location of its Spirit Grass, there was no way she would have obtained so much!

"A-Anyway... No matter how you obtained these Spirit Grass, I will pay you for them." The receptionist spoke after snapping out of his daze.

"340 jins of Spirit Grass will be worth 3,400 silver, converted to gold coins will be 34 gold coins... Are you okay with this?" The receptionist said to them.

"Y-Yes, that's fine," Yu Rou nodded.

A few minutes later, after the receptionist accepted the Spirit Grass, he handed 34 gold coins to Yu Rou.

«You have completed the Quest: Gathering Spirit Qi»

«You have been rewarded with: 34 Gold Coins»

"Congratulations on completing your first quest, Yu Rou," Yuan said to her with a smile on his face. "And you can keep the gold for yourself."

"Thank you, brother! This is mostly due to you and Xiao Hua!" Yu Rou said.

After leaving the medicine store, Yuan asked Yu Rou, "What do you want to do now?"

"Hmm... After seeing how you had defeated those players with such ease, I have realized just how important it is to have a skill, so I want to use the money we'd just earned to buy some techniques."

Yuan nodded and said, "Then let's find a store that sells some techniques that can be used with a fan."

"I know just the place!" Yu Rou said, and she began leading Yuan and Xiao Hua through the city again.

About half an hour later, they reached this ordinary-looking building that gave the atmosphere of a library from the outside.

"Myriad of Techniques, huh?" Yuan read the sign above the door with a curious gaze.

"According to many players on the internet, one has a chance to obtain a free technique if they have perfect compatibility with it! Furthermore, this place sells the cheapest techniques in the entire city!" Yu Rou said as she has had her eyes set on this place ever since she learned of it.

"Let's head inside," Yuan said.

Once they entered the building, they were baffled by the luxurious interior of the building that looked the complete opposite of the outside appearance, feeling like they'd entered some exalted individual's expensive mansion instead.

They were then greeted by a beautiful young lady who was wearing what appeared to be disciple robes.

"Welcome to Myriad of Techniques, please place your hands on this crystal ball, as it will judge your qualifications." The young disciple said to them at the doorstep.

"Qualifications? Why must we qualify before we can buy techniques?" Yuan asked her, as he couldn't comprehend the meaning behind their actions.

"We have three floors in this building with different quality and ranks of technique on each floor. Every guest will automatically have access to the first floor, but if they wish to buy techniques on the second or third floor, they must pass a simple test," she explained to him.

"I see... Yu Rou, you can go first," Yuan said to her.

"Un."

She nodded her head before placing her hand on the crystal ball provided by the disciple.

A few seconds later, the clear crystal ball began glowing a beautiful golden light.

"..."

When the beautiful young lady saw this, her eyes widened with surprise, and she spoke when the light disappeared shortly later, "You... You are quite the lucky one, young girl."

"Huh? What do you mean?" Yu Rou asked her.

"The Divine Crystal of Heavenly Fortune just measured your fortune and fate, and you are apparently deeply connected to someone with a heavenly destiny," said the female disciple.

"I'm sorry, but I still don't understand..." Yu Rou spoke with an apologetic smile on her face.

"It's okay, because I don't understand it either, and I am only telling you what my Master told me to say." The female disciple said with a straight face.

"Your Master...?" Yu Rou looked around but there was nobody else there.

"Ah, my Master is on the third floor, and he is speaking to me using his Divine Sense. Anyway, you are qualified to buy techniques on the second floor." The disciple said to Yu Rou before turning to look at Xiao Hua and continued, "You are next."

Xiao Hua did not immediately place her hands on the crystal ball and stared at the female disciple with narrowed eyes, seemingly in a deep ponder.

"Is something the matter?" Yuan asked her.

"No, Xiao Hua is fine," she quickly responded before placing her small hands on the crystal ball.

The Divine Crystal of Heavenly Fortune glowed a similar golden color a few seconds later, perhaps even a little brighter than Yu Rou's result, but there was a hint of black within the center of the light.

"..."

The female disciple spoke after the light disappeared, "Just like the previous young lady, you are deeply involved with someone with a heavenly destiny, however, you also..."

When the female disciple noticed the subtle killing intent in Xiao Hua's eyes, she immediately stopped speaking with a mysterious smile on her face.

After a moment of silence, the female disciple turned to look at Yuan and continued as though Xiao Hua did not exist, "It is very rare for someone to have connections to someone with a heavenly destiny, much less two of them at once. Although it may not seem like it, my heart is beating in anticipation for your results, young man."

"Heavenly destiny... You have mentioned this word a few times now, but what exactly does that mean?" Yuan asked her.

"Well, to put it in simpler terms, they are people who are destined to create massive waves that will greatly affect the world one way or another. There are multiple ranks of destiny like minor destiny that will only affect the lower realms and major destiny that will affect the higher realms, and the highest level of destiny is the heavenly destiny. Only powerful individuals that will affect every realm under the heavens will bear such a destiny." The female disciple explained to him.

"Is that so?" Yuan nodded. While he understood the concept behind it, he didn't understand the real meaning behind having such a destiny.

'So both Yu Rou and Xiao Hua will be involved with someone like that, huh? I wonder who this person is...' Yuan pondered to himself as he placed his hands on the Divine Crystal of Heavenly Fortune.

The moment Yuan touched the Divine Crystal of Heavenly Fortune, the crystal ball trembled violently before exploding into many pieces.

"Ah!?" The female disciple cried out in a startled voice when the Divine Crystal of Heavenly Fortune suddenly exploded.

"A-Are you okay?! What happened just now?" Yuan asked her in a surprised voice.

"I-I am not injured, but the Divine Crystal of Heavenly Fortune..." The female disciple looked at the shattered crystal with a terrified look on her face, as she has never experienced something like this before.

"M-Master... the Divine Crystal of Heavenly Fortune... it exploded..." The female disciple lifted her head towards the ceiling and spoke to the empty air.

A moment later, the female disciple spoke again and with a dazed expression on her face, "R-Really? You want me to bring him to you?"

"I-I understand!" The female disciple nodded before looking at Yuan again.

"Umm... My Master would like to speak with you..."

Hearing her words, Yuan rubbed his eyes and sighed in a depressed voice, "I am going to have to pay for destroying the Divine Crystal of Heavenly Fortune, aren't I?"

"Eh? N-No! That's not it. It wasn't your fault that the Divine Crystal of Heavenly Fortune exploded... I think. Anyway, I don't know why, but my Master would like to speak with you." The female disciple said to him.

"Can we go with him?" Yu Rou suddenly asked.

"I'm sorry, but my Master only asked for his presence..." she responded with an apologetic smile.

However, Xiao Hua grabbed Yuan's sleeves with a stern look on her face.

Seeing this, the female disciple said with a smile on her face, "You can relax, little girl, we won't do anything to him."

But alas, Xiao Hua did not move a muscle and continued to grab onto Yuan's sleeves.

"It's okay, Xiao Hua. I want you to protect Yu Rou in my stead when I am gone." Yuan said to her. "Make sure nobody bullies her, okay?"

"Okay..." Xiao Hua eventually released his sleeves and watched Yuan disappear with the female disciple shortly later.

"Are you okay, Xiao Hua? You have been acting weirdly ever since we entered this building," Yu Rou asked her.

"Xiao Hua is fine..." she said to her, and she continued a moment later, "But that girl... she's a very powerful Cultivator that shouldn't exist in this Lower Heaven..."

Chapter 71 - Translucent Dew Of Flawlessness

"Huh? What do you mean by that?" Yu Rou asked Xiao Hua, as she was unfamiliar with such terms.

"That girl with the disciple robes just now is a Cultivator at the Spirit King realm, and unless she also has a Legacy to fulfill, she's an existence that shouldn't be in this world—the Lower Heaven," Xiao Hua explained to her.

"Spirit King... Lower Heavens...?" Yu Rou shook her head, still confused about what Xiao Hua was trying to say.

"Anyway, let's look around the first floor before we go to the second floor," Yu Rou said.

"Un." Xiao Hua nodded and followed Yu Rou, as she didn't need to learn any new techniques for herself.

Meanwhile, Yuan and the female disciple had just reached the second floor.

"What is your name, young man? I am called Zhu Yuying," said the female disciple.

"Yu Tian," he responded.

"Oh, that's a nice name," she nodded with a smile on her face.

"Anyway, before you meet my Master, you should know a few things about him. First and foremost, my Master is a very outgoing individual, but do not

feel too comfortable around him, and most importantly, do not show any sign of disrespect, or else you will dearly regret it."

"I don't think I will have a problem with that..." Yuan said, as he wouldn't disrespect anyone without a good reason.

"Good. Then the next thing you should know about my Master is that he has very keen eyes for everything, so do not lie to him, because he will know," Zhu Yuying continued. "If you don't feel comfortable with answering his questions, you should just remain silent, as that is better than being a liar."

"Is he going to question me a lot?" Yuan asked.

"I don't know," she casually shrugged.

"Is that so..."

After navigating around the second floor for a few minutes, they reached the staircase for the third floor.

However, there were two guards standing by the stair with a semi-transparent barrier that blocked their access to the third floor.

"Master wants to speak with him," Zhu Yuying said to the guards.

"What? The Master is willing to meet with a stranger?" The guards looked at Yuan with wide eyes, wondering what was so special about him.

"Since it's the Master's request, go ahead."

One of the guards then snapped his fingers, and the barrier blocking their path began disappearing.

A moment later, they were free to enter the third floor.

"This is the third floor?" Yuan expressed surprise after seeing the third floor, which was only large enough to fit two 5 meter-long bookshelves on

each side and surprisingly empty, as there were barely books on these bookshelves— enough to be counted with one's hands.

"My Master is waiting for you at the other side of that door," Zhu Yuying pointed to the door at the end of the small room that emitted a profound feeling.

Yuan swallowed nervously before walking towards the door that gave him the chills.

He then opened the door, and to his surprise, there was only darkness behind this door.

"Uhhh... I am supposed to enter this?" Yuan turned around to look at Zhu Yuying, who nodded with a smile on her face.

"Don't worry, it's only a portal that will take you to my Master, who is in a place so far away that the only way you can meet him is through teleportation."

Yuan narrowed his eyes, feeling a bit uncomfortable about the weird atmosphere and the whole situation. What if they are trying to trick him just like what happened at the Demonic Spider's Silent Cave?

However, as Yuan was wondering whether to trust them, an ancient voice resounded in his head: "It isn't polite to make the Seniors wait so long, young man."

And right as the voice ended in his head, a powerful force appeared from beyond the door, sucking him inside the darkness.

"Ahhhhhh!"

Yuan screamed out loud as his body was tossed into the darkness, feeling like he was falling constantly through an endless hole.

The falling sensation lasted for a good minute before the darkness suddenly vanished, replaced by a bright light.

Yuan looked around, and to his surprise, he was surrounded by clouds, and when he looked down, he saw a vast world— one that stretched to the horizons.

«You have discovered ???»

"What the heck?! Where am I?! What happened to the technique store?!" Yuan exclaimed in a shocked voice as he continued falling from the sky.

"I'm going to die! I am definitely going to die if I fall from this height!" Yuan cried out loud.

"Hahaha... Calm down, young man from another world— you won't die."

A similar voice suddenly resounded beside Yuan, causing him to turn around.

"You are..."

Yuan's eyes widened with shock when he saw a healthy-looking old man with long white hair and a long beard falling beside him.

The old man suddenly waved his sleeves, and as though gravity had stopped working, their body immediately stopped falling.

"Come with me."

The old man began flying away, and Yuan could feel an invisible force pulling him along.

A few minutes later, they landed on this small floating island that had a beautiful jade table in the center and two jade chairs beside it.

Once they landed, the old man immediately walked to one of the chairs and sat down before taking out a teapot and two teacups.

"Sit down, young friend." The old man gestured to him in a friendly manner.

"..."

Although Yuan was still trying to make sense of the situation, he sat down as instructed.

"Try this."

The old man handed him one of the teacups.

"T-Thank you..."

Yuan accepted the teacup without thinking and looked at the transparent liquid in the cup. If he hadn't seen the ripple on the surface, he would've mistaken it as an empty teacup.

The old man then pulled the teacup towards his own lips before chugging the cup of liquid in an instant.

Yuan followed the old man's actions and drank the transparent liquid.

"Wow..."

Yuan could feel a refreshing feeling flow down his throat before it expanded in his stomach and then the rest of his body, feeling almost like an explosion had occurred within his body.

«You consumed a Translucent Dew of Flawlessness»

«Impurities will now be cleansed from your body»

A few seconds after consuming the translucent liquid, sticky black substances could be seen oozing from every pore on Yuan's body, filling the place with an intense smell that resembled the smell of rotten eggs and many other unpleasant smells.

"Whoa! What is happening to me?!" Yuan stood up in a panic after seeing this scene.

"Your body is currently discharging the impurities within your body. One must reach the Spirit Grandmaster realm before they can start cleaning the impurities within their body, but the Translucent Dew of Flawlessness will help you achieve that regardless of your cultivation, and it will continue to protect your body from collecting any more impurities in the future so that you don't have to waste time manually discharging the impurities within your body after every breakthrough." The old man explained to him in a calm voice.

"The Translucent Dew of Flawlessness is a rare treasure that will be very beneficial to you and your future cultivation."

"I don't really understand it, but thank you for giving me such a treasure, Senior." Yuan bowed to him with his body nearly covered in impurities.

"No need to thank me, as this is but a small token for making you come all the way to this place." The old man smiled.

A few minutes later, once Yuan discharged every drop of impurity that was contaminating his body, the old man waved his sleeves, creating a powerful wind that blew away the impurities and the awful smell.

«You have cleaned every drop of impurity within your body, obtaining a Refined Body!»

«You have gained the title 'Untainted Body'»

«Description: Having an untainted body, your cultivation speed will increase significantly as long as you keep your body clear of impurities»

"How do you feel, young man?" The old man asked him afterward.

"I don't know how I should describe this refreshing feeling... It feels almost like I have been reborn..." Yuan said while staring at his own palms, feeling incredibly light and energetic, even powerful.

"Rebirth, huh? That's a good way to describe it." The old man nodded before pointing at the seat.

Once Yuan was seated again, the old man spoke, "I know you are wondering why I brought you to this place and where we are, so let's get that out of the way first."

"First of all, this place is not a location from where you came from— the Lower Heaven— or anywhere in the world for that matter. It is its own world— another dimension so to speak, hence why I was able to bring you here without much trouble."

"Now as for why I brought you to this place, it's simply because I want to know more about you— young man who destroyed the Divine Crystal of Heavenly Fortune with his destiny."

"Huh?" Yuan looked at the old man with wide eyes. So he really was responsible for destroying that treasure!

"However, before we continue, why don't we introduce ourselves?" The old man spoke, and he continued, "Most people address me as Master Bai, but you can just call me Senior Bai."

Yuan nodded and said, "My real name is Yu Tian, but I am also known as Yuan."

"Yu Tian, huh?" Senior Bai nodded his head before continuing, "Now then, continuing with the matter— the reason why the Divine Crystal of Heavenly Fortune exploded after trying to read your fortune is simply because it could not read your destiny, hence why it exploded."

"...Huh?" Yuan looked at him with his eyebrows raised in a puzzled manner. What does he mean by that?

Chapter 72 - An Unknown Destiny

"The Divine Crystal of Heavenly Fortune is a very powerful treasure that can read one's fortune and destiny, and depending on the importance of their destiny, they are given a rating. There are countless geniuses in this world who have the ability to change or create history, but very few of them will be given a minor destiny. Then we have the major destiny, geniuses who will affect the heavens to a certain extent. Someone with a major destiny will appear every once every ten thousand years." Senior Bai explained to him the functions of the treasure he destroyed.

"As for the final rating— heavenly destiny... There have been only 13 people who were given such a destiny ever since the ancient times, and every single one of these individuals had greatly affected the world so much that they were given their own Era."

"However, not many people know this, but there is actually another rating beside the three I just explained, and there is no name for such a destiny, hence why I just call it the unknown destiny."

"The unknown destiny is the only destiny the Divine Crystal of Heavenly Fortune cannot read or sometimes mistake as a heavenly destiny, and in the cases where the Divine Crystal of Heavenly Fortune cannot read a destiny, it will explode."

After the lengthy explanation, Senior Bai gave Yuan a moment to digest the information before continuing, "Ever since the ancient times... No... ever since the first Cultivator learned to cultivate, there have only been two other individuals other than yourself that have had an unknown destiny, and I want to know what kind of person you are as the third person to have an unknown destiny, hence why I brought you here."

"I see... but what do you want to know about me? I have lived an insignificant life for the majority of my life, so I don't think you'll find anything interesting about me," Yuan said to him.

"Your life experiences don't matter to me. What I want to know is your ambitions— why you decided to become a Cultivator and what keeps you on the cultivation path," Senior Bai said to him.

"My ambitions...?" Yuan lifted his eyebrows before speaking in a calm voice, "Honestly, I don't have any ambitions, and I only want to enjoy this beautiful world with my little sister and hopefully make some friends."

"You have no ambitions? That's quite hard to believe, as every Cultivator has a dream."

Despite expressing his doubt, Senior Bai was unable to sense any lies from Yuan's clear gaze.

"Although I may not have any ambitions, I do have a dream. However, this dream is not something one can achieve just by working hard for it." Yuan said with a bitter smile on his face.

"Hoh? Do you mind clarifying?" Senior Bai asked him with his interest piqued. "In the cultivation world, there is almost no dream that cannot be attained through hard work."

"What about a person who was born without legs and dreams of walking? What about a person a blind man dreams of seeing again?" Yuan asked him. "Do you think those kinds of dreams could be achieved?"

"Hahaha..." Senior Bai suddenly laughed out loud before speaking, "And here I was wondering what you were going to say. So what if one is born without legs? They can simply grow some with the help of treasures! The same goes for blind people! I know over a dozen medicines and treasures that can cure blindness!"

Yuan was speechless. They can do that in the cultivation world? However, even if that was the case, this was only a game, and once he logs off, this

so-called cultivation world will cease to exist.

"Anyway, what about becoming a Cultivator? What drove you to walk the cultivation path?" Senior Bai then asked him.

"Well, it kind of happened by chance," Yuan spoke before briefly recalling how he became a Cultivator.

"Chance? Nonsense! You are someone with an unknown destiny! Everything that happened to you or will happen to you in the future—everyone that you have met or will meet in the future, it was predetermined by fate before you were even born!" Senior Bai said before continuing, "Then why do you continue to cultivate? If you didn't choose this path, why don't you quit?"

"Because I have learned from a friend that strength means everything in this world, and without strength, I could lose everything that's important to me, hence why I continue to cultivate and continue to grow stronger, as I wish to explore this world with those who are dear to me without losing them."

"Cultivating to protect those important to you, huh? Despite hearing similar words from Cultivators countless times throughout my life, I can only respect one's desire to protect their loved ones. And your friend is right—the cultivation world is an unforgiving world that preys on the weak and rewards the strong. If you wish to explore this world, you must have enough power." Senior Bai spoke as he profoundly caressed his long white beard.

After a moment of silence, Senior Bai said, "I have a firm understanding of your character now, but people can always change, and I can only hope that you do not change too much."

"By the way, if you don't mind me asking, do you have a unique Physique? I can feel a profound feeling from your body, but I have never felt such a feeling before." Senior Bai suddenly asked.

"My Physique? I have something called the Heaven Refining Physique," he casually responded.

"Hea— Heaven Refining Physique?!?!?!?"

Senior Bai suddenly cried out loud as he stood up with a shocked expression on his face.

"Eh?" Yuan looked at Senior Bai with wide eyes, as he didn't expect such an intense reaction.

After a long moment of silence, Senior Bai cleared his throat before sitting back down.

"I see... So you are the person she met..."

"What do you mean, Senior Bai?" Yuan asked with his head tilted in a puzzled manner.

"N-Nothing, I was just talking to myself," Senior Bai quickly said with an awkward smile on his face.

"Anyway, I don't dare to keep you in this place any longer, little friend. If fate allows it, we shall meet each other again." Almost as though he was in a hurry, Senior Bai waved his sleeves, enveloping Yuan with his spiritual energy before sending Yuan flying towards the Heavens.

A few moments later, Yuan was surrounded by darkness again, but he was falling in the opposite direction this time around.

After sending Yuan back to the portal, Senior Bai stared at the sky with a dazed look on his face.

"So his name was Yu Tian, huh... To think I'd meet the genius with the Godly Physique that woman met in this place... As expected of someone with an unknown destiny."

"I would've given him a few techniques and some treasures to help out his journey, but alas..."

After standing in the same spot for an unknown amount of time, Senior Bai sighed in an annoyed tone, "I should probably let her know about our

meeting or she'll think I am trying to steal him from her or something..."

"Welcome back, Yu Tian," Zhu Yuying greeted him after he returned to the skill store. "How was your meeting with my Master?"

"I don't know how I should describe it," he said with a weird smile on his face. "Everything just happened so fast..."

"Then what did you two talk about?" she then asked.

"He asked me about my dreams and why I decided to be a Cultivator..."

"That's it?" Zhu Yuying looked at him with raised eyebrows.

"Yes," he said.

"..."

Zhu Yuying turned silent. Why would her Master call him for something casual like that? She couldn't comprehend it.

"Anyway, since you have already spoken with my Master, I'll leave you alone to look for skills now. Ah, you are allowed to buy a technique from any floor," she said to him a moment later.

"I understand. Since I am already here and there doesn't seem to be much technique up here, I'll look around this floor first before I reunite with the others."

Zhu Yuying nodded and left him alone on the third floor shortly later.

Yuan began looking around the third floor, but with only 2 bookshelves and a dozen techniques, it didn't take long for Yuan to see everything on the third floor.

And out of the dozen techniques on the third floor, there was only one technique that he could learn, as it was related to the sword.

"Demon Sealing Strike... What a powerful-sounding technique," Yuan mumbled the name of the technique with a feeling of awe.

He then opened the technique and began looking through it.

"..."

A few minutes after Yuan began reading the technique, he unknowingly entered a trance, which allowed him to indulge in the technique as though he was in his own world.

After an unknown amount of time had passed, a notification appeared before him.

«You have learned Demon Sealing Strike»

—

«Demon Sealing Strike»

«Rank: Heaven»

«Mastery Level: 1»

«Description: Consumes 1,000,000 Qi. Must wield a sword to activate. An ancient sword technique used to seal demons»

"Oh no... I learned the technique without paying for it again..." Yuan facepalmed himself afterward.

"And it's even a Heaven-rank technique... I hope I can afford it with my remaining gold, or I am going to have to borrow the difference from Xiao Hua..." he sighed.

Meanwhile, above the sky, another announcement appeared.

«Player Yuan has become the world's first player to have learned a Heaven-rank Skill! Congratulations!»

Chapter 73 - Wind Blade

After he'd accidentally learned the Heaven-grade technique from the third floor, Yuan walked downstairs with a guilty expression on his face.

"What's the matter? You don't look so good."

The guards noticed his expression and decided to speak to him, wondering if something unpleasant had happened during his meeting with their Master.

"Uhh... I was just wondering how much this technique would cost if I were to buy it..." Yuan showed them the Demon Sealing Technique.

"The Demon Sealing Technique, huh? That's one of the rarest and more powerful techniques one can find in this store, and it's even a Heaven-grade technique, so it'll be quite costly."

Yuan immediately began sweating profusely after hearing the guards' words.

"If I recall correctly, this technique should be worth around 300,000,000 gold coins..."

"300,000,000 gold coins?!?!?!?!?!?" Yuan cried out loud, nearly collapsing from fright.

If the Demon Sealing Technique is really worth three hundred million gold coins, he wouldn't be able to buy this technique even if he'd borrowed all of Xiao Hua's money, and it would require him to sell about 10 Heaven-grade treasures to have enough money for the purchase.

'300 million gold coins... it's impossible... I cannot pay for this...' Yuan thought to himself.

While it pains him to even think about it, he'll have to skip this purchase even if it is considered theft that he learned the technique without paying for it.

'I'm sorry, Yu Rou... Even though it was by accident and it's only a game, your brother has committed a crime and is now a criminal...' he sighed inwardly.

"A-Are you sure you're okay...?" The guards asked him again, as they were confident that something was bothering him.

"No, I'm fine, really..." Yuan sighed as he turned around and began walking back upstairs.

"Where are you going, fellow Daoist?" The guard asked.

"To return this technique—I cannot afford it," he responded in a pitiful voice.

The guards exchanged looks with each other before laughing out loud, "Hahaha! Is that what you were worried about? Then you don't have to worry, since you don't have to pay for that technique."

"What?" Yuan immediately stopped walking to look at the guards with his eyes wide with disbelief.

"W-What do you mean I don't have to pay for it?" he asked them.

"I guess our senior sister forgot to tell you about this, but those who qualified to step onto the third floor are allowed to take one cultivation technique for free."

"...Are you serious?" Yuan looked at them with a doubtful gaze.

Who in their right mind would give away something worth three hundred million gold coins for free?

"Why would we lie to you? If you don't believe us, you can ask our senior sister or whoever is at the reception," said one of the guards. "Though,

they'll just tell you the same thing."

"Thank god!" Yuan suddenly released a deep sigh of relief, feeling like he'd narrowly escaped punishment after doing something bad.

"Even though it's for free, you need to make sure to check it out at the reception." The guards then warned him.

"I will! Thank you!"

Yuan left the place shortly later to look for Yu Rou and Xiao Hua.

"How large is this place...?" Yuan was at loss for words after realizing just how much larger the first and second floor was compared to the third floor.

And after walking around for a solid half an hour, Yuan was finally able to reunite with Yu Rou and Xiao Hua on the second floor.

"Brother! You're back!" Yu Rou said to him.

"Sorry for leaving you two like that," he said.

"Brother Tian, you... are you okay?" Xiao Hua was looking at him with her eyes as wide as saucers.

Yuan had only been gone for an hour at most, yet there was something vastly different about him!

"Hm? Yes, I am. Why are you asking?"

"There's something different about you..." she said.

"Oh, that's because I just removed all of the impurities in my body!" he said with an innocent smile on his face.

"You what?!" Xiao Hua exclaimed.

Cultivators can only start discharging the impurities within their body after entering the Spirit Grandmaster realm, and it usually requires years of effort

before they can remove all of the purities within their body! However, Yuan had only been gone for an hour and he somehow managed to remove all of the impurities within his body?!

There is only one treasure in this world that she knows of that could possibly achieve such a miracle— the Translucent Dew of Flawlessness!

However, such a treasure should not exist in the Lower Heavens! Hell, the Translucent Dew of Flawlessness is considered a peerless treasure even in the higher realms, as it not only removes all impurities within one's body but it will also prevent their body from building up more impurities in the future, allowing one to save a magnitude of time in their life since they no longer need to manually remove their impurities anymore, which takes time and effort that could be used towards cultivating instead!

"J-Just who did Brother Yuan meet...?" Xiao Hua asked him.

"Some Senior surnamed Bai," he said.

"Was he the one who gave you the Translucent Dew of Flawlessness?"

"Yes— he said it was a small token for taking up my time." Yuan nodded.

"..."

Xiao Hua was speechless. Just who in the world would be rich enough to give away such a valuable treasure for such a reason?

"Anyway, how has your search been going? Did you find any techniques that suit your taste?" Yuan asked Yu Rou sometime later.

"Well... Although there are not many skills that can be used with a fan, I have managed to find a skill that could be useful."

Yu Rou showed him the scroll she had in her hand.

"Wind Blades? A Mortal-rank technique that summons wind blades that cut foes from a distance..." Yuan looked at the title and description, not daring to read the content inside, fearing that he might accidentally learn it.

"This way, once I get my own servant, I'll be able to support it from a distance without being in the danger zone," Yu Rou said to him.

"I see... this technique is really fitting for you," Yuan said as he handed the technique back to her.

"What about you, brother? Did you find a technique yet?" Yu Rou then asked him.

"Yeah, I did. It's a sword technique," he said.

"What about you, Xiao Hua? You have been following me the entire time so you didn't get any chance to look around." Yu Rou turned to look at her.

"Xiao Hua doesn't need any new techniques," she shook her head.

"I see... Then let's pay for our techniques and leave this place."

"Are you sure you only want one technique? I think it'll be better if you have a few more..." Yuan said to Yu Rou.

"Are you forgetting something, brother?" Yu Rou said to him with a slight frown on her face.

"What am I forgetting?" He raised an eyebrow.

Yu Rou continued, "You may be able to learn techniques very quickly, but I don't have your talent, so it'll take me days, even weeks to even learn a single technique. What am I going to do with a bunch of techniques that I don't have the time to learn?"

"And you have already spent enough money on me. I can't let you spoil me too much, or I'll really start feeling guilty about it."

"I understand..." Yuan said.

Sometime later, they approached the cashier to pay for their techniques.

"Thank you for visiting our Myriad of Techniques! How may I help you today?" A young man greeted them from behind the counter.

"Yes, I would like to purchase these techniques..."

Yuan placed his Demon Sealing Technique and Yu Rou's Wind Blade onto the table.

"Yes, right away."

The young man picked up Yu Rou's technique first and said, "This will cost 200,000 gold coins."

"200,000 gold coins?! Why is it so expensive? It's only a Mortal-rank technique!" Yu Rou exclaimed.

Even Yuan was shocked by this unexpected price. Why is this technique so expensive compared to the techniques he'd brought?

"I don't know what to tell you, young lady. Martial Techniques such as this Wind Blade are very rare and powerful and usually worth this much, and it's a technique from the second floor. In fact, our Myriad of Techniques is very affordable and cheap when compared to most stores out there with our pricing. If you went to another store, they would probably charge around 300,000 gold coins for this technique. Though, if you want something cheaper, there are many techniques that cost less than 1,000 gold coins on the first floor with some costing even less than 100 gold coins."

"No way..." Yu Rou sighed before turning to look at Yuan. "It's okay, brother. I'll just look for something cheaper on the first floor..."

However, Yuan said, "It's okay, Yu Rou. If you want this technique, I'll buy it for you. And before you say anything to me, I already know what you're going to say, but I won't change my mind, so just keep quiet and nod your head."

"..."

After hearing his words, Yu Rou, who was about to persuade him, slowly nodded her head with a dazed look on her face.

After listening to the sibling's conversation, the young man behind the counter went to pick up the technique Yuan had picked. However, when he saw the name of this technique, his eyes widened with shock, and he turned to look at Yuan with deep respect in his eyes.

Chapter 74 - Feeling Pain

'T-The Demon Sealing Technique! This is a technique from the third floor! And it's even the most powerful one!' The young man looked at Yuan with a feeling of deep admiration in his gaze, as only the top geniuses with at least a major destiny are qualified to step onto the third floor.

However, while the Demon Sealing Technique is an extremely powerful technique that can seal even the strongest of demons with a single move, it is also extremely hard to learn, and it will take even top geniuses many years to even grasp the surface of this technique, hence why most people avoid it.

"T-This technique will be free of charge, esteemed guest..." The young man said to Yuan with a smile on his face.

"What?! Free of charge?!" Yu Rou exclaimed with disbelief on her face. How come she has to pay 200,000 gold coins for her technique whilst Yuan won't be charged even a single coin? That's outrageous!

"Yes, one can receive a technique of their choice for free if they qualified to enter the third floor," Yuan explained to her why he didn't need to pay.

"Unfair..." Yu Rou sighed.

Sometime later, Yuan paid the young man 200,000 gold coins for Wind Blade, leaving only a little over 200,000 gold coins for himself.

'If I keep spending money at this rate, my wallet won't last, and I'll run out of money before Yu Rou returns to school!' Yuan cried inwardly.

However, no matter how much it might pain his heart or wallet, he won't be humble when it comes to helping Yu Rou.

"Thank you for your purchase, esteemed guests!"

The young man handed the techniques back to Yuan who then handed the Wind Blade to Yu Rou.

"Thank you, brother!" Yu Rou accepted the Wind Blade with an ecstatic expression on her face.

Sometime later, they left the Myriad of Techniques.

"Although I won't be here for long, I hope to see you again in the future, Daoist Yu Tian," Zhu Yuying said to him at the entrance.

"Yes, thank you for everything, too." Yuan nodded at her.

After leaving the Myriad of Techniques, Yuan asked Yu Rou, "What should we do now?"

"It's getting late, brother. And it's almost time for dinner, so we'll stop here for today."

"Okay, I will see you on the other side," Yuan said.

Yu Rou logged off a few seconds later.

"We'll be back tomorrow, Xiao Hua."

Xiao Hua nodded and disappeared into his necklace.

Yuan also logged off shortly later.

"..."

"..."

"..."

"W-What the heck?"

Yuan immediately frowned after logging off, as a strong smell that resembled rotten eggs suddenly assaulted his nose.

"What's this smell?! It smells like shit!" Yuan felt like puking, but then he realized something.

'Wait a second... this smell... I have smelled this awful smell before...' Yuan suddenly recalled the impurities his body had discharged.

However, that only made him more confused. Why would he be smelling something that he'd experienced in the game?

A moment later, the door opened, and Yu Rou walked into his room

"Brother, here I am— Ahhhh! Brother?! Are you okay?!" Yu Rou suddenly shrieked in a terrified voice shortly after entering his room.

"W-What happened, Yu Rou?!" Yuan was startled by her shouting.

"Why does this room smell so awful, and what are those black gunk sticking to your body?!"

Yu Rou exclaimed.

"B-Black gunks...?" Yuan immediately turned speechless after hearing her words.

Although he couldn't see his own body, in Yu Rou's eyes, his body was pretty much submerged in this black gunk, looking like someone had poured a bucket of waste on him.

"P-Please wait for a minute, brother! I will be right back!" Yu Rou immediately ran back outside to look for the servants.

Meanwhile, Yuan was pondering with a serious frown on his face.

'Black gunk... Impurities? No, that shouldn't be possible. Why would my real body discharge impurities when it happened in the game? But this

awful smell is exactly like the impurities in the game,' Yuan pondered and pondered, but he was unable to find an explanation for this phenomenon.

"What if... what if what happens in the game also affects the real world...?" Yuan mumbled in a low voice before turning silent again.

A moment later, he laughed, "Hahaha! What nonsense am I thinking? There's no way that's possible! If that was the case, wouldn't I also be able to cultivate in the real world?"

After laughing for a few seconds, Yuan suddenly stopped laughing and mumbled to him, "Well... it won't hurt to try..."

Yuan took a few deep breaths as he would before cultivation, and he tried to recall the technique Heaven's Secret Art.

A moment later, almost as though it was embedded inside his memories, the scripture appeared inside his head. However, just because he can remember the contents of the technique does not actually mean he'll be able to use it.

A few more moments later, Yuan took another deep breath before he started reciting the cultivation technique 'Consuming Heaven Technique' as though he was cultivating in the game.

One second... two seconds... three seconds...

"Ouch!"

Yuan suddenly cried out loud after feeling sharp pain appear all over his body, feeling as though he was being stabbed by needles everywhere, which quickly forced him to stop cultivating.

"W-What was that...?"

Yuan mumbled in a dazed voice, as he wasn't expecting anything to happen. However, to his surprise, his body actually had a reaction when he tried to cultivate! Even though it was unpleasant and very painful, it is still a reaction nonetheless!

And wanting to confirm that it was not just his imaginations, Yuan tried to cultivate again.

A few seconds later, the same pain occurred within his body.

"Ah! It hurt! It really hurts! Hahahaha! It actually hurts! I can actually feel something!" Yuan laughed loudly, as it has been a long time since he had felt any profound sensation from his body ever since it became numb and crippled.

Sometime later, Yu Rou returned to his room with a wheelchair and some servants.

Cough *Cough*

The servants were caught off guard by the intense smell and began coughing, feeling like they were being choked by the stench.

"Brother, let's get you out of that bed and clean those black gunk off your body. I have also called for a doctor who will be here shortly to look at your body." Yu Rou said to him as she pulled his body from the sticky impurities with effort and while ignoring the smell that was assaulting her nose.

Once Yuan was seated in the wheelchair, Yu Rou said to the servants, "I want this place cleaned up by tomorrow morning. However, keep some of that black gunk for the doctor to examine later."

"Yes, Young Lady."

The servants bowed to her with respect, not daring to utter a single complaint in her presence.

After Yu Rou left the room with Yuan, the servants immediately began to curse under their breaths.

"What the heck! Why do we have to clean after that cripple?!"

"What even are these black gunks? It's all sticky and nasty, not to mention its horrendous smell!"

"This is probably caused by the young master's condition. I have never seen anything like this before, but I won't be surprised he dies within the next few days..."

"Hmph! The faster he passes the better!"

"I feel bad for the young lady, who wasted so many hours of her life tending to him only for him to die like that..."

While the servants started cleaning the stinky room and the dirty bed, Yu Rou entered the bathroom with Yuan.

After taking off Yuan's clothes, Yu Rou used the showerhead to rinse the impurities off his body.

Once that was done, she began scrubbing his body that was still sitting on the wheelchair with some fragrant body wash. However, because the stench from the impurities was quite strong, Yu Rou had to wash and rinse his body three times before the rotten smell could fully disappear.

"I'm sorry, Yu Rou..." Yuan sighed.

"What are you saying now? I have been washing your body like this once a week for years now— this is not much different except for the smell." Yu Rou said to him.

And she continued, "I can only hope that it's nothing serious and the doctor can explain what had caused that black gunk to appear... It's sticky and oily like wet slime, but I have never seen anything like this before..."

"Me too..." Yuan said.

While he has an idea of what the black gunks are and why it appeared, he didn't dare to say it to her without confirmation, as he'd only sound crazy for saying such a thing.

A few minutes later, after rinsing Yuan's body for the fourth time, Yu Rou said, "Give me a moment to rinse myself off."

Sometime later, once Yu Rou cleaned the impurities that were sticking to her body, she pulled Yuan's light body off the wheelchair and carried him into the massive bathtub that was right beside them before sitting in the bathtub with him.

"How do you feel right now, brother? Does it hurt anywhere? While there are no injuries on your body, I am still worried about your condition." Yu Rou asked him while hugging his back from behind.

"No, I am perfectly fine," he quickly responded.

"Haaa... When I first saw you submerged in that black gunk, I was nearly scared to death, thinking that something terrible might have happened to you," she sighed in relief afterward.

However, she still wasn't free of worries, as she still needed to know why his body discharged that black gunk.

Chapter 75 - Doctor Wang

After sitting in the large bathtub for a few minutes, Yu Rou suddenly noticed something different about Yuan's body, and she decided to ask, "Is it just me or... did you get fatter, brother?"

"What? Have you been feeding me more soup than usual?" Yuan responded in a puzzled voice.

"No, I measure everything I cook, and I don't recall increasing the size of your meals. However, your body is clearly fatter than before, and it's not as boney!" Yu Rou said as she looked at his bare body with a wondering look.

"Are you sure you aren't imagining things? I cannot imagine why I would suddenly grow fatter... It's not as if I had been eating more—" Yuan suddenly stopped talking midway through his sentence, as he realized something.

Although he hasn't been fed more by Yu Rou, his meals have indeed increased recently— and by a fair amount!

'Impossible... Could it be caused by my food consumption in the game...?' Yuan thought to himself, and his suspicions grew stronger.

"Well, as long as you don't grow to the point where I can no longer carry you, it should be fine, but I'll still ask the doctor about it later," Yu Rou said.

Ten minutes later, a servant knocked on the bathroom door and said from the outside, "Young Lady, Doctor Wang is here."

"Okay, let's get out now, brother." Yu Rou tightly embraced his body from behind before standing up, pulling him with her.

A few moments later, she placed him on a specially made table that was located right beside the bathtub before pressing a few buttons on the table.

Soon, warm wind began blowing from the sides of the table, quickly drying Yuan's body. In the meantime, Yu Rou dried her own body with a towel and wore a clean set of pajamas.

Once she was fully clothed, she helped Yuan with his clothes next.

After placing Yuan back on the wheelchair, Yu Rou led him outside and into another room, where an old man with greyish hair and a long beard was waiting.

"Thank you for coming here despite it being so late, Doctor Wang." Yu Rou bowed to him.

"Don't even mention it. Even if it was past midnight and I am already asleep, I would immediately come here if summoned." Doctor Wang laughed as he stood up and walked to them.

"So? What happened? You sounded pretty frantic on the phone, so I thought something must've happened to the Young Master. But he seems perfectly fine." Doctor Wang said after looking at Yuan's condition with his bare eyes. "In fact, he looks even healthier than my last visit!"

"Well, you see..." Yu Rou proceeded to explain the situation, telling Doctor Wang about the black gunks that smelled like rotten eggs and Yuan getting fatter somehow when he has only been getting lighter throughout the years.

"Black gunks that smell like rotten eggs? Interesting..." Doctor Wang closed his eyes to ponder.

After a moment of silence, he spoke, "I have only heard of such situations in ancient medicine books but have never seen it personally. Do you have a sample of the black gunks that I can look at?"

"Yes! I will be right back!" Yu Rou said as she rushed back to Yuan's room for the sample.

Once Yu Rou left the room, Doctor Wang looked at Yuan with a pitiful gaze. Out of the tens of thousands of patients he'd treated before, Yuan's condition was one-of-a-kind. While he has seen patients with similar conditions, they were mostly caused by accidents or due to natural-born illnesses. Yuan, however, is neither sick nor injured— at least not a single doctor from around the world was able to find anything wrong with his body after many years of effort. Even Doctor Wang himself, who is recognized as one of the best doctors in the world, cannot find the source of Yuan's problems and was baffled by this phenomenon.

"Young Master, have you felt any pain or uncomfortable feeling within your body lately?" Doctor Wang asked Yuan sometime later.

"No," Yuan said, not telling Doctor Wang about the pain he'd felt when he tried to cultivate.

"What about other feelings besides pain or discomfort?"

"Well, this might sound weird but I have been feeling more energetic as of lately. If I could, I would be jumping around right now," Yuan said with a bittersweet smile.

"Full of energy...?" Doctor Wang looked at Yuan with wide eyes. This is his first time hearing such words coming from Yuan's mouth.

"What about your diet? Have your meals changed lately?" Doctor Wang then asked.

"No, I am still eating nothing but soup," Yuan said in a sighing voice.

"What about the amount? Did the Young Lady increase your portions?"

"No, she told me that herself not long ago."

"I am going to feel your pulse now." Doctor Wang then turned his hand and began examining his pulses.

A few moments later, Doctor Wang retrieved a stethoscope from his bag and began listening to Yuan's heartbeats.

"Hmm... how strange..." Doctor Wang suddenly mumbled in a puzzled voice.

"Is there something wrong?" Yuan asked him with a worried frown.

"Hm? Oh, no! In fact, it's the opposite of that!" Doctor Wang responded in a surprised voice, and he continued, "My eyes were not wrong— Your condition has indeed improved since our last checkup!"

"Really?" Yuan exclaimed in an excited voice. Even though his improved condition doesn't have any meaning overall and he's still crippled, it still made him happy to know that he was getting healthier, and it will also make Yu Rou happy once she hears about it.

"I wouldn't lie to my patients even if it's the last thing I do," Doctor Wang chuckled.

A few minutes later, Yu Rou returned to the room with a small plastic container that contained a little of the impurities that were discharged by Yuan.

"Hoh? This is the blank gunk that came from the Young Master's body? Fascinating..." Doctor Wang looked at the impurities with great interest, and he continued, "It resembles dirty engine oil at glance, but I have never seen anything like this before."

"Can I open it?" He looked at Yu Rou, who immediately looked hesitant.

Yu Rou then walked to the door with Yuan before opening the door a little.

"Okay, you can open it now!" Yu Rou said to him afterward.

"..."

Doctor Wang stared at her with wide eyes. Surely, the smell isn't as bad as they make it out to be, right?

After swallowing his nervousness, Doctor Wang opened the contain slightly and took a quick sniff of the black gunk inside.

Urg!

Doctor Wang gagged after smelling the stench and immediately sealed the container again.

"What in lord's name was that foul smell?! I had many unpleasant experiences with foul smells as a doctor but this experience was almost unbearable!" Doctor Wang exclaimed with trembling hands before placing it on the floor, as he didn't even dare to touch the container anymore.

After a moment of silence, Doctor Wang continued, "I will have no idea what that black gunk is without examining it more closely with proper equipment, so I'll bring it back to my lab first thing tomorrow to examine it."

"Thank you, Doctor Wang." Yu Rou said to him from the door, still not daring to approach him.

"Anyway, I have examined the Young Master's body and wasn't able to find anything wrong or different about him except the fact that his body is slightly healthier than before." Doctor Wang gave Yu Rou a brief explanation of the results.

"Nothing wrong with him? His health even improved? Are you sure about that, Doctor Wang?" Yu Rou looked at him with a pleasantly surprised look.

"Yes, so you shouldn't worry about this incident too much. However, without identifying that black gunk, I do not dare to give you a clearer answer."

"That's okay! I am already more than satisfied with the results!" Yu Rou said with a bright smile on her face.

"Did you hear that, brother? You're getting healthier!"

"Yes... I heard..." Yuan said with a slight smile on his face.

"Anyway, since there's nothing else we can do before I examine the black gunk, I will take my leave now. Though you should continue keeping an

eye on the Young Master just in case anything else happens, and if that happens, make sure to call me and I will drop everything and run here."

"I will! Thank you again, Doctor Wang!" Yu Rou bowed to him as he left.

"Hahaha... I am envious of you, Young Master. If only I had such a caring sister to take care of me every day!" Doctor Wang laughed loudly as he disappeared from their sight.

Once Doctor Wang left, Yu Rou said to Yuan, "Brother, let's sleep together tonight. The maids are still cleaning your room, and like Doctor Wang just said— I need to keep an eye on you."

"Okay, I'll be in your care tonight," Yuan said.

A few minutes later, once Yu Rou returned to her own room with Yuan, she suddenly said, "Oh, right. You still haven't eaten because of this incident. I will be right back, brother."

After carrying Yuan onto her bed, Yu Rou disappeared into the kitchen to prepare dinner for him.

'Now that I am alone, let's try cultivating again. Even though it hurts like hell, the pain gradually lessens the more I try to cultivate.' Yuan said inwardly as he prepared himself mentally for the pain.

Sometime later, Yuan took a deep breath and began reciting the cultivation technique in his head.

Chapter 76 - Feeling Nothing But Pain

"Ouch!"

"..."

"Ah!"

"..."

"Shit!"

"..."

"Ack!"

Yuan spent nearly half an hour trying to cultivate while enduring the intense pain that came from it but to no avail, feeling nothing but pain and with no progress.

'Why? Why can't I cultivate when there's clearly a reaction? Every time I feel like I am close to a breakthrough, the pain immediately interrupts my breakthrough!' Yuan sighed inwardly.

'I guess I'll have to ask Xiao Hua and see if she knows something about this...'

Once Yu Rou returned to the room with dinner a few minutes later, Yuan decided to stop cultivating for the time being to eat dinner.

Sometime later, Yu Rou said to him, "Brother, you can go ahead and sleep first, I am going to surf the internet to see if there is anything we can do together tomorrow."

"Okay. Goodnight, Yu Rou." Yuan said to her.

"Goodnight, brother." After tucking Yuan into bed, Yu Rou went to her computer and began surfing the internet, and as usual, she went to look at the forums to see if there was anything new or important she should know about.

'Player Yuan made the headlines again? What did he do this time?' Yu Rou saw the posts that were marked 'hot' and quickly clicked on the link.

[Player Yuan has become the first player to learn a Heaven-rank technique!]

[Player Yuan shocks the world again with his insane progression speed!]

[Just how is Player Yuan these high-ranking techniques!? Click here to find out!]

'So Player Yuan now has a Divine-rank technique and a Heaven-rank technique, whilst the rest of us are still running around with Mortal-rank techniques...' Yu Rou shook her head.

This Player Yuan is simply too amazing and unfathomable. How is he able to achieve such results? What is he doing differently from others? Is he really even a real player? What if Player Yuan is actually an admin screwing with everybody? That seemed more plausible than Player Yuan being a cheater.

After reading all of the new forum threads about Player Yuan, Yu Rou for some reason decided to turn to look at her brother, who was already sound asleep on her bed.

"..."

After pondering for a good moment, she returned to the internet and searched for the Wealth Leaderboards.

"What! There are already so many people on the Wealth Leaderboards?!" Yu Rou exclaimed in a low but surprised voice.

It has only been a few days since the Wealth Leaderboards was unlocked by Player Yuan and there were already a thousand players from all around the world that has managed to amass over one million gold.

Obviously, these thousand people were not your regular players but some of the wealthiest players in the world who took advantage of their wealth to buy gold coins from other players through Real World Trading just so they can get onto the Wealth Leaderboards.

'Let's see if I can find my brother's name here...' Yu Rou began scrolling through the thousand names.

After all, if Yuan could easily take out 431,000 gold coins and spend it on her without batting an eyelid, he should be on the Wealth Leaderboards.

However, Yu Rou was unable to find the name 'Yu Tian' on the Wealth Leaderboards even after scrolling all the way to the very bottom of the list, which was not too surprising, as he'd spent nearly half a million already, and that could have kicked him off the Wealth Leaderboards.

'Now that I think about it, what is Brother Tian's name in Cultivation Online? I never got to ask him,' she thought to herself after this realization.

'Whatever, I'll just ask him tomorrow...' Yu Rou shrugged before returning to the forums, where she navigated to the 'Events' section.

Once she was in the 'Events' section, where players from all over the cultivation world share their experience with past and ongoing events to others for contribution points, which they can redeem for gold coins in-game.

'Let's see if there are any ongoing events near Spring City that we can attend together...' Yu Rou proceeded to type 'Spring City' in the search bar.

Literally, a second later, over 10 pages of results that mentioned Spring City was in front of her.

'Hmm... Most of these have already ended... Oh? What's this?'

[There will be a major event tomorrow at Spring City where the lord of the city— the Xuan Family— will be hosting a Disciple Recruitment Exam for the Dragon Essence Temple, a very prominent sect in the cultivation world! Only those above the 3rd level Spirit Apprentice realm can join!]

"Dragon Essence Temple? Recruiting disciples?" Yu Rou raised her eyebrows.

She then opened a new tab on her web browser and looked up the term 'Sect'.

"Let's see... Sects are an organization dedicated to the practice of cultivation and martial arts. Disciples from a Sect can receive training from the Sect Elders and may even obtain valuable rewards from the Sect to further assist their cultivation."

"My! So they are basically schools for Cultivators!"

Yu Rou then turned to look at Yuan again, thinking to herself, 'If I recall correctly, brother has always expressed his desire to experience school life. Even though he cannot do that in this world, he can definitely do it in the cultivation world! Albeit it'll be different from our schools, it's better than nothing at all!'

'Good! It's decided! We'll try to join this sect together and do our best as Cultivators!' Yu Rou nodded to herself with a resolute expression on her face.

After looking around the internet for a few more minutes Yu Rou also went to bed, but since Yuan cannot feel his body and his body itself is quite fragile, she must make sure to keep a safe distance from him and even place some padding between him to make a small wall, as it would be disastrous if she accidentally rolled into him and injure his body.

Once she closed her eyes, Yu Rou fell asleep rather quickly.

—

Yu Rou woke up early in the morning, as usual, to clean herself before preparing herself for her piano lessons.

Once her morning lessons were done, Yu Rou went to prepare breakfast for Yuan.

"Good morning, Yu Rou," Yuan greeted her when she returned to the room with food in her hands.

"Good morning, brother. It feels weird to be greeting you in my own room," she chuckled.

After washing Yuan's face and brushing his teeth, Yu Rou fed him chicken soup.

"Brother, I think I know what we should do next," she said to him as she fed him.

"What do you want to do?"

"You have always wanted to experience school, right? Well, there are these places known as 'Sects' within Cultivation Online, and they are basically schools for Cultivators. I know they're not the same, but it's the only way for you to experience school right now."

"Sects? What a coincidence! I was also about to ask if you wanted to join one with me!" Yuan said in a surprised voice.

"Really? Then should we join one?" she asked.

"Of course!"

"Great! Then we should participate in the event in Spring City today!" Yu Rou said to him.

"Event? What event?"

"There's an event in Spring City where the lord of the city, the Xuan Family, will be recruiting disciples for the Dragon Essence Temple! If we pass this exam, we should be able to join this sect!"

"The Xuan Family and the Dragon Essence Temple?" If Yuan could see right now, he would be staring at Yu Rou with wide eyes filled with surprise.

What a coincidence! Not only did he plan on joining the Dragon Essence Temple in the future but he also knew the Xuan Family!

"Okay, that sounds good," Yuan said.

"Then it's decided!"

"Ah, one more thing, brother. Your room is still being cleaned by the maids, so you'll play beside me today," she said to him.

"Oh... I forgot... Your gaming helmet was also submerged in that black gunk and was tossed in the trash last night, so we'll have to get you a new one."

"What?! They threw away my gaming helmet?! What about my account? Don't tell me I'll have to create a new account! You must retrieve that helmet no matter how bad it smells!" Yuan cried out loud, his voice filled with panic. He cannot imagine what he'll do if he really has to create a new account because of this! What will happen to Xiao Hua, who is still inside the necklace? Would she remain there forever? That's terrifying to even think about!

"There's no need to panic, brother. Did you forget? You can only have one account and one character, and it doesn't matter how many times you change the gaming helmet, you'll still be able to play your character."

"Oh... right... I indeed forgot about that." Yuan said in a low voice before sighing in relief.

"Anyway, I'll go tell someone to buy one right now."

Yu Rou left the room to tell a maid to buy another console for Yuan.

About an hour later, the maid returned to Yu Rou with a brand new gaming helmet.

Once everything was prepared, Yu Rou and Yuan both laid on the same bed with the gaming helmet on their heads.

"I'll see you inside, brother." Yu Rou said to Yuan before pressing the power button on his helmet, sending him into the game first before going inside herself.

"Welcome back, Brother Yu— Tian..." Xiao Hua left the necklace a second after he logged on.

"Xiao Hua... Thank god you won't be trapped inside that necklace forever..." he sighed again after seeing her cute face.

"???" However, Xiao Hua merely looked at him with a puzzled look on her face. Why would she be trapped inside the necklace forever?

Chapter 77 - Dragon Essence Temple Exam Token

Yu Rou entered the game a few moments after Yuan.

"Are we all ready to take this exam?" Yu Rou asked them.

"Exam?" Xiao Hua looked at Yuan, as she had no idea what they were talking about.

Yuan proceeded to explain to Xiao Hua their plans for today and how they are going to partake in this exam to become disciples for the Dragon Essence Temple.

"Brother Tian is going to become a disciple for the Dragon Essence Temple? But it would be much more efficient for you to stay as a Rogue Cultivator and find resources in the wilderness than to join a Sect since you will have to compete against tens of thousands of disciples from the Sect for resources, and the resources you get are not very valuable." Xiao Hua said to him, finding his purpose quite puzzling and unnecessary.

"I know what you mean, but I am not becoming a disciple for the resources. Instead, I want to experience life as a Cultivator and see how the other Cultivators live. If I am going to become stronger as a Cultivator, I should know more about them, right?" Yuan said to her.

"..." Xiao Hua turned silent after hearing his response. Indeed, Yuan needed a better understanding of Cultivators and the cultivation world, as he was quite naive in this regard.

Sometime later, Yuan and Xiao Hua began making their way towards this exam site while being led by Yu Rou.

As they were walking, Yuan asked Xiao Hua, "Xiao Hua, can I ask you a few questions regarding cultivation? I need some advice."

"What is it, Brother Tian?" she looked at him.

"Do you know why one might feel pain all over their body when they try to cultivate? It feels like being stabbed by needles."

Hearing Yuan's words, Xiao Hua immediately frowned with a worried expression on her face.

"Brother Tian, are you feeling pain when cultivating?" She asked him, worried that it might be a side effect from eating too many monster cores.

"Eh? N-No... I am just asking," he quickly shook his head.

"Well... There are a few reasons why one would feel pain during cultivation," Xiao Hua said, and she continued, "One of them is simply because their meridians are blocked by impurities or other unnatural things. Another common reason would be damaged meridians. If one has damaged meridians, they would not be able to cultivate until healing them."

"What about a normal person who is trying to cultivate for the first time? When they try to cultivate, their body will feel intense pain, but it also feels as though they are making progress— like they are getting closer to their breakthrough."

"One's circumstances do not matter, Brother Tian. If their body experiences pain when trying to cultivate, there must be something wrong with their meridians or body," Xiao Hua said to him.

"Hmmm... Then are there any methods to help with that kind of problem?" Yuan asked.

"Yes, there are treasures that cleanses one's meridians with some even restoring them to a healthy condition. If one is having trouble trying to

become a Cultivator, there are even treasures that can forcefully assist with their breakthrough. However, since medicines and treasures that can heal or affect one's meridians are very valuable, most people won't be able to buy them."

Xiao Hua then continued, "In fact, the Seven Colored Herb in Brother Tian's possession is a key ingredient in many pill recipes that can affect one's meridians, hence why it's so sought after and valuable."

"The Seven Colored Herb, huh..."

Yuan wondered if he would be able to cultivate in the real world if he consumes these treasures that can heal his meridians.

After walking around the large city for half an hour, Yuan and the others finally reached the place of the exam, and they were able to spot it from very far away due to the large gathering that was already present there.

"Man, I can't wait to join the Dragon Essence Temple!"

"What cultivation level are you now? I just reached fifth level Spirit Apprentice!"

"Haha, since I don't have much time to play, I only managed to reach the third level today."

"What do you think the exam will look like?"

"Who knows. I have never done this before."

"Me neither."

There appeared to be a good chunk of people within the crowd that were players, and they were all filled with excitement as they waited for the exam to start.

"Wow, there's a lot of people here," Yuan exclaimed after seeing the sea of people there.

"That's to be expected, since the Dragon Essence Temple is a renowned Sect, and there are many players that still haven't joined a Sect yet." Yu Rou said to him.

Once they got closer to the area, Yuan looked around for the Xuan Family.

'I don't see Xuan Wuhan or her father... Are they going to be here later?' Yuan wondered to himself when he couldn't see their figures anywhere.

After standing around for a few minutes, a group of individuals wearing similar clothes approached the area.

"If you are here for the initial exam for the Dragon Essence Temple, make a single file line here!" The person in front of the small group— a middle-aged man with an unfriendly face shouted loudly.

Very quickly, the crowd began scrambling around.

A few minutes later, Yuan and Yu Rou managed to secure a spot somewhere in the middle of the line, but they were still behind a least a hundred people.

Once there was an orderly line that snaked around the entire area, the middle-aged man spoke loudly, "I am Elder Kang, a Sect Elder for the Outer Disciples from the Dragon Essence Temple, and I am here today to look for potential new disciples to join our sect. This is just the initial exam to see whether you are qualified to take the real exams, so you won't become a disciple for passing this exam."

"Once you qualify for this exam, you will be able to partake in the real exam directly at the Dragon Essence Temple four days from now."

"Oh... so we won't be able to experience this place together even if we pass this..." Yu Rou sighed, and she continued, "I also have school on that day, so I will miss the real examination regardless."

"Even if we can't go today, we can do it when you can play again," Yuan said to her. "I won't join the sect without you."

"No, I don't want to be a burden for you, brother. My playing schedule is very limited, so I won't be able to play with you too often. I want you to experience the Sect as a disciple even without me!"

"Are you sure...?" Yuan asked her with a slight frown on his face.

"Of course! I wanted to join the sect for you, brother! If you don't join the sect because of me, I'll feel extremely guilty about it, since that's the opposite of my intentions!" Yu Rou said to him.

After a moment of silence, Yuan nodded, "Okay, I'll join the sect."

"That's good!" Yu Rou smiled.

"Once I become a disciple, perhaps I can ask them to make an exception for you, so you will be able to become a disciple even without taking the exam!" Yuan then said to her.

"Unless you become a very important individual in the sect, I don't think they would make that kind of exception..." Yu Rou shook her head.

"There's no need to worry about that because Brother Tian will definitely become a famous disciple in no time," Xiao Hua said to her.

With Yuan's talents, he could easily become a Core Disciple for the Dragon Essence Temple.

"Is that so...?" Yu Rou mumbled, wondering where her confidence was coming from.

While her brother may be exceptionally talented, there are countless geniuses in the cultivation world, and a prominent place such as the Dragon Essence Temple will surely have a few geniuses that could rival Yuan, right? After all, there is a saying 'there's always someone better than you'.

After standing in the line for half an hour, it was finally Yuan's turn to take the exam.

"Name?" Elder Kang asked Yuan without looking at him, keeping his own gaze on the clipboard in his hands.

"Yu Tian," he said.

"What's your cultivation level and age?" Elder Kang then asked in an uninterested tone, almost like he didn't want to be there.

"..."

Yuan immediately hesitated.

"F-Fifth Level Spirit Apprentice, 18 years old," he decided to lie.

'Fifth Level Spirit Apprentice?' Yu Rou looked at him with raised eyebrows and a suspicious gaze. Although she cannot see his cultivation level, surely he must be above Fifth Level Spirit Apprentice, right? After all, he'd defeated four players at the same level with ease!

"Yu Tian, Fifth Level Spirit Apprentice, 18 years old..." Elder Kang wrote his name and age on the clipboard without even looking at him.

"Place your hands on the crystal ball behind me. If it glows green, you pass. Next!"

Yuan nodded and went to touch the crystal ball that was managed by the disciples that came with Elder Kang.

A few moments later, the crystal ball glowed a bright green.

"Congratulations, you pass. Take this token. You'll need it for the real exam. Without it, you won't be able to partake in the examination so don't lose it." The disciple said to Yuan before handing him a small jade token.

«You have obtained 'Dragon Essence Temple Exam Token'»

"Thank you," Yuan said to them before leaving the place with the others.

"You're not going to take the exams, Xiao Hua?" Yu Rou asked her afterward.

"No," Xiao Hua shook her head.

Chapter 78 - Center Of Attention

"Why not? Aren't you going to the sect with Brother Tian?" Yu Rou raised her eyebrows.

"Xiao Hua follows Brother Tian wherever he goes," she quickly nodded.

"How will you follow my brother into the sect if you're not a disciple?" Yu Rou asked.

"Xiao Hua can follow Brother Tian as a servant since disciples are allowed to have servants with them," she responded.

"S-Servant...?" Yu Rou looked at her with wide eyes. However, while Xiao Hua called herself a servant, Yu Rou did not think about the 'pet' system and took her words quite literally as a servant like the maids in their Yu Family's household.

"By the way, what should we do now that we cannot join the sect instantly? Should we just return to doing quests?" Yuan asked a moment later.

"Hmmm... I want to learn the technique we just bought, but I don't want to spend too much time on it..." Yu Rou sighed.

"It's okay. Have some confidence in yourself, Yu Rou. After all, you're also a genius yourself," Yuan said to her with a gentle smile on his face.

"Brother..." Yu Rou nodded a moment later.

"Xiao Hua, do you know of a good place where she can practice silently? Should we return to Cultivators' Haven?" Yuan decided to ask her.

"No, there are better places for learning techniques," she said. "Just like how there are formations that can speed up your cultivation speed, there are also formations that can help with your comprehension. However, it doesn't actually boost one's comprehension skill— only create an atmosphere where one can concentrate much easier."

"That sounds like the perfect place for learning techniques! What is this place called?" Yu Rou spoke with excitement in her voice.

"Pagoda of Tranquility," Xiao Hua said.

"Pagoda of Tranquility? I don't think there's a building in this city with that name..." Yu Rou said.

"That's because there isn't one in Spring City. If you want to go to that place, there's one in Nature City, which is about 1,00 miles away."

"1,000 miles!? It'll take us days to get there!" Yu Rou exclaimed.

"It'll only take a few hours if we fly there," Xiao Hua said.

"F-Fly...?" Yu Rou looked at her with wide eyes filled with surprise.

Xiao Hua nodded with a calm expression on her face before she started levitating in the air.

"Y-You're really flying!" Yu Rou then turned to look at Yuan and asked him, "D-Did you know about this?!"

"Hm? Pretty much." Yuan nodded.

Then he continued, "But how are we supposed to take her with us? I don't think she can use the flying sword even with your help."

"Brother Tian can carry her," Xiao Hua said.

"Hmm... I guess that could work..." Yuan nodded.

He then retrieved the flying sword and waited for Xiao Hua to support it with her spiritual energy.

"I'm going to carry you now, Yu Rou," Yuan said as he lifted Yu Rou's entire body effortlessly.

"B-Brother?!" Yu Rou's face immediately flushed with redness when Yuan suddenly carried her princess-style.

"Hold still, Yu Rou!" Yuan said to her as he jumped onto the flying sword.

'This is a bit awkward, but I should manage...' Yuan thought to himself as he adjusted his balance and posture.

"Are we ready to go, Brother Tian?" Xiao Hua asked him.

"Yes, go ahead, but don't go too fast." Yuan nodded.

A moment later, Xiao Hua flew towards the bright sky whilst controlling the flying sword.

"Look! Immortals!"

The pedestrians pointed at their disappearing figure with awe on their faces, and the Players watched with dazed looks, hoping they would be able to do the same in the future.

"Aaaaaaaaah!!!" Yu Rou screamed with her eyes closed when they suddenly started moving, not daring to open them even many moments later, and her arms were tightly wrapped around Yuan's neck.

"Are you okay, Yu Rou?" Yuan asked her with a smile on his face. "You won't fall, so don't worry."

However, Yu Rou still refused to open her eyes until many minutes later when she was finally getting used to the feeling of flying in the air, but her slender arms remained hugging Yuan's neck tightly.

"Wow..." Yu Rou looked at the passing scenery with her eyes filled with wonder.

"What do you think, Yu Rou? Isn't this world beautiful?" Yuan asked her a moment later.

"Yes!" Yu Rou said.

After looking at the scenery for a few minutes, Yu Rou turned to look at Yuan, who held a gentle smile on his handsome face as he carried her like some kind of prince, and Yu Rou's gaze would remain on his face for the next few minutes.

"Hm? What's the matter?" Yuan looked at her and asked after realizing that she was staring intensely at him.

"N-Nothing!" Yu Rou quickly said in a startled voice, feeling her heart rate skyrocketing afterward.

"A-Actually, I wanted to ask about Xiao Hua... How come she can fly? What cultivation is she at?"

"Uhhh... Spirit...King?" Yuan responded in a weird tone.

"Spirit King? What cultivation level is that?" Yu Rou raised her eyebrows in a puzzled manner.

"I think it's like five realms above the Spirit Apprentice realm?"

"W-Wait! Five realms above me?! That's ridiculously high! And you had someone powerful like her following you around this entire time?! You can literally do anything in this game if you wanted with her around!" Yu Rou stared at him with a shocked gaze, and even more questions appeared inside her head.

How come someone as powerful as Xiao Hua is following him around?
Who is Xiao Hua, exactly?

Yu Rou narrowed her eyes at Yuan with a suspicious gaze, and she asked him, "Brother... I have been meaning to ask you this question for a while now, but what is your in-game name?"

"..."

Yuan's body immediately stiffened after hearing her question, and his back and hands quickly became sweaty.

'Haaa... Why did I pick 'Yuan' as my name? What if she learns about 'that' because of this? I don't want to lose her...' Yuan sighed inwardly.

"Brother? Are you okay? Why aren't you saying anything? It's just your in-game name. There's no need to be so secretive..." Yu Rou said to him a moment later, her suspicions growing even stronger.

"..."

'I could lie to her, but she will learn the truth sooner or later— about my name and 'that', and I cannot bear the guilt of lying straight to her face... not after everything that she's done— sacrificed for me...'

After seeing the perplexed expression on Yuan's face, Yu Rou said, "It's okay, brother. Although I don't know the reason, you don't have to tell me if you don't want to. I can wait until you are ready to tell me."

"No, it's okay." Yuan suddenly said. "I'll tell you."

"Are you sure? You don't have to force yourself..."

"While there are a few reasons why I don't want to say it, you are my precious little sister, and I simply can't say no to you," Yuan said with a bittersweet on his face.

After taking a deep breath, Yuan spoke in a slightly shaky voice, "In this world, I have given myself the name 'Yuan'..."

"Yuan...?" Yu Rou looked at him with wide eyes filled with surprise, but she was not shocked. In fact, she was feeling somewhat relieved.

After staring at Yuan for a good minute, Yu Rou turned to look at Xiao Hua, who was staring back at her with a silent gaze.

Yu Rou then closed her eyes and took a deep breath before speaking in a surprisingly calm voice, "I see... so you were Player Yuan this entire time."

"I'm sorry for trying to hide it from you, Yu Rou. It's just that there are many people who are angry at me and trying to hunt me for some reason, and I didn't want you to think of me as some villain or someone who is hated by others..."

Yu Rou shook her head and even caressed his cheeks with her hand, "Don't be silly, brother. I don't care what the others think about you, and even if the entire world is against you, I would never hate you. After all, you are still my precious brother who was always there when I needed someone..."

She then continued, "And I think I know the reason why so many people are trying to hunt you, so you don't need to worry about that."

"Really? Why?" Yuan asked her.

"It's simple, brother. They are jealous of you— of your talents. No matter if it's the real world or in video games, there will always be people who will be envious of your talents, so you shouldn't pay too much attention to them."

"Anyway, as expected of you, brother. Not only did you shock the world with your talents in the real world but you are also causing quite the commotion in the gaming scene. No matter where you go, whether you are aware or not, you are always in some kind of spotlight."

"Haha... you are exaggerating, Yu Rou..."

"Whether I am exaggerating or not, it is a fact that you have once again become the center of attention across the world. Although the world may no longer care about the name 'Yu Tian' after you disappeared from the entertainment world, everybody is currently paying attention to the name 'Yuan' and watching your every step, so make sure you don't let them

down, brother. Of course, I will also be watching you." Yu Rou said to him with a smile on her beautiful face.

"Un." Yuan nodded.

Chapter 79 - Pagoda Of Tranquility

'So Brother Tian is actually the mysterious Player Yuan, huh...' Yu Rou thought to herself with a subtle smile on her face as she rested her head on Yuan's chest as they soared across the sky on a flying sword. 'No wonder why I was so interested in his identity. Maybe I somehow knew that it was my brother, hence why I took interest in him in the first place...'

'As for Player Yuan being a little girl, it must be Xiao Hua that they're talking about since they are always together. How did they even mistake her for my brother?'

'If mother and father learn about this, they will probably be shocked... but I cannot tell them, or they might try to take advantage of brother again, and I cannot allow him to suffer anymore...'

Yu Rou lifted her head slightly to look at Yuan's handsome face again, and he looked much better than before, as he felt as though the invisible mountain on his shoulders had disappeared after telling Yu Rou the truth.

'Player Yuan... the only player in the world with a Divine-grade and Heaven-grade technique... He also has a Divine-grade servant... Hmm?'

Yu Rou suddenly realized something, and she opened her mouth to speak, "Brother, you have a Divine-grade servant right? What does it look like? Can you summon it for me to see later?"

"Uhh..." Yuan turned to look at Xiao Hua and said, "I'm pretty sure you have already met her..."

Yu Rou also turned to look at Xiao Hua, her gaze filled with shock.

"What?! Xiao Hua is the Divine-grade Servant?! Humans can also be Servants?! I had no idea that was even possible!" Yu Rou exclaimed after learning this shocking information.

"No wonder why she's following you around despite her crazy cultivation level! You sure are lucky to find someone like her, brother!" Yu Rou said to him.

However, Xiao Hua shook her head and said, "No, Xiao Hua is the lucky one to have met Brother Tian."

"You can call me Yuan again, Xiao Hua," Yuan said to her.

"Okay, Brother Yuan." Xiao Hua nodded, feeling more familiar with this name.

"Brother, can you tell me about your adventures as Yuan?" Yu Rou asked him sometime later, and she continued, "I would love to know the story behind Player Yuan's achievements."

Yuan nodded and said, "Of course."

He proceeded to tell her about his adventure since he started the game. He began the story with how he met Xiao Hua. Then he told her about his encounter with these two experts fighting each other in the sky before his adventures at the Flying Sword Sect. Then he recalled what happened at the auction house and how he managed to unlock the Wealth Leaderboards, becoming the richest player in the game instantly. He told her about the dangers of this world and how he encountered and killed the Demonic Spider. And lastly, he spoke about what happened at Pang City and how he defended the city from tens of thousands of monsters, eventually slaying the Mountain Lord and becoming the hero of an entire city.

Yu Rou held a shocked face as she listened to his ridiculous story that sounded like a fantasy, yet her heart was filled with admiration for Yuan, who managed to achieve so many unbelievable things in such a short time.

"What a crazy adventure you've experienced, brother. It's like you started your adventure in the endgame while everyone else started from the very beginning. If not for you, I would still be doing gathering quests right now and probably for the rest of the week."

"What about your goals, brother? What do you hope to achieve in this game?" Yu Rou then asked him.

"I originally wanted to just explore this world at my own pace and have fun together with you, but now..." Yuan paused for a moment before continuing, "I want to become strong and raise my cultivation base so that nobody can bully us like what happened when those players tried to rob us."

"Then my goal is to become strong enough so that I won't slow you down, Mr. Player Yuan!" Yu Rou chuckled.

Yuan smiled and said, "Like I said, Yu Rou. You don't have to worry about that. I'll play with you regardless of how far you are behind, and I am also going to do my best to assist you."

"Un! Now that I know your real identity, I won't be humble about it any longer!" she laughed.

A few hours later, they reached Nature City, landing a few miles from the city because Yu Rou didn't want them to attract too much attention with their flying abilities.

After paying the entrance fees, Yu Rou asked the guards by the entrance, "Do you know where Pagoda of Tranquility is?"

"Yes, if you walk straight down this road, you will arrive at this 3-story pagoda in about 10 minutes." One of the guards quickly answered her question with a slightly bashful expression on his face after seeing Yu Rou's pretty face.

"Thank you!" Yu Rou said with a blinding smile, and the guard felt as though an arrow had pierced his heart.

Once they knew which way to go, Yuan and the other two began making their way to the Pagoda of Tranquility.

Sometime later, they arrived at this luxurious pagoda that gave a similar atmosphere to Cultivators' Haven.

"Let's go inside," Yuan said as he entered the building.

"Welcome to Pagoda of Tranquility! How many I help you all today?" The receptionist behind the counter waved at them.

"I'd like to rent a room," Yuan said.

"Which floor would you like a room in? The higher floors will have a higher quality formation, improving the effects and your concentration."

"The best room you have available," Yuan responded without hesitation.

"We have three rooms available on the third floor, and that would be 10 gold coins per hour." The receptionist said.

'Only 10 gold per hour? This is much cheaper than Cultivators' Haven!' Yuan thought to himself.

"Let me get 2 rooms, 10 hours each," he said a moment later.

"That would be 200 gold coins," said the receptionist.

Yuan nodded and handed him the money.

"May I know your names?"

"Yu Tian, Yu Rou, and Xiao Hua," he said.

A few moments later, after writing their names down, the receptionist handed them two keys.

"Thank you for coming to our Pagoda of Tranquility." The receptionist bowed to them before they went upstairs.

Once they were on the third floor, Yu Rou said to Yuan, "Brother, I am going to spend 4 hours and see if I can learn it by then."

"Don't worry, Yu Rou. You can spend as much time as you need, and knowing your talents, I am confident that you'll learn it in no time," Yuan said to her.

Yu Rou nodded and went into one of the available rooms that had a wooden door instead of a boulder this time, as learning techniques did not require as much peace and silence as one would during cultivation.

Once Yu Rou was inside the room, she immediately sat down on the floor and retrieved the Wind Blade technique from her storage pouch, and she began studying it with a serious expression on her face.

Meanwhile, inside Yuan's room, he was sitting in the lotus position as Xiao Hua recited Heaven's Secret Art for him. Even though he does not have any new techniques to learn, he was nowhere near mastering the Divine-grade technique, and he wanted to take this chance to improve his understanding as much as possible.

'If I have a better understanding of this technique, I might be able to finally cultivate in the real world, too.' Yuan thought to himself as he closed his eyes and listened to Xiao Hua recite the technique for him.

Four hours passed in the blink of an eye, and Yu Rou knocked on Yuan's door.

"How did it go, Yu Rou? Did you learn the technique?" Yuan asked her after opening the door.

"No," she shook her head, and she continued, "But I am getting very close to understanding it! I just need a few more hours!"

"Take as long as you need, Yu Rou. If 10 hours isn't enough, I'll pay for more." Yuan said to her.

"It's alright, brother. I should learn the technique with the remaining 6 hours left!" She spoke with confidence written all over her face before she returned to her own room and continued to study the technique.

Yuan also returned to listening to Xiao Hua's voice shortly later.

A few hours later.

«Your comprehension for Heaven's Secret Art has reached a new level»

«Heaven's Secret Art Mastery Level (2) → (3)»

«You have learned Heaven's Third Secret Art — Heavenly Domain»

Heavenly Domain

Rank: Divine

Mastery Level: 1

Description: Holding absolute authority within your domain, dominate the battlefield, and pressure your enemies with the Heavenly Domain!

"Heavenly Domain..." Yuan mumbled in a low voice after learning this technique.

"Congratulations, Brother Yuan. You are only in the Spirit Warrior realm, but your understanding of Heaven's Secret Art is already near Xiao Hua's level. It's almost like this technique was made for you." Xiao Hua said to him afterward.

"Thank you, Xiao Hua. This array below us is amazing. My mind is much clearer than normal, allowing me to concentrate even more." Yuan said to her.

"Anyway, even though there's still some time before our time is over, let's leave for now and wait for Yu Rou to finish."

Yuan and Xiao Hua left the room shortly later and proceeded to stand outside Yu Rou's room, patiently waiting for her to finish her last hour inside the room.

Chapter 80 - Results

«You have learned Wind Blade»

Wind Blade

Rank: Mortal

Mastery Level: 1

Description: Summon wind blades that can attack foes from a distance.
Requires at least 500 Qi to activate.

"Yes! I finally managed to learn it!" Yu Rou exclaimed in excitement after seeing the notification, feeling relieved that she did not have to waste any more time on it.

"How much time do I have left in this room?" Yu Rou turned to look at the timer beside the door.

"10 minutes left?!" Her eyes widened with surprise after seeing that it'd taken her nearly 10 hours to learn a single Mortal-rank technique.

"I really cannot compare to Brother Tian who can learn techniques as easy as breathing," she sighed loudly.

After storing the Wind Blade technique into her storage pouch, Yu Rou went outside to knock on Yuan's door, but to her surprise, he was already outside and waiting for her.

"Brother... When did you come out? I didn't make you wait too long, right?" she asked him.

"No, we just came out," he said with a smile.

"Anyway, how did it go? Were you able to learn the technique?"

"Un!" Yu Rou nodded with a bright smile. "I barely managed to learn it in those 10 hours!"

"Congratulations, Yu Rou," Yuan said.

"I am nothing compared to you, brother." Yu Rou shook her head.

"That's not true," he said.

"You don't need to try and comfort me, brother. I have known very well about the difference between our talents for years now— this is nothing new." Yu Rou said, and she continued, "Anyway, now that I have learned a new technique, I would like to use it, so let's go hunting some monsters!"

Yuan nodded, "Okay, where do you want to go?"

"Anywhere that has low-level monsters, preferably ones around the first level to second level Spirit Apprentice," she said.

"There are plenty of beasts below the third level Spirit Apprentice a few miles from this city," Xiao Hua said.

"Great! Then let's go!" Yu Rou said.

They proceeded to walk downstairs and returned the keys to the receptionist before leaving the building.

Once they were outside, Yuan retrieved his flying sword and jumped onto it with Yu Rou in his arms.

A few moments later, they soared towards the sky and flew for a few minutes until they were a couple of miles away from Nature City.

"There are a few first-level Spirit Apprentice beasts below us," Xiao Hua said to them.

"Oh! I want to fight them!" Yu Rou said.

Xiao Hua nodded, and they descended to the ground a moment later.

"Where is it?" Yu Rou asked after they landed.

"200 meters that way." Xiao Hua pointed south.

"Okay!"

Yu Rou proceeded to walk in that direction with wide strides, clearly impatient to try out her new skill.

"Slow down, Yu Rou. The monsters aren't going anywhere," Yuan said to her with a smile after seeing her excitement.

A few moments later, Yu Rou could finally see the monster; it was a slightly oversized fox with orange fur and red eyes.

"That's a Red-eyed Fox. They are nimble but weak. If you don't hit it with your first strike, you won't have a second chance because it will run away," Xiao Hua said in a low voice.

Yu Rou nodded and retrieved her Spirit Waver.

After taking a deep breath, she gathered her spiritual energy before waving her fan a moment later.

"Wind Blade!"

An arc of wind resembling long-distance sword attacks suddenly flew from the Spirit Waver and at the Red-eyed Fox.

However, because this is Yu Rou's first time using the skill and the Spirit Waver, her aim was way off target, missing the Red-eyed fox by a long shot.

Bang!

The Wind Blade did a weird turn in the air before flying into a tree and destroying it with ease.

When the Red-eyed Fox saw this, it immediately turned around and ran away.

"Wow... No wonder why this skill cost so much despite being a Mortal-rank technique! It's really powerful!" Yu Rou's eyes flickered with excitement after seeing the skill's destructive power.

"The strength is comparable to a technique at the Earth-rank technique," Xiao Hua said to her.

And she continued, "If it doesn't hit the target, it won't matter even if the technique is the strongest in the world, though."

"I know, but it's actually very hard to control this skill." Yu Rou sighed.

"Unless you're Brother Yuan, one would normally require many hours of training before they can use a newly learned technique properly."

"Even if I have to practice for hundreds of hours, I am going to perfect this skill that my brother bought me!" Yu Rou said with a resolute expression on her face.

Sometime later, they continued to hunt low-level monsters with Xiao Hua giving the directions and Yu Rou trying her best to hit her targets.

An hour and countless misses later, Yu Rou finally managed to hit her target with Wind Blade, brutally cutting the monster in half as it did to the tree before.

"Uwa... Isn't this technique like... a little too powerful?" Yu Rou realized this after she witnessed how the monster nearly exploded into a bloody mess.

"Isn't it a good thing that the technique's powerful?" Yuan tilted his head, not understanding her worries.

"I mean, of course, but it's a little too brutal for my taste." Yu Rou sighed. How can an elegant young lady like her use such a savage technique? It would definitely ruin her graceful image!

"Then do you want a new technique?" Yuan asked her.

"No, this is fine. It may be a brutal technique, but I don't dislike it. I just need to get used to the scene of my opponents being torn apart by the skill." Yu Rou said.

"Anyway, let's continue hunting monsters. The only way I can get better with this skill is by using it over and over again! Therefore— onto the next monster, Xiao Hua!" Yu Rou pointed in a random direction with her fan with a profound expression on her face.

"Okay..." Xiao Hua nodded.

And for the next few hours, until it was time for dinner, Yu Rou would hunt monsters continuously using her Wind Blade whilst Xiao Hua led her around the wilderness.

As for Yuan, he merely followed them in silence. However, it was not as though he was completely relaxed, as he still had to make sure that no harm would come to Yu Rou, so whenever they approach a monster, he would mentally prepare himself just in case he needed to step in and protect Yu Rou.

"Brother, I have hunted so many monsters, yet not one of them dropped a single monster core, why is that?" Yu Rou asked him at the end of their adventure.

"That's because only monsters above seventh level Spirit Apprentice drop them," he responded. "Did I get that right, Xiao Hua?" he asked her just in case.

"That's right," she nodded.

"Seventh level Spirit Apprentice, huh? That's a long way..." Yu Rou sighed.

"Anyways, I am going to log off now to cook dinner, brother. You can play a little longer until dinner is ready if you like."

"No, it's fine. There's nothing I can do in this area in such a short time, anyways."

"Then I'll see you on the other side," Yu Rou said to him before logging off.

"I'll see you tomorrow, Xiao Hua."

"Un. Goodbye, Brother Yuan." Xiao Hua said to him before disappearing into the necklace.

Yuan also logged off shortly later.

Once he was in the real world again and Yu Rou left to prepare dinner, Yuan began trying to cultivate again, hoping that he would have better results after his understanding of the cultivation technique had improved.

"..."

"..."

"..."

"...Ouch!"

Yuan tried to cultivate many times without any progress until Yu Rou returned with the food.

"Are you okay, brother? I heard you yelling in pain just now..." Yu Rou said to him in a worried voice.

"Hm? Oh, it's nothing." Yuan said, not prepared to tell her about trying to cultivate in the real world just yet— at least not until he confirms that it actually works and he's not just going crazy.

"If you feel any pain in your body, don't hesitate to let me know, okay?" Yu Rou said to him afterward.

"Don't worry, I won't," Yuan said.

"Good. Anyway, I have some news. Doctor Wang will be coming later, and he said that he has some results regarding the black gunk that discharged from your body."

"Okay," Yuan said.

"Let's fill your stomach before he arrives," Yu Rou said as she began feeding him chicken soup.

Sometime later, Doctor Wang arrived at their home, and Yu Rou greeted him with Yuan in the wheelchair.

"You have the results already, Doctor Wang? That was quicker than I'd anticipated," Yu Rou said to him.

"Well, I worked without stopping for nearly the entire day to get the results as soon as possible, and you won't believe what I found from the examination," Doctor Wang said.

"What is it? Is it something we should be worried about?" Yu Rou asked him with a nervous expression.

"Actually, it should be the opposite! According to the results, the black gunks are actually impurities! Although I don't know how it happened, it appears that the Young Master has managed to discharge the impurities within his body."

"Impurities...?" Yu Rou raised her eyebrows. What does that even mean?

"Sit down, Young Lady. This is going to take some time to explain," Doctor Wang said to her.

Yu Rou nodded, and she went to grab a chair before sitting down and waiting for Doctor Wang to continue.

Chapter 81 - Player Yuan's Sister

Chapter 81 - Player Yuan's Sister

"Before we begin, I should let you know that this is based on one ancient medicine book I read in the past, as this is the first time something like this has happened in our medical history," Doctor Wang said with a serious expression.

"Ancient medicine book?" Yu Rou raised her eyebrows, unsure of how to feel about this.

"Yes, the black gunk that came out of the Young Master's body are impurities— filth that gathers in one's body over time— similar to the filth that gathers on one's face and their pores naturally, but this impurity is much more filthy and impotent, and it is something that normally cannot be cleaned from one's body, as it gathers deep within your body."

"Then why did it happen to my brother?" Yu Rou asked afterward.

"Honestly, I don't know." Doctor Wang shook his head, feeling a little shameful that he had to say such words as one of the best doctors in the world.

"Not even that ancient medicine book mentioned anything?"

"Unfortunately."

Yu Rou looked at her brother before continuing, "Then why do you say it's a good thing?"

"Because the impurities are harmful to one's body. Although it won't kill us, it is obviously better for our body to get rid of its impurities." Doctor Wang said.

"So everybody has these impurities, right?"

"That's correct. You, me, and everyone in this world should have these impurities within our body, and there is nothing we can do to it unless what happened to the Young Master happens to us too." Doctor Wang nodded.

"Anyway, that's all I have for the results. However, I have another reason for coming here today. Young Master, would you mind visiting my hospital tomorrow so I can scan your body to make sure there's nothing wrong with it?"

"What do you think, Yu Rou?" Yuan asked her.

"We'll lose some time playing together, but your well-being is more important to me, so we can go tomorrow," Yu Rou said.

"Then it's decided." Doctor Wang nodded his head. "I will see you tomorrow."

"See you tomorrow, Doctor Wang!"

Once Doctor Wang left, Yu Rou helped Yuan brush his teeth before tucking him into her bed. Even though his own room is already clean, the foul smell still lingered, and they will need to wait a few more days to let it disappear naturally.

As Yuan slept on her bed, Yu Rou surfed the web. However, unlike previously, whenever she sees 'Player Yuan' being mentioned on the forums, a proud smile would appear on her face.

'Hahaha... now that I know my brother is actually Player Yuan, seeing these people speculate and talk about him is a hundred times more entertaining!' Yu Rou laughed inwardly as she read everything about Player Yuan even more intensively than before.

After spending many minutes looking at people talking about her brother, Yu Rou suddenly had the desire to post something herself, so she created a

brand new account under the alias 'Player Yuan's Sister' and posted on the forum with the title 'I am Player Yuan's Sister, Ask Me Anything'.

"Let's see what kind of questions I'll get," Yu Rou waited in anticipation.

And not even a minute after she made her post, someone has already commented on her post.

[If you are Player Yuan's sister then I am Player Yuan's father! Hahaha!]

"Well, it's not as though I didn't expect these kinds of comments since I also wouldn't believe it if someone with a brand new account claimed to be Player Yuan's sister." Yu Rou shook her head with a smile.

And by the time Yu Rou finished reading the first comment, another comment was made on her post.

[Brand new account claiming to be Player Yuan's sister— Kinda sus...]

And then another—

[If you are really Player Yuan's sister, prove it.]

[Are you delusional? Who would believe you?]

[What a bad troll!]

Yu Rou shook her head at these rightfully suspicious replies before closing her computer and going to sleep.

'Well, even if they asked legit questions, I wouldn't answer them seriously, anyway.' Yu Rou thought to herself as she laid beside Yuan who was already deeply asleep.

'If the world learns about my brother's identity, they might take him away from me, and I cannot allow that to happen no matter what...' Yu Rou thought to herself as she fell asleep.

—

The following morning, after Yu Rou finished her piano lessons and fed Yuan breakfast, she prepared to go to the hospital with Yuan.

"Are you ready, brother?" Yu Rou asked him, who was sitting in the wheelchair wearing formal clothes she specifically picked.

"Whenever you are," he said.

"Then let's go," Yu Rou nodded as she began pushing the wheelchair.

And by the time they left the house, there was already a black limousine waiting in the front with four guards wearing black uniforms standing around it.

"Where will we be heading today, Young Lady?" One of the guards asked her.

"Doctor Wang's hospital," she calmly responded.

Another guard opened the door of the limousine for them.

Once Yu Rou carried Yuan inside the limousine, the guard folded the wheelchair and stored it inside the trunk, before going sitting inside with them.

A few moments later, the limousine began moving, quickly leaving the sight of the mansion behind them.

Inside the limousine, Yuan was laying on the long seat with his body strapped so he doesn't fall and his head resting on Yu Rou's lap.

"How are you feeling right now, brother?" Yu Rou asked him.

"It's been a few months since I left the house, so I'm a little bit excited," Yuan said with a smile on his face.

"Excited, huh? I would be too if we weren't going to the hospital..." Yu Rou said with a bittersweet smile on her beautiful face.

The place turned silent, and Yu Rou continuously caressed Yuan's soft and silky long hair until they reached their destination half an hour later.

"We're here, Young Lady." The guards said to her as he opened the door.

Once the other guard retrieved the wheelchair, Yu Rou carried Yuan to the wheelchair, not even asking the guards for help. In fact, the guards were aware of Yu Rou's strict rules when it came to touching Yuan, as she would not allow anyone to touch him unless permitted.

By the time Yu Rou and Yuan started approaching the large hospital a few meters away, Doctor Wang was already waiting at the entrance in his doctor uniform. However, he was not alone, as there was another individual standing beside him—a beautiful young lady around the same age as Yuan.

"Young Lady, Young Master, thank you for coming," Doctor Wang said to them with a smile on his face, and he continued, "My granddaughter heard you siblings were coming, so she decided to visit today."

"Hello, Lady Yu, Young Master! It's been a while since we last met!" The beautiful young lady waved at them with a bright smile on her face.

"It has been a while indeed, Wang Xiuying," Yu Rou said with a somewhat stiff smile on her face.

"You can talk with them after we go somewhere more private," Doctor Wang said.

"Do you need some help, Lady Yu? I can help you push the Young Master if you're tired," Wang Xiuying said to Yu Rou when she got close.

"Thank you for the offer, but I will kindly decline since I don't want to bother you with it," Yu Rou said, still with a smile on her face.

"Don't worry about bothering me. You are currently at the hospital, and it is my job as a nurse to assist the patients," Wang Xiuying responded.

"..."

Despite having a smile on her face, Yu Rou seemed a bit annoyed at Wang Xiuying's approaches, mostly because she knew that Wang Xiuying was a huge fan of Yuan when he was still actively playing the instruments.

"Xiuying, I know you are excited to see your idol, but don't get too excited. You can talk to him later," Doctor Wang shook his head at her.

And he continued a moment later, "Anyway, follow me."

Yu Rou then pushed the wheelchair and followed Doctor Wang.

Wang Xiuying, however, waited until Yu Rou and Yuan caught up before walking with them.

"Young Master Yu Tian, do you remember me?" Wang Xiuying spoke as they walked.

"I wouldn't forget your cheerful voice even if I wanted to, Miss Wang," Yuan said with a smile on his face.

"Please, you can just call me Xiuying like my grandfather does," she said.

"Anyway, I heard you are going to get an x-ray today. Are you okay?"

"Yes, I am fine. It's just that something happened a few days ago, so we're here for an examination just in case," Yuan said.

"I see... Well, whatever happened, I hope it's nothing serious or bad."

"Thank you for worrying about me."

"Hehe. As your number one fan, of course, I would worry about your well-being. Even if you cannot play the instrument anymore, I will still continue to be your number one fan for the rest of my life!" Wang Xiuying said to him without feeling bashful.

"..."

Meanwhile, despite her calm expression, Yu Rou glared at Wang Xiuying with a cold gaze from the corner of her eyes.

Wang Xiuying had noticed Yu Rou's cold glares long ago, but she acted as though she wasn't aware and continued to speak with Yuan.

Meanwhile, Doctor Wang could feel a spine-chilling atmosphere coming from behind him, and he continued walking without daring to look back, even walking a little faster than before.

Chapter 82 - Legendary Child Prodigy

"Hey, look over there! Isn't that Doctor Wang and his granddaughter? Who are those two youngsters following them? They must be really important people if they are getting treated by the Divine Doctor himself..."

When the other patients and even some workers in the hospital noticed Yu Rou and Yuan following Doctor Wang, they immediately began gossiping with each other, as it was incredibly rare to see Doctor Wang working personally in the hospital.

"Ah, you must be new here. That's the Yu Family, they're one of the largest donors for our hospital, and Doctor Wang is currently taking care of one of their children, who has this incurable illness." One of the more experienced workers there explained to the new nurse.

"Wait a second... Did you just say the Yu Family?! That famous family with an immeasurable presence in the entertainment industry, especially the music industry? If I recall correctly, they have a genius musician in nearly every generation!"

"That's right— they are that Yu Family."

"Amazing! Then that beautiful young lady just now must be Yu Rou— the genius pianist who placed 3rd in the national piano competition at only 16 years old! I knew she looked familiar! She looks even prettier in person than she does on television! What about that young man in the wheelchair? I don't recognize him."

"Since you know Yu Rou, you definitely know that young man. Although he looks completely different now due to the illness that devastated his body, he's Yu Tian—the child prodigy."

"Wait! That's Yu Tian?! The legendary child prodigy who could play literally every instrument in the world before 10 years old with countless golden trophies under his belt? I wouldn't have known if you didn't tell me!"

"Yes, it's truly a pity that he was struck with that illness, or he would've been the greatest musician in history."

"I haven't seen him ever since he disappeared from television, almost like he'd disappeared from the world. He was still playing the instruments perfectly while blind when I last saw him on television."

"I guess even the Heavens envied him, so they decided to punish him. Haaa... I would be willing to do anything if I can see him on the stage once again..."

"Me too..."

While the nurses talked about the Yu Family's legacy, Yuan and the others just reached their destination.

"Just put the Young Master on the x-ray table whenever you are ready," Doctor Wang said to Yu Rou.

"Here, let me help you," Wang Xiuying said to Yu Rou.

"...Thank you."

Even though Yu Rou could've done it by herself, she didn't stop Wang Xiuying from helping.

After all, as much as she hated other women getting close to her brother, she simply couldn't deny someone as cheerful and kind as Wang Xiuying, who is one of the few people in this world that still respected her brother despite his tragedy.

Once Yuan was on the table, Yu Rou and Wang Xiuying left the room and went to the other room, where they could watch Yuan from behind a glass window.

"I am going to start now, Young Master." Doctor Wang spoke into the microphone that broadcasted his voice into Yuan's room before typing a few things into the computer beside him.

The x-ray machine suddenly activated, and Yuan was sent into this egg-shaped capsule for scanning.

And since the scanning process required some time, Wang Xiuying decided to play some music on her phone.

"..."

When Yu Rou heard the piano music that flowed flawlessly from her phone, she turned to look at Wang Xiuying and asked, "Is that all you ever listen to?"

"Pretty much!" she nodded without hesitation.

"Although I also listen to other music created by the Young Master, I like this masterpiece the most."

"..."

Yu Rou had nothing else to say so she remained silent for the rest of the time, even enjoying the music that was being repeated in a loop by Wang Xiuying, as it was music that was played by Yuan.

Sometime later, Yuan was pulled out of the capsule, and while Doctor Wang read the results, Yu Rou went to put Yuan back in the wheelchair.

"How is my brother, Doctor Wang?" Yu Rou asked after returning with Yuan.

"Hmmm..." After a moment of silence, he said, "As I had already expected, there's nothing wrong with the Young Master's body, so you don't have to

worry about the impurities."

"I see... that's great." Yu Rou sighed in relief after hearing the results.

"However, that is not all I have to say," Doctor Wang suddenly continued, and he said, "According to the results, the Young Master's bones... they have gotten stronger— denser than before."

"Huh? My bones have gotten denser?" Yuan spoke in a surprised voice. He wondered if this was also caused by the game.

"Yes... Although it's not that much denser than before, it's definitely improved enough to be noticed."

"Well, it doesn't matter how much stronger my bones grow if I can't use them," Yuan laughed in a bitter voice.

"Don't give up, Young Master. The heavens won't abandon a genius such as yourself if they favored you enough to give you such talents. I'm sure this is only temporary, and if my grandfather can't heal you, I'll definitely try to do something!" Wang Xiuying spoke with enthusiasm.

"Yeah, yeah, let's see how that works out for you when all you are doing nowadays is play video games..." Doctor Wang shook his head.

"I can still study medicine as I play video games! In fact, I have learned a bunch about ancient medicine in the game that I am currently playing!" Wang Xiuying said to him.

"Ancient medicine...? Are you also playing Cultivation Online?" Yuan suddenly asked her.

"Eh?" Wang Xiuying turned to look at him with a surprised expression on her face.

"I am also playing the game with my sister right now," he said when he heard her surprised noise.

"Wait... I don't mean to be disrespectful, but you can play the game, Young Master? Even in your condition?" Wang Xiuying said with a dazed look.

"Yes. Although I don't know how it works, I can play the game perfectly fine, and I am even perfectly healthy while inside the game, so I can use my limbs and see with my eyes." Yuan said.

Both Doctor Wang and Wang Xiuying stared at him with gawking expressions on their faces.

"N-Now that you mention it... I recall seeing on the news that mentioned something like that— how even blind people can play the game and somehow use their sights in the game." Wang Xiuying spoke in a dazed voice afterward.

"W-Wait a minute! Does this mean I can watch you play the instrument again inside the game?! Let's play together, Young Master~!" Wang Xiuying said to him in a cheerful voice.

"I will be participating in the Dragon Essence Temple's disciple examination in a few days. If you want, we can meet there," Yuan said.

"Oh, I am already a disciple of another Sect— one that focuses on medicine and alchemy," Wang Xiuying sighed. "However, I'll definitely try to meet with you one day."

"What is your Sect called? If I am ever around the place, I can try to find you," Yuan said.

"It's called 'Pill Academy', located in the Northern Continent," she said.

"Northern Continent? That's quite far away since I am in the Eastern Continent," Yuan said.

"Oh... then it might be a while before we can play with each other..." Wang Xiuying sighed in a regretful voice.

However, Yu Rou was trying her hardest to not smile at her misfortune.

'Who knows what she might try to do to my brother when I am not there...' she sighed inwardly.

"Anyway, is there anything else you need from us, Doctor Wang?" Yu Rou asked him a moment later, as she wanted to return to playing Cultivation Online with Yuan.

"No, I just wanted to see if there were any changes to the Young Master's body after that incident. Since we have done the x-ray and have the results, there is nothing else I need from you two."

"Then we'll go home now. Thank you again, Doctor Wang, for taking the time to do this." Yu Rou said.

"Haha... Don't even mention it. Not only am I close with your parents but I am also a fan of the Young Lady and the Young Master." Doctor Wang laughed out loud.

"I'll walk them outside," Wang Xiuying said as she followed Yu Rou and Yuan outside to their limousine.

"I'll see you later, Young Master! I hope we get to play with each other soon!" Wang Xiuying waved at them as they entered the car.

"Yes, I hope so too," Yuan said to her.

Once the limousine drove off, Wang Xiuying returned to Doctor Wang's side.

"It's been a long time since I last saw the Young Master so energetic. We have never spoken to each other so much before. I bet it's all because of Cultivation Online, where he's able to live as a healthy young man again." Wang Xiuying said to Doctor Wang.

However, Doctor Wang didn't respond to her, and he was silently staring at Yuan's x-ray results.

"What's the matter, grandpa? Is there something wrong with the results?" Wang Xiuying asked him after noticing this.

"No, it's just that the Young Master's situation is extremely weird, to the point where it's not an exaggeration to call it a phenomenon..." Doctor Wang said in a profound voice, and he continued, "Looks like I will have to dig up and read some more ancient medical records. Perhaps I'll learn something new there."

Chapter 83 - Silver Ape Cave

After returning to their home, Yu Rou and Yuan quickly dived into the world of cultivation known as Cultivation Online.

"Welcome back, Brother Yuan," Xiao Hua said to him after sensing that his presence had returned to the world.

"Hello, Xiao Hua." Yuan greeted her.

"What are we going to do today? Do you still want to continue practicing Wind Blade?" Yuan asked Yu Rou afterward.

"Yes, but I don't want to slow down your progress with my boring training," she sighed.

"What are you saying? It's called training for a reason. If you don't train, you won't get better," Yuan said to her. "Although it might be time-consuming, you'll have to do it eventually."

"I guess so..." Yu Rou nodded.

And since they last logged off while they were still in the wilderness, they didn't need to do any traveling and were able to continue hunting monsters instantly.

A few hours later...

"Congratulations, Yu Rou. You can finally slay the monsters without making a mess," Yuan said to her as he looked at the cleanly separated monster corpse with a smile on his face.

"Yes! And my mastery level for it increased by 1!" Yu Rou said with an excited expression on her face.

"And now that I am pretty confident in my own control of the skill, we can do something harder! Of course, it probably won't be a challenge for you no matter what we do at my level, though..."

"Something more difficult, huh? What do you have in mind?" Yuan asked her.

"A dungeon!" she quickly said. "There are multiple strong monsters in dungeons, and if we can find one that has never been discovered before, there's a high chance we might obtain valuable treasures!"

"A dungeon? Where do we find those?" Yuan asked her.

"Well, there are many known dungeons around this place, but they have already been searched by the other players so we won't find any treasures inside." Yu Rou said.

"Hmmm... What do you think, Xiao Hua? Do you know of any dungeons around here? Something like the Demonic Spider's Silent Cave." Yuan decided to ask her, who seemingly knew everything.

"Demonic Spider's Silent Cave... Do you mean Beast Nests? It's where wild beasts gather and make their home, and there are usually treasures inside because beasts instinctively pick up anything that has Qi." Xiao Hua asked him.

"Yes! That's exactly it! Do you know where we can find one?" Yu Rou asked her.

"Xiao Hua should be able to find some with her Divine Sense..."

Xiao Hua then closed her eyes, and a profound feeling expanded from her small body a moment later, sweeping many miles in an instant.

'Wow... What a powerful Divine Sense. I wonder how it feels to see so many things and so far at once... It's probably like having eyes in the sky.'

Yuan watched with slight envy, wondering how long it'll take before he can start doing the same thing.

'If I can also Divine Sense in the real world, that would be great, too.' Yuan sighed inwardly.

About a minute later, Xiao Hua opened her eyes again and said, "There is a Beast Nest a few kilometers from here, and there are about 30 beasts inside between the second level and sixth level Spirit Apprentice realm."

"Sixth level Spirit Apprentice... Do you think you can handle those, brother? I will take care of the ones below the fourth level." Yu Rou asked him.

"Of course," Yuan nodded.

"As for Xiao Hua... You can just stay behind us until we need you since it won't be challenging at all if someone as overpowered as you also fought the monsters alongside us." Yu Rou said to her.

"Well, although brother is also quite overpowered, at least he can't snap the monsters out of existence with his cultivation base..." Yu Rou then added.

"Okay," Xiao Hua nodded. She wouldn't do anything unless Yuan asked her to either way.

"Then let's go to this Beast Nest!"

Xiao Hua then led them to the location.

Many minutes later, once they reached the area, a notification popped up for both Yuan and Yu Rou.

«You have discovered 'Silver Ape Cave'»

"Silver Ape Cave... I don't recall seeing this name on the forums so we should be the first ones to have discovered this dungeon," Yu Rou said.

"That's good. Then let's clear this place up real quick—"

However, before Yuan could even take a step towards the dark cave, Yu Rou grabbed his arm and said, "Wait a second, brother! Have you forgotten? If we clear this dungeon together, our names will be announced to the entire world!"

"Oh, right... That would be disastrous for us. I don't want you getting caught up in my mess, after all." Yuan nodded.

If people see that Player Yuan has a teammate, the other players would also begin looking out for Yu Rou to find him, something he did not wish to see.

"Then what should we do?" Yuan asked her.

"How about this? Brother will go inside first and clear out the stronger monsters and then come back outside, then I will go inside and clean out the rest of the weaker monsters," Yu Rou suggested.

"That doesn't sound too bad, but I still don't want to leave you alone inside... Although they may be weak, accidents might happen," Yuan said to her, being extremely cautious when it came to Yu Rou's safety.

"Then why don't Xiao Hua come with me? Since she's an NPC, she won't appear on the announcements," Yu Rou said after a moment of pondering.

"Oh... Now that you mention it, that's true!" Yuan nodded. "Okay, let's do that."

A few moments later, Yuan retrieved his Starry Abyss and went inside the dark cave.

However, once he was inside, the entire place was well lit, almost like there were lamps inside.

Once he reached the end of the cave, there was a spacious area that resembled the Demonic Spider's Silent Cave boss area. However, in the middle of this spacious area were a dozen apes with silver fur and a massive glowing tree. This tree nearly reached the ceiling of the cave which was over 30 meters in height, and most of the Silver Apes were deep asleep

around this gigantic tree with a few of them playing on the thick tree branches.

After taking a minute to analyze the situation and the Silver Apes, he counted 6 Silver Apes at the sixth level Spirit Apprentice and 8 of them at the fifth level. The rest of them were between the second level and fourth level Spirit Apprentice realm.

Once he found his targets, Yuan casually approached the glowing tree.

"Hooo! Hooo! Hooo!"

"Ooo! Oooo! Oooo!"

When the Silver Apes playing on the tree noticed Yuan's presence, they began screaming to alert those that were asleep, immediately waking them up.

"Ooo! Ooo! Aaaah!"

"Hooo! Hooo! Ahhh!"

Very quickly, 36 screaming Silver Apes surrounded Yuan, who stood there with a calm expression on his face, seemingly unfazed by the situation.

A few moments later, some of the more powerful Silver Apes suddenly jumped at Yuan with their sharp claws spread wide open.

Seeing this, Yuan skillfully maneuvered the black dagger in his hands.

"Thousand Knife Techniques!"

The black dagger flickered, and multiple black arcs of lights appeared around him.

A second later, the Silver Apes that rushed at Yuan fell to the ground without any signs of life from their eyes or bodies.

When the other Silver Apes saw this, they began panicking. However, they did not run away.

After killing a few of the Silver Apes, Yuan began his own assault, specifically aiming for the Silver Apes with a higher cultivation base.

A few minutes later, all of the Silver Apes above the fourth level Spirit Apprentice were slain, leaving only the weaker ones.

"..."

After witnessing their strongest members being slain by Yuan without any efforts, the Silver Apes no longer dared to surround him and even began backing up to the massive tree.

Yuan approached the tree, but he did not attack the Silver Apes, puzzling them.

After looking around the tree and making sure there was nothing that Yu Rou couldn't handle, Yuan turned around and left the scene, dumbfounding the Silver Apes.

"Brother! Are you okay?" Yu Rou asked him after Yuan left the cave faster than she'd anticipated.

"Yes, and I have dealt with all of the Silver Apes above the fourth level Spirit Apprentice realm. Though, I do feel a bit sinful after storming in there and killing them when they were minding their own business..." Yuan sighed.

"You shouldn't feel pity for beasts, Brother Yuan. Although they may seem peaceful at glance, Silver Apes are vicious creatures that attack people in groups once they are hungry, and countless merchants and travelers have fallen to Silver Apes," Xiao Hua said to him.

"Is that so..." Yuan nodded.

"Anyway, it's my turn to have some fun!" Yu Rou said as she retrieved her Spirit Weaver.

"Be careful in there, Yu Rou. Although Xiao Hua is with you, don't get too ahead of yourself, as there are still over a dozen Silver Apes inside, and half of them are at the third level and above." Yuan said to her.

He then turned to look at Xiao Hua and said to her, "And Xiao Hua, make sure you protect my sister properly! Although she won't really die, it might affect her cultivation, and I cannot imagine seeing my sister's corpse even if it's just a game."

"Don't worry, Brother Yuan. Xiao Hua will protect your sister at all costs!" Xiao Hua nodded with a serious expression on her face.

Yuan nodded, and Yu Rou entered the Silver Ape Cave with Xiao Hua by her side a moment later.

Chapter 84 - Spirit Frui

"Wow... So these are Silver Apes? And what's the massive glowing tree in the middle?" Yu Rou mumbled in a low voice after seeing the Silver Apes.

However, unlike previously, they were not sleeping around the tree. Instead, they were—

"A-Are they... Are they eating each other?" Yu Rou covered her mouth in shock after realizing that the Silver Apes were consuming the Silver Apes that had been slain by Yuan.

"That's their nature— they eat anything as long as they're hungry," Xiao Hua said.

"As for the glowing tree, that's a Spirit Tree. It can grow Spirit Fruits that benefit one's cultivation base. However, it takes many decades to grow even one, and the Silver Apes has already eaten all of them."

"What a pity..." Yu Rou sighed.

"Anyway, let's clear this Beast Nest. Xiao Hua, don't do anything yet. Although you may not be a player, you're still Brother Tian's servant, so your contribution might still be counted toward my brother's contribution, and his name will show up on the announcements."

Xiao Hua silently nodded at Yu Rou's words.

Yu Rou locked her eyes on the large group of Silver Apes gathered in a circle while consuming the dead Silver Apes.

After taking a deep breath, she swung the Spirit Weaver.

"Wind Blade!"

An arc of powerful wind flew towards the Silver Apes horizontally, and before the Silver Apes could even react, the Wind Blade had sliced a dozen Silver Apes in halves.

"Oooo! Aaaah! Ooo!"

Alerted, the Silver Apes immediately dropped their food and rushed at Yu Rou.

However, when they noticed the immense aura emitted by Xiao Hua, they immediately stopped in their tracks and stood there as though they were stone statues.

"What the?"

Although Yu Rou was dumbfounded by the situation, she didn't dare to stop and continue to throw Wind Blades at the Silver Apes.

Whoosh! Whoosh! Whoosh!

The Silver Apes dropped one at a time right in front of each other, yet none of them dared to move, almost as though they were rooted from fear.

A few minutes later, all of the Silver Apes were slain by Yu Rou, and an announcement appeared for the world to see.

«Congratulations! Player Yu Rou has become the first player to have cleared Silver Ape Cave!»

When Yuan saw the announcement in the sky, a relieved smile appeared on his face.

Once Yu Rou came back outside, Yuan praised her, "Wow, that was faster than I'd anticipated. Good job, Yu Rou."

However, Yu Rou did not celebrate and merely sighed in a dejected voice, "Something was wrong with those Silver Apes. It seemed like they were

going to attack me at first, but they suddenly stopped moving and allowed me to kill them without any effort. It was ridiculous and not fun at all!"

"Uh..." Yuan was speechless and did not know how to respond to her complaints, as he only cared about whether she was hurt or not.

"Anyway, you managed to clear the dungeon and received an announcement. This makes you an Ancestor, right?" Yuan asked her.

"While that is the case, since it's only a dungeon clear, my title isn't worth as much as your Skill and Servant category 'firsts'." Yu Rou said.

"Hmm... Then do you want to look for a few more dungeons to clear?" Yuan asked her a moment later.

"No, it's fine."

"Then what would you like to do now?"

"I would like to go on an epic journey that might take days, even weeks to complete, but I don't have the time for that now, so I want to spend my remaining time looking for a servant." Yu Rou said.

"A servant, huh? What do you think, Xiao Hua? Any way we can help my sister tame a beast?" Yuan asked her.

Xiao Hua nodded and said, "It's very easy to tame beasts. You just need to feed it some food and if it likes you, you can try to tame it."

"Huh? It's that easy?" Yu Rou looked at her with wide eyes.

Xiao Hua nodded again and said, "There are also techniques that allow you to tame and control beasts."

"Let's try the feeding method first. What kind of food should we be feeding them?" Yu Rou asked.

"It depends on what kind of beast you're trying to tame, but most of them like food that contains spiritual energy, especially Spirit Fruits. You are

almost guaranteed to tame most beasts with a Spirit Fruit," Xiao Hua said.

"Spirit Fruits, huh? It's such a pity that the Silver Apes had taken all of them." Yu Rou sighed.

"You can buy Spirit Fruits in the market, they are worth about 500,000 gold coins each."

"500,000 gold coins!" Yu Rou exclaimed. "That's a lot of money, but you can afford them without much trouble, right, brother?"

Yuan immediately began sweating after hearing her words, and he said a moment later, "I only have around 200,000 gold coins left."

"Huh? How's that possible? You're still number one on the Wealth Leaderboards! Surely, you have much more than 200,000 gold coins!" Yu Rou said.

"Well... most of that wealth is actually in Xiao Hua's possession," Yuan said.

Yu Rou then looked at Xiao Hua and said, "But that wealth is still brother's right?"

Xiao Hua nodded and said, "Xiao Hua is only holding it for Brother Yuan."

"Then what's the problem?" Yu Rou continued to ask.

"I didn't want to rely too much on Xiao Hua and wanted to earn my own money, so I would rather not use the money we'd earned from selling her treasure unless it's an emergency." Yuan explained to her.

"Oh, I see... Then I'll ask her." Yu Rou said, and she continued, "Xiao Hua, can I borrow 500,000 gold coins from you? I'll pay you back in the future. I also can't keep on relying on my brother forever."

Xiao Hua nodded her small head and retrieved 500,000 gold coins before handing it to Yu Rou without blinking an eye. In the eyes of a Cultivator at her level, 500,000 gold coins is a neglectable amount of wealth.

"Are you sure, Yu Rou? It's only 500,000 gold coins... You don't have to pay us back." Yuan said to her.

"I borrowed it from Xiao Hua, not you, brother, and I am not shameless enough to accept money without paying it back. And like I'd said, I don't want to be too reliant on you. If you can't accept that money from Xiao Hua, then you should know how I feel."

Hearing her words, Yuan nodded.

"Anyway, where can we buy a Spirit Fruit?" Yu Rou asked.

"Spirit Fruits are pretty rare, so only luxurious stores would have them," Xiao Hua said, and she continued, "There's a very popular place in Phoenix City named 'Golden Phoenix Bazaar', and you can find most rare and valuable treasures there."

"Great! Where is this place?" Yu Rou asked.

"Approximately 5,000 miles away. If we leave now, we should arrive there by tomorrow morning." Xiao Hua said.

"Tomorrow morning, huh? What do you think, Yu Rou? It won't be my first time playing throughout the whole night," Yuan said to her.

"Let's do it. Since I only have one more day before I have to return to school, I would like to play with you for as long as possible." Yu Rou nodded.

After retrieving his flying sword, Yuan picked up Yu Rou and jumped onto the sword before Xiao Hua flew towards the sky with them.

"Although it's going to take some time, I cannot wait to be able to use the flying sword by myself," Yu Rou said.

"Me too." Yuan nodded.

After flying for some time, they descended to take a quick break. After flying for a few more hours, the siblings logged off temporarily for dinner.

Once they logged back into the game, they returned to their journey, and Yu Rou would fall asleep in Yuan's arms shortly later.

Many hours later, by the time Yu Rou woke up, they had already traveled over 5,000 miles.

"Good morning, Yu Rou. We should be there within an hour," Yuan said to her.

"Brother...? Oh no! I accidentally fell asleep since flying felt so good!" Yu Rou exclaimed. "I'm sorry, brother..."

"Why are you apologizing?" Yuan shook his head.

"Even though you are doing this for me, I fell asleep and left you alone..." she sighed.

"It's fine. Anyway, look over there—I can see a phoenix." Yuan suddenly said to her.

"What?! A phoenix?!" Yu Rou immediately turned to look at where he was looking to see a large bird in the sky.

However, once they got closer to it, they realized that the phoenix was actually an enormous phoenix kite that was being flown from the city.

"A kite?" Yu Rou mumbled in a low and surprised voice, as this is her first time seeing such a massive kite.

"Rumors have it there is a living phoenix currently living in the city, and that kite is used to honor the phoenix," Xiao Hua said.

"Wait a second... A real phoenix living in the city? Surely, that must be fake, right? After all, who would be able to miss the majesty sight of a phoenix?" Yu Rou said.

"Magic beasts like phoenixes are considered as Divine Beasts, and they have the capability to take on a human form once they reach a certain

cultivation base, so it's not impossible that a phoenix could be living in the city disguised as a human," Xiao Hua explained.

"If there's really a phoenix, I'd like to meet one..." Yu Rou sighed as they descended a few miles from the city.

Chapter 85 - Golden Phoenix Bazaar

«You have discovered Phoenix City»

When Yuan and the others approached the city, they immediately noticed the massive line stretching for at least a mile long from the city entrance.

"What in heaven's name? Why is the queue so long?" Yuan stared at the line with wide eyes.

"It's only natural this place is so busy. Phoenix City is one of the most popular areas within the Eastern Continent due to its rich environment and abundance of treasures, so powerful Cultivators and rich merchants from all over the world come here to do business," Xiao Hua explained to him.

"Anyway, let's get in line first. Over a dozen people had entered the line by the time you finished speaking!" Yuan said as he walked to the back of the line.

After standing in line for half an hour, it was finally their turn to enter the city.

"Place your hands on this ball," said one of the guards once Yuan approached them.

Yuan placed his hands on the crystal ball, and once the guards confirmed that he was not a criminal, they said, "Entrance fee for Phoenix City is one gold coin."

"The three of us are together," Yuan said as he handed them 3 pieces of gold coins.

"Here are your guest permits. Due to the immense population and not wanting to overpopulate the city, you are only allowed to stay in Phoenix City for three days. If you are caught past your date, you'll be fined 100,000 gold coins. If you wish to stay longer, you must visit the Administration Hall, and you can extend your time for a price."

"I understand, " Yuan had to agree to such rules before they were finally allowed inside.

"Wow, this place is far more popular than I'd thought if they need to make such rules fearing for overpopulation..." Yuan said once they were inside.

"Most popular cities that focus on business are like this," Xiao Hua said.

"Well, three days is more than enough, as we'll be leaving immediately after we obtain a Spirit Fruit. Anyway, where do we go now?" Yuan asked her.

However, Xiao Hua shook her head and said, "Xiao Hua has never been here before— she has only heard of the Golden Phoenix Bazaar being here."

"Then I guess we'll have to ask around," Yuan said.

After spending a few minutes speaking to the pedestrians, Yuan got a good idea of the direction and began making his way towards the Golden Phoenix Bazaar with the other two girls.

"This place is really meant for business only. No matter where we go, the streets are filled with nothing but shops." Yu Rou said as they walked, enjoying the scenery. "Do people even live in this city? Because I haven't seen any houses yet."

"Only the wealthiest of people would live in a place like Phoenix City, and they are all within the center of the city. Do you see those tall buildings in the distance? They are houses." Xiao Hua said as she pointed in that direction.

"What?! Those pagodas are actually homes?! That's like living in Cultivators' Haven, which has 21 floors!" Yu Rou exclaimed.

After walking for many minutes, they reached this extremely wide street with a beautiful 'Golden Phoenix Bazaar' kite flying in the sky.

"Wow, so this is the Golden Phoenix Bazaar... But why does it appear so empty compared to the other streets?" Yuan raised his eyebrows.

Xiao Hua shrugged.

"I guess it doesn't really matter why there are so few people here. Anyway, we should just look at every store until we find one that's selling Spirit Fruits, right?" Yuan said.

"Un." They nodded.

However, right as Yuan prepared to enter the street, they were immediately stopped by the guards standing not too far away.

"Wait a second. Do you have permission to enter this area?" The guards asked them.

"Permission? We need permission to enter the Golden Phoenix Bazaar?" Yuan asked them with a surprised look, as this is his first time hearing this.

"Naturally. The Golden Phoenix Bazaar is not your ordinary place where one can enter normally, and only those with a permit are allowed to do business here."

"Then where do we get a permit? I'd like to buy something in there." Yuan asked them.

"This must be your first time here. Even getting the permit to enter this place is not that simple. First and foremost, you must donate a generous amount of money to the city lord before you can even be considered for the permit." The guard said to him.

"Money...?" Yuan immediately began sweating. "How much are we talking about?"

"Most people donate at least 10,000,000 gold coins," said the guard.

"10,000,000 gold coins?!" Yuan's jaw dropped to the ground.

If one must pay 10,000,000 to use the Golden Phoenix Bazaar, they might as well go somewhere else! At least they would still have 10,000,000 gold coins to spend by doing so!

"What's so special about the Golden Phoenix Bazaar, anyway? Requiring 10,000,000 coins for a permit to shop at a place is simply outrageous if you ask me. Nobody in their right mind would pay so much money for that." Yu Rou shook her head, unable to comprehend the reason behind this system.

"That's where you're wrong, young lady. Although it may be expensive, it is very well worth it, as the people you can find in this place are mostly renowned experts with immense backing or status in this world, and most people come here mainly to make connections with these individuals—shopping is only secondary." The guard explained to them the true purpose of the Golden Phoenix Bazaar.

"I see... that makes more sense..." Yu Rou nodded.

"What about the Spirit Fruit? Since we cannot enter this place without spending an extra 10,000,000 gold coins, we'll have to look elsewhere for them," Yuan sighed.

"Spirit Fruits? If you are looking for Spirit Fruits, then you can only find them inside the Golden Phoenix Bazaar," one of the guards said after hearing Yuan's words.

"How convenient..." Yuan sighed again.

"If you really want to enter the Golden Phoenix Bazaar, there are methods that don't require payments or permits, though." One of the guards suddenly said.

"What are those methods?" Yuan immediately asked.

"It's quite simple, actually."

The guards exchanged glances with each other before speaking—

"You just need a recommendation from a Spirit Grandmaster Cultivator!"

"If you reach the Spirit Grandmaster realm, you will be allowed to enter the Golden Phoenix Bazaar without any limitations!"

"Hahaha!"

The guards burst out laughing afterward, thinking that it was more realistic to pay 10,000,000 gold coins than to find someone at the Spirit Grandmaster realm.

"Spirit Grandmaster? Why didn't you say so? We have one right here." Yuan said with a relieved smile on his face.

"What did you just say? That there's a Spirit Grandmaster amongst you? Who? You? Hahaha!" The guards didn't take Yuan seriously and began laughing even louder.

"Well, she's not exactly a Spirit Grandmaster— she's a Spirit King," Yuan said as he pointed at Xiao Hua.

"Spirit King?! HAHAAHAHAHA!" The guards laughed so hard after hearing his words that they'd begun rolling on the floor dying from laughter.

Yuan looked at the guards with a dumbfounded expression on his face. Why are they laughing so hard? What's so funny?

"If... If this little girl is a Cultivator with a Spirit Grandmaster cultivation base, much less Spirit King, I will run an entire lap around the Golden Phoenix Bazaar while naked!" One of the guards suddenly said.

"Only the Golden Phoenix Bazaar? I am willing to run around the entire city naked if she's really a Spirit King! Hahaha!"

"..."

Yu Rou and Yuan looked at each other with raised eyebrows.

"What are you two laughing at while on duty? I have been in a bad mood lately so I can use a few laughs! Go ahead, tell me what's so funny!"

A clear but irritated feminine voice suddenly resounded, and when the guards heard this female's voice, they immediately stopped laughing and turned around with fearful expressions on her faces, looking as though they were staring at death.

Yuan and Yu Rou also turned to look at the person who'd just spoken, and a very beautiful woman in her late twenties wearing red robes with a golden phoenix pattern could be seen walking in their direction.

"M-Madam Feng!" The guards immediately kowtowed on the ground with their back soaked in cold sweats. "W-We were wrong for laughing while on duty! Please have mercy!"

However, the woman being addressed as Madam Feng coldly snorted, "Did you not hear me? I want to know what's so funny that it made you laugh like maniacs!"

"W-Well... it's like this..."

The guards proceeded to explain the situation to Madam Feng.

A few moments later, Madam Feng turned her focus from the guards to Yuan and the two girls beside him.

"So you think it's funny to joke about being a Spirit King, huh?" Madam Feng narrowed her eyes at them and suddenly—

Boom!

The cultivation base of a Spirit Grandmaster suddenly erupted from Madam Feng's body, filling the area with a suffocating pressure, causing Yuan and Yu Rou to begin choking as though they were having trouble breathing.

"Do you still think it's funny to—"

However, before Madam Feng could even finish her sentence, Xiao Hua shouted in a cute but angry voice, "How dare you hurt Brother Yuan!"

Boom!

An immense pressure that far exceeded Madam Feng's pressure suddenly appeared to cancel out Madam Feng's pressure, before forcing Madam Feng onto her knees.

"T-This is?!" Madam Feng lifted her head with much effort to look at Xiao Hua, her gaze filled with shock and fear.

"A Spirit King!"

Chapter 86 - Madam Feng

'A real Spirit King! She's a real Spirit King! But how is that possible?! How can a Spirit King possibly remain in the Lower Heavens?!' Madam Feng cried inwardly after realizing her mistake that could potentially end her life.

"Please have mercy, Senior Spirit King! This junior had eyes but still failed to recognize your mighty presence!" Madam Feng then kowtowed on the floor with her smooth forehead kissing the solid floor.

However, Xiao Hua did not budge and continued to release her spiritual energy.

"What's going on here?! Which expert is emitting this powerful presence?!"

"This expert definitely surpasses the Spirit Grandmaster realm! The Spirit Lord realm? No! It's even higher! This presence belongs to a Spirit King!"

The other experts located within the Golden Phoenix Bazaar were greatly shocked when they sensed Xiao Hua's immense presence that appeared out of thin air. However, they were too scared to even peek their heads out the windows to see the situation, much less show themselves, and unless directly told to, they would rather not stick their noses where it doesn't belong, especially when a Spirit King was involved.

After all, a single mistake could mean the end of their business and even their life! That's how much power a Spirit King holds in this Lower Heavens where the peak experts are only at the Spirit Grandmaster realm!

Meanwhile, at the entrance of the Golden Phoenix Bazaar, Madam Feng remained kowtowing on the floor, not even daring to lift her head.

"Xiao Hua, it's okay now. We're not hurt," Yuan said to her a moment later.

"Un." Xiao Hua nodded her head and immediately retrieved her powerful aura, allowing Madam Feng to breathe again.

"Are you okay?" Yuan approached Madam Feng before extending his hand out to her.

"T-Thank you..." Fearing that Xiao Hua might get angry at her again if she doesn't accept his hands, Madam Feng grabbed Yuan's hands and allowed him to pull her to her feet.

"Anyway, I will apologize again for getting ahead of myself and causing trouble for you, and I never intended on harming you."

Madam Feng lowered her head and bowed to them in an apologetic manner after she was standing again.

"It was only a misunderstanding, you don't have to take it to the heart," Yuan said with a calm smile on his face.

"Anyway, since you have confirmed that Xiao Hua is indeed at the Spirit King level, we should be able to shop in the Golden Phoenix Bazaar, right?" Yuan then asked her.

"Y-Yes..." Madam Feng quickly nodded her head. Nobody would dare to stop them even if they wanted to live in the Golden Phoenix Bazaar.

And she continued, "If you don't mind, I can help you with whatever you're looking for. I am the owner of the Phoenix Heaven in the Golden Phoenix Bazaar, one of the most renowned stores in the city. No matter what kind of treasure you're looking for, we will have it. If we don't, we'll know where you can find it."

"That'd be great!" Yuan said, and he continued, "We're looking to buy a Spirit Fruit."

"Spirit Fruit...?" Madam Feng looked at him with a dazed face, seemingly speechless.

Yuan immediately began feeling nervous after seeing Madam Feng's reaction, worried that it might not be available because of its rarity.

However, Madam Feng was thinking the complete opposite, as Spirit Fruits are pretty worthless in the Golden Phoenix Bazaar, where the treasures are usually worth 100 times more than Spirit Fruits.

"If it's only Spirit Fruits, I can offer some to you for free..." Madam Feng said to him a moment later.

"Really? Isn't it very expensive, though?" Yuan looked at her with wide eyes.

"Yes, it's my way of saying sorry for the trouble I've caused you three today." Madam Feng said. "And if I have to be honest, Spirit Fruits aren't that valuable in my eyes, as my shop sells things that are worth way more."

"Since you don't mind, I won't be humble," Yuan nodded his head.

"Please, follow me." Madam Feng said as she turned around and began walking away.

"Isn't this great, Yu Rou? We don't have to spend any money on the Spirit Fruit now," Yuan said to her as they followed Madam Feng.

"Un," she nodded.

A few minutes later, they entered this luxurious building that was somewhere in the middle of the Golden Phoenix Bazaar.

"Welcome back, Madam Feng. Welcome to the Phoenix Heaven, esteemed guests." The workers inside greeted them the moment they entered the building.

Madam Feng nodded her head before speaking to one of the workers there, "Bring me three Spirit Fruits and wrap them up nicely; it's for these esteemed guests."

"As you wish, Madam Feng." The worker bowed before walking away.

"Three Spirit Fruit? We only planned on buying one," Yuan said to her afterward.

"Don't worry about it, one or three— it doesn't make a difference to me," Madam Feng said to him with a smile, and then she suggested, "Anyway, it might take some time for them to wrap up the Spirit Fruits. Why don't I show you around the store while we are waiting?"

Hearing her words, Yuan nodded, and they proceeded to follow Madam Feng around the first floor of the building.

"How much are the treasures here usually worth? I don't see any price tags." Yuan suddenly asked her out of curiosity.

"The first floor mostly contains treasures worth between 10 million gold coins and 100 million gold coins," Madam Feng quickly responded to him.

"100 million gold coins...?" Yuan looked at her with a dazed face.

There appeared to be around six floors in this building, and if the first floor already contained treasures that are worth tens of millions of gold coins then he cannot imagine what kind of treasure they have on the top floors.

"What is this?" Yuan suddenly stopped in front of a display case that had a single red leaf inside, wondering how this is even a treasure.

"That's a Blood Leaf from the Devil's Forest— it's a rare treasure that requires 500 years to naturally grow," Madam Feng explained to him. "It's usually used in strengthening pills."

"Is that so..." Yuan mumbled in a low voice.

A few minutes later, they finished seeing all of the treasures on the first floor.

"Do you wish to see the other floors?" Madam Feng asked him afterward after noticing how much they were enjoying the tour, especially Yuan, whose eyes were essentially glowing with excitement.

"If you don't mind," Yuan said.

"Haha... Why would I?" Madam Feng laughed in a slightly awkward voice.

While she normally wouldn't allow strangers to the higher floors, there was simply nothing she could do when there was a Spirit King amongst them. Even if Yuan wanted to rob the entire building, Madam Feng could only stand there with a smile on her face while they rob the store.

However, since Yuan did not appear to be that kind of person, even feeling kind of pleasant to be around, Madam Feng wasn't too worried about showing them the treasures, or else she wouldn't even have suggested it in the first place.

Madam Feng brought Yuan and the others to the second floor a few moments later, but there appeared to be fewer display cases on the second floor compared to the first floor.

"How much are the treasures on this floor?" Yuan couldn't help but ask.

"Around 100 million gold coins to 200 million," she said with a smile.

"200 million..." Yuan could feel himself sweating just from hearing the enormous amount of wealth.

Madam Feng then continued, "The treasures on the third and fourth floor are worth around 200 million to 700 million."

"On the fifth floor, the treasures are all worth over one billion gold coins, but since the amount is so high, we normally accept only Spirit Crystal from that point forth."

"As for the sixth floor... Most of the treasures there are priceless, so we only accept trades with a similar value for it."

After seeing every treasure on the second floor, they continued onto the third floor.

"This is a Divine-grade sword?" Yuan gazed at the beautiful and sharp sword in the display case with admiration in his eyes.

"That sword is called 'Thousand Lords', and although it is only of low-quality, it is immensely powerful—to the point where even a Mortal would be able to cleave an entire mountain in half if they could wield it."

"Xiao Hua, at what cultivation level do I need to be in order to wield something like this?" Yuan decided to ask her.

"Brother Yuan should be able to wield Earth-grade treasures now, perhaps even low-quality Heaven-grade treasures. However, you'll need to reach Spirit Grandmaster before you can even consider wielding a Divine-grade treasure."

"Spirit Grandmaster... That's quite far away..." Yuan sighed.

After spending a few minutes on the third floor, right as they prepared to head onto the fourth floor, one of the workers there approached them with three luxurious-looking square boxes.

"Madam Feng, here are the Spirit Fruits you have requested."

Madam Feng accepted the Spirit Fruits before handing them to Yuan.

"Here you go, esteemed guests. It's not much, but please accept this small token from me."

"Thank you..." Yuan accepted the boxes with a humble expression on his face.

"Although you now have what you came for, do you still wish to see the other floors? I can see that you have a fascination for swords. Since that's the case, you'll definitely love what I have on the top floor." Madam Feng said to him afterward.

While she could just let Yuan leave now, she didn't want them to leave before she could create some sort of connection with them, especially with Xiao Hua, a Spirit King.

"Okay," Yuan immediately nodded, as he was also curious about the treasures on the higher floors.

Chapter 87 - Empyrean Overlord

After putting away the Spirit Fruits into his spatial ring, Yuan and the others followed Madam Feng to the fourth floor, where even fewer display cases were available.

"What kind of pill is this?" Yu Rou suddenly asked after seeing the reddish pill in the display case, as she cannot imagine how a single pill could possibly cost hundreds of millions of gold coins.

"That's the Spirit Advancement Pill; it can boost the cultivation base of any Cultivator before the Spirit Master realm by an entire realm— so nine levels." Madam Feng explained to her.

"An entire realm?! So I can reach the Spirit Warrior realm right now if I swallowed it?" Yu Rou asked, her voice filled with shock.

"Correct. However, you can only consume one of these in your lifetime, so most people would consume it at the first level Spirit Warrior realm so they can become a Spirit Master instantly."

"Wow... How much would one of these costs?" Yuan asked afterward.

"650 million gold coins," Madam Feng responded with a smile on her face.

"650 million?!" Yuan's jaw dropped. It didn't take him much effort or money to reach the fifth level Spirit Warrior realm, so the ridiculous price seemed unjustified in his eyes.

However, to the majority of Cultivators in this world that require months and even years of effort for a single breakthrough, if they could potentially save many years of their life with a single pill, the Spirit Advancement Pill was worth every penny if they could afford it.

After walking a circle around the fourth floor, Madam Feng brought them onto the fifth floor, where only seven items were being sold.

"Everything in here is worth over 1 billion gold coins...? I wonder what you can do with that amount of money in this world..." Yu Rou mumbled.

"Although one billion gold coins may seem like a lot, it's actually not as much as you are thinking. An average sect will earn and spend tens of millions of gold coins a month, whilst the bigger ones spend hundreds of millions of gold coins every month." Madam Feng said.

"But that's for an entire sect with thousands of people, right? I cannot imagine someone spending so much money on a single individual," Yu Rou shook her head.

"If you are talented enough, people will be willing to spend as much resource as needed. You will be surprised by how much resources wealthy families spend on their most talented children." Madam Feng said with a smile on her face.

"Let's take this Golden Spirit Silk for example. This Golden Spirit Silk is a very important ingredient for an extremely rare and powerful pill that will permanently increase an individual's cultivation speed. If you have a very talented individual in your family and enough money, would you be willing to spend it on this person, who will surely become a great figure in the future and earn much more than what you'd spent? There's really not much difference between investing in business hoping for a good return and investing in an individual hoping to maximize their growth."

"Investing into a person's future, huh?" Yu Rou turned to look at Yuan, who was considered to be one of the most talented child prodigies in history, and how much their family had invested into him before he became a cripple.

"Do you know of a herb called the Seven Colored Herb? How much do you think one of those would cost?" Yuan suddenly asked her, who appeared very experienced in prices for treasures.

"The Seven Colored Herb? Now that's a treasure everyone with a store in the Golden Phoenix Bazaar would covet even though they probably won't try to sell it. If I had one right now, it would be placed on the sixth floor, as they are extremely rare and priceless."

"Priceless, huh..." Yuan nodded.

"..."

Seeing his reaction, Madam Feng narrowed her eyes at him, wondering if he had in his possession a Seven Colored Herb.

"Anyway, let's continue the tour." Madam Feng said a moment later, and they returned to looking at the display cases whilst Madam Feng explained to them the history and value for each of these treasures that are worth over a billion gold coins.

Sometime later, Madam Feng brought Yuan and the others onto the top floor in the building.

"There are only 3 items on this floor?" Yuan mumbled after seeing three thick display cases perfectly distanced from each other. However, unlike the previous transparent display cases, these display cases were completely black, resembling glasses that were tinted to the extreme.

"These display cases are protected by a powerful formation that can block even attacks from a Spirit Grandmaster such as myself," Madam Feng said to them.

Then she snapped her fingers, and one of the display cases suddenly became transparent again, allowing them to see the item inside.

"Is that... Is that a heart?" Yuan asked in a baffled voice after seeing the red pulsing object that resembled a beating heart.

"It's still beating, too!" Yu Rou exclaimed.

"Although it looks like this and closely resembles a heart, it is actually a Monster Core that once belonged to an extremely fearsome magical beast at

the Spirit Grandmaster realm," Madam Feng said.

"A monster core?! This beating thing?!" Yuan's jaw dropped, as this is his first time seeing such a unique-looking monster core. Although he can eat normal monster cores without batting an eye, he will definitely have trouble putting something this disgusting into his mouth.

"The Spirit Grandmaster demonic beast was a special existence that had demonic blood flowing in its veins, hence why its monster core looks this way." Madam Feng said.

"Demons? How do they differ from magical beasts?" Yuan asked.

"Demons are extremely powerful and fearsome monsters that resemble humans but are neither human nor beasts— they are bloodthirsty entities with unknown origins, so we do not know how they came into existence. However, we do know that they are extremely powerful and feared by most people," she explained.

"I see..." Yuan nodded.

"Well, you won't find any demons in the Lower Heavens, though, as they are usually too powerful to exist here." Madam Feng said a moment later.

"Let's move onto the next item. I have a feeling that you'll really like it."

After snapping her fingers, the second display case revealed itself.

"This is... a sword?" Yuan looked at the beautiful yet fierce-looking sword in the long display case with admiration, and his hands quickly became itchy, as he had this strong urge to hold the sword.

"This is not your ordinary treasure— it's a Soul Weapon," Madam Feng said with a smile on her face. "And it's called the Empyrean Overlord."

"A Soul Weapon?" Yuan became even more interested after hearing that.

"Hm? Don't you also have a Soul Weapon, brother?" Yu Rou suddenly recalled.

"Eh?" Madam Feng looked at Yuan with wide eyes filled with surprise.

"Y-You also have a Soul Weapon? If you don't mind, can I see it?" she asked him a moment later in a trembling voice.

"Sure." Yuan nodded and retrieved the Starry Abyss the next second.

"Amazing! This is my first time encountering another individual with a Soul Weapon!" Madam Feng exclaimed, and she continued, "If you don't mind me asking, where did you obtain this beauty?"

"It was given to me by some people I helped," he said in a calm voice.

"I-It was given to you...?" Madam Feng mumbled in a trembling voice with a dazed expression on her beautiful face, wondering what kind of person would give away a Soul Weapon just because they had been helped by him?

"What about you? Where did you obtain this sword?" Yuan then asked her.

"I found this baby inside the Legacy Tomb of some powerful Cultivator five hundred years ago," Madam Feng said with a nostalgic feeling around her.

"Legacy Tomb? What's that?" Yuan tilted his head.

"They are essentially a Cultivator's graveyard, Brother Yuan. When a powerful Cultivator is near death but they want to pass down their legacy, they will create these areas to challenge those who wish to attain their legacy, and whoever passes the challenges will obtain all of that Cultivator's wealth," Xiao Hua explained to him.

"I'm more interested in how long ago you found it... 500 years? Do Cultivators really live that long?" Yu Rou said to Madam Feng with a dazed look on her face, as she cannot even imagine living past 150, much less 500.

"Yes, most Cultivators at the Spirit Grandmaster realm can live up to 1,000 years," Madam Feng said to her.

"1,000 years? Then what about a Spirit King?" Yu Rou asked as she turned to look at Xiao Hua.

"..." Xiao Hua's eyebrows immediately twitched, as she understood Yu Rou's intent on asking such a question.

"I'm not really sure, but they should have a longevity of at least 10,000 years..." Madam Feng answered with an innocent face.

"10,000 years?!" Yu Rou's jaw dropped, and her curiosity regarding Xiao Hua's age intensified.

"Anyway, even though I managed to obtain this Soul Weapon, I cannot use it, as it won't recognize me as its owner no matter what I did." Madam Feng sighed afterward.

"It won't recognize you...?" Yuan mumbled with a profound expression on his face.

When Xiao Hua saw this, she turned to look at Madam Feng before asking her, "Since the Soul Weapon is on display in this store, you are willing to sell it, right?"

Hearing her question, Madam Feng immediately nodded, "T-That's correct! Though, I am mostly looking to trade it for something of similar value... if you don't mind..."

Madam Feng spoke in a reserved voice, as her fear for Xiao Hua still lingered within her heart.

Meanwhile, Yuan stared at Xiao Hua whose intentions were clear as day with a surprised face, clearly speechless.

Chapter 88 - Trading For The Soul Weapon

"Xiao Hua... don't tell me you are going to..." Yuan looked at her with his eyes wide open.

Xiao Hua nodded and said, "Brother Yuan looked like he wanted to hold the sword, and Xiao Hua believes that she should invest in Brother Yuan's future, as there's no doubt that he'll become a great figure in the future."

"While it's true that I wanted to try holding the sword, it is an exaggeration to say that I want it..." Yuan said with a perplexed expression on his face.

However, Yu Rou said with a smile on her face, "There's no need to be humble, brother. You may be able to fool others but you cannot fool me. I know you want that sword, and as Xiao Hua said, you are worth the investment."

"Yu Rou... you..." Yuan shook his head at his little sister who'd betrayed him. The only reason why he refused the Soul Weapon was because he feared the enormous price that Xiao Hua might have to pay in order to obtain it for him.

"Anyway, what do you want in exchange for the Soul Weapon? Are you looking for something in particular?" Xiao Hua returned to Madam Feng.

"Honestly, I have been hoping to exchange the Empyrean Overlord for another Soul Weapon—one that I can use. However, I have had the Empyrean Overlord for over 500 years now, and there have been countless individuals interested in it, but alas, I have not met another individual with a

Soul Weapon until today, and I doubt you would be willing to part with your current Soul Weapon." Madam Feng sighed.

"Weapons, huh? Although Xiao Hua does not have any Soul Weapon, she has plenty of treasures..." Xiao Hua then opened her spatial ring and began pulling out weapons one after another until the floor was littered with at least a dozen weapons, each emitting its own powerful aura.

"..."

Not just Madam Feng, but even Yu Rou and Yuan were staring at Xiao Hua with gawking expressions on their faces. Just how many treasures does she have?

"T-These are all..." Madam Feng's body trembled in excitement after feeling the auras coming from these treasures.

"They are all peak-quality Divine-grade treasures. Pick as many as you want for the Soul Weapon," Xiao Hua said with a calm expression on her face. Since she'd already planned on giving these weapons to Yuan in the future, it wouldn't make a difference if she traded them for another weapon that he'll be using.

"D-Divine-grade treasures..." Yu Rou's mouth salivated from the sight of so many endgame treasures.

A single one of these treasures would shake the entire world and its entire playerbase, yet there were over a dozen of them laying before her on the floor. If she'd posted this on the forums online, nobody would believe her even if they were beaten to death.

After a long moment of silence, Xiao Hua spoke, "You're not satisfied? If you cannot pick, Xiao Hua will exchange all of them for the Soul Weapon ____"

"W-Wait a moment, Senior..." Madam Feng suddenly said in a trembling voice, "I-I am just speechless. A single one of these treasures could easily fetch over 500 million gold coins... And you're willing to exchange a dozen

of them for the Soul Weapon...? That'll make me look like I am trying to take advantage of you!"

"Then what do you want for the Soul Weapon?" Xiao Hua asked her again, seemingly annoyed that she cannot make up her mind.

"Then if you don't mind, I will take these three Divine-grade treasures..." Madam Feng picked three of the Divine-grade weapons off the floor and showed them to Xiao Hua.

"Okay." Xiao Hua nodded her head without hesitation, as she wouldn't have minded even if Madam Feng wanted all of them since Soul Weapons are truly priceless.

Once Madam Feng accepted the Divine-grade weapons, Xiao Hua returned the rest into her spatial ring.

Meanwhile, Madam Feng retrieved the Empyrean Overlord from the display case and handed it to Yuan. "Thank you for doing business with Phoenix Heaven, esteemed guests."

"This is the Empyrean Overlord..." Yuan held the massive sword that was nearly his height with both of his hands, barely keeping it from falling due to its immense weight.

"T-This is much heavier than I'd expected..." Yuan exclaimed afterward.

"Well, it weighs over 1,000 jins, not to mention the Soul Weapon hasn't recognized you as its master yet. If you can control it, it should become as light as a feather." Madam Feng said.

And then she continued, "Oh, I forgot to ask you this, but have you been acknowledged by your other Soul Weapon?"

"Eh? Does that matter?" Yuan asked her.

"Un," she nodded and continued, "Most people can only contract one Soul Weapon at a time unless they have a strong soul. However, even if one has the capability to control two Soul Weapons at once, there's a high chance

that the Soul Weapons would reject each other, as most Soul Weapons do not like sharing their resources."

"Sharing their resources?" Yuan raised an eyebrow.

"Soul Weapons grow with their owners, but if you have two Soul Weapons, it's only logical that they will have to share that experience, slowing down their growth by half." Madam Feng explained to him.

"I had no idea it would be like that... and yes, I am already contracted with the Starry Abyss," Yuan said to her. "It would suck if I am unable to contract it because of the Starry Abyss since I like them both equally."

"Well... there's no harm in trying. If it doesn't work out, I don't mind giving you a refund," Madam Feng said.

"Don't worry, Brother Yuan. With your talents, you'll have no trouble controlling two Soul Weapons at once!" Xiao Hua said to him.

"That's right, brother. Don't underestimate yourself." Yu Rou patted his back for encouragement.

Yuan nodded and laid the sword on the floor. He then poked a hole in his finger with the Starry Abyss before squeezing a drop of his blood onto the sword.

The moment his blood touched the Empyrean Overlord, it immediately began trembling. However, it was not just the Empyrean Overlord that had a reaction to Yuan's blood, as Madam Feng suddenly felt a shiver going down her spine.

'This smell is...?' Madam Feng unconsciously raised her eyebrows after smelling an indescribable fragrance that had suddenly appeared in the room and instantly attracted her attention.

Meanwhile, the Empyrean Overlord on the floor suddenly began levitating off the floor.

"Oh?" Yuan became excited after seeing the Empyrean Overlord reacting the same way the Starry Abyss had when he contracted it.

The Starry Abyss in his grasp also suddenly began trembling, almost as though it was trying to communicate with the Empyrean Overlord.

After an entire minute had passed with both Soul Weapons trembling nonstop, they suddenly stopped moving.

Another moment later—

«Congratulations! The Empyrean Overlord has recognized you as its owner!»

«Empyrean Overlord»

«Level: 0»

«Rank: Soul Weapon»

«Growth Rate: Very Slow»

«Requirement: ???»

«Description: A mythical sword once wielded by the Sword Emperor. It can be as light as a feather or as heavy as a star»

"It worked! The contract worked! It recognized me as its Master!" Yuan shouted in excitement after seeing the notification.

"Congratulations, Brother Yuan." Xiao Hua said to him without much surprise on her face.

"See? There's nothing you cannot do, brother." Yu Rou said with a smile on her face.

However, as they were celebrating, Madam Feng suddenly moved and approached Yuan.

"What's wrong, Madam Feng?" Yuan asked her when she got extremely close to him.

"I'm sorry, but I cannot control myself right now..." Madam Feng spoke as she suddenly grabbed Yuan's hand that was still bleeding slightly and lifted it towards her own face.

"Aaaah..."

Madam Feng took a deep breath with an elated expression on her face before she opened her mouth and shoved Yuan's bleeding finger into her own mouth, shocking everybody there.

"M-Madam Feng?!" Yuan exclaimed, yet he couldn't remove his arm when he tried, as he was being tightly held by a Spirit Grandmaster, and he could feel Madam Feng sucking on his finger— or more precisely, his blood.

"W-What are you doing to my brother?!" Yu Rou also cried out loud, her eyes wide with shock.

However, almost as though she was in a trance, Madam Feng ignored everything around her and continued sucking on Yuan's finger with an enchanted expression on her face, looking like she was charmed by the taste of his blood.

"Get away from Brother Yuan!" Xiao Hua waved her sleeves with a frown on her small and round face, forcing Madam Feng off the terrified Yuan.

"Thank god my finger is still here!" Yuan sighed in relief after seeing that his finger, albeit wet with Madam Feng's saliva, was still intact.

After a long moment of awkward silence, Madam Feng finally snapped out of her daze, and when she realized what she'd just done, she immediately kowtowed on the floor with her face flushed with redness, "I-I-I am so sorry! I don't know what happened to me just now! Something about your blood had attracted me, and I unconsciously...! I swear I didn't do it on purpose!"

"My blood...?" Yuan looked at her wet finger with raised eyebrows. Why would his blood attract her? Unless Madam Feng turned out to be a vampire, there was no logical explanation behind her actions just now.

"Please! Believe me! I really don't know what happened just now!" Madam Feng continued to beg for forgiveness.

"It's fine... I was just a little surprised, that's all..." Yuan said with a smile on his face.

Chapter 89 - Phoenix Blood

"Are you really okay, Brother Yuan?" Xiao Hua asked him in a worried voice.

"Yes, I am not hurt. She was just sucking my blood, that's all," Yuan nodded.

"Sucking your blood?" Yu Rou raised her eyebrows and looked at Madam Feng, who remained kneeling there with a guilty expression on her face.

"Anyway, let's forget about this and continue with the tour— there's still one item left, and I would very much like to see it," Yuan said a moment later.

"Right away, esteemed guest!" Madam Feng quickly stood up and snapped her fingers, causing the third and last display case to reveal the treasure inside.

Once the third treasure was revealed, both Yu Rou and Yuan raised their eyebrows.

"This is... a jade slip?" Yuan placed his head in front of the display case and narrowed his eyes, making sure he wasn't seeing things.

"This object has this indescribable feeling to it..." Yu Rou also looked at it with curiosity. "What is this thing?"

"The jade slip is just a container. The real treasure is inside, and inside the jade slip is a single drop of blood." Madam Feng responded.

"Blood?" They looked at her with raised eyebrows.

"Of course, it is not just any ordinary blood, as it once belonged to a legendary divine beast—the Vermilion Phoenix." Madam Feng spoke with a smile on her face.

"Vermilion Phoenix? So there is phoenix blood inside that jade slip?" Even Xiao Hua became interested after learning of its origins, as phoenixes are extremely rare divine beasts.

"That's right, and this is authentic phoenix blood." Madam Feng nodded.

"How can you tell it's real phoenix blood?" Yuan asked. "Is there some way to test it?"

"There is, but that requires one to consume the blood and test its effects, which is a complete waste since there's only a single drop. However, we know this is real phoenix blood without needing to test it because it was given to us by the Vermilion Phoenix herself." Madam Feng said to them.

"What? You have met the phoenix?" Yuan looked at her with wide eyes.

"No, I haven't. The phoenix blood had been passed down many generations, and it was my ancestors that obtained the phoenix blood from the Vermilion Phoenix." Madam Feng shook her head.

"Is that so? Then does this phoenix blood actually do anything besides being extremely rare?" Yu Rou asked her.

"Of course," Madam Feng quickly nodded. "Phoenix blood is a miracle treasure with many effects. A single drop can bring a half-dead man back to life! It can also heal any illness and injuries, and it could even regrow your limbs. Furthermore, if you consume phoenix blood, your longevity will increase significantly! Depending on the quality of the blood and the strength of the phoenix it came from, it can grant even a mortal over 10,000 years of longevity without needing to cultivate!"

'Heal any illness or injuries...?' A profound expression appeared on Yuan's face when he heard that, and an idea immediately appeared in his mind.

'If the Translucent Dew of Flawlessness affected my body in real life, maybe this phoenix blood could also heal my illness? Even if it's only a possibility, I must obtain this phoenix blood at all cost!'

"Umm... What do you want in exchange for the phoenix blood?" Yuan decided to ask her.

"You want this phoenix blood?" Madam Feng looked at him with a surprised face, as did Yu Rou and Xiao Hua. Why does he want the phoenix blood?

"Yes..." Yuan nodded.

"Hmm... I don't really know... I have had countless offers before, but none of them managed to attract me, and I don't have anything in mind for now." Madam Feng said.

"How about the other Divine-grade treasures? Xiao Hua can give you all of them for the phoenix blood." Xiao Hua suddenly chimed in.

Since this is her first time seeing such intense desire from Yuan's eyes, she wanted to do her best to assist him.

"I'm sorry, Senior, but I would prefer something else..." Madam Feng apologized to her.

"If you don't say what you want then how are we supposed to know what to trade?" Yu Rou asked with a slight frown on her face.

"Well... Although I have never really thought about what I wanted in exchange for the phoenix's blood, I think I have something in mind now..." Madam Feng spoke in a nervous tone, and she turned to look at Yuan afterward.

"Huh?" Yuan raised his eyebrows after noticing her gaze, but he soon realized what she wanted from him.

"You... want my blood?" he asked her.

"..." Madam Feng did not immediately respond and remained silent for a long moment before nodding her head in an embarrassed manner.

"Okay, how much do you want?" Yuan immediately agreed. "As long as it doesn't kill me, I'll give you however much blood you want."

"R-Really?" Madam Feng's eyes flickered with excitement.

"B-Brother... are you really going to...?" Yu Rou looked at him with disbelief. Although it may appear quite the bargain to obtain real phoenix blood by exchanging his own blood, this entire situation appeared extremely suspicious, as it was simply too good to be true.

"Yes, it's fine. It's only my blood. It'll return sooner or later," Yuan nodded.

He then looked at Madam Feng and continued, "How do you want to draw my blood?"

"Uh... I was just thinking about drinking it straight from your body..." she said.

"Drinking it straight from my body?" Yuan trembled in fright after hearing her words.

'This is for the phoenix blood! I must endure it!' Yuan cried inwardly before nodding.

"Go ahead." He lifted his arm, showing her his pale and smooth arms.

Seeing this, Madam Feng unconsciously licked her luscious red lips.

"..."

Yuan trembled even more after seeing this. Thinking to himself that Madam Feng being a vampire was becoming more and more likely.

"If you do anything suspicious to Brother Yuan, Xiao Hua will not hold back this time like previously," Xiao Hua suddenly warned her with narrowed eyes.

"I-I wouldn't dare, Senior..." Madam Feng said with a fearful expression.

"Why don't we go somewhere more comfortable?" Madam Feng then suggested to Yuan.

After Yuan nodded, Madam Feng said, "Follow me."

Sometime later, they entered this room that was behind some curtains on the 6th floor, and it was clearly Madam Feng's personal room, as the room was filled with furniture and even a large bed.

"Please take a seat on the bed," Madam Feng pointed at the large red bed.

"Okay." Yuan nodded and sat on the bed without hesitation.

Madam Feng then sat beside him with Yu Rou and Xiao Hua standing a few meters away.

"Whenever you're ready," Madam Feng said to him in a gentle voice.

Yuan nodded before using the Starry Abyss to cut a small opening on the lower area of his palm, and blood immediately began flowing out.

Madam Feng quickly grabbed his hand and kissed his wound with her soft lips, not letting even a single drop of his blood go to waste.

"Mmm..."

Erotic noises came from Madam Feng as she savored Yuan's blood that was incomprehensibly delicious for some reason, and just a single drop of it made Madam Feng completely addicted to it.

Meanwhile, Yuan tried his best to keep a poker expression on his face, but the feeling of Madam Feng's soft lips was simply too stimulating, especially her tongue that was gently licking his wound, almost like a dog.

"Why do you think she likes my brother's blood so much? Is she actually a vampire disguised as a human?" Yu Rou whispered to Xiao Hua as they watched.

Xiao Hua shook her head and said, "No, she's not a vampire. As for why she's consuming Brother Yuan's blood... Xiao Hua can think of a few."

"Brother Yuan's blood may be special— perhaps he has a unique bloodline that has the effect of making people addicted to it."

"Huh? Is that even possible?" Yu Rou looked at her with wide eyes.

Xiao Hua nodded and said, "There are many unique bloodlines in this world, and some of them have powerful and incomprehensible effects, such as having blood that can increase magical beasts cultivation or blood that can strengthen even treasures."

"Wow..." Yu Rou expressed her awe after hearing what bloodlines could do.

"But if my brother's blood can affect humans, why aren't we affected by it?" Yu Rou then asked.

"Perhaps it only affects some people, like how some medicines work better on some than others," Xiao Hua said.

"That makes sense..." Yu Rou nodded.

Many minutes later, Yuan was beginning to feel lightheaded, so he tapped Madam Feng's shoulders and said, "I think I am at my limit... If I lose any more blood, I'll probably die from blood loss..."

"Aaaahhh~!"

Madam Feng removed her lips from his wound a few seconds later, even releasing a loud and satisfied sigh, sounding as though she'd just drank something delicious.

"Thank you, esteemed guest... I don't know why I crave for your blood, but I am now satisfied." Madam Feng said to him.

"..."

However, Yuan did not respond.

"Esteemed guest?" Madam Feng noticed that Yuan was staring at her with wide eyes, so she called him again.

"Your eyes... they changed colors..." Yuan said to her, whose brown eyes had suddenly turned golden after drinking his blood.

"Eh?"

Madam Feng immediately rushed to look for a mirror after hearing Yuan's words, almost like she was in a panic.

"It's gold... It's really golden!" Madam Feng suddenly exclaimed in an excited voice, dumbfounding the people in the room. "Hahaha! It has returned! My powers have returned!"

"Powers...?" Yuan raised his eyebrows in a puzzled manner, wondering what she was talking about.

Chapter 90 - Vermilion Phoenix

"It's a miracle! My powers are starting to return! Hahaha!" Madam Feng danced around like an excited little girl after seeing her golden eyes in the mirror.

Meanwhile, Yuan and the other two girls were staring at her with a dazed look on their faces.

What was she so excited about? What did she mean by 'her powers are back' when she's already at the Spirit Grandmaster realm?

"Umm... are you okay?" Yuan suddenly asked her.

"Hm?" Madam Feng immediately turned to look at Yuan, but her gaze towards him had changed significantly compared to previously, almost like she was seeing him in a new light!

She turned around and walked to him very quickly before stopping a meter away and lowering her body until both her knees were on the floor, and she proceeded to press her forehead onto the floor made of marble, kowtowing to Yuan.

"Esteemed guest... No, Young Master... Thank you very much for restoring my powers even if it's only slightly!" Madam Feng said to him.

"I... I don't really understand," Yuan said while scratching his head.

Madam Feng then said, "To tell you the truth, I am not exactly human. In fact, I am a Divine Beast—the Vermilion Phoenix."

"You're a phoenix?!" Yuan exclaimed in a shocked voice.

"No way..." Even Yu Rou and Xiao Hua were startled by this reveal by Madam Feng.

"Yes, however, due to some circumstances, my bloodline was cursed, and my powers have been sealed and I am forced to live my life as a human. I have been living such a life for over 10,000 years now." Madam Feng continued to reveal even more secrets about herself that she'd kept a secret for over 10,000 years.

"10,000 years!" Yuan cannot imagine living for so long and was greatly shocked to hear that Madam Feng had this much experience.

"So your powers have returned, huh? That's great to hear," Yuan said with a smile.

"Yes... But it's only a small amount, and I can still feel the curse restricting my body." Madam Feng sighed.

And then she lifted her head to look at Yuan with a hopeful gaze and continued, "However, Young Master... I believe your blood can help me remove this curse and allow me to be free once again."

"My blood?" Yuan raised his eyebrows in a surprised manner.

"Yes. For some reason, I am attracted to your blood, and after drinking it, my curse weakened, so I can only assume that your blood has the ability to remove my curse." Madam Feng said.

"Therefore, I plead the Young Master for help! Please help get rid of this curse that has trapped me in this Lower Heavens for 10,000 years! I will do anything in return!"

After a moment of silence, Yuan spoke in a calm voice, "If my blood can really help you remove your curse, I would gladly help by giving you as much blood as you need. However, it requires time for my blood to recover, and I don't have the time to wait around, not to mention who knows how much blood you will need to fully remove that curse."

"That's right. Brother Yuan will soon climb the Stairway to Heaven until he reaches the peak. He doesn't have the time to linger in this small place," Xiao Hua also chimed in.

"Stairway to Heaven...?" Madam Feng looked at him with surprise, and she became silent.

"Are you okay?" Yuan asked her after she remained silent for a minute.

After blinking her eyes in a dazed manner a few times, Madam Feng suddenly said to Yuan, "Young Master... if you cannot stay here, then I will follow you until I am free of my curse! Of course, I won't selfishly request your help free of charge! Everything in this store—including myself—I shall bestow to the Young Master! As long as you let me follow you and consume your blood occasionally, you can do whatever you want with these treasures or my body!"

"Everything in this store?" Yuan looked at her with a gawking expression. He cannot imagine obtaining so many expensive treasures at once, and all he needed to do was share some of his blood.

"I won't ask you to give your treasures since I don't need so many treasures that I cannot use, and I don't want to feel greedy—like I'd taken advantage of you, who is currently in a bind because of a curse. I am satisfied with just the Phoenix Blood," Yuan said with a gentle smile on his face.

"..."

Seeing Yuan's blinding smile, Madam Feng narrowed her eyes before bowing to him again. "Thank you, Young Master!"

Madam Feng then said, "Young Master, may I have some of your blood again? Just a single drop will do."

Yuan nodded and extended his arm.

Madam Feng lifted her head and licked the wound on Yuan's palm.

A second later, the wound immediately disappeared, and a few more seconds later, a notification appeared before Yuan.

«Vermilion Phoenix has initiated a temporary servant contract with you!»

"Young Master, this one's full name is Feng Yuxiang or Feng Feng for short. Until my curse is lifted, I shall swear my allegiance to the Young Master and heed your every command without any complaints, and the Young Master can use my body as he pleases. Will the Young Master allow me to stay by your side?"

"Yes, I don't mind." Yuan nodded. It would benefit him to have another powerful ally by his side, anyway.

«You have accepted Vermilion Phoenix as your Servant!»

«Congratulations! Because you have obtained a Divine Beast as your Servant, you have been awarded the unique title 'Divine Beast Tamer'!»

After Yuan accepted Feng Yuxiang as his servant, an announcement appeared in the sky for every player to witness.

«Congratulations! Player Yuan has become the first player to obtain a Divine Beast Servant!»

The announcement immediately caused an uproar within the community, creating a wildfire on the internet shortly later.

"Divine Beast...?" Player White Lotus mumbled to herself as she stared at the announcement in the sky with a dazed expression on her face, and she turned to look at her Two-tailed Black Cat. As the first player to have obtained a Servant, she was naturally proud of herself. But after Player Yuan suddenly came out of the blue and obtained a Divine-grade Servant, her achievements were instantly overshadowed. Now that Player Yuan has obtained a Divine Beast, she might as well treat her achievement as though it'd never happened.

Meanwhile, back in Feng Yuxiang's room, Yu Rou and Xiao Hua were staring at Feng Yuxiang with a shocked expression on their faces.

"Brother... just obtained a phoenix as his Servant?" Yu Rou mumbled in a low voice. Although she couldn't help but be slightly envious of Yuan, she was also proud of him for yet another incredible achievement that will without doubt shake the entire world.

Xiao Hua, on the other hand, had an uncomfortable and indescribable feeling in her chest, almost like something important and special had been taken away from her.

"Thank you, Young Master." Feng Yuxiang said as she suddenly stood up and kissed Yuan on the cheeks.

"Ah!" Yu Rou shouted loudly after seeing this, her eyes wide with shock.

Sometime later, Yuan asked Feng Yuxiang, "I can call you Feng Feng, right? What are you going to do with this place if you are going to follow me?"

"Yes, the Young Master can address me as he pleases. As for the Phoenix Heaven, since I don't have anyone I trust enough to entrust them this place,

I will simply close the store down since I won't have the time to manage it anymore," she responded.

"I see..." Yuan nodded, and he continued a moment later, "By the way... the Phoenix Blood..."

"Here is the Phoenix Blood, Young Master." Feng Yuxiang then handed him the jade slip that contained the Phoenix Blood.

"Oh yeah... since you are actually the Vermilion Phoenix, does this mean this blood is yours?" Yuan suddenly asked her.

"That's right, Young Master," Feng Yuxiang nodded, and she continued, "However, the blood within that jade slip was extracted from my body before I was cursed, so you can also say it's no longer my blood."

"How does the curse work, exactly?" Yuan then asked her.

"Well, it seals my cultivation base and suppresses it, not allowing me to ascend to the next realm no matter how much I cultivate, hence why I have been stuck in the Spirit Grandmaster realm for over 10,000 years now."

"Furthermore, it puts a restriction on my bloodline, forcing me to remain in my human form, and I cannot transform back into my phoenix form until the curse weakens enough."

"Does this mean you are actually much stronger than your current self?" Yuan continued to ask.

"That's right, Young Master. My real cultivation base is actually much higher because I was born in the higher realms. I am only stuck in this place now because if I would not survive in the higher realms with my current strength." Feng Yuxiang nodded.

"However, my powers should return as the curse weakens. So while I cannot assist the Young Master much in my current state, once my curse weakens and my powers slowly return, I will be of more use to the Young Master in the future," she said.

Chapter 91 - Unknown Bloodline

"If you don't mind me asking, how did you even get the curse in the first place?" Yuan suddenly asked Feng Yuxiang.

Hearing his question and recalling her history, Feng Yuxiang sighed in a depressed manner before speaking, "This is going to sound silly, but we phoenixes are born with extreme pride, but that pride sometimes turn into arrogance, and being the young phoenix I was back then, I'd accidentally offended someone I wasn't supposed to, so that person cursed my bloodline, sealing my powers..."

Yuan stared at her with a dumbfounded expression. She had her powers sealed and her bloodline cursed just because she offended someone? Just what kind of person did she offend? And how powerful must this person be to curse a phoenix's bloodline?

"At least you're being honest," Yu Rou suddenly approached them and said.

"By the way, what are you going to do with that Phoenix's Blood, brother?" she then asked him.

"I'm going to consume it, of course," he said.

"Eh? Why would Brother Yuan...?" Xiao Hua also approached them and looked at Yuan with a puzzled face. "Are you injured or sick somewhere, Brother Yuan?"

"N-No, not really," Yuan quickly shook his head.

"Then why do you need the Phoenix's Blood, Brother Yuan?" Xiao Hua tilted her head in a puzzled manner. "If you are not injured then it's about increasing your longevity... However, Brother Yuan is still very young and

nowhere near his limit. He doesn't need to use such a treasure to increase his longevity."

In Xiao Hua's view, only Cultivators who have reached the end of their longevity and also the limit of their growth would require obtaining longevity from treasures, as that is the only way they can continue living.

"Well... It's kind of complicated..." Yuan said with an awkward smile on his face. It was not as though he could tell them that he wanted to see whether the Phoenix's Blood could heal his body in the real world, as that would make him sound crazy.

"By the way, Young Master, I have been wondering, what kind of bloodline do you have? If your blood can weaken that person's curse, you must come from a powerful family that is even more powerful than that person, right?" Feng Yuxiang suddenly asked him.

"Bloodline...? But I don't have any unique bloodline," Yuan said— at least that's what his status says.

Yuan then opened his status to in case.

«Bloodline: None»

Indeed, he did not have any bloodline according to the system.

"That's impossible, Young Master, for you to not have a powerful bloodline. Normal blood would not attract a Divine Beast such as myself, much less weaken the curse from a powerful Cultivator in the upper heavens," Feng Yuxiang said to him with a puzzled face.

"I don't know what else to say since I really don't have any special bloodline and I am not from some powerful family," Yuan said.

Feng Yuxiang became silent with a pondering expression on her face. A few moments later, she spoke, "Although I didn't mention this before, my phoenix blood also has the ability to awaken bloodlines. In fact, all Divine Beasts have such ability. If you drink my blood, perhaps you will learn

more about your bloodline. After all, not everyone is born with their bloodline awakened. Some must fulfill requirements or require assistance from treasures in order to awaken their bloodlines."

"Really?" Yuan raised his eyebrows. Perhaps that's why the system cannot recognize his bloodline, as it has yet to awaken.

"Anyway, we'll know whether I have a bloodline or not after I consume the phoenix blood. I just have to break the jade slip, right?" Yuan asked Feng Yuxiang.

"Allow me to help you, Young Master."

Yuan nodded and handed her the jade slip.

Feng Yuxiang then placed the jade slip above Yuan's head and said, "Open your mouth, Young Master."

Yuan lifted his head and opened his mouth.

Feng Yuxiang then snapped the jade slip in half, and a single drop of golden blood escaped from the jade slip, falling directly into Yuan's throat.

A few seconds later—

"Uhh..." Yuan looked at Feng Yuxiang afterward and said, "I think the Vermilion Phoenix Blood is too weak to awaken my Bloodline."

"What?! My blood is too weak?!" Feng Yuxiang exclaimed in a shocked voice.

"That's outrageous! My blood has the capabilities to awaken all Bloodlines below the Divine-grade!"

However, Feng Yuxiang suddenly turned silent, and she continued a moment later, "Actually, that would make sense since your blood was able to weaken that person's curse, so it's not too far-fetched to say your Bloodline is above the Divine-grade..."

Feng Yuxiang looked at Yuan with a gaze of admiration and even a hint of fear within her eyes. People who are born with Bloodlines above the Divine-grade are too far and few in-between, and only extremely powerful families in the upper heavens have the capabilities to give birth to someone with such a powerful Bloodline. Just who is Yuan? What kind of powerful cultivation family is he from?

"Brother Yuan has a Bloodline that's above Divine-grade?" Xiao Hua also looked at Yuan with wide eyes filled with shock. It has been a while since she felt this way—probably not ever since she first witnessed Yuan consuming monster cores.

While Feng Yuxiang and Xiao Hua stared at Yuan with dazed looks on their faces, Yu Rou spoke, "What are the grades for Bloodlines? Though, I can already imagine how powerful Divine-grade is just by its name..."

"There are many grades for Bloodlines. The lowest grade would be Royal-grade, then Imperial-grade, and finally, Divine-grade. Of course, there are still much more powerful Bloodlines that are above the Divine-grade such as the Ancient-grade, but you only see people with that kind of Bloodline in the upper heavens, not a small place such as the Lower Heavens," Feng Yuxiang explained.

"And since my Vermilion Phoenix Blood could not awaken the Young Master's Bloodline, it means that his Bloodline is above the Divine-grade and too powerful for my blood to do anything."

"Then what could possibly awaken my Bloodline?" Yuan asked her out of curiosity.

"Well... There are plenty of Divine Beasts that can awaken Bloodlines above the Divine-grade, such as the Heavenly Dragon and the Star Tortoise, but you won't find any of them in the Lower Heavens, as they only live in the upper heavens." Feng Yuxiang said.

"The upper heavens, huh," Yuan mumbled.

"Are you sure you're not from some powerful cultivation family from the upper heavens, Young Master? After all, there's simply no way an ordinary Cultivator would have such a powerful Bloodline— not even if they are the luckiest people in the world." Feng Yuxiang asked him again.

"Yes, I am sure." Yuan nodded.

"Hmm..." Feng Yuxiang narrowed her eyes at him. Of course, she didn't fully believe him. But since Yuan didn't want to tell her, she won't continue asking, as she was afraid that it might anger him.

"Anyway, I still have to close down this store before I can leave this place. Can you spare me a few hours, Young Master?" Feng Yuxiang asked him afterward.

"Go ahead, we'll be here." Yuan nodded.

"Thank you, Young Master! Then I'll try to get this over with as soon as possible!" Feng Yuxiang then left the room and began closing the store down.

Meanwhile, Yuan said to Yu Rou, "Yu Rou, don't you have piano lessons to attend to today?"

Yu Rou shook her head and said, "No, there are no lessons on Sundays. However, I still have to cook you breakfast, so I'll do that now."

"Okay," Yuan nodded.

After Yu Rou logged off to prepare breakfast, Xiao Hua suddenly spoke, "Brother Yuan, can we really trust that woman?"

"Feng Feng? I think so," he nodded with a calm expression. "Why? Do you not trust her?"

"Well... she has done some unfavorable things..." Xiao Hua said.

"I guess her first impression isn't exactly the best. However, I can feel that she's not a bad person at heart, just like you, Xiao Hua." Yuan said with a smile on his face, causing her to blush.

"Like Xiao Hua?" she mumbled.

"That's right. It's hard to explain it, but I can somehow tell whether someone is a good person or a bad person just by their aura—it's something that has been with me since I was young. While I haven't been around people for many years now, my ability still remains," Yuan said.

After a moment of silence, Xiao Hua nodded and said, "Since Brother Yuan trusts that bird, Xiao Hua will also believe in her. As for Brother Yuan's Bloodline, Xiao Hua will think of something."

"Thank you, Xiao Hua." Yuan said to her, and he continued, "Anyway, I will also log off for now. If Feng Feng returns before I do, just let her know that I will be back later."

Xiao Hua nodded, and Yuan logged off the next second with his heart throbbing with excitement, as he was impatient to see whether the Vermilion Phoenix Blood had affected his body in the real world just like the Translucent Dew of Flawlessness had.

Chapter 92 - Breakthrough?

After logging off Cultivation Online, Yuan immediately began trying to move his real body, hoping that the Vermilion Phoenix Blood had cured his illness and healed his crippled body.

But alas, he quickly realized that nothing had changed when he still couldn't move his limbs or see the world around him.

However, he was not discouraged, and he began reciting the cultivation technique inside his head, silently praying that it would work.

'Even if my body is still crippled, as long as I can cultivate...!'

With that thought in mind, Yuan proceeded to spend many minutes cultivating.

"..."

"..."

"...Ouch!"

The pain returned after a few moments of cultivation, but Yuan did not give up and tried again.

"...Ouch!"

And again.

"..."

"...Ouch!"

And again.

"...Ouch!"

"Why?! Why hasn't anything changed?! My body is still useless and I cannot cultivate! Why didn't the Vermilion Phoenix Blood work like the Translucent Dew of Flawlessness?! Damn it!" Yuan gritted his teeth in frustration and cried out in a low but deeply sorrowful voice after realizing that he was still crippled and useless, feeling as though his hopes had shattered.

However, right as tears flowed from his eyes, Yuan suddenly felt a warm feeling in his heart, almost as though there was a small flame within his heart.

This warm feeling gradually grew hotter and hotter, and it also began spreading throughout his body shortly later.

A few minutes later, Yuan could feel his entire body burning feverishly, almost like he was inside an oven with its temperature turned up.

However, this burning sensation did not feel painful, nor was it unpleasant.

'This is... Is this the effects of the Vermilion Phoenix Blood?' Yuan wondered to himself, feeling as though his body was engulfed in flames just like a burning phoenix.

Although Yuan did not know this at the time, his damaged meridians were actually being restored by the Vermilion Phoenix Blood, hence the burning sensation all over his body.

After sweating a bucket of sweat, the burning sensation in Yuan's body began to subdue, yet the gentle flame within his heart lingered no matter how long had passed, almost like an undying flame.

Once everything calmed down, Yuan took a moment to clear his mind and began reciting the cultivation technique again.

This time, Yuan could instantly recognize the difference, and the difference was as clear as day and night— like breathing with a blocked nose and breathing normally.

Furthermore, although there was still slight pain while he cultivates, it wasn't as painful as before and it was completely endurable even for long periods at a time.

And many minutes later, Yuan suddenly felt a refreshing feeling spread throughout his body starting from the center of his body until it reached the end of his limbs, making him recall the first time he'd become a Cultivator.

'This feeling... Did I become a Cultivator?' Yuan wondered to himself as he was unsure. Without the system telling him, he had no proof or confirmation that he had successfully become a Cultivator just now.

However, one thing he was certain would be his condition— even if he'd somehow managed to become a Cultivator in the real world, his body still remained crippled. With that being said, it was not as though nothing about his body had changed.

Although it was only slightly, his body had regained some sense of feeling, allowing him to feel the wet blanket and his own sweat when he previously wouldn't have been able to feel a thing except for the weight of the blankets.

"It worked! Hahaha! It really worked!" Yuan began laughing out loud at his success.

"What worked?" Yu Rou suddenly returned to the room with breakfast.

"Oh... Nothing..." Yuan said. He was simply not ready to tell her just yet.

'Just wait a little longer, Yu Rou... Once I can finally start moving again...'
A mysterious smile appeared on Yuan's face.

"Ah! Brother Tian! Why is your body soaked in sweat?!" Yu Rou immediately realized the wet blankets and exclaimed.

"Eh? I guess it's a little hot in here..." Yuan said with a weird smile on his face.

Yu Rou immediately removed the wet blanket from his body and tossed it on the floor.

"Let's quickly finish breakfast before you catch a cold..." Yu Rou said as she began feeding him soup for breakfast.

A few minutes later, Yu Rou called the servants to change the blankets and clean the bedsheets whilst she took Yuan to the bathroom to give him a quick shower.

While being cleaned by Yu Rou, Yuan could faintly feel her hands rubbing his body, indicating that his senses were truly beginning to return.

'Ahhh... How long has it been since I last felt such sensations on my body?' Yuan sighed inwardly, feeling like he was on cloud nine.

However, a weird and unfamiliar sensation appeared in his body when Yu Rou began cleaning the area below his waist, especially the area between his legs. Although he couldn't understand why, it felt unfathomably awkward, and he could feel a chill going down his spine.

This weird sensation would continue to linger in his body for some time, as Yu Rou seemed to be especially focused on cleaning around that area.

Sometime later, he could feel the water rinsing his body.

And then he felt a strong wind blowing on his body.

By the time Yu Rou finished cleaning Yuan, the servants had long cleaned the bedsheets and blankets in Yu Rou's room, allowing them to sleep on it again.

"I made sure the blankets this time are not as heavy so you don't sweat like that again," Yu Rou said to him before they entered the cultivation world again.

"Hm? Looks like Feng Feng is still trying to close the store," Yuan said after not seeing her face in the room.

While they waited for Feng Yuxiang to finish closing the store, Yuan asked Xiao Hua, "How can someone who just became a Cultivator tell that they have actually become one?"

Although Xiao Hua was confused as to why he would ask such a basic question, Xiao Hua still answered him regardless, "When someone becomes a Cultivator for the first time, they will be able to feel a burst of spiritual energy within their body."

"It's that refreshing feeling, right?" Yuan asked.

"That's right." Xiao Hua nodded.

"What else?"

"Well... They will be able to sense the spiritual energy in the air. If one cannot feel Spirit Qi, then it means they are not a Cultivator yet."

'Ah! That's right! Feeling the spiritual energy in the air! How could I forget such a basic thing!' Yuan sighed inwardly. His excitement from cultivating successfully had messed with his ability to think properly.

After asking Xiao Hua a few more basic questions about Cultivators, Yuan sat on Feng Yuxiang's bed and cultivated while they waited for her to return.

A little over two hours later, Feng Yuxiang returned to the room with her body slightly glistening from sweat.

"I am sorry for making you wait so long for me, Young Master. I ran into some problems, but I have finally closed the store." Feng Yuxiang said to him.

If not for some reluctant people begging her to stay in Phoenix City, she would've completed her errands much quicker. Though, as one of the top figures and the owner of one of the most famous stores in Phoenix City, it

was only a given that her sudden departure would shock a lot of people in the city, especially the powerful families and individuals.

"Don't mind it." Yuan said, and then he continued, "By the way, I have another question regarding your Vermilion Phoenix Blood. Does it have any effects besides healing injuries, increasing longevity, and awakening Bloodlines?"

"Hmm... Another effect, huh?" Feng Yuxiang immediately closed her eyes to ponder.

After thinking for a good minute, she suddenly opened her eyes and said, "Oh. That's right. My blood can also heal one's meridians."

'Restore meridians? Xiao Hua did mention something like that before. Perhaps that was the reason for my frustration. Now that her blood has restored my meridians, I can finally cultivate!'

After pondering for a moment, Yuan turned to look at Feng Yuxiang before approaching her with a wide smile on his face.

"Thank you, Feng Feng! Although you may not realize it, you have saved my life with your blood! In return, no matter how much blood you want from me or when you want it, I will gladly give it to you!" Yuan suddenly opened his arms and hugged Feng Yuxiang's slender body tightly, his voice filled with joy.

"Y-Young Master?!" Feng Yuxiang panicked when Yuan suddenly embraced her, as she could immediately feel Xiao Hua glaring daggers at them. However, she also didn't dare to push Yuan away, as that could be regarded as being disrespectful! Furthermore, she has already told Yuan that he could do whatever he wanted to his body, and pushing him away would contradict her promise!

Sometime later, once Yuan expressed all of his excitement through the embrace, he released Feng Yuxiang, who appeared to be sweating even more than a minute ago.

"Anyways, are you ready to come with us?" Yuan asked Feng Yuxiang afterward.

Feng Yuxiang nodded and said, "No matter where the Young Master goes, this one shall follow."

A second later, Feng Yuxiang's body suddenly became engulfed in beautiful golden flames until her body could no longer be seen, and her figure began shrinking until it was a small ball of golden flames.

While Yuan was dumbfounded, Feng Yuxiang—now a ball of golden flames—flew directly at Yuan's chest where his heart was located, disappearing from the room and into his chest, and Yuan could feel a warm sensation in his heart afterward, almost like his heart was also engulfed in flames.

'This sensation...' The warm and pleasant feeling in his heart was very familiar, and it quickly reminded him of a similar feeling that could be felt in his real body.

Chapter 93 - A Frenzied Crowd

"Are you okay, Brother Yuan? Are you feeling any pain?" Xiao Hua asked him after Feng Yuxiang entered his body.

Yuan patted his body and nodded a moment later, "Yes, everything's fine. I am not hurt, nor does it feel unpleasant."

He then turned to look at Yu Rou and handed her all three Spirit Fruits and said, "Here's the Spirit Fruits. You'll need them to tame the beasts."

However, Yu Rou only accepted two of them and said, "You can keep the last one, brother. I just need an extra one for insurance."

Although Yuan didn't really need the Spirit Fruit, he nodded regardless. If Yu Rou ever needed another one, he can offer it to her again at that time.

After putting away the Spirit Fruit, Yuan said, "Then let's find you a Servant now."

However, Yu Rou shook her head and said, "No, it's fine, brother. There are only a few hours left before I have to prepare for school again. I'd rather spend this time just enjoying the game casually with you."

"Hmm..." Yuan immediately began to ponder.

A moment later, he spoke with a bright expression on his face, "I know! Why don't we go eat in some restaurant? I bet you still haven't experienced the amazing food in this world!"

"Food, huh? I heard you can taste the food as though it was real," Yu Rou nodded with interest.

"That's right. And they are incredibly tasty," Yuan said in an excited voice.

"Okay, let's go." Yu Rou agreed a moment later.

They left the room shortly later and began walking downstairs. When they reached the fifth floor, they realized that all of the display cases were empty and the treasures had been taken out. However, that was expected, as Feng Yuxiang had closed this store down.

Once they reached the first floor, Yuan spoke out loud, "Feng Feng, what should we do about this place?"

A moment later, Feng Yuxiang's voice resounded in his mind, almost like she was living inside his head, "You can just leave it as it is, Young Master. The next manager will take care of everything."

"I understand," Yuan nodded.

"Is she talking to you from inside? How come I can't hear her voice?" Yu Rou asked him with a fascinated gaze.

"I am talking to the Young Master through Divine Sense," Feng Yuxiang's voice suddenly resounded in Yu Rou's head.

"Wow! How amazing! Talking to people directly in their minds... that's just like telepathy!" Yu Rou exclaimed.

A few moments later, they stepped outside the store. However, to Yuan's surprise, an entire crowd had gathered outside the store, feeling almost like there was a protest of some sort going on.

"W-What is going on here? Why are there so many people here?" Yuan was startled by the gathering that surrounded the entire front store, blocking his view.

Furthermore, all of these people had powerful auras or luxurious clothes around their bodies, indicating that they were all experts or from wealthy families.

"Who are you? Where is Madam Feng?"

The people outside immediately asked them after seeing them leave the store.

"Uhhh..."

Just as Yuan pondered how he should respond, Feng Yuxiang's voice resounded in his head, "Young Master, just tell them that I am currently sleeping in my room and that I do not wish to be disturbed for the time being if they want me to reconsider my decision."

Yuan then repeated her words to the people outside despite not knowing the context, "Um... Madam Feng is currently sleeping in her room, but she doesn't want to be bothered by anyone, or else she will not reconsider her decision."

The place instantly turned silent when they listened to Yuan's words.

"Let's calm down for now and let Madam Feng rest. I'm afraid that if we continue to linger outside her store, she'll really leave the city..." One of them suddenly said.

"Yes, you're right. The city will take a huge hit if Madam Feng or her store suddenly disappears. We cannot take this matter lightly."

"Well, what do you suggest we do then? We cannot just let her leave like this!"

"No idea, but do you think Madam Feng's sudden decision was due to that powerful spiritual energy not long ago? She announced her leave shortly afterward, after all. I would not be surprised if she'd been forced to leave this city!"

"What kind of nonsense are you talking about? Madam Feng is the strongest individual in this city who has been around for over 1,000 years! Who could possibly threaten her, much less force her to leave?"

"Even if someone can threaten Madam Feng, what's there to fear? The entire Golden Phoenix Bazaar has her back! If someone dares to mess with one of us, they'll definitely regret it!"

"Do not underestimate whoever released that pressure! I was here when it happened, and it nearly gave me a heart attack! That individual is extremely strong— much stronger than Madam Feng and everyone here!"

"I believe that the individual who threatened Madam Feng to leave is a Cultivator at the Spirit King level."

"Spirit King? Why the hell would someone like that be here? Cultivators above the Spirit Grandmaster realm may stay in this world for at most 100 years after their breakthrough before they must leave this realm and ascend to a higher realm, or else they will risk being punished by the Heavens!"

"Unless you are telling me that this person had managed to reach the Spirit King realm in 100 short years after breaking through Spirit Grandmaster!"

"I am not lying to you! The pressure really felt that powerful!"

While the people gathered outside the store argued with each other, Yuan took this chance to slip away from the Golden Phoenix Bazaar with Yu Rou and Xiao Hua following behind.

"Man, that was chaotic. Just how popular are you, Feng Feng?" Yuan wiped the cold sweat from his forehead after managing to escape from that frenzied crowd.

"I have been in this city ever since I came down here from the upper heavens, and due to my high cultivation, people quickly began looking up to me as some sort of guardian for the place." Feng Yuxiang explained to him. "My reputation eventually peaked, and I am somewhat revered by the people in that city."

After a moment of silence, she continued, "However, none of that matters now, as I have the Young Master. By the way, Young Master, I know you said that you don't want my treasures, but if you ever change your mind,

just let me know. Although the treasures are valuable, it's nothing compared to the freedom you are giving me, Young Master."

"Un." Yuan nodded.

After leaving the Golden Phoenix Bazaar, Yuan asked Feng Yuxiang, "Do you know any good place to eat, Feng Feng? Since you've been here forever, you should know every building in this city, right?"

"I'm sorry, Young Master, but I rarely leave the Golden Phoenix Bazaar. However, there is this place that I have heard numerous times from others throughout the years— it's a restaurant called Phoenix's Nest."

"Phoenix's Nest? People really like using the name Phoenix in this city, huh." Yu Rou said.

"Well, I kind of did save this city from a very powerful beast before when I still had some of my Phoenix powers left. The city used to be called something else before." Feng Yuxiang said.

"Oh? You saved an entire city? Then you're just like my brother." Yu Rou smiled.

Sometime later, after asking around, Yuan and the others finally reached the restaurant named Phoenix's Nest.

"How many will be dining today, esteemed guests?" The waiter by the door greeted them when they approached the restaurant's entrance.

"Three," Yuan said.

"Three, right? Please follow me."

The waiter then brought them to a small table and said, "That is the menu. Just raise your hand when you're ready to order and someone will be with you."

"Thank you," Yuan said as he grabbed the menu and began flipping through the pages.

"Just order whatever you want," Yuan said to Yu Rou.

However, Yu Rou sat there with a dazed expression on her face, seemingly in deep thoughts.

"What's the matter, Yu Rou? Is something bothering you?" Yuan asked her after noticing her strange behavior.

Hearing his question, Yu Rou quickly snapped out of her daze and shook her head before speaking, "That's no it, brother. It's just that... I never thought the day would come where the two of us would be sitting in a restaurant and eating food like a normal family. Even though this is just a game, it feels too real to ignore."

"Yu Rou..." Yuan looked at her with a soft gaze, and he nodded, "You are right. While this world may not be real, our experience and feeling in this world certainly are, and I cannot wait to explore more of it with you."

"Me, too, brother!" Yu Rou nodded with a bright smile on her beautiful face.

Sometime later, Yuan raised his hands and someone approached them to take their order.

Yuan then proceeded to name dishes after dishes, dumbfounding both Yu Rou and the waiter.

"C-Can you even eat that much?" Yu Rou stared at him with a gawking expression. If Yuan could eat that much in the real world, she would definitely have trouble feeding him every day.

"Of course, or else I wouldn't be ordering it!" Yuan replied to her with a confident expression on his face before he returned to order more dishes.

Chapter 94 - Exploring The City Peacefully

After spending a couple of minutes naming out nearly every dish on the menu, Yuan finally placed the menu down on the table and said, "That's all from me."

The waiter there had the urge to cry out loud, 'It's literally all from you!'

Fortunately, the waiter managed to suppress his thoughts and responded with a stiff smile on his face, "Thank you, esteemed guests. I will let the chief know..."

The waiter then walked away.

However, the waiter returned a few minutes later with a middle-aged man who didn't appear to work there with his luxurious appearance.

Once the two were standing by their table, the middle-aged man said with a friendly smile on his face, "Excuse me, esteemed guest. My name is Cen Wenben, and I am the manager of this restaurant. It appears that you have ordered a massive amount of food from us, and I would like to offer my gratitude for that. However, as there has been an increase of customers who dine and dash lately, we will have to require some payment up-front as a form of insurance. 50 percent of the total amount is enough."

"That makes sense..." Yuan nodded his head and asked, "How much is the entire bill?"

"5,400 gold coins, esteemed guests..." Cen Wenben quickly said.

"5,400 gold coins?!" Yuan's eyes widened with surprise. This restaurant is at least 10 times more expensive than the luxurious restaurant he went to previously that had cost him 500 gold coins! As expected of one of the wealthiest cities in this world, everything is incredibly expensive!

'I really need to start paying attention to the price of each item...' Yuan noted to himself as he retrieved 5,400 gold coins and handed them to the manager.

"I'll pay the full amount now."

"Thank you, esteemed guest! And I deeply apologize for this inconvenience!" The smile on Cen Wenben's face widened after he accepted the money, and he bowed to them before leaving them alone again.

"Spending thousands of gold on food... only someone like you would be able to spend so luxuriously, brother..." Yu Rou said to him afterward.

"Haha..." Yuan laughed awkwardly, as he was too excited and forgot to look at the prices before it was too late. Though, at least he wasn't as poor as before, where 500 gold coins were enough to make him completely broke.

About twenty minutes later, the food they ordered began coming in one at a time, and they immediately started eating the food, especially Yuan, who had essentially become a food monster and stuffed the food into his mouth as though they were nothing, allowing the waiters to continue putting dishes on the table without overfilling it.

"Brother..." Yu Rou was shocked by his seemingly borderless stomach. How can so much food fit inside his body? It also made her worry that she might not be feeding him enough in the real world since the amount of soup she feeds to him is literally nothing compared to the amount he's gobbling up now— almost like comparing a drop of water to an entire ocean.

"Brother Tian, should I increase the amount of soup I feed you? If it's not enough, you can just tell me, you know? I'm afraid that I might starve you to death after seeing how much you can eat right now..." Yu Rou said to him sometime later.

"Haha... Don't worry about it, Yu Rou. I only have this appetite whenever I am in this world. A single bowl of soup is more than enough to fill my stomach outside." Yuan said to her.

Hearing their conversation, Xiao Hua suddenly spoke, "Brother Yuan's appetite is probably caused by his unique physique. Furthermore, because Cultivators expend a lot more energy than normal people, we also need to eat a lot more. Of course, we usually substitute the difference with the spiritual energy we absorb with some Cultivator even changing their diet to spiritual energy only."

"So you're telling me that Cultivators can survive without food as long as they absorb the spiritual energy in the air?" Yu Rou asked.

"That's right. A Cultivator at Brother Yuan's level can last a month without food, but he'll need to drink water at least once a week. Once a Cultivator reaches the Spirit Grandmaster realm, they can stop eating or drinking entirely and survive only on spiritual energy." Xiao Hua said.

"I see..." Yu Rou nodded, and she returned to eating her food.

About an hour later, once the table had nothing but empty dishes left, Yuan said while patting his round stomach, "What should we do now, Yu Rou?"

"Can you even do anything besides sitting while in that state, brother?" Yu Rou responded with a smile on her face.

"I'll be fine," he nodded.

"Well, I am also full, so I don't feel like doing anything right now. However, I don't want to just sit around and do nothing, so let's explore this city until it's time for me to leave," Yu Rou suggested.

"Sounds good," Yuan said.

After sitting around for a few more minutes, Yuan and Yu Rou proceeded to walk around the city, almost like they were taking a stroll in the park.

Of course, there were a few young masters that wanted to disturb the sibling's peaceful time together when they saw the beautiful Yu Rou. However, before they could even approach them, like a guardian spirit, Xiao Hua pressured them with an invisible pressure, taking care of the trouble before it even began.

Although Xiao Hua saw Yu Rou as a rival for Yuan's attention, when she saw the joy on Yuan's face whenever he spoke with— or even looked at Yu Rou, she simply cannot allow anyone to disturb that happiness, as she feared that she might have to experience that cold aura coming from Yuan again whenever someone messes with Yu Rou in his presence, something that put chills in her body even now if she tried to remember his cold gaze.

After spending a few oddly peaceful hours within a city as large as the Phoenix City mostly due to Xiao Hua's protection, Yu Rou logged off the game to cook dinner for Yuan.

Yuan decided to stay in the game for a few more minutes to spend some time with Xiao Hua until it was time for dinner.

After logging off, Yu Rou began feeding him dinner.

However, after drinking his bowl of soup, Yuan spoke in a puzzled voice, "Yu Rou, did you make less soup today? My stomach isn't as full as it normally would be..."

It was an odd feeling to not be full after drinking a whole bowl of soup, as he would usually feel quite full afterward.

"Huh? That's not possible. I didn't change the amount," Yu Rou responded in a surprised voice.

"However, if you're still hungry, I can go ahead and make another bowl of soup for you..."

"No, it's fine. I'm not hungry, but I am also not full. It's that kind of feeling," Yuan said to her.

"Okay, then I will cook a little bit more tomorrow morning," Yu Rou nodded.

"By the way, your room is finally clean again, brother. However, since you're already here, let's sleep together for another night, as we don't usually do this."

"Okay," Yuan said.

"I'm going to make sure I am prepared for school tomorrow, you can go to sleep first." Yu Rou said to him before leaving the room.

Normally, Yuan would agree with her and go to sleep, but now that he has become a Cultivator in the real world too, he wanted to cultivate whenever he had the time. Although he wasn't sure that cultivating might help his condition, it wouldn't hurt to try.

'Maybe the reason the bowl of soup wasn't enough for me is because I am now a Cultivator, which will require me to consume more energy?' Yuan pondered to himself before he began reciting the cultivation technique inside his mind, slowly absorbing the spiritual energy around him.

'Xiao Hua was right, I can now sense the spiritual energy in this room now that I have become a Cultivator. This means I am not dreaming and that I have actually become a real Cultivator in this world too!' Yuan was filled with enthusiasm for the future.

Even if becoming a Cultivator won't help him move or see again, if he cultivated enough, maybe he'll also be able to use Divine Sense in this world, and that would be worth all of his effort.

And with that in mind, Yuan began to focus on cultivating.

Half an hour later, Yu Rou returned to the room, and she mistook Yuan's cultivation as sleeping since his breathing pattern was completely relaxed and seemingly rhythmic.

Since I was in the store at that time, I didn't see any announcements, but one should make the announcement if they made a Divine Beast their servant, right? Oh well, I'll see once I go online,' Yu Rou thought to herself as she began to surf the internet.

And as she'd expected, when she opened the forums, all she could see was 'Player Yuan' being mentioned in the titles, and his presence filled pretty much the entire page.

[Player Yuan makes the headlines again! And this time he's obtained a Divine Beast as a Servant!]

[Incredible! Player Yuan has obtained another Servant— a Divine Beast!]

[What grade could this Divine Beast possibly be?!]

[If you know Player Yuan, I am willing to pay 1 billion dollars if you can reveal his real identity to me!]

'One billion dollars, huh? That's quite the tempting offer, but alas, I wouldn't betray Brother Tian even if you offered me the world...' Yu Rou shook her head, and she began reading through all of the posts that mentioned Yuan.

Chapter 95 - Increased Appetite

While Yu Rou lost track of time as she was engrossed with the internet talking about her brother, Yuan was silently cultivating on the bed, slowly absorbing the spiritual energy in the room.

His cultivation speed compared to the game was incredibly slow, and it had taken him nearly two hours to enter the next level whilst it only took less than half an hour to reach second level Spirit Apprentice in the game.

'What are the cultivation stages in the real world, anyway? I doubt it's the same as the game. However, since I have no other references, I'll just follow the cultivation stages in Cultivation online,' Yuan thought to himself as he continued to cultivate even when Yu Rou entered the bed and went to sleep.

One hour... two hours... three hours...

Yuan spent the entire night cultivating, and by the time morning came, he had managed to breakthrough only two times, reaching third level Spirit Apprentice.

"Good morning, Yu Rou." Yuan greeted her the moment she woke up and rubbed her eyes.

"Brother...? You're awake early today..." she said to him in a drowsy voice.

Yuan merely smiled at her words, as he obviously didn't sleep the entire night. However, despite not getting any sleep, he was as energetic as ever—even feeling better than he normally would after a good night's sleep.

After spending a few minutes resolving herself to wake up, Yu Rou eventually left the bed and went to prepare for the day.

Yu Rou returned to the room an hour later with two bowls of soup and a wet towel to wash Yuan's face.

"Brother, I cooked two bowls of soup for breakfast today. If you cannot finish it, don't force yourself," she warned him before she began feeding him.

However, to her surprise, Yuan managed to finish both bowls of soup to the very last drop.

"Two bowls of soup... For some reason, I am still not full..." Yuan said in an awkward voice afterward.

"What? You're still not full? How is that even possible?" Yu Rou looked at him with wide eyes.

Why did his appetite suddenly increase so drastically? Is this somehow related to what has happened to him recently?

'I should let Doctor Wang know about this just in case there's something wrong... I also need some advice on his diet if it remains like this,' Yu Rou thought to herself.

"Brother, I know you're not full, but I am afraid of overfeeding you, so I'll have to ask for Doctor Wang's advice before I decide to feed you anymore, okay?" Yu Rou then said to him.

"Yes, that's fine. Like last night, while I am not full, I am also not hungry either," Yuan said.

"Okay, I'll let him know now before I go to school."

Sometime later, on her way to school, Yu Rou called Doctor Wang and explained to him about Yuan's situation.

"The Young Master's appetite suddenly increased, huh? This might actually be a good sign because that means his body is requiring more energy to function, and that usually happens when their body is growing stronger. I suggest you continue to feed him two bowls of soup for a few more days to

see if his growing appetite is permanent or only temporary." Doctor Wang said to her through the phone.

"If the Young Master's appetite is permanent, I suggest you increase his diet slowly without overfeeding him so that his body is getting the energy it requires. I will come to check on him once a week to monitor his body's condition just in case."

"I understand. Thank you, Doctor Wang."

Meanwhile, Yuan returned to the world of cultivation.

"Are you going to partake in the disciple examination at the Dragon Essence Temple now, Brother Yuan?" Xiao Hua asked him after he returned.

"That's right." Yuan nodded.

"Even though Brother Yuan will progress his cultivation base faster outside?" Xiao Hua asked him.

"My purpose for going to the Dragon Essence Temple is not to improve my cultivation base. Instead, I wish to expand my knowledge and experience with Cultivators so I can better deal with them in the future."

"I acknowledge that I am still far too naive in this world regarding Cultivators and their nature, and I want to understand this world more. Although it's important to improve my cultivation base it's also important that I enjoy this world, as that has been and still is my intention since the beginning."

Xiao Hua turned silent after hearing his words.

'Brother Yuan is indeed lacking experience when it comes to Cultivators. Although he might be fine now with Xiao Hua and that phoenix protecting him, who knows what might happen in the upper heavens, where there exists Cultivators much stronger than us. It'll definitely benefit Brother

Yuan in the long run the earlier he familiarizes himself with the competitive nature of Cultivators and realizes the brutal nature of the cultivation world.'

"Okay, Xiao Hua will no longer stop Brother Yuan from going to the Dragon Essence Temple now. However, it would lose all meaning if Xiao Hua is besides Brother Yuan the entire time while he's a disciple, so Xiao Hua will let Brother Yuan live his disciple life by himself. Of course, Xiao Hua will still protect Brother Yuan when he's in danger." Xiao Hua said to him.

"How are you going to protect me if you're not there?" Yuan raised his eyebrows.

Xiao Hua then pointed at the necklace around his neck.

"Oh, that's right. You can go into the necklace like Feng Feng can enter my body," Yuan finally recalled.

"Anyway, do you know where the Dragon Essence Temple is located? Do you think we'll make it there before the examination begins? Although I can enter the sect without participating in the examination if I spoke to Xuan Wuhan's grandfather, I still want to experience it like how people normally would."

"The token given to you should tell you the location," Xiao Hua said, and she continued, "Just activate it with your spiritual energy, and its location will appear inside your mind."

Yuan followed her instructions and retrieved the Dragon Essence Temple Exam Token before activating it with his spiritual energy.

A few seconds later, an image of the Dragon Essence Temple and its location appeared inside his head like some sort of map.

However, Yuan immediately frowned when he realized just how far away this place was.

"It's over 100,000 miles away from our current location... Even the flying sword won't be fast enough. Unless we take the Teleportation Device again, I don't think we'll make it in time for the examination," he sighed.

"Allow me to help, Young Master."

Feng Yuxiang's voice suddenly resounded, and a small ball of golden flames emerged from his chest a second later.

"Feng Feng?" Yuan looked at her with raised eyebrows.

"I can carry the Young Master to the Dragon Essence Temple. It's only 100,000 miles. And I can fly much faster than a flying sword." Feng Yuxiang suggested to him.

"You'll... carry me?" Yuan looked at her with wide eyes.

"Unless the Senior wants to carry you, but with the difference in your sizes..." Feng Yuxiang looked at Xiao Hua whose head could not even reach Yuan's shoulders. She cannot imagine someone so tiny carrying Yuan who was almost twice her height. Actually, she can, but it would be an incredibly hilarious sight, but alas, laughing at Xiao Hua will definitely get her killed.

"..."

However, Xiao Hua still frowned after hearing Feng Yuxiang's words, as she hated her height being mentioned more than anything else.

Feng Yuxiang immediately began sweating after noticing Xiao Hua's narrowed gaze.

"A-Anyway... since I am also a phoenix, I can fly faster than Cultivators normally would be able to. 100,000 miles— we can arrive by tonight."

"By tonight?" Yuan began pondering.

'If we can reach there by tonight, it'll save us a lot of time— time I can use to cultivate in the real world...'

After pondering for a moment, Yuan nodded his head and said, "Okay, I'll have to trouble you for this one, Feng Feng."

"Don't even mention it, Young Master. My body is already yours— there's no need to thank me every time you use it," Feng Yuxiang said with a shameless smile on her face.

"Are you ready to leave now, Young Master?" Feng Yuxiang asked him a moment later.

"Yes."

"Then if you'll excuse me..."

Feng Yuxiang suddenly lowered her body and picked up Yuan, carrying him like a princess.

And before Yuan could even react, two massive fiery wings suddenly blossomed from Feng Yuxiang's back.

When the people around them saw this, they were immediately shocked.

"T-That's Madam Feng! What's she doing here?! And who's that young man she's carrying?!"

Feng Yuxiang ignored the uproar she caused and immediately flew towards the sky with Yuan screaming out loud like Yu Rou did when she first experienced flying with the flying sword.

"Which direction should I go, Young Master?" Feng Yuxiang asked him after they were above the entire city and nearly touching the clouds.

"That direction," Yuan pointed to the east according to the map in his head.

Feng Yuxiang nodded, and her fiery wings flapped once before they began soaring towards the east, leaving a trail of golden fire in the sky.

Meanwhile, Xiao Hua followed them from behind. However, even with her Spirit King cultivation base, she had to put a lot of effort in order to keep up

with their speed. Though, that was to be expected, as phoenixes are known to dominate the heavens with their flying techniques.

Chapter 96 - Vermilion Phoenix

Dominating The Heavens

'This is amazing! We're flying at a speed ten times more than what the flying sword can achieve!' Yuan was filled with excitement as they soared through the air faster than even what most fighter jets in his world could achieve.

"If the Young Master thinks this is fast, just wait until I recover my phoenix form and powers. It'll be like comparing a slow walk to a sprint! 100,000 miles? I can even travel 1,000,000 miles in the blink of an eye!" Feng Yuxiang noticed Yuan's excitement and took this chance to brag a little to improve his impression of her.

"A million miles in the blink of an eye? How could anything possibly travel that fast?" Yuan mumbled in a dazed voice, as he cannot even begin to imagine traveling at such a ridiculous speed.

"It all depends on your movement techniques, Young Master. There are extremely profound movement techniques out there that can allow Cultivators to travel from star to star with a single step— it's not something even I can comprehend."

"Movement techniques, huh? Speaking of them, I don't have any movement techniques— only martial techniques." Yuan just realized this.

"What? The Young Master doesn't have a movement technique? That's outrageous!" Feng Yuxiang exclaimed in a shocked voice.

"Huh? Are movement techniques that important?" Yuan raised his eyebrows after seeing her surprised expression.

"Of course! Young Master, movement techniques are as important as martial techniques if not even more important! When you fight with an enemy, how you move to strike and how you move to dodge or defend is extremely important, or you will be no different than a sitting duck on the battlefield!" Feng Yuxiang said to him.

And she continued, "If the Young Master does not have a movement technique, I can provide you with my movement technique! Although it's meant for phoenixes, it can still be used in the human form."

"Really?" Yuan looked at her with flickering eyes, clearly excited for this movement technique.

"Of course."

Feng Yuxiang then turned to look at Xiao Hua and spoke to her, "Senior, you won't mind me giving the Young Master a movement technique, right?"

Because Feng Yuxiang didn't want to be disrespectful to Xiao Hua, who might be teaching Yuan as a teacher, she must ask for permission before teaching Yuan anything, as that is proper equities in the cultivation world, and trying to steal disciples from another is greatly frowned upon.

"..."

After a moment of silence, Xiao Hua nodded, "The more Brother Yuan learns the better. Xiao Hua does not have a good movement technique that is befitting of Brother Yuan's talent, so you can give one to him."

Since she was not Yuan's Master, she didn't mind other people teaching Yuan—as long as what they are teaching is not complete trash and worthless.

"Thank you, Senior! I will try my best teaching the Young Master!" Feng Yuxiang said to her.

Sometime later, after spending a few hours in the air, Feng Yuxiang suddenly stopped.

She then pointed in front of them with her head and said, "This place must be the Dragon Essence Temple. I can sense a profound presence coming from that place."

Yuan turned to look in the direction Feng Yuxiang was looking at to see a massive place that looked like a city but with a lot more buildings.

"So that's the Dragon Essence Temple, huh? It's so much larger compared to the Flying Sword Sect."

"I don't know a Flying Sword Sect, but the Dragon Essence Temple is one of the most powerful factions in the Lower Heavens only beaten by a few places and the Heaven and Earth Palace." Feng Yuxiang said.

Yuan nodded and said, "Anyway, the examination won't start for a few more days so let's spend some time practicing this movement technique."

"Okay, let me find a suitable place."

Feng Yuxiang proceeded to fly around the area until they found this empty land and descended there.

"This looks like the perfect place to practice my movement technique," Feng Yuxiang said as she placed Yuan back down.

Sometime later, Feng Yuxiang said, "Since this is something I learned naturally as the Vermilion Phoenix, I don't have it written on a scroll, so the Young Master will have to try and learn it from watching my movements. Although it might take you much longer to understand the technique this way than to read the technique straight from a book or scroll, at least you get to witness it being executed before your eyes. Of course, it could also benefit you if you are someone who learns better from watching than reading."

"Also, because this movement technique is not really meant for humans, it might take the Young Master longer to learn it. However, I believe in the Young Master. If you work hard enough, you should be able to use this technique in a few years."

"A few years?!" Yuan looked at her with wide eyes.

Feng Yuxiang misunderstood Yuan's type of surprise and said with a smile on her face, "I know a few years might sound a little too fast for a movement technique, but trust me, Young Master, I will do my best to teach you!"

However, Xiao Hua opened her mouth to speak afterward, "Your logic does not apply to Brother Yuan, Vermilion Phoenix. If you underestimate Brother Yuan, you'll be in a world of surprise."

"Huh?" Feng Yuxiang could not comprehend Xiao Hua's words and tilted her head in a puzzled manner. However, that was to be expected, since Feng Yuxiang is unaware of Yuan's heaven-defying comprehension abilities that allow him to learn even Divine-grade abilities in a few hours.

And before Xiao Hua could even explain, Yuan opened his mouth to speak, "Feng Feng, can you show me the movement technique?"

"R-Right away, Young Master!" Feng Yuxiang nodded, and she walked until she was many meters away from them.

"Watch closely, Young Master! I will try to do this as slowly as possible, but it might still be a bit fast!" Feng Yuxiang took a deep breath.

And then she began moving her legs and feet in a unique but rhythmic manner.

"This is a movement technique?" Yuan raised his eyebrows when he saw Feng Yuxiang's movement techniques, as it made no sense to him.

A few minutes later, Feng Yuxiang stopped and asked him, "What do you think, Young Master?"

"Uhhh... I don't think I understand it..." Yuan responded, and he continued, "How is that going to help you dodge your opponents during a battle? You are just moving around in a small area."

Feng Yuxiang pondered for a moment before speaking, "Young Master, why don't you try attacking me?"

"Huh? Are you sure?"

Feng Yuxiang nodded and said, "Yes."

"Okay..." Yuan retrieved his Spirit Sword and approached Feng Yuxiang.

"Young Master, you can attack me whenever you are ready. You also don't need to hold back." Feng Yuxiang said to him a moment later.

After taking a deep breath, Yuan said, "Here I come!"

Yuan began attacking Feng Yuxiang without any real sword techniques.

"Eh?"

However, Yuan quickly realized that no matter how much he tried to hit Feng Yuxiang, she would narrowly dodge all of his attacks.

"This is only the basics, Young Master. Let me show you what this movement technique can achieve with a high mastery level..."

Feng Yuxiang said to him before her fiery wings returned.

She then took a step towards Yuan before disappearing from his view, almost like a ghost.

"What do you think, Young Master?"

Feng Yuxiang's voice suddenly resounded from every direction around Yuan, causing him to look around. However, no matter which direction he looked in, Feng Yuxiang was there. In fact, there were over a dozen Feng

Yuxiang casually standing around him right now, almost like her body had multiplied.

"What the? This is a movement technique? Are you sure you didn't clone your body instead?" Yuan said with a dumbfounded expression.

Feng Yuxiang suddenly stopped moving, and a second later, her clones disappeared.

"I am just moving so fast that you are seeing a dozen of me," Feng Yuxiang said.

"So as long as I learn this movement technique, my opponents won't be able to hit me?" Yuan asked her afterward.

"That's correct. Unless they know your movement technique or can guess where you are going to move next, it's going to be extremely difficult for them to even graze you, much less land an accurate strike on you. And even if they somehow know your movements, they still need to be fast enough to hit you. As long as you are within the Lower Heavens, you will be untouchable with this movement technique."

"Untouchable..." Yuan mumbled in a low voice.

"By the way, this technique is called 'Vermilion Phoenix Dominating the Heavens'. I named it myself," Feng Yuxiang said with a prideful expression on her face.

"Vermilion Phoenix Dominating the Heavens? What an arrogant name for a movement technique..." Xiao Hua was speechless by Feng Yuxiang's shamelessness to give the movement technique such a grand name.

Sometime later, Yuan said to Feng Yuxiang, "Feng Feng, can you show me the movement technique a few more times? I have already memorized all of the movements, but I still need to understand its essence."

"Eh? You have already memorized the movements?" Feng Yuxiang looked at him with a dazed face.

There are over a thousand movements for the movement technique! How can someone at the Spirit Warrior level memorize that many movements in such a short time? That was simply unbelievable!

Chapter 97 - Movement Technique

Seeing Feng Yuxiang's shocked face, Xiao Hua smiled and thought to herself, 'If you are shocked about something so insignificant, you might die from a heart attack after you see Brother Yuan's other talents...'

Meanwhile, Feng Yuxiang pondered to herself, 'Did the Young Master really memorize all of the steps after watching it just once? No... that's not possible. There's no way someone from the Lower Heavens can possibly have such a shocking level of talent. However, the Young Master has a Bloodline that's above the Divine-grade, and his origins are not clear, so he might actually be someone from the upper heavens who decided to come to the Lower Heavens for training, hence why there's a Spirit King following him.'

'However, even if that's the case... How can a Spirit King remain in the Lower Heavens without being punished by the Heavens with Heavenly Tributions? Maybe she has a treasure that hides her presence? But I have never heard of such a treasure like this before...'

"Are you okay, Feng Feng?" Yuan suddenly called out to her. "If you're tired, we can continue this later."

He wondered if she was tired after that impressive demonstration.

"Eh? N-No! I am fine. Let me show you the movements again, Young Master."

Feng Yuxiang took a deep breath before she began displaying the Vermilion Phoenix Dominating the Heavens movement technique again.

Meanwhile, Yuan stared at her with intensive eyes, looking as though he was trying to stare a hole in Feng Yuxiang's body.

'What an intensive gaze!' Feng Yuxiang's body trembled slightly after feeling Yuan's gaze, feeling as though there was nothing she could hide from him and almost like she was naked before his powerful gaze.

Many minutes later, Feng Yuxiang finished her demonstrating the movement technique for the second time.

"What do you think, Young Master?" Feng Yuxiang asked him afterward.

"I think I have the gist of it. Can you do it again? This time, I'll try to follow your movements." Yuan said as he approached her.

"You want to do the movement technique with me?" Feng Yuxiang raised her eyebrows, and she continued, "I don't mean to be disrespectful, Young Master, but even if you memorize all of the movements, executing the movements is an entirely different matter. Although you may get the first couple steps correct, everything after that will be a mess— at least that's how learning movement techniques usually happen."

"Well, even if that's the case, how else am I going to get better at it besides practice?" Yuan said to her.

"I guess so..." Feng Yuxiang nodded.

"Whenever you are ready, Young Master," she said to him a moment later.

"Go ahead."

After hearing his words, Feng Yuxiang began using her movement techniques again, and Yuan tried his best to follow her movements.

"..."

Feng Yuxiang was dumbfounded when Yuan copied her movements flawlessly, and although his movements grew stiff and awkward towards the end, he still managed to execute the movements without any mistakes.

This blew Feng Yuxiang's mind wide open. How can a mere mortal at the Spirit Warrior realm learn her— Vermilion Phoenix Dominating the

Heavens movement technique so quickly? She'd only displayed the movement technique twice!

"You were right, Feng Feng. Although the beginning was simple and easy to follow, it grew increasingly exhausting and difficult to move towards the end. However, I should get it right after a few more tries," Yuan said to her with an innocent face, unaware that what he'd just done was incredibly shocking and unbelievable.

"Uh... I... Err..." Feng Yuxiang was at a loss for words.

"Hehe..."

A small chuckle could be heard from Xiao Hua who watched the entire thing from beginning to end.

"Xiao Hua told you not to underestimate Brother Yuan, Vermilion Phoenix. He's a prodigy who can learn Divine-grade techniques in only a few hours and even learn profound techniques just by watching others," Xiao Hua said to her with a smile on her face.

"..."

Although this is Feng Yuxiang's first time seeing Xiao Hua smile, she was more shocked by what Xiao Hua said.

'The Young Master can learn Divine-grade techniques within hours? What kind of heaven-defying talent is that?' Feng Yuxiang stared at Yuan with a dazed expression on her face.

Sometime later, after resting until he could move again, Yuan began to execute the movement technique again.

This time, it appeared even smoother and more accurate than previously, almost like his experience with it had leaped by at least a few years between his first and second attempt!

Feng Yuxiang's jaw dropped upon seeing Yuan's improvement. Just how ridiculously talented is her Young Master? He could even put the talented

geniuses from the upper heavens to shame with his tremendous talents!

However, Xiao Hua suddenly said to her, "If you think that's the most shocking part about Brother Yuan, just wait until you see him do 'that'."

"That? What do you mean 'that', Senior?" Feng Yuxiang asked with her interest piqued.

"You'll find out eventually," Xiao Hua shrugged, as she wanted Feng Yuxiang to find out naturally as she did.

Feng Yuxiang swallowed nervously, and she silently pondered to herself what 'that' could possibly mean.

Meanwhile, Yuan spent the next hour practicing the movement technique.

"I think I finally got it, Feng Feng. What do you think?" Yuan asked her as his legs continued to move without stopping, feeling quite comfortable with the movement technique now.

"Y-Yes... You have pretty much learned the technique now, Young Master." Feng Yuxiang said, her gaze filled with admiration.

However, Yuan did not stop practicing the movement technique, and he continued until he finally received a notification.

«You have learned 'Vermilion Phoenix Dominating the Heavens'»

«Vermilion Phoenix Dominating the Heavens»

«Rank: Divine»

«Mastery Level: 1»

«Description: A powerful movement technique created by the Vermilion Phoenix Feng Yuxiang»

"Two hours... The Young Master managed to learn my movement technique that took me years to learn in just two short hours... Is he really human?"

Feng Yuxiang mumbled in a low voice as she watched Yuan perfect her movement techniques with a dazed expression on her beautiful face.

While she has seen her fair share of talented Cultivators in the upper heavens, none of them could compare to Yuan in terms of their comprehension skills, and even the top genius would need at least a month to learn Divine-grade techniques, much less a few hours!

After resting for a few minutes, Yuan said to them, "I am going to log off now, and I probably won't be back until the examination starts, so don't panic if I don't return tomorrow."

"Okay. See you later, Brother Yuan." Xiao Hua said to him before disappearing into the necklace.

Seeing this, Feng Yuxiang also disappeared into his chest.

Once he logged off the game, Yuan immediately began cultivating in the real world until Yu Rou returned from school and prepared dinner for him.

A few hours later, Yu Rou entered his room with three bowls of soup on a cart and some cleaning utilities.

"Brother, what did you do in the game today?" Yu Rou asked him as she removed the blanket around his body before removing his clothes and wiping his body down with a warm wet towel.

"I learned a new technique today— a movement technique," Yuan said.

"Movement techniques? What are those?" Yu Rou asked.

Yuan proceeded to explain to her about movement techniques and how they can be used to dodge attacks and many other things.

"Wow... So you learned another Divine-grade technique? As expected of you, brother. It's only been a day since you started playing alone again and you have already made significant progress. Perhaps I really am a burden to you..." Yu Rou sighed.

"Nonsense, you are definitely not a burden! If not for you, we would've never gone to Phoenix City or met with Feng Feng, not to mention the Myriad of Techniques, so you have definitely contributed to my progress!" Yuan said.

"If you say so..." Yu Rou nodded.

Sometime later, after cleaning Yuan's body, Yu Rou said, "Brother, since two bowls of soup was not enough yesterday, I have cooked three bowls of soup for tonight."

"Thank you, Yu Rou."

After feeding Yuan the second bowl of soup, Yu Rou asked him, "What do you think, brother? Can you eat another bowl?"

"Yes, I can," Yuan said.

"Okay." Yu Rou nodded and proceeded to spoon-feed him the third bowl of soup.

"What about now? Are you full now?" Yu Rou asked him afterward.

"Uh..." Yuan hesitated to respond.

Yu Rou raised her eyebrows when she saw this, and she said, "Brother, it's okay to tell me the truth. If three bowls of soup are not enough, I will cook four, five— until you are satisfied."

"..."

After a moment of silence, Yuan said, "Although I am not full, I actually feel like I ate something this time, so perhaps I will be full after two or three more bowls."

"Two or three more bowls... Heavens, brother, are you going to eat an entire week's worth of food every day now? Are you sure your body can handle that much food? What if you get fat?" Yu Rou spoke in a worried voice.

"Haha... I don't think you'll have to worry about that," Yuan said. After all, everything he eats will naturally turn into energy that will aid him in his cultivation.

And he continued, "However, I don't think I need to have a full stomach every meal. Just three bowls are good enough for now."

"Okay... Then I will continue feeding you three bowls of soup every meal until Doctor Wang gives his advice," Yu Rou nodded.

Chapter 98 - Dragon Essence Temple Disciple Examination

After Yu Rou finished feeding Yuan, she said to him, "Okay, brother. Now that your own room has been cleaned, I am going to let you sleep by yourself again."

A few moments later, Yu Rou carried Yuan to the wheelchair before pushing him back to his own room.

"Do you want to play tonight, brother?" Yu Rou asked him.

Now that she knows his real identity as Player Yuan, she was more willing to let him play more so that he can continue progressing as much as possible.

"No, it's okay. In fact, I am going to take a break from Cultivation Online for a few days until the Dragon Essence Temple examination begins," Yuan said to her.

"Huh? You're taking a break already? Why?" Yu Rou asked him with a dumbfounded expression on her face.

Although missing a few days of progress might not matter when Yuan's already months, even years ahead of other players, it still doesn't make any sense why he would want to take a break so suddenly.

"Did something happen today? Is that why you're taking a break?" Yu Rou asked him. "It's okay to speak to me, brother."

"No, it has nothing to do with the game, honestly. I just want to take a break and prepare myself before I partake in the examination."

"Preparations for the examination... in the real world?" Yu Rou could not understand his intentions, but since Yuan insisted on taking a break, there was nothing she could do. After all, it was not as if she could force him to play the game.

"Okay. Then I'll leave you alone now. Goodnight, brother." Yu Rou closed the lights in the room before leaving Yuan alone.

Once he was alone, Yuan immediately began cultivating, and he would not stop for the rest of the night.

By the following morning, Yuan had managed to breakthrough once again, reaching fourth level Spirit Apprentice.

"Haaa... This is taking much longer than the game. If only there were monster cores in this world or things equivalent that would allow me to increase my cultivation faster..." Yuan sighed.

Sometime later, Yu Rou entered his room to clean his face and brush his teeth before feeding him breakfast.

After Yuan consumed all three bowls of soup, Yu Rou wiped his lips with a wet towel before leaving for school.

Once he was alone again, Yuan returned to cultivating. Even though the progress might be slow, at least he can make some progress.

Yuan repeated this process for the next two days, and besides eating and cultivating he was doing nothing else— not even sleeping.

By the time the Dragon Essence Temple began their disciple examination, Yuan had reached the fifth level Spirit Apprentice realm.

"Yu Rou, I am going back to Cultivation Online today. The Dragon Essence Temple should begin their disciple examination today, too," Yuan said to her after breakfast.

"Okay. Good luck, brother. Of course, I'm sure you'll pass the exam without any effort." Yu Rou chuckled.

And then she said, "Oh, I know you're already going to be in the spotlight, so try not to reveal your identity as Player Yuan, okay? You have no idea how many players are looking for you right now. If they learn of your identity, our lives will no longer be as peaceful."

"I understand..." Yuan responded in a nervous voice.

Sometime later, Yuan returned to the world of cultivation.

"Welcome back, Brother Yuan." Xiao Hua was the first to appear before him.

"I am back. The Dragon Essence Temple disciple examination should be today, right?" Yuan asked.

"That's right." Xiao Hua nodded, and then she turned to look towards the direction of the Dragon Essence Temple. "There's already a lot of people gathered."

"Then let's get going!"

However, Xiao Hua shook her head and said, "Brother Yuan, Xiao Hua will remain inside the necklace until you decide to leave the sect or need help. This way, Brother Yuan can experience the cultivation world the way it's meant to. If you ever need advice, Xiao Hua will speak to you using Divine Sense like the Vermilion Phoenix."

Yuan nodded and said, "It's going to feel lonely without having you by my side all the time, but I understand why you are doing this."

After Xiao Hua returned to the necklace, Yuan began running towards the Dragon Essence Temple.

'Oh, right... There will be a lot of people participating in this examination—both NPCs and Players alike. In order to keep my identity safe, I should at least hide my face.'

Thinking that, Yuan stopped moving and retrieved the Black Jade Mask and wore it on his face, hiding everything but his bright and innocent eyes.

"This should be good enough," Yuan nodded to himself before he continued running towards the Dragon Essence Temple.

Sometime later, Yuan arrived at the Dragon Essence Temple, and as he'd expected, there was already a sea of people gathered there.

'Wow... Is this what it feels like going to school on the first day?' Yuan wondered to himself as he followed the crowd.

Many minutes later, they arrived at this mountain range that had nothing but mountains and trees beside a large gate at the horizon that had a majestic sign with the words 'Dragon Essence Temple' on it.

'We are taking the examination here?' Yuan raised his eyebrows.

After waiting around for a few more minutes, a middle-aged man wearing colorful robes appeared before them by jumping on top of the gate.

"Welcome to the Dragon Essence Temple disciple examination! Before we begin the examination, we must verify whether or not you are actually qualified to be here!" The middle-aged man spoke to them in a loud and domineering voice.

"Below me is a transportation gate that will teleport you to the real examination halls. However, only those who have the Dragon Essence Temple Exam Token will be teleported to the examination hall. Everyone else will be teleported randomly to the mountain range behind me, and there are many powerful magical beasts that roam that area, so if you are thinking about sneaking into the disciple examination, I urge you to rethink that decision because we won't take responsibility for whatever happens to you afterward."

Chapter 99 - First Tes

"Now, if you are ready to partake in the Dragon Essence Temple disciple examination, step forth and enter the gate!"

After he finished speaking, the middle-aged man jumped down from the gate before walking into the gate as a demonstration, disappearing into the portal.

And immediately afterward, the people there began rushing towards the gate. Meanwhile, there were more than just a couple of people there who decided to remain standing still and not approach the gate, clearly hesitant to continue.

As for Yuan, he followed the mass and entered the gate.

A second after entering the gate, along with every person that entered the gate, Yuan was transported to this vast and empty grassland that stretched to the horizon. Furthermore, there was another gate that resembled the one they just entered a few miles away from their location.

"W-Where are we?"

The people there were puzzled as to why they were brought to this empty grassland. After all, what could they possibly do in this place that is related to the examination?

After waiting for a few minutes for everyone to gather, the middle-aged man with the colorful robes began to speak, "This will be your first examination. In this vast grassland that spans over 10,000 miles, there are 1,000 hidden jade slips, and only those who have a jade slip may advance to the next stage of the examination. You all have two days to advance to the

next test by entering the gate over there before you are automatically disqualified and kicked out of this place."

"Does anyone have any questions?"

The participants there immediately raised their hands.

"What kind of examination is this? I don't see how finding a needle in a haystack has anything to do with becoming a disciple of the Dragon Essence Temple!"

The middle-aged man turned to whoever just spoke and said, "This is an examination based on your luck—we are simply testing your fate—whether you are fated to become a disciple or not. Although you may not understand it, one's fortune and destiny play a huge role in the cultivation world, and without either of these, you will never achieve anything great in the cultivation world, and our Dragon Essence Temple has no use for someone like that."

"Senior, what exactly do you mean by 'hidden'? Are they buried underground or are they just placed around this grassland?" Another participant asked a few moments later.

The middle-aged man smiled at the participant's question and said, "There are 997 jade slips resting above the ground normally with three special jade slips buried within the ground. If any of you manages to find the jade slip buried within the ground, you will receive a very special reward at the end of the examination if you pass the examination, or you can exchange the jade slip to automatically become a disciple. However, if you do that, you will forfeit the reward. The choice is up to you."

After answering a few more questions, the middle-aged man said, "The first examination begins!"

Immediately after the middle-aged man ended his sentence, the thousands of people gathered there began spreading out in every direction and running around with their heads looking left and right without stopping.

Meanwhile, Yuan stood there with a calm expression on his face.

'This is not much different from when I had to pick Spirit Grass with Yu Rou. I should be able to find it with my Divine Sense,' Yuan thought to himself.

'Hm? Why's this young lad just standing there?' The middle-aged man turned to look at Yuan after noticing his odd behavior. However, when he saw the powerful aura subtly emitting from Yuan's body, he immediately gasped in shock.

'Fifth level Spirit Warrior?! Why the hell is someone like that participating in our disciple examination?! He could instantly qualify to become an Inner Disciple if he spoke to a sect elder!'

It was not just the middle-aged man who had noticed Yuan's powerful presence, as a few figures within the participants had also taken notice of him. Furthermore, the sect elders that were watching the disciple examination from somewhere within the Dragon Essence Temple with a treasure were all pondering to themselves why someone at his level would go through the trouble to participate in the examination meant for beginners or those without backgrounds.

In fact, there were even a few of them who thought Yuan could be a spy sent by another place.

After taking a deep breath, Yuan closed his eyes and began using his Divine Sense to search for the jade slips.

'Divine Sense?! Impossible! He's only a Spirit Warrior! How can he possibly use Divine Sense?! But that aura! This feeling! He's definitely using Divine Sense!'

The middle-aged man became even more surprised after realizing what Yuan was doing, nearly falling on his butt from shock.

Meanwhile, somewhere in the Dragon Essence Temple, a dozen sect elders gathered and watched the situation from a large bucket of water that

projected whatever was happening in the examination hall.

"What the heck?! Who is this person?! He can even use Divine Sense as a Spirit Warrior!"

"Whoever he is— his background must be immensely powerful! That's probably why he's hiding his identity!"

"What should we do? Should we just let him participate in the examination?"

"Let's continue watching to see what he's up to."

While many pairs of eyes watched Yuan's every movement, Yuan himself had already found six pieces of jade slip with his Divine Sense.

'It's too easy if I look for the normal jade slips. Let's try finding the ones buried in the ground for that special reward. I have two whole days, anyway.'

With that in mind, Yuan walked around the vast grassland with his Divine Sense activated.

After walking around for three hours with his Divine Sense constantly looking around, Yuan suddenly stopped moving.

"Oh? Is this it?"

Yuan retrieved his Starry Abyss and used it to dig a hole in the ground.

A few moments later, he grabbed the red-colored jade slip from the ground.

Meanwhile, the people watching him were speechless, as they didn't expect someone with Divine Sense to participate in their disciple examination.

'So much for luck and fate...' The middle-aged man sighed after seeing the red jade slip in Yuan's hands.

Chapter 100 - Second Tes

After obtaining one of the three special jade slips, Yuan proceeded to walk towards the gate.

However, the middle-aged man overseeing that examination suddenly approached Yuan and blocked his path.

"Congratulations on finding the first special jade slip, young man. I am Elder Long, an Outer Court Sect Elder for the Dragon Essence Temple. May I have your name?" The middle-aged man spoke to Yuan in a polite voice.

"Yuan," he responded.

"Daoist Yuan, huh? Anyway, since you have the special jade slip, allow me to explain a few more things to you. You can obtain a special jade slip in every test, and the more you gather, the better your reward will be towards the end. Furthermore, if you manage to obtain a special jade slip for every test, you'll get to enter the Dragon Temple for 24 hours."

"Dragon Temple? What is that?" Yuan asked.

"The Dragon Temple is a very special place that can only be accessed by the Sect Master of the Dragon Essence Temple, and once inside, you will have a limited time to search for and obtain as many treasures as you can in the given time. As for what kinds of treasures you can find inside... You will learn more about it if you actually manage to obtain access to that place."

Yuan nodded and said, "Okay, I will try my best."

"Good luck, Daoist Yuan."

Elder Long said to him before leaving him alone and returning to overseeing the other participants.

After Elder Long left, Yuan continued moving forward and entered the gate a few moments later, disappearing from the grassland.

Once Yuan left, Elder Long turned to look at the sky and said, "His name is Yuan! A prodigy who can use Divine Sense as a Spirit Warrior can't be a nobody!"

Meanwhile, a few of the sect elders watching the exam left the spectators' room and began trying to uncover Yuan's real background.

"This is the second examination?" Yuan looked around the area that resembled the wilderness.

"Congratulations on passing the first test. In order to pass the second exam, you must hunt magical beasts."

A young woman suddenly approached Yuan and said to him.

"Hunting magical beasts? Perfect!" Yuan said.

The young woman raised her eyebrows after seeing Yuan's enthusiasm. Normally, one would not react with excitement when they're told to hunt magical beasts but nervousness instead.

The young woman then said with a frown on her face, "Although there are Sect Elders scattered around this place to make sure there are as few incidents as possible, we cannot guarantee your safety, and there have been plenty of participants who died here."

"I see..." Yuan nodded, yet his voice did not sound worried at all.

"..."

The young woman was speechless. However, when she used her spiritual sense to look at Yuan's cultivation base, her eyes widened with shock.

"Fifth level Spirit Warrior?!" she exclaimed in a loud voice.

"Eh? Yes, I am at the fifth level Spirit Warrior. Is there something wrong with that?" Yuan asked her in an innocent voice.

"Yes... I mean... No...?"

The young woman did not know how to respond to Yuan's question. Although the examination did not forbid Spirit Warriors from participating in the examination, they have also never had a participant as powerful as Yuan before, as most people above the Spirit Apprentice realm would automatically be accepted into the Dragon Essence Temple without needing to pass the examination.

Furthermore, most of the magical beasts in this examination were only at the Spirit Apprentice level with only a few at the Spirit Warrior level. There was simply no way someone at the fifth level Spirit Warrior level would have trouble in this place!

After a moment of silence, the young woman cleared her throat before speaking, "Ahem! A-Anyway, in order to pass this test, you must hunt magical beasts to obtain points— 100 points to be exact. Depending on the level of the magical beast you defeat, you will gain a certain amount of points. For example, magical beasts at the first level Spirit Apprentice level will give you 1 point and a third level Spirit Apprentice magical beast will give you 3 points. As for the magical beasts above the Spirit Apprentice level, they will all give you 25 points. There will be a time limit of three days for this exam."

"Do you have any questions?"

Yuan nodded before asking, "What about the special jade slip? How do I obtain that here?"

"The special jade slip...?"

Yuan then showed her the red jade slip he obtained from the first test.

"Oh, that. It's been so long since someone tried to obtain it that I'd nearly forgotten about it."

"1,000 points. If you can obtain 1,000 points, you'll get the special jade slip," said the young woman.

"1,000 points... This might take longer than the previous test." Yuan mumbled.

After a moment of silence, Yuan asked the Sect Elder, "Senior, where can I find the most magical beasts at the Spirit Warrior level?"

"Uh... Over there..." The Sect Elder pointed towards the west.

"Thank you!" Yuan said to her before running towards the west.

"...Where on earth did such an oddball come from? Fifth level Spirit Warrior... He's already almost at my cultivation level, yet he's taking the examination?" The Sect Elder shook her head after Yuan left.

A notification appeared after Yuan killed a magical beast at the fourth level Spirit Apprentice realm in a single hit with the Empyrean Overlord.

"Heavens, this is such a powerful sword! The Spirit Sword is nothing compared to this!" Yuan looked at the massive sword in his grasp that felt no heavier than a wooden stick with a mesmerizing gaze.

Even though the monster was only at the Spirit Apprentice level, he'd managed to kill it with a casual swing that barely had any force behind it, almost like slicing tofu with a sharp knife! There was simply no resistance from the magical beasts!

Chapter 101 - Third Tes

«+7 points»

Every time Yuan swung his massive sword, a magical beast would inevitably succumb to death, and his points racked up extremely quickly, resembling the time at Pang City.

Meanwhile, the Sect Elder watching Yuan sweep through the magical beasts as though they were trash was shocked speechless.

'Which numbskull gave a fifth level Spirit Warrior the examination token? Whoever it was, he needs a damn beating! And I will be the first to volunteer for that!' The Sect Elder cursed inwardly as he counted the points Yuan had obtained.

Two hours later, Yuan had managed to collect a total of 300 points.

"Did that Senior give me the wrong directions? I haven't seen a single Spirit Warrior magical beast since I started hunting them..." Yuan sighed.

After running around aimlessly for another hour, Yuan finally encountered a magical beast at the Spirit Warrior level. However, because he immediately killed it a second later, it didn't feel any different from hunting Spirit Apprentice magical beasts.

'The fuck! He killed a Spirit Warrior magical beast in a single strike! And he even made it look so effortlessly!' The Sect Elder watching Yuan cried inwardly after seeing this.

'What is someone like him doing at the Dragon Essence Temple? Although we may be one of the top sects, there are other places stronger than us, such as the Heaven and Earth Palace! Surely, he would benefit more by going to those places!'

The Sect Elder could not understand Yuan's intentions for choosing their sect when there are much better options out there, and those sects would not refuse someone as ridiculously talented as him even in a million years, yet he decided to come to the Dragon Essence Temple, even going through the effort of participating in the disciple examination.

Meanwhile, Yuan continued to slay magical beasts for points without a care in the world.

After a few more hours, Yuan finally managed to amass a total of 1,000 points, becoming the first participant to reach 1,000 points in many decades.

'What else can one expect? It's like throwing a tiger into a chicken pen!' The Sect Elder watching Yuan wasn't even surprised that he'd obtained 1,000 points. In fact, he expected nothing less from Yuan!

A few moments later, the Sect Elder watching Yuan decided to approach him and said, "Congratulations, young man. You have managed to collect 1,000 points, being the first person in 69 years to have achieved this!" The Sect Elder congratulated him.

"Thank you. Do I get my special jade slip now?" Yuan asked.

"Of course. Here you go." The Sect Elder then handed to Yuan a blue-colored jade slip.

And then he continued, "The gate is to the north that way."

Once Yuan left the scene, the Sect Elder took a seat on the floor with an exhausted expression on his face.

"I have never felt so tired in my life, and I haven't even done anything significant. However, I am more mentally exhausted than physically, so..."

Sometime later, Yuan reached the gate to the next test. However, he didn't immediately enter it.

Instead, he logged off to cultivate until Yu Rou entered his room with dinner.

"How was the examination, brother?" Yu Rou asked him as she wiped his body.

"Was it difficult?"

"It's actually pretty easy. But I have only experienced two tests, so I cannot say anything for the rest of the exams. In fact, I don't even know how many exams I have to pass before I become a disciple," Yuan said.

"Is that so? Want to tell me about it?"

"Of course," Yuan said, and he proceeded to tell her about the first exam and then the second exam.

"Haha... You make it sound so easy, but I bet it's actually very difficult for the others." Yu Rou chuckled.

Sometime later, after dinner, Yu Rou returned to her own room whilst Yuan returned to the cultivation world to continue with the exam.

After entering the gate to the third test, Yuan found himself before a very large pond with silver-colored water and a silver tree towards the end of the pond. Furthermore, there were already over a hundred people waiting near the silver pond.

"What is this?" Yuan raised his eyebrows.

"Welcome to the third test." A young man wearing regular disciple robes suddenly greeted Yuan.

"Hello. What do I have to do for this test?" Yuan asked him.

"It's very simple. You just enter the pond and walk towards the silver tree. The further you go, the better the results. However, you only need to take 20 steps in order to pass this exam." The disciple explained to him.

"Twenty steps...?" Yuan became even more puzzled after the explanation. What kind of weird exam was this?

Seeing Yuan's puzzled eyes behind the black mask, the disciple continued, "This pond is no ordinary pond— it's a profound treasure that tests ones' talent, and the further you can go, the more talented you are."

"Normal Cultivators would only be able to take around 10 steps before they are unable to move forward. Meanwhile, talented Cultivators should have no problem taking over 20 steps. If you can take 50 steps, you are considered a peak Cultivation genius, but only one or two people would achieve that every ten years."

"I see..." Yuan nodded as he finally understood the meaning behind this test, and he asked a moment later, "What happens if one reaches the tree in the back?"

The disciple looked at Yuan with a dazed face before laughing out loud, "It takes 100 steps to reach the silver tree, but there has only been one person in our sect's history that has managed to reach the silver tree, and that person is the Dragon Essence Temple's Founder, who had passed away over a hundred thousand years ago."

"A hundred thousand years ago..." Yuan mumbled in a dazed voice.

"Oh, I have one more question. How many steps do I need to take to obtain the special jade slip from this test?" Yuan then asked.

"The special jade slip? That requires you to take 75 steps if I recall correctly." The disciple said.

"Okay, thank you," Yuan said before joining the other participants.

Chapter 102 - Fifty Steps

After joining the other participants near the silver pond, Yuan watched as the participants walked on the silver water one by one.

The person currently taking this test was a young man who just took his 13th step towards the silver tree. However, this young man's face was soaked in sweat, looking as though he had just run a marathon or had been splashed in the face with a bucket of water.

"Ahhhh!"

The young man suddenly began shouting while lifting his leg slowly, looking as though he was really struggling to take another step.

Splash!

The young man fell a few seconds later, falling directly on top of the silver water without submerging into the water like one would have expected.

"13 steps... failed." The Sect Elder standing next to the silver pond said after the young man fell down.

The Sect Elder then waved his sleeves, using his spiritual energy to pull the participant back to where the other participants were gathered before speaking out loud, "Next!"

A moment later, a young lady stepped forward and bowed to the Sect Elder before turning to stare at the silver pond and the tree.

After taking a deep breath, she took her first step into the silver liquid and towards the silver tree.

Tap... Tap... Tap...

The silver water rippled with every step the young lady took.

A few moments later, the young lady took her 19th step.

On her twentieth step, although she struggled a little bit, she still managed to take the 20th step, passing the exam. However, the young lady did not stop despite already passing the exam and continued to push herself for a few more steps.

In the end, the young lady managed to achieve 23 steps for the exam.

"You have passed. You may enter the gate now and proceed to your final test." The Sect Elder said to the young lady, who bowed to him before leaving the test area.

'So there is only one more test after this one, huh. I wonder what kind of test it is...' Yuan pondered to himself as he continued to watch the participants challenge the test one by one.

About half an hour later, a young lady with long black hair and a pair of sharp eyes stepped forward to challenge the silver water. However, unlike the previous participants, this young lady attracted the attention of every individual there with her beauty and the domineering aura around her.

"It's finally Fairy Min's turn! I wonder how many steps the genius of the Min Family is going to take!"

"Hahaha, of course, she's going to take 50 steps easily!"

"Good luck, Fairy Min!"

The participants there spoke and cheered for her as though they were very familiar with this beautiful lady's identity, and even the Sect Elder foreseeing the test gave her an approving nod.

A few moments later, once the atmosphere calmed down and the participants were quiet, the young lady known as Fairy Min took her first

step into the silver pond.

One step, two steps, three steps.

Fairy Min easily traveled over ten steps without any effort and with her every movement filled with confidence and arrogance.

Eleven steps, twelve steps, thirteen steps.

Fairy Min took her twentieth step as effortlessly as she did the previous ten without breaking a single sweat on her body.

"As expected of Fairy Min! She might even reach 75 steps at this rate!"

The other participants were incredibly excited for Fairy Min, feeling as though they were in her shoes.

A few more moments later, Fairy Min took her thirtieth step, surpassing every participant that had taken this test thus far.

A few more moments later, she took her fortieth step.

However, after taking her fortieth step, Fairy Min did not immediately take her next step and instead stood still for a minute to catch her breath.

Almost a minute later, Fairy Min finally challenged the silver pond with her 41st step.

Splash!

A powerful ripple appeared in the pond as Fairy Min took her 41st step.

After her 41st step, Fairy Min stopped for another minute before taking the next step, and she would continue this until she took her 47th step.

"Haaa... haaa... haaa..." Fairy Min panted heavily with sweat dripping down her face as she took her 48th step.

Splash!

Another ripple appeared in the silver pond after she took her 48th step.

After resting for a minute, Fairy Min attempted her 49th step.

"Ha!"

Fairy Min suddenly shouted out loud as she took her 49th step, and without taking another break, she went straight for the 50th step.

Boom!

The entire silver pond trembled after Fairy Min took her 50th step.

Fairy Min wanted to take another step, but alas, she knew that her body would not be able to endure another step, so she turned around and returned to the Sect Elder.

"Congratulations, Min Li from the Min Family— you are the first person in the last 7 years to have walked 50 steps for this test." The Sect Elder congratulated her upon her return.

"Thank you, Senior..." Min Li nodded her head, yet she appeared to be disappointed by her results.

"You may proceed onto the final test." The Sect Elder then said to her.

Min Li nodded, and she walked to the gate. However, she stopped walking after she reached the front of the gate and turned around to stare in the direction of the other participants with a profound gaze, or more specifically, she was staring at the figure wearing a black jade mask, who was emitting a profound and mysterious aura.

After staring at Yuan for a moment, she turned around and stepped into the gate, disappearing from the test area.

Once Min Li left the scene, the other participants returned to being silent, and the test continued as usual.

Many minutes later, it was finally Yuan's turn, and he stepped forward.

"Why is he wearing a mask? What an odd fellow." The participants mumbled to themselves after seeing Yuan's appearance.

However, when the Sect Elder saw Yuan, his eyes widened in shock like the other Sect Elders.

'Fifth level Spirit Warrior!' he cried inwardly.

Chapter 103 - The Final Step

'What the hell is a Cultivator at the fifth level Spirit Warrior realm doing here?! Even Min Li from the Min Family was only at the peak of the Spirit Apprentice realm!' The Sect Elder was greatly baffled by Yuan's unusual and overwhelming presence in the exam.

And since most of the other participants there were between the third level and seventh level Spirit Apprentice realm, they weren't even able to see Yuan's real cultivation base.

"Just to confirm, I just have to walk to that silver tree, correct?" Yuan asked the Sect Elder, snapping him out of his daze.

"T-That's correct! As long as you can take 20 steps, you will pass this exam."

Yuan nodded his head, and he proceeded to take his first step into the silver pond.

'What kind of results will he have? Although he's already at the fifth level Spirit Warrior realm, this test doesn't care for one's achievements, only their raw talents!' The Sect Elder watched Yuan with interest and curiosity, even a little bit of excitement, wondering what kind of results he would show them.

Meanwhile, Yuan just took his first step into the silver pond.

'This feels like I am walking on a mattress filled with water or something like that...' Yuan thought to himself as his feet touched the silver liquid that supported his weight.

After taking his first step, Yuan took his second step, then a third, and then a fourth— until he took his 20th step.

"Who is that man? He managed to take 20 steps effortlessly like Fairy Min!"

"He's blocking his face so we can't tell!"

The participants were surprised to see a nobody casually taking 20 steps as though he was taking a stroll in the park.

Meanwhile, Yuan continued walking towards the silver tree with a calm expression on his face behind the mask.

21... 22... 23...

28... 29... 30...

After taking his thirtieth step, Yuan did not stop and continued approaching the silver tree.

"Heavens! He's already taking his 35th step! And he did it without taking a single break!"

"Could this man be another genius at Fairy Min's level?!"

"Haha, I doubt it. Fairy Min is a real Cultivation genius! Although 15 steps may appear very little, the gap is actually immense— like heaven and earth!"

"I am willing to bet that he'll stop before 40 steps!"

"I bet that he'll reach 45 steps at most!"

While the participants began betting with each other for the results, Yuan continued walking towards the silver tree.

A few moments later, Yuan reached 45 steps without feeling any resistance or breaking a sweat.

After taking a few more steps, Yuan achieved 50 steps, rivaling Fairy Min's results.

"Good lord! First, we have Fairy Min who became the first person to achieve 50 steps in the last 7 years, now we have this mysterious man who also achieved 50 steps on the same day! To have two people achieving 50 steps so close to each other— this is unprecedented!"

However, as the participants there trembled in excitement, Yuan continued to move forward.

"He's still going!"

51...52...53...54...55...

Boom!

The silver pond trembled the moment Yuan took his 60th step.

'I still don't feel any different... Is there something wrong?' Yuan raised his eyebrows when nothing happened after taking 60 steps whilst the other participants began struggling much sooner.

However, since he didn't feel anything, Yuan continued to walk.

A few moments later, he took his 75th step, shocking the participants and the Sect Elder.

"75 steps! He managed to take 75 steps! This man is a real prodigy!"

The participants stared at Yuan with gawking expressions.

"One thousand years... It's been over 1,000 years since someone has taken 75 steps in the Pond of Evaluation..." The Sect Elder mumbled in a dazed voice.

However, Yuan was not done yet, as he still felt no resistance or challenge from the silver ponde, almost like the silver pond was purposefully going

easy on him, and after taking the 75th step, he continued moving towards the silver tree towards the end.

"He's going for the silver tree! He might actually do it!"

"75 steps is already impressive enough! Does he really think he can take 100 steps and reach the silver tree that has only been achieved by one person in history—the founder of the Dragon Essence Temple?!"

"He only has 25 steps left to reach the silver tree, but every single step will feel as though he's trying to leap over an entire sea, and it will only grow increasingly more difficult as he gets closer to the tree!"

"I am willing to bet that he won't make it past 90 steps!"

"I bet 100 gold he'll stop at 80 steps!"

"50 gold he'll make it past 90 steps!"

"I will bet 10 gold he'll actually make it to the silver tree!"

While the participants began another gambling session on whether the results, Yuan continued to approach the silver tree with slow but calm steps, still feeling no pressure whatsoever.

'This is probably the easiest test in this exam...' Yuan thought to himself as he took his 90th step.

"90 steps! He only has 10 more to go before he becomes the second person in history to reach the silver tree!"

Everybody there watched with a nervous feeling in their guts, feeling as though they were in Yuan's shoes.

91 steps... 92 steps... 93 steps...

Every single step Yuan took after the 90th step would cause the entire place to tremble, and on his 95th step, the silver tree at the end of the pond began glowing brightly.

"W-What is happening?!" The Sect Elder took a few steps back from shock, his gaze filled with disbelief.

However, Yuan ignored the glowing tree and continued to walk.

96...97...98 steps!

On Yuan's 98th step, the silver tree began cracking with a subtle golden light coming from within the cracks.

After Yuan took his 99th step, the cracks grew even larger, and the entire tree was filled with these cracks.

"The final step..." Yuan mumbled as he took his 100th step, leaving the silver water and stepping onto the land that hosted the silver tree.

Boom!

The moment Yuan finished all 100 steps, the silver tree suddenly exploded, transforming into a golden tree, baffling everyone in the test room!

Chapter 104 - Talent That Rivals Their Founder

"H-H-He really did it! He really managed to take 100 steps and reach the silver tree!"

The Sect Elders watching the examination from afar were all shocked speechless by Yuan's flawless performance.

"What happened to the silver tree, though? Why did it turn golden? This didn't happen before even when the founder achieved 100 steps— at least it was not recorded!"

"Forget about the tree! We have another prodigy who rivals our founder in terms of talents! We must let the Sect Master and the Grand Elders know about this as soon as possible! We cannot let such a talent leave our grasp!"

The Sect Elders there then scrambled outside to look for the Sect Master and Grand Elders.

Meanwhile, back at the examination hall, after crossing the silver pond and reaching the silver tree that had suddenly turned into a golden tree, Yuan calmly walked back to the other participants before approaching the Sect Elder.

"I only need to take 75 steps to receive the special jade slip, correct?" Yuan asked the Sect Elder, not even caring about his achievement of 100 steps that put him on the same level as their founder.

"T-T-That's correct..." The Sect Elder nearly forgot how to speak after experiencing this shocking event.

After panicking for a few moments, the Sect Elder finally managed to retrieve a white-colored jade slip and handed it to Yuan with trembling hands.

"H-Here you go..." The Sect Elder lowered his body and offered the special jade slip to Yuan, acting almost like a servant before his lord.

"Thank you," Yuan accepted the white-colored jade slip before tossing it into his spatial ring with the rest of the special jade slips.

After storing away the white-colored jade slip, Yuan turned to the gate and began walking towards it.

"W-Wait a second! Where are you going?" The Sect Elder suddenly stopped him.

"Huh? Didn't I pass this test?" Yuan responded in a dumbfounded voice. Since he passed this test, he was obviously going to the next test.

"You're going to take the next test? That won't be necessary." The Sect Elder shook his head and continued, "You are the only person besides the Founder of the Dragon Essence Temple to have achieved 100 steps in this place, meaning your talents rival our Founder. There's no longer any need for you to participate in the next test because you will be accepted into the sect regardless of the results."

"I don't need to take the next test...?" Yuan raised his eyebrows. How else is he going to obtain the final special jade slip and enter the Dragon Temple?

After a moment of silence, Yuan spoke, "Even if I pass now, I would still like to participate in the final test. After all, I have already come this far. It wouldn't feel good if I stopped here without finishing it. Furthermore, I am doing this mostly for the experience, and I don't want to lose that feeling."

"Doing this for the experience...?" The Sect Elder looked at Yuan with a surprised expression on his face.

However, after pondering for a moment, he found sense in Yuan's words. After all, nobody at the fifth level Spirit Warrior realm would willingly waste their time in this place unless they were doing it for another purpose.

'Perhaps he's a Young Master from a very powerful family that's currently on a journey for training? That would make sense as to why he has to hide his identity and why he's participating in this disciple examination.' The Sect Elder thought to himself.

"If you insist on continuing with the examination, go ahead. I won't stop you if that's what you really want. Just remember that no matter the results, you'll still be qualified to become a disciple at our Dragon Essence Temple." The Sect Elder reminded Yuan before letting him go.

"Thank you," Yuan nodded his head, and he proceeded onto the next test shortly later.

Meanwhile, somewhere within the Dragon Essence Temple, the Sect Master and the Grand Elders gathered at the spectators' room, where the other Sect Elders have been watching the disciple examination.

"Are you sure? That someone from the examination managed to cross the Pond of Evaluation and achieve 100 steps, even making the silver tree turn golden?" The Sect Master of the Dragon Essence Temple, Long Yijun, asked the Sect Elders there with a serious expression on his face.

"Take a look for yourself, Sect Master. The golden tree."

The Sect Elders pointed at the treasure that projected the area for the third exam, and there was a golden tree clearly in the projection.

"Hmm..." Long Yijun became silent and began pondering with a deep frown on his face.

"This participant... What's his name?"

An old man with short white hair and a short beard suddenly asked.

The Sect Elders turned to look at the Grand Elder who just spoke, and one of them said, "He called himself 'Yuan', but we're not sure whether that's his surname or given name. Furthermore, he's already at the fifth level Spirit Warrior realm."

"Huh? His name is Yuan? And he's a fifth level Spirit Warrior?" The old man looked at the Sect Elders with a dazed face.

"Is there something wrong, Elder Xuan?" Long Yijun noticed his odd reaction and asked him.

After a moment of silence, Elder Xuan suddenly burst out laughing for a good minute before speaking, "There's no need to investigate this individual. I know him."

"What? You know this man?"

Everybody in the room looked at him with a surprised look on their faces.

Elder Xuan nodded and said, "Yes, he's my granddaughter— Xuan Wuhan's friend. She sent me a message not long ago about someone very talented and by the name of Yuan who might visit our Dragon Essence Temple in the future and to treat him well."

"Core Disciple Xuan's friend?"

The Sect Elders didn't know whether to laugh or cry after hearing this news, as they had spent the entire day scrambling their heads trying to figure out Yuan's identity and whether or not he was a spy only to find out that he was related to the Xuan Family.

Chapter 105 - The Last Tes

"Now that we know this cultivation prodigy's identity, what should we do, Sect Master?" One of the sect elders suddenly asked him.

"What do you think, Elder Xuan?" Long Yijun turned to look at him for advice. "Since he's technically yours, what do you want to do with him?"

Elder Xuan shrugged and said, "How am I supposed to know? I don't even know his intentions for coming here! We can decide where to go once I have a little conversation with this young man."

And then he continued, "In the meantime, you should prepare to open the Dragon Temple, Sect Leader. I have a good feeling this young lad will obtain the last special jade slip from the final test and collect all of them, becoming the first one to do so in 10,000 years."

"The Dragon Temple, huh? It's been such a long time since someone qualified to enter that place." Long Yijun smiled, and he continued, "Even if this young man doesn't manage to obtain the last special jade slip, I'll still let him enter the Dragon Temple, as that is most likely what our Founder would want to happen if he were still here today."

After a moment of silence, Long Yijun suddenly said, "Although this might be near impossible and a very difficult task to achieve, I want everything that is related to the young man named Yuan to be hidden from the public. I don't want the other sects to know about his existence for now, but when they do, it'll be a pleasant surprise for them."

"A pleasant surprise...? Are you thinking about letting him participate in the Mystic Realm next month?" Elder Xuan looked at Long Yijun with a surprised look on his face. "He'll only be a disciple for a month at that time

whilst the other disciples participating will all be Core Disciples. I cannot imagine the Core Disciples being very happy about a nobody who just joined the sect recently taking up one of their spots so suddenly when they are working themselves to the bone to obtain a spot, and there are very few spots available, which makes this situation even more sensitive."

"So what if the Core Disciples will be unhappy? If they are unhappy, they can go ahead and try to achieve 100 steps in the Pond of Evaluation! Even if they complain, the cultivation world favors those with talent, so they have no right to complain unless they are more talented than him!" Long Yijun spoke in a stern voice.

The sect elders in the room exchanged looks with each other. While they do not reject having someone as talented as Yuan take up a slot for the Mystic Realm, they don't know whether they should or should not let their disciples know about this, as their disciples were also Core Disciples trying to obtain a slot for the Mystic Realm.

Long Yijun noticed the perplexed expressions on the sect elders' faces, and he spoke, "Even if they are your disciples, it's best to leave them in the dark for now, as it might affect their cultivation negatively. The Dragon Essence Sect was only given 3 slots for the Mystic Realm, and with Yuan taking one of these slots, only two other Core Disciples will participate in the Mystic Realm. Though, you can tell them that we have already given one of the slots to a disciple— just not his identity."

"Yes, Sect Master." The sect elders acknowledged his orders.

"Now, let's see how this cultivation genius will do in the final test. Will he continue to surprise us, or will he do the opposite?"

Long Yijun and the other sect elders proceeded to spectate Yuan with the treasure.

Meanwhile, Yuan had just walked through the gate and entered the area for the final test; it was a large but empty room with a tall stone tablet located a few meters away in the center of the room.

The stone tablet resembled the stone tablets he saw in the Flying Sword Sect that were used to rank the disciples, but there were no names on this one— only complex symbols that somewhat looked like words.

"Congratulations on passing the previous three exams and reaching the final exam." A young woman with a very pretty face that had been waiting in the room said to Yuan after noticing his presence.

"This is the final test? Where are the other participants?" Yuan asked when he couldn't see anybody else there.

"The final exam is a bit special and requires absolute peace and concentration, so everybody will have their own room for the rest of the test," said the young woman.

"My name's Xue Jiye, and I will be overseeing this test."

"Before we begin, allow me to explain to you how this exam works and what you need to do in order to pass it."

Xue Jiye then pointed towards the tall stone tablet and said, "That stone tablet contains many cultivation techniques from our Dragon Essence Temple, and your goal is to study it and try to comprehend whatever technique it shows you. As for the technique it will be showing you, it will change depending on your test results from the previous exams. Therefore, the better your results from the previous exams, the more powerful and unique the cultivation technique the stone tablet will show you."

"As for the condition to pass this exam, you'll need to understand at least 10% of the cultivation technique. Do you have any questions?" Xue Jiye ended her sentence with a question.

"I need to comprehend 10% in order to pass, huh? What about the special jade slip? How much of the cultivation technique do I have to comprehend in order to obtain the special jade slip?" Yuan asked.

"The special jade slip...?" Xue Jiye raised her eyebrows. This is her first time being asked about the special jade slip since she first started

overseeing the participants, and it has been two years since then.

Chapter 106 - Tablet Of Comprehension

After a moment of silence, Xue Jiye responded to Yuan's question regarding the special jade slip, "In order to obtain the special jade slip, you must comprehend at least 70 percent of the cultivation technique. Furthermore, you have only 7 days to study the stone tablet."

"Of course, the better your results, the better cultivation technique you'll get to learn, but that also means you'll need much longer to understand the technique, as stronger cultivation techniques are more often than not more complex and profound. However, no matter what cultivation technique the stone tablet gives you, the requirements are the same."

"I understand," Yuan nodded.

"Good. Do you have any more questions? If you do not, you may begin the test. The moment the Tablet of Comprehension reveals your cultivation technique is the moment your timer begins." she asked him.

"How do I know how much of the cultivation technique I have comprehended in the end?" Yuan asked her.

"The Tablet of Comprehension will let us know the results by the light it emits. A white glow means you have comprehended 10 percent of the cultivation technique which is required for you to pass this test. A green glow means you have understood 25 percent of the technique. It will glow an azure-colored light past 50 percent and a red light at 70 percent. At 80 percent, the stone tablet will emit a black light, and 90 percent will emit a golden light."

"What about 100 percent?" Yuan asked her out of curiosity.

"100 percent? That has never happened before so I don't know. In fact, nobody knows what will happen— not even the Founder who only managed to comprehend 90 percent in seven days." Xue Jiye shook her head.

Sometime later, Yuan walked to the tall stone tablet and stood before it.

"It's assessing your results and picking the perfect technique for you so give it a few minutes," Xue Jiye said to him as she pulled out a chair from her spatial ring before sitting down and watching him with a nonchalant expression on her face.

'Hm? Wait a second... This guy... This guy is a fifth level Spirit Warrior?! His cultivation is even higher than mine— two levels higher!' Xue Jiye was shocked when she realized Yuan's cultivation base.

'Just how old is this guy? His voice sounded very young— even younger than me!' Xue Jiye cried inwardly.

Meanwhile, in the spectators' room, the sect elders there started to gamble with each other.

"I am betting 100 contribution points that he'll achieve 50 percent understanding in 7 days!"

"I will bet 50 contribution points that he will reach 70 percent!"

"Since you guys are favoring him so much, I shall do the opposite! 100 contribution points that he'll reach less than 50 percent!"

"One thousand contribution points that he'll reach 90 percent." Long Yijun suddenly joined the fun, dumbfounding the sect elders.

"1,000 contribution points? That's ten years' worth of contribution points!" The sect elders exclaimed.

"How about you, Elder Xuan? Wanna make a bet? Whoever guesses correctly will obtain all contribution points placed in this bet."

"Hmm..." Elder Xuan looked at Yuan's figure from the treasure for a moment before speaking, "Then I shall bid 500 contribution points that he'll be the first person in history to reach 100 percent understanding."

"What? 100 percent?"

Everybody in the room looked at him with wide eyes.

"Aren't you giving him too much credit, Elder Xuan? Although his talent is definitely on par with the Founder's talent, even the Founder could only reach 90 percent after 7 days. Furthermore, because of his excellent results from the previous tests, one can only imagine what kind of technique he'll get, but one thing is for sure, and that is the technique won't be a weak one."

Long Yijun also chimed in, "I agree with Elder Xin. With his results, he'll get to learn at least an Earth-grade if not a Heaven-grade cultivation technique from the Tablet of Comprehension. I don't know about you, but I have never seen or heard of anyone that can fully comprehend an Earth-grade technique within 7 days, much less a Heaven-grade."

"Well, it wouldn't be a gamble if I don't go against the odds, right?" Elder Xuan laughed.

"Anyway, what is the most powerful cultivation technique the Tablet of Comprehension can reveal? The highest grade I have seen so far is at the Earth-grade, which happened 300 years ago."

Hearing Elder Xuan's question, Long Yijun said, "According to the Dragon Essence Temple's record, since the sect's founding, there have only been three people who received a cultivation technique above the Earth-grade from the stone tablet, and they were all at the Heaven-grade."

"However, as for the Founder... Although nobody knows what kind of technique he'd received, it was rumored to be a Divine-grade technique."

"A Divine-grade technique, huh?" Elder Xuan mumbled with a profound expression on his face.

Meanwhile, Yuan stood before the Tablet of Comprehension without moving a muscle, patiently waiting for it to reveal his cultivation technique.

About ten minutes later, Yuan's eyebrows suddenly twitched, as he could see lines that became symbols appearing on the Tablet of Comprehension.

"The Tablet of Comprehension has picked your cultivation technique! Your time starts now! Remember, you only have 7 days to comprehend as much of the technique as you can!" Xue Jiye said to him after seeing this.

Yuan immediately sat down in the lotus position and proceeded to stare at the stone tablet with an intensive gaze, looking as though he was trying to stare a hole in the stone tablet.

A few more minutes later, the symbols stopped appearing on the stone tablet.

Although he couldn't understand the symbols at first, after staring at the stone tablet for a few minutes, the symbols actually began moving and formed a picture! However, only Yuan was able to see this change on the stone tablet, whilst Xue Jiye and the others could only see a wall of still symbols!

"Dragon's Gaze?" Yuan suddenly mumbled these two words after staring at the picture that resembled an eyeball for many minutes with a seemingly mesmerized look on his face.

At the same moment Yuan learned of the technique's name, the stone tablet emitted a white glow, shocking Xue Jiye, and the others.

'Impossible! Only fifteen minutes have passed since he sat down!' Xue Jiye immediately stood up from shock after seeing this white glow, indicating that Yuan has already understood 10 percent of the technique!

Chapter 107 - Dragon's Gaze

Chapter 107 - Dragon's Gaze

"What! How is that possible?! Am I just seeing things or is the Tablet of Comprehension emitting a white glow already?! It hasn't even been half an hour since he sat down!"

The sect elders inside the spectators' room quickly became clamorous after seeing the Tablet of Comprehension glowing.

"This young man..." Long Yijun stared at the glowing stone tablet with a dazed look on his face.

"This Yuan is the definition of a true cultivation genius," Elder Xuan said with a smile on his face.

Meanwhile, inside the examination room, Xue Jiye stood there with a bewildered expression on her beautiful face, looking like she'd just seen a ghost.

'Impossible! How did he comprehend 10 percent of the technique already?! Even if it's a weak cultivation technique, he shouldn't be able to learn it so quickly!' she cried inwardly.

As for Yuan, he continued to stare at the symbols that formed an eyeball—glaring back at it with a piercing gaze.

The eyeball on the stone tablet grew more realistic and lively the longer Yuan stared at it, almost as though it was coming to life, and after glaring at it for an hour, Yuan could see colors appearing on the stone tablet and coloring the large eyeball.

Once the entire eyeball was colored in a golden and amber color, the Tablet of Comprehension began emitting a green light, indicating that Yuan had

comprehended at least 25 percent of the cultivation technique.

'My god! He's already at 25 percent comprehension!' Xue Jiye quickly covered her mouth when she suddenly felt the urge to scream out loud.

"25 percent! He's already at 25 percent!"

As for the people watching from the spectators' room, without needing to worry about interrupting Yuan's concentration, they shouted at the top of their lungs from excitement.

"Hahaha! At this rate, he might really comprehend the entire cultivation technique!" Elder Xuan laughed out loud, and he continued, "And he might even do it in less than 7 days!"

"Hmm..." Long Yijun remained silent and continued to stare at Yuan with a profound gaze.

Another two hours later, the eyeball on the stone tablet changed for Yuan again, and this time, the eyeball appeared to be emerging from the stone tablet!

Yuan was startled when he saw this change, but he didn't look away, as something about the eyeball kept his gaze attached, almost mesmerized.

And although the eyeball looked incredibly realistic, if one looked closely, they would not be able to sense any life in it, so it felt no different from looking at a realistic art— a masterpiece.

However, as Yuan continued to stare into this eyeball for another hour, he began to feel a profound pressure coming from it. Although it was only very slightly and barely noticeable at first, the longer he stared at it, the stronger the pressure became until it felt like he was being looked down upon by some superior entity, almost like a God looking at mortals from the Heavens.

However, despite this intense pressure, Yuan did not back down and challenged the gaze.

Boom!

After staring at the eyeball for some time, the eyeball suddenly flickered with a golden light, and Yuan found himself floating in the middle of the void and surrounded by stars the next second with Xue Jiye and the stone tablet nowhere to be seen, almost like he'd been teleported to the outer space.

"What the?" Yuan looked around with a puzzled expression on his face.

A few moments later, something caught his attention, causing him to turn around.

"?!?!?!"

When Yuan turned around and saw the massive creature flying behind him, his hair stood up straight like a cat when frightened or feeling threatened.

'Is this... a dragon?!' Yuan cried inwardly as he recognized the shape of this creature from movies when he was a kid.

However, this dragon was much larger than he remembered. It had large golden eyes the size of an entire planet and a massive body that stretched to the horizon countless miles into the distance.

Meanwhile, in the examination room, Xue Jiye noticed that Yuan had suddenly closed his eyes, seemingly asleep.

Furthermore, the stone tablet was no longer glowing a green light, and it had once again changed colors.

'Azure-colored light! He's comprehended 50 percent of the technique!' Xue Jiye cried inwardly after seeing this change, falling down onto the chair behind her.

In the spectators' room, the sect elders were no longer making noises. Instead, they silently stared at Yuan with a serious expression on their faces, pondering to themselves whether Yuan will really be able to comprehend

100 percent of the technique within 7 days, as it was looking increasingly likely that he would every time the stone tablet changed colors.

'It's only been 6 hours since he started studying the technique given by the Tablet of Comprehension and he has already managed to comprehend over half of the entire technique. At this rate, he'll really become the first person in history to achieve 100 percent comprehension, and he might do it in a single freaking day!' Long Yijun thought to himself.

'Where on earth did you find such a monster, my dear granddaughter?' Elder Xuan showed a bittersweet smile on his face.

Meanwhile, back in Yuan's mind where the dragon existed, even though he was like a speck of dust compared to the dragon, Yuan continued to stare back at the massive dragon despite its terrifying presence and incomprehensible size.

"What is your name, human?"

The dragon suddenly spoke to him.

"Oh? You can speak?" Yuan was pleasantly surprised by this, and he continued, "My name is Yuan."

"Yuan... You are the second person to have learned my Dragon's Gaze from the Tablet of Comprehension with the first one being a man named Long Chen. However, his comprehension abilities pale in comparison to yours, as it took him over three days to reach this far whilst it took you only a few hours, and he was frozen from shock when he first saw me." The dragon spoke in a deep and profound voice that caused the stars in the surroundings to tremble.

Chapter 108 - Star

"Are you... Are you real?" Yuan suddenly asked the dragon.

"No, I am a mere illusion created by the Tablet of Comprehension in this world. However, that is not to say I do not exist, as this is an illusion of my real-self. If you manage to reach the upper heavens then perhaps you will get to see the real me. And when that happens, don't think you'll be able to stand there as calmly as you are now." The Dragon spoke in an arrogant voice, sounding as though Yuan had somehow hurt its pride by not cowering in fear from its immense presence like any norm human should.

"Anyway, enough yapping, human. This great one shall demonstrate to you the power of Dragon's Gaze." The Dragon turned to look at the large planet in the distance and continued, "Do you see that star? Before the Dragon's Gaze, it is no different than a little rock..."

The Dragon's golden eyes suddenly flickered with a profound light before shooting out an invisible beam that flew straight at the planet in the distance.

A second later— BOOM!

The entire planet that was 10 times larger than Earth exploded into countless fragments before disappearing into the darkness, and the shockwave created by the explosion was powerful enough to send Yuan flying tens of miles backward. Of course, before the Dragon's incomprehensible size, it appeared as though Yuan never moved at all.

"..." Yuan witnessed this mind-blowing scene with his jaw dropped and his eyes wide open from shock, as he has never seen anything this dramatic before.

"That is the power of Dragon's Gaze at its maximum potential. In the beginning, you'll only be able to scare a few people with it, but once you understand the technique more, you'll be able to kill your enemies with a mere gaze!" The Dragon spoke afterward.

"Killing people with just my gazes? That sounds incredibly powerful but also extremely dangerous at the same time..." Yuan mumbled in a dazed voice.

"Anyway, can you do that again? I will need to see it a few more times before I can learn it," Yuan then said to the Dragon with an innocent expression on his face.

"A few times? Hahahaha!"

The Dragon suddenly exploded with laughter, causing the entire starry sky to tremble, and Yuan felt his internal organs dancing around viciously. However, for some odd reason, it didn't hurt him at all.

Once the Dragon stopped laughing a few moments later, it spoke in a serious voice, "Although your comprehension ability may be impressive, don't overestimate yourself, you mere human! The previous human had to watch the technique for hundreds of thousands of times before he could even begin to understand it! And only after watching for a few million more times did he finally understand the technique enough to use it!"

"A few million? But he only had seven days to study the technique, right? There's no way he could've watched the technique so many times in such a short time!" Yuan expressed his doubts.

"We are currently inside your mind, so time flows differently in here. You can stay in here for a few years if you wish and only a few hours will have passed in the outside world!" The Dragon said.

"What? I can study the technique for a few years while I am here?" Yuan mumbled in a dazed voice.

"Yes. However, your spirit and soul must also be strong enough to endure it because the longer you stay in here the more exhausting it will be for your body and mind, and you are only a Spirit Warrior whilst the previous human was already a Spirit Grandmaster when he came here."

"At your level, you will be able to remain inside this space for a few weeks at most, which is only enough to witness a few thousand Dragon's Gaze."

"A few thousand, huh? That should be more than enough," Yuan nodded with a calm expression on his face.

"..."

The Dragon stared at Yuan with its massive eyes narrowed after hearing his words. After a moment of silence, it spoke, "Since you are so confident that you can learn my Dragon's Gaze so easily, how about a little bet with me, human?"

"A bet? But aren't you only an illusion?" Yuan said.

"I may be an illusion but I still have some powers in here. Although I may not be able to physically help you, there are other things I can do here." The Dragon said.

And it continued, "As for the bet... If you can learn my Dragon's Gaze before I demonstrate it a total of 10,000 times, I will consider it your win, and I shall give you something very special."

"If you lose, well, there's really nothing you can do for me in here so you won't lose anything for losing the bet. Therefore, you can only gain something from this bet. How about it?"

Since there was nothing to lose, Yuan nodded. "Okay, let's do it."

"Good! Then watch closely, because I will be demonstrating my Dragon's Gaze without stopping now!"

The Dragon then turned to look at another planet in the distance that had suddenly appeared out of thin air before using the Dragon's Gaze once

again, obliterating the planet almost instantly.

Whoosh! Yuan was pushed back a few miles again after the explosion, yet he did not blink and stared with an intensive gaze as the Dragon continued destroying planets one at a time.

Boom! Boom! Boom!

The Dragon obliterated a dozen stars in just a few minutes, taking breaks only for a few breaths before its eyes shot out another star-destroying beam, and Yuan witnessed each and every single planet being obliterated without blinking his eyes.

Very quickly a couple of days have passed inside his mind, and Yuan has witnessed the Dragon's Gaze almost a thousand times.

Meanwhile, on the outside, the Tablet of Comprehension changed colors once again after a few hours of silence, turning bright red this time, shocking Xue Jiye and those in the spectators' room even more.

Chapter 109 - State Of Enlightenment

"A red light! He's comprehended the technique 70 percent now! And it's been only a few hours since he comprehended 50 percent! Just how ridiculously talented is this guy?! He puts 'fast learners' to shame with his learning speed!" Xue Jiye could no longer contain her voice and mumbled in a shocked voice.

'I wonder what it looks like in the spectators' room right now... How are the sect elders reacting to this young man?' Xue Jiye pondered to herself.

Meanwhile, in the spectators' room, everybody there turned to look at Elder Xuan with a profound expression on their faces, thinking to themselves how Elder Xuan will most likely win this gamble and obtain 20 years' worth of contribution points in a single bet.

Back inside Yuan's mind, he continued watching the Dragon obliterate stars every few breaths until he could see the scene even if he closed his eyes and stopped watching.

After spending a few more days inside this special space, Yuan's eyes suddenly turned golden, resembling that of the Dragon's eyes.

When the Dragon noticed the change in Yuan's eyes, it was inwardly shocked by Yuan's progress.

'This human has already comprehended the Dragon's Gaze to such an extent?! It's only been a week since we started!' The Dragon cried inwardly. 'At this rate, I will really lose the bet! To think I, the Great One, would lose to a mere human! Even if it's only something as minor as losing

a bet, it's still more than enough for me to lose face! Luckily for me, we are alone here and I am only an illusion, or the other Divine Beasts would surely turn me into a laughing stock!'

"Why did you stop? Are you tired?" Yuan asked the Dragon when it suddenly stopped using the Dragon's Gaze to destroy planets, forcing him out of his trance and halting his progress briefly.

"No... I am fine. I am only a mere illusion so I cannot experience exhaustion. Let's continue."

The Dragon continued shooting invisible beams from its massive eyes that seemed larger than the planets it was destroying a moment later, and Yuan returned to staring at the scene with a dazed expression on his face.

After watching for a few more hours, Yuan suddenly closed his eyes, yet he could still somehow see the planets being destroyed by the Dragon.

'Enlightenment! This human has entered the state of enlightenment!' The Dragon realized why Yuan suddenly closed his eyes, yet it did not stop destroying stars.

Meanwhile, in the examination room, the Tablet of Comprehension began changing colors again.

The red light grew darker and darker, until it was no longer red and completely pitch black, resembling the void.

"80 percent?! He'd just reached 70 percent an hour ago! Why did his progress suddenly increase so exponentially?!" Xue Jiye covered her mouth from shock.

Even the sect elders in the spectators' room were puzzled by Yuan's results.

"This... Could this be enlightenment?" One of the sect elders asked in a weird tone, sounding as though he was doubting himself. However, Yuan experiencing enlightenment was the only logical explanation for the sudden change.

Of course, enlightenments are incredibly rare moments that most Cultivators can live even their entire life without experiencing it a single time.

Meanwhile, Yuan was already experiencing his second enlightenment. If the sect elders knew this, they would literally lose their minds, as none of them have experienced the state of enlightenment yet.

A few more hours passed inside Yuan's mind, and he suddenly opened his eyes.

The second Yuan opened his eyes, a profound ripple appeared around him and spread throughout the endless void, and his golden eyes were glowing brighter than ever before.

A notification also appeared before him a moment later.

«You have learned 'Dragon's Gaze'!»

«Rank: Ancient»

«Mastery Level: 1»

«Description: A technique created by the 'Great One'. A single gaze will cause Immortals to bow and the Heavens to tremble in fear!»

'Ancient-rank?' Yuan raised an eyebrow at this unfamiliar rank.

Meanwhile, in the outside world, an announcement appeared for all Players to witness.

«Player Yuan has become the world's first Player to have learned an Ancient-rank skill! Congratulations!»

This announcement dumbfounded and shocked every player in every location across the world.

The players were dumbfounded because they have never heard of an 'Ancient-rank' skill before until today and shocked because Player Yuan

made yet another appearance.

Meanwhile, inside the Dragon Essence Temple, the sect elders within the spectators' room were shaking from excitement when the Tablet of Comprehension suddenly changed colors, turning into a beautiful and majestic golden light!

"He did it! 90 percent comprehension! He has reached the Founder's results! And he did it in less than one day!" The sect elders rejoiced as though they were watching their own child.

"Just 10 more percent and he'll make history... However, overcoming these last 10 percent is like trying to reach the heavens; it won't be easy at all, and it'll probably be even harder to achieve than the previous 90 percent..." Long Yijun mumbled with a serious expression on his face.

"Well, he still has six more days to comprehend the last 10 percent. Even if he doesn't, he's already surpassed the Founder in terms of cultivation talent and comprehension skills. We must nurture this young man and spare no expense on him no matter what," Elder Xuan spoke with a profound expression on his face.

Back inside Yuan's mind, the Dragon stared at Yuan with a baffled gaze.

"3,000... You have managed to learn Dragon's Gaze after watching it less than 3,000 times. Compared to the previous human, you are... No, it would be disrespectful to you if I were to compare you to someone who needed years of effort to learn the technique while you did it in less than a week inside this space."

"How strong is an Ancient-rank technique?" Yuan asked the Dragon afterward.

"The Ancient-rank is one rank above the Divine-rank." The Dragon responded, and it continued, "However, even though it's only one rank higher, it's countless times stronger than any Divine-rank technique out there."

OceanofPDF.com

Chapter 110 - Seal Of Approval

"If you compare Ancient-rank techniques to Divine-rank, the difference is like heaven and earth or Immortals and mortals— it's so vast that they're almost incomparable." The Dragon said to Yuan.

"However, it will also be much harder to train and master than Divine-rank techniques—"

The Dragon suddenly stopped talking halfway through its sentence and looked at Yuan with a weird gaze, and then it continued a moment later, "Well, knowing your talent, it'll probably be no different than a Divine-rank technique, and you'll master it incredibly fast."

"Anyway, you have managed to surpass my expectations, broadened my views with your comprehension talents, and even won a bet against this Great One. Therefore, as promised, I shall now bestow you a special reward."

The Dragon proceeded to close its eyes for a minute.

Once the Dragon reopened its eyes, a golden beam of light shot out from its eyes and pierced straight into Yuan's forehead.

"Whoa!"

After watching the Dragon destroy planets with its gaze thousands of times, Yuan naturally responded to the golden beam by jolting his body in a startled manner, even feeling his heart skip a beat. However, when he realized that his body didn't explode like the stars, he released a sigh of relief.

A few moments later, once the golden beam disappeared, another notification appeared before Yuan.

«You have received the Great One's Seal of Approval»

"Seal of Approval...?" Yuan mumbled, feeling as though nothing about his body had changed after receiving the Seal of Approval.

"What can I do with this seal?" Yuan asked the Dragon afterward.

"With my Seal of Approval, you will have a chance to obtain my Legacy." The Dragon spoke in a calm voice.

"Legacy...?" Yuan raised his eyebrows. Is it something like Xiao Hua's Legacy?

The Dragon continued to speak a moment later, "Go to the Dragon Temple and find my statue. If you use Dragon's Gaze on the statue, it will activate a hidden formation, which will require the Seal of Approval to fully activate. As for what comes afterward... you will have to go there and figure it out yourself."

"If you manage to obtain my Legacy, find the real me that exists somewhere in the upper heavens and I will give you a few treasures that will make even powerful Immortals drool with envy. However, since I am merely an illusion in this place, the real me won't recognize you, as we have never truly met before. But as long as you have the Seal of Approval and the Legacy, everything should be fine."

"Do you have any questions, human... No, what is your name? You have earned my respect, so I shall address you as your name." The Dragon suddenly said to him.

"Yuan. My name is Yuan," he responded.

"Then do you have any questions for me, Yuan?"

After pondering for a moment, Yuan asked, "I have heard the name Dragon Temple before but I don't know what it really is. Can you tell me a little bit

about the place? What kind of place is the Dragon Temple?"

The Dragon nodded its massive head before speaking, "The Dragon Temple is a trial that was created by me... the real me countless years ago to challenge the geniuses in the Lower Heavens in hopes of finding someone who can inherit my Legacy. There are also some treasures that can be obtained from the Dragon Temple. The Tablet of Comprehension, for example, is a treasure that Long Chen had found in the Dragon Temple from a challenge."

"Of course, the treasures within the Dragon Temple are worthless compared to the real treasure— my Legacy. If they manage to pass all of the challenges, obtain the Legacy, and find me in the upper heavens, I shall bestow to them unimaginable wealth and priceless treasures that even Immortals and Gods covet."

"However, nobody has managed to find the Legacy to this day, much less obtain it. Perhaps you, Yuan, will become the first person to inherit my Legacy."

Yuan nodded and said, "I will try."

After a moment of silence, the Dragon spoke again, "Your body can endure a few more weeks in this space. Would you like to continue studying the technique?"

"Yes, let's do this until I have to log off for dinner," Yuan said.

"Dinner...?" The Dragon looked at Yuan with a puzzled gaze.

Sometime later, Yuan returned to watching the Dragon obliterating stars with the Dragon's Gaze, further increasing his understanding of the technique.

Meanwhile, inside the spectators' room, the sect elders were in a small conversation.

"The Tablet of Comprehension is glowing a golden light, meaning that he has reached at least 90 percent comprehension of the technique. However, since we have never witnessed anyone achieving 100 percent, we won't be able to tell if he has truly comprehended 100 percent of the technique or not."

"The only thing we can do is wait and see the results. Perhaps the color might change again, or something entirely different might happen. We can guess what might happen for as long as we want but without the results, we will never really know," Long Yijun said to them.

The sect elders nodded, and they returned to staring at the stone tablet for even the slightest change.

Time quickly passed for everyone including Yuan, who got so absorbed in watching the Dragon destroying stars that he'd forgotten about the flow of time.

Sometime later in the real world, Yu Rou returned home from school and went straight to Yuan's room with haste, as Player Yuan's new achievement was being talked about even at her own school!

However, when she entered his room and Yuan didn't greet her, she stopped to ponder.

'Hmm? Brother would normally leave the game and wait for me before I even return. Is he still doing the disciple examination? He did learn an Ancient-rank skill today, so he might still be busy right now... I shouldn't disturb him even if he might miss dinner tonight...'

Afraid that she might accidentally ruin something for Yuan, Yu Rou decided to leave him alone until he decides to log off himself, and she left the room a few moments later to do other things.

Chapter 111 - Talents That Will Make Even The Heavens Jealous!

After learning the Ancient-rank technique, Dragon's Gaze, Yuan remained inside the special space to further study the technique by watching the Great One continuously destroy planets, and because time flows differently in that space, not to mention his state of enlightenment, Yuan forgot about the passage of time and spent two more weeks within the special space without even realizing how much time had passed.

Of course, only a little more than half a day had passed in the outside world, so besides missing dinner and breakfast, Yuan didn't really miss out too much.

Ding!

A system notification suddenly appeared before Yuan, snapping him out of his state of enlightenment.

«Your comprehension for Dragon's Gaze has reached a new level»

«Dragon's Gaze Mastery Level (1) → (2)»

Dragon's Gaze

Rank: Ancient

Mastery Level: 2

Description: A technique created by the 'Great One'. A single gaze will cause Immortals to bow and the Heavens to tremble in fear!

The moment Yuan's Mastery Level increased, the Tablet of Comprehension outside began to tremble.

When the sect elders noticed this, they exclaimed, "Something's going to happen!"

A few seconds later, the Tablet of Comprehension cracked like a mirror, and just like the silver tree from the third exam, it exploded into many pieces before revealing a golden tablet.

"A golden tablet?! Is this what happens when one comprehends 100 percent of the technique?!" Long Yijun shouted out in sheer excitement.

"He really did this! This young man really did it! He has achieved the impossible!"

"Heavens! What just happened?!" Xue Jiye cried out loud when she saw this, yet she was too nervous to investigate it by herself.

Meanwhile, inside Yuan's mind.

"HAHAHAHA!"

The Dragon suddenly burst with laughter, causing the entire universe to tremble, even shattering a few planets by accident.

"You are truly one amusing human, Yuan! I have never seen a mortal with comprehension abilities as ridiculous as yours— not even in the upper heavens! Although there are many cultivation monsters in the upper heavens with heaven-sent talents, they are all Immortals and Gods, and you are the first Spirit Warrior that has managed to baffle me speechless in such a manner!"

The Dragon praised Yuan, something it has never done before ever since its creation by the Tablet of Comprehension, and it continued speaking, "You have talents that will make even the Heavens jealous! However, having such immense talent is not always a good thing, as it can also be a misfortune in the cultivation world where everybody is either plotting or

destroying one another, especially the envious humans who will do everything in their power to destroy those superior to them if they have the capabilities."

"Only those with great talent and a powerful background will truly rise in the cultivation world, whilst everyone will require an immense amount of luck and skills to survive. I don't know your background, but with your talents, I can only imagine how many people will try to destroy you before you become too powerful to stop, especially since you are only a Spirit Warrior."

"If I were you, I wouldn't reveal my true talents to everyone and remain as lowkey as possible."

Yuan nodded, "I understand."

"Anyway, you have only a few more days at most inside this space. What do you want to do?" The Dragon asked him a moment later.

"Although not much time has passed in the real world, it still feels as though I had lived here for a few weeks, and I am beginning to miss my sister's voice, so I'll leave now," Yuan said.

"Very well... I shall let you leave now."

The Dragon's eyes began glowing. However, before teleporting Yuan away, the Dragon said, "I truly hope that you will obtain the Legacy and meet the real me in the upper heavens. Good luck, Yuan."

A moment later, Yuan opened his eyes, and the first thing he noticed was the golden tablet standing majestically standing before him.

'Huh?' Yuan raised his eyebrows, unaware why the stone tablet had suddenly turned golden.

When Xue Jiye noticed that Yuan had finally opened his eyes after sitting there for almost 2 days, she called out to him, "Are you okay?!"

"Hm?"

Yuan turned around to look at the pretty young lady that was approaching him, completely unaware that his eyes were still glowing golden, resembling the eyes of Divine Beasts.

"What is this feeling?!"

When Xue Jiye looked into Yuan's golden eyes, she felt an indescribable sense of fear and despair that filled in her heart that caused her body to tremble.

Thud!

Xue Jiye fell on her butt the next second, and a weird sensation could be felt coming from between her legs before a warm sensation followed.

"Ah! Don't look at me!" Xue Jiye quickly cried out loud with a flushed face and covered her face with her arms when she realized that she'd accidentally pissed herself after looking into Yuan's eyes that were unknowingly using Dragon's Gaze.

"Eh? Are you okay?"

However, Yuan was still unaware that he was naturally using Dragon's Gaze and approached Xue Jiye with his golden eyes still glowing brightly.

"Ahhh~!"

Xue Jiye quickly realized that blocking Yuan from her views did not help her situation at all when she could still feel his piercing gaze even though she was not looking at him.

"S-Stop! Are you doing this on purpose?! Stop looking at me and turn around!" Xue Jiye shouted in an angry voice.

"Okay..."

Although Yuan was puzzled as to why Xue Jiye was telling him to look away and why she sounded angry, he listened to her and turned around.

A few moments later, a portal appeared a few meters away from Yuan, and a couple of figures walked out of the portal.

"S-Sect Master! Grand Elder!" Xue Jiye was surprised to suddenly see their faces, but it was not too shocking, as Yuan's results were simply that ridiculous.

"You can return to your living quarters for now, Disciple Xue. However, don't say a single word about what you saw here today. I will speak with you later," Long Yijun said to her with a serious expression on his face.

OceanofPDF.com

Chapter 112 - End Of The Disciple Examination

"Y-Yes, Sect Leader!" Xue Jiye quickly stood up before making her way towards the portal and disappearing from the scene, leaving behind a trail of glistening liquid and a small puddle of clear water.

Once Xue Jiye left the place, Long Yijun and Elder Xuan turned their attention to Yuan, but when they saw his golden eyes behind the black jade mask, their bodies uncontrollably trembled from a dreadful feeling that made them feel as though they were standing before a powerful beast, almost like they were in a life-or-death situation.

Despite their cultivation base as Spirit Masters, they felt helpless before a mere Spirit Warrior just from his gaze; it was an incomprehensible feeling for the two experts.

"Daoist Yuan... Can you do something about your eyes?" Long Yijun asked Yuan a moment later with a weird smile on his face.

"My eyes? What about my eyes?" Yuan asked, still unaware that his Dragon's Gaze was active.

"It's glowing golden, and it doesn't feel comfortable being stared at by it," Long Yijun said.

"Oh, I'm sorry, I didn't know it was active... No wonder why my eyes were feeling a little bit different than usual," Yuan closed his eyes and deactivated the skill.

Because he'd gotten used to keeping Dragon's Gaze activated inside the special space for many days without rest, it felt as natural as breathing, hence why he didn't notice it instantly.

Once the golden eyes were gone, Long Yijun released a relieved sigh before speaking, "Hello, Yuan. My name is Long Yijun, and I am the current Sect Leader for the Dragon Essence Temple, and this over here is—"

Elder Xuan stepped forward and extended his arm for a handshake, "How are you doing, Yuan? My surname is Xuan, Xuan Zan."

"Xuan...?" Yuan raised his eyebrows after hearing this familiar surname.

"That's right. I am Xuan Wuhan's grandfather. She has already told me about you," Elder Xuan said.

"Oh! So you're Xuan Wuhan's grandfather! She also told me to come see you if I ever come to the Dragon Essence Temple!" Yuan shook his hand.

"Yes. If you'd come to me straight away, I could've made you a disciple right away, and you wouldn't have needed to participate in this examination. With that being said, I am also relieved that you didn't come to me first, or else we would've never realized the full extent of your talents." Elder Xuan said with a smile on his face.

Long Yijun suddenly began walking, and he stood before the golden tablet a moment later with his hands caressing the solid tablet with a mesmerizing look on his face.

"Congratulations, Yuan... or should I call you Disciple Yuan now that you have passed the exam? Either way, you have achieved something nobody—not even our Founder could have achieved by comprehending 100 percent of the technique given to you by the Tablet of Comprehension within 7 days. Hell, you'd even completed it in 2 days!" Long Yijun said to him a moment later.

"W-Wait a second... two days? I have been here for two days?" Yuan asked them with a dumbfounded look on his face.

"Yes." Long Yijun nodded.

"I-I'll be right back!"

Yuan immediately logged off to see if Yu Rou was still around.

"Yu Rou?" Yuan immediately called for her after logging off.

"The Young Lady has already left for school, Young Master." A clear voice that belonged to a young lady suddenly responded to him, but it was not Yu Rou's voice.

"That voice... Is that you, Meixiu?" Yuan asked.

"Yes, Young Master. This is Meixiu speaking," she responded.

"I see... How long have I been in the game?" he asked her a moment later.

"The Young Master has been playing since yesterday morning, and he's missed two meals— last night's dinner and this morning's breakfast. The Young Lady has ordered me to standby here just in case you log off and require assistance," Meixiu said.

Because Meixiu was Yu Rou's personal maid and also the same age as her, Yu Rou trusted Meixiu enough to leave her alone with Yuan, and she would let Meixiu take care of Yuan whenever she could not.

As for why Meixiu wasn't present the previous time Yu Rou was unable to attend Yuan, it was simply because she was busy with another task.

However, it was not only Yu Rou who trusted Meixiu, as Yuan also trusted her, even treating her like a friend, as they have known each other for many years— even before he was crippled.

"Would you like to eat breakfast... or lunch now, Young Master?"

"It's okay, I'm not hungry. Since Yu Rou has already gone to school, I will return to the game for now. You don't need to stay here either," Yuan said to her.

"I cannot do that, as the Young Lady has specifically ordered me to stay here until she returns," Meixiu said.

"...You're just like your mother, always so serious with your job, even though you're around the same age as Yu Rou. It's admirable, really."

"Thank you for your compliments, Young Master."

"I'll go now. You can do whatever you want." After saying that, Yuan went back into the cultivation world.

After returning back to the cultivation world, Long Yijun continued speaking to Yuan as though he'd never left in the first place, "Not only have you achieved something nobody has ever achieved before, but you have done it in an unbelievably short time! If I didn't witness your results with my own eyes, I wouldn't have believed it even if someone beats me to death!"

"However, while your achievements are definitely incredible, we also have to keep it a secret for now, or it might bring you— even the Dragon Essence Temple unnecessary trouble. I will explain more to you later, but for now, let's get you out of this place."

"What about the special jade slip?" Yuan suddenly asked him.

"Hahaha! Don't worry about something like that. I have already decided to let you enter the Dragon Temple!" Long Yijun said, and he continued, "Come, let's continue our conversation somewhere more comfortable."

Chapter 113 - Introducing Himself

After passing the final exam and meeting Long Yijun and Elder Xuan, Yuan followed them out of the examination area through the portal and straight into the spectators' room with the other sect elders present.

"Where is this?" Yuan looked around the unfamiliar scenery.

"This is the spectators' room, where high-ranking sect elders can watch the disciple examination and see if there are any talented participants they can accept as disciples." Long Yijun said.

"Hello, Daoist Yuan. Why don't you be my disciple? I can promise you that we'll have a 'good' time together," one of the female sect elders, who had a mature and enchanting figure, suddenly said to Yuan with an alluring gaze, even winking her bright eyes at him.

"How shameless of you, Elder Shan! The Sect Master and Grand Elder are present, you know!" Another sect elder quickly scolded her.

"So what? It's not like they don't already know my character." Elder Shan shrugged, and she continued, "Furthermore, someone as talented as Yuan... I would do anything to make him my disciple... hehe..."

Elder Shan glared at Yuan with a hungry look on her beautiful face, almost like a predator before its prey.

Yuan swallowed nervously when he saw this, as he has never been glared at with such a chilling gaze before.

"You're scaring him, Elder Shan." Elder Xuan said to her, and he continued, "I know you all want him to be your disciple, but we can talk about that

later. For now, let's make sure he's comfortable and understands the situation that we're in."

Sometime later, Yuan took a seat with the others sitting around him.

"For starters, let's introduce ourselves." Long Yijun said. "Once again, I am Long Yijun, the current Sect Master of the Dragon Essence Temple."

Elder Xuan went next and said, "I am one of three Grand Elders, Xuan Zan."

The mature female elder then said, "Surnamed Shan— Shan Shang, and I am in charge of the Core Disciples. If you are ever feeling lonely or bored, come find me, okay, Daoist Yuan? I'll entertain you."

"..."

After a moment of awkward silence, the next elder in the room spoke, "Xin Ming, and I am also in charge of the Core Disciples alongside Elder Shan."

"Bai Ling, and I am in charge of the Disciplinary Hall. If you ever run into trouble, whether it be with another disciple or a sect elder, you can come find me."

Long Yijun then said, "There are a few more sect elders that had seen your performance from this place, but they had to leave early for other duties. Would you like to introduce yourself? A brief introduction about yourself and a little about why you decided to join our Dragon Essence Temple."

Yuan nodded and took off his black jade mask, revealing to them his handsome and young face.

"Oh my! You're much younger and more handsome than I'd expected! I am definitely going to make you my disciple now!" Elder Shan's eyes flickered with excitement after seeing Yuan's face, and she even licked her lips in a weird manner.

Yuan tried his best to ignore the weird woman and said, "My name is Yuan, and I am 18 years old. I have only recently become a Cultivator and I want

to learn more about the cultivation world, so I came to the Dragon Essence Temple to broaden my views!"

"..."

To Yuan's surprise, nobody there responded to him, and they all stared at him with wide eyes filled with shock.

"Y-You're only 18 years old? And you became a Cultivator only recently? How recently are we talking about? A few years ago?" Long Yijun was the first to snap out of his daze and ask Yuan.

"No, I became a Cultivator only a few weeks ago," Yuan responded with an innocent-looking expression on his face.

"A FEW WEEKS AGO?!"

Everybody in the room simultaneously exclaimed in a shocked voice with one of them even breaking his chair and falling onto the floor.

"Just where on earth did you come from? If you don't mind, can you tell us your background? Which powerful family do you belong to? I can promise you that it won't leave this room, and no matter where you came from, we don't treat you any different—I swear on it as the Sect Master of the Dragon Essence Temple!" Long Yijun asked him in a nervous voice.

"Why does everyone think I am from a powerful family?" Yuan responded with puzzlement, and he continued, "I don't belong to any powerful family."

"How is that possible? What about your parents? They must be powerful Cultivators, right?" Elder Xuan asked him next.

"No, my parents are not Cultivators. They are musicians," Yuan said. Since he didn't have a family in this world, he told them about his family in the real world.

"What?! Your parents are mortals?! And they gave birth to a cultivation prodigy like you?! What are the Heavens thinking?!" Long Yijun cried out

loud.

It was as though the Heavens created a cultivation prodigy like Yuan just to mess with every Cultivator in the world. Not only is Yuan from a common background and a family of mortals, but he has talents that surpass even the Founder of the Dragon Essence Temple, who was once recognized as the number one expert in the entire Lower Heavens! If this is not spitting in the face of every Cultivator, especially those born from a powerful family, then what is?

"If what you say is true... and I don't mean to doubt you... then we have a serious issue at hand," Long Yijun spoke a moment later with a serious expression on his face.

The other sect elders also nodded their heads with grim looks on their faces, instantly turning the atmosphere heavy.

"Eh? Why would it be an issue that I am not from a powerful family?" Yuan asked, still unaware of the situation he was in.

"Well, to put it simply, there will be countless people who will become envious of your talents, and because you have no powerful family backing you, there will be nothing to stop these people from trying to harm you—destroy you before you can grow too powerful," Long Yijun said to him.

Chapter 114 - The Importance Of Having A Strong Backing

"You wish to learn more about the cultivation world, right? Well, the first thing you need to know about the cultivation world is its brutal and unforgiving nature." Long Yijun continued.

"There are many selfish and coldhearted Cultivators out there who are without reason and will do everything in their power to bully those weaker than themselves and try to destroy those above them if they get the chance."

"This is why it's extremely important to have a powerful backer or an influential background, especially if you are talented, as they will be able to protect you to a certain extent, and the more powerful your backing the safer you'll be in the cultivation world. This is another reason why many Cultivators aim for the most prestigious sects, as that will make them feel safer."

"If you don't have a strong backing or come from a powerful family, other Cultivators will be able to bully you without needing to worry about the repercussions. If you have a powerful background, on the other hand, people will have to think twice before they want to mess with you."

"Do you now understand why it's so important to have a backing and connections in the cultivation world? Cultivators... they can be heartless and selfish creatures that will do anything to achieve their own goals, even if they have to drag down others in order to do so."

'I see... The dragon also said the same thing, but it didn't go into too much depth...' Yuan thought to himself after hearing Long Yijun's long explanation on why it was important for him to have a strong backing.

"I understand," Yuan nodded afterward.

Long Yijun continued to speak a moment later, "Now back to our situation. You have immense talent— talents that will make many, many Cultivators jealous, yet you do not come from a powerful family that can protect you, hence why it's a problem."

"While the Dragon Essence Temple can protect you to a certain extent, and we will do everything in our power to protect you as long as you are a disciple here, there are no guarantees, as there are powerful factions and Cultivators out there in this vast world that even we cannot deal with."

"Therefore, I suggest hiding your real talent from the world until you have sufficient backings. Of course, that is not to say you shouldn't show off your talents— just overdo it... like what you did during the third and final exam..."

Yuan nodded.

"Now onto the second matter... Elder Xuan, do you want to take over?" Long Yijun asked him.

Elder Xuan nodded before looking at Yuan and speaking, "You said that you came to the Dragon Essence Temple for experience, right? I have heard from my granddaughter about how you do not want to be restricted like normal disciples and wish to travel freely. Normally, only Core Disciples will have such luxury, but we will make it an exception for you since you are already at the Core Disciples' level."

"Although you have just passed the examination and become a disciple, it would make no sense to make someone at your cultivation level an Outer Court— even an Inner Court disciple. However, with that being said, we also cannot just make you a Core Disciple, as that has never happened before and it would upset many of the Core Disciples."

"Therefore, we'll make you an Outer Court disciple in name so that you can experience the sect from the beginning exactly like you wanted while giving you Core Disciple privileges and benefits, so you'll actually be a

Core Disciple disguised as an Outer Court disciple until you pass the Core Disciple examination and become one officially."

"How does that sound, everyone?" Elder Xuan asked the others for their feedback.

"That sounds pretty interesting," Elder Shan said, and she continued, "We can keep him hidden from our enemies since they tend to only look at the Inner Disciples and Core Disciples."

"I also approve of this. However, how are we going to hide his cultivation base?" Elder Xin asked.

"I will handle that," Elder Shan said. "I have a pill that'll disguise his real cultivation base and make him appear much weaker than he actually is."

Long Yijun looked at Yuan and asked him, "Are you okay with being an Outer Court disciple for now? If you wish, we can make you an Inner Court disciple instead."

However, Yuan shook his head and said, "I want to experience a normal sect life as intended, which means I start from the bottom and walk my way to the top."

While it was a little too late for Yuan to live a 'normal' sect life, Long Yijun and the other sect elders did not say anything and decided to let Yuan live that illusion for now.

"Then it's decided. Starting today, you will be an Outer Court disciple, but if you ever need something— anything at all— just let one of us know and we'll assist you to the best of our abilities without making it too obvious. We'll give you our communication jade slip later so you can contact us whenever you feel the need." Long Yijun said.

A moment later, Long Yijun continued, "Disciple Yuan, I have one... no, two more important matters to discuss with you before I can let you go so bear with me. The first one is about a place called Mystic Realm that we plan on having you participate in next month, and the second matter is

about the Dragon Temple that will most likely happen after the Mystic Realm."

"Mystic Realm...? What's that?" Yuan asked.

"To put it simply, it's a massive competition that happens only once every ten years where all of the elite sects from around the world send their most talented disciples to participate in the Mystic Realm—a mysterious place that contains many challenges and treasures, and the higher your sect ranks the more rewards and fame you'll obtain." Long Yijun explained.

And he continued a moment later in a passionate voice, "Our Dragon Essence Temple ranked 7th for the last event, but with you on our side this year, I have no doubt that we'll achieve at least top 3!"

OceanofPDF.com

Chapter 115 - Accepting A Master

"Every sect will be given a certain amount of slots depending on their results from the previous competition, and we managed to secure 3 slots for this year's Mystic Realm," Long Yijun said.

"One of those spots will be given to you. Of course, we're not going to ask you to participate without anything in return, so we'll give you full access to the Profound Pavilion, where you can learn all kinds of techniques between the Mortal-rank to Earth-rank. There are also a few Heaven-rank techniques available, but you'll need to be accompanied by one of us in order to access those."

"Furthermore, whatever you obtain from the Mystic Realm, we'll let you keep them. Normally, the disciples are required to hand in the treasures they find inside the Mystic Realm, but we'll make it an exception for you."

"What do you think? Are you willing to participate in the Mystic Realm for the Dragon Essence Temple?" Long Yijun asked him afterward.

Yuan nodded without hesitation, "Sure. I don't mind participating."

Since there was no reason for him to refuse, and he was curious about this Mystic Realm, Yuan accepted their request.

"Great! Then let's talk about the Dragon Temple. The Dragon Temple is a mythical place discovered by our Founder, Long Chen, and he built the Dragon Essence Temple around it in order to protect it. It's a mysterious place with many challenging tests, and you'll be rewarded for passing those tests."

"The only reason why we are not sending more disciples in there is simply because it requires a tremendous amount of resources and effort to open the

place for even a single person, and there's a high chance the Dragon Temple might refuse entrance if you are not talented enough, hence why we only allow those who have exceptional results during the disciple examination to enter the Dragon Temple." Long Yijun explained to him.

"You wish to enter the Dragon Temple, right?"

"Yes, I do." Yuan nodded.

"Then I'll immediately start preparing for it now. It should be ready for you shortly after the Mystic Realm if I begin now— that's just how much effort is required to open it."

"Do you have any questions for us?" Long Yijun asked him a moment later.

"No, not really..." Yuan shook his head.

"Good, then we can finally—"

"Wait a second!"

Elder Shan suddenly interrupted Long Yijun.

"What's the matter, Elder Shan?" They looked at her with raised eyebrows.

"We still haven't decided on who should be Yuan's Master, and I would like to volunteer," she said with a stern expression on her face.

"..."

The place quickly became silent, as the sect elders there were well aware of Elder Shan's stubborn character. If she truly wanted Yuan to become her disciple, it'll be near impossible to make her give up.

"Why don't we let the young man himself decide such an important matter?" Elder Xuan said, and he turned to look at Yuan.

"What do you think, Disciple Yuan? Although disciples are not required to have a Master, it's highly recommended that you get one, as they can

provide you with resources and advice for your cultivation. Furthermore, having a Master is also considered as having a 'backing' within the sect."

"How about it, little brother? Why don't you come with this big sister here? I'll promise you that you'll never have a boring day when you're my disciple." Elder Shan suddenly stood up and approached Yuan with weird leg movements, appearing incredibly tempting and seductive with every step, and even the other sect elders couldn't help but swallow nervously after seeing her feminine charm.

"I have only ever accepted female disciples before, but I'll make it an exception for you. My disciples are also very beautiful and popular in the sect with countless admirers, so if you become my disciple, you'll get to meet with them often." Elder Shan walked behind Yuan and leaned on him with her large and heavy racks pressing down on top of Yuan's head.

"I..." Yuan was speechless. Although he does not understand why Elder Shan was acting so weird and clingy, his heart felt an indescribable sense of danger when around her, almost like a baby rabbit before a hungry tiger.

"Forget about her, young man. Become my, Xin Ming's disciple! Although she may look very young and attractive, don't let her appearance deceive you, as she's actually an old hag over 300 years old!"

"Who are you calling an old hag, you wrinkly old man?!" Elder Shan quickly removed one of her shoes and tossed it at Elder Xin with an enraged look on her face.

"How dare you throw your smelly shoes at me!" Elder Xin exclaimed.

"Hahaha! Ignore those two idiots, Brother Yuan. I can see clear righteousness coming from your eyes, and I believe that you'll fit in at our Disciplinary Hall perfectly!" Bai Ling laughed out loud.

"Disciple Yuan, you are not limited to just sect elders, you know? If you want, I can also accept you as my disciple," Long Yijun suddenly said.

"Though, with your monstrous comprehension abilities, I doubt any of us will be your Master for long," he continued with a bittersweet smile on his face.

Sometime later, Elder Shan asked Yuan, "What do you think, little brother? Who do you want as a Master?"

"Uhhh..."

After a moment of silence, Yuan spoke, "Since I cannot really decide, can I just accept all of you as my Master?"

"You want all of us? My, you're quite the greedy one, but that's fine too." Elder Shan chuckled after hearing his answer.

"Can I not have more than one Master?" Yuan asked.

"Although not very common, it's normal for disciples to have more than one Master at a time since it's not possible to learn everything from one Master. Though I don't think there has been a disciple who has had the Sect Master and many high-ranking sect elders as Master simultaneously before..." Elder Xuan said to him.

"Then again, you are not a normal disciple, and there'll always be a first for everything— just like how you'd demonstrated during the disciple examination."

Chapter 116 - Pill Of Concealmen

"So? Does everyone here agree to have Disciple Yuan as their disciple?" Long Yijun asked them a moment later, and he continued, "I'll be completely honest— his talent is simply too much for us to keep to ourselves, so instead of being selfish, it's best if we all contribute to teaching him about the cultivation world for the best results. After all, it might affect his growth negatively if he has only one Master."

"I have no qualms about that decision," Bai Ling said with a calm expression on his face.

"Me neither," Elder Xin said.

Everyone there then turned to look at Elder Shan, who held a hard-to-read expression on her beautiful face.

After a moment of silence, she sighed out loud, "Fine, I'll share him. Although I'd rather keep him for myself, what the Sect Master said makes sense. I doubt I'll be able to train someone as talented as him properly, and I'll only slow down his progress."

Sometime later, Long Yijun and the other sect elders there handed Yuan their communication jade slip so that Yuan could communicate with them whenever he wanted.

"By the way, is there anything that I need to do now that I have accepted all of you as my Master?" Yuan asked them. "What about the lectures?"

"We do give private lectures to our disciples every month and public lectures once a year, but you are not required to attend either of them. If you have any questions regarding cultivation or need resources for cultivation, you can just let us know using the communication jade slip. Furthermore,

because you are still only an Outer Disciple, we'll avoid physically meeting with each other as much as possible since we don't normally communicate with disciples in person, and I don't want the other disciples thinking that we are favoring you too much, as that might affect the entire sect as a whole." Long Yijun said to him.

"I understand." Yuan nodded.

"Here's a few more things before we let you go." Elder Xuan then handed Yuan two separate medallions.

"The silver medallion will allow you to go to the Treasury Hall and obtain as many resources as you need for your cultivation— just don't overdo it, as we don't have an unlimited supply of resources. I will speak with the elder in charge there and let him know of your existence to avoid any problems."

"As for the gold medallion, that'll grant you full access to the Profound Pavilion. I'll also let the elder in charge of that place know about you."

"Don't lose them; it'll be problematic if someone that's not supposed to have them gets a hold of them."

"I won't lose them," Yuan said with a serious expression on his face.

Sometime later, Elder Shan said to Yuan, "Come with me, little brother. I still have to give you the pill that'll disguise your real cultivation base. However, I don't have it on me, so we'll have to get it in my room."

"Okay..." Yuan nodded innocently without thinking too much about it.

However, Elder Xin blocked Yuan's path and said to Elder Shan, "You can go back by yourself and return here once you have the pill. I don't trust you one bit with him, especially if you'll be alone with him. Who knows what you'll do to this innocent boy when you're alone with him."

"Haaa... You are thinking too lowly of me, Elder Xin. Do you really believe that I would lay my hands on my own disciple?" Elder Shan sighed with a

disappointed look on her face, and she continued, "Despite my character, I am still a maiden, you know?"

"Hmph!" Elder Xin coldly snorted, not even bothering to answer her.

"Fine... I'll be right back..." Elder Shan shook her head before leaving the building.

While Elder Shan left to grab the pill, Long Yijun handed Yuan a medallion of his own and said, "This is the Absolute Authority medallion, and only the Sect Master can hand it out. As long as you have this, nobody in the sect will dare to touch you. However, don't go flaunting it every chance you get and only use it during emergencies, and of course, don't lose it."

"Thank you," Yuan nodded as he tossed another medallion into his Spatial Ring.

Once Elder Shan returned a few minutes later, she handed Yuan a black pill the size of a fingernail.

"Eat this and nobody but Spirit Masters and above will be able to tell your real cultivation base," Elder Shan handed him the pill.

[Pill of Concealment] [Tier 2] [Purity: 92%]

[Effects: Temporarily conceals your cultivation base by 7 levels for 30 days]

[Description: Only works if you are below Spirit Master]

After tossing the pill into his mouth and swallowing it with the help of some water, Yuan could feel his aura being suppressed, yet his strength remained the same.

"There— now you're only a 7th level Spirit Apprentice, just enough to qualify as an Inner Disciple," Elder Shan said afterward.

Sometime later, Long Yijun opened another portal to the disciple examination and said to Yuan, "Once you return to the examination, just

enter the gate behind the Tablet of Comprehension and you'll be teleported to the gathering area where everyone that has passed the examination will be gathered. Here's your token; it's proof that you have passed the disciple examination."

"Although we won't see each other for a while, we'll always be watching over you, so go ahead and enjoy life as a disciple until the Mystic Realm," Elder Xuan said to him.

"Good luck, Brother Yuan." Bai Ling said to him.

"Try not to cause too much trouble." Elder Xin said with a smile.

Lastly, Elder Shan said to him before kissing the palm of her hands and blowing it towards his direction, "If you are ever feeling lonely, come find me at Blossom Peak."

"I will see you all later, Seniors. Thank you for everything so far." Yuan bowed to them before entering the portal and disappearing from the room.

Chapter 117 - Golden Symbols

Once Yuan entered the portal and disappeared from the spectators' room, Long Yijun and all of the sect elders there sat down in a chair with an exhausted expression on their faces.

"Heavens... That was exhausting..." Elder Xin was the first to speak there, and he continued a moment later, "It's really difficult being around a genius like Yuan. There's simply something about his aura that frightens me."

"You got that feeling too? Although I cannot tell what it is, there's something fearsome hidden within Yuan, and it felt like there were always two pairs of eyes watching me at all times." Long Yijun said with his back soaked in sweat. "Perhaps I'm just imagining things, and it's just his natural aura."

"There will soon be a massive ripple sweeping the entire cultivation world, especially after the Mystic Realm, when Yuan's existence will be known to the rest of the world and to all of the elite sects out there, and we'll need to be prepared before that happens, or our Dragon Essence Temple will be in danger," Elder Xuan said to them with a serious expression on his face.

"Yes, this is a serious risk that our Dragon Essence Temple is taking, but this is what usually happens when an extraordinary genius appears in the cultivation world," Long Yijun said, and he continued, "However, we cannot be afraid to take risks, or our Dragon Essence Temple will never stand at the top again."

"By the way, I just realized this, but we never asked Yuan what kind of cultivation technique he'd received from the Tablet of Comprehension. Since his examination results were on the Founder's level, there's a high chance that he'd learned the same technique our Founder learned— a

Divine-rank technique if the rumors are correct." Bai Ling suddenly said to them.

"There's no need to ask him since I witnessed it for myself." Long Yijun said.

"Really? What kind of technique did he learn?" Bai Ling asked with a curious look on his face.

Long Yijun closed his eyes to recall Yuan's golden eyes before speaking a moment later, "The technique our Founder used to dominate the Lower Heavens... It was an otherworldly technique that allowed him to completely freeze his opponents' movements by instilling deep fear into their very soul with a mere gaze, right? According to some of the records that were written by witnesses that have seen our Founder's battles, our Founder's eyes would glow golden whenever he activates this technique."

"And when I met Yuan for the first time after he finished his exam, his eyes were glowing golden, and it was able to make even a peak Spirit Master such as myself experience fear."

The place quickly turned silent after Long Yijun ended his sentence.

"If Yuan really learned the Founder's technique, there's a very high chance that he'll dominate the Lower Heavens like the Founder had—it's only a matter of when he'll achieve it," Elder Shan said with a serious look on her face for once. "Therefore, we should protect him at all cost."

"I agree with Elder Shan. Our Founder was so talented during his time that there hasn't been anyone who managed to reach his heights even 100,000 years later. If Yuan, who has talents that surpass even the Founder, we must make sure he grows up properly." Bai Ling said.

"If we can protect Yuan until he can dominate the Lower Heavens, our Dragon Essence Temple will once again rise to the top. If we fail, however, our Dragon Essence Temple might crumble." Elder Xin said with a pondering expression on his face.

"Is there even a need to think about this? Of course, we will protect Yuan even if we have to risk the entire Dragon Essence Temple! I'm sure the Founder would also say the same if he was here!" Long Yijun stood up and said.

"I agree with the Sect Master. Who knows what other talents Yuan might be hiding," Elder Xuan said.

"Then it's decided. We'll protect Yuan at all costs," Elder Xin and Elder Bai nodded their heads.

"Someone who's even more talented than our Founder, huh? I can already imagine how the ladies will react once they learn about Yuan. Therefore, I should take advantage of my situation and be the first to act." Elder Shan chuckled with a weird expression on her face.

"Do you have no shame, Elder Shan? You're already 300 years old while Yuan is merely 18 years old. He'll choose your disciples before he even considers you!" Elder Xin laughed out loud.

"One's age becomes inconsequential when you are both Cultivators, especially at the higher levels. You're just jealous that I am going after Yuan while I rejected you 200 years ago." Elder Shan looked at Elder Xin with a smirk on her face.

"..." Elder Xin became speechless after being reminded of his youthful days when he was infatuated with Elder Shan but was ultimately rejected by her.

"Did you really have to bring that up? That's very underhanded of you..." He sighed a moment later.

Meanwhile, after entering the portal, Yuan returned to the examination hall with the golden Tablet of Comprehension still standing there.

Yuan approached the golden tablet and bowed it.

"Thank you for everything. I will try my best to find your Legacy in the Dragon Temple and meet the real you somewhere in the upper heavens."

The Tablet of Comprehension suddenly trembled, and the symbols on the tablet began moving, before emerging from the golden tablet and flying directly at Yuan's body, submerging itself within his body.

"What the?"

Yuan patted his body after the symbols disappeared into his body. Oddly enough, he didn't feel any different, nor did any notifications pop up, so he has no clue as to what had just happened.

Meanwhile, inside Yuan's body, golden symbols appeared on all of his bones, yet neither Xiao Hua nor Feng Yixiao could see or sense the golden symbols.

Sometime later, Yuan left the examination hall through the gate, becoming the first person to complete the disciple examination.

Chapter 118 - Becoming A Disciple

After passing through the gate, Yuan was transported to a gathering area somewhere in the outer areas of the Dragon Essence Temple.

"What? You have passed the exam already? What's your name? And let me see your token."

The sect elders in charge of the new disciples were dumbfounded when they saw Yuan appearing from the gates, as the other participants are still in the final examination trying to comprehend their techniques, and even if some of them have already managed to comprehend 10 percent before the seven day period, they would always try to study the technique as much as they can before their time is up.

"Here you go. My name is Yuan."

Yuan showed the sect elders the token that proved that he'd indeed passed the examination.

Once the sect elders confirmed the integrity of the token, they said to Yuan, "Very well. Come with me to gather your uniform and identification token."

Yuan proceeded to follow the sect elder into this building where he was handed three sets of Outer Court disciple uniforms.

"How old are you and what is your cultivation base?" The sect elder then asked him.

"18 years old, seventh level Spirit Apprentice," Yuan responded.

"Seventh level Spirit Apprentice? That's pretty high for your age, and you are already qualified to take the Inner Court disciple examination. However,

you must be a disciple for at least a month before you can take the exam."

After recording Yuan's information into a logbook, the sect elder handed Yuan his identification token and another item before speaking, "This is the Dragon Essence Temple's rule book; it contains everything you can and cannot do as a disciple of the sect. If you break any rules, you'll be sent to the Disciplinary Hall for punishment. If you break enough rules or one major rule, your disciple status will be renounced and you will no longer be a disciple of the sect, and worst-case scenario, you'll have your cultivation crippled before being thrown out with death even a possibility. Therefore, I highly urge you to read and memorize the entire rule book."

"I understand," Yuan nodded.

"Also, there will be a small lecture that will be held later that all newly accepted disciples must attend before they are allowed into the sect, as it will teach you more about the sect and things you are expected to do as a disciple. However, since you have finished the examination much faster than others, you'll have to wait a few days until the disciple examination ends."

The sect elder then pointed to a long building with many doors not too far away from them and said, "You can stay in one of those rooms until then. The lecture will happen in seven days when the examination officially ends. Take this time to read the rule book."

"Okay. Thank you, Senior." Yuan bowed to the sect elder before going into one of the rooms.

Once he was inside the room, Yuan looked at the small place with a speechless look on his face.

There was barely any free space in the room, and besides a small bed that could not really be called a bed because it was completely made of stone, and the toilet, there was nothing else in the room.

"I am supposed to live here for an entire week? This is ridiculous!" Yuan sighed loudly before sitting on the cold, hard 'bed'. Luckily for him, he can

simply log off the game and wait in the real world inside his comfortable room. However, such a thing was impossible for the people of this world, and Yuan pitied them.

"Congratulations on passing the disciple examination and becoming a disciple of the Dragon Essence Temple, Brother Yuan." Xiao Hua's voice suddenly resounded inside Yuan's head.

"Oh, Xiao Hua. Thank you. And it feels like it's been forever since I last heard your voice," Yuan said.

"Xiao Hua is always with Brother Yuan, and she's always watching him," Xiao Hua said.

"Congratulations, Young Master; it seems like you have learned another powerful technique," Feng Yixiao's voice resounded next.

"Thank you, Feng Feng."

Because most of the events had happened inside Yuan's mind, neither Xiao Hua nor Feng Yixiao knew about the Great One or anything that happened inside the special space.

After talking with Xiao Hua and Feng Yixiao for a few minutes, Yuan retrieved the Dragon Essence Temple rule book and began reading through it thoroughly, not daring to miss a single sentence, as he didn't want to accidentally break any rules.

"No fighting between disciples. If you have a problem with another disciple, settle it on the stage after notifying a sect elder. Offenders will be punished with 3 months of solitary confinement in the Disciplinary Cave."

"Murder, rape, and other similar disgraceful behaviors will not be tolerated in this sect. Offenders will have their cultivation crippled and their disciple status renounced."

"Any degree of betrayal towards the sect will be punished with execution by beheading!"

Yuan spent almost the rest of his time playing to read and memorize the rule book that had a little over 100 pages.

Once it was time for dinner, Yuan logged off the game and waited for Yu Rou to return.

"Brother, are you still playing the game?" Yu Rou asked him after entering his room.

"I'm here, Yu Rou, and I would like to apologize for missing dinner and breakfast. I got too caught up with the disciple examination that I forgot about the time," Yuan said in an apologizing tone.

"Don't worry about it, brother. I'll forgive you since you appeared on the announcement again after learning an Ancient-rank skill. Tell me all about it when I come back with your dinner, okay?"

"Okay."

Yu Rou then left the room to prepare for his dinner.

Half an hour later, Yu Rou returned to his room, and Yuan began telling her about everything he's experienced in the examination, including his encounter with the Great One and its Legacy.

Chapter 119 - Outer Court Disciple

"Do you need more food, brother? You did miss last night's dinner and today's breakfast, after all." Yu Rou asked him after feeding him 3 bowls of soup.

"Thank you, and no, I don't," Yuan said.

"Okay, then I'll leave you alone for now."

After Yu Rou left the room, Yuan began cultivating by absorbing the spiritual energy in the room, and he would cultivate until the following morning when Yu Rou returned to his room with breakfast in her hands.

After breakfast, Yuan went back into Cultivation Online to check whether there were more people who'd passed the examination, but alas, there has yet to be another participant who'd passed the disciple examination besides him.

Seeing this, Yuan went back into his small room and reread the rule book one more time before logging off and spending the rest of his time cultivating in the real world.

Yuan would repeat this for the next four days until he could finally see other participants who had passed the examination appear at the gathering area, and he'd also managed to reach the 6th Spirit Apprentice during this time.

However, since there are still 3 days before the lecture, Yuan did not linger around and logged off to cultivate some more in the real world.

After waiting for a grand total of 7 days, once the disciple examination had officially ended and all of the participants who'd passed the exam gathered in the Dragon Essence Temple, Yuan finally emerged from his small room

and blended in with the crowd of new disciples while waiting for the lecture to begin.

There were a little over 300 disciples there, and considering how there were tens of thousands of people that had participated in the disciple examination from the beginning, it showed just how difficult the disciple examination truly was to the rest of the world.

Yuan looked around, and there were a few familiar faces that he recognized from the disciple examination, and one of them was Fairy Min, who'd displayed an impressive performance during the third examination and definitely one of the most prominent figures there.

Meanwhile, Fairy Min was also looking around with her small head turning left and right, seemingly trying to find a certain individual.

However, when she couldn't see this person she was looking for, a puzzled and surprised look appeared on her face.

'Where is that person with the black jade mask? Surely, he didn't fail the disciple examination, right? Not only was he a Spirit Warrior but he also had an unfathomable aura! There's no way someone like that could possibly fail the disciple examination!' Min Li pondered to herself when she could not see a man wearing a black jade mask in the crowd.

However, little did she know that Yuan was standing only a few feet away from her. Though, not only did Yuan change his appearance but he also consumed the Pill of Concealment that disguised his cultivation and aura, so it was only natural that Min Li did not recognize him.

After standing around for a few minutes, one of the sect elders appeared before them and said, "All of you new disciples, follow me to the lecture site!"

"Yes, Senior!"

The disciples then followed the sect elder like a group of ducklings.

Sometime later, they arrived at this large building and entered it. Once inside, they all took a seat and waited for the sect elder.

"First and foremost, allow me to congratulate you all on passing the disciple examination and becoming a disciple of the Dragon Essence Temple! Out of 54 thousand Cultivators that participated in the disciple examination, only 310 of you have managed to become a disciple! This is something you should be proud of!"

"For this lecture, I'll be talking mostly about a few sect rules and a few general things you need to know as a disciple of the Dragon Essence Temple!"

"Let me begin with your status as an Outer Court disciple."

"While you are a disciple of the great Dragon Essence Temple and you should feel proud, just remember that there is always someone better than you and that you are only an Outer Court disciple! If you see a Senior, be it a fellow disciple or a sect elder, be courteous and greet them! If a Senior asks you a question, answer them! In the cultivation world and not just the sect, respecting your Seniors will go a long way!"

"As an Outer Court disciple, do not expect any support from the sect when it comes to resources until you are an Inner Court disciple! If you want resources, work for them! The Dragon Essence Temple has over 100,000 disciples, which means resources are scarce and only those who are worthy will be supported! Although you may have become a disciple, you have not yet contributed to the sect, so do not expect the sect to hand out free food!"

"Now many of you should be wondering how you can obtain resources in the sect. Allow me to introduce you to the Contribution Hall, where you can spend your contribution points for resources and treasures alike. There are three different Contribution Halls, each located within their own court, so the Outer Court will have their own Contribution Hall whilst Inner Court will also have one."

"The difference between each Contribution Halls are the resources you can obtain from them, meaning you will be able to obtain more valuable

treasures in the Inner Court compared to the Outer Court, as this is a privilege for those who'd earned it and an incentive for you to climb higher in the sect and the cultivation world!"

The disciples swallowed nervously after hearing the sect elders' words.

"How does one obtain contribution points, Senior?" One of the disciples raised his hands to ask.

"There are many methods you can use to obtain contribution points. You do missions for the sect, you sell treasures you don't need, and you can even ask for them from your fellow disciples," said the sect elder.

Chapter 120 - Their First Lecture

"What kind of missions do we have to do, Senior? And where do we accept these missions?" Another disciple asked after the sect elder stopped talking.

"You can find and accept all kinds of missions at the Mission Hall. Every mission inside the Mission Hall are requests from the people in the outside world, so you will obtain more than just contribution points from the sect, which is basically a little bonus from the sect," explained the sect elder.

"I should also let you know that as Outer Court disciples, you are obligated to complete at least one mission every three months, so quarterly. Failure to do so will result in punishment that is usually in the form of a fine, so you'll have to pay contribution points."

"There are a variety of missions with their own difficulties, so you can choose to do easy missions that require no skills like cleaning dishes for some restaurant or the more difficult missions that require you to hunt specific magical beasts for their materials. Of course, the harder the mission the more rewarding it will be at the end."

"However, don't chew more than you can bite, as there have been plenty of incidents that resulted in the deaths of disciples because the disciple arrogantly or ignorantly tried to challenge something they have no qualifications to even challenge."

Sometime later, the sect elder continued, "Okay, I think I have covered enough about contribution points. Now let's talk about what the sect of you as Outer Court disciples."

"First and foremost, you are not allowed to leave the sect without permission from the sect unless you are on a mission, and only Inner Court

disciples and above are allowed to leave the sect as they please. If you need to go somewhere, you must go to the Reception Hall and state your reason for leaving the sect. If the sect deems it reasonable, they will allow you to leave."

"If you are outside on a mission, you are not allowed to wander too much. If you leave the sect for too long without any accountability and for an unreasonably long amount of time, the sect will deem you as a deserter or dead and revoke your disciple status. This is mostly to prevent the Outer Court disciples from getting out of hand in the outside world. You guys are no longer mortals but Cultivators— disciples of an elite sect. Therefore, you must learn to separate yourself from the mortal world."

"If you encounter trouble with other Cultivators while you are outside, try to solve it peacefully, especially if the opposite party belongs to another elite sect. While it's very common for disciples from other sects to fight each other and our sect does not forbid fighting against others, you should know that there are people and places you cannot offend. Just keep that in mind because the Dragon Essence Temple is not invincible in this vast cultivation world."

After talking about a few more things regarding their status as Outer Court disciples, the sect elder began talking about a few rules for the sect.

"This can be found in your rule book, but I am still going to mention it because it still happens very often between disciples from all ranks. If you are in a disagreement with another disciple, before you duke it out in the middle of the sect and destroy the sect's property or accidentally hurt other disciples, find a sect elder to settle it for you. If that's not enough, you can challenge the other to an official fight in the arena, where you are free to fight each other to your heart's content. However, you are not allowed to kill your opponent."

"If the two of you truly hate each other to the point where you are not willing to exist in the same world, you can request for a deathmatch, and you will be able to kill your opponents during the deathmatch. However, once you agree to a deathmatch, the sect will no longer protect you no

matter what happens, and you will be at the mercy of your opponent and vice versa. Therefore, don't request for a deathmatch if you fear death."

After talking about a few more major rules that they should not break, the sect elders asked the disciples, "Do any of you have any questions for me before I let you all live your life as disciples?"

"Where do we live, sect elder?" One of the disciples raised her hands and asked.

"Your identification badge will show you the location of your living quarters, and it also acts as a key to the house so don't lose it. Furthermore, all Outer Court disciples are required to have roommates. Though, there will be some exceptions if you come from a renowned family."

The sect elder glanced at Min Li briefly before continuing, "Any more questions?"

"When can we start participating in lectures by the sect elders?" Another disciple asked.

"You can participate in them whenever you want. There will be at least 2 lectures a week from different sect elders at the Education Peak if you wish to listen to the lectures. If you're lucky, you might even get to see one of the higher-ranking sect elders there. Of course, they only appear once a year."

After spending a few more minutes answering the disciples' questions, the sect elder handed out another book to everybody there and said, "This is a guidebook that mentions all of the locations and buildings within the Dragon Essence Temple, and it answers most frequently asked questions. Even if you are looking for something specific, it should all be in there."

"Now that you have completed your first lecture, I shall let you all experience life as a disciple for the Dragon Essence Temple for yourselves."

"Thank you, Senior!"

All of the disciples then stood up and bowed to the sect elder before leaving the building with excitement and enthusiasm.

However, right as Yuan approached the door, the sect elder suddenly grabbed his arm and said, "Please stay here for a little longer, Disciple Yuan."

"O-Okay..." Yuan nodded with a startled look on his face.

Chapter 121 - 1000 Contribution Points

"What's the matter, Senior?" Yuan asked him once the rest of the disciples had left the room.

"Grand Elder Xuan told me to hand you this Identification Token to you," said the sect elder as he handed Yuan another identity token.

"Identification Token? But I already have one," Yuan raised his eyebrows in a puzzled manner.

"Don't ask me, I am just following the Grand Elder's orders." The sect elder shrugged before walking away in a hurried manner, almost like he didn't want to stay there any longer.

'What kind of background does that disciple have that the Grand Elder would do something like this for him?' The sect elder wondered to himself after leaving the building, as this is his first time seeing a Grand Elder being involved with a mere Outer Court disciple, and he made a mental note to not offend a disciple named 'Yuan'.

Once the sect elder was gone, Yuan used his spiritual sense to activate the identification token, and inside his mind appeared the location of his living quarters. However, since he has 2 identification tokens, Yuan looked into both of them just in case there was a difference.

«Dragon Essence Temple Identification Gold Token»

«Disciple Name: Yuan»

«Disciple Status: Outer Disciple»

«Living Quarters: Outer Court, Building #70»

«Mission Completed: 0»

«Contribution Points: 1,000»

«Offenses: 0»

"1,000 contribution points!" Although he didn't know its worth, Yuan was delighted to suddenly have 1,000 contribution points.

While Yuan didn't know this, the 1,000 contribution points was a portion of what Elder Xuan earned after winning the gamble regarding his results during the Tablet of Comprehension.

There were also two different buildings, so Yuan decided to take a look at the living quarter attached to the bronze token, which was building #2,600 within the Outer Sect.

After following the map in the token for about half an hour, Yuan arrived before this ordinary-looking building. Once he used the token to open the door, Yuan entered the house and looked around.

There were many rooms available inside the house— six to be exact, and five of them had their doors closed whilst the room near the end of the hallway was open.

Yuan walked to the end of the hallway to look inside the room, and as he'd expected, the room was completely empty.

"This isn't much better than the guest room I'd stayed 7 days in..." Yuan was baffled when he saw how the bed alone took up half of the entire room.

However, at least this bed has a mattress on it. The quality of the mattress was another matter, though, as it was tough and uncomfortable.

Of course, Yuan was unaware that there was a good reason as to why an elite sect such as the Dragon Essence Temple would have such poor living conditions, as having a comfortable bed or environment would only encourage laziness, hence why the sect is making it difficult for the disciples to relax and be lazy.

"Hopefully the other building is slightly better," Yuan sighed before walking out of the room.

"Hm? Are you a new disciple?"

One of the other 5 closed rooms there suddenly opened, and a young man around Yuan's age walked out of the room at the same time Yuan walked out of his room.

"Yes, I am," Yuan nodded.

"I see. Well, welcome to building #2,600. My surname is Shen, and I became a disciple here not long ago— three months ago." The disciple extended his hand for a handshake.

Yuan accepted the handshake and introduced himself, "My name is Yuan, and I just passed the disciple examination."

"Oh? Did you perhaps manage to see Fairy Min during the examination?" Disciple Shen suddenly changed topics.

"Fairy Min? Oh, yes, I saw her achieving 50 steps during the third examination," Yuan nodded.

"Damn! You lucky bastard managed to witness Fairy Min's glory! I wish I was there! If only I didn't decide to participate in the previous examination!" Disciple Shen exclaimed, dumbfounding Yuan.

"Is she that famous?" Yuan asked him afterward.

"Of course! Don't tell me you've not heard of her family—the Min Family?! They are one of the Seven Legacy Families!" Disciple Shen spoke with an admiring look on his face.

"Legacy Families? What are those?" Yuan raised his eyebrows, as this is his first time hearing such a thing.

"You must have come from a backwater place if you don't even know of the Seven Legacy Families! They are the most influential and powerful families within the Lower Heavens. However, the most special thing about the Legacy Families is their history and background, as they are merely branches of a much larger power in the upper heavens!"

"Why would they do that?" Yuan asked.

"To train their descendants, obviously. If their descendants, which is Fairy Min in this case, fulfill her family's legacy, she will receive immense status and power once she returns to her family in the upper heavens. And for a family to have their own Legacy, the Min Family must be immensely powerful even in the upper heavens."

"Wow, the cultivation world is much more complicated than I thought..." Yuan mumbled in a low voice.

"Anyways, I'm going to see if there are any easy missions I can partake in at the Mission Hall. I'll see you around, fellow disciple." Disciple Shen waved at him before leaving the building.

Meanwhile, Yuan followed the map in his second identification token and went to his second living quarters.

"This is..."

However, before he even reached his building, Yuan was quickly dumbfounded by the luxurious buildings located in this area, feeling as though he'd accidentally entered the wrong neighborhood that was meant for the wealthy and powerful disciples.

"Am I going to live here?" Yuan wondered as he looked for building #70.

Chapter 122 - You Don't Belong Here!

Chapter 122 - You Don't Belong Here!

After walking around for a few minutes and following the building numbers, Yuan finally arrived at building #70, and it was a large building with two floors.

"This is definitely better than the previous house, but this might be a little too much of an improvement..." Yuan stood in front of the building for a minute to admire the aesthetics of these buildings.

"Congratulations on passing the disciple examination, Fairy Min! Of course, we knew you'd pass the examination before you even took it!"

"Forget about passing the examination! Fairy Min had achieved 50 steps in the silver pond! It has been seven years since someone managed such a feat! I'm sure the Min Family will be ecstatic once they hear of this!"

"How would you like to celebrate this occasion? Should we have a feast at the Dragon Pavilion later?"

"That sounds like a great idea! What do you think, Fairy Min? The food's on us!"

When Yuan overheard this conversation, he turned around and noticed a large group of disciples walking with a beautiful young lady— Fairy Min. However, these disciples were not wearing the Outer Court's uniform.

The Outer Court disciples are given plain white clothes as their uniforms, whilst the Inner Court disciples get to wear colorful blue and green uniforms, and that was what the majority of the disciples following Fairy Min were wearing.

"Hm?"

Fairy Min suddenly stopped walking when she noticed Yuan standing not far away, and the other disciples also stopped to look at Yuan.

"Who's that guy? I don't recognize his face." One of the disciples there said.

"I don't either."

"Then what's he doing in this area?"

"Looking at his uniform, he's only an Outer Court disciple. Besides Fairy Min who's from one of the Seven Legacy Families and the top-ranking disciples, how many Outer Court disciples get to live here? He must have gotten lost or something."

While the disciples mumbled to each other trying to figure out Yuan's ability, Fairy Min narrowed her eyes and stared at Yuan with a pondering expression.

'Why does it feel like I have seen him somewhere before?' Fairy Min thought to herself.

She was confident that she has never seen Yuan before, yet she couldn't shake off this feeling that she has seen him somewhere before, and it was very recently, too.

However, her thoughts were quickly interrupted by the disciples around her.

"Hey! You there! What do you think you are doing in this place?! This is not a place where ordinary Outer Court disciples can just wander around! Get out of here!"

Hearing the disciple's question, Yuan responded in a calm voice, "But I live here."

"What? You live here?"

The disciples exchanged glances with each other before one of them asked, "Are you a new disciple? Which family do you belong in?"

"Yes, I just passed the disciple examination, and I don't belong to any family," Yuan said.

"How can a nobody— a new disciple, no less, be assigned a house in this area meant for the privileged? Did the sect elders make a mistake somewhere and accidentally gave him the wrong house?" One of the disciples spoke his thoughts out loud.

"That must be a case! Although it's uncommon, mistakes like this are bound to happen every so often."

The other disciples quickly agreed with the disciple who just spoke.

"You heard us! There must have been a mistake that allowed you to get a house in this place! Return to the sect elder who handed you your identification token and tell him about the mistake! If you want to live in this area, you must either be ranked top 10 in the disciple ranking for the Outer Court disciples' ranking or come from a prominent family like Fairy Min here! Hurry up and get out of here! You're ruining our moods!"

"..." Yuan was speechless. These disciples were essentially telling him to tell Grand Elder Xuan that he'd made a mistake!

After a moment of silence, Yuan said to the disciples, "I don't think there were any mistakes. Now if you'll excuse me, I would like to settle down in my new home."

Yuan turned around and began walking towards his house.

The disciples were dumbfounded by Yuan's daring response.

Meanwhile, the disciple who just told Yuan to

"The audacity! Do you know who you are talking to? I am an Inner Court disciple! Since you are a new disciple, I won't blame you too much! However, for you to claim that you live here despite what we told you whilst being a nobody— that's spitting in the faces of everyone that lives here, which includes Fairy Min! Therefore, I am going to need you to get

on your knees and apologize to her!" The Inner Court disciple stepped forward and pointed at Yuan with an overbearing aura.

"..."

Yuan was speechless. It hasn't even been half a day since he got to live life as a disciple and he's already in an awkward situation with other disciples.

"Do you hear me?! Get on your knees and apologize to Fairy Min!" The Inner Court disciple repeated, seemingly adamant about making Yuan apologize.

However, despite his humble nature, Yuan was not the type to apologize for something he didn't do, especially if the other party was being unreasonable!

"Why should I apologize? If there has truly been a mistake with my lodging, I will leave. However, you did not hand me my identification token so you don't know that, yet you are telling me to apologize. Don't be unreasonable," Yuan said to the disciples with a slight frown on his face.

And he continued, "If you want to continue arguing that I don't belong here, you can bring a sect elder here and we can settle it that way. Until then, I am going to stay here. Goodbye."

Yuan turned around and opened the door with the identification token before walking inside.

"Get back here, you little bastard!"

Yuan heard an angry shout as he entered the building, but he ignored it and closed the door, leaving the people outside completely speechless, as this is the first time they have encountered an Outer Court disciple like Yuan.

Chapter 123 - Returning With A Sect Elder

"That damn disrespectful little brat! He's only a mere Outer Court disciple who'd just passed the disciple examination! How dare he disrespect and defy so many Inner Court disciples?! Who the fuck does he think he is?!"

The Inner Court disciple that Yuan ignored stomped the floor angrily, feeling his blood boiling from anger, as this is his first time being treated in such a fashion ever since he became an Inner Court disciple, and to make things even worse, it'd happened right in front of Fairy Min—the woman he admired!

"Right? I have never seen a disciple that disobedient towards his Seniors! There must be something wrong with that disciple's head! He was probably dropped on the head when he was young!"

"Since he wants to play, I'll play with him! He thinks everything will be okay if a sect elder is involved! I'll show him just how mistaken he is! A mere Outer Court disciple dares to defy me? Courting death!" The Inner Court disciple sneered.

"Anyway, I will apologize for that disciple's crime! Please don't mind him — I'll have him kicked out of this place as soon as possible! After all, only privileged geniuses such as yourself are worthy of living here!" The Inner Court disciple said to her with a smile on his face.

"You can do whatever you want," Fairy Min spoke for the first time, yet her voice was without emotions, almost like she was not interested in the situation or the disciples following her.

"Anyway, what do you think about our offer, Fairy Min? Do you want to celebrate with us at the Dragon Pavilion later today?" The other disciples continued to ask her.

"No thank you, I am busy with other things," Fairy Min said to them before she began walking again.

A few moments later, Fairy Min stopped in front of a certain building and began walking towards the door.

When the disciples following her saw the building she was approaching, their faces dropped and their complexions paled.

"What! That's ridiculous! Fairy Min's living quarters is actually right beside that little bastard?!" One of the disciples exclaimed out loud.

Indeed, Fairy Min was assigned to building #69, making Yuan her neighbor.

"Hmph! He won't be living there for long!"

"That's right! It'll be a miracle if he's still living in that building after today!"

"I would love to break that door down and drag that little fucker out here and give him a good beating, but this is a special place that even we, Inner Court disciples, cannot intrude!"

"Enough talking! I am going to get a sect elder to force that bastard out here and kowtow to us! I am going to let him know the disparity between an Outer Court disciple and an Inner Court disciple today!"

"Hahaha! I'll stay here to make sure he doesn't go anywhere or try to run away! It's too late even if he's realized his mistakes! After today, he won't ever dare to disrespect another Inner Court disciple again!"

The Inner Court disciple nodded before leaving the scene to look for a sect elder whilst the other disciples lingered around the area, patiently waiting for him to return in anticipation for some good drama.

Meanwhile, inside her house, after closing the door, Fairy Min sighed out loud, "What a bunch of annoying and shameless individuals. I don't even know them, yet they're treating me as though we're best friends because of my background."

The Inner Court disciples and other disciples that had been following Fairy Min were complete strangers that decided to follow her on their own will, but such a scene was not uncommon for her. As the young lady of the Min Family, there are always people looking for an opportunity to form a connection with her because of her powerful family, and it has been that way since she was young. However, she quickly learned that ignoring them and treating them as though they are invisible was the best solution, hence why she didn't tell them to go away.

"Though, I do feel sorry for that Outer Court disciple. He has offended so many Inner Court disciples on his first day as a new disciple in this sect, and I share some blame for his situation, as I was the one who brought them with me even if it wasn't intentional."

Fairy Min sighed. However, it was too late to save the Outer Court disciple after everything that had happened, as the hole he'd dug himself was simply too deep.

Even if a sect elder solves the problem with the lodging, the Inner Court disciples will surely continue to make that Outer Court disciple's life a living hell for offending them.

Furthermore, as a member of a Legacy Family, she cannot meddle with others' affairs too much as it could reflect on her family as a whole, something she cannot afford to happen even if she has to turn a blind eye to some unfortunate young man.

Sometime later, the Inner Court disciple returned to Yuan's living quarters with a sect elder by his side.

"Heavens! That Qiao Kang actually brought back Elder Yao who is known for being especially harsh on Outer Court disciples while being the

complete opposite for Inner Court disciples! That Outer Court disciple is truly unlucky to have to deal with some like Elder Yao!"

"Hahaha! Forget about staying in that building, that Outer Court disciple probably won't be able to stay in the sect after this!"

"Greetings, Elder Yao!"

The disciples there greeted him when he got close.

"Where is the Outer Court disciple that dares to disrespect Inner Court disciples and act almighty before the Young Lady of the Min Family?!" Elder Yao spoke loudly.

A few moments later, the Inner Court disciple known as Qiao Kang stopped in front of building #70 and said to Elder Yao while pointing at the building — "This is the place, Elder Yao! He's inside!"

Elder Yao nodded with an angry frown on his face, "Good! I will make this insolent brat regret being born today! Step back!"

OceanofPDF.com

Chapter 124 - Lowering Their Heads

The disciples there immediately moved to make a path for Elder Yao, who approached Yuan's living quarters with heavy steps.

"I have never seen Elder Yao so angry before! That Outer Court disciple is dead! He's definitely going to regret acting all tough after meeting Elder Yao!"

The disciples there watched with anticipation as Elder Yao stepped on the doorsteps in front of Yuan's building.

BANG! BANG! BANG!

Elder Yao knocked on the door with force before shouting in a vicious voice, "This is Elder Yao from the 3rd Disciplinary Squad! Get your ass out here right this instance and identify yourself, Outer Court disciple!"

The disciples standing not far away felt their hearts tremble after hearing Elder Yao's loud voice, and even though they were not the ones in trouble, it still struck fear into their minds.

BANG! BANG! BANG!

"Get out here right this instance! Or do I have to force myself inside instead, Outer Court disciple?!" Elder Yao knocked on the door again when nobody answered the door after 5 short seconds.

After a few more seconds, the door finally opened, and Yuan appeared before them once again with a calm expression on his face.

"So you're the Outer Court disciple who claimed that you belong in this area? If that's the case, how come I don't recognize your face at all, huh?" Elder Yan narrowed his eyes at Yuan's face.

"Isn't it normal that you won't recognize everyone in the world?" Yuan asked with his eyebrows raised.

Elder Yao looked at him with a face of disbelief. "You actually dare talk back to me, a sect elder? Looks like Disciple Qiao was telling the truth when he called you a disrespectful little brat! Kneel before me right now and apologize!"

Yuan was speechless. He frowned a moment later and said, "Aren't you here to see whether assigning this house to me is a mistake or not? Yet you started yelling at me the moment you arrived, acting like I am in the wrong. I respect my Seniors, but I also know an unreasonable person when I see one!"

"Y-You little brat! You really think you deserve to live here, huh?! You are just a nobody! A mere Outer Court disciple who'd just passed the disciple examination!"

Elder Yao roared at Yuan, and he continued, "And you dare to claim that you are worthy enough to live beside someone like the Young Lady of the Min Family?! Do you have no shame?! Even I wouldn't dare to live beside the Min Family if you paid me!"

"If it wasn't a mistake that you got assigned this building, I will freaking eat my shoes before every single Outer Court disciple in this sect!"

Hearing Elder Yao's words, Yuan became speechless. Is this sect elder really going to eat his own shoes? He cannot imagine it.

"Since you don't want to leave this place, I have no choice but to force you out with my authority as a sect elder of the Disciplinary Hall!"

And before Yuan could even respond, Elder Yao suddenly moved to grab him by the collar before throwing him into the air and forcing him out of

the house.

"Whoa!"

Yuan landed a few meters away with a startled look on his face.

"Now hand me your identification token! Or do I have to take it with force as well?!" Elder Yao approached him with an overbearing and oppressing aura.

However, since Elder Yao was only a fourth level Spirit Warrior Cultivator, Yuan didn't feel any pressure from him.

'Should I just use the Absolute Authority the Sect Master gave me to deal with this situation?' Yuan pondered as Elder Yao got closer to him. After all, even a naive little boy would be able to tell by now that Elder Yao was not the reasonable type and that no matter what Yuan says to him at this point, he would only be wasting his breath.

'I wanted to settle this as peacefully as possible, but alas...'

Yuan sighed inwardly as he reached into his Spatial Ring for the Absolute Authority. However, before Yuan could even take it out, a loud sigh suddenly resounded and echoed in the area.

"I knew you would run into some trouble when I decided to give you one of the buildings in this place, but I didn't think it'd come so soon and in such a manner, too." A calm voice followed after the sigh ended.

"T-This voice is..." Elder Yao immediately stopped walking after hearing this profound voice, and his body trembled in shock.

However, the other disciples did not recognize the identity behind this mysterious voice and were completely puzzled.

Meanwhile, inside one of the rooms in building #69, Fairy Min, who had been watching the situation from the beginning by peeking through the closed curtains from the windows, mumbled in a surprised voice, "This voice belongs to Grand Elder Xuan! Why did he show up here? And

judging by his words, it seems like he was the one who allowed that Outer Court disciple to live here! Just who is that young man?!"

"Elder Yao, I am greatly disappointed by your performance today. As a sect elder of the Disciplinary Hall, I had expected you to handle this situation professionally and properly, yet you were blinded by anger and acted unfitting of your status, even treating my granddaughter's friend in such an aggressive manner... I don't know what I should do with you." Elder Xuan's voice continued to speak, lecturing Elder Yao who was sweating profusely at this moment.

Elder Yao quickly kneeled on the ground and lowered his head before speaking in a pleading voice, "This disciple was wrong and has done something inexcusable! Please punish this disciple as you see fit, Grand Elder!"

"GRAND ELDER?!" The disciples watching the scene were greatly shocked after hearing Elder Yao's voice, and they finally realized the identity behind the voice.

After realizing this fact, they also kneeled on the ground with their heads lowered and their backs soaked in cold sweats, wondering to themselves why the hell would a Grand Elder suddenly become involved with their situation!

Chapter 125 - Two Choices

Seeing Elder Yao and the disciples lowering their heads, Elder Xuan spoke without revealing his presence, "If you think lowering your heads will solve everything, the world would not be this chaotic and dangerous."

"Please forgive us, Grand Elder! We were wrong! We didn't know this Outer Court disciple was assigned to this place by you!" Qiao Kang suddenly said.

"Did I ask for your input, disciple?" Elder Xuan responded in a nonchalant voice, immediately shutting the Qiao Kang up.

Elder Xuan continued a moment later, "Every disciple here will be punished with 1 month of confinement within the Caves of Repentance."

"As for you, Elder Yao... Since you belong to the Disciplinary Hall, I shall let your leader decide your punishment. And before you leave, I want you to remember what comes out of my mouth next— What happened here today did not happen at all, do you understand me? I was never here, and you have never met the Outer Court disciple. This applies to the disciples, too."

"If I hear even a single disciple that is not here right now speaking about what happened here today, you can expect another visit from me, and I will be there in person at that time."

"We understand, Grand Elder! We will forget about what happened today!"

Elder Yao and the disciples responded in a fearful voice.

"Good. Now get out of my sight!" Elder Xuan's voice boomed within the disciples' and Elder Yao's head, nearly knocking them unconscious with his

powerful voice.

The next second, once they could stand again, the disciples and Elder Yao ran away like a bunch of scared rabbits before a tiger.

Once they were all gone, Elder Xuan spoke again, "Are you okay, Disciple Yuan? I apologize for that just now. While it's common for disciples to argue with each other, it's inexcusable for a sect elder to bully a disciple."

"Don't worry about it, Senior Xuan. It's only natural that there'd be a couple of bad apples no matter where you are," Yuan said with a calm smile on his face.

"You have handled this situation much better than I would've if I was still a disciple, and I thank you for that. Most people quickly result to violence when they come to a disagreement, and that is a trait many Cultivators have because we are vicious and brutal in nature. Anyway, I must return to my own business now. If you ever encounter another similar situation, it's okay to scare them a little with your powers as long as you don't kill them. This is just how the cultivation world works, as intimidation works better than actual violence in most cases."

"However, if a sect elder is involved like today, it's best if you immediately contact one of us to help you. Although we won't show ourselves, we'll definitely keep you safe."

"Intimidation over violence... I will keep that in mind, Senior Xuan! Thank you very much for helping me today!" Yuan bowed towards the sky, feeling as though he'd learned something important today.

"Don't even mention it.... Hahaha..." Elder Xuan's voice sounded as though it was getting further away, dumbfounding Yuan.

Once Yuan could no longer hear Elder Xuan's laughing voice, Yuan returned to his room and sat on the large, comfortable bed before taking out the guide book and reading through it as he was doing before being interrupted by Elder Yao and the others.

Meanwhile, inside Fairy Min's room, the beautiful young lady remained standing by the window with a dazed look on her face.

"Disciple Yuan? I don't recognize this name at all. Just who is he? Which family did he come from? And what kind of connection does he have with the Grand Elder? Although the Grand Elder said that the Outer Court disciple was his granddaughter's friend, their conversation sounded like they were pretty close friends themselves!" Min Li mumbled to herself in a dumbfounded voice, feeling her interest slightly piqued by him.

Sometime later, at the Disciplinary Hall, Elder Yao entered Bai Ling's room after being summoned by him.

"Greetings, Leader Bai!" Elder Yao bowed to him with respect and his back soaked in sweat.

"Do you know why I called you here?" Bai Ling ignored his greetings and asked him with a calm voice.

"Yes, I do!" Elder Yao responded after a brief moment of silence.

"Good, then this will make things much easier for the both of us." Bai Ling then stood up from his chair and walked to the window before staring outside with a seemingly dazed look on his face.

"Do you have any idea what you've done today, Elder Yao?" Bai Ling asked him a moment later.

"No, I do not, Leader Bai!" Elder Yao quickly responded.

"At least you're honest," Bai Ling nodded, and he continued, "That Outer Court disciple... you may not know him now, but I can guarantee you that you will know him in the near future—and I am willing to bet my position as Leader of the Disciplinary Hall that you will regret what you've done today."

Elder Yao looked at him with a surprised look, and he said, "Please enlighten this ignorant one, Leader Bai! Just who is that Outer Court

disciple and why did Grand Elder Xuan protect him?"

"..."

However, Bai Ling did not respond to his question and continued to speak as though he never heard it, "I will give you two choices, Elder Yao. For your offenses today, I can either let the Sect Master know about this incident so he can punish you himself, or you can give a lecture to the disciples at the Education Peak and eat your shoes before every disciple there afterward. It's your decision."

"W-What did you just say?!" Elder Yao cried out loud with pure disbelief on his face

Why on earth would Bai Ling involve the Sect Master over a mere Outer Court disciple?! It was not as though he'd killed this disciple! This is ridiculous! How can they treat a sect elder like him because of a single Outer Court disciple?! None of this made any sense!

Chapter 126 - A Massive Crowd At The Education Peak

"Did I stutter, Elder Yao? Perhaps I did, so allow me to rephrase myself," Bai Ling then spoke slower but in a much louder and clearer voice, "Either I let the Sect Master know about your mistakes today, or you eat your own shoes before the disciples at the Education Peak at the end of your lecture."

"I won't do something as unreasonable as kicking you out of the sect or anything like that so consider yourself lucky that you're getting off so lightly."

'Mother fucker! You dare call this a light punishment?! Telling me to eat my shoes in front of the disciples is worse than being kicked out of the sect! At least I would still have my dignity left for the latter punishment!' Elder Yao cursed at Bai Ling inwardly, as he didn't dare to utter such words for real.

"I know what you're thinking, Elder Yao. After all, you have worked with me for over 10 years now. However, you have no idea how much trouble you are actually in, and I don't blame you for that. That's why I am letting you know right now that you should eat your own shoes before I let the Sect Master know, as he might really kick you out of the sect if he finds out what had transpired today." Bai Ling said to Elder Yao while knowing very well that Long Yijun will definitely hear about this incident sooner or later.

"Is this situation really that serious? I would understand it if that Outer Court disciple belonged to one of the Seven Legacy Families but he's clearly not!" Elder Yao spoke a moment later with a relentless expression on his face.

"Don't even bother asking me about that Outer Court disciple's identity because I won't say anything unless you don't mind dying afterward." Bai Ling looked at Elder Yao with his eyes narrowed and emitting faint killing intent.

Elder Yao swallowed nervously after seeing this, and after a moment of silence, he sighed, "Very well... I shall eat my own shoes in front of the disciples..."

"Good choice. You may leave now." Bai Ling said to him.

Elder Yao nodded and left the room, but he didn't forget to bow to Bai Ling before leaving as that was how much he'd respected the leader of the Disciplinary Hall.

'Not just Grand Elder Xuan but even Leader Bai and possibly the Sect Master is protecting that Outer Court disciple! What on earth is that brat's identity? If he doesn't belong to the Seven Legacy Families then he could only come from the Four Ancient Families!' Elder Yao pondered to himself as he returned home to prepare for the lecture.

Later the same day, Elder Yao walked to the Education Peak with a solemn expression on his face.

'Damn! I shouldn't have run my mouth at that time! No! That fucking brat Qiao Kang is the root of this! If he didn't come to me, I would've never met that damn Outer Court disciple and offended the Grand Elder and Leader Bai! I'll fucking kill him once he comes out of confinement!' Elder Yao cursed inwardly as he approached the Education Peak, where thousands of disciples could be seen walking about.

The Education Peak is where disciples gather to partake in lectures from sect elders. However, not only sect elders gave lectures there, as disciples are also able to give their own lectures if they were approved by the sect, so there would always be lectures for disciples to participate.

Of course, the Education Peak is the most populated when a sect elder decides to give a lecture, as they are often the most knowledgeable and

experienced in the sect, hence why when Elder Yao suddenly showed up at the Education Peak, the disciples there immediately began following him.

"Isn't that Elder Yao? It's been a while since I have been to one of his lectures!"

"Me, too! The last time he'd given a lecture was nearly 3 years ago! I heard that over a dozen Outer Court disciples who'd listened to his lecture managed to become an Inner Court disciple within the same year!"

"Really? Then I must listen to his lecture today even if the heavens fall!"

"We still don't know whether Elder Yao is really giving a lecture today or he's just visiting since there was no prior notice! Most sect elders announce their lectures a least a week beforehand!"

"He's not telling us that he's not giving a lecture even though there are so many of us clearly following him. Surely, he intends on giving a lecture today!"

"I hope you're right! I have been dying to attend a lecture given by Elder Yao!"

The hype between the disciples grew as they followed Elder Yao to one of the many empty areas designed for public lectures.

Sometime later, Elder Yao settled down in one of these areas and stood at the spot meant for the lecturers.

"See! He's really giving a lecture today! Looks like we lucked out today by coming here and witnessing it by chance!"

"Hahaha! You are so damn right!"

"Hey, is it just me or does Elder Yao seem a bit off today? He looks kind of sick." One of the disciples there noticed Elder Yao's pale complexion and mumbled to the disciples around him.

"You're right. He looks like he hasn't slept or eaten in a week or something."

Meanwhile, Elder Yao scanned the massive crowd that had gathered for his 'lecture' with his back soaked in cold sweats.

'Fuck... why are there so many disciples at the Education Peak today when there are no sect elders giving lectures? If I don't become a laughing stock after today, I'll eat my damn shoes again!' Elder Yao cursed inwardly, feeling the urge to cry out loud.

There were at least 3 thousand disciples gathered there, and every single one of them was staring at Elder Yao with anticipation in their gazes, looking like a bunch of children before their idol, but alas, little did they expect that they were merely participating in a clown show disguised as a lecture!

Chapter 127 - Eating His Own Shoes

"Ahem!" Elder Yao suddenly cleared his throat loudly, trying to relieve some of his anxiety, but alas, it barely helped him keep calm.

"W-Welcome, disciples. F-For today's lecture... I will be... giving a lecture... on..." Elder Yao spoke in a trembling voice, feeling as though he was a child with stage fright while standing on the stage for the first time, and he could barely complete a full sentence without stuttering.

When the disciples saw this, they silently looked at each other with their eyebrows raised and their gazes full of questions. Why was Elder Yao acting so weird? It seemed like he was on the verge of a breakdown from the disciples' view.

"Are you okay, Elder Yao? You don't look so good." One of the Inner Court disciples there decided to ask him.

"I am fine... Just feeling a little under the weather..." Elder Yao responded a moment later.

'Feeling under the weather?' The disciples became even more puzzled after hearing such words.

Why would a sect elder willingly give a lecture when he's sick? Furthermore, can Cultivators even feel 'under the weather'? Clearly, it was something else that was bothering him, but these disciples didn't dare to probe any further and accepted his lie as the truth, as they didn't dare to offend Elder Yao who was known for being a ruthless sect elder.

The disciples then patiently waited for Elder Yao to get himself together before continuing with the lecture.

A few minutes later, once Elder Yao calmed down enough, he began giving the lecture, and it was about random things that made no sense for a lecture, but the nervousness and uncertainty in his voice did not go away and remained for the rest of the lecture. In fact, his voice only became weirder and harder to listen as the lecture went on.

The disciples participating in the lecture were greatly baffled by the bizarre situation with some of them even thinking that they were being pranked by Elder Yao. After all, no sane sect elder would call this mess a 'lecture', as it was more of a babbling session with the topic constantly changing abruptly.

However, none of the disciples spoke up nor complained regardless of the unusual situation, nor did any of them decide to suddenly leave the lecture abruptly, as they were still afraid of offending Elder Yao.

The 'lecture' by Elder Yao lasted for an entire hour, but for the disciples, it felt like they were being punished for an eternity.

'Fuck! Why am I wasting my time here?! I could've been listening to Fairy Ling's lecture by now!'

'What the heck is Elder Yao doing? Has he lost his mind? I want my precious time back!'

"Damn it! I want to leave now but what if I offend him? I have heard about his reputation and I don't want to be the first one to leave!"

The disciples there cursed inwardly, and most of them silently hoped for another disciple to leave first so they can follow! But alas, because all of them were thinking the same thing and waited for someone else to act, none of them left and stayed for the entire lecture!

"This is the end of my lecture..." Elder Yao said to the disciples at the end of the lecture.

However, he wasn't completely finished there, as he still had one more thing to do.

And just as the disciples there sighed in relief inwardly that the lecture was finally finished and prepared to leave, Elder Yao suddenly removed his shoes and began doing the unthinkable— putting it in his mouth and chewing it as though it was food!

"What the fuck?" One of the disciples there couldn't hold back his voice and spoke in a surprised voice after witnessing Elder Yao eating his own shoes.

In fact, every disciple there was staring at Elder Yao with a gawking expression at this moment, looking like they were witnessing the impossible.

And because Elder Yao was a Cultivator at the Spirit Warrior realm, he was able to bite through the shoe with his raw strength and chew on it.

After chewing on his own shoes for a few seconds with a disgusted expression that he could not hide on his face, Elder Yao swallowed it.

"Urg!"

Elder Yao almost puked after feeling the shoe enter his stomach, but alas, he resisted his urges and continued eating the rest of the shoe.

The disciples that were prepared to leave the place as quickly as possible no longer moved, and they all stood there with dazed faces as they watched Elder Yao eat his shoe with a suffering expression on his face.

A few gruesome minutes later, Elder Yao finished eating his shoe. However, he did not stop there and proceeded to remove his second shoe and began eating that too.

Sometime later, Elder Yao finished eating his other shoe.

Once he swallowed the last bit of his shoe, Elder Yao glared at the disciples there before walking away in silence and quickly disappearing from the

scene while barefooted, leaving the disciples in wonder as he'd left without giving any explanation.

When Elder Yao's figure left the Education Peak, all of the disciples there finally spoke again, immediately creating an uproar within the sect, and as one would've expected from such a bizarre situation, news of Elder Yao eating his own shoes after an embarrassing 'lecture' spread throughout the entire sect like wildfire, shocking every disciple and sect elder that heard it.

Meanwhile, at the Disciplinary Hall, Elder Yao stood before Bai Ling once again, but he was barefooted this time since he came straight to this place after leaving the Education Peak.

"I hope you've learned your lesson today, Elder Yao. Just because they are Outer Court disciples doesn't mean you can walk all over them like they're ants, as you'll one day step on the wrong ant and face its wrath like today," Bai Ling said to him with a nonchalant expression on his face.

"Thank you for this lesson, Leader Bai..." Elder Yao bowed to him before leaving the room with a blank look on his face, looking like he had died inside.

Chapter 128 - What Does New Disciples Normally Do?

At the Sect Master's Pagoda, Long Yijun listened to Elder Xuan briefing him about the situation with a serious expression on his face.

"Elder Yao and Disciple Yuan... what a pain in the ass..." Long Yijun rubbed his eyes with an exhausted look afterward.

"Are you going to do anything about this, Sect Master?" Elder Xuan asked him.

After a moment of silence, Long Yijun shook his head and said, "As much as I want to beat Elder Yao for what he did to Disciple Yuan, Elder Bai has already dealt with the situation and punished Elder Yao for his behavior. I appointed Elder Bai the leader of the Disciplinary Hall for a reason, and I don't like beating a dead horse so I am not going to step in this time."

"I understand," Elder Xuan nodded.

Meanwhile, back at building #70, Yuan closed the guidebook after reading through the entire thing.

"Wow, there are so many exciting places in the Dragon Essence Temple! I will definitely visit all of them when I get the chance, especially this Dragon Pavilion restaurant that's meant for Cultivators! I wonder how it differs from the restaurants outside?" Yuan mumbled to himself.

"Hmm, it's still too early for dinner, so I'll look around for now." Yuan then got off the bed and made his way outside.

"What should I do now that I am a disciple? What do disciples normally do?" Yuan pondered to himself as he went outside.

"Disciple Yuan! Please wait for a second!"

Yuan stopped walking when a clear voice resounded from behind him, causing him to turn around to see who'd just spoken.

"You are..."

To his surprise, Fairy Min was outside of her house and appeared to be the one who'd just called for him.

"How did you know my name?" Yuan asked her with raised eyebrows, as he doesn't recall ever introducing himself to her or any of the disciples from the disciple examination.

"I accidentally overheard your conversation with Grand Elder Xuan and learned of your name. Don't worry, I won't tell anyone about your relationship with the Grand Elder or what happened today." Fairy Min spoke as she approached him.

"I see... thank you?" Yuan responded with a puzzled look on his face, as he wasn't sure what she was up to.

'Is she going to try and kick me out, too?' Yuan wondered to himself.

Once Fairy Min was standing a few steps away from him, she spoke, "I haven't introduced myself. I am Min Li from one of the Seven Legacy Family. And I would like to apologize for what happened today. Even though I didn't know them, I should've stepped in and told them to stop."

"Huh? You didn't know them?" Yuan looked at her with wide eyes. Then why were they following her around like they were a group of close friends? Hell, they even spoke to her as though they have known each other for years!

"I know this may sound like I am bragging but when you're coming from a family as prestigious as one of the Seven Legacy Families, there are always

people like those disciples from before following me around hoping they'd benefit from me or my family, and it's better for me to act like they are not there most of the time, hence why I didn't tell them to go away," Min Li explained to him after seeing his puzzled face.

"Of course, I am sure you understand my feelings since you also appear to be from a powerful family."

"Uhh..." Yuan scratched his head with an awkward atmosphere around him, and he said, "I'm not from any powerful nor prestigious family, though."

"Huh? You're not?" Min Li looked at him with her eyes widened slightly from surprise.

If he doesn't come from a powerful or influential family, why did Grand Elder Xuan protect him from Elder Yao and the Inner Court disciples, much less give him a building in this area meant for the privileged. Surely, there must be something special about him!

'So you want to hide your real identity, huh? I will find out the truth sooner or later!' Min Li thought to herself whilst trying her best to remain calm on the outside.

"By the way, where are you going now?" Min Li suddenly asked him.

"I honestly don't know myself. I'll probably just walk around until I see something interesting," Yuan shrugged.

"Walk around until you see something interesting?" Min Li raised her neat and slender eyebrows in a puzzled manner. Why does it sound like he's going to take a stroll around the sect like he's at the park? Does he have that much free time on his hands? Even though he'd just become a disciple? After all, most people would be either cultivating or doing something more productive as a new disciple.

"Do you have any suggestions? What do disciples normally do when they just joined a sect?" Yuan suddenly asked her.

"Uhh... They either go to the Profound Pavilion to learn new techniques or they go to the Education Peak for lectures. However, seeing that you are at the seventh level Spirit Apprentice already, you should go to the Profound Pavilion." Min Li gave her suggestions to him.

"Profound Pavilion, huh?" Yuan immediately began pondering.

'I already have three sword techniques, but I only have one dagger technique, and it's not really even a dagger technique as it's meant for cooking instead. Maybe I should see if the Profound Pavilion will have a good dagger technique that'll go well with the Starry Abyss...'

After pondering for a minute, Yuan has decided to go to the Profound Pavilion to search for a new dagger technique.

"Thank you, Disciple Min, for your guidance," Yuan said to her with a bright smile, and he continued, "And you don't worry about what happened previously since I can tell that you're not a bad person."

"..."

Min Li looked at his handsome smile with a slightly dazed look on her pretty face, and when she noticed that Yuan was walking away, she unconsciously shouted, "Wait! I'll come with you, too!"

Chapter 129 - Profound Pavilion

"You want to come with me? Why?" Yuan stopped to look at her with a puzzled face.

"Why... you ask?" Min Li stood there with a somewhat dazed face, as she'd spoken without thinking just now.

However, this is also the first time someone has questioned her like this. If it were anybody else, they wouldn't even think about asking her why she wanted to follow them and would just accept it with a delighted smile on their face.

"I had also planned on heading to the Profound Pavilion to see if they have any techniques I can learn. Since you're going there now, I might as well tag along with you. Or do you not want me around you? Am I being a bother? If you're worried that I might attract unwanted attention, I can follow you from a distance," Min Li said to him a moment later.

"Well... It's not that you're being a bother... Whatever, you can do whatever you want," Yuan quickly gave up on giving an explanation and allowed her to follow him.

"Thank you, Disciple Yuan." Min Li showed him a beautifully bright smile.

Yuan didn't react much despite her charming appearance and nodded his head with a calm expression before turning around and walking again.

Min Li was speechless once again, and she stared at Yuan's back that was getting further away with a dazed look.

'He seems uninterested in me... This is a first.' Min Li thought to herself before she took her first step and began walking once Yuan was a dozen

meters away from her.

"Look over there! Isn't that Fairy Min from one of the Seven Legacy Families?!"

"You're right! And she looks absolutely stunning! I wonder where she's going?"

The disciples outside quickly took notice of Min Li's presence and conversations about her and her family immediately began between the disciples.

Hell, there were even a few disciples who began following her like the group of Inner Court disciples from before.

"Congratulations on passing the disciple examination and becoming a disciple, Fairy Min!"

"Fairy Min, do you have some time now? If you do, why don't we have a celebration?"

'She's really popular...' Yuan thought to himself as he could hear the disciples trying to talk to Min Li very clearly.

However, a few moments later, Min Li suddenly stopped walking and turned around to look at the group of disciples following behind her, and she spoke with a calm but cold expression on her face, "I am busy right now, can you all leave me alone?"

The disciples following her immediately stopped walking and looked at her with a dumbfounded expression before showing an embarrassed or awkward look on their faces.

"Thank you." Min Li did not even wait for their response and continued walking, subtly following Yuan from behind while keeping a safe distance so that people would only assume that they were coincidentally walking the same direction.

Meanwhile, Yuan followed the map inside his head that he'd memorized from the guidebook and slowly approached the Profound Pavilion.

Sometime later, Yuan arrived before a tall building that resembled the Myriad of Techniques in Spring City, but it was much more luxurious and grand compared to the ordinary-looking Myriad of Techniques.

After taking a moment to admire the building, Yuan walked inside.

Min Li followed him inside a moment later.

Once Yuan was inside the Profound Pavilion, he was immediately puzzled by the layout of the place. Unlike the Myriad of Pavilion, there were no techniques on display, and besides the reception and a staircase at the end of the building, there was nothing else there.

"You must be a new disciple."

One of the sect elders behind the desk suddenly called out to Yuan after seeing his face that looked like he was lost.

"Yes, I am." Yuan nodded before he approached the desk with a middle-aged man sitting behind it.

"What kind of techniques are you looking for, new disciple? Cultivation techniques? Martial techniques? Movement techniques?" The sect elder asked him a moment later.

"I'd like a technique that's specifically designed for daggers," Yuan said.

"So you're a dagger user, huh? What's your budget?" The sect elder then asked him.

"Budget? I have to pay for techniques here?" Yuan looked at the sect elder with a surprised look on his face as the guidebook never mentioned anything about needing to pay for the techniques!

"Of course you have to pay for the techniques. Did you think you'd get to learn techniques for free just because you are a disciple? This is why new

disciples are..." The sect elder shook his head.

"Well... I have around 200,000 gold coins left..." Yuan said a moment later.

"Gold coins?" The sect elder looked at Yuan with raised eyebrows before laughing out loud.

"Hahaha! You're a very amusing little guy, Outer Court disciple! When I say you have to pay for the techniques I didn't mean gold! This is the Profound Pavilion, not a store, and we accept no other currency besides contribution points!" The sect elder explained to him a moment later.

"If we charged the disciples real money, how will those from a common background learn any techniques? This is a sect, where a disciple's contribution and efforts take priority over everything else!"

"That makes sense..." Yuan nodded, and then he said, "If it's contribution points, I have exactly one thousand. What can I get with that much?"

"Excuse me? What did you just say? Did you just say that you have 1,000 contribution points?" The sect elder looked at Yuan with a face of disbelief.

"Yes," Yuan confirmed. "Or is that not enough for a technique?"

"Uhhh..." The sect elder was speechless.

One thousand contribution points was a massive amount for even an Inner Court disciple, much less an Outer Court disciple who'd just entered the sect! Hell, it would normally require ten years of collecting contribution points through sect missions for an ordinary disciple to save up that many contribution points! However, this Outer Court disciple who was clearly new to the sect had somehow managed to obtain 1,000 contribution points? That was outrageous!

Chapter 130 - Flying Daggers

"You have 1,000 contribution points? That's ridiculous!" The sect elder exclaimed in a loud voice, causing everybody there to look at them with a curious gaze

Meanwhile, Min Li watched Yuan from the corner of the building like a partner watching their children's first shopping experience.

'1,000 contribution points... even I only got 100 contribution points for joining the sect... why is there such a big disparity between the two of us?' Min Li pondered to herself as she continued trying to unveil Yuan's mysterious identity and seemingly unfathomable background.

"Since you claim to have 1,000 contribution points, let me see your identification token." The sect elder extended his arm with his hands open and his fingers gesturing to give it to him.

Yuan nodded and handed the sect elder his identification token without hesitation.

Once the identification token was in his hands, the sect elder used his spiritual energy to peek inside the token, and Yuan's identification appeared.

«Dragon Essence Temple Identification Gold Token»

«Disciple Name: Yuan»

«Disciple Status: Outer Disciple»

«Living Quarters: Outer Court, Building #70»

«Mission Completed: 0»

«Contribution Points: 1,000»

«Offenses: 0»

'Heavens! This Outer Court disciple has a gold identification token! And he really has 1,000 contribution points!' The sect elder cried inwardly after confirming that Yuan was not lying about his contribution points.

The sect elder swallowed nervously before turning to look at Yuan with a different kind of light in his eyes and with a respectful gaze.

There existed four grades of identification tokens in the Dragon Essence Temple. Bronze-grade, silver-grade, gold-grade, and finally, dragon-grade tokens.

Every grade of identification represented the importance of whoever held that token. For example, if a disciple has a bronze identification token, that person was an ordinary disciple without any impressive backgrounds.

Meanwhile, those with silver identification tokens are people with decent backings or have impressive talents.

As for those with a gold identification token, only those who come from prominent or powerful families such as the Seven Legacy Families are qualified to obtain one.

For the dragon identification token, only the Sect Masters or high-ranking elders are allowed to have it.

However, this ranking applied to not just disciples but to sect elders too, and in this case, the sect elder speaking with Yuan right now was only a bronze identification token holder! In other words, he was below Yuan in terms of status!

"T-Thank you, Disciple Yuan. I-I have confirmed your contribution points. Please give me a few moments to bring you the cultivation techniques

specialized for dagger users..." The sect elder spoke to Yuan in a respectful and humble tone, dumbfounding the people that had been watching them.

"Does that Outer Court disciple really have 1,000 contribution points? I cannot imagine what he must have gone through in order to collect so many contribution points!"

"You can obtain any cultivation technique you want from this place with that many contribution points! I envy him!"

The disciples began mumbling to each other about Yuan.

A few minutes later, the sect elder helping Yuan returned to the desk with over a dozen martial techniques that are best suited for daggers.

"Thank you for your patience, Disciple Yuan. I have brought pretty much every technique suitable for daggers from the back with me, and they are mostly Mortal-rank with a few exceptions at the Earth-rank. Please take your time looking through them," said the sect elder with a humble look on his face, dumbfounding Min Li and the other disciples, as it was an incredibly weird feeling to see a sect elder acting so humble before an Outer Court disciple who didn't have any reputation.

Yuan proceeded to look through the techniques one by one without reading the contents inside, as he was afraid of learning them by accident.

'Poison Stab... Night's Edge... Exploding Dagger... Zealous Piercer...'

Yuan spent the next few minutes reading the techniques' names and their description.

"Hmm? This is..."

Yuan looked at the last martial technique in the stack with an intrigued look on his face.

"Flying Daggers... Mortal-rank."

Even though the technique was only a Mortal-rank technique, the word 'flying' had instantly attracted his attention.

"It looks like you are interested in the Flying Dagger technique, Disciple Yuan. Although it's only a Mortal-rank technique, if mastered, you'll be able to defeat your opponents from a distance even with a weapon known for its short-range such as the dagger!" The sect elder said to him after seeing his intrigued face.

"How many contribution points for this technique? I want it," said Yuan, as the idea of defeating his enemies from afar sounded very cool to him.

"That technique would set you back 75 contribution points, Disciple Yuan," said the sect elder.

"Only 75 contribution points? That's very cheap! I'll take it!" Yuan said with a pleasantly surprised look on his face.

"Very cheap?" The sect elder's eyebrows twitched after hearing his words.

Although 75 contribution points may seem like nothing when he has 1,000 contribution points to spare, it would take a normal disciple almost an entire year to obtain!

"I understand. You want the Flying Dagger technique, right? I'll subtract it from your 1,000 contribution points now."

A few moments later, the sect elder handed the gold identification token back to Yuan.

"Good luck with the technique, Disciple Yuan."

"Thank you," Yuan nodded as he tossed the Flying Dagger technique into his Spatial Ring.

Once he'd gotten his technique, Yuan turned around and prepared to leave, and that was when he noticed Min Li standing in the background.

"Why are you standing there? Aren't you going to get a technique, too?" Yuan asked her.

"No, I am fine. I don't need any techniques," she calmly shook her head.

Yuan was speechless after hearing her words. If she didn't need any techniques then why did she follow him all the way over here, even saying that she planned on coming here?

"Anyway, what are you going to do now that you've gotten a technique? Are you going to the practice field to try out your new technique?" Min Li then asked, dumbfounding Yuan even more with her eccentric behavior.

Chapter 131 - Practice Area

"Practice field, huh. I do want to try out the Flying Daggers as soon as possible," Yuan nodded after Min Li's suggestion.

He then closed his eyes to recall the map inside his head to locate the training field.

After standing there for a few moments and locating the exact place, Yuan left the Profound Pavilion.

Of course, Min Li also left the Profound Pavilion and followed Yuan shortly after like some kind of stalker.

Sometime later, they arrived at the practice fields, a vast and spacious area that spanned for miles and was separated into four different parts.

One part of the area had these large and long walls that appeared to be made out of steel placed all over the area whilst a few disciples could be seen punching these steel walls.

In the second area, there were over a hundred human-shaped puppets made out of wood, and these puppets apparently could move on their own and defend themselves against the disciples' attack. However, these puppets didn't appear to have the capability to attack the disciple.

Meanwhile, in the third area, there were also puppets, and unlike the second area, these puppets attacked the disciples— aggressively at that.

As for the fourth area, there were a dozen mid-sized arenas and there were currently a few disciples sparring with each other on them.

There was actually a fifth area— the area in the middle, but it was completely empty with the exception of some disciples sitting on the floor with their eyes closed, seemingly cultivating.

Yuan immediately assumed this place to be a resting area for the disciples, as no sane Cultivator would truly do their cultivation out in the open and surrounded by so many people and noises.

"What are those walls over there? And why are they punching it repeatedly?" Yuan mumbled in a curious voice after seeing their unusual activities.

"That's the Wall of Absorption; it's said to be indestructible against physical attacks and have regeneration properties. They are very popular for those who wish to test out the full extent of their strength." Min Li suddenly responded to him from behind, startling him a bit.

"What about those puppets? Are they also indestructible?" Yuan asked her afterward.

"No, they're not, but they're extremely hard to break if you're not a Spirit Warrior," she said.

"If I... If I accidentally break one, how much do I have to reimburse the sect?" Yuan asked in a slightly nervous tone.

Min Li looked at him with her beautiful eyebrows raised, and she said, "Even I cannot break one at my full strength yet you think you can break one at whilst being two levels under me?"

"Well... You can't always be too careful. After all, they look expensive..."

Min Li was speechless. Despite his seemingly profound background, Yuan did not act like someone that belongs to a powerful family.

There was a clear hint of naivety and innocence around him, but there was also something charming about him that kept her interest piqued.

"You won't have to pay for any damages done to the puppets so you don't have to worry about breaking them," Min Li said a moment later.

"I see. Thank you," Yuan said to her before he retrieved the Flying Daggers technique and began reading through it.

Min Li raised her eyebrows yet again after seeing this.

"What are you doing now?" She asked him.

"I'm learning the technique," Yuan responded in a calm voice.

"What?" Min Li's eyes widened, and she pointed at the area in the center of the practice area and said, "Why don't you do it over there? There's a formation that cancels out unwanted noise so you'll have absolute peace and silence while inside—"

However, before Min Li could even finish her sentence, Yuan closed the technique and tossed it back into his Spatial Ring with a calm expression on his face.

«You have learned Flying Daggers»

[Flying Daggers]

[Rank: Mortal]

[Mastery Level: 1]

[Description: Control your daggers with spiritual energy and send them flying through the battlefield, slaying your enemies from a distance! Qi consumption will vary depending on how many Daggers you control at once and its speed.]

Min Li would've never thought that Yuan could have learned the technique in such a short time so she assumed that he was only putting away the technique so he could listen to her advice and go to the resting area.

However, when Min Li noticed that Yuan was walking towards the second area where the defensive puppets were instead, she frowned with a puzzled look on her beautiful face.

'What the... Where is he going?' Min Li wondered to herself as she watched Yuan stand before a puppet.

A few moments later, she watched as Yuan retrieved a very beautiful black dagger that did not have any unique aura to it.

'What a beautiful weapon... but I don't sense anything special coming from it— is it just an ordinary weapon with good looks?' Min Li thought to herself.

'Hmm? Why is he bringing out a weapon now when he still hasn't learned the technique? What's he trying to do?'

Meanwhile, Yuan placed the Starry Abyss flat on his palms, and he activated Flying Daggers.

The Starry Abyss began trembling the next second, and after a few more seconds, it began levitating in the air with a subtle red glow around the dagger.

"WHAT?!"

When Min Li saw the dagger flying above Yuan, she uncontrollably shouted in a shocked voice, quickly attracting the attention of everyone there.

"Isn't that Fairy Min? What's she doing here? And did that loud voice come from her just now?"

"I think it was somebody else. After all, why would Fairy Min suddenly shout?"

"What do you think she's watching? Do you think she might be watching us train?"

"That might be the case! Let's try not to embarrass ourselves now!"

The disciples in the practice area began training with even more intensity because they wanted to impress Fairy Min, but alas, little did they know that she was not paying attention to them whatsoever, and her gaze was locked onto Yuan's figure.

Chapter 132 - Destroying The Training Puppe

'Is that the technique he'd just obtained from the Profound Pavilion—Flying Daggers?! But that's impossible! He didn't have the time to learn it!' Min Li cried inwardly after witnessing Yuan levitate the Starry Abyss.

Then she recalled that brief moment that Yuan took to look through the technique, but that only lasted for a minute at most if not even shorter. How can someone learn an entire technique in less than a minute? Even if it's the lowest rank technique, such a feat shouldn't be possible!

"It must be a different technique..." Min Li forced herself to believe that Yuan was only using a similar technique.

However, when she saw Yuan controlling the dagger and making it fly around exactly like the technique Flying Daggers would do, her eyes widened with shock again.

'T-That's really the Flying Daggers technique! He'd really managed to learn a Mortal-rank technique in a minute! Just what is his background?! Even the top geniuses from the Seven Legacy Families pales in comparison to him!'

'Wait a second...' Min Li suddenly thought of a possibility.

'The Four Ancient Families... Could he be from one of the Four Ancient Families?!' Min Li pondered to herself with a serious frown on her face.

The Four Ancient Families are very similar to the Seven Legacy Families in the way that they are only a branch family that has a main family

somewhere in the upper heavens. However, other than that, the two powers were completely different.

While the Seven Legacy Families are known for their influence and large family size, in terms of power and influence, the Four Ancient Families vastly surpasses the Seven Legacy Families by a long shot!

Furthermore, very little is known about the Four Ancient Families, as they don't usually show up in public or participate in large gatherings. One can say they are a mysterious background with immense power that is at the peak of the Lower Heavens.

'If this Disciple Yuan is really from one of the Four Ancient Families, it would make sense as to why he's so talented but at the same time a nobody that no one recognizes," Min Li thought to herself as she watched Yuan improve with the Flying Daggers technique at a shocking speed.

Meanwhile, Yuan was having the time of his life controlling the Starry Abyss in the air, and once he'd familiarized himself with the technique, he began using it to attack the defensive puppets.

"Flying Dagger!" Yuan activated his spiritual energy and directed the Starry Abyss in the air to fly straight at the puppet, and the Starry Abyss trembled for a split second before shooting itself towards the puppet like a shooting star.

Whoosh!

The Starry Abyss arrived before the puppet before one could even finish blinking their eyes and struck the puppet in the center of its head before it could even react.

Boom!

The defensive puppet was sent flying backward, even hitting another puppet in the back before stopping.

"So powerful!" Yuan mumbled in a dumbfounded voice when he saw the destructive power from the technique. "And this is only a Mortal-rank technique? Or is the power mostly due to the Starry Abyss because it's a Soul Weapon?"

Meanwhile, Min Li's mouth was wide open from shock after she witnessed the powerful blow from the Flying Daggers techniques.

'What the heck?! The Flying Daggers is only a Mortal-rank technique and is known for being fast but weak! Yet he's displaying power with the technique that rivals even Earth-rank destructive techniques! Not to mention, he'd just learned the technique not long ago!' Min Li cried inwardly.

A few moments later, the puppet that had been struck by the Abyss Dagger slowly returned to standing in front of Yuan, but there was a small crack on its forehead.

'Even though I don't have to pay for it, I shouldn't destroy it...' Yuan thought to himself, and he proceeded to continue his training with the Flying Daggers technique, and every time he went to strike the defensive puppet, he made sure to hit the puppet in a new area and avoided the cracked areas.

Once the puppet was full of cracks, Yuan went to another puppet and continued his training.

About half an hour later, another notification appeared.

«Your comprehension for Flying Daggers has reached a new level!»

«Flying Daggers Mastery Level (1) → (2)»

[Flying Daggers]

[Rank: Mortal]

[Mastery Level: 2]

"Let's see just how much of a difference a single mastery level makes!" Yuan mumbled to himself in anticipation before using the Flying Daggers on the Starry Abyss and attacking a brand new defensive puppet at full power and speed.

Whoosh!

The Starry Abyss floating in the air suddenly flickered and disappeared, and in the speed it takes for one to blink, the Starry Abyss had already reached the puppet in the chest.

BOOM!

To Yuan's surprise, the Starry Abyss not only sent the puppet flying but it'd also created a hole the size of one's fist in the middle of the puppet's chest.

Clang!

Once the puppet bumped into another puppet many meters away, the puppet struck by the Starry Abyss broke into two pieces, dumbfounding Yuan and every disciple in the practice area that had been startled by the loud noise created by the impact.

"H-H-He broke the Training Puppet! I have never seen anyone achieve that before!"

"Just who is that disciple?! I don't recognize his face!"

The disciples there mumbled to each other after witnessing a Training Puppet being destroyed in such a vicious manner for the first time.

"He... He really destroyed a Training Puppet..." Min Li mumbled to herself in a low voice and stood there with a dazed face.

A few moments later, Min Li suddenly began making her way towards the second area with a sword in her hands and a resolute look on her beautiful face.

"Look at that! Fairy Min is also going to challenge the Training Puppet! She definitely wants to try it herself after seeing what that disciple achieved!"
The disciples noticed her actions and watched in anticipation.

Chapter 133 - Challenging Yuan

'If he can destroy a Training Puppet whilst being two whole levels below me in cultivation, not to mention with a Mortal-rank technique, there's no reason why I, Min Li, cannot destroy one too!' Min Li thought to herself with a resolute look on her face, feeling as though she'd been challenged by Yuan after seeing his dazzling display.

Every single disciple in the practice area including Yuan stopped whatever they were doing to watch Min Li, who stood before a Training Puppet with an ordinary sword in her hands and a serious but still beautiful look on her face.

'Since he'd used an ordinary weapon and a Mortal-rank technique, I shall do the same!' Min Li thought to herself as she prepared her mind and sword.

After taking a deep breath, Min Li moved.

She took a step forward with the sword in her hand raised and trembling.

"Haa!"

Min Li shouted out loud as she swung the sword in her hands.

Boom!

The Training Puppet flew many meters away from the impact.

"Wow! As expected of Fairy Min! To think she could display such strength with a Mortal-rank technique!"

"That's true, but... compared to that other disciple... it felt a little bit lacking... I think..." One of the disciples there suddenly mumbled.

"You idiot! Don't say that out loud! What if Fairy Min hears you?!"
Another whispered.

"..."

Min Li's eyebrows twitched a little bit when she heard those disciples talk, but she pretended as though she didn't hear it and focused on the Training Puppet.

A moment later, the Training Puppet returned, and as she'd expected, there wasn't any damage on the puppet despite such a powerful blow.

Min Li stared at the Training Puppet with a frown on her face, but she wasn't discouraged, as the previous attack was only a warmup.

After taking another breath, Min Li displayed her second strike, and the sword in her hand emitted an even more powerful aura than previously.

Boom!

The Training Puppet was sent flying once again by the strike.

"Wow! That strike was at least twice as powerful as the last one! And it surpassed even the other disciple's attacks at first!"

"As expected of Fairy Min! I knew her first strike was only a warmup!"

However, despite the disciples' praises, Min Li did not feel happy even in the slightest, as she knew very well that it wasn't enough to destroy the Training Puppet.

The Training Puppet returned to her side a moment later, and there was a slight crack on its body, but it was nothing significant and could only be considered as superficial damage.

'How is this possible?' Min Li pondered to herself. 'Although I am only using an ordinary weapon, my mastery with this Mortal-rank technique has long reached its peak after training with it for over ten years, yet it cannot compare to his Flying Daggers technique that he'd just learned not long ago! This doesn't make any sense! Unless...'

Min Li turned to look at the beautiful weapon in Yuan's grasp.

'Unless that's not an ordinary weapon at all! I'd been fooled by its lack of aura! That weapon is definitely a powerful treasure! There's no way someone from the Ancient Family will carry around an ordinary weapon! Since that's the case, I will also use my personal weapon!'

After convincing herself that Yuan's Starry Abyss was actually a treasure and not an ordinary weapon at all, Min Li stowed away her ordinary sword and retrieved another sword—a beautiful blue sword that emitted a sharp and profound aura that sent chills down the disciples' back when they saw it.

"There it is! Fairy Min's Heaven-grade treasure, the Eternal Fairy Needle!"

"Wow, the blade of that sword is incredibly thin! I have never seen anything like that before! But won't it affect its durability?"

"Are you stupid? That's a Heaven-grade treasure! You cannot judge treasures by their appearance! Even though it has an incredibly thin blade, it's actually more durable than even broadswords— at least that's what I heard."

Whilst the disciples mumbled to each other, Min Li prepared herself for the third strike.

Sometime later, Min Li stepped forward while shouting in a loud voice.

"Haaaa!"

The eternal Fairy Needle in her grasp flew forward, striking the Training Puppet directly on the chest.

BOOM!

The Training Puppet was sent flying like it'd been launched by a rocket launcher and landed in the third practice area many meters in the distance.

"Heavens... what a powerful strike! I don't think I have seen even Earth-grade techniques display such power!"

"Do you think Fairy Min managed to destroy the Training Puppet with that strike just now?"

"Of course! There's simply no way the Training Puppet could've survived that!"

However, to everybody's surprise, the Training Puppet returned a few moments later with only a large crack in its chest.

"What the heck? Are the Training Puppets really that durable? To the point where it can withstand even a Heaven-grade treasure?!"

"If that's the case, then how powerful is that disciple who'd destroyed it completely?!"

The disciples were shocked beyond belief when they realized just how difficult it was to destroy a Training Puppet, and they all turned to look at Yuan who had been standing there with an innocent face with shocked gazes.

Meanwhile, Min Li stared at the Training Puppet with a slightly angry look on her face, feeling irritated for the first time in many years. As a genius who is often praised by her surroundings and with very few rivals in her life, she cannot help but feel angry when she suddenly meets another individual who she cannot even begin to compare to, not to mention she was being watched by hundreds of other disciples.

'I know I'd dug this hole myself when I decided to challenge him, but I have vastly underestimated him! If I don't destroy the Training Puppet, my face will be in jeopardy!' Min Li thought to herself.

'Since it has come to this, I must go all out even if I am cheating a little!'

Chapter 134 - Admitting Defeat

'If I don't destroy a Training Puppet today, it won't just affect my reputation but also my family! I cannot let that happen no matter what! Not even if I have to sacrifice all of my faces!' Min Li thought to herself.

A moment later, she took a deep breath before taking a unique stance.

When the other disciples saw this and recognized her stance, they immediately shouted with excitement.

"That's the Min Family's most powerful technique— a Divine-rank technique!"

"What?! She's going from a Mortal-rank technique to a Divine-rank technique?! Does she want to destroy that Training Puppet so badly?"

"Well, think about it as though you are in her shoes. She was the one who decided to challenge that disciple who'd manage to destroy the Training Puppet. If she loses, it'll affect her reputation alongside her family's reputation, and you know how much the Seven Legacy Families value their reputation!"

"But that disciple used a Mortal-rank technique... and it was even the Flying Daggers technique that is known for being weak! If she uses a Divine-rank technique, wouldn't that be cheating and count as her loss regardless?"

"Well, yeah, but at least she will save some face for destroying the Training Puppet."

While the disciples mumbled to each other, Min Li focused on her next and final attack, even picking a new Training Puppet that did not have any cracks to make it a little bit fairer.

'This will definitely make me lose face, but at least I will destroy the Training Puppet!'

With that in mind, Min Li took a step forward, causing the ground to tremble a little, and she swung the sword in her hands that radiated with a profound aura.

"HAAAAAAAAAH!"

Min Li shouted at the top of her lungs, attempting to force every ounce of strength in her body out with her voice.

BOOOOM!

An explosion occurred upon impact, and the Training Puppet was sent flying like a shooting star, crashing into many other Training Puppets.

"Heavens..."

The other disciples' jaw dropped to the ground when they witnessed the destructive power of the Divine-rank technique. There was simply no way the Training Puppet would be able to move again after being hit by such a powerful strike!

"Haaa... haaa... haaaa... Did I... destroy it...?"

Min Li knelt on the ground with an exhausted expression on her face while panting heavily.

The Divine-rank technique had exhausted pretty much all of her spiritual energy, making something as easy as standing a difficult task for her.

The other disciples also watched with nervous expressions, their gazes all staring at the mountain of Training Puppets that had piled up after the Min Li's attack.

A few moments later, the Training Puppets began moving once again and slowly returned to their original spots.

However, the disciples and Min Li didn't care about the other Training Puppets— only the one that she'd struck.

Two minutes later, they could finally see the Training Puppet that Min Li attacked.

"I-Impossible..." Min Li mumbled with clear disbelief on her face as the Training Puppet that she'd struck slowly approached her with a long and deep cut on its chest, feeling quite intimidating for some reason.

A few moments later, the Training Puppet stood before Min Li once again, clearly still functional and not completely destroyed despite the damage it'd sustained that would instantly kill any Cultivator.

"H-How is that possible?"

The other disciples there were also in disbelief, and they turned to look at Yuan with a fearful expression on their faces.

If Yuan could destroy the Training Puppet completely with a Mortal-rank technique whilst Min Li could not achieve the same results with a Divine-rank technique and a Heaven-grade treasure, just how much more powerful is he?

'Damn it! Just who is this Disciple Yuan?!' Min Li cried inwardly and stared at Yuan with a frustrated look on her face.

Meanwhile, Yuan, who was completely oblivious that Min Li had challenged him, said to her, "Wow, that was such a powerful technique! I am impressed!"

Cough

Min Li nearly coughed up a mouthful of blood after hearing Yuan's words, as she misunderstood it for mockery.

'T-This is the first time I've been humiliated in such a manner! He'd even mocked me for daring to challenge him!'

However, as frustrated as she was, Min Li wasn't angry at Yuan, mostly because she was the one who'd challenged him in the first place, even blaming herself for not being strong enough.

"You... How old are you?" Min Li asked Yuan sometime later.

"Me? 18 years old," Yuan calmly responded.

"..."

Min Li stared at him with a gawking expression.

'He's the same age as me?! Yet there's such a vast disparity between us?! He's definitely from one of the Four Ancient Families! I am almost certain now!' Min Li cried inwardly.

"Anyway, I am going to return home for now..." Yuan turned around and walked away.

However, Min Li shouted at him, "Wait for a second!"

"Yes?" Yuan looked at her with a calm expression.

"I... I won't lose to you next time! Regardless of your background, I am going to win next time!" Min Li declared with a determined look on her face.

"Uhh... Okay?" Yuan raised his eyebrows in a puzzled manner, as he had no idea what she was talking about, but he figured that it would be for the best to just nod his head and accept it.

"..."

Min Li was speechless. Does she really look that insignificant in his eyes? Are the Four Ancient Families really that much more powerful than the Seven Legacy Families?

'Hmph! Just you wait! Although I may be nothing more than an ant in your eyes right now, I swear that I will catch up to you and make you recognize

me as your equal!' Min Li swore to herself as she watched Yuan disappear from the practice area.

Meanwhile, Yuan returned to his home and acted as though nothing special had happened, completely unaware that he'd made Min Li think of him as a rival!

Chapter 135 - Unbelievable Rumor

"Just who was that Outer Court disciple? I have never seen him before, nor do I recognize his face! Does anyone here know him?" One of the disciples there suddenly asked out loud.

"No, I have also never seen him around here before, and I come to this place nearly every day!"

"Me neither! I have trained here every day for the past 2 years without missing a single day and I also don't recognize him!"

Since nobody there recognized Yuan's identity, they all turned to look at Fairy Min with a questioning gaze.

After a moment of silence, one of them decided to ask her, "Fairy Min, do you perhaps know who that Outer Court disciple was?"

"I don't know him!" Min Li responded in an irritated voice before standing up and patting her clothes and knees.

Once she'd fixed her appearance, Min Li walked away while resisting the urge to cry, as she'd unintentionally suffered a humiliating defeat by Yuan before so many disciples, which will surely affect her reputation and possibly her family's face.

Sometime later, once Min Li left the scene, the disciples at the practice area looked at each other and said, "Did you see how dejected Fairy Min looked just now? I think it would be better if we don't talk about this..."

"Yeah, I think so too. After all, talking bad about Fairy Min is akin to slapping the Min Family in the face, and I don't want to risk offending one of the Seven Legacy Families."

"Me too! I didn't see anything here today!"

"Good! Then let's act as though nothing happened here today!"

However, even if the majority of the disciples there agreed to keep what happened today a secret, there were bound to be a few of them who couldn't keep their mouths shut and spoke about the event at the practice area to others, which quickly spread throughout the sect as a rumor.

Luckily for Fairy Min, since only a few people spoke about it at first, the other disciples doubted this rumor when they heard it, as it was simply too unbelievable.

"What? Fairy Min lost to some unknown Outer Court disciple in a challenge? That's outrageous!"

"Some unknown Outer Court disciple managed to destroy a Training Puppet with an ordinary dagger and a Mortal-rank technique—the Flying Daggers technique, no less? How is that possible? You must have been dreaming!"

"There's no way Fairy Min would lose to some nobody! Quit your bullshit!"

"I am telling you the truth! If you go to the practice area now, you would see many cracked Training Puppets! These damages had been done by that Outer Court disciple!" The disciple that spread the rumors said, feeling slightly annoyed that nobody believed him.

"Do you think I am stupid? Of course, there would be cracked Training Puppets in the practice area! Do you know how many disciples practice there every day? I'd personally cracked one myself after hitting it over 1,000 times in a single day!"

"That's not what I mean!"

"Hmph! I don't know who you are but if you continue to gossip about Fairy Min in a negative light, I will personally give your skull some cracks! Get lost!"

"..."

That disciple was speechless. After pondering for a minute, he realized that it made sense why nobody would believe him, as the event was simply too unbelievable! If he didn't witness it himself, he would've definitely reacted the same as these disciples.

Meanwhile, after returning to her own room, Min Li collapsed on the bed with her head buried deep inside her pillow and began crying her eyes out, releasing all of her frustration alone after today's defeat.

"I swear I won't lose to you next time, Disciple Yuan!" Min Li cried out loud sometime later.

As for Yuan, he was casually laying on the comfortable bed inside his room while staring at the floating Starry Abyss in the air. Even though he'd already reached mastery level 2 for this technique, he just cannot seem to get enough of it, as it'd reminded him of the flying sword.

"Hopefully I'll be able to control a flying sword soon," he mumbled in a low voice.

After spending some time reading the guidebook some more to decide where he wanted to go for tomorrow, Yuan logged off the game to cultivate in the real world until Yu Rou returned from school to feed him dinner.

'Even though I haven't slept in an entire week, I don't feel tired, even filled to the brim with energy. I wonder if this is actually healthy for me...' Yuan wondered to himself as he calmed his mind to prepare for another night of cultivation.

However, unlike the past few days, Yuan did not cultivate throughout the whole night and decided to cultivate only for a few hours before going to sleep.

The next morning, Yu Rou said to him, "Brother, Doctor Wang will be coming later this morning. Do you think you can wait for him to finish

before you play the game? I have school so I won't be able to attend, but Meixiu will be here if you need anything."

"Okay," Yuan said.

Once Yu Rou left for school, Yuan began cultivating until someone knocked on his room.

"Young Master, Doctor Wang is here to see you," Meixiu knocked on his door and said.

"Let him in," Yuan responded.

Doctor Wang entered the room with Meixiu a moment later.

"How have you been feeling lately, Young Master? Does your body hurt anywhere? Do you feel any different than usual?" Doctor Wang asked him.

"No, I feel as great as usual," Yuan quickly responded.

'As great as usual...?' Doctor Wang raised his eyebrows in a surprised manner. Normally, one wouldn't claim to feel 'great' if they were in Yuan's condition.

"T-That's great to hear. Anyway, I have brought some equipment with me to scan your body today, but since this is portable equipment, it is also weaker than the ones in the hospital, so I will need to remove your clothes." Doctor Wang said before turning to look at Meixiu and said, "Do you mind helping the Young Master strip while I prepare the equipment? Thank you."

"Uhhhh..." A speechless and perplexed look appeared on Meixiu's face, but she nodded regardless, and then she approached Yuan on the bed a moment later.

Chapter 136 - A Bug In The System

"Excuse me, Young Master. I'll be removing your clothes now," Meixiu said to him once she was beside the bed.

"Go ahead," Yuan said.

Meixiu swallowed nervously and reached for Yuan's pajamas with trembling hands.

Although Yu Rou had specifically told her to not touch Yuan unless absolutely necessary, she also told her to assist Doctor Wang if he requested help, which conflicted with each other and placed Meixiu in a difficult spot.

A few moments later, Meixiu stripped Yuan until he was stark naked.

"Uhh..."

When Doctor Wang saw this, he spoke in an awkward voice, "You didn't need to remove his underwear..."

"Ah! I am so sorry, Young Master! I wasn't thinking properly just now!" Meixiu exclaimed in a startled voice after realizing her mistake, and she quickly went to put Yuan's underwear back on his body, but alas, she'd unintentionally touched something soft while fixing his underwear due to her panicked and hasty movements.

'T-The Young Lady is going to kill me if she finds out that I'd soiled the Young Master's body with my hands...!' Meixiu cried inwardly after she realized what she'd done.

"Haha..." Yuan suddenly laughed, and he said, "You've always been clumsy, Meixiu. Don't worry about it too much."

"B-But the Young Lady..."

"I won't say anything if you won't," Yuan said with a smile on his face.

"..." Meixiu was speechless. Is she really going to keep this a secret from Yu Rou?

"I-I understand, Young Master... Thank you... and sorry..." Meixiu bowed to him despite the fact that Yuan wouldn't be able to see it.

Doctor Wang shook his head when he saw this, but this wasn't any of his business, so he acted as though it had never happened.

Sometime later, Doctor Wang approached the bed with the equipment by his side.

However, Doctor Wang's eyes widened with shock when he saw Yuan's body.

"Y-Y-Young Master! What happened to your body?!" Doctor Wang exclaimed in a shocked voice.

"Huh? Did something happen to my body?" Yuan's eyebrows quickly furrowed into a worried face.

"N-No... It's just that... compared to last week, your body is much bulkier and clearly has more muscles in general, almost like you've been working out." Doctor Wang spoke in a dumbfounded voice, as this is a situation that he has never encountered before.

After all, how does a cripple who cannot move anything below his neck suddenly obtain muscles when all he does is lay around in the bed all day?

Meixiu couldn't help but glance at Yuan's body out of curiosity, and sure enough, there were some defined areas on his body— something she didn't notice before because she was too nervous.

"I... have no idea..." Yuan said despite having a clue as to what might have caused this, and he continued, "Maybe it's because I have been eating three

bowls of soup instead of just one every meal?"

"Uhhh..." Doctor Wang was speechless. If drinking three bowls of soup per meal would give one muscle without doing anything, everybody in the world would drink soup every day for all three meals! If anything, Yuan should be getting fatter, yet one could easily tell at a glance that the muscles on Yuan's body were real muscles and not fat!

"Excuse me, Young Master, I am going to take a quick look at your body..." Doctor Wang began testing the toughness of Yuan's muscles.

'Heavens! His muscles are even stronger than mine! Although I may be old, I shouldn't lose to someone like the Young Master who hasn't lifted a finger for many years!' Doctor Wang cried inwardly after his quick assessment.

'This... is this a good thing?' Doctor Wang pondered with a serious look on his face as he was unsure of how to diagnose Yuan's situation.

While it would normally be a good thing for someone to gain muscles, it might be troublesome for someone like Yuan who cannot use his body. What if his muscles continue to grow to the point where it might harm Yuan's body instead?

Sometime later, Doctor Wang decided to scan Yuan's body before he decided on anything.

Doctor Wang then placed four pieces of equipment that resembled large bracelets on Yuan's body, one on each limb.

Afterward, Doctor Wang placed a dozen wired sensors all over Yuan's body and connected it to the monitor beside the bed.

"I am going to scan your body now, Young Master." Doctor Wang said as he pressed a button on the monitor.

A few moments later, the equipment began glowing a neon green color, and the wired sensors also began trembling slightly while glowing as well.

After waiting for a few minutes, Doctor Wang could see an x-ray of Yuan's body on the monitor.

"W-What is this?" Doctor Wang mumbled in a dazed voice when he saw the results.

Doctor Wang then rubbed his eyes for a few seconds before looking at the monitor again, and sure enough, he was not dreaming and he could see Yuan's bones glowing a subtle but golden color.

'Is this a glitch in the system?' Doctor Wang immediately came to this conclusion as it was the only logical one he could think of. 'Well, this equipment is not as powerful or accurate as the ones in the hospital, so something like this can happen from time to time...'

'But I'll do it again just in case.'

Doctor Wang proceeded to restart the monitor before scanning Yuan's body again.

A few minutes later, the same results came back but with even more clarity.

'What the heck? Why does it look like there are golden symbols etched onto the Young Master's bones?' Doctor Wang was truly baffled speechless this time, as he could not find a logical explanation for this phenomenon other than it being a weird glitch in the software. After all, there was simply no way there could be golden symbols engraved onto Yuan's bones, as that would require surgery, something Yuan clearly hasn't had since ever.

"Is everything okay?" Yuan asked him sometime later.

"Y-Yes... your bones seem to be okay," Doctor Wang hastily said, treating the golden symbols as a bug in the system.

Chapter 137 - Perfectly Healthy

After checking Yuan's x-ray, Doctor Wang proceeded to test Yuan's blood and a few other things.

Once the results came back and there was nothing abnormal, Doctor Wang said, "Okay, I am done with your checkup, Young Master. Your body is as healthy as usual, and there's nothing wrong with your blood. In fact, I would even say that you're getting healthier every time I see you."

"Do you have any questions for me before I leave, Young Master?"

"Yes... Doctor Wang... Am I... Is my condition really caused by some unknown and undetectable illness?" Yuan suddenly asked.

After all, if the Translucent Dew of Flawlessness and Feng Yixiao's phoenix blood had affected him in real life, why didn't the phoenix blood heal his condition when it supposedly cured all of illness and injuries? Why is he still crippled?

"..."

Doctor Wang shook his head in a solemn manner. After a moment of silence, he spoke, "I've already told you this many times already, Young Master, but we cannot find anything wrong with your body. Your blood, your bones, your muscles— anything that could be tested in your body we have already tested and multiple times too. However, the results are always the same— you are completely healthy."

"With that being said, there's no way someone healthy would suddenly lose their ability to move their body and see, so we could only conclude that it is a new illness that can avoid our current technology. I'm really sorry that I cannot be of more help to you, Young Master. I am also really ashamed to

even call myself a doctor whenever I am before you..." Doctor Wang sighed.

"There's no need for you to feel guilty, Doctor Wang. I understand that there are some things in this world that cannot be fixed no matter what, and I am simply one of those things," Yuan said to him with a smile on his face.

"Young Master... You are truly too kind..." Doctor Wang said, feeling an urge to cry.

'Why did the heavens punish the Young Master in such a way? What did he do to deserve this kind of life? This is too cruel even if the heavens are jealous of the Young Master's talents.' Doctor Wang sighed inwardly.

Sometime later, Meixiu escorted Doctor Wang outside before returning to his room.

"Do you need anything from me, Young Master?" Meixiu asked him afterward.

"Uhh... can you help me put my clothes back on?" Yuan said.

"Oh! Right! I nearly forgot about that!" Meixiu quickly went to put on his clothes as she didn't want to be responsible if Yuan catches a cold because of it.

"I am going in the game now," Yuan said to her afterward.

"I understand, Young Master. I'll head to school to serve the Young Lady now," Meixiu said.

"Have fun..." Yuan said.

'Fun...?' Meixiu thought to herself. While she found helping Yu Rou fun, there was nothing fun about going to school, where she must act like a student and a servant at the same time.

Although Meixiu is a maid, she is also a student at the same time, and because of Yu Rou, she got to attend the same prestigious school as Yu Rou.

And because only rich and famous students go to that school, it was common seeing these students bringing their servants to school with them.

Sometime later, Meixiu left the room and closed the lights whilst Yuan returned to Cultivation Online.

After returning to his room in the disciple, Yuan sat on the bed and spoke out loud, "Xiao Hua, Feng Feng, I have a question. Can you come out for a moment?"

A second later, Xiao Hua came out of his necklace whilst Feng Yixiao emerged from his chest.

"What's the matter, Young Master?" Feng Yixiao asked him.

"Well... it's like this..."

Yuan proceeded to tell them about his condition in the real world without saying it's him.

"Wow, that sounds horrible..." Feng Yixiao shook her head afterward, and she continued, "If I had to live like that, I'd probably ask to be killed."

"..."

Yuan was speechless. But it was not as though he didn't understand Feng Yixiao's thoughts.

"Feng Feng, you said that your phoenix blood could cure all illness, right? What if a person in that condition consumes your blood but doesn't heal? Then what would that mean?" Yuan then asked her.

"Indeed, my phoenix blood can cure all illnesses. However, there is a limit to such abilities, as it will only cure mortal illnesses," she said.

"Mortal illness? What does that even mean?" Yuan raised his eyebrows.

Xiao Hua then spoke, "Just like poison and medicine, there are many levels of illnesses. In other words, there are illnesses only mortals can have whilst

Cultivators are immune to them. However, that goes both ways as there are illnesses that can only affect Cultivators but not mortals, as we have different bodies and immune systems."

"Heavens... I didn't know there exists such a thing..." Yuan mumbled.

"Anyway, my blood can heal all mortal illnesses and most illnesses that affect only Cultivators. If this is a Cultivator we're talking about then that is most likely the case. If the crippled person is a mortal... then that person must have contracted something extremely rare and powerful that would even affect Cultivators."

"Is this person someone you know, Young Master? If that's the case, it'd be better if you find a real expert. After all, we're not doctors... at least I don't think so..." Feng Yixiao turned to look at Xiao Hua who shook her head.

"Xiao Hua only knows the basics," she said.

"A real expert, huh? Where can I find one?" Yuan then asked.

"I know of a few renowned doctors in the Lower Heavens but they are always traveling so I don't always know where they are. However, if I sense their aura, I'll immediately let you know, Young Master." Feng Yixiao said.

"Thanks a bunch, Feng Feng. I'll be counting on you." Yuan nodded.

Chapter 138 - Carp Leaping Over Dragon's Gate Tower

After talking to Feng Yixiao and Xiao Hua for a few more minutes, they returned to their own 'home' while Yuan prepared to leave the house once again to explore the sect.

However, before Yuan could even take a dozen steps out of his house, a familiar voice resounded, "Where are you going?"

Yuan turned around to see Min Li standing by the door with slightly dark eyes, almost like she didn't get enough sleep last night or something.

"I am going to the 'Carp Leaping Over Dragon's Gate Tower'," Yuan responded with a super long name.

"Carp Leaping Over Dragon's Gate Tower?!" Min Li looked at him with widened eyes.

The Carp Leaping Over Dragon's Gate Tower is a unique place in the sect where disciples go to test their skills and challenge their limits by fighting powerful beasts, and the faster one defeats the beasts the higher score they will obtain. The place is so popular and important to the sect and disciples that there is even a ranking just for it, allowing the disciples to compete with each other for the top ranks.

However, because of its difficulties, only those who have been in the sect for over a year would dare to challenge it unless they were talented geniuses from powerful families such as Min Li.

But even someone like Min Li wouldn't challenge the Carp Leaping Over Dragon's Gate Tower so quickly and without any preparations.

'This guy... It's only his second day as a disciple and he's already challenging that place?! Just how much is he trying to show off his talents?!' Min Li cried inwardly.

When she saw Yuan walking away a moment later, she quickly said, "W-Wait a moment! I am coming too!"

Yuan raised his eyebrows. Why is she following him again? But since he didn't have an issue with it nor a reason to shoo her away, he didn't say anything in the end.

Sometime later, they arrived before an incredibly tall building that almost pierced the clouds; it was so tall that Yuan was able to see it from his building, hence why he'd managed to get to this place without any problems. Furthermore, there were two more of these towers further in the distance, presumably within the Inner Court and the Center of the sect.

There were at least 100 floors in this massive tower, and there was also an incredibly large golden board located next to the entrance with many disciples around it.

"Look! Ming Yong defeated the guardian on the 51st floor and entered the 52nd floor! He has managed to enter the top 200!"

The disciples there shouted with excitement when the name 'Ming Yong' appeared on the bottom of the list on the golden board that had a total of 200 names on it.

Yuan looked up and sure enough, there was a golden light emitting from the windows on the 51st floor.

"If you want to become an Inner Court disciple, you must defeat at least 30 floors. 75 floors if you want to be a Core disciple," Min Li said to him from behind.

"How does it work?" Yuan asked her without looking back.

"Every floor will have a magical beast that you must defeat in order to advance— some will have more than one. If you defeat the magical beast, you'll get to ascend to the next level, and you'll repeat this until you can no longer continue. Also, you are only allowed 15 minutes of rest for each floor." Min Li explained to him.

After a moment of silence, she asked him, "If you don't mind me asking, why are you challenging the Carp Leaping Over Dragon's Gate Tower now? You still have plenty of time until the next Inner Court disciple examination. Don't you want to improve your strength as much as possible before you challenge it?"

"I can challenge this place as many times as I want, right? Then why does it matter if I challenge it now or later? I also read from the guidebook that there will be a special reward for you if you manage to beat all 100 floors," Yuan said.

"100 floors?" Min Li looked at him from behind with a dumbfounded look on her face.

"There have been less than 10 disciples since the sect's founding that had managed to complete all 100 floors, and it has been over 1,000 years since the last disciple achieved such a feat. Do you really think you can complete 100 floors?" Min Li asked him.

And she continued, "Furthermore, the magical beasts in the tower are all illusions that adjust to your cultivation level so you can only rely on your own skills and talent to defeat them. Raw strength won't work."

"Oh? So I can train here regardless of my cultivation level? That's good to hear," said Yuan who wanted to hone his dagger and sword skills some more but is having a hard time finding opponents at his level.

"Can I go inside even though there's already someone inside? Or do I have to wait?" Yuan then asked.

"Only one person can challenge the tower at a time. You can register over there." Min Li pointed at the small pavilion a dozen meters away from them.

"Okay, then I'll..."

"Wait a second!" Min Li suddenly stopped him.

"What is it this time?" Yuan looked at her with raised eyebrows.

"I am going to go first this time!" Min Li said with a resolute look on her face.

"Uh... sure?" Yuan nodded. Since Min Li looked desperate to challenge the tower, Yuan didn't argue with her and allowed her to go first.

Min Li then approached the pavilion.

"Look over there! That's Min Li! It looks like she's going to challenge the tower too!"

"How daring! This is only her second day at the sect and she's already challenging the Carp Leaping Over Dragon's Gate Tower! As expected of a genius from one of the Seven Legacy Families!"

When the disciples there noticed her presence, they were immediately hyped, and they could not wait to see her performance.

Chapter 139 - Taking Longer Than Expected

"D-Disciple Min! Are you going to challenge the Carp Leaping Over Dragon's Gate Tower today?" The sect elder sitting in the small pavilion showed a surprised face and asked her in a slightly excited voice.

"Yes, I am." Min Li nodded and handed her disciple identification token to him.

"Very well! I have recorded your name, Disciple Min! Good luck!" The sect elder said to her.

After Min Li left the pavilion, Yuan approached the place and said to the sect elder, "I'd like to challenge the tower too."

"Let me see your identification token," the sect elder spoke in an uninterested tone, his attitude towards Yuan being completely different from Min Li which was expected.

"Here you go," Yuan handed his bronze identification token to the sect elder.

"You have been a disciple at the sect for only two days? And you want to challenge the tower? You must be full of yourself..." The sect elder shook his head at Yuan.

"Eh? But Disciple Min is the same as me..." Yuan said with a dumbfounded look.

"The same as you?! Outrageous! How dare you compare yourself to a genius from one of the Seven Legacy Families?! Who do you think you

are?!"

Yuan was speechless. Why is he being scolded? Did he say something wrong?

The sect elder then quickly recorded his name down before tossing the identification token back at him in a disrespectful manner.

"..."

Yuan stared at the sect elder with a frown on his face after catching the identification token.

"What are you looking at? You got something to say?" The sect elder frowned back.

"No..." Yuan decided that he didn't want to waste his energy on this sect elder and turned around and walked away, not to mention that he'd already argued with another sect elder not long ago.

A few minutes after returning to the tower, Yuan noticed a red light coming from the 52nd floor.

"Aiya! Ming Yong failed!"

"52 floors is still an incredible achievement since he'd managed to reach the top 200 in the Tower Ranking. Give him a few more years and he'll definitely reach 75 floors and become a Core disciple!"

A few more minutes later, the entrance to the tower opened, and a handsome young man walked out with a messy and bloodied appearance, looking like he'd been beaten and robbed by a group of bandits.

Seeing this, Min Li turned to look at Yuan and said to him before approaching the tower, "I won't lose to you this time, Disciple Yuan!"

Min Li then retrieved her Heaven-grade sword and entered the tower.

"Look! Fairy Min's going to challenge the tower next!"

The disciples there watched her enter the tower with admiration in their gazes, and even Ming Yong bowed to her despite being injured himself, "Good luck, Fairy Min."

"What floor do you think Fairy Min will reach?"

"Definitely over 60 floors!"

"I am willing to bet that she'll achieve over 75 floors!"

Meanwhile, Yuan stared at the Heaven-grade sword in Min Li's grasp.

"Xiao Hua, didn't you tell me before that one must have a sufficient cultivation level before they can wield a powerful treasure or their body will explode? How come she can wield a Heaven-grade treasure while being a Spirit Apprentice?" Yuan asked Xiao Hua in a low voice.

"In most cases, Cultivators are only allowed to wield treasures at their level. However, like most situations in the world, there are special cases where people can wield treasures much stronger than themselves. For example, that girl might have a powerful bloodline that allows her to achieve such a feat, or it could be explained by a mythical cultivation technique their family owns, as these kinds of techniques are quite common in the upper heavens, especially for the powerful families," Xiao Hua explained to him.

"Young Master, it could also be the weapon itself that's allowing that young lady to wield it despite her lacking cultivation base. After witnessing her strength yesterday, I can confidently say that was not the Heaven-grade's full potential. I have seen many spiritual treasures in my life, and there exist unique spiritual treasures that have such an ability." Feng Yixiao also gave her two cents.

And she continued, "However, regardless of how she's able to wield it, that young lady will not be able to display that spiritual treasure's full strength until she increases her own cultivation base."

"I see... thank you for the explanation." Yuan nodded.

Once Min Li entered the Carp Leaping Over Dragon's Gate Tower, the door closed behind her, and the first floor lightened with a greyish light.

A mere minute later, the greyish light on the first floor turned golden, signaling that Min Li had passed the first floor.

"Wow! As expected of Fairy Min! She's already cleared the first floor!"

"How incredibly fast! Most disciples take nearly 5 minutes on average to finish the first floor!"

Another minute later, a golden light appeared on the second floor and Min Li ascended to the third floor.

After spending ten minutes inside the tower, Min Li ascended a total of 9 floors, shocking the disciples watching outside.

Furthermore, more and more disciples gathered at the tower to witness Min Li's spectacle after they learned that she was participating in the tower.

On the tenth floor, Min Li took a little over five minutes to pass that floor, as she'd to fight two magical beasts instead of one on the 10th floor.

Because the difficulty increased with each floor, especially every ten floors, Min Li needed more and more time to pass each floor as she ascended to the top, and by the time she reached the 19th floor, over 20 minutes had passed.

As for the 20th floor, it took her nearly 10 minutes to defeat.

Half an hour later, Min Li arrived at the 29th floor, and the 30th floor took her 15 minutes to defeat.

'This... this is taking much longer than I'd expected...' Yuan thought to himself after realizing how long it took to climb this tower. 'Guess I'll go get something to eat while she's inside.'

And with that in mind, Yuan left the scene to look for some food, as he didn't like the idea of just standing around and doing nothing.

Chapter 140 - Dragon Pavilion

After leaving the area, Yuan went to the Dragon Pavilion that is known for its delicious food— at least that's what the guidebook claimed.

"This smell... is delicious!" Yuan's nose twitched with delight when he smelled a sweet and luscious aroma before he could even see the Dragon Pavilion, allowing him to reach the area without using his eyes.

A few minutes later, he arrived before this enormous pavilion that had round tables set up everywhere— both inside and outside of the pavilion, almost like a feast, and most of the tables were already occupied by disciples.

"Wow... this is a restaurant? I have never seen anything like this before." Yuan mumbled in a slightly dazed voice after seeing this place that looked more like a public gathering than anything.

"Hello, are you here to dine?" One of the disciples suddenly approached him and asked him.

"Huh?" Yuan looked at this young man wearing a banner over his Outer Court disciples' uniform that read 'Dragon Pavilion' with raised eyebrows.

"You work here? Even though you are a disciple?" Yuan couldn't help but ask him.

"Hm? You must be a new disciple if you're asking such a question. And yes, disciples can work in the sect for contribution points," said the disciple.

"I see..." Yuan nodded as he learned something new again.

"Anyway, are you going to eat here?" The disciple asked him again.

"Yes, I want to dine here," Yuan quickly nodded.

"Since you are a new disciple, I can only assume that you don't have a lot of contribution points, and the food here requires you to pay contribution points," said the disciple, and he continued, "If you want to use money, you'll have to go to the cafeteria, or you can pay other disciples who have contribution points."

"How much do they cost?" Yuan asked with slightly wide eyes. He has to use contribution points even for food?

"The common dishes generally cost around 1-5 contribution points while the most expensive ones are around 10 contribution points," said the disciple.

"Oh, then there's no problem," Yuan said with a calm look on his face.

"You're really going to eat here?" The disciple looked at Yuan with slight disbelief on his face.

Because the Dragon Pavilion is a luxury, almost all of the disciples that come to the Dragon Pavilion are wealthy disciples that have plenty of contribution points, and most new disciples would rather save their contribution points for something more meaningful than food such as cultivation techniques and cultivation resources.

"Yes," Yuan nodded.

"Umm... I should've mentioned this early but you also need 10 contribution points to reserve a table for an hour. If you stay longer than an hour, it'll be another 10 contribution points," said the disciple.

"That's fine." Yuan handed the disciple his gold identification token.

"G-Gold!" The disciple covered his mouth and exclaimed in a shocked voice after seeing Yuan's gold identification token.

"I-I am deeply sorry for not recognizing you, Senior!" The disciple quickly bowed to Yuan after realizing that he was before a bigshot with a gold

identification token.

"Uh... don't worry about it?" Yuan said with a puzzled look on his face.

"Please follow me, I'll bring you to our best table," said the disciple, and he proceeded to lead Yuan deeper into the pavilion.

Sometime later, they reached this secluded and small table that was surrounded by water with colorful fishes swimming within and beautiful flowers and giant water lilies floating around.

"Wow... what a peaceful and calming place," Yuan mumbled in a dazed voice as he could already feel his mood improving just from being in that atmosphere.

"Here's the menu, Senior. By the way, my name is Chu Bo," said the disciple as he handed a golden menu to Yuan after he sat down.

"This is it?" Yuan was surprised to see only a little over 20 items on the menu.

"Although there are not many choices, I can guarantee you that every dish on the menu is considered as a 'favorite' by every disciple that has dined here before," said Chu Bo.

"Furthermore, the menu changes every week."

"Then can I get everything on the menu?" Yuan said without hesitation a moment later.

"E-Everything?" Chu Bo looked at Yuan with wide eyes, and he continued, "The portions are not small, Senior. A single dish can feed two to four people."

"It'll be okay," Yuan said with a smile on his face. "I can handle it."

"I-I understand... That'll be a total of 124 contribution points..." Chu Bo said with his back feeling sweaty, as he cannot imagine spending 124 contribution points on food even if they taste extremely good.

Yuan handed Chu Bo his identification token. Once the contribution points were paid, Chu Bo bowed to Yuan and said, "Thank you, Senior, I'll be right back."

Once Chu Bo left the scene, Yuan turned to look at the water and watched the fishes swim around elegantly for a few minutes until he noticed a figure suddenly jumping towards the water and landing on one of the giant water lilies floating in the middle of the water, and this figure was a beautiful young lady holding what appeared to be an instrument in her fair hands.

"Woooo! I have been waiting for this!" Someone from the other side of the pavilion suddenly shouted.

"I came here today just to listen to Fairy Fei's music!"

"Me too! I cannot wait to hear Fairy Fei's zither music!"

Yuan raised his eyebrows after hearing the disciples from around the pavilion.

"A zither? She's going to play music with that large instrument?" Yuan mumbled to himself in a low voice after seeing this unfamiliar instrument, feeling an indescribable sensation in his heart afterward.

A moment later, this young lady wearing pink robes known as Fairy Fei sat down on the giant water lily with the instrument known as a zither placed on top of her lap, and after taking a deep breath, she placed her fingers on the thin strings and began playing music with it.

Chapter 141 - Fairy Fei's Zither Performance

Chapter 141 - Fairy Fei's Zither Performance

The moment Fairy Fei's finger released the string on the zither, a beautiful and clear music note that pulled people's heartstrings resounded in the area, even creating a single ripple on the water that moved like a small wave.

Yuan could feel his heart beating faster when he heard this music note, and his eyes narrowed at Fairy Fei's hands that danced elegantly and skillfully on the zither, ignoring her beautiful face and everything else while everyone else was focused on her facial expressions and beauty.

'What a unique sound and elegant performance... I can feel my mind calming down just from listening to her music,' Yuan thought to himself after watching Fairy Fei play the zither for a few minutes. If this Fairy Fei were to perform in his world, she would become an instant sensation around the world with her skills.

"Excuse me, Senior?" Chu Bo's voice suddenly resounded in Yuan's ears.

"Eh?" Yuan turned around to see Chu Bo standing behind him, and he quickly said, "Oh, I'm sorry. I was too absorbed in that young lady's performance."

"Haha... Don't worry about it, Senior. That's a natural reaction for everyone when they hear Fairy Fei play the zither for the first time," Chu Bo said, and he continued to explain, "Fairy Mei is actually a Core disciple who often comes to the Dragon Pavilion to practice her zither, allowing the guests to enjoy their food and listen to wonderful music at the same time. Of course, she's also getting paid contribution points for doing this so she benefits from it too."

"Anyway, your food will be ready in a few minutes, Senior. Please enjoy Fairy Fei's zither play in the meantime."

Yuan nodded and returned to watching Fairy Fei play the zither.

After watching Fairy Fei's hand movements for a few minutes and memorizing all of her movements, Yuan closed his eyes to fully indulge himself in the music.

"I see... so this is how you play the zither," Yuan mumbled to himself as he began imagining himself playing the zither inside his head, imitating Fairy Fei's hand movements while the sounds continued to flow into his ears.

If one could see inside Yuan's mind right now, they would be shocked to see that all of his hand movements replicated Fairy Fei's movements perfectly despite having his eyes closed.

After imagining himself playing the zither for a few minutes, Yuan began moving his hands for real, acting as though he was playing an invisible zither on his lap.

When Chu Bo saw this, his eyes widened with surprise, and then he turned to look at Fairy Fei's movements before he returned to looking at Yuan, comparing the two.

'Heavens! It feels almost like I am seeing Fairy Fei playing the zither before my very eyes when I am looking at him!' Chu Bo cried inwardly, nearly mistaking Yuan as Fairy Fei because of his precise and flawless hand movements.

'This Senior is also a zither expert? As expected of someone with a gold identification token!' Chu Bo wondered, completely unaware that Yuan is actually a beginner who didn't even know the existence of zithers until just a few minutes ago.

If Chu Bo had known this fact, who knows how he would react.

Sometime later, the food Yuan had ordered arrived at his table, and he began stuffing his face. However, while his eyes and mouth were focused on the food on the table, his ears and mind were completely focused on Fairy Fei's zither music.

Sometime later, once Yuan cleaned every single plate on the table with ease, he returned to watching Fairy Fei play the zither with a focused gaze, looking like how he would normally look when trying to learn a technique.

Meanwhile, Chu Bo cleaned the table with a startled look on his face, as he has never seen a single person eat so much food and so quickly before.

An hour passed within the blink of an eye since Yuan came to the Dragon Pavilion, and Chu Bo said to him, "Senior, your time in the Dragon Pavilion is up. However, if you'd like to extend for another hour, that'd be 10 contribution points."

"How long does she usually play for?" Yuan pointed at Fairy Fei and asked Chu Bo.

"It's mostly random, but usually between two to four hours," he responded. "There are even times when she'd practiced for an entire day without a break. I guess it all depends on her mood."

"I'd like to extend for another hour then," Yuan said as he handed another 10 contribution points to Chu Bo.

"Thank you, Senior." Chu Bo bowed to him afterward before he returned to standing in the corner to wait for Yuan's orders.

Meanwhile, Yuan returned to watching Fairy Fei's performance.

'I... kind of miss playing instruments...'

This thought suddenly appeared in Yuan's head after Fairy Fei finished another song.

'Even though I used to hate playing the instruments because mother and father always forced me to practice until my fingers bled, after becoming crippled and being unable to even hold an instrument for many years, I am beginning to miss them...' Yuan sighed inwardly.

After watching Fairy Fei for another hour, Yuan decided to leave the Dragon Pavilion and return to the Carp Leaping Over Dragon's Gate Tower

to see if Min Li was closed to finishing.

"How was your experience being at our Dragon Pavilion for the first time, Senior?" Chu Bo asked Yuan afterward.

"It was great," Yuan said to him, and he continued, "Especially that young lady's performance. Although there are some flaws, it was a delightful experience overall."

"Flaws...? Fairy Fei?" Chu Bo looked at Yuan with wide eyes, seemingly speechless.

Ting!

A sharp music note suddenly resounded, startling everybody that was fully indulged in the music, causing everybody there to turn to look at Fairy Fei who'd suddenly stopped playing the zither and was looking in a certain direction.

Fairy Fei suddenly stood up and carried the zither with her hands before jumping from the giant water lily.

Once she'd landed somewhere in the Dragon Pavilion, she narrowed her eyes at a handsome young man a few meters away and spoke in a cold voice, "I heard what you'd said just now— that my performance is flawed? I would love to listen to the reasoning behind your words... Outer Court disciple."

'Oh, shit...' Chu Bo unconsciously took a few steps backward when Fairy Fei suddenly appeared before them.

Chapter 142 - Playing The Zither

"You, who claimed that my zither performance was flawed... What is the reasoning behind such claims? Are you also a zither expert? What qualifications do you have to call me out?" Fairy Fei looked at Yuan with narrowed eyes while she stood on the thin railings with perfect balance.

"Qualifications?" Yuan raised his eyebrows, and then he said, "Although I am not a zither expert, I don't need to be a zither expert to tell that you had made several mistakes in your playing in the last hour. As long as I have enough experience in music, I can tell if something is amiss just by the notes and flow alone, and there were several notes that didn't flow properly during your performance."

'T-This disciple...' Fairy Fei clenched her teeth tightly after hearing Yuan's words and her eyebrows twitched uncontrollably, but she was not angry at him. In fact, she was surprised that Yuan had managed to notice her mistakes, even feeling a little bit nervous since she has never been caught or called out before, as everyone would just assume that she was perfect.

However, she did not want to admit that she— a Core disciple— was wrong right before two Outer Court disciples.

"What is your name?" Fairy Fei suddenly asked him after a moment of silence.

"Yuan," he calmly responded.

"Disciple Yuan, right? Since you are so confident that my performance was flawed, why don't you show me how it's done?" Fairy Fei then laid her zither on the table and stared at Yuan with a serious look on her elegant

face. "You have 'experience' in music, right? Surely, you will be able to play the zither better than me if that is the case."

"Uhh..." Yuan looked at the beautiful zither that seemed to be made of some kind of wood laying on the table with a somewhat dazed look on his face.

Although he has never played the zither before, he was not someone who would shy away from something they have never experienced before, especially when it was related to music and instruments. After all, how else will he learn them if not by playing with them?

'That's what I thought! Even though you may have a sharp intuition for music, you don't have what it takes to play the zither!' Fairy Fei smiled inwardly after seeing Yuan's dazed face.

Of course, she'd rather if Yuan didn't actually play the zither, as she wouldn't know what to do if he really played the zither better than her.

However, little did Fairy Fei know that she'd already dug a deep hole for herself by giving an instrument to Yuan who was widely recognized by the whole world to be the number one prodigy in history in the field of music.

And when Fairy Fei saw Yuan reaching for the zither, she cried inwardly, 'He's actually going to play the zither?!'

Fairy Fei frowned before speaking out loud, "Wait a second!"

"What's the matter?" Yuan looked at her with an innocent look on his face, and he continued, "You want me to play the zither, right? Although I have never played it before, I should be able to play it to some extent."

"Eh? You have never played the zither before?" Fairy Fei looked at him with her clear eyes wide open, as did Chu Bo who thought he was definitely an expert.

"Ahem!"

After a moment of silence, Fairy Fei cleared her throat before speaking in a somewhat stiff voice, "N-Never mind! You can go ahead and play the

zither."

"Okay." Yuan nodded and pulled the zither closer before sitting back down.

Yuan then closed his eyes to practice a little bit more inside his head.

A few moments later, Yuan opened his eyes again and took a deep breath before he slowly lifted his hands like he was prepared to play the piano.

'Such calm movements... I would've never thought this would be his first time if he didn't say it...' Fairy Fei frowned when she saw Yuan's arm movements before he even began playing the zither.

Yuan's finger gently touched one of the strings on the zither, and a single later—

Ting~

An extremely crisp and beautiful sound echoed in the place, creating a calm ripple on the water while causing Fairy Fei's heart to skip a beat at the same time.

Another note immediate followed afterward—

Ting~

Yuan began playing the zither with precise movements like a real expert who had years of experience with the instrument, replaying one of Fairy Fei's earlier songs.

Fairy Fei's jaw dropped when she saw this, and she cried inwardly, 'T-This damn brat lied to me! How dare you say this is your first time playing the zither when you can produce such flawless notes?!'

Meanwhile, when the other guests at the Dragon Pavilion realized the music had returned, they immediately mistook Yuan's zither play for Fairy Fei's zither play.

"Where's Fairy Fei playing from? Why did she suddenly move locations?"

"Who cares where she's playing from— this music is amazing! In fact, I think it sounds even better than just a few moments ago!"

"Perhaps Fairy Fei found a new favorite spot, enhancing her performance."

"..."

When Fairy Fei heard the other guests' words, she nearly puked out a mouthful of blood on the spot but somehow managed to resist it by clenching her teeth tightly together.

'Just who is this Outer Court disciple?! If he can dine in this place, he's definitely no ordinary individual! However, I don't recognize him at all!' Fairy Fei pondered to herself with a deep frown on her face.

The only thing keeping Fairy Fei from losing her temperament was Yuan's unknown identity. Even though Yuan is only a mere Outer Court disciple, Fairy Fei knew very well that one's outer appearance can be very deceiving and that she shouldn't judge someone just by their looks. After all, no sane Outer Court disciple would be able to keep calm before a Core disciple, much less challenge them in such a manner!

Chapter 143 - Completely Absorbed In Yuan's Performance

Chapter 143 - Completely Absorbed In Yuan's Performance

Ting~

The music notes from the zither flowed throughout the entire Dragon Pavilion, sounding as though the heavens were singing, and Yuan progressively got better at playing the zither the longer he played it.

Within minutes after he touched his first zither, Yuan's skills and movements have already drastically changed, even playing the zither in his own style.

This shocked Fairy Fei, who cried inwardly, 'His hand movements have changed! It looked like he was copying my style at first, but he suddenly started using his own style! What does this mean? Is this really his first time playing the zither? But... that's impossible!'

A few more minutes later, after playing the final music note in the song, Yuan stopped moving his hands and turned to look at Fairy Fei before speaking, "What do you think? Although it was a bit rough, I have managed to play the song properly."

'Rough?! You call that performance 'rough'?!' Both Chu Bo and Fairy Fei cried inwardly after hearing his words.

"..."

Fairy Fei stared at Yuan with a profound frown on her face, and she spoke after a moment of silence, "Play it again."

"Excuse me?" Yuan raised his eyebrows.

"I said play the zither again. You said I had several flaws in my performance, right? Well, you're going to play every single song that I'd made a mistake in for me."

"Uhhh... I don't mind, but my time at the Dragon Pavilion is already up..." Yuan said, mostly because he also wanted to play the zither for a little bit longer after finding out how entertaining it was.

Fairy Fei then turned to look at Chu Bo before speaking, "I will pay for his extra time."

"Y-Yes, Senior apprentice-sister!" Chu Bo nodded nervously.

"You can stay here as long as necessary now," Fairy Fei said after she returned to looking at Yuan.

Yuan nodded and continued to play the zither a moment later, playing a completely different song this time.

Ting~

'This is my original song, Swan Flying Above the Heavens! Let's see if he can play it properly!' Fairy Fei proceeded to stare at Yuan with a sharp gaze and without blinking, almost like she couldn't afford to miss even the slightest movement from him.

However, the longer she listened to Yuan play, the more Fairy Fei admired Yuan's skills, especially his hand movements, even feeling a little bit agitated that Yuan was playing her original song better than herself!

As for Yuan, the more he played with the zither the more comfortable he got with the instrument, and he even started to play the zither with his eyes closed midway through the third song.

Ting~

Once Yuan began playing his fourth song, Fairy Fei took a seat next to him and closed her eyes, fully indulging herself in Yuan's zither play.

Very quickly, Fairy Fei found herself completely absorbed in Yuan's performance, feeling as though each music note played by Yuan was massaging her body and mind.

The other guests in the Dragon Pavilion also felt the same, and most of them had even stopped eating their food to fully focus on the music.

"Did Fairy Fei reach a new level with her zither? I have listened to her zither play many times before but this is the first time I am feeling this way..."

"Yes... I can feel a warm sensation all over my body just from listening to this music... I wouldn't mind spending all of my contribution points if I can listen to this a little bit longer..."

A little over an hour later, Yuan finished his 7th and final song.

"I am finished," Yuan turned to look at Fairy Fei and said to her afterward.

However, there was no response from Fairy Fei who was sitting beside him with her eyes still closed, seemingly asleep.

"Uhhh..." Yuan didn't want to disturb her peaceful mood, so he stood up and quietly walked away.

"A-Are you really going to leave her like this?" Chu Bo asked Yuan in a low and nervous voice when he noticed that Yuan was leaving.

"Yes, I have somewhere that I need to be," Yuan responded, and he said, "The food was really good. I'll definitely return when I have the time."

Once Yuan left the Dragon Pavilion, Chu Bo remained standing in the same spot and patiently waited for Fairy Fei to open her eyes again.

However, unbeknownst to Chu Bo, Fairy Fei was actually experiencing enlightenment at this very moment after listening to Yuan play the zither, hence why she remained still even many hours later.

By the time Fairy Fei opened her eyes again, Yuan was already long gone.

'To think I'd experience enlightenment from that Outer Court disciple's performance... Just who is this young man?' Fairy Fei wondered to herself after she emerged from her enlightenment, feeling as though her comprehension with the zither went up by a whole level.

"W-Where did that disciple go?!" Fairy Fei asked Chu Bo with a dumbfounded look on her face when she realized that Yuan had disappeared.

"T-That disciple has already left... six hours ago..." Chu Bo responded with a sweaty back.

"What?! He actually disappeared without a word?! And you just let him leave?!" Fairy Fei slammed the table with her palms, causing it to tremble.

"I-I'm sorry, Senior apprentice-sister... I thought you wouldn't mind, and I didn't dare to make him stay for too long," Chu Bo quickly apologized.

"What was that disciple's name again?" Fairy Fei then asked with a frown on her face.

"Disciple Yuan."

"Disciple Yuan... Do you know anything about him? His background? Anything at all!" Fairy Fei asked Chu Bo.

"N-No..." Chu Bo quickly shook his head. "I only know that this is his first time at the Dragon Pavilion and that he's a new disciple."

"First time at the Dragon Pavilion?! So he listened to my songs for the first time today?! And he somehow managed to play it so perfectly?!" Fairy Fei's jaw dropped to the floor when she realized the real situation.

'Disciple Yuan... Disciple Yuan... Just who are you?' Fairy Fei stared at the zither on the table that had a lonely aura to it, almost like the zither was also upset that Yuan had left it behind.

Chapter 144 - I Want To Know More About Him!

"I ended up staying at the Dragon Pavilion for longer than I'd intended... I hope I don't get scolded for suddenly disappearing after signing up for the challenge..." Yuan mumbled to himself as he power-walked back to the Carp Leaping Over the Dragon's Gate Tower after leaving the Dragon Pavilion, silently hoping that Min Li was still inside the tower.

"What the heck?"

When Yuan returned to the tower, he was shocked by the progress Min Li had made during the 3 hours that he'd disappeared, and to his surprise, Min Li was only on the 43rd floor!

'It took her over three hours to progress a little over 10 floors?! Just long will this challenge take?' Yuan cried inwardly.

After standing around for a few more moments, Yuan approached one of the nearby disciples before asking him, "Excuse me, fellow disciple. How long does it usually take for one to come out of the tower?"

The disciple looked at Yuan before speaking, "Well, it depends on how far they climb. Most people will come out after a couple of hours. However, because this is Fairy Min that we're talking about, it'll probably take a few more days before she comes out."

"A few days?!" Yuan's eyes widened with shock after hearing this, as he truly didn't expect it would take this long.

The disciple nodded and said, "Some disciples even stay inside the tower for an entire week, as they spend all 15 minutes to rest on each floor after defeating it."

'If I knew it'd take this long, I would have stayed at the Dragon Pavilion to play the zither some more!' Yuan sighed inwardly.

'Oh well... Guess I'll cultivate in the real world while I wait for Disciple Min to come out.'

With that in mind, Yuan logged off the game and began cultivating in the real world.

Meanwhile, news of Fairy Fei's breakthrough spread throughout the sect like wildfire, causing the Dragon Pavilion to have an influx of guests for the next few days as everybody and their mother wanted to listen to Fairy Fei's zither play.

However, to the disciples' disappointment, Fairy Fei stopped showing up at the Dragon Pavilion for an entire week after her 'breakthrough' even though she would normally show up twice a week.

As for what Fairy Fei was doing during this time, she went around the sect looking for information about a new Outer Court disciple named 'Yuan', but alas, no matter how much she searched or how many sect elders she asked, none of them seemed to know a disciple named Yuan.

"How is it possible that nobody knows him? If he can dine at the Dragon Pavilion, surely he must be someone with important background. Furthermore, the disciple who served him said that he had a golden identification token!" Fairy Fei sighed, feeling dejected that she could not learn anything about Yuan.

"What's the matter, Disciple Fei?"

A mature figure suddenly approached Fairy Fei from behind and asked her.

Fairy Fei turned around to see Elder Shan standing behind her.

"Disciple greets Master Shan!" Fairy Fei greeted her.

Elder Shan nodded and continued, "You seem to have a lot on your mind. Perhaps I can assist you."

"Do you know of a disciple by the name of 'Yuan'?" Fairy Fei asked her. "I have asked multiple sect elders already, but none of them seem to know this Outer Court disciple."

'Y-Yuan...?' Elder Shan looked at Fairy Fei with wide eyes. How did Yuan attract a Core disciple's attention already?

"Can you tell me a little bit more? Why are you bothering yourself with an Outer Court disciple?" Elder Shan asked her a moment later, pretending as though she didn't know Yuan, and she was curious about her disciple's relationship with Yuan.

"Well... this happened at the Dragon Pavilion not long ago..."

Fairy Fei proceeded to recall what happened at the Dragon Pavilion to Elder Shan. She spoke of Yuan's characteristics, his seemingly unfathomable background, and his amazing zither skills that'd helped her gain enlightenment.

Elder Shan listened to Fairy Fei with a loose jaw, as she would've never imagined that such a thing could've happened between the two of them.

'Yuan is not only a cultivation expert but also a genius with the zither? And to think Disciple Fei, a Core disciple, would receive enlightenment from listening to his zither music... Just what kind of entity is he?' Elder Shan wondered to herself.

"What do you think, Master Shan? Do you know of this disciple?" Fairy Fei asked again afterward.

A profound smile appeared on Elder Shan's face, and she spoke, "Who knows? Maybe I do, maybe I don't. If this Outer Court disciple is as amazing as you described him to be, you'll definitely meet him again in the

future. Anyway, I am currently very busy running errands for the Sect Master. I'll talk to you later, Disciple Fei."

And without giving Fairy Fei a chance to respond, Elder Shan disappeared from the place, dumbfounding Fairy Fei.

"So Master Shan knows this Outer Court disciple... but why isn't she telling me anything and purposefully hiding his identity? I want to know more about him! No... I need to know more!" Fairy Fei mumbled to herself in a resolute voice, as she feared that she might not be able to sleep peacefully if her curiosity for Yuan's mysterious background is not settled.

Meanwhile, after cultivating for two days straight in the real world, Yuan returned to the cultivation world to see where Min Li was at for the tower.

"76 floors?" Yuan mumbled after seeing a golden light coming from the 75th floor, indicating that Min Li had passed that floor.

"Look! Fairy Min did it! She actually managed to pass 75 floors in the Carp Leaping Over Dragon's Gate Tower! And she's still only a Spirit Apprentice!"

"Hahaha! I'm so glad that I dropped everything I was doing to come here to witness this grand occasion!"

"As expected of Fairy Min! Her talent is simply otherworldly! She will definitely have a limitless future!"

The disciples there celebrated Min Li's achievements as though it was their own.

Chapter 145 - Challenging The Tower

Another hour after Min Li reached the 75th floor, a golden light emitted from the 77th floor, indicating that she had passed that floor as well.

"Wow! 77 floors on her first try! As expected of Fairy Min!"

"She has taken first place in the rankings! Fairy Min is currently the highest climber out of all Outer Court disciples!"

"I find it crazy how she'd decided to challenge the Carp Leaping Over Dragon's Gate Tower only two days after she'd become a disciple! Only someone from one of the Seven Legacy Families would dare to be so bold and confident in their abilities!"

However, little did these disciples know that the reason Min Li challenged the tower was not because of the tower itself but because of a certain Outer Court disciple! Furthermore, this Outer Court disciple had left midway through her challenge to eat food and play the zither!

If Min Li knew that Yuan had cared so little about her performance, it would definitely deal a lot of damage to her confidence and pride.

About another half an hour later, the 78th floor glowed a bright light. However, it was not a golden color like everyone had expected but a bright red color instead.

"Oh no! Fairy Min could not pass the 78th floor!"

All of the disciples there released a saddened noise after seeing this red light.

'Does this mean she's finally finished?' Yuan thought to himself.

A few minutes later, the door to the tower opened, and Min Li slowly walked out with messy hair and shabby clothes, looking very similar to the disciple that had challenged the tower before her.

When the disciples there saw her rough appearance, they immediately approached her with medicines and recovery pills in their hands.

"Congratulations on passing the 77th floor and reaching 1st place, Fairy Min! You are now guaranteed to become a Core disciple once your cultivation base reaches the Spirit Warrior realm!"

"You can have this high-quality recovery pill, Fairy Min! It'll instantly heal all of your injuries and restore your spiritual energy!"

"Do you want some water, Fairy Min? I happen to have some right here..."

"Give me a break!" Min Li suddenly shouted, causing the disciples around her to scramble away after staring at her for a good two seconds.

Once she finally had some room to breathe, Min Li retrieved a white pill from her Spatial Ring and tossed it into her mouth before she drank some water.

A few moments later, the small injuries on her face and limbs began disappearing, and even her breathing gradually became calm again.

After she'd made a complete recovery, Min Li searched the crowd for a certain individual. Once she saw Yuan's face, a prideful smile appeared on her face.

'Let's see if you can beat me and how long it'll take you!' she said to herself inwardly.

Seeing Min Li smiling at him, Yuan thought to himself, 'It should be my turn to challenge the tower now, right? After all, I did register my name after Disciple Min...'

After pondering for a moment, he decided to enter the tower while everyone else was still focused on Min Li, sneaking into the tower without attracting anyone's attention— except Min Li who had kept her gaze on him the entire time.

"Eh? Did someone just enter the Carp Leaping Over Dragon's Gate Tower just now? Who was it?" One of the disciples there suddenly said when he noticed the door close behind him.

"Who cares, honestly. I'd only come here for Fairy Min and nobody else!"

'He went inside!' Min Li thought to herself after seeing Yuan enter the tower.

"How about a celebration at the Dragon Pavilion, Fairy Min? It'll be my treat, of course."

A few handsome-looking Inner Court disciples approached Min Li and offered her free food at the Dragon Pavilion, yet Min Li didn't even bother to glance at them and said, "No thank you, I am busy right now."

"Busy, you say?"

The Inner Court disciples were dumbfounded by her response. Other than standing there and staring at the tower, she didn't look 'busy' at all.

Meanwhile, inside the tower, Yuan had just arrived on the first floor that was more spacious than it appeared from the outside, resembling an empty dojo.

«Welcome to Carp Leaping Over Dragon's Gate Tower!»

A notification appeared before Yuan a few moments after he entered the tower.

«Initializing Character Evaluation»

«Character Evaluation Completed»

«The Tower's difficulty has been adjusted to 'Dragon'»

"Dragon?" Yuan raised his eyebrows when he saw the difficulty. He wondered how difficult 'Dragon' was, how many difficulties existed in this challenge, and what difficulty Min Li had to deal with.

A few moments later, a list of rules appeared before Yuan.

«Dragon Difficulty»

«Challenger has 10 minutes to pass each floor or the Challenger will automatically fail»

«Challenger is limited to 15 minutes of rest for every 10 floors»

«Magical Beasts will start from '1st level Spirit Warrior'»

«Magical Beasts are extra study»

«Magical Beasts are extra powerful»

«Magical Beasts will have significantly increased strength, speed, and defense»

«A powerful Magical Beast will appear every ten floors»

«All medicine, pills, and resources that affect the Challenger's body or cultivation will be restricted»

A few moments later, Yuan could feel his suppressed aura returning to normal, most likely because the tower had sealed the Pill of Concealment—not that it affected Yuan in any way because his cultivation didn't change.

«Trial will begin in 30 seconds»

In those thirty seconds, Yuan prepared himself by retrieving both of his Soul Weapons, wielding the Empyrean Overlord with his hands, and controlling the Starry Abyss with the Flying Dagger technique, allowing him to use both Soul Weapons simultaneously.

Once the thirty seconds were up, an ape-like magical beast suddenly appeared in the middle of the and roared, emitting an aura that was equivalent to a Cultivator at the 1st level Spirit Warrior realm.

However, Yuan didn't even blink from the pressure it emitted and immediately controlled his Starry Abyss to strike the magical beast like it was a Training Puppet.

Whoosh!

Boom!

A gaping space appeared in the magical beast's head as the Starry Abyss ripped a clean hole in its face with ease, clearly the first floor in less than three seconds!

Chapter 146 - 20th Floor

«You have passed the 1st floor. Please ascend to the next floor within 10 seconds or you will automatically fail the trial.»

"What? That was easy..." Yuan mumbled to himself in a surprised tone when he defeated the monster with such ease. "Well, this is the first floor, after all..."

A few seconds later, Yuan ascended to the next floor by walking up the staircase not far away from him.

However, he didn't immediately reach the 2nd floor and entered the resting area that was between the first and second floor instead.

«You have entered the resting area. The timer will begin when you begin to cultivate.»

Yuan ignored the resting area and proceeded to the 2nd floor.

Meanwhile, outside the tower, the disciples there were dumbfounded when the first floor glowed a golden light so quickly.

"What? Whoever is inside has already passed the first floor? But that's too quickly even for the first floor! Not even Fairy Min cleared it that fast!"

The disciples outside were dumbfounded by what they had witnessed.

"Maybe that disciple had used his most powerful technique from the start? That would explain it."

"What a waste of energy!"

"Hahaha! What an idiot! Who uses their strongest attack on the first floor?"

However, not even a minute later, the second floor glowed a golden light.

"What?! He'd passed another floor so quickly already?! Is he trying to exhaust all of his spiritual energy before he reaches the tenth floor?!"

Half a minute later—

"Another one! He's on the third floor already!"

Another half a minute later—

"Again?! This disciple clearly doesn't understand how the tower works!"

The disciples were slightly shocked, as they cannot imagine what must be going through the mind of the disciple challenging the tower right now.

Three more minutes later, the ninth floor glowed a golden light.

"Heavens... This disciple... He's not even taking any breaks in-between each floor!"

"Hahaha! I'll give him 20 floors maximum before he gets kicked out of the tower for exhausting his energy!"

"20? You're being too generous! I bet that idiot won't even make it past the 10th floor!"

"Hahaha!"

While the disciples laughed merrily outside the tower, inside the tower, Yuan had just stepped onto the tenth floor.

«You have 10 minutes to defeat the Magical Beasts»

Once the magical beasts appeared— two of them for the first time, the timer began.

«9:59»

«9:58»

«9:57»

«9:56»

"Two monsters, huh? They're still only at the 2nd level Spirit Warrior realm, though."

Yuan then controlled the Starry Abyss to kill one of the magical beasts while he pounced at the second magical beast with the Empyrean Overlord raised.

"Bloody Sword Strike!"

The large sword glowed a red color, and—

Whoosh!

The entire floor shook when Yuan sliced the magical beast in half like a sharp knife cutting through tofu before hitting the floor. However, there was surprisingly no damage done to the floor despite being struck by Yuan, which is one of the reasons why Yuan hasn't been minding his own strength too much.

After passing the 10th floor, Yuan continued to the 11th floor.

«Congratulations on reaching 10 floors. The difficulty has been adjusted.»

«Magical Beasts will now have 'Weak Regeneration'»

«Magical Beasts will have their power, speed, and defenses increased slightly»

«The trail for the 11th floor will begin in 10 seconds»

A massive green mantis appeared in the center of the room ten seconds later and stared at Yuan with an intimidating gaze while emitting an aura close to the 4th level of the Spirit Warrior realm.

'From the second level to the fourth level? I might have to fight Spirit Masters later at the higher floors...' Yuan swallowed nervously before controlling the Starry Abyss to attack the green mantis.

Whoosh!

However, to his surprise, the green mantis was defeated as easily as the monsters from the previous floors.

'Maybe it's not as difficult as it appears...' Yuan thought to himself as he continued to ascend the tower with relative ease, and he proceeded to slay the magical beasts on each floor with the same speed as he did from floors one to ten.

When the disciples saw how quickly Yuan ascended from the 11th floor to the 20th floor, they were all gobsmacked.

"Good lord! Where is this disciple getting his energy from?! He rushed from the 1st floor to the 20th floor in less than 10 minutes! That's freaking ridiculous!"

'Disciple Yuan...' Min Li stared at the tower that was one-fifth lit up with golden lights with a nervous frown on her face.

'20 floors in 10 minutes... Are you really that confident in your own abilities or are you simply being reckless?' she wondered to herself.

Meanwhile, on the 20th floor, Yuan did not immediately attack the magical beasts that had just spawned and merely looked at them with a surprised look on his face, as he'd seen these monsters before.

"Demonic Spiders? Two of them at the 5th level Spirit Warrior realm?"

Seeing these two Demonic Spiders, Yuan immediately recalled what happened not long ago at the Demonic Spider Silent Cave and sighed, "If

only I was able to save that man's daughter..."

A few seconds later, Yuan rushed at the Demonic Spiders without using the Starry Abyss or the Flying Daggers technique, as he had a personal grudge with Demonic Spiders and he wanted to vent a little.

BOOM!

The entire floor shook violently as Yuan tore apart one of the Demonic Spiders with ease.

After killing the first Demonic Spider, Yuan turned to look at the second with a calm but slightly cold look on his face.

"To think I was somewhat fearful of you not too long ago..." Yuan mumbled in a low voice as he casually approached the Demonic Spider that could not speak like the one he'd encountered outside.

"Kaaaa!"

The Demonic Spider quickly raised its front legs that resembled scythes and slashed them at Yuan's face.

Whoosh!

Yuan used the phoenix movement technique to dodge the incoming attacks with ease before appearing behind the Demonic Spider.

"Die!"

Boom!

The floor shook once again as Yuan slashed the Demonic Spider with the Empyrean Overlord vertically, slicing it cleanly in half.

«You have passed the 20th floor»

Chapter 147 - This Place Is Now Off Limits!

After reaching the 21st floor, the difficulty adjusted once again.

«Congratulations on reaching a total of 20 floors. The difficulty has been adjusted.»

«Magical Beasts will now have 'Weak Physical Damage Resistance'»

«Magical Beasts will have their power, speed, and defenses increased slightly»

When Yuan saw the notification this time, he didn't react much and patiently waited for the magical beasts to spawn.

Ten seconds later, a magical beast with an aura at the 6th level Spirit Warrior realm spawned in the middle of the room, and Yuan immediately slew it with the Starry Abyss like usual.

Half a minute later, he cleared the 22nd floor.

Another half a minute later, the 23rd floor glowed with a golden light.

24... 25... 26...

Yuan arrived at the 30th floor five minutes later and then defeated the two 7th level Spirit Warrior magical beasts there within a single minute, ascending to the 31st floor.

«Congratulations on reaching a total of 30 floors. The difficulty has been adjusted.»

«Magical Beasts will now have 'Weak Spiritual Damage Resistance'»

«Magical Beasts will have their power, speed, and defenses increased slightly»

However, despite the difficulty adjustments, Yuan didn't feel its effects, almost like there were no changes at all, and he continued to ascend the tower at record-breaking speeds.

After spending a total of 30 minutes inside the tower, Yuan has managed to reach the 51st floor after defeating the magical beasts on the 50th floor that were at the 9th level of the Spirit Warrior realm, climbing half of the tower.

«Congratulations on reaching a total of 50 floors. The difficulty has been adjusted.»

«Magical Beasts will now have 'Moderate Regeneration'»

«Magical Beasts will now have 'Moderate Physical Damage Resistance'»

«Magical Beasts will now have 'Moderate Spiritual Damage Resistance'»

«Magical Beasts will have their power, speed, and defenses increased moderately»

Yuan expected the monsters on the 51st floor and onward to be at the Spirit Master realm, but to his surprise, the monsters remained at the peak of the Spirit Realm even after the 60th floor.

"Maybe the tower is only limited to monsters below the Spirit Warrior level? That would make sense since most disciples are only Spirit Apprentices and it would be ridiculous if the tower makes these Spirit Apprentices fight Spirit Masters..."

Thus, Yuan continued speeding through the rest of the tower with barely any breaks in-between the floors, and he only began taking breaks before the boss room after reaching the 70th floor, mainly because the trial was so easy that he'd gotten bored of it.

Meanwhile, outside the tower, hundreds of disciples stared at the Carp Leaping Over Dragon's Gates Tower that had 75 floors glowing with a golden color with gawking expressions on their faces, as they have never witnessed such an incredible sight before.

Furthermore, none of the disciples there have spoken a single word after Yuan passed the 50th floor, and they only stared in silence as they witnessed an unprecedented event.

'This Disciple Yuan... Damn it! Why are you so damn talented?! This isn't fair!' Min Li cried inwardly when Yuan passed her record and ascended to the 78th floor.

Yuan's performance at the Carp Leaping Over Dragon's Gates Tower was so shocking that it'd reached the ears of most disciples in the sect and even many sect elders, causing more people to show up at the tower to witness the spectacle.

"What? Some unknown disciple managed to ascend over 70 floors in less than an hour? How is that fucking possible?" One of the sect elders directly cursed when he heard this news.

Another sect elder directly spat the tea in his mouth back out when he learned about the situation.

"Fuck! Did a Core disciple sneak inside the Carp Leaping Over Dragon's Gates in the Outer Court or something? I don't believe that an Outer Court disciple will be able to achieve such feats!"

The news had spread so fast that it reached even the ears of Long Yijun and the other high-ranking sect elders.

"What? Who could possibly..."

When Long Yijun wondered which disciple was responsible for this commotion, the image of Yuan's face immediately appeared in his head, causing him to facepalm loudly.

Pa!

'It's definitely Disciple Yuan! I cannot imagine anyone else doing anything close to this!' Long Yijun thought to himself, and he decided to personally head to the Carp Leaping Over Dragon's Gates Tower.

"This is definitely Disciple Yuan's doing..." Elder Xuan sighed when he heard the news from Bai Ling.

"What should we do?" Bai Ling asked.

"Fortunately for us, nobody seems to know who is challenging the tower so we can still avoid Disciple Yuan's identity and talent from being leaked before the Mystic Realm. However, we won't be able to hide the fact that a disciple with monstrous talents has appeared in our sect, so we need to prepare for that." Elder Xuan said.

And he continued, "I'm sure the Sect Master is already heading to the tower as we speak, but I'll also go just in case."

"I'll come along too," said Bai Ling.

Thus, Long Yijun and many high-ranking sect elders appeared at the tower sometime later, and by the time they arrived at the tower, there were less than ten floors left in the tower, leaving them speechless.

'Heavens... Don't tell me he's going to set another precedent by becoming the first person to defeat all 100 floors in the Carp Leaping Over Dragon's Gates Tower? Even the Founder only managed to pass 99 floors!' Long Yijun cried inwardly as a golden light emitted from the 94th floor.

Once Yuan stepped onto the 95th floor, Long Yijun and the other high-ranking sect elders began dispersing the crowd at the place, as they didn't want Yuan's identity to leak so quickly.

"This place is now off limits! You all have 30 seconds to disappear from my sight or I will punish you for disobeying my—the Sect Master's direct

orders!" Long Yijun's voice boomed in the area, startling the disciples there.

"You heard the Sect Master! Everyone, scram!" Bai Ling also shouted at them.

Very quickly, the disciples there began scattering like a group of scared ants, disappearing from the Carp Leaping Over Dragon's Gates Tower and emptying out the area in the time it would take Yuan to finish many floors — less than a minute.

Chapter 148 - The 100th Floor

Once all of the disciples left the scene with the sect elders remaining, Long Yijun turned to look at the low-ranking sect elders and shouted, "This includes the sect elders! Or are you trying to tell me that you're not disciples?!"

The sect elders there immediately began sweating and ran away in a hurry, silently wondering to themselves why they couldn't be there as well.

"What the heck? We're sect elders, right? Why can't we be there as well?" One of them asked after they were all very far away from the Carp Leaping Over Dragon's Gate Tower.

"Why are you asking us? Do we look like the Sect Master to you?" Another one said.

"Haaa... I wanted to know who was inside that tower, though."

"What about the record book? Surely, we can find out if we look at whoever signed up for the tower, right?"

"You're right! There's the record book! Who is in charge of that this week?"

"That would be Elder Bao, right? But I don't see him here."

Meanwhile, the disciples were also complaining to each other—

"Why were we chased away? What's wrong with seeing the person inside the tower?"

"Who knows. Maybe you should ask the Sect Master afterward."

"Do you think I have a fucking death wish?!"

"We'll eventually find out. There's no way someone so talented can be kept hidden for long."

Back at the Carp Leaping Over Dragon's Gate Tower, Long Yijun and the other high-ranking sect elders there all stared at a middle-aged man who was soaking in cold sweats at this moment.

"Let me see the record book." Long Yijun extended his hand to the sect elder who managed the records.

"Here you go, Sect Master..." Elder Bao handed the book to Long Yijun with trembling hands, and he recalled how he'd disrespected the young Outer Court disciple who signed up after Min Li.

'Fuck, fuck, fuck! I am so fucking dead! If they learn that I've offended the person inside the tower right now, they will eat me alive!' Elder Bao cried inwardly, feeling like he'd fall unconscious from fear at any moment.

A few moments later, Long Yijun mumbled, "I knew it... It's Disciple Yuan that's inside right now."

"Did you even need to look at the book, Sect Master? I'm pretty sure we already knew..." Elder Shan said with a smile on her face, and she turned to look at the tower and continued to speak, "Do you think he'll achieve 100 floors?"

"We already know that he's more talented than the Founder so that's very likely," said Elder Xuan.

"Anyway, you are Sect Elder Bao, right?" Bai Ling approached him and asked.

"T-That's right!" Elder Bao quickly nodded.

Bai Ling then placed his large hands onto Elder Bao's shoulders firmly before speaking in a serious and deep voice, "I want you to listen to me very carefully, Elder Bao. The disciple who entered this tower— Disciple

Yuan— you will not reveal any information about him no matter what! In fact, you can forget about what happened here today, do you understand me?"

Elder Bao immediately nodded his head, shaking his sweat all over the place.

However, Elder Shan approached them and said, "I don't think he understands, Elder Bai. We need to ensure that he doesn't forget it by next week..."

Elder Bao looked at Elder Shan's beautiful face with wide eyes filled with shock and fear. What is she going to do with him?

"You don't have to bully him, Elder Shan. I'm sure we can trust Elder Bao to keep something this small as a secret. After all, he wouldn't be a sect elder if he couldn't." Xin Ming shook his head and said to her, subtly threatening Elder Bao's position as sect elder.

"I won't say anything! I swear, Seniors! I didn't see or hear anything today! In fact, I wasn't even here today! Disciple who? I don't even know what you're talking about!" Elder Bao quickly exclaimed, feeling as though there were knives around his neck at this moment, and a single wrong word might get him killed.

"See? Elder Bao understands." Xin Ming laughed out loud afterward.

"Whatever." Elder Shan no longer cared about Elder Bao and turned around to continue watching the tower.

"You may leave now, Elder Bao." Long Yijun said to him who immediately scrambled away in a heartbeat, like a rabbit running away from a group of tigers and lions.

"So this is the Disciple Yuan that I have been hearing so much about from you guys. I thought you were all exaggerating, but alas, it seems like I am still a frog in a well..." One of the high-ranking sect elders there suddenly spoke, as he wasn't there when Yuan introduced himself.

"Welcome to Disciple Yuan's talent show, Elder Zou. Just wait until he clears the 100th floor— that's when the real show begins." Elder Shan chuckled in a cute manner.

Meanwhile, inside the tower, Yuan has just reached the 99th floor.

«Congratulations on reaching the 99th floor. The difficulty has been adjusted.»

«Magical Beasts will now have 'Superior Regeneration'»

«Magical Beasts will now have 'Superior Physical Damage Resistance'»

«Magical Beasts will now have 'Superior Spiritual Damage Resistance'»

«Magical Beasts will now have 'Powerful Intimidation Aura'»

«Magical Beasts will now have 'Powerful Damage Mitigation'»

«Magical Beasts will have their power, speed, and defenses increased significantly»

«The number of Magical Beasts in the room has increased to 99»

"99 monsters this time, huh?" Yuan smiled bitterly when the number of monsters doubled compared to the previous floor, and they were all at the peak of the Spirit Warrior realm.

Yuan raised the Empyrean Overlord and charged at the group of magical beasts with a calm expression on his face, and the Starry Abyss followed him from behind for a second before it shot itself forward and began slaying the magical beasts with ease.

A couple of minutes later, all 99 magical beasts were slain by Yuan.

«You have passed floor 99! Proceed to the final floor and prepare to challenge the Great One!»

Yuan's eyebrows raised in a surprised manner when he saw this notification.

"The Great One? I'll have to fight that Dragon? Are you kidding me?! How am I supposed to defeat a Dragon that's countless times larger than myself and can even destroy stars with a mere gaze?!" Yuan cried out loud.

Chapter 149 - The Great One's Challenge

Chapter 149 - The Great One's Challenge

"Look! Disciple Yuan has passed the 99th stage! He's going to challenge the final floor now!" Bai Ling pointed at the tower and shouted in excitement despite the other people there already realizing this because they have been watching the tower this entire time.

"What kind of challenge do you think exists on the final floor?" Elder Shan asked out loud.

"Who knows, I have only reached the 83rd floor myself..." Xin Ming shrugged.

"The Sect Master also only reached the 92nd floor."

"Besides the Founder who stepped onto the 100th stage, I don't think anyone else knows what exists on the 100th floor, and the Founder didn't leave behind any notes about his experience in the tower except a single word— terrifying," said Long Yijun with a serious look on his face.

"Terrifying, huh? If even the Founder who is known for being fearless finds the 100th floor 'terrifying', just what could possibly exist on the 100th floor? I cannot wait until Disciple Yuan comes back outside." Elder Shan sighed.

Meanwhile, inside the tower, Yuan rested for 15 minutes in the resting area before walking up the stairs and entering the 100th floor.

And to his surprise, when Yuan stepped onto the 100th floor, he was greeted by a clear blue sky and a seemingly endless arena that stretched to the horizon, almost like he'd been teleported from inside the tower to another world that was made of a single stage.

Yuan looked down, and sure enough, the staircase he'd just walked on had suddenly disappeared.

«You have entered the 100th floor»

«A powerful presence emerges from the void»

Whoosh!

A massive black portal suddenly appeared a few miles away from Yuan, and a long figure emerged from the portal a few moments later.

This long and golden figure looked exactly like the Great One from the Tablet of Comprehension, but it paled in comparison in size and was no longer as enormous as the previous version that could block even entire stars with its mere body. However, that is not to say the Dragon wasn't huge, as it was taller than even the highest buildings in Yuan's world with the thickness of multiple trains combined together.

"Congratulations on reaching the 100th floor, human. You are the second person to have reached this far, and it has been over 100,000 years since the last visitor stepped onto this floor." The Great One glared at Yuan with its large golden eyes and spoke to him as though it was their first meeting.

"You don't remember me?" Yuan couldn't help but ask the Dragon.

"Remember you? Why would I remember someone I have never met before?" The Dragon was puzzled by Yuan's words. After all, even if it has been 100,000 years, it wouldn't forget someone when it has only met one other person beside him!

"So you're not the same 'Great One' as the one from the Tablet of Comprehension?" Yuan continued to ask due to his curiosity.

"Hmmm? The Tablet of Comprehension? Let me take a look at your body!"

The Great One suddenly flashed its eyes, and a golden light entered Yuan's body.

"You... You already have my Seal of Approval?" The Great One mumbled in a speechless voice, as it'd planned on giving Yuan the Seal of Approval if he'd passed the trial by beating the 100th floor! But now that Yuan already has the Seal of Approval, it has made this entire trial pointless!

"Yes, the other Great One gave it to me after I'd won a bet," Yuan said to the Great One.

"Hmmm..."

The Great One turned silent for a few moments before speaking, "Since you've already received the approval from the other 'me', I don't see a point in continuing this trial."

"Eh?! But why? I came all the way up here, too!" Yuan exclaimed in a dumbfounded voice. Did he really just climb 100 floors for nothing?

The Great One then continued, "I have taken a good look at your body just now, and as much as I hate to admit it, despite being a 1st level Spirit Master, I do not believe I have the capability to defeat you, who has two Soul Weapons and phoenix blood mixed in your blood, not to mention the two powerful presence I can feel hidden somewhere within your body."

"Although I am the same 'Great One' as the one you met in the Tablet of Comprehension, I am merely an illusion who has had its real powers limited to the level where it would make defeating this tower near impossible but also not truly impossible at the same time."

"Even if you say that, what are you going to do now if you're not going to fight me?" Yuan asked.

"Hmmm..."

The Great One began pondering again. After all, it cannot just let Yuan pass without giving him a trial.

A few moments later, the Great One spoke again, "How about this... In order to pass this floor, I will have you fight against 100,000 magical beasts

at the peak of the Spirit Warrior realm."

"100,000 magical beasts?!" Yuan's mouth dropped to the ground, as that amount was 1,000 more than what he'd had to fight on the 99th floor!

"While I can handle 100 magical beasts with ease, I definitely won't have the energy to defeat 100,000 magical beasts at once! This is definitely an impossible task!"

"Don't worry, I will make sure you have an ample amount of time to complete this challenge, as this is more of a test of endurance than your strength and talents, and you have already proved yourself in the other aspects."

"I shall bend the rules of this tower and give you unlimited time for this challenge because of the unexpected situation. Furthermore, I shall give you the ability to temporarily pause the challenge at will so that you can rest whenever you are exhausted or need a break. However, you are only allowed a total of 24 hours of rest time. Once you use up all 24 hours, you'll have to fight until you either defeat all 100,000 magical beasts or until you cannot go on and fail the challenge."

Chapter 150 - 100 000 Magical Beasts

"24 hours of rest time and unlimited time to defeat 100,000 magical beasts..." Yuan pondered with a frown on his face. Since he can pause the challenge whenever he wants, it wouldn't affect his time in the real world unlike the Tablet of Comprehension. However, it will still take a very long time for him to kill 100,000 magical beasts, perhaps even days.

"What do I get for completing this challenge? Since you changed the original trial, I should get something in return, right?" Yuan asked the Great One.

"If you manage to pass this trial of mine, I shall grant you the key to the treasure room in the Dragon Temple. Since you have the Seal of Approval, I'm sure you intend on going to the Dragon Temple anyway in the future to try and obtain my Legacy. Inside the treasure room, you'll find a few things that I'd left behind before I ascended from this world and traveled to the upper heavens, and while there may not be much inside, each treasure will surely assist you in your cultivation path immensely."

"A dragon's treasures, huh?" Yuan nodded, as he cannot help but be curious about what a Dragon would consider as treasures.

"Then... I shall begin whenever you are ready."

Yuan took a few deep breaths before speaking in a resolute voice, "I am ready!"

"Very well..."

«The Great One's Challenge will begin shortly»

«0:10»

«0:9»

«0:8»

«0:7»

Yuan swallowed nervously as the seconds counted down.

Once the timer reached zero, Yuan suddenly felt the ground shaking a little bit.

"Huh?" Yuan's eyes widened with shock when he saw a black line suddenly appearing at the horizon, and this black line gradually grew larger and larger, and the earth shook harder and harder in response.

Very quickly, the black line transformed into a black sea, and Yuan could see a wave of magical beasts charging towards him like an army of ants at war.

'Holy... this is... this is much scarier than I'd thought!' Yuan cried inwardly, and his entire body trembled while all of his hair stood up like a porcupine when it's threatened.

'This is too much! They will definitely flatten me before I can even do anything!'

"Don't worry, Young Master. As long as you use the movement technique, it won't matter how many enemies there are—you'll be able to avoid them all flawlessly." Feng Yixiao's voice resounded in Yuan's head.

'Oh, right! I nearly forgot about that!' Yuan thought to himself.

Xiao Hua's voice resounded next, "Brother Yuan, don't forget about the Heavenly Domain. You can use it to suppress the magical beasts'

movements, which will make it easier for you to dodge their attacks and slay them!"

Yuan nodded, and he was no longer fearful of the sea of magical beasts swarming towards him.

'Hmmm... This kid... I can see why the other me gave him the Seal of Approval. You don't see this type of talent often even in the upper heavens...' The Great One thought to itself as it watched Yuan adjust to the atmosphere and emit a powerful aura that did not was not befitting of someone at the Spirit Warrior realm, as his aura was stronger than even most Cultivators who'd just reached Spirit Master!

"Brother Yuan, you can also use Heaven Splitting Sword Strike. Although it'll consume a lot of your spiritual energy, it'll be worth it since there are so many magical beasts bundled up together.

"Thank you for the advice, Xiao Hua!"

Yuan suddenly straightened his back and held the Empyrean Overlord like a knight before raising it high into the sky.

After charging the Empyrean Overlord with a portion of his spiritual energy, the Empyrean Overlord began emitting a bright golden light that was almost too blinding to look at.

"Hmm? What kind of technique is that? This aura... Could it be a Divine-rank martial technique?" The Great One was surprised to see someone as young as Yuan learn a Divine-rank technique and even reached such mastery with it.

Of course, if the Great One had known about what happened at the Tablet of Comprehension, it wouldn't care about a measly Divine-rank technique.

"Heaven Splitting Sword Strike!"

Yuan swung the Empyrean Overlord horizontally, sending a massive beam of light towards the army of magical beasts.

BOOOOOM!

The entire world shook as the Heaven Splitting Sword Strike disintegrated thousands of magical beasts in a single strike!

«You have slain 4,420 magical beast»

«95,580 remaining»

"Heavens!" The Great One exclaimed in a shocked voice when it saw the raw destructive power of the Yuan's Divine-rank technique. "Is that really a Divine-rank technique? To display such powers when he's only a Spirit Warrior, this must be one of the strongest Divine-rank techniques out there!"

However, despite killing over 4,000 magical beasts in a single strike, the black sea did not seem to have diminished even slightly, and they continued to charge at Yuan.

"Heaven Splitting Sword Strike!"

Yuan decided to use the technique again to lower the numbers again.

«You have slain 5,110 magical beast»

«90,470 remaining»

And again...

"Heaven Splitting Sword Strike!"

«You have slain 4,975 magical beast»

«85,495 remaining»

Yuan continued to use Heaven Splitting Sword Strike until a dozen times later when his spiritual energy lowered by half.

«49,321 remaining»

In just a few minutes, Yuan had managed to cut the number of monsters he needed to hunt in the trial by half.

'This human is a monster! Why does he have so much spiritual energy?! If it were any ordinary Spirit Warrior at his level, they would only be able to use such a powerful skill once or twice, yet this human managed to release over a dozen of them! It seems like I have underestimated him still! If I'd known about his power, I would've made him kill 1,000,000 magical beasts instead of 100,000 which is looking incredibly easy for him right now!' The Great One cried inwardly, but alas, even it could not stop the trial once it began.

Chapter 151 - Unique Ability

After slaying over 50,000 magical beasts with the Emyrean Overlord, Yuan received an unexpected notification.

«Congratulations! Your Soul Weapon Emyrean Overlord has absorbed enough lifeforce and leveled up!»

«Your Emyrean Overlord has unlocked a new unique ability!»

«Emyrean Overlord»

«Level: 1»

«Rank: Soul Weapon»

«Growth Rate: Very Slow»

«Requirement: ???»

«Unique Ability: Amplify the power of all sword techniques by 100% when wielding this sword»

"100 percent?! Does this mean all of my techniques will double in power?! That's overpowered as heck!" Yuan exclaimed in a shocked voice, but he didn't have the time to think about it too much as the magical beasts continued to approach him.

Once the magical beasts were close enough, Yuan activated Heavenly Domain, creating a golden circle around him that extended for a dozen meters, slowing and suppressing everything within the circle to a certain extent.

"Another Divine-rank technique?! And it's even a restriction technique!" The Great One was dumbfounded once again after seeing Yuan use a second Divine-rank technique.

'I have looked at his bones, and he should be no older than 18 years old, yet he's already learned two Divine-rank techniques and can use them with such proficiency?! This human's comprehension ability is shockingly high!' The Great One thought to itself, unaware that Yuan had also learned its Dragon's Gaze from the Tablet of Comprehension.

Meanwhile, Yuan used the Flying Daggers technique with the Starry Abyss to slay the magical beasts that ignorantly entered the Heavenly Domain only to have their movements speed significantly decreased, even feeling as though they were suddenly carrying a large boulder behind their back.

Sha! Whoosh!

The magical beasts dropped like flies as the Starry Abyss flew around in a circle, instantly killing the magical beasts.

And because the Flying Daggers is only a Mortal-rank technique, it required very little spiritual energy to maintain, allowing Yuan to use it effortlessly and continuously.

'As expected of a Soul Weapon... it can rip apart magical beasts with ease despite using only a Mortal-rank technique, and by the looks of it, that Soul Weapon is still in its infancy period. I can only imagine how powerful it'll become once it grows up alongside a monster like this human...' The Great One said inwardly.

Whoosh!

Yuan swung the enormous sword in his grasp effortlessly at the magical beasts that the Starry Abyss could not reach in time, cutting down even magical beasts twice his size with a single swing.

"Blood Sword Strike!"

The Empyrean Overlord emitted a powerful aura that did not exist before.

BOOM!

«You have slain 23 magical beast»

«48,124 remaining»

However, despite the Heavenly Domain slowing down the monsters and Yuan killing the monsters at a rapid rate, there were simply too many magical beasts, and Yuan was surrounded by them a little later.

Though, it was not as though Yuan was in any danger, as the magical beasts were still restricted by the Heavenly Domain, so even if they wanted to attack Yuan, they would be too slow for him, who had a Divine-rank movement technique, allowing him to dodge the magical beasts despite being attacked by many of them at once.

When the Great One saw this, its eyes widened again, and it mumbled to itself, "That movement technique... Why does he know a movement technique meant for phoenixes? Does it have anything to do with the phoenix blood that's in his body? This human is full of surprises and mysteries... I'm sure the real 'me' in the upper heavens would love to meet someone like him."

Two hours of nonstop action later, Yuan shouted, "Great One! How do I pause this trial?! I need a break!"

"Just say 'pause trial'!" The Great One responded.

Yuan then shouted, "Pause trial!"

The moment Yuan spoke these two words, almost as though time itself had stopped, all of the magical beasts' movements came to a sudden halt, looking like they'd frozen in time.

«23:59:59»

«23:59:58»

«23:59:57»

"Don't forget, you only have 24 hours to rest." The Great One said to him afterward.

Yuan immediately sat down to cultivate and recover his exhausted spiritual energy.

Whoosh!

A few seconds after Yuan sat down and closed his eyes, the spiritual energy in the area could be seen rushing towards Yuan at a rapid speed, almost like he was a black hole sucking all of the spiritual energy around him.

"..."

The Great One was speechless after seeing this, and it mumbled, "A pure body that doesn't contain any impurities... Did he also consume the Translucent Dew of Flawlessness? What is someone like him doing in the Lower Heavens? One would have trouble finding the things he'd somehow managed to obtain even in the upper heavens!"

After resting for a few hours until half of his spiritual energy returned, Yuan stood up and asked the Great One, "How do I resume the trial?"

"Just say 'resume trial'."

Yuan nodded and prepared himself mentally before saying the word.

«Trial will resume in 3 seconds»

«2»

«1»

The moment the trial resumed, almost as though time began flowing again, the magical beasts began moving and continued to attack Yuan.

After fighting the monsters again for a few hours, Yuan paused the trial again to rest, and he repeated this process until it was time for him to log off for dinner.

"Pause trial!" Yuan then stood up and said to the Great One, "I'll be back after dinner."

When Yuan logged off and disappeared before its eyes, the Great One raised its eyebrows in a puzzled manner. However, it didn't say anything and merely closed its eyes and patiently waited for Yuan to return.

Once he'd returned to the real world and Yu Rou began her routine, Yuan recalled his experience for the day to Yu Rou while she cleaned his body and fed him soup. He spoke about playing the zither at the Dragon Pavilion, climbing the Carp Leaping Over Dragon's Gate, and needing to defeat 100,000 monsters to pass the final trial.

OceanofPDF.com

Chapter 152 - Perfect Concealmen

"The zither, huh?" Yu Rou mumbled after hearing about this instrument from Yuan, and she said a moment later, "People used to play those instruments in the ancient times if I remember correctly, but it's rarely played today."

"What? Why did people stop playing them? It's such a wonderful instrument that can invoke one's inner feelings with a single note!" Yuan asked in a surprised voice, as he couldn't understand why people suddenly stopped playing the zither.

"I'm not too sure either, but I can look it up online if you want." Yu Rou said to him.

"Okay."

"Give me a moment..."

Yu Rou pulled out her smartphone and did a quick search on the web.

"Zithers... Eh?" Yu Rou released a surprised voice.

"What is it?" Yuan raised his eyebrows and asked her with his interest piqued.

"Well... it says that the reason people stopped playing the zither was due to some curse... It doesn't make any sense," Yu Rou said.

"Curse?"

"Yes... They say those who play the zither are cursed with a fate worse than death..." Yu Rou said.

"What the heck? Do people actually believe in that crap? I can't believe it! To think they'd abandon such a wonderful instrument because of a mere 'curse'! If I'd known about this instrument before, I would definitely have made it my main instrument!" Yuan sighed loudly.

"Well, at least you get to play the instrument in the game, right?" Yu Rou said to him.

"I guess... But after learning about the zither, I cannot help but wonder what other instruments I can play in the game... While I am no longer a musician, playing the zither had flared some sort of flame in my body... I think..."

"Really? Now I have another thing to look forward to inside the game—seeing you play the instruments again! Maybe you can even become a famous musician in the game!" Yu Rou said.

"Famous musician, huh? I think I've had enough of that life," Yuan said with a bittersweet smile on his face.

"Oh... right..." Yu Rou realized that she'd opened an old wound for Yuan and quickly apologized, "I'm sorry, brother... I got too excited again..."

"Don't worry about it. Although I don't plan on becoming famous, I do want to play the instruments at times."

"But you're already famous, brother. You're 'Player Yuan', the number one player in the world right now!" Yu Rou said.

"Me? The number one player? On what basis?" Yuan asked since he cannot imagine how he'd be the number one player in the world when he hasn't really been doing much besides enjoy the game at his own leisure.

"On what basis, you say? By your progress, of course! Most players in the world are still learning Mortal-rank techniques, yet you've already learned your first Ancient-rank technique and even a couple of Divine-rank techniques! Your cultivation base is also vastly superior compared to the other players!"

"I see... But I don't really care if I'm the number one player or not— I just want to enjoy the game." Yuan said.

"I know you wouldn't care about something like this, but the other players care, especially the Legacy Family. That's why they're all looking for you," said Yu Rou.

"What will they do even if they find me?" Yuan asked.

"They'll probably ask you to join their family and share your secrets with them so that they can also progress as fast as you in the game."

"Secrets? There are no secrets, though. I just play the game normally." Yuan sighed.

"Nobody would believe that brother. I also wouldn't have believed it if I didn't know you."

"What a pain in the ass. I hope they'll never find me so that I can continue playing the game peacefully," Yuan said a moment later.

"I also hope the same, brother."

"By the way, Yu Rou, I left you at Phoenix City, right? Will you be okay by yourself?"

"Un. I will be fine. Not only do I still have the 100,000 gold that was given to me by Xiao Hua but I also have a friend from school who's also in Phoenix City, and I'd promised to play with her this weekend."

"A friend, huh? That's nice." Yuan said.

"I'll introduce her to you one day in the future, brother. She's a really sweet and elegant girl."

"Okay."

Sometime later, Yu Rou asked him, "You're going to play tonight, right? After all, you still have that trial..."

"Yes, I only have 24 hours of pause time. If I sleep now, I will probably fail the challenge."

"Okay, I'll leave you alone then. Good luck, brother."

Once Yu Rou left the room, Yuan returned to cultivation online and took a few minutes to prepare himself before he began slaying the monsters on the 100th floor until the morning came and he had to pause the trial again for breakfast.

Meanwhile, waiting outside the tower, Long Yijun and the other sect elders were puzzled, even slightly nervous.

"What's happening in the tower right now? It's been over a day since he'd entered the 100th floor yet he's still not done!" Elder Shan spoke out loud.

"Who knows what he's doing inside, but I have never seen anyone remain on a single floor for so long before." Long Yijun said.

And he continued, "Anyway, there's nothing we can do right now but until the 100th floor flashes either a red or golden light!"

Thus, they continued to wait for Yuan's result.

Inside the tower, Yuan continued to slay monsters for a few hours before pausing the trial and resting until half of his spiritual energy was restored so that he could continue fighting.

On the third day, a notification appeared before Yuan after he slew his 90,000th magical beasts.

«Congratulations! Your Soul Weapon Starry Abyss has absorbed enough lifeforce and leveled up!»

«The Starry Abyss has unlocked a new unique ability 'Perfect Concealment'!»

«Starry Abyss»

Chapter 153 - Clearing All 100 Floors

"Perfect concealment, huh? Let's try it."

Yuan then activated Perfect Concealment for the Starry Abyss, and just like the unique ability's description, the Starry Abyss suddenly became invisible with its presence and aura completely concealed.

However, in Yuan's eyes, the Starry Abyss was not completely invisible, as he could still sense his own spiritual energy around the Starry Abyss.

With that being said, for the magical beasts and even the Great One, it felt like the Starry Abyss had suddenly disappeared from this world, almost like it ceased to exist.

'I can no longer feel the presence of the second Soul Weapon... It must have the ability to conceal itself... This is an extremely powerful ability even for a Soul Weapon...' The Great One narrowed its eyes on Yuan, but alas, it could not sense the Starry Abyss no matter how much it tried.

'He can now kill even Spirit Masters without alerting them... What a terrifyingly powerful Soul Weapon... Where on earth did he obtain it?'

If the Great One knew that such a powerful Soul Weapon had once belonged to a family of mortals, it would definitely freak out.

Whoosh! Whoosh! Whoosh!

Now that the magical beasts could not even see or detect the Starry Abyss, they have become absolutely defenseless and powerless under its attacks, and they could only stand there and wait for their turn to be killed.

The speed at which Yuan killed the magical beasts suddenly doubled with the Starry Abyss's unique ability unlocked, and he killed the remaining 10,000 magical beasts in just a few more hours.

Meanwhile, Long Yijun and the sect elders waiting outside were almost shaking from anxiety.

"It's been four days since Disciple Yuan stepped onto the 100th floor, yet he's still inside... I wonder if something happened inside..." Long Yijun mumbled with a nervous frown on his face, as he cannot even begin to imagine losing someone as talented as Yuan in just a few days after he'd joined the sect!

"I hope it's nothing serious... Maybe it's like the Tablet of Comprehension, where he is given a week to finish." Elder Xuan sighed, trying to convince himself that nothing had happened to Yuan.

"Can one even die inside the tower?" Elder Shan suddenly asked. "The magical beasts inside are merely illusions. Although they can hurt you slightly from the impact, they cannot kill you— at least I have never heard of a disciple dying inside the tower before."

"The tower won't allow a disciple to die while inside. It will automatically stop the trial if it deems the disciple to be in a dangerous situation." Long Yijun said.

"But things could be different on the 100th floor..." Bai Ling said. "After all, none of us have been to the 100th floor before, so we cannot rule out that possibility."

The place immediately turned silent.

However, the very next moment, the tower suddenly began trembling.

"Eh? What's happening?!"

Before anyone there could even react, the 100th floor emitted a golden light, and a semi-transparent golden dragon suddenly escaped the tower and

appeared in the sky directly above the Dragon Essence Temple, shocking all of the disciples there and even people outside the sect!

This golden dragon flew a few circles around the Dragon Essence Temple before flying higher into the sky and disappearing from the peoples' view. However, a sound that resembled a dragon's roar could be heard a few moments later that echoed thousands of miles away, sending chills down the spine of everyone that heard it.

"Heavens! What on earth was that just now?!" Long Yijun cried out loud afterward, feeling his body rapidly heating up and his heart throbbing like war drums!

Meanwhile, disciples all around the Dragon Essence Temple could all see a golden tower standing majestically in the Outer Court, as the tower itself had suddenly changed appearance too.

"L-Look over there! That's the Carp Leaping Over Dragon's Gate Tower! The highest floor is emitting a golden light! Does this mean someone had managed to clear all 100 floors in the tower?!"

"Impossible! Who could've done such a thing?!"

Nearly every disciple in the sect began making their way to the Outer Court to see what was going on and witness for themselves the disciple who'd managed to achieve this incredible feat.

"Just like the Tablet of Comprehension and the silver tree—the Carp Leaping Over Dragon's Gate has also become golden!" Elder Xuan exclaimed.

"H-He really did it! Disciple Yuan really defeated all 100 floors in the tower, becoming the first person in history to achieve such a grand feat!" Long Yijun stared at the tower that had all 100 floors emitting a golden light with a gawking look on his face.

"Sect Master, this is going to be troublesome. I have just received intel that many powerful figures from the other elite sects are approaching the

Dragon Essence Temple." Bai Ling suddenly said to him.

"Furthermore, the disciples from the Inner Court are also heading to this place."

"What a pain in the ass!" Long Yijun immediately retrieved his jade slip and activated it with his spiritual sense before speaking in a loud and domineering voice.

"This is the Sect Master speaking! Any disciple that approaches the Carp Leaping Over Dragon's Tower will immediately have their disciple status stripped regardless of their status! This includes sect elders too! I repeat! Stay away from the tower!"

Long Yijun broadcasted his voice throughout the sect to every disciple like some sort of in-game announcement, and all of the disciples that wanted to approach the tower immediately halted their movements and no longer dared to continue forward.

"Dealing with the disciples in the sect isn't much of an issue, but for those outside the sect... We'll have to prepare for them." Elder Xuan said.

"It is what it is. I knew Disciple Yuan wouldn't be able to keep his talents hidden for long, but we'll still try our best to protect his identity until the Mystic Realm opens! Once that happens, the people managing the Mystic Realm will definitely be able to protect him!" Long Yijun said.

And he continued, "Elder Xuan, stay here until Disciple Yuan comes out. As for the rest of us, we are going to prepare for our guests!"

"Yes, Sect Master!"

Chapter 154 - Dragon Temple

Treasure Key

Inside the tower, Yuan was bombarded with notifications after completing the challenge by defeating 100,000 magical beasts.

«Congratulations! You have passed the 100th floor of 'Carp Leaping Over Dragon's Gate' in Dragon difficulty, clearing the trial!»

«Congratulations! You have completed the hidden quest 'Dragon Trial'!»

«You have obtained the title 'Dragon Warrior'»

«Congratulations, you have slain a total of 100,000 monsters»

«You have obtained the title 'Elite Monster Slayer'»

«Because of your title 'Elite Monster Slayer', all of your damage dealt to monsters will be increased by 50%. Monsters will feel more pain from your attacks as your damage to them increases»

«Your comprehension for Flying Daggers has reached a new level»

[Flying Daggers]

[Rank: Mortal]

[Mastery Level: 3]

[Description: Control your daggers with spiritual energy and send them flying through the battlefield, slaying your enemies from a distance! Qi

consumption will vary depending on how many Daggers you control at once and its speed.]

"So you've finally defeated all 100,000 magical beasts, huh... I knew it would've happened sooner or later, but I would've never even imagined that you'd clear the trial with such ease. Congratulations, you have become the first person to completely clear the Dragon Trial, and as promised, I shall bestow you the key for the treasure room now..."

The Great One opened its eyes widely, and a golden beam pierced Yuan's head the next moment.

«You have obtained 'Dragon Temple Treasure Key'»

A few seconds later, the Great One blinked, causing the beam to disappear.

"You now have the key to the treasure room," said the Great One. "Now you just need to enter the Dragon Temple and reach the treasure room, which will also be a challenge itself."

"Thank you," Yuan said.

"No, I should be thanking you... Thank you for coming here and entertaining me. I wonder how many more years I will have to wait until the next person reaches the 100th floor again— not that it really matters for me since I am merely an illusion, so the flow of time doesn't exist for me."

"One more thing... I'm sure that you already have been told about this by the other 'me', but I'd like to repeat it again. I want you to meet the real 'me' in the upper heavens. If you obtain the Legacy within the Dragon Temple and find the real 'me', you'll be given wealth and treasures that normal people cannot even begin to imagine."

Yuan nodded and said, "Don't worry, I'll definitely try to look for the real you once I reach the upper heavens."

The Great One then said, "Very well... The farewell, young genius..."

«You are now being teleported to the first floor»

A few seconds later, Yuan disappeared from the 100th floor and reappeared on the first floor again, feeling as though everything that'd just happened was merely a dream.

Once Yuan was gone, the Great One looked at the seemingly borderless sky and mumbled in a solemn voice, "He will definitely shake the entire cultivation world with his talents in the future if he hasn't already by now... However, the more talent he has, the more difficult his cultivation path will be, and I truly hope that he'll manage to survive until he meets the real me..."

"I shouldn't do this, but I really want you to meet the real me, so I shall make this an exception and give you an extra reward..."

The Great One suddenly began glowing and disintegrating into tiny lights like a bunch of scattering fireflies, flying towards the sky and disappearing into the distance.

Meanwhile, as Yuan approached the exit that was also the exit, the walls in the room began glowing, and tiny golden orbs of light emerged from the walls before flying towards him.

"W-What is happening?" Yuan watched as the golden orbs floated towards him before going inside his body.

«You have absorbed a massive amount of Qi»

«You have absorbed enough Qi for a breakthrough»

"N-Ninth Level Spirit Warrior?!" Yuan was speechless after realizing that he'd suddenly gained 4 cultivation levels without doing anything.

Now even if he has the Pill of Concealment, he would still be at the second level of the Spirit Warrior realm, which is pretty attention-grabbing for a mere Outer Court disciple!

"I'll have to talk to Senior Xuan or one of the sect elders about this..." Yuan sighed as he opened the door and walked outside the tower.

"Huh?"

And to his surprise, almost like Elder Xuan had heard his sigh, Yuan could see Elder Xuan standing in front of the tower and staring at him with an intensive gaze.

"Senior Xuan—"

Yuan called out to him, but alas, before he could even finish speaking, Elder Xuan ran in front of him and grabbed his clothes before running away while dragging along like some kind of toy.

"I don't have time to explain right now! Just be quiet and come with me!" Elder Xuan said to Yuan in an urgent voice, dumbfounding him.

A few minutes later, they arrived at some unfamiliar building in the Inner Court and entered the building.

"W-What's going on, Senior Xuan? Why did we have to run like we're being chased by monsters?" Yuan asked him afterward.

"Why, you ask? It's all because of you!" Elder Xuan sighed out loud after locking the door.

"M-Me? Did I do something wrong?" Yuan asked him in a baffled voice, as he doesn't recall doing anything too crazy.

"Aiya... Even though we'd told you to remain lowkey until the Mystic Realm, you just had to go and show off your talents at the tower, huh?" Elder Xuan shook his head before taking a seat on the couch. "Sit down... I'll explain the situation to you right now."

Chapter 155 - A Dangerous Situation

Once Yuan took a seat, Elder Xuan continued to speak, "Because of your performance at the Carp Leaping Over Dragon's Gate Tower, it has caught the attention of many, and experts from the other elite sects are currently approaching the Dragon Essence Sect even as we speak."

"Is that so..." Yuan mumbled in a calm voice, clearly still unable to grasp the situation at hand.

Elder Xuan shook his head and sighed, "I know you probably don't understand the dangerous situation you're in right now, so I'll explain it to you again."

"Do you remember what we told you about remaining lowkey until the Mystic Realm? If you're too talented, people will become jealous, and they will do everything in their power to destroy you so that you won't become a threat in the future. However, at the Mystic Realm, if you can attract the attention of the people managing the event, they will be able to protect you, and you might even be able to ascend to the next realm— Spirit Heavens!"

"This place we are currently in is called the Lower Heavens, and the next realm is called Spirit Heavens, where Cultivators above Spirit Grandmaster exists." Elder Xuan said.

"Anyway, that isn't important right now. What's important is your safety, Disciple Yuan. The other sects will definitely pressure us into revealing your identity, but you can rest assured that we give your name to them even if we have to fight."

"I'm sorry, Senior Xuan, I didn't think that I would cause such a commotion by participating in the trial, as I was only trying to experience the sect like a normal disciple," Yuan sighed afterward.

Elder Xuan immediately became speechless. Indeed, it wasn't Yuan's fault for going to the tower, as every disciple will eventually challenge it at least once. And nobody could've predicted that Yuan would clear all 100 floors, nor could they have predicted that the tower would react in such a manner when someone cleared the 100th floor, as it has never happened before.

"You don't need to blame yourself for this, Disciple Yuan. We want you to continue to experience life as a normal disciple even after this, but you should avoid things in the sect that has a ranking." Elder Xuan said.

"As for the other elite sects... they will only pressure us, and I doubt there will really be any fighting because our Dragon Essence Temple isn't weak, and the others know of this. They won't risk going to war with us over a single disciple, especially if they don't know your identity."

"If the sect is really in trouble because of me, I will do something about it myself," Yuan suddenly said.

"Huh? What do you mean by..." Elder Xuan's eyes suddenly widened as he'd just realized the aura coming from Yuan.

"Second level Spirit Warrior?! But you should have consumed the Pill of Concealment! Does this mean you're actually at the peak level now?! Ninth level Spirit Warrior?!" Elder Xuan exclaimed in a shocked voice, as he could've never imagined that Yuan would increase his cultivation level by four whole levels in a single day.

"Is this the result of clearing all 100 floors in the tower?" Elder Xuan couldn't help but ask.

Yuan nodded and said, "I think so."

"Can you tell me what you'd experienced in the tower? Especially on the 100th floor."

"Okay." Yuan then recalled his experience in the tower to Elder Xuan.

"Dragon difficulty? Only 15 minutes of rest for every 10 floors? 100,000 magical beasts at the peak Spirit Warrior realm?" Elder Xuan began sweating midway through Yuan's experience.

'Heavens! I don't think I would be able to defeat 100,000 peak-level Spirit Warrior magical beasts in such a short time even at my current level! Yet this young man who was only at the fifth level Spirit Warrior realm at the time was able to achieve such an incredible feat in four short days!' Elder Xuan looked at Yuan with deep admiration within his gaze.

"To think you'd experienced such a journey... It's no wonder the Founder called the 100th floor 'terrifying'." Elder Xuan sighed, completely unaware that the Founder had another challenge, which was much easier than the one Yuan had to endure because Yuan didn't mention the Great One changing the challenge for him.

"Anyway, I will let the Sect Master know about this once he's done with our guests. In the meantime, you can stay here until they leave." Elder Xuan said to him. "I don't want to risk anything."

"Okay. Once again, I apologize for the trouble..." Yuan said to him.

"There's no need for you to apologize, as this is simply how the cultivation world works." Elder Xuan said to him before leaving the building to group up with Long Yijun and the other sect elders so he can assist them in case anything happens.

Once Elder Xuan was gone, Feng Yixiao's voice resounded, "Don't worry, Young Master. If anyone dares to try and harm you, I will burn them alive until there's nothing left of them— not even their bones!"

"You don't need to worry about protecting Brother Yuan because Xiao Hua alone is enough to protect him." Xiao Hua said afterward.

"Won't it be problematic if a Spirit King like you suddenly starts killing Cultivators in the Lower Heavens? You might even invoke a Heavenly

Tribulation..." Feng Yixiao said. "I think it would be safer if I, a Spirit Grandmaster, protects the Young Master. After all, I am more than enough to protect him from most threats in the Lower Heavens."

"You don't have to worry about Xiao Hua. Xiao Hua has permission to be in the Lower Heavens, and killing a few Cultivators won't affect Xiao Hua," she responded in a calm voice.

"Why are we even competing with each other about who should protect the Young Master?" Feng Yixiao sighed.

Meanwhile, in the Sect Master's headquarters, Long Yijun sat in his chair while the other sect elders stood beside him like a group of bodyguards, and sitting before them was a group of Spirit Master experts, each of them wearing uniforms belonging to a different sect.

Chapter 156 - Blessing In Disguise

"Welcome to the Dragon Essence Temple, esteemed guests. How may I help all of you today?" Long Yujin spoke with a friendly smile on his face, acting like he didn't know why they were there.

"You don't have to play dumb, Sect Master Long. You know exactly why we are here. Spare the ignorance and let us get straight to the point." One of the experts there suddenly said in an arrogant voice.

"..."

The friendly smile on Long Yijun's face immediately disappeared, and he responded in a cold voice, "Then I will be as straight as a sword— You lot coming here was a waste of time. I won't tell you anything, so you can all return to your sects now. Thank you."

"Don't be like that, Sect Master Long. We are only here because we are concerned about the phenomenon that happened in the Dragon Essence Temple not long ago," said a different individual.

"Concerned? About what? Why does whatever happens in the Dragon Essence Temple concern the Golden Hand Mountain or any of you for that matter?" Long Yijun said with a puzzled look on his face.

"Cut the crap, Sect Master Long. We didn't waste transportation treasures to come here just to go back empty-handed. Which disciple cleared all 100 floors in the Carp Leaping Over Dragon's Gate Tower? We all saw it on our way here— a golden tower with all 100 floors emitting a golden light!"

"And who told you to use those transportation treasures? I don't recall inviting any of you to the Dragon Essence Temple. Perhaps I am truly getting old..." Long Yijun cleaned his ears with his pinky.

"You damn old fart..."

The experts there gritted their teeth in irritation. They knew that it was going to be incredibly hard to get Long Yijun to open his mouth, especially when this is related to someone talented enough to make history, but they didn't expect it to be this difficult.

"Don't worry, you'll get to meet with this genius at the Mystic Realm in a month. Hahaha!" Long Yijun laughed out loud, and the sect elders standing beside him couldn't help but lose their composure and giggle like little kids in a serious classroom.

"Hmph! So what if he's slightly talented? That's not saying much since he's from this place! I doubt he'll be able to affect the Dragon Essence Temple's ranking in the Mystic Realm even if he can clear all 100 floors in the Carp Leaping Over Dragon's Gate! In fact, I bet my disciples will be able to do the same!" One of the Sect Masters there suddenly exclaimed.

"Oh? Is that so? Are you willing to bet on that?" Long Yijun's eyes suddenly flickered with profoundness.

When the Sect Master saw Long Yijun's confident grin, he said, "Good! What do you want to bet on?!"

Long Yijun suddenly retrieved his spatial ring before taking out a beautiful golden sword from within, and he said afterward, "I will bet this Dragon Slaying Saber that none of your disciples will beat 100 floors."

"The Dragon Slaying Saber?! You're really going to bet that?!" The people there were greatly shocked by Long Yijun's offer, and they all swallowed nervously when they felt the overbearing aura emitting from the golden saber.

The Dragon Slaying Saber is a Divine-grade treasure that has been passed down from Sect Masters to Sect Masters in the Dragon Essence Temple, and it was unthinkable to them that Long Yijun would be bold enough to gamble such a precious treasure.

"Hahaha! Good! Since you're so confident, I shall also be confident!" The other Sect Master also retrieved his spatial ring before taking out a long green spear.

"That's the Divine Bamboo Spear! Sect Master Wang is also going to gamble his Divine-grade treasure!"

"Hey! Let me join! I also want my disciples to participate in this fun!" Another Sect Master suddenly said.

"What are you talking about, Sect Master Chang! How are we going to split the Dragon Slaying Saber if you join?"

"We can worry about the share later!" Sect Master Chang laughed.

Long Yijun laughed inwardly when he saw these Sect Masters acting so confident that they would win.

If clearing all 100 floors of the Carp Leaping Over Dragon's Gate Tower was so simple, he wouldn't dare to gamble with the Dragon Slaying Saber!

'Hahaha! These fucking idiots! If the Founder who was widely known as the number one genius in his era couldn't clear the tower, what makes these idiots think their disciple can?!' Long Yijun tried his best to not burst out laughing, as this was an incredible chance for him to earn two Divine-grade treasures at once!

"Since it's like this, I also want in!" Another person there suddenly stepped forward.

"Me too!"

"Fuck it! Since you're all going in, I'll also put my foot forward!"

In just a few minutes, all of the guests there have decided to send their disciple to the Dragon Essence Temple to challenge the Carp Leaping Over Dragon's Gate Tower.

Meanwhile, the sect elders from the Dragon Essence Temple looked at each other with disbelief in their gaze. Are they really going to earn this much treasure from this event? Perhaps this event is actually a blessing in disguise!

"What about it, Sect Master Long? Are you willing to let our disciples challenge the Carp Leaping Over Dragon's Gate Tower? If you win this bet, you'll get to obtain many Divine-grade treasures and other priceless artifacts! If you lose, you'll only be losing one Divine-grade treasure!"

"How do I know that you'll keep your words if I actually win? I want a blood oath from everyone participating in this!" Long Yijun suddenly exclaimed.

"What? You want our blood oath?" The other Sect Masters there looked at each other with a surprised expression on their face.

"If you can't do it then you can forget about participating in the event," Long Yijun spoke with a firm look on his face, causing the others to frown.

Chapter 157 - Blood Oath

When the Sect Masters there hesitated after hearing the words 'blood oath', Long Yijun coldly sneered, "It appears that you guys are all bark and no bite. Forget it! I never expected much from a bunch of spineless old frogs anyway!"

"Wait a damn second, Sect Master Long! Who are you calling spineless?! Since you are so confident, then watch as my disciples wipe that smug off your damn face! And I am well aware of what you're trying to do here! Don't think you can earn so many treasures so easily because as long as a single disciple from one of our sects manages to clear all 100 floors, it'll be our victory!" Sect Master Wang exclaimed.

Long Yijun nodded and said, "I don't mind. However, each sect can only bring three disciples to participate. After all, I don't have the time to let every disciple in your sect challenge the tower."

"Three disciples from each sect, huh? What do you guys think?" Sect Master Wang turned to look at the other Sect Masters.

"Hmph! You're being more generous than I'd anticipated, Sect Master Long. To think you'd be generous enough to give each of us three chances instead of just one—I will bow to that! However, you have just dug yourself an even deeper hole by giving us more chances! Since that's the case, I am willing to do a blood oath!"

"Me, too! Especially if only a single disciple is needed to clear all 100 floors!"

A few moments later, Long Yijun then said, "Very well! Then let me be the first to do my blood oath!"

Long Yijun suddenly stood up and used the Dragon Slaying Saber to cut a small opening in his thumb before speaking out loud while staring at the ceiling, "I, Long Yijun, under this blood oath and with Heaven as a witness, swear that if a single disciple from the sects that belong to these individuals before me manages to clear all 100 floors in the Carp Leaping Over Dragon's Gate Tower that I will forfeit my Dragon Slaying Saber!"

Long Yijun allowed a droplet of his blood to fall on the floor after his sentence ended, but surprisingly, the blood did not touch the floor and splatter as one would expect. Instead, the blood went right through the floor and disappeared somewhere.

"I have done my blood oath. If you dare to participate in this bet, swear a blood oath!" Long Yijun looked at the Sect Masters there and spoke in a domineering voice.

Sect Master Wang then stepped forward and swore, "I, Wang Mingqing, under this blood oath and with Heaven as a witness, swear that if none of the disciples from our sect can clear all 100 floors of the Carp Leaping Over Dragon's Gate Tower that I will forfeit this Divine Bamboo Spear in my hands!"

Sect Master Wang dropped his blood onto the floor, and it also disappeared into the floor like Long Yijun's blood.

Another Sect Master there stepped forward and began another blood oath, "I, Chang Hai, under this blood oath and with Heaven as a witness, swear that if none of the disciples from our sect can clear all 100 floors of the Carp Leaping Over Dragon's Gate Tower that I will forfeit this Blood Moon Cleaver!"

In just a few minutes, nearly every Sect Master there swore a blood oath.

"What are you guys waiting for? If you guys participate, we'll have more chances. Even if we have to share the Dragon Slaying Saber with all of us here, it will definitely be worth it! And there's simply no way that our disciples won't be able to clear such a childish trial!" Sect Master Wang

looked at the rest of the Sect Masters there that didn't want to participate and encouraged them.

However, these Sect Masters remained hesitant and suspicious about the whole situation. While none of them knew just how difficult the Carp Leaping Over Dragon's Gate Tower truly was, they could feel an ominous feeling coming from Long Yijun's nonchalant expression.

"Screw it! If you're too afraid to participate then don't! It just means that we'll have fewer people to share the wealth with afterward!" Sect Master Wang sneered.

"So a total of 4 sects will be participating in this bet, huh? Very well. Send your disciples here to challenge the tower before the end of the month, as I'd rather have this resolved before the Mystic Realm begins."

"Hmph! Don't worry, they'll definitely be here to take away your Dragon Slaying Saber!" Sect Master Wang said before turning around and leaving the place.

"Make sure you clean that Dragon Slaying Saber before you hand it to us, Sect Master Long! Hahaha!" Sect Master Chang laughed out loud as he walked away.

Sometime later, once the guests were long gone, Long Yijun returned to his seat and closed his eyes, seemingly deep in his thoughts.

The sect elders also took a seat in their own chairs.

A few moments later, everybody in the room burst out laughing collectively.

"Hahaha! These idiots really believe that their disciples can clear all 100 floors in the tower! These fucking idiots have no idea what they're going up against!" Bai Ling laughed out loud.

"We've really struck gold this time! To think we'd earn 4 Divine-grade treasures without needing to do a damn thing! This is practically free

money!" Xin Ming slapped his legs as he laughed hysterically.

Sometime later, Elder Shan spoke, "Although obtaining four Divine-grade treasure is a good thing, Sect Master Wang and the others definitely won't forfeit their treasure so easily. We can expect some hostility from them afterward."

"Elder Shan is right." Long Yijun nodded and continued, "They'll definitely do whatever they can to retrieve the treasures once they lose it so we'll have to prepare for that. Luckily for us, even though they're also elite sects, they aren't powers that we cannot handle, and I doubt they are going to immediately start a war with us over a Divine-grade treasure."

Chapter 158 - Ninth Level Spirit Warrior

"What happened here? Where are the guests? Did they leave already?" Elder Xuan showed up at the scene a few minutes after the other Sect Masters left.

"Oh, Elder Xuan. You've missed it. The Dragon Essence Temple is about to be rich!" Bai Ling said to Elder Xuan with a broad smile on his face.

"Rich? How so?" Elder Xuan sat down before looking at Bai Ling with raised eyebrows.

"Well... This is what happened while you were away."

Bai Ling proceeded to explain to Elder Xuan what had transpired not long ago, about how the other Sect Masters have decided to send three disciples from each sect to challenge the Carp Leaping Over Dragon's Gate Tower, and if none of the disciples can clear 100 floors, they will each forfeit a Divine-grade treasure.

However, if a single disciple from any of the participating sects manages to clear 100 floors in the tower, the Dragon Essence Temple will forfeit the Dragon Slaying Saber.

"Heavens! You actually dared to use the Dragon Slaying Saber in a gamble, Sect Master?" Elder Xuan looked at Long Yijun with disbelief on his face.

The Dragon Slaying Saber is one of few precious treasures left behind by the Founder over 100,000 years ago before his disappearance, and it was unthinkable that Long Yijun would dare to risk it in a gamble.

"Though, unless they have someone even half as talented as Disciple Yuan, they will struggle to reach even the 99th floor. As for the 100th floor... hahaha! That's plain impossible unless they're as talented as Disciple Yuan!" Elder Xuan laughed.

Everybody in the room looked at Elder Xuan with wide eyes, as this is the first time they've seen him laugh in such a manner.

"Elder Xuan, did you perhaps ask Disciple Yuan about the 100th floor?" Elder Shan asked him.

"I certainly did! And it shocked me speechless when I heard about his experience in the tower!" Elder Xuan continued to laugh.

"Stop teasing us and share it with the rest of us already! What kind of challenge exists on the 100th floor?" Long Yijun said to him.

Elder Xuan nodded and cleared his throat before he recalled what Yuan said to him.

"Not only did Disciple Yuan have to ascend the tower at the highest difficulty set by the tower but he also had to slay magical beasts at the Spirit Warrior level on every single floor. Furthermore, he only had 10 minutes to clear each floor or he would automatically fail the challenge. To top it all off, he was only allowed 15 minutes of rest for every 10 floors!"

"Heavens! What kind of ridiculousness is that?! Even I didn't have such restrictions when I challenged the tower!" Long Yijun exclaimed in a terrified voice.

"Me neither. I had 15 minutes to rest after every floor, and I had unlimited time to clear each floor. 10 minutes per floor is simply impossible for me, especially after the 70th floor." Bai Ling said.

"Did you forget how fast Disciple Yuan cleared the tower? Not including the 100th floor, he did it in only a couple of hours! It took me nearly an entire week to reach the 85th floor!" Elder Shan sighed with admiration in her gaze.

"What about the 100th floor, Elder Xuan?" Xin Ming asked him.

"The 100th floor..." Elder Xuan took a deep breath before speaking in a slow but clear voice, "Disciple Yuan... He had to defeat a total of 100,000 peak level Spirit Warrior magical beasts..."

"One hundred— What?!"

Everybody in the room exclaimed in a terrified voice, sounding like they'd just witnessed their ancestor climbing out of their tomb.

"Not only did he have to defeat 100,000 magical beasts but he also only had 24 hours to rest. Once he uses up that 24 hours, he would no longer be able to rest. I don't know about you guys, but I wouldn't dare to claim that I can achieve such a feat at my current level even if you gave me a week of rest time, and I am a Spirit Master whilst Disciple Yuan is only a Spirit Warrior." Elder Xuan shrugged.

"A 5th level Spirit Warrior defeating 100,000 peak Spirit Warrior... I am beginning to believe that Disciple Yuan might belong to one of the Four Ancient Families." Bai Ling mumbled.

"Four Ancient Families? I doubt even they would have someone as freakish as Disciple Yuan! This young man is probably an Immortal in disguise!" Xin Ming spoke with a sweaty feeling.

"It's no wonder the Founder called it 'terrifying'. I wouldn't dare to step on the 100th floor even if I can now that I know what's waiting there." Elder Shan sighed.

"100,000 magical beasts... Hahaha... HAHAAHAHAHA! There's absolutely zero chance for those idiots now!" Long Yijun stood up and burst out laughing like some kind of maniac.

Sometime later, Elder Xuan spoke, "Oh, right. One more thing. You're going to have to give Disciple Yuan an even stronger concealment pill, Elder Shan."

"Eh? Why?" Elder Shan raised her slender eyebrows.

"Because he... he is now at the peak of the Spirit Warrior realm. I think clearing the tower had significantly improved his cultivation base." Elder Xuan said.

"P-Peak of the Spirit Warrior realm?!?!?" Elder Shan stood up from shock as did the other people there.

"B-But he's only like what? 18 years old? That's ridiculous! At this rate, he'll reach Spirit Master before the Mystic Realm even opens!" Xin Ming mumbled in a dazed voice.

"Luckily for us, the Mystic Realm doesn't limit participants by their cultivation base but their age instead." Long Yijun said. "Anyway, you guys can continue to prepare for the Mystic Realm. I shall stay here for a few more days just in case there are more guests later."

"Yes, Sect Master!"

Long Yijun then turned to look at Elder Xuan and said, "I'll leave Disciple Yuan in your hands."

Elder Xuan nodded and said with a smile on his face, "Don't worry, I'll take care of him as if he's my own grandson."

Chapter 159 - Recruitment

"Sorry for making you wait, Disciple Yuan, but you are free to go now that the guests have left. And fortunately for all of us, nothing significant had occurred." Elder Xuan said to Yuan after returning to his side.

"Just remember, don't tell anybody that you were the one who cleared the tower today no matter what, and don't approach something that has a ranking. We cannot risk having your identity leaked before the Mystic Realm." Elder Xuan gave him another reminder.

Yuan nodded and said, "Don't worry, Senior Xuan, I won't do anything that might jeopardize my life as a disciple— oh..."

Yuan suddenly stopped speaking, and then he continued, "Disciple Min, my neighbor... she knows I was supposed to enter the tower after her."

"Disciple Min... Min Li from the Seven Legacy Families?" Elder Xuan immediately frowned.

"This is going to be troublesome and complicated..." he sighed a moment later.

"Why would it be complicated? I can speak with her and ask her to not tell anyone," Yuan said.

Elder Xuan shook his head and said, "The Seven Legacy Families is not as simple as you think. Even as a Grand Elder, I cannot approach her as I please. Furthermore, the Seven Legacy Families are always looking for talented individuals to join their family, even fighting with each other at times over individuals, and I cannot imagine that Min Li would intentionally hide your existence from her family since it will greatly improve her position within the family."

"Her family recruits talented people? Why would they do that? They're not a sect, right?" Yuan asked Elder Xuan.

"They may not be a sect, but that doesn't mean they have no reason to recruit talented individuals to further expand their own family's power and influence. In fact, large families like them tend to take recruiting talents more seriously than sects." Elder Xuan said.

"Anyway, don't let my words stop you. If you think you can convince Min Li to keep your identity a secret then by all means try. Even if she lets her family know, your identity should be safe for a while since I doubt the Min Family would be stupid enough to reveal your talents for their competitors until they can secure you."

"If the Min Family cannot persuade you to join their family then they might threaten to reveal your identity. Try to stall them until the Mystic Realm if they do approach you."

Yuan nodded. "I'll keep that in mind."

Sometime later, Elder Xuan left the scene, and Yuan returned back to his own living quarters.

However, as one would have expected, a familiar figure approached Yuan and blocked his path the moment she saw his figure from afar.

"Come with me. This is not a good place to speak," Min Li said to him before turning around and entering her own home.

Yuan nodded, "I also wanted to talk with you."

Yuan then followed Min Li into her home with an innocent and calm look on his face. If it were anyone else in his shoes right now, they'd be too nervous to enter Min Li's home alone.

Once they were inside, Min Li pointed at the couch and said, "Sit down. I'll go brew us some tea."

After Yuan sat down, Min Li went into the kitchen to brew some tea.

A couple of minutes later, she returned with a whole pot of tea and two pretty teacups.

"Here. Don't worry, I didn't poison or anything like that," Min Li said to him.

Yuan raised his eyebrows after hearing her words. Why would she say something like that? It was not as though he was expecting her to poison him in the first place.

A few moments later, the two of them began sipping on the tea without talking to each other for a few more minutes until Yuan placed down the teacup and sighed in a satisfied voice.

"Haaa... That was some great tea."

"Thank you, it's a family speciality." Min Li said after she placed her own teacup down.

"Anyway, what did you want to talk to me about?" Yuan asked her afterward.

"It will be a little long, so you can go first. You also wanted to say something to me, right?" Min Li said to him.

Yuan nodded and said, "I'd appreciate it if you can keep what happened today a secret. For various reasons, I cannot let people know that I was the one who cleared the Carp Leaping Over Dragon's Gate Tower today, as it might affect my life as a normal disciple in the sect."

Min Li looked at him with a dumbfounded look on her face. "A normal disciple? You? What kind of a joke is that? Would a 'normal' disciple destroy Training Puppets with Mortal-rank techniques? Would a 'normal' disciple clear all 100 floors in the Carp Leaping Over Dragon's Gate Tower? Who are you, really?"

"I don't know what else to tell you since I have already said that I don't belong to any powerful family..." Yuan said as he scratched his head, and he

continued, "I am just someone trying to enjoy life in this world while also trying to understand the cultivation world better."

Min Li turned silent after hearing his words, and after a long moment of silence, Min Li spoke with a serious look on her face, "If what you said just now is true— that you don't belong to any powerful family, then why don't you join my family?"

"..." Yuan widened his eyes when he heard Min Li's words, but he wasn't shocked because of her words. Instead, he was surprised at how Elder Xuan was right on the mark regarding Min Li and how she might try to recruit him to join her family.

"If you join the Min Family, you'll receive endless resources from the family to assist your cultivation, and if you receive enough support from the family, there's even a good chance that you will get to travel to the upper heavens and join the Min Family that's there."

OceanofPDF.com

Chapter 160 - Seven Legacy Families

"If you manage to get accepted by the Min Family in the upper heavens, they will be able to supply you with even better cultivation resources, and your cultivation will soar at a speed that one cannot even begin to imagine. The Min Family is also a powerful family in the upper heavens, so you will have their backing."

Hearing Min Li's words, Yuan shook his head and said, "Although I am humbled that you'd invite someone like me to your family, I don't think I am ready to join any factions for real yet, as I don't want my freedom to be limited."

Min Li frowned at his words, and she spoke, "Then why did you join the Dragon Essence Temple? Your actions do not match your words, Disciple Yuan!"

"I only joined because they promised me that they wouldn't restrict my freedom and that I am allowed to leave the sect whenever I want. In other words, I am not required to give the sect my commitment. Of course, that is not to say I don't care about the sect."

"..."

Min Li turned silent afterward, and she pondered to herself.

'While it's not impossible for him to be free in the future, the Min Family will most likely restrict his movements for a while to ensure that he doesn't run away, especially if they learn about his unfathomable talents.'

Sometime later, Min Li opened her mouth again, "What do you want?"

"Huh?" Yuan raised his eyebrows in a puzzled manner.

"I'm asking you what it would take for you to join the Min Family! Do you want money? Do you want fame? If you're that kind of person, the Min Family can even provide you with as many beautiful women as you want!" Min Li said with a cold gaze.

"Uh..." Yuan was speechless. Why does Min Li seem so desperate trying to recruit him?

"Does it really matter if I join the Min Family or not? I am just a single individual, and there are plenty of talented individuals out there. It would be fine if you ignored one or two of them, right? Why do you want me to join your family so much?" Yuan decided to ask her.

"You have no idea what it means to be part of one of the Seven Legacy Families! Everything is a competition here! Your performance! Your achievements! Your contribution! Everything! I don't want to stay in the Lower Heavens forever, nor do I plan on staying here! And the only way I can leave this place is with my family's help!"

"However, just because I was born in the family doesn't mean I will naturally get their help! I must earn it! And I am currently nowhere near my goal whilst my siblings are way ahead of me! If I can recruit someone as talented as you into the Min Family, it will definitely help me achieve my goal! So please, join the Min Family! If you want, I will even become your woman! If you join the Min Family, they will definitely assign you someone within the family as your wife to keep you there, and I will volunteer to be your wife! No, I will even fight for that position if you want! If I somehow still lose, I will become your concubine instead!"

Yuan's jaw dropped after Min Li's unexpected outburst and offer. But alas, no matter how much he tried, he simply could not understand Min Li's feelings.

Yuan suddenly noticed the glistening tears in Min Li's eyes that were on the verge of falling and sliding off her face, which made him swallow nervously.

"I...Give me some time... I need to think about it..." Yuan spoke in an awkward voice a moment later.

Min Li wiped the tears from her eyes and nodded afterward.

"Don't worry, I won't reveal your identity, nor did I have the intention to from the start. After all, I cannot risk the other Legacy Families knowing about your existence before you join the Min Family!"

A few minutes later, Yuan left Min Li's house and returned to his own.

"Xiao Hua, Feng Feng, I have a question. Why would someone want to leave the Lower Heavens to go to the upper heavens? What's up there?" Yuan asked them in a pondering voice as he laid on the bed with a dazed look on his face.

"Most people— Cultivators yearn for the upper heavens because there are more opportunities there compared to this Mortal world. The Qi in that world is more abundant and dense, allowing Cultivators to cultivate many times faster. This also means the treasures that can be found in the upper heavens are more powerful and valuable, as they are being nurtured by higher quality Qi. It's like giving plants different qualities of fertilizers, and the better quality the fertilizers the better quality the plant will grow to be." Feng Yuxiang responded to his question.

"Brother Yuan, for us Cultivators, we always strive for constant growth. The Lower Heavens greatly limit our growth so it's only natural for Cultivators to want to travel to a place that is not as limiting." Xiao Hua spoke next.

"I see..." Yuan closed his eyes, seemingly trying to go to sleep.

However, Feng Yuxiang's voice resounded again.

"Young Master, if you're thinking about joining one of the Seven Legacy Families, I highly suggest you refrain from doing that."

"Eh? Why is that?" Yuan opened his eyes and asked.

"I don't know what the Seven Legacy Families look like in the Lower Heavens since I don't interact with them much, but in the upper heavens, they are all incredibly arrogant and self-centered people who will do anything to achieve their goals. I don't want someone like the Young Master to be affiliated with these kinds of people, as I am afraid that they might corrupt your mind and soul."

"As for what that little girl said... While I didn't detect any lies in her words, you can never be too cautious in the cultivation world."

Chapter 161 - Stairway To Heaven

"I see... Thank you for telling me about this. I might have rushed my judgment if it were not for you, Feng Feng. If the Seven Legacy Families are truly such nasty people then I'd rather stay away from them," Yuan said afterward.

"As for Disciple Min... Maybe I can help her achieve her dreams without needing me to join her family."

"How does one even travel to the upper heavens, anyway? I know of the Stairway to Heaven, but are there any other methods one can use to travel to the upper heavens?" Yuan asked a moment later.

"Indeed, the Stairway to Heaven is only one of multiple methods, and it's even the second most difficult method, but despite that, it's the most used method by Cultivators since the other methods are somewhat unrealistic." Feng Yuxiang said, and she continued, "The first method, as most people know, would be to breakthrough the Spirit Grandmaster realm and become a Spirit Lord. Once that happens, you will be able to access the Stairway to Heaven and ascend the staircase without needing to clear the trials as you have already qualified to ascend with your cultivation."

"For our second method, as you know, would be to challenge the Stairway to Heaven and attempt to clear the trials to gain recognition and the qualifications to ascend. This is the most commonly used method simply because this allows Cultivators who have not reached the Spirit Lord realm to ascend to the upper heavens. Of course, it's not an easy thing to achieve, and only a couple of Cultivators will manage to pass the trials and ascend to the next realm every 100 years."

"As for the third and final method... while this is technically the easiest way to ascend, it's also the most unrealistic method, as it requires someone from the upper heavens to come down to the Lower Heavens and take you to the upper heavens. This is something only the Seven Legacy Families and the Four Ancient Families can achieve, as they have families in the upper heavens."

"However, even if they can do such a thing, it requires a tremendous amount of resources for someone in the upper heavens to come down to the Lower Heavens, hence why they only do that once in a blue moon when they have someone extremely talented."

"I see..." Yuan mumbled as he obtained a firm understanding regarding the upper heavens and the Stairway to Heaven.

Sometime later, Yuan said, "I am going to log off now. Too many things have happened today and I need some rest."

"See you later, Young Master."

"Goodbye, Brother Yuan."

Yuan logged off the next moment.

Once he returned to the real world, Yuan took a few deep breaths to calm his mind before he started cultivating until Yu Rou entered his room.

"Brother, you probably know about this already but apparently something amazing happened in Cultivation Online today!" Yu Rou said to him as she cleaned his body.

"Huh? What happened?" Yuan asked her.

"Many Players within the Eastern Continent heard a loud beastly roar that traveled hundreds of thousands of miles! Some even said it sounded like a dragon's roar! Maybe there's going to be a special event and the roar was some sort of sign!"

"R-Really? I didn't hear anything, though." Yuan mumbled.

Although Elder Xuan had spoken to him about his performance at the Carp Leaping Over Dragon's Gate Tower, Elder Xuan never mentioned the dragon escaping the tower, nor did he mention the loud roar that came from it.

"If it's true, you must try to participate in this event! Who knows what you might be able to get from it!" Yu Rou said to him.

"Okay," Yuan said.

"I will also keep my ears peeled for any information regarding this event. Once I learn something, I will immediately let you know!"

Sometime later, Yu Rou left his room and returned to her own room.

Yuan continued cultivating for the rest of the night afterward.

After his morning routine, Yuan dived back into the game and wondered to himself, "What should I do today?"

Yuan retrieved the guide book and began flipping the pages until he found something interesting.

"Oh, right. I have wondered what the Mission Hall looked like ever since they introduced it to the disciples. I should take a look at it now."

With this in mind, Yuan went outside.

However, he did not immediately leave and turned to look at Min Li's house, almost like he was expecting her to come out and follow him around.

But to his surprise, Min Li didn't show up.

"I guess I'll be alone today," Yuan casually shrugged before making his way to the Mission Hall.

As Yuan walked away from the area, Min Li peeked through her window curtains and watched Yuan's back disappear from her view.

Once Yuan was gone, Min Li squatted and covered her face with her hands in an embarrassed manner.

"What in heavens' name was I thinking yesterday?! Why did I offer myself to him?! He must now think I am some slut who'd offer her body to anyone that can help me achieve my goals! Aaaaah! I shouldn't have spoken without thinking about it!" Min Li cried out loud with her face flushed with redness, feeling like digging a hole and jumping into it.

"I want to follow him and see where he's going today, but I don't have enough courage to stand before him and act like nothing happened yesterday! Ahhhhh! Damn it! I should've waited a bit longer before inviting him to join the Min Family!"

Sometime later, Yuan arrived at the Mission Hall. It was a large two-story building that took up an entire block with disciples constantly entering and leaving the place, being one of the most active areas that Yuan has experienced in the sect thus far.

But that's to be expected since this place is where most disciples go to earn their contribution points, which is mandatory if they want anything from the sect.

Chapter 162 - Visiting The Mission Hall

After taking a moment to admire the outside view of the Mission Hall, Yuan entered the building through the wide entrance that could fit even 10 adults if they stood side-by-side.

"Wow..."

Yuan was immediately baffled by the atmosphere in the Mission Hall, as it looked like some sort of unorganized office with papers pinned all over the walls. In fact, one wouldn't be able to avoid seeing these papers no matter which direction they looked.

After entering the building, Yuan approached the pinned papers on the walls and began reading a couple of them.

"The Chun Family is looking for someone to escort their carriage from Huang City to Jin City. 100 gold as a reward. Fourth level Spirit Apprentice and above preferred. 5 Contribution Points."

"The Ming Family is looking for Cultivators to clear out the magical beasts that have been roaming dangerously close to their city. 1 gold coin for every magical beast slain. Third level Spirit Apprentice and above preferred. 1 Contribution Points for every 30 magical beasts slain."

"Sect Elder Bai from the Golden Lance Palace is looking for perfectly extracted 'Poison Sacs' from Demonic Spiders. 1,000,000 gold coins each. No cultivation requirements. 5 Contribution Points for each exchange."

"The Jie Family is looking for someone to manage their household while they go on a business trip for 7 days. 15 gold coins. No cultivation requirements. No Contribution Points."

"The Lord of Sparrow City is looking for someone to slay the 'Red Demon' that is running rampant around their territory. 10,000,000 gold coins. Fifth level Spirit Warrior or above preferred. 50 Contribution Points."

After spending a couple of minutes looking through a few missions on the walls, Yuan noticed one thing. The majority of these requests were related to slaying monsters or acting as a guard for some families with some missions requiring only materials, and very few of them were not related to Cultivators. As for those missions that did not require any cultivation, the majority of them did not give Contribution Points, so one can assume that they were meant for disciples who only wanted to fulfill their duty as a disciple and nothing else.

"Oh? Those papers are colored differently." Yuan noticed the yellow papers gathered not too far away from him and approached them.

"Inner Court Disciple Huang is looking for a sparring partner. 1 Contribution Points for every hour of sparring. First level to second level Spirit Warrior. Meet at Lonely Peak in three days at 3 PM after the posting date."

"Outer Court Disciple Gong is looking for someone to clean his clothes. 1 Contribution Points for every 50 batches of clothes. No cultivation required. Meet at building #2,910 in the Outer Court."

"Core Disciple Xing is looking for someone to give her massages once a week. 5 Contribution Points every session. No cultivation level. Female disciples only. Meet at building #55 in the Inner Court. An interview is required before being hired."

Yuan read these yellow-colored missions with his interest piqued, 'So even disciples are allowed to create their own request to put in the Mission Hall, huh? However, won't disciples be able to abuse this by coordinating with

each other so they can complete each other's mission and avoid doing real missions to fulfill their disciple duties?'

However, after looking around some more, Yuan noticed a large paper that said, "Requests commissioned by fellow disciples will not count towards your disciple duties!"

"Oh... I guess this solves it..." Yuan mumbled to himself.

Yuan then looked at the Contribution Points he had left.

'781... I should be fine for a while even if I don't do any missions. However, I do want to experience what it would be like to accept a mission. I don't want to travel outside the sect so I'll pick one created by a fellow disciple.'

With that in mind, Yuan began looking through most of the missions that were requested by disciples in the Dragon Essence Temple.

After looking for a few minutes, Yuan's gaze suddenly stopped at a particular mission, mostly because it mentioned a word that immediately caught his attention.

"Core Disciple Fei is looking for an Outer Court disciple surnamed 'Yuan' who is experienced with the zither. 50 Contribution Points to anyone that can provide accurate information that leads her to him."

'50 Contribution Points just to find me?! That's the same level of reward as the other mission that required one to fight some 'Red Demon'! Fairy Fei? Isn't this the disciple who played the zither at the Dragon Pavilion? Why is she looking for me?' Yuan mumbled to himself.

After pondering for some more, Yuan turned to look at the disciple standing beside him and gently tapped the disciple's shoulder.

"Excuse me, this is my first time in the Mission Hall. How do I accept a mission?" Yuan asked the disciple in a friendly voice.

"Oh... You can just tear the request off the wall and take it to the counter over there—" The disciple pointed to the desks near the entrance.

"Thank you very much," Yuan said to the disciple before taking Fairy Fei's request off the wall and walking towards the desk.

"I'd like to accept this mission from Core Disciple Fei." Yuan showed the request to the sect elder behind the desk.

"Core Disciple Fei?" The sect elder looked at the request with wide eyes.

"50 Contribution Points for a request of this level?" The sect elder was speechless, as this is possibly the most overpaid request he has ever seen before.

However, since this is Core Disciple Fei who is known for being rich with Contribution Points because of her contributions at the Dragon Pavilion, it wasn't too shocking that she'd spend so luxuriously for something so simple.

"What's your name?" The sect elder asked.

"Disciple Yuan," Yuan responded.

"Eh?" The sect elder looked at Yuan in the face with a gawking expression. What on earth was going on here? Is he the same person Disciple Fei was looking for? Why is he turning himself in?

'Ah, whatever. It's not my job to care about such matters.' The sect elder thought to himself and decided to ignore their situation.

Chapter 163 - Disciple Fei

"Here, take this, you'll need it to enter the Inner Court since you're still an Outer Court disciple. You can also locate Core Disciple Fei's living quarters with this." The sect elder handed Yuan a token after writing a few things down in his book.

"Thank you," Yuan accepted the token and turned to walk out of the Mission Hall shortly after.

After leaving the Mission Hall, Yuan followed the map in the token to Fairy Fei's living quarters.

An hour later, Yuan reached the end of the Outer Court that was also a border between the Outer Court and Inner Court.

"I would like to enter the Inner Court for a mission," Yuan handed the token to one of the sect elders stationed there.

"Hmm... let me see..."

The sect elder looked at the token and nodded, "I see... Okay, here's your permission slip. Make sure you don't lose it, and you are only allowed to stay within the Inner Court for 4 hours. Once your time is up, the permission slip will destroy itself. If you're caught inside the Inner Court without a permission slip, you'll be punished, so make sure you keep that in mind. Of course, you can extend the time by coming back here. However, I am only allowed to extend your time if you still haven't completed your mission."

"I understand," Yuan nodded.

After entering the Inner Court, Yuan continued to follow the path towards Fairy Fei's house, and as an Outer Court disciple inside the Inner Court, Yuan naturally attracted the gazes of the Inner Court disciples there.

Although he'd encountered a few Outer Court disciples on his way to Fairy Fei's house, it was only like one out of one thousand disciples that were Outer Court disciples there.

Many minutes later, he arrived in the area where Core Disciples live.

"Let's see... building #7..." Yuan walked around the spacious area and looked at each building individually.

After walking for about ten minutes, Yuan suddenly stopped walking when a distinct sound entered his ears.

"This sound... Someone's playing the zither. It's most likely Disciple Fei."

Yuan proceeded to follow the sound of the zither and arrived in front of this large building a few minutes later.

Right as Yuan stepped onto the doorstep, the zither music stopped, and the sound of people clapping followed immediately afterward.

"That was amazing, Senior Sister Fei! It's only been a week since I last heard you play the zither and you have already improved to the degree where I almost couldn't recognize your music!"

"Me too! If I didn't watch you play, I would've thought it was someone else!"

"Congratulations, Senior Sister! Your Zither Arts has improved to another level yet again! At this rate, it won't be long before you are able to use 'that' Zither Technique!"

Yuan could hear a couple of unique voices coming from the other side of the house, and they were all female voices.

Knock *Knock*

Yuan knocked on the door a few moments after the zither music stopped.

"Are we missing someone today? I thought we weren't expecting any more guests today."

"I don't think anyone else is supposed to be here."

"I'll go see who it is..."

A few moments later, a pretty Inner Court disciple opened the door and appeared before Yuan.

"An Outer Court disciple? Do you know whose door you're knocking? What do you want?" The Inner Court disciple asked Yuan with an irritated expression on her face, mostly because she saw Yuan as a nuisance who was disturbing their time with Fairy Fei.

"I'm here to see Disciple Fei," Yuan said to her.

"D-Disciple Fei?" The Inner Court disciple looked at Yuan with a gawking expression on her face, almost like she was in disbelief.

"Y-You're just a mere Outer Court disciple! How dare you address a Core Disciple so casually? Do you think you are friends with her or something?! Get out of here before I shove my foot up your butt!"

Yuan was speechless. Why did the Inner Court disciple suddenly become so aggressive?

"Calm down, Junior Sister Feng. A young lady shouldn't speak so vulgarly, especially not when you're in Senior Sister Fei's house. What's with the commotion, anyway?" Another Inner Court disciple appeared before them.

"Hmph! Blame this disrespectful Outer Court disciple!" Disciple Feng said while pointing at Yuan's innocent-looking face.

"Hm?" The second Inner Court disciple looked at Yuan's handsome face for a moment before speaking, "What did you do to anger my Junior Sister so much?"

"I... I don't know." Yuan shrugged his shoulders in an innocent manner.

"Y-You little thing!" Disciple Feng immediately fumed again. "How dare you say that you don't know! You addressed Senior Sister Fei as 'Disciple Fei' like you're her friend! That is unacceptable for an Outer Court disciple!"

Yuan looked at her with wide eyes, "Really? What's wrong with calling a fellow disciple 'disciple'?"

"Are you seeing this, Senior Sister Ying? This guy has no awareness at all!"

The other Inner Court disciple shook her head with a bittersweet smile on her face, and she said, "You're here for Senior Sister Fei, right? Since you were able to come here, it must have been approved by a sect elder. Why do you need to see her?"

Yuan then retrieved the mission paper and showed it to them, "I'm here for this."

"Let me see that..." Disciple Ying took the paper from his hands to look at it closely.

"Did you know about this? I didn't know that Senior Sister Fei had created a request in the Mission Hall. And who's this 'Yuan'?"

"Uhh... That would be—"

Before Yuan could even finish his sentence, another voice interrupted him, "What's going on out here? Who's outside disturbing my performance?"

A few moments later, Fairy Fei appeared before them.

"H-Hello..." Yuan said to her with a stiff smile on his face.

"Y-You are!" Fairy Fei's eyes widened with shock after seeing Yuan's face, and she staggered backward until she bumped into a wall.

Chapter 164 - Do You Know This Outer Court Disciple?

"Y-You are! What are you doing here?!" Fairy Fei pointed at Yuan with trembling fingers and a shocked look on her face, dumbfounding the Inner Court disciples there.

"S-Senior Sister Fei? Are you okay? Do you know this Outer Court disciple?" Disciple Ying decided to ask her.

"I... I..." Fairy Fei was speechless. How is she supposed to answer such a question? Tell them that she was defeated by this Outer Court disciple in her own field of expertise?

"T-This Outer Court disciple... is my assistant!" Fairy Fei spurted out without thinking.

"Your assistant?" They all looked at her with wide eyes.

'Since when did Senior Sister Fei need an assistant?' Disciple Feng wondered to herself.

'Since when did I become her assistant?' Yuan asked himself with his eyebrows raised in a funny manner.

Fairy Fei immediately panicked, and she corrected herself after clearing her throat, "I-I meant to say that he's my student! That's right! I am currently teaching him how to play the zither!"

"What?! You accepted this Outer Court disciple as your student?!" Disciple Feng exclaimed in a baffled voice. Why did Fairy Fei accept an Outer Court

disciple as her student— a man at that— when she, an Inner Court disciple and her friend, has been asking Fairy Fei to teach her the zither?

"He may not seem like it but he has great talent, and I believe that he will eventually surpass me one day..." Fairy Fei spoke whilst trying her best to not choke on her own words due to how ridiculous it sounded for her.

Fairy Fei looked at Yuan with her heart beating like crazy, but when she noticed that Yuan wasn't saying anything, much less call out her bullshit even a few moments later, she sighed in relief inwardly.

"I-If you think I have made a mistake by accepting him as my student, why don't we let him play the zither so you can determine whether he's truly worthy or not?" Fairy Fei suddenly suggested.

The disciples there turned to look at Yuan with suspicious gazes.

'Can he really play the zither?' They wondered inwardly because usually only women would pick up the zither.

"What do you think, Disciple Yuan? Can you play the zither for us? Just one song will be enough..." Fairy Fei looked at Yuan with a stiff smile on her face.

"I don't mind, since I would also like to play the zither again..." Yuan nodded his head after pondering for a moment.

"Great! Come inside!" Fairy Fei's face beamed with delight after seeing Yuan's approval.

"Uhh..."

Disciple Ying and Disciple Feng looked at Fairy Fei with a dumbfounded look on their faces, as Fairy Fei looked to be the most excited one for some reason.

Sometime later, Yuan entered Fairy Fei's house and closed the door behind him before following Fairy Fei and the Inner Court disciples to the yard behind the house, where two more Inner Court disciples were waiting.

"Welcome back, Senior Sister Fei. What took you so long? My ears have gone cold from waiting for your next song!" One of the disciples there said.

"Hmm? Who's that? Eh? An Outer Court disciple? And a man at that? Why is he here?" The other disciple asked after seeing Yuan's figure.

"Junior Sister Zhao, Junior Sister Gu, this is Disciple Yuan, an Outer Court disciple and also my student," Fairy Fei introduced Yuan to the two girls and vice versa.

"S-Student? Senior Sister Fei's student? How come this is my first time hearing about this?" Disciple Gu mumbled, as she has known Disciple Fei for many years now.

"Because it was only recently that I'd accepted him as my student." Disciple Fei said.

"Anyway, Disciple Yuan is going to play one song for us as an introduction."

"You can use that zither over there." Disciple Fei pointed at the beautiful zither sitting on the table a few meters away.

Yuan nodded and sat down behind the zither a moment later.

'Senior Sister Fei is actually letting a man touch her zither? This is... Shocking would be an understatement...' The disciples there looked at Yuan sitting behind the zither with dumbfounded expressions on their pretty faces.

They all knew how much Disciple Fei treasured her precious zither— so much so that even they had never touched her zither before.

Meanwhile, Yuan stared at the elegant azure-colored zither before him with a calm gaze.

After a moment of silence, Yuan lifted his head to look at Disciple Fei and asked her, "Which song should I play?"

"Do you remember the first song you played on that day? You can play that one."

Yuan nodded and took a deep breath before lifting his arms in a slow but smooth manner.

The next moment— Ting~!

A string on the zither trembled, creating a clean and crisp sound that immediately pulled the heartstrings of the disciples sitting not far away from it.

Another beautiful zither note resounded in the area not even half a second later.

'W-What is this feeling?' They all wondered to themselves the indescribable feeling in their heart, completely unaware that they'd just been bewitched by Yuan's zither skills.

Meanwhile, Disciple Fei had long closed her eyes to fully indulge herself in Yuan's zither music.

Time passed very quickly, and before the disciples were aware, Yuan played the last note on the zither.

"What do you think?" Yuan asked the disciples, snapping them out of their daze.

"I... Uhh..."

The disciples were speechless, and they turned to look at Disciple Fei with perplexed looks on their faces. While it was obvious that Yuan's performance was superior when compared to Disciple Fei's performance that occurred before Yuan's appearance, they didn't dare to say it to her face, as that might anger her and get them banned from listening to her performances in the future.

"C-Can you play another song? I don't think I can tell your skills just from a single song..." Disciple Zhao suddenly said.

When the other disciples heard Disciple Zhao's words, they quickly agreed with her, "Yeah! Play another song for us so we can judge properly!"

Chapter 165 - In Need Of A Partner

When the female disciples began demanding a second song, Yuan turned to look at Disciple Fei, who quickly nodded her head, giving him the approval to continue using her zither.

Thus, Yuan placed his fingers on the zither strings once again and began playing another song.

The atmosphere immediately changed again, and Yuan's zither music echoed throughout the area, allowing disciples far away from their location to enjoy the music as well.

"Wow! This must be Fairy Fei's zither performance! I think she has improved yet again!"

"As expected of a genius, her talents with the zither are off the charts!"

"What beautiful music... I can listen to this all day if it was an option..."

Yuan finished his second song a few minutes later, and the world turned quiet again, even feeling a little bit lonely without the music.

"A-Again! Play another song, Disciple Yuan!" One of the Inner Court disciples said with a slightly bashful look on her face.

"Yeah! Two songs are not enough! You need to play at least a dozen songs!" Another one said.

"A dozen songs...?" Yuan raised his eyebrows.

"You can play until you are satisfied," Disciple Fei suddenly said to him.

Yuan nodded, and he began playing the zither again shortly after.

Meanwhile, the Inner Court disciples and Disciple Fei closed their eyes and fully indulged themselves in the music, feeling their minds entering an indescribable state that allowed them to think with more clarity, almost like there was some sort of special effects coming from Yuan's zither play.

An hour later, Yuan suddenly stopped playing the zither, as he'd run out of songs to play.

"Eh? Why did you stop? I was so close to entering a state of enlightenment! At least that's what it felt like!"

"Don't stop! Play some more!"

The Inner Court disciples immediately began complaining.

However, Yuan shook his head and said, "That's all the songs I know."

"Just repeat the songs then!" One of them quickly responded.

"Okay, calm down, Junior Sisters. Disciple Yuan has already showcased his abilities enough. Let's give him a break." Disciple Fei said, and she continued, "Furthermore, this gathering was supposed to end over an hour ago. Come back next month, perhaps Disciple Yuan will be here again."

"If you say so, Senior Sister Fei..."

Although the Inner Court disciples were reluctant to leave, they had no choice.

"I'm sorry for being rude to you at the beginning, Disciple Yuan." Disciple Feng said to him with an apologetic expression on her face before leaving the place.

"I would also like to apologize for doubting your abilities, Disciple Yuan. Thank you for today's performance." Disciple Ying said to him with a

friendly smile on her face.

"If you ever need anything, you can find me at Building #921," said Disciple Gu.

"See you next time, Disciple Yuan. Make sure you're here next month, too!" Disciple Zhao said to him.

Once all of the Inner Court disciples left the place, leaving Yuan and Disciple Fei alone, Disciple Fei immediately lowered her head slightly and spoke in an apologetic voice, "I am really sorry for calling you my student and pressuring you to play the zither again!"

Yuan shook his head and spoke in a calm voice, "There's no need to apologize. I don't mind it, and I also wanted to play the zither."

Disciple Fei nodded, and then she said a moment later, "By the way, what are you doing here? Why were you knocking on my house?"

"Oh, right... I nearly forgot..." Yuan showed Disciple Fei the mission that she'd created.

"Ah... that..." Disciple Fei immediately blushed, looking like someone who was caught doing something embarrassing.

"I wanted to look for you regarding something coming up, but I didn't know where you lived or who you were even after asking many sect elders, so I could only resort to such a method..." Disciple Fei said, and then she continued, "And since you showed up yourself, I guess it technically means that you have completed my request, so I'll give you the 50 contribution points now. Give me your identification token."

Yuan nodded and handed Disciple Fei his identification token.

"Hm? This is a bronze identification slip. What happened to your gold one?" Disciple Fei asked him when she noticed this.

"You mean this one? I only use it when I need contribution points since the bronze one has none," Yuan explained.

"Y-You have two identification tokens?" Disciple Fei looked at him with wide eyes.

Why would they give him two identification tokens? It was almost as though the sect was trying to hide Yuan's real identity.

However, Disciple Fei decided to not think too deeply about this for now and transferred the contribution points to him.

"I gave you 60 contribution points instead of 50 because of your performance just now," Disciple Fei said to him after returning the identification token to him.

"Thank you," Yuan said afterward.

"By the way, you said that you were looking for me? Why?" Yuan asked sometime later.

"About that..." Disciple Fei suddenly began acting hesitant.

A few moments of silence later, she spoke, "Well... I am in need of a partner..."

"Partner?" Yuan raised his eyebrows.

"What kind of partner?" He asked her with an innocent face.

One would normally think of 'lovers' when they hear the word 'partner' from a female, but Yuan was too innocent to think of such things.

"There will be a large zither competition next week, and I need a partner in order to even participate. I have been looking for someone who can play the zither even half as decent as I can, but there's no such person in the Dragon Essence Temple. However, you... you can definitely do it! Please! I will pay you as many contribution points as you want if we can participate in this competition!" Disciple Fei said to him in a slightly desperate voice.

"Zither competition, huh? What's so special about this competition anyway?" Yuan asked, his interest piqued.

Chapter 166 - Zither Competition

Hearing Yuan's question, Disciple Fei said, "This zither competition is one of the largest competitions in the continent that occurs only once every three years, and as you may have expected, it gathers the best musicians from around the world. Despite my abilities that are widely praised by the entire sect, I'd only placed 7th in the last competition out of thousands of participants."

"Seventh out of thousands? That's already very good..." Yuan said with slightly wide eyes.

"Seventh place may be good but it isn't good enough! I want at least 3rd place, as that's when you get the real rewards!" Disciple Fei said.

"What kind of rewards?" Yuan asked, his interest piqued.

"For the last competition, third place got some Earth-rank Zither Art as a reward. The second place received a Heaven-rank Zither Art, and the first place received a Heaven-grade treasure that is also a zither."

"Zither Art? What are those?" Yuan asked.

"They are... Here, let me show you instead. It'll be much quicker that way."

Disciple Fei then sat behind her zither and took a deep breath before pulling one of its strings.

Ting!

A sharp and aggressive music note that Yuan wasn't familiar with resounded and a somewhat transparent arc that resembled Yu Rou's Wind Blade technique flew from the zither before hitting a teacup on the table a

few meters away and cleanly slicing it in half, almost like someone had slashed it with a thin sword or a sharp weapon.

/p>

"What you've witnessed just now is Zither Art without any techniques. By infusing some spiritual energy into your fingers and releasing it with the zither, you can turn the zither into a deadly long-range weapon." Disciple Fei said to him.

"Turning instruments into weapons?" Yuan looked at her with a gawking expression on his face, as he would've never imagined that such a thing could be possible.

Disciple Fei then continued, "As for this year's competition... Because they will be receiving support from the Heaven and Earth Palace, the rewards have become much more valuable and desirable. Third place will receive an Earth-rank Zither Art technique and an Earth-grade treasure. The second place will receive a Heaven-rank Zither Art technique and a Heaven-grade treasure. As for the first place, shockingly, you will receive a Divine-rank Zither Art technique and a Heaven-grade treasure! Do you have any idea how valuable Divine-rank techniques are?!"

"A Divine-rank Zither Art technique..." Yuan mumbled in a low voice.

However, despite the temptation of a Divine-rank technique, Yuan was more interested in the Heaven-grade treasure, as he wanted a zither of his own.

"And you want me to participate in this competition with you, right?" Yuan asked her a moment later.

"That's right! With your zither skills, we'll have a great chance of reaching the top 3! If we reach the top three, we'll share the Earth-rank Zither Art and you can keep the zither since I already have one! My current Zither Art is only Mortal-rank after all! What do you think? I'll even pay you contribution points for your participation!" Disciple Fei looked at him with a pleading gaze.

After pondering for a moment, Yuan nodded his head and said, "Okay, I'll participate in this competition with you. Just let me know when."

"Thank you very much! I'll let my Master know later!" Disciple Fei was so excited that she unconsciously grabbed Yuan's hands and shook them vigorously.

/p>

"By the way, now that we're going to be partners in this big competition, we'll need to practice and hone our skills before the competition. Since you cannot enter the Inner Court easily as an Outer Court disciple, I will come to your living quarters instead so that we can practice together. Where do you live?" Disciple Fei asked him later.

"Building #70," Yuan answered with a calm face.

"That area, huh? Well, it's not too surprising since you have a gold identification token. Okay, I'll see you there first thing tomorrow morning!" Disciple Fei said.

Sometime later, Yuan left her house and the Inner Court, returning back to his own house.

'A music competition, huh? How long has it been since I'd last participated in one...?' Yuan thought to himself. As someone who has participated in hundreds of competitions before, he couldn't help but feel excited about participating in another competition after so long.

Once Yuan left, Disciple Fei also left her house to seek out Elder Shan, her Master.

"Master, I have something important to tell you."

"Hm? Disciple Fei? What's the matter?" Elder Shan stopped working and looked at her.

"This is regarding the zither competition next week."

/p>

"Oh, right, the one backed by the Heaven and Earth Palace. What about it? If I recall correctly, you are required to bring a partner this time. Did you find one yet?" Elder Shan asked her.

Disciple Fei nodded and said, "Yes, I found someone, and he's that Disciple Yuan I mentioned not too long ago."

"D-Did you just say Disciple Yuan?!" Elder Shan exclaimed in a shocked manner.

"Y-Yes... Is there a problem with that?" Disciple Fei asked with a nervous look on her face.

Elder Shan did not immediately respond to her and silently pondered with a deep frown.

A moment of silence later, Elder Shan spoke, "Disciple Yuan... What did he say?"

"Uhhh... He'd agreed to participate in the competition with me," she responded.

"I see..." Elder Shan closed her eyes and sighed.

After another moment of silence, Elder Shan stood up and said, "Follow me."

/p>

"Eh? Where are we going, Master?" Disciple Fei raised her eyebrows as she followed Elder Shan outside.

"To meet with the Sect Master."

"The Sect Master?! W-Why?! Did I do something wrong?!" Disciple Fei exclaimed with a nervous look on her face because only disciples who are in deep trouble with the sect would meet the Sect Master.

"Calm down, you're not in trouble. This is about Disciple Yuan. I don't know how much you know about him but I'm sure that you can tell that his existence within the sect is a unique one." Elder Shan said to her.

"D-Disciple Yuan? Is he's really that special?" Disciple Fei looked at her with a dumbfounded face.

"Special is an understatement, my dear disciple. You'll understand more about him in just a moment." Elder Shan said as she brought Disciple Fei to the Sect Master's headquarters.

Chapter 167 - What Did He Do This Time?

"Sect Master, this is Elder Shan. I have something important to talk about regarding Disciple Yuan," Elder Shan knocked on Long Yijun's door and said from the outside.

"Disciple Yuan? What did he do this time?" Long Yijun immediately sighed and stopped working.

"Come inside!"

Elder Shan opened the door a moment later and entered the room with Disciple Fei following behind her.

"Hm?" Long Yijun raised his eyebrows after seeing Disciple Fei, wondering what she's doing there and how she's related to this situation.

"Disciple Fei, go ahead and tell the Sect Master what you told me before coming here," Elder Shan looked at her and said.

Disciple Fei nodded and stepped forward before bowing to Long Yijun in a respectful manner, "Core Disciple Fei greets the Sect Master."

After greeting Long Yijun, Disciple Fei began to speak, "I will be participating in the zither competition that will be held in a week with my partner, an Outer Court disciple surnamed Yuan."

"Zither competition? With Disciple Yuan?" Long Yijun's jaw loosened a little bit after hearing her words. Since when did Yuan become a zither expert?

Disciple Fei nodded and said, "Disciple Yuan has outstanding talents with the zither, and I believe that we have a good chance of obtaining third place if he participated in the competition with me."

/p>

"Third place? If I recalled correctly, you'd placed 7th place for the last competition," Long Yijun said with a pondering face.

"That's correct, Sect Master."

After pondering for a moment, Long Yijun spoke, "I am aware that this competition is being backed by the Heaven and Earth Palace, so the competition will be much fiercer this year. What makes you think you will be able to achieve 3rd place?"

"If you'd listened to Disciple Yuan playing the zither, you would understand my feelings, Sect Master. I... I'd managed to obtain zither enlightenment after listening to his zither play."

"What?! Enlightenment? Just like that?!" Long Yijun exclaimed in a shocked voice, as this is his first time hearing of such a thing.

Disciple Fei nodded.

'Maybe I should also listen to Disciple Yuan play the zither...' Long Yijun thought to himself.

Sometime later, Long Yijun said, "Anyway, I understand the situation now, but letting Disciple Yuan leave the sect is not as simple as you think, Disciple Fei, as his existence within the sect is... a little special to say the least..."

"If I may ask, just who is Disciple Yuan, exactly? He's clearly someone with an important background, but I do not recognize him at all, nor have I ever heard of someone like him!" Disciple Fei said.

/p>

Long Yijun took a deep breath before speaking, "To tell you the truth, Disciple Fei, we also have no clue as to what Disciple Yuan's true background is. There are speculations that he's from one of the Four Ancient Families, but that is only a speculation at best."

"The Four Ancient Families?!" Disciple Fei's jaw dropped after hearing this.

Even if it is only speculation, it was still incredibly shocking that they'd evaluate Yuan as someone worthy enough to exist in one of the Four Ancient Families.

After a moment of silence, Disciple Fei asked Long Yijun with a worried look on her face, "Then what's going to happen now? Are you going to forbid him from participating in the competition?"

"What? Of course not!" Long Yijun quickly responded with a surprised look on his face.

Although he won't say it because it would affect his face and position as the Sect Master, he actually didn't dare to confine Yuan inside the sect despite his value to them, especially after promising him that they would not restrict his movements and freedom.

"Then he can participate in the competition with me?" Disciple Fei asked again with a slightly excited look on her face.

"If that's what he wants to do, there's no reason for me to refuse, especially if you are so confident that you would achieve 3rd place in the tournament. After all, any reputation or recognition you gain from the competition will also affect the Dragon Essence Temple." Long Yijun nodded.

He then turned to look at Elder Shan and said, "I hope you don't mind, and I am not doubting your abilities, but since Disciple Yuan will be coming with you, I want Elder Xuan to accompany you just in case."

/p>

Elder Shan nodded and said, "Don't worry, I completely understand. I won't be able to sleep for the rest of my life if anything were to happen to him while we are outside. In fact, even if you didn't mention it, I would've personally asked for help."

Long Yijun nodded and said a moment later, "Then I will look forward to your results, Disciple Fei."

"Thank you, Sect Master. I will try my best to bring glory to the Dragon Essence Temple." Disciple Fei bowed before leaving the place with Elder Shan shortly after.

"Zither competition, huh? I just hope that he doesn't make a commotion there..." Long Yijun sighed as he laid back on his seat, experiencing an uneasy feeling in his chest for some reason.

After leaving the Sect Master's headquarters, Disciple Fei asked Elder Shan, "Master, do you really think Disciple Yuan belongs to one of the Four Ancient Families?"

"Honestly, I have a feeling that his true background might even surpass that of the Four Ancient Families. You weren't there to witness it, but Disciple Yuan's cultivation talent... It's so ridiculously insane that it's scary."

"Above the Four Ancient Families? Does a power like that even exist in the Lower Heavens? I thought the Four Ancient Families are the strongest within the Lower Heavens." Disciple Fei said.

Elder Shan shook her head and said, "The Lower Heavens may seem small compared to the upper heavens, but there are many powerful and hidden backgrounds in this world that prefer to remain lowkey or unknown to the rest of the world as a method of survival, and the Four Ancient Families is just scratching the surface of what might exist— at least that's what I think."

Chapter 168 - Abandoned Shed

After returning to her own place, Elder Shan asked Disciple Fei, "What are you going to do now?"

"I am going to prepare myself for the competition and practice my zither arts with Disciple Yuan until then. If what he said is true— that he has never played the zither before until very recently, I believe that his skills will reach an unbelievably high level within a week before the tournament."

"W-Wait a second... Did you just say Disciple Yuan has only recently started playing the zither?" Elder Shan looked at her with wide eyes.

Disciple Fei nodded and said, "I know it's really hard to believe such words, but I don't see a reason for him to lie, and he doesn't seem to be the kind of person to lie about such things."

"Hard to believe? Haha! That's hardly true!" Elder Shan suddenly began laughing, dumbfounding her.

And she continued a moment later, "With his comprehension skills, it would be more shocking if he doesn't learn so quickly!"

"I-Is that so?" Disciple Fei mumbled in a slightly dazed word.

"Anyway, you can leave now and prepare for the competition. I'm already being overworked by the Sect Master because of the Mystic Realm. If I don't finish this work before your competition starts, things will get even more complicated for me!" Elder Shan sighed.

"Then I won't bother you any longer. Thank you, Master, for your time." Disciple Fei bowed to Elder Shan before leaving the place and returning to her own home to prepare.

Elder Shan shook her head with a bittersweet smile before returning to her own work.

/p>

Meanwhile, after returning to his own home, Yuan logged off the game and proceeded to cultivate in the real world until Yu Rou returned from school.

"Brother! I have some big news!" Yu Rou came into his room shouting.

"What's the matter?" Yuan asked.

"I just saw this from the forums as I was coming home, but there's going to be some sort of large competition that'll be happening in the Eastern Continent sometime next week, and it's related to playing the zither! Rumors have it that you can obtain a Divine-rank technique if you achieve first place!" Yu Rou said to him.

"Oh, that zither competition? I know about it since I will be participating in it." Yuan responded in a calm manner.

"WHAT?!"

Yu Rou nearly tripped on herself after hearing Yuan's unexpected words.

"Y-You're going to participate in a music competition again?!" Yu Rou exclaimed afterward, her gaze on Yuan filled with shock and excitement.

"It's only a competition inside the game, and I doubt I will be able to achieve any good results since I have only learned about the zither only very recently," Yuan said.

/p>

"You're underestimating yourself, brother! Did you forget who you are? The number one musical prodigy who has mastered dozens of instruments from around the world before the age of seven! One week is more than enough for you to completely master the zither!" Yu Rou said.

"If I recall correctly, you'd even mastered the piano in less than 3 days!"

"Genius, huh? I don't really like to associate myself with that word, but that's probably because I have been called such a word countless times that I am tired of hearing it," Yuan sighed.

"There's nothing you can really do about it, brother. What do you expect to do? Call you the opposite of what you are? If you're a genius, people will naturally call you one." Yu Rou said.

And she continued, "The only other way is to not let people know that you are a genius, but brother, that's easier said than done. How does one even hide their talents? Especially someone like you... Even an ignorant person would be able to tell that you are a genius just by your performance at something."

"Anyway, you'll be participating in this zither competition, right? Although you can't see my face right now, I am actually really bitter that I won't be able to witness your brilliance in the competition, brother." Yu Rou sighed.

"Don't worry, there will always be another chance," Yuan said.

"I hope so..."

Sometime later, after dinner, Yu Rou left Yuan's room, but she didn't immediately return to her own room like usual and instead took a detour to a large shed behind the main house with Meixiu follow behind her.

/p>

"Young Lady, this place is..." Meixiu looked at this shed with a perplexed look on her face. Why did Yu Rou suddenly decide to come to this place? It has been many years since they visited this seemingly abandoned shed.

"Do you have the key for the lock?" Yu Rou asked her.

"Yes. Here is the key, Young Lady." Meixiu handed her a somewhat rusty key the next moment.

A few seconds later, Yu Rou unlocked the heavy lock that kept the doors closed for many years before walking inside and flipping a switch.

After a few flickers, the light turned on, revealing the inside of the shed that had many shelves and display cases placed inside, and sitting on these display cases were golden trophies of all sizes and shapes that were won from small contests to major competitions with all of them related to music.

"No matter how many times I come here and look at these trophies, this breathtaking scenery always leaves me speechless," Yu Rou mumbled in a low voice as she approached these display cases and looked at the golden trophies.

[Awarded to Yu Tian for taking 1st place in the 23rd National Piano Competition]

[Awarded to Yu Tian for his breathtaking performance during 'Battle of Talents']

[Awarded to Yu Tian for ranking 1st place in the Rising Stars Grand Prix]

/p>

Over three hundred of such trophies filled the shelves and display cases inside the large shed, turning it into some sort of trophy museum. One can only imagine how long it'd take to collect all of these trophies even for a group of geniuses, let alone a single prodigy— Yu Tian— whose name occupied every single golden trophy in this room without a single one of them ranking below 1st place!

Chapter 169 - Trophy Room

"I haven't been to this place ever since Brother Tian stopped participating in competitions..." Yu Rou sighed while surrounded by hundreds of golden trophies.

"Then why did the Young Lady suddenly decide to return to this place?" Meixiu couldn't help but ask her out of curiosity.

Hearing her words, Yu Rou turned around with a beautiful smile on her face, and she said, "Because he'll be participating in a competition soon!"

"Participating... in a competition? The Young Master?" Meixiu looked at her with a dazed look on her face, unsure of how to think or feel about this.

"Yes! Brother Tian will be participating in a music competition inside Cultivation Online! Although it's not a real competition, it's the closest thing we'll get!"

"The Young Master... participating in a competition..." Meixiu mumbled with a profound look on her face, seemingly in deep thoughts.

Sometime later, Yu Rou clapped her hands together and bowed to the trophies in the room before mumbling in a sincere voice, "Good luck, brother... Let the cultivation world know of your musical talents..."

After spending a couple more minutes admiring Yuan's trophy room, Yu Rou locked the doors before returning to her own room.

"By the way, do you want to play Cultivation Online with me?" Yu Rou suddenly asked Meixiu.

"Me? Play games with the Young Lady? I wouldn't dare..." Meixiu quickly shook her head with a scared look on her face.

"Why not? You can consider it as work since you'll be 'serving' me inside the game instead of the real world. Furthermore, I know how hard you work for me, so I want you to relax and have fun sometimes." Yu Rou said to her.

"But... my mother..." Meixiu sighed.

"If you're worried about your mother scolding you, I will personally talk with her later."

"Thank you, Young Lady..." Meixiu nodded.

Although she doesn't show her emotions often or complain at all because of the way she was raised as a maid, Meixiu is also a young lady just like Yu Rou who has desires and aspirations, and while she doesn't show it, she's actually quite jealous of Yuan who can play games all day, not including his condition.

"Don't even mention it! I should be the one thanking you!" Yu Rou said as she entered the bed.

"Goodnight, Young Lady." Meixiu closed the lights before leaving Yu Rou's room and returning to her own and immediately going to sleep, as she has to wake up earlier than Yu Rou and prepare breakfast for her.

The following morning, after his morning routine, Yuan returned to Cultivation Online and waited for Disciple Fei to arrive at his house so that they could practice with the zither.

Meanwhile, after she'd prepared for the day, Disciple Fei left her home with her zither in her hands. While she can store the zither in her storage pouch or spatial ring, she preferred carrying it around more, as it made her feel more authentic as a zither expert.

"Look! It's Fairy Fei! She must be going to the Dragon Pavilion today!"

The disciples immediately jumped in joy when they saw Disciple Fei in the Outer Court, and because it has been many days since her last performance, it made them feel even more excited.

"Finally! I have been waiting for her to return to the Dragon Pavilion! Her zither arts must have improved even more since her last performance! I cannot wait to listen to her play!"

"Me too! I was going to train my sword techniques at the practice area, but I'll save that for another day!"

Thus, news of Fairy Fei returning to the Dragon Pavilion spread throughout the sect like wildfire, causing disciples from around the sect to gather at the Dragon Pavilion, crowding the place.

However, little did these disciples know that Disciple Fei had no intentions of going to the Dragon Pavilion anytime soon and that she was actually going to an Outer Court disciple's house today which would definitely cause mayhem if found out.

"Where's Fairy Fei? I heard that she was going to show up here today!"

"I don't know, I saw her in the Outer Court carrying her zither, but I came here as fast as possible to get a decent seat so I don't know where she actually went."

"Fuck! You mean to tell me that you'd only seen her walking around in the Outer Court!? She could've gone anywhere! What made you think she was coming to the Dragon Pavilion?!"

"Don't ask me! I was not the one who spread the rumor!"

A commotion occurred in the Dragon Pavilion when Fairy Fei hadn't shown up even after waiting for over an hour.

While the disciples that could not afford to dine in the Dragon Pavilion could not complain because they were all standing outside for free, the disciples that'd paid to sit inside the Dragon Pavilion were livid about Fairy

Fei's absence and even looked like they were bloodthirsty afterward, as they'd wasted contribution points due to some unfounded rumor that Fairy Fei would show up, feeling like they'd been played.

Meanwhile, Fairy Fei strolled in the opposite direction of the Dragon Pavilion, slowly approaching Yuan's building.

"Hmm? Who's that?" Min Li noticed Fairy Fei's beautiful figure in the distance from the window, mostly because of her Core Disciple uniforms that stood out.

"T-That's a Core Disciple! What's someone like that doing in the Outer Court?" Min Li mumbled to herself as she watched Disciple Fei approach her building.

"Huh? Is she here for me?" Min Li raised her eyebrows when Disciple Fei suddenly stopped in front of her house to look around, looking like she was searching for something.

A few moments later, Disciple Fei began moving again, but she'd only walked a few more steps before stopping again.

"T-That's Disciple Yuan's house! Is she here for him? But why is a Core Disciple looking for him?" Min Li pondered with a frown on her face.

"W-What if she's his partner? Maybe this is about my offer to him!" Min Li cried, feeling somewhat paranoid.

Meanwhile, Fairy Fei approached the doorsteps and knocked on the doors.

Chapter 170 - Practicing For The Competition

After hearing the door being knocked on, Yuan went to open the doors and greeted Disciple Fei.

"Hello, Disciple Fei. Come inside." Yuan invited her inside with a nonchalant look on his face.

Disciple Fei nodded and entered the building.

Sometime later, once they were sitting in the living room, and Yuan asked her, "So? What are we going to do, Disciple Fei?"

"First and foremost, you can stop calling me 'Disciple Fei'. Although it's only temporary, I am now your partner," she said in a calm voice.

"Then what am I supposed to call you?" Yuan raised his eyebrows.

"Fei Yuyan, that is my name, and you will call me as such when we are alone," she said with a stern look on her face as she glared at Yuan.

Yuan nodded without thinking too much about it and said, "Okay, Fei Yuyan. What are we going to do now?"

A moment later, Fei Yuyan placed her zither on the table and said, "What else? We're going to practice the zither for the entire week until the competition!"

Yuan looked at her with raised eyebrows, and he said, "We're both going to use the same zither? Wouldn't it be better if there was another one?"

"Of course not! I know you probably don't have a zither, so I brought an extra one with me." Fei Yuyan said as she retrieved another zither from her spatial ring.

"You'll be using this one for now. Everyone at the competition will be provided with a zither of similar quality so you don't need to worry about unfair conditions because you don't have a good zither."

Yuan nodded and looked at the familiar-looking zither, as it was the one he'd first played at the Dragon Pavilion.

"Anyway, before we begin our practice, allow me to explain a little more about the zither competition in more depth."

"First and foremost, there will be three main judges— each of them a top zither expert with hundreds of years of experience under their belt so you can expect a fairly accurate judgment for your skills. Of course, you won't see them until the final part of the exam."

"The previous competition was split into three parts, and we will be graded for each part. In the end, whoever has the most points will win the competition, simple as that."

"However, they might do things differently this year because of the Heaven and Earth temple. Furthermore, we will have a partner this time, so anything can happen."

Yuan nodded and asked, "What did you do last year?"

"We were graded on our hand techniques for the first part, so how you play the zither will be very important."

"If you do not meet their expectations, there's a good chance that you might not be able to proceed to the second round so keep that in mind."

"For the second part, you will be given one hour to memorize and play a random song that will be provided for you. Once again, if your performance is not satisfactory, they will fail you on the spot."

"By the time you reach the final part, there will only be a dozen participants remaining at best. And as for the final part for the competition, if you can make it there, you'll have to play the zither with one of the judges."

"Huh? Playing music with the judge?" Yuan raised his eyebrows in a surprised manner, as this is the first time that he's ever heard of such a thing in a music competition.

Fei Yuyan nodded and said, "One of the judges will pick a song, and you'll have ten minutes to memorize the song. Once time's up, the judge will play the song and you will follow along, and you will have points deducted for every mistake made. The judge will not stop playing even if you make a mistake, but if you suddenly stop playing, you will automatically fail, so you must continue playing the zither even if you make a mistake."

"Wow... What an interesting way to do a musical competition..." Yuan mumbled with a somehow excited smile on his face.

Fei Yuyan shook her head at him and said, "I know it sounds fun, but it's actually really difficult. I myself made over a dozen mistakes during the song. Furthermore, the judge's performance will easily distract you because of how amazing it sounds."

"Anyways, let's start practicing now. We don't have much time before the competition. For today, we'll take turns playing the zither just to get ourselves familiarized with each other's playstyle. Starting tomorrow, we'll begin practicing for the competition for real."

Yuan nodded.

"Then I will start first."

Fei Yuyan took a deep breath, and she began playing the zither shortly after.

A few minutes later, she said to Yuan, "It's your turn now. Try to play the song I'd just played even if you don't know it. This will be good practice just in case you'll have to do the same during the competition."

Yuan nodded and closed his eyes to recall every music note Fei Yuyan had played and all of her hand movements.

A few moments later, Yuan began moving his fingers on the zither strings, following Fei Yuyan's movements perfectly.

'This Disciple Yuan... He's really a genius...' Fei Yuyan mumbled to herself as she silently admired Yuan's zither skills.

Even though this is her first time playing this song in public, Yuan had managed to play the song perfectly without missing a single note, perhaps even slightly better.

"What do you think?" Yuan asked her afterward.

"Good enough," Fei Yuyan responded with a stiff expression on her face.

"I will now play the next song."

Fei Yuyan began playing a few seconds later, and Yuan started playing after she stopped, repeating the song.

They repeated this for the entire day, playing over 100 different songs by the end of the day.

'T-This guy is a freaking monster!' Fei Yuyan stared at Yuan with wide eyes and her body sweaty from playing the zither so much.

Chapter 171 - Is This Breaking The Sect Rules?

'T-This guy! Why is he so good with the zither?!' Fei Yuyan cried inwardly after their practice session ended.

'We played over a hundred songs and I'd made mistakes for a third of them, but alas, this guy! This guy managed to not only repeat my songs after hearing it once, but he'd even done so flawlessly without any mistakes! How the heck is that even possible?!'

One normally wouldn't be able to pinpoint mistakes in something they're not familiar with, so it was only normal to assume that Yuan wouldn't be able to pick out her mistakes when he has never heard of the song before. However, that was not the case, and to Fei Yuyan's surprise, Yuan had managed to do just that!

"It's been years since I've last played an instrument for such a long time without many breaks. It's really refreshing," Yuan said as he wiped the sweat from his forehead with a satisfied look on his face.

"You have played before?" Fei Yuyan looked at him with wide eyes, and she continued, "I thought you were new to the zither."

Yuan nodded and said, "Indeed, I am new to the zither. The first time I heard of the zither was at the Dragon Pavilion almost a week ago, much less touch one. However, I am not new to music since I used to play it professionally. As for the instruments... they're mostly nothing like the zither."

"What do you mean by playing it 'professionally'?" Fei Yuyan asked with her eyebrows lifted in a puzzled manner, as the concept of 'professional' musicians was not a thing in this cultivation world.

"It's when I play a certain instrument on a stage before tens of thousands of people, sometimes even millions," Yuan briefly explained.

"How is that any different from what we are about to do in the competition? After all, there will surely be hundreds of thousands of people watching you." Fei Yuyan asked.

Yuan shook his head and said, "The only difference is that it's not a competition. There's only you and the audience, and it's almost a routine, as we travel around the world."

"What? Travel around the world to play music for people? I don't understand what you'd get from that besides reputation because it sounds like a waste of time for me." Fei Yuyan shrugged.

Traveling around the world sounded very time-consuming, and as Cultivators, it sounded like a pain to travel around the world to play music for others, even if she loved the zither.

"Where I am from, it's nowhere as vast as the cultivation world so traveling around the world is not as crazy as it sounds."

"Where are you from, anyway?" Fei Yuyan noticed this chance to ask him about his background and directly went for it without any hesitation.

"I am from a faraway land called Earth..." Yuan said with a nonchalant look on his face.

'Earth? Never heard of such a place...' Fei Yuyan wondered to herself what kind of place was this and if it existed in the Lower Heavens or somewhere in the upper heavens.

"What about your family?" she asked him a moment later.

"My family? They're just regular people and musicians," Yuan said.

"M-Musicians? So you come from a family line of musicians?" Fei Yuyan mumbled in a dazed voice. It's no wonder he was so talented with the zither, as it appears that he was from a family who specializes in music!

Of course, Fei Yuyan had no clue that Yuan's parents were only ordinary mortals and that they've never cultivated before. If she'd known this, she would've definitely reacted a lot more differently.

After talking to Yuan some more, Fei Yuyan stood up and said, "Where's the bathroom? I am going to take a shower."

"Uh... It's over there..." Yuan pointed to a certain room in the building without thinking too much about her words.

Fei Yuyan nodded and said, "I will be right back."

Yuan nodded and said, "Then I will continue practicing the zither for a little bit longer."

Thus, Fei Yuyan went to the bathroom to clean the sweat she'd accumulated whilst Yuan played the zither, making Fei Yuyan spend more time in the bathroom than she'd anticipated because she accidentally absorbed herself in Yuan's performance.

'Third place is definitely achievable if I have someone like him as my partner!' Fei Yuyan tightly grasped her hands into fists with motivation and excitement on her face.

Sometime later, Fei Yuyan returned to the living room with a fresh appearance, looking like a fairy more than ever.

"You can use the bathroom now," she said to Yuan.

Yuan nodded, but he didn't immediately leave, as he waited until he finished the song before he stood up and walked to the bathroom.

Fei Yuyan looked at the zither that Yuan had been using for practice, and to her surprise, the ordinary zither was emitting a joyful aura, almost like it was satisfied by Yuan's performance!

'This is... I have only heard of Zither Masters being able to achieve such a thing— giving auras to the instruments they play, yet he...' Fei Yuyan stared at the zither with a shocked face.

Sometime later, once Yuan also returned with a fresh appearance, Fei Yuyan suddenly asked him, "Do you have an empty room?"

"An empty room? There are plenty in this large house, but why do you ask?" Yuan raised his eyebrows.

"In order to practice efficiently, I have decided to live here until the competition, so that is what I shall be doing. You don't mind, right?" Fei Yuyan said with a slightly nervous look on her face, clearly aware of the risks behind her decision.

"Uhh..." Yuan was speechless. She wanted to live in the same house as him? Although he didn't mind it, would they be breaking any sect rules by doing such a thing?

"Give me a moment... I want to make sure that we're not breaking any sect rules by doing this" Yuan said as he closed his eyes to recall the rulebook.

"S-Sect rules?" Fei Yuyan stared at him with a gawking look on her face, clearly in disbelief.

Chapter 172 - A Lot Can Happen In A Single Night

After taking a moment to recall the sect rules, Yuan opened his eyes and spoke in a nervous voice, "According to the sect rules, male and female disciples are forbidden to share the same living quarters unless they are married or have a high-ranking sect elder's permission, and the punishment is at most 3 months of confinement in the Disciplinary Cave..."

Fei Yuyan was speechless. Albeit subtly, did Yuan really just refuse her company in his house? What kind of man would refuse to let a beautiful girl stay in their house even if they might receive punishment? If it were any other men that were in Yuan's shoes right now, they would definitely let Fei Yuyan stay in their living quarters without hesitation even if they were to get kicked out of the sect the following day!

Fei Yuyuan then spoke with a slight frown on her face, "That rulebook is outdated— it was created thousands of years ago and nobody except a few really even follows it anymore, especially the Inner Court disciples. Furthermore, as a Core Disciple, I have more leeway in the sect. In other words, I can do almost whatever I want without restrictions if it doesn't affect the sect."

"And I highly doubt that living in a house with a male disciple will affect the sect in any way. Therefore, you can just ignore it."

"Even if you say that, I think it'd be for the best if we received permission from one of the sect elders, as you can never be too safe or you might regret it in the future. I know a few of them, so I can ask them." Yuan suddenly retrieved Elder Xuan's jade slip and activated it using his spiritual energy.

"Uhhh... Senior Xuan, can you hear me?" Yuan spoke to the jade slip.

Meanwhile, sitting behind his desk inside his living quarters, Elder Xuan felt the jade slip in his robes tremble, causing him to stop working and look at it.

'Hm? Disciple Yuan? Did something happen to him?' Elder Xuan frowned with a worried look on his face, wondering what Yuan had done this time.

"Senior Xuan, can you hear me? I hope I am not bothering you," Yuan's voice resounded from the jade slip a moment later.

"Yes, I can hear you. What happened?" Elder Xuan asked him.

"Well..." Yuan proceeded to explain the situation to Elder Xuan, dumbfounding him greatly.

'What the heck? Core Disciple Fei? What's she doing at his house? And why are they staying together? Don't tell me that they're...' Elder Xuan stared at the jade slip with wide eyes filled with shock.

"Anyway, do you think she can stay here? It'll only be for a week at most," Yuan asked him again afterward.

"A-Ahem! I don't see the problem." Elder Xuan said in a stiff voice after clearing his throat, and he continued, "Whatever you do inside, just try to keep it contained within the house."

"Eh? I understand...?" Yuan said, sounding a little confused by Elder Xuan's words.

Once Yuan ended the communication, Elder Xuan slumped back in his seat and sighed, "I told him to remain lowkey for a while, and he ends up bringing a female disciple into his home, even wanting to let her stay there for an entire week, and this disciple is even a Core Disciple..."

"Well, I cannot blame the guy. Talented people like him will attract women as easily as breathing."

After a moment of silence, Elder Xuan retrieved another jade slip before activating it and speaking to it, "My granddaughter, can you hear me?"

A few moments later, Xuan Wuhan's sleepy voice resounded, "What's the matter, grandpa? I don't plan on returning to the sect until next week even if you beg me."

Elder Xuan sighed and said, "This is about Disciple Yuan..."

"Oh? Yuan?! How's he doing in the sect? Nobody's bullying him, right?" Xuan Wuhan's voice immediately sounded much more energetic after hearing Yuan's name.

"Yeah, he's doing great. In fact, he's doing so great that he'd managed to woo a Core Disciple to stay at his house for an entire week! If you continue to laze around at home, someone will definitely take Yuan before you can do anything, and with his otherworldly talents, there will be some very powerful contenders."

"W-WHAT?!" Xuan Wuhan's voice resounded in a shocked manner after, almost like she'd just heard something impossible.

"I-Is that true, grandpa?! Who's this Core Disciple!" Xuan Wuhan's obviously panicked voice resounded from the jade slip, causing it to tremble.

"I don't know. I only know that he'd asked me for permission to allow a female Core Disciple to stay in his living quarters for a week. As for the reason, I have no clue since I didn't bother to ask." Elder Xuan lied with a straight face, as he knew very well it was Fei Yuyan that was at Yuan's house.

"And you agreed?! Why did you do something like that, grandpa?!" Xuan Wuhan exclaimed.

"What else was I supposed to do? Refuse? This is a Core Disciple and Disciple Yuan that we're talking about. I may be a Grand Elder, but there

are some things even I have no control over, especially when Disciple Yuan is involved."

After a moment of silence, Elder Xuan asked, "Well? Do you feel like coming back to the sect now?"

"I...I will be back in three days!" Xuan Wuhan responded a moment later in a resolute voice.

"Three days, huh? A lot can happen in a single night, much less three days, my granddaughter." Elder Xuan said, trying his best to not burst out laughing from teasing Xuan Wuhan.

"Fine! I'll come back now, okay?! Anyway, I'm leaving!"

The jade slip turned lifeless after Xuan Wuhan ended the communication with Elder Xuan.

"Silly little girl..." Elder Xuan shook his head as he placed the jade slip back into his robes.

Meanwhile, Yuan said to Fei Yuyan with an innocent smile on his face, "Now that we have permission, you can stay here without breaking any sect rules!"

"You are really... I don't even know what to say..." Fei Yuyan rubbed her eyes like she was exhausted.

Chapter 173 - Unable To Sleep

"Anyway, now that we have permission, I'll be staying here until the competition finishes." Fei Yuyan said to him in a slightly angry voice, clearly unhappy about the way Yuan had handled this situation.

"By the way, I won't be here at night and will return in the morning." Yuan suddenly said to her as she went to look for an empty room.

"What? Why not? Where are you going that requires you to stay outside all night?" Fei Yuyan asked him with raised eyebrows.

"I'm not going anywhere— I just won't be available until the morning," Yuan said.

"Is that so? I won't need you at night, anyway," Fei Yuyan quickly responded in a somewhat weird tone, and she left the place to look for her own room.

Sometime later, Fei Yuyan settled in the room that was only two doors away from Yuan's room.

"We will begin practice tomorrow morning at sunrise. Good night and get plenty of rest because we'll practice even harder tomorrow," Fei Yuyan said to Yuan before retiring inside her room.

However, Fei Yuyan was unable to sleep like she normally would, as this is her first time sleeping with another individual in the same building after she became an Inner Court disciple, much less a male disciple!

In fact, this is definitely her first time staying overnight at a man's house, and she would've never imagined that it'd belong to an Outer Court disciple either!

Meanwhile, after returning to his own room, Yuan logged off for the night and waited for Yu Rou to return from school.

After dinner was served and Yu Rou brushed his teeth, Yuan proceeded to spend the rest of the night cultivating.

However, inside cultivation online, only an hour after Yuan logged off, Xuan Wuhan appeared outside of the Dragon Essence Temple with an irritated frown on her face, looking like someone who'd their peace disturbed.

"S-Senior apprentice sister Xuan! Welcome back!" The guards standing at the entrance of the sect immediately bowed to Xuan Wuhan who was not only a Core Disciple but also Grand Elder Xuan's granddaughter, and it would not be an exaggeration to say that she was as famous if not even more popular than Fei Yuyan.

However, Xuan Wuhan ignored these guards and walked directly into the sect.

The guards turned to look at her with scared looks on their faces, and they wondered to themselves what had happened that made her appear so angry, as they have never seen her act in such a way before.

"Welcome back from your vacation, Senior apprentice sister Xuan!"

"Greetings, Fairy Xuan!"

"How was your vacation, Senior apprentice sister Xuan? I hope you enjoyed it because you earned it!"

Almost every disciple in the Outer Court recognized Xuan Wuhan and greeted her the moment they saw her, and even if the disciples didn't recognize her face they recognized her uniform that only Core Disciples are qualified to wear, so they still greeted her with respect.

"Thanks." Xuan Wuhan responded in a nonchalant manner before walking away with wide strides, dumbfounding these disciples.

"Did something happen to Fairy Xuan? She's usually cheerful and easy to approach, yet she's acting the total opposite today."

"Maybe something unpleasant happened during her vacation."

"Wait a second, I thought Fairy Xuan wouldn't return to the sect for another week? Maybe that has something to do with her behavior?"

"That must be it. I wonder if this is related to what happened not long ago at the Carp Leaping Over Dragon's Gate."

"Maybe they are gathering all of the Core Disciples for a meeting."

"Do we know the identity of the disciple who cleared the tower yet?"

"No, not yet. The sect elders aren't saying anything but that's because they also don't know anything— at least that's what I was told when I asked some of them."

"What? Not even the sect elders are aware of the situation? This situation must be more complicated than we'd expected..."

"Think about it, this is the first time anyone has cleared all 100 floors in the tower, and even the Founder could only clear 99 floors, failing on the last floor. I doubt the sect would be willing to reveal a talent like that to the rest of the world right before the Mythic Realm."

"Oh, right. The Mythic Realm is only around the corner, huh? I cannot wait for this year's tournament. I heard a certain rumor that the other elite sects also accepted a couple of cultivation prodigies."

"Really? I wonder how they'll fare against our disciples."

"Hmph! Do you even need to ask that question? Of course, our disciples won't lose!"

"I guess..."

Sometime later, Xuan Wuhan arrived in the area Yuan lived in and looked around for building #70.

Meanwhile, Min Li, who was getting ready for bed, noticed Xuan Wuhan's appearance from her window.

"Isn't that Grand Elder Xuan's granddaughter? What's she doing here?" Min Li mumbled to herself as she tried her best to watch Xuan Wuhan from the window without being noticed.

Once she'd found her target, Xuan Wuhan approached building #70 and knocked on the door after stepping onto the doorstep.

However, when nobody answered the door even a minute later, Xuan Wuhan knocked on it again, this time with even more force.

'D-Don't tell me that they've already started doing 'that'?!?!?!' Xuan Wuhan cried inwardly, feeling uncomfortable all over her body for some reason.

"Yuan! Are you inside?!" Xuan Wuhan knocked on the door while shouting out loud, sounding a little bit desperate, "It's me! Xuan Wuhan! Hurry up and open the door!"

But alas, Yuan had long logged off the game and would not be able to hear her voice no matter how loud she shouted.

However, it was a different story for Fei Yuyan, who'd recently fallen asleep with much difficulty, and Xuan Wuhan's constant knocking eventually woke her up.

"Damn it! What kind of rude person would knock on the door so loudly this late?! And I'd finally managed to sleep too!"

Fei Yuyan quickly got off the bed and went downstairs before opening the door in an agitated manner.

"Who's barking so loudly in the middle of the night?! What are you, a dog?! Name yourself!" Fei Yuyan spoke in an angry voice as she opened

the door.

Chapter 174 - Why Are You Here?

"Who are you calling a dog?! I am Xuan Wuhan, a Core Disciple!" Xuan Wuhan responded to Fei Yuyan's words.

"Disciple Xuan?" Fei Yuyan's eyes widened with surprise when she saw Xuan Wuhan's familiar face standing right in front of her, and she continued, "What are you doing here so late at night?"

"Eh? Disciple Fei?" Xuan Wuhan's eyes also widened with shock when she saw a familiar face.

She then looked at the building number to make sure that she was in the right place. However, she suddenly recalled that they were currently at the Outer Court. Even if this wasn't Yuan's building, what is a Core Disciple like Fei Yuyan doing here?

"You... This is Disciple Yuan's house, right?" Xuan Wuhan decided to ask her.

Fei Yuyan immediately began sweating cold sweats, and she stared at Xuan Wuhan with a nervous look on her face, clearly hesitant to tell the truth. However, since Xuan Wuhan mentioned Yuan's name, Xuan Wuhan is clearly related to him one way or another so there was no way she could lie in this situation.

"Y-Yes, this is Disciple Yuan's house..." Fei Yuyan answered after a moment of awkward silence.

"..."

After another moment of awkward silence, Xuan Wuhan spoke, "I-If you don't mind me asking, what are you doing in another disciple's house so

late at night? And a male disciple too..."

However, Fei Yuyan didn't answer her question and instead asked, "I-I can ask you the same... Why are you looking for Disciple Yuan so late in the night? I thought you wouldn't return to the sect until next week?"

Xuan Wuhan frowned slightly and said, "Well, my schedule has changed and I have returned now, okay? As for why I am here— I was the one who introduced Yuan to the Dragon Essence Temple. Of course, I would want to see how he's doing in the sect now that I have returned."

"What? You were the one who brought Yuan to the sect? Does this mean you know his background?" Fei Yuyan's eyes widened after hearing Xuan Wuhan's words.

"T-That's right! I know his background! I know everything about him!" Xuan Wuhan lied to Fei Yuyan without even thinking about it.

"Can you tell me? I've been trying to figure out his background, but I can only assume that he's from one of the Four Great Families..." Fei Yuyan sighed.

"F-Four Great Families? Yuan?" Xuan Wuhan looked at Fei Yuyan with a shocked look on her face.

"Eh? You mean he's not?" Fei Yuyan raised her eyebrows, looking a little suspicious of Xuan Wuhan's reaction.

"I-I am not telling you anything! After all, I'd promised him that I'd not reveal his identity to anyone! If you want to know so badly, why don't you ask him yourself?" Xuan Wuhan decided to play the 'it's a secret' card, narrowly escaping the hole she'd dug herself.

"Hmmm..." Fei Yuyan narrowed her eyes at Xuan Wuhan before shaking her head a moment later and saying, "Anyway, I don't have the time or energy to entertain you right now. If you're looking for Disciple Yuan, he's already retired for the night. Come back tomorrow morning."

Fei Yuyan proceeded to close the door on Xuan Wuhan's face, but a quick reaction from Xuan Wuhan's foot stopped the door from closing.

"Wait a second, I have answered your question, but you still haven't answered mine. What are you— a Core Disciple doing in Yuan's living quarters at this time? Don't tell me you're staying here?"

"Why does it matter? It's none of your business what I do with another disciple. But if answering your question will make you go away then yes, I am currently staying in Disciple Yuan's home for the time being."

Xuan Wuhan gritted her teeth at Fei Yuyan. Although there has been no enmity between the two of them before today, their current situation has definitely lowered their opinions of each other.

"Now if you don't have anything else, please go away. I would like to get back into my bed and sleep, something you disturbed with your rude knocking," Fei Yuyan said as she tried to close the door again.

However, Xuan Wuhan refused to move her foot, blocking Fei Yuyan from closing the door on her.

"What is your problem, Disciple Xuan? You may be the Grand Elder's granddaughter, but even you have to follow the sect rules, and what you're doing right now is definitely breaking the sect rules."

"What sect rule am I breaking, exactly?" Xuan Wuhan shamelessly asked her.

"You..." Fei Yuyan was speechless. Unlike Yuan, she did not memorize the rulebook, hence why she could not answer Xuan Wuhan's question.

"How about this? To make sure you're not defiling my innocent friend, I'll also stay in this house to keep watch." Xuan Wuhan suddenly suggested,

"D-Defile?! H-How dare you! Who do you think I am?! Why would I defile anyone?!" Fei Yuyan exclaimed. "And what are you, a guard dog?!"

"You're acting mighty suspicious, Disciple Fei. Why are you not telling me your reason for being here if you have nothing to hide?" Xuan Wuhan said with narrowed eyes.

"Because I..." Fei Yuyan rubbed her eyes and sighed.

"Fine, I'll tell you. Will you leave me alone if I do that?"

"Of course..." Xuan Wuhan nodded.

Fei Yuyan took a deep breath before explaining to Xuan Wuhan about the zither competition and Yuan becoming her partner, hence why she's staying over at his house— so they can practice more efficiently.

Xuan Wuhan was speechless after learning the situation, even feeling somewhat guilty for her behavior.

"I-I am sorry for misunderstanding the situation, but if it's only something like this, why did you try to hide it like you're doing something immoral?" Xuan Wuhan said afterward.

"I...I don't know..." Fei Yuyan said. "Anyway, I am too tired, and I still have practice tomorrow with Disciple Yuan. I am going to sleep. Goodbye."

"W-Wait a moment! One more thing!" Xuan Wuhan quickly said.

"What is it?" Fei Yuyan looked at her with a tired expression.

"Can I come tomorrow and watch you two practice?" Xuan Wuhan asked.

"Do whatever you want as long as it doesn't disturb our practice..." Fei Yuyan said before closing the door, leaving Xuan Wuhan standing outside with a dazed look on her face.

Chapter 175 - Unexpected Guests

"Xuan Wuhan... What's her relationship with Disciple Yuan, really?" Fei Yuyan mumbled to herself as she entered her bed to sleep, but alas, it took her another hour to fall asleep again, mostly because she kept wondering about Xuan Wuhan and Yuan's relationship.

As for Xuan Wuhan, she reluctantly left the area, but she did not return to her own house. Instead, she went to bother Elder Xuan, her grandfather.

"Heavens... What did I just witness?" Min Li covered her mouth in shock after eavesdropping on Xuan Wuhan and Fei Yuyan's small argument. This is the first time she's ever heard of two Core Disciples arguing with each other over an Outer Court disciple.

'It's fine... Even though I may be at a disadvantage in terms of our disciple status, I will sooner or later become a Core Disciple, and I am also from one of the Seven Legacy Families! Furthermore, my appearance isn't worse than theirs— at least I don't think I am losing in that aspect!' Min Li thought to herself, trying to convince herself that she wasn't losing to Xuan Wuhan and Fei Yuyan, as they are clearly also trying to secure a place in Yuan's heart.

Meanwhile, in the real world, Yuan peacefully cultivated for the rest of the night, completely oblivious to the small drama that had occurred at his house between two top beauties in the Dragon Essence Temple.

Once morning came and Yu Rou returned to his room and finished her daily routine, Yuan returned to the game.

"Hm? She's still sleeping?" Yuan raised his eyebrows when he didn't see Fei Yuyan in the living room, as he'd expected her to be awake by now.

'Maybe she'd pushed herself too hard during yesterday's practice...' Yuan thought to himself.

Knock *Knock*

Somebody knocked on the door a few seconds after Yuan took a seat in the living room to wait for Fei Yuyan.

'Who could be here so early in the morning?' Yuan wondered to himself as he went to open the door.

"Hello, Disciple Yuan."

A familiar face greeted him at the door.

"Disciple Min? What's the matter?" Yuan asked her.

"Nothing important. I heard you playing the zither yesterday, and I just wanted to listen to it more clearly. Do you mind if I watch you play the zither today?" Min Li asked him whilst trying her best to not blush.

However, to Min Li's surprise, Yuan apologized to her, "Did our practice bother you yesterday? I hope it didn't disturb your cultivation, and I am really sorry if it did... And you could've at least let me know if it did..."

"Uhhh..." Min Li was slightly speechless.

Most buildings in the Dragon Essence Temple are enforced with formations that block sound from leaving or entering the house so that one wouldn't be able to disturb others during their cultivation or vice versa, so there was no way that Min Li could've heard Yuan playing the zither no matter how loud he played it.

"D-Don't worry about it, I really enjoyed it, or else I would've knocked on your door sooner." Min Li responded in a stiff voice a moment later.

Yuan nodded afterward and said, "I'm relieved. And you're definitely welcomed to watch us practice the zither today."

"Thank you, Disciple Yuan." Min Li said to him, pretending as though their recent conversation had never happened.

Knock *Knock*

And just as Min Li took a seat in the living room, the door was knocked on again.

"Who could it be this time?" Yuan raised his eyebrows, wondering why there were so many guests today.

"Hello, Yuan! It's been a while!" Xuan Wuhan greeted Yuan at the door this time.

"Xuan Wuhan!" Yuan was pleasantly surprised to see her face.

"What are you doing here?" Yuan asked her.

"What do you mean by that, Yuan? Am I, a fellow disciple of the sect, not supposed to be here?" Xuan Wuhan asked him.

Seeing Yuan's speechless face, Xuan Wuhan smiled and said, "I'm joking with you, Yuan. Anyway, I have heard about the zither competition and how you're going to participate in it with Disciple Fei, and I would like to watch you practice. After all, you'll need some audience to judge your performance, right?"

Hearing her words, Yuan nodded, "That makes sense. Although Disciple Fei hasn't woken up yet, please, come inside."

"She's still sleeping? What a lazy girl..." Xuan Wuhan took this opportunity to smear some dirt on Fei Yuyan's image.

Xuan Wuhan entered the building a moment later.

However, to her surprise, there was already another individual inside the living room.

"Y-You... Aren't you Min Li from the Seven Legacies Family? What are you doing here?" Xuan Wuhan looked at Min Li with wide eyes.

"I... I am here to listen to their practice." Min Li said.

"You? Don't you have better things to do as a member of the Seven Legacy Families?" Xuan Wuhan raised her eyebrows, and she stared at Min Li with a suspicious gaze.

"What does belonging to the Seven Legacy Families have anything to do with this?" Min Li responded calmly. Even though she was before a Core Disciple, she wasn't feeling scared or nervous like most disciples would be if they were in her shoes right now.

"..."

Xuan Wuhan was speechless, mostly because she had nothing good to say.

Sometime later, Xuan Wuhan said to Yuan, "If Disciple Fei doesn't wake up soon, I'll go knock on her door."

However, Yuan shook his head and said, "There's no need to wake her up. She practiced for many hours yesterday so she's definitely very tired."

"Then what about your practice?"

"I can still practice by myself. Let's go outside to the backyard so that we don't disturb Disciple Fei." Yuan suggested.

Xuan Wuhan nodded, and she followed Yuan outside with Min Li following behind her.

Once they were outside, Yuan sat behind the zither and prepared to play it.

Xuan Wuhan and Min Li swallowed nervously, feeling somewhat anxious to see Yuan play the zither for some reason.

Chapter 176 - Overslept

Once the guests were seated and he was prepared to play the zither, Yuan placed his fingers on the zither and began pulling the strings, causing them to tremble and send out musical notes that massaged one's brain and transported their mind to the heavens.

Xuan Wuhan and Min Li's jaw simultaneously dropped to the ground when they heard Yuan playing the zither for the first time, looking like they'd just witnessed their ancestors crawling from their graves, and it'd only taken them a few seconds to recognize Yuan's talents.

'This guy...! He's not only talented in cultivation but he's also talented with instruments? Is there anything he's not talented in?' Xuan Wuhan cried inwardly.

'What amazing music that he's producing... Not even the expert musicians in my family can play the zither as well as he does...' Min Li thought to herself.

The two ladies quickly indulged themselves in Yuan's music, as did the disciples near that area once they heard Yuan's music, even stopping their movements to close their eyes and enjoy the music.

"Who's playing the zither? I thought it was Fairy Fei at first but the Dragon Pavilion isn't even close to this place!"

One of the disciples wandering outside asked the other disciples.

"Who else besides Fairy Fei would have the ability to play the zither to such an extent in the sect? Furthermore, I heard from some disciples that they'd spotted Fairy Fei in the Outer Court yesterday. Maybe she's playing the zither somewhere in the Outer Court!"

"If that's the case, I want to watch her performance!"

"Me too! Let's try to locate her!"

Thus, the Outer Court disciples, with their interest piqued, decided to follow the sound of the zither. Once they'd arrived at the area that housed the most important and privileged disciples in the Outer Court, these Outer Court disciples stopped and didn't dare to traverse any further.

"It's coming from this area, but normal disciples aren't allowed in this area..."

"This place is where all of the top disciples live, right? I think it'd be fine as long as we do not disturb them. After all, there is no sect rule stating that we cannot enter this place."

"You don't know? There have been many incidents where ignorant disciples would enter this place only to get beaten by the disciples living here, as they treat this place as some sort of sacred sanctuary where only the privileged are allowed to traverse. If you don't mind getting beaten, you can go ahead and enter this place."

When the other disciples heard such a thing, they immediately tossed the idea of entering this place out of their minds. Although they wanted to watch Fairy Fei's zither performance, it wasn't worth risking offending someone in this place and possibly their life as well.

"If we cannot enter this place, why don't we all just stand here and listen to the music instead? We don't really need to watch Fairy Fei perform it since we don't normally do that anyway."

"Sounds reasonable... Okay, I am staying here."

Thus, the disciples there decided to gather outside the area and quickly crowded the place.

Sometime later, inside Yuan's house, Fei Yuyan rubbed her eyes in a tired manner.

'What time is it...?' She opened her eyes and stared at the unfamiliar ceiling with a dazed face.

"Oh no! It's already way past morning! I was supposed to practice with Disciple Yuan! It's all that darn Disciple Xuan's fault that I'd overslept!" Fei Yuyan cried out loud when she saw the slightly orange sky outside, and she quickly fixed her appearance before running outside her room.

However, the entire house was dead silent, almost like she lived in this house alone.

Fei Yuyan went to knock on Yuan's door, but alas, nobody answered no matter how much she knocked.

"Where did he go?" Fei Yuyan frowned, wondering where Yuan could've gone at this time.

"Maybe he went to get food?"

With this in mind, Fei Yuyan went to wash her face before leaving the house.

However, the moment she opened the door, she could hear a heavenly sound that could only be played by a zither.

"T-This is...?" Fei Yuyan immediately turned around to look behind the building before closing the door and approaching the backyard.

Once she opened the door to the backyard, Yuan's zither music immediately flowed into her ears and caused her body to tremble with delight.

Yuan noticed Fei Yuyan's presence, but it did not distract his performance and he continued to play the song until the end.

At the end of the song, Yuan turned to look at the dazed Fei Yuyan and said to her with a smile on his face, "Good morning, Disciple Fei— or should I say good afternoon?"

Xuan Wuhan and Min Li turned to look at Fei Yuyan once they noticed her presence.

"Hm? So you're finally awake, huh? Took you long enough. Yuan has been practicing the zither this entire time without any breaks. At this rate, you'll be a burden to him in the competition," Xuan Wuhan said to Fei Yuyan while shaking her head.

"..."

Fei Yuyan immediately trembled in anger and shouted at Xuan Wuhan, "Whose fault do you think it is that I overslept?! If you didn't wake me up in the middle of the night by knocking on the door like a rude ape, I would've woken up on time!"

"W-Who are you calling an ape?! There are things you cannot say to a fellow sister no matter how angry you are!" Xuan Wuhan exclaimed.

"Shut up! I don't want to hear anything from you!" Fei Yuyan said.

"Calm down, there's no need to yell at each other." Yuan said to them with a slightly startled look on his face, and he continued while looking at Fei Yuyan, "There is still plenty of time until the day's over so it's not like you've wasted an entire day."

Fei Yuyan nodded and said in a casual voice, "I don't have the time to argue with an ape. I'm going to practice now."

"T-This bitc..." Xuan Wuhan gritted her teeth. While she wanted to yell at Fei Yuyan, she didn't want to disturb their practice, so she forcefully swallowed her anger and pretended like she never heard Fei Yuyan's insults.

Chapter 177 - Otherworldly Music

"Anyway, since I've missed half of today's practice, let's do something different. I had planned on doing something similar to our practice yesterday, but alas..." Fei Yuyan sighed.

And she continued, "Do you remember what I said about last competition's final part— where you must follow the judge and play their song alongside them? This is what we're going to be doing today. I will play a song and you'll play alongside me."

Yuan nodded, and he asked afterward, "Are we going to play a new song?"

"Of course. The judges will create a new song just for the competition so nobody besides themselves would know the song beforehand, as that would give the participants an unfair advantage and we don't want that."

"Anyway, I will play the song once, and you'll have 10 minutes to prepare..." Fei Yuyan suddenly paused, and she said in an awkward voice a moment later, "But you've already been doing that even for yesterday's practice..."

"Ah... What should we do now? I was going to ask you to use new songs so I can follow you but do you even know any new songs?" Fei Yuyan asked Yuan, as she has been the one teaching him new songs this entire time.

"Hmmm..." Yuan pondered for a moment before nodding, "I think I can do that."

"Eh? Really? You know songs that even I don't know?" Fei Yuyan stared at him with a gawking look on her face, as she truly didn't expect that from him.

Yuan nodded and said, "I know a few songs from my hometown. Although I've never played them on the zither, it's not my first time playing the same song on different instruments."

"That's great! Let's hear one of them!" Fei Yuyan said with her interest piqued, silently wondering to herself what kind of music Yuan had prepared for her.

"Give me a moment... It's been a while since I've played those songs." Yuan closed his eyes and proceeded to recall some of the songs that he'd played in the real world when he was still active as a musician.

A few minutes later, with his eyes still closed, Yuan placed his fingers back on the zither and began playing the song from his memories.

"T-This... What kind of music is this?" Fei Yuyan's jaw dropped to the ground when she heard this song that was like nothing she has ever heard of before, almost like it was otherworldly.

While it's only normal for songs to not sound similar to each other, they mostly followed a similar theme or feeling, yet the song played by Yuan right now did not follow such rule and sounded oddly foreign.

As for Xuan Wuhan and Min Li, while they don't know much about music, they knew instantly how unique this song sounded purely from the atmosphere it created.

Hell, even the disciples gathered outside the area were dumbfounded by such a drastic change in music, feeling like they'd suddenly been tossed into another world.

A few minutes later, Yuan stopped his movements and turned to look at Fei Yuyan.

"What do you think?" he asked her.

"Uhh..." Fei Yuyan stared at him with a speechless look, clearly taken aback by the unfamiliar music.

"I-It sounds great... But... How am I supposed to play that kind of song? Are you teasing me right now?" Fei Yuyan said to him.

"Huh? What do you mean? Why would I be teasing you?" Yuan looked at her with wide eyes, as he didn't expect such a response from her.

"That song you just played is objectively extremely difficult, as it has many unique notes, and the speed you played it is also incredibly fast! There's no way I can play something that profound after hearing it once! Even the song created by the judges for the previous competition wasn't anything like this!" Fei Yuyan explained to Yuan her frustration.

"R-Really? It didn't feel like that for me..." Yuan pondered, and he continued a moment later, "Okay, I will try to play something that has less unique notes and with a slower pace in general."

After taking a deep breath, Yuan began playing another song that was from his world.

"Oh?"

Fei Yuyan raised her eyebrows after listening to this song. Although it still sounds foreign and otherworldly, it wasn't as chaotic and fast-paced as the previous song, allowing her mind to follow it properly.

Sometime later, after Yuan finished the song, Fei Yuyan said to him, "Okay, give me ten minutes."

Yuan nodded and patiently waited for Fei Yuyan to prepare herself.

Once Fei Yuyan was ready, she looked at Yuan and nodded her head while her fingers were already on the zither.

"Three... two... one..."

Ting~

Yuan and Fei Yuyan began playing the zither simultaneously, and Fei Yuyan tried her best to follow Yuan's pace, but alas, even someone inexperienced

with music like Xuan Wuhan and Min Li could tell that Fei Yuyan was falling behind and making mistakes.

Halfway into the song, Fei Yuyan suddenly stopped moving her fingers and stared at the zither with a slightly flushed face, embarrassed that she was unable to play any further.

'Damn it! I am the one that's supposed to be teaching him, not the other way around! When did our roles change?! And his performance is simply too flawless! I am barely able to play the song because his music would always distract me, tempting me to stop playing to fully focus on listening to his beautiful music! However, if I don't listen to his music, I won't be able to follow along! At this rate, I'll really be a burden in the competition!'

Once Fei Yuyan stopped playing the zither, Yuan also stopped before asking her, "Do you want to start again from the beginning?"

After a moment of silence, Fei Yuyan nodded in a bashful manner.

Xuan Wuhan chuckled when she saw this, "So much for the number one zither expert in the sect, Fairy Fei..."

Fei Yuyan's eyebrows twitched after hearing Xuan Wuhan's words, but she ignored it and pretended like she didn't hear it and prepared to play the zither again.

Chapter 178 - Not Interested In Men

After taking a deep breath, Fei Yuyan began playing the zither again with Yuan, trying her best to synchronize her music with his, but alas, she stopped playing again somewhere in the middle of the song.

'This is too difficult!' Fei Yuyan cried inwardly with her back soaked in sweat despite barely practicing.

"It's okay, we can start again and do this until you can finish the song," Yuan said to her in a soothing tone, almost like he was trying to make her feel better.

However, Fei Yuyan shook her head and said, "Then that would make this entire practice pointless! If I cannot follow the judge after one try, I'll immediately fail!"

"But if you don't practice, how will you improve? It's called 'practice' for a reason."

"That's easy for a genius like you to say..." Fei Yuyan sighed.

"People may call me a genius, but I have spent more time practicing the instruments than anyone at my age when I was a mere child— even those twice or thrice my age. Every day, without fail, I would spend at least ten hours a day practicing different instruments, even on the days that I have competitions and whatnot." Yuan sighed after recalling the amount of time he'd spent practicing the instruments.

He'd spent so much time on instruments that his social life was basically nonexistent outside of his family and a small circle of people.

"Ten hours a day every day?"

Everybody there looked at him with wide eyes. How does he cultivate if he spends all of his time practicing instruments?

"Anyway, let's continue to practice. I'm sure you'll get it right soon or later. Once you get it right for the first time, it'll be much easier next time even if it's with a new song." Yuan said to Fei Yuyan, who nodded in a dazed manner.

Thus, the two of them continued to practice with Fei Yuyan trying her best to synchronize with Yuan's performance.

Of course, Fei Yuyan had stopped midway a couple more times, but there was clear progress, albeit rather slow.

After a dozen failures, Fei Yuyan finally managed to complete the song with Yuan, but her performance was still questionable at best with multiple mistakes.

Meanwhile, the disciples listening to their performance outside were puzzled by the weird noises coming from Yuan's building.

"Who's that second zither player? This amateur is ruining Fairy Fei's flawless performance!"

"Maybe Fairy Fei is teaching someone the zither."

"Aiya... What a damn pity and a waste of Fairy Fei's time..."

The disciples there complained about this 'amateur player', completely unaware that they were all dissing the same Fairy Fei that they were praising.

Meanwhile, somewhere in the Inner Court, Elder Shan looked at the pill in her hands with a proud expression on her face.

"I have finally completed this enhanced Pill of Concealment. Now I just need to give it to Disciple Yuan." Elder Shan mumbled to herself as she left her building and made her way towards Yuan's living quarters.

However, to her surprise, there were hundreds of Outer Court disciples gathered outside the area, dumbfounding Elder Shan when she witnessed this scene.

"What the heck is going on here?"

Elder Shan approached the crowd and spoke loudly, "What is the cause of this gathering?"

When the disciples turned around and saw Elder Shan's beautiful face, they immediately lowered their heads and greeted her.

"Greetings, Elder Shan!"

After their greetings, the disciples proceeded to explain their situation to her.

"What? My disciple is playing the zither in this area?" Elder Shan raised her eyebrows, then she recalled how Fei Yuyan's going to be participating in the zither competition with Yuan.

'She must be practicing with him, huh.' Elder Shan thought to herself before speaking out loud, "Well, this is not a place for disciples to gather. If you want to listen to her zither music, you can wait until she decides to visit the Dragon Pavilion! Now scram!"

Although they were reluctant to leave, there was simply no way these Outer Court disciples could defy a sect elder, much less a high-ranking sect elder like Elder Shan.

Once the disciples left the scene, they all mumbled to each other, "Man, this is my first time seeing Elder Shan in such a close distance! Her title as the prettiest sect elder is not for show!"

"I heard she was even the number one fairy back when she was still a young disciple! Man, if only I can have a partner like that!"

"Quit your dreaming! Don't you know that Elder Shan has no interest in men? Rumor has it that she's only interested in women, hence why she only accepts female disciples!"

"Really? Damn, what a pity! But that's also hot in its own ways!"

Sometime later, Elder Shan approached Yuan's building and knocked on the door, and she shouted loudly, "Disciple Fei! Come outside!"

"Eh? That sounds like my master. What's she doing here?" Fei Yuyan turned around with a puzzled look on her face. "And why did she call for me when this is clearly your house?"

Fei Yuyan then placed her zither down and went to open the door.

"Master? What are you doing here?" Fei Yuyan asked her after greeting her.

"I have something for Disciple Yuan," Elder Shan said, and she continued, "Are you guys practicing right now?"

"Yes, but since it's getting late, we're about to stop."

"Oh? I know it's only been two days but let me see your progress." Elder Shan said.

"I have been curious about Disciple Yuan's zither skills ever since you asked him to be your partner for the competition."

"Uhhh..." Fei Yuyan immediately hesitated, mostly because she didn't want Elder Shan to learn that Yuan has already surpassed her with the zither.

'Ah, whatever... She's going to learn about it sooner or later...' Fei Yuyan sighed inwardly before nodding her head.

A few moments later, Fei Yuyan returned to the backyard with Elder Shan by her side, dumbfounding Xuan Wuhan and Min Li.

"Hmm?"

Elder Shan also raised her eyebrows when she noticed the two of them, as she wasn't expecting any other guests other than herself.

Chapter 179 - Enhanced Pill Of Concealment

"E-Elder Shan!" Xuan Wuhan and Min Li quickly stood up from their comfortable seats and bowed to her once they realized who she was.

"Disciple Xuan and Disciple Min? What are you two doing here?" Elder Shan unconsciously asked them.

"We're here to watch them practice," Xuan Wuhan said.

"Oh? But I thought you wouldn't be back at the sect for another week? Did something happen at home?" Elder Shan looked at Xuan Wuhan with raised eyebrows.

"N-No... Nothing happened. I just felt like coming back earlier," Xuan Wuhan said with a somewhat stiff smile on her face.

"You? Hahaha... Now that's something I didn't expect to hear from someone renowned for spending more time outside the sect than inside."

Elder Shan laughed for a moment before turning to look at Yuan and speak, "Come with me for a second, Disciple Yuan. I have something for you."

Yuan nodded and followed her into the house.

"Here, this is an enhanced Pill of Concealment. It'll suppress your cultivation for an entire realm."

Yuan nodded and accepted the pill.

"What about the effects of the current pill? What happens if I swallow two pills with similar effects?" Yuan asked her a moment later.

"Right, that's what this pill is for—"

Elder Shan retrieved another pill and showed it to him; it was a clear white pill without any special auras or designs on it.

"This is the Pill of Cleansing. It'll erase all pill effects that are currently affecting your body. As for your second question, it depends on the pill. If you swallow two Pill of Concealment, you might get a stomach ache at worse. However, if you swallow two very powerful pills, your body might explode, so you must be cautious of what you eat and not eat pills carelessly."

"E-Explode? I haven't heard that word in a while..." Yuan mumbled in a dazed voice before looking at the pills in his hand.

[Powerful Pill of Concealment] [Tier 2] [Purity: 77%]

[Effects: Temporarily conceals your cultivation base by an entire realm for 15 days]

[Description: Only works if you are below Spirit Master]

[Pill of Cleansing] [Tier 1] [Purity: 97%]

[Effects: Remove all Tier 3 and below pill effects that are affecting your body]

[Description: Only works if the pills are below Tier 3]

After swallowing the Pill of Cleansing, a notification appeared.

[You have consumed Pill of Cleansing]

[The effects of 'Pill of Concealment' has been removed]

Yuan could feel his aura exploding outwards after consuming the Pill of Cleansing.

However, that aura didn't last very long as Yuan swallowed the Powerful Pill of Concealment a few seconds later, and his peak Spirit Warrior aura lowered until it resembled someone at the peak Spirit Apprentice level.

"Great, it worked perfectly." Elder Shan nodded with a prideful look on her face.

Yuan raised his eyebrows at her and said, "You mean you weren't certain of its effects?"

Elder Shan chuckled and said, "Of course I'm certain— but there is no such thing as a perfect pill— at least I have never seen one before."

"Anyway, let me listen to some of your zither music before I leave. I'm very intrigued by your abilities in music." Elder Shan then said to him.

"Okay." Yuan nodded.

They left the building and returned to the backyard shortly after.

"You're going to be staying here, too?" Xuan Wuhan asked Elder Shan after noticing that she was taking a seat.

"Might as well since I am already here," Elder Shan nodded.

A few moments later, Yuan returned to his seat behind the zither and turned to look at Fei Yuyan, "Should we continue what we've been doing?"

Hearing his words, Fei Yuyan quickly shook her head and said, "I-It's okay. Since my Master has heard of my zither play many times before and she is mostly here for your performance, you can play by yourself."

Yuan didn't think too much of Fei Yuyan's words and nodded.

After taking a deep breath, Yuan began playing one of Fei Yuyan's songs on the zither.

"T-This is..." Elder Shan's eyes immediately widened just a few seconds into Yuan's performance, as she only needed to see Yuan's graceful movements and listen to the first few music notes to recognize his talents.

'He's already on another level compared to Disciple Fei! Did he really just learn the zither not long ago? This is really hard to believe even with his godlike talents. Unless his comprehension ability works on other things besides cultivation techniques, which would be beyond heaven-defying...'

A few minutes later, after finishing his first song, Yuan proceeded onto the second song after a brief pause.

Elder Shan closed her eyes to enjoy the music.

'I have not felt this relaxed in many, many years...' Elder Shan thought to herself as she unconsciously dozed off.

Sometime later, Yuan stopped playing the zither after his fifth song, and to his surprise when he turned to look at Elder Shan, she was completely asleep with a peaceful expression on her face.

"Hmm?"

When the ladies there noticed Yuan's look, they turned to look at Elder Shan as well.

"S-She's asleep?" Fei Yuyan's eyes widened with shock.

"Should we wake her up? I would feel guilty waking up someone with that kind of sleeping face," Xuan Wuhan said.

"Oh? But you don't feel guilty for waking me up last night?" Fei Yuyan glared at her.

"This and that are two different situations." Xuan Wuhan shrugged in a nonchalant manner.

"You little—"

Fei Yuyan raised her voice, accidentally waking Elder Shan.

"Hmm? Did I fall asleep?" Elder Shan rubbed her eyes before recalling that she was not inside her own room.

"Uhhh... I..."

Elder Shan's face immediately blushed, and then she cleared her throat loudly before speaking in an awkward voice, "T-That was a great performance, Disciple Yuan. I haven't felt this relaxed for a long time. Maybe I should visit you again in the future when I'm having trouble sleeping. Anyway, I just remembered that I have some work I need to finish... See you disciples later..."

Chapter 180 - Do Whatever You Want

After saying her goodbyes, Elder Shan quickly disappeared from the scene with a slightly rosy complexion on her beautiful face.

Once Elder Shan was gone, Fei Yuyan said, "I guess we can stop practice here for today. Good job, Disciple Yuan, and I apologize for sleeping through half of today's practice."

Yuan nodded since it was also about time he logged off for dinner.

Fei Yuyan then turned to look at Xuan Wuhan and Min Li with a slightly cold expression and said to them, "Shows over, you can go home now."

Xuan Wuhan raised her eyebrows, and then she suddenly turned to look at Yuan before asking, "Hey Yuan, do you mind if I stay here for the night?"

"W-What?! What are you trying to achieve here, Disciple Xuan? Why would you want to stay here?" Fei Yuyan was the first to react to Xuan Wuhan's words.

"Why not? I am too tired to walk after sitting here for the entire day. I'd rather just stay here for the night. It's fine, right, Yuan?" Xuan Wuhan asked him again.

Everyone there turned to glare at Yuan with an intensive gaze, but Yuan didn't even budge an eyebrow and nodded calmly, "I don't mind. But you should get permission first like Disciple Fei."

"Right away!"

Xuan Wuhan immediately retrieved her communication jade slip and contacted Elder Xuan, her grandfather.

A few seconds later, Elder Xuan's voice resounded in a casual manner, "What's the matter now?"

"Grandpa, I'm going to stay over at Yuan's house tonight. Can I get your permission real quick?" Xuan Wuhan said.

"..."

Elder Xuan did not immediately respond and remained silent for a good moment until a low mumble finally responded, sounding a little helpless, "Go ahead... Do whatever you want..."

"Thanks, grandpa!"

After deactivating the communication jade slip, Xuan Wuhan looked at Yuan and said with a bright smile on her face, contrary to her 'exhausted' state, and she said, "Well, there you have it! I'll be staying here tonight!"

'T-This little...' Fei Yuyan silently gritted her teeth at Xuan Wuhan's shameless abuse of her background.

Meanwhile, Min Li sighed inwardly, 'If only I didn't live directly next door to him...'

Because she lived so close to him, she wasn't able to use the same excuse as Xuan Wuhan.

Sometime later, Xuan Wuhan went to find a room for the night whilst Fei Yuyan went to clean her body of the sweats she'd accumulated from practice.

If news of Yuan staying in the same building as two top fairies for the night were to spread to the other disciples, there would, without a doubt, be an army of angry people gathered in front of his house on the same day.

Once Fei Yuyan came out of the bathroom, Yuan went to clean himself next.

"I never knew you were such an aggressive woman, Disciple Xuan," Fei Yuyan said to Xuan Wuhan after running into her while walking towards her own room. "How can you act so shamelessly? I wonder what would happen if the disciples knew that one of the Three Graceful Fairies was such a woman."

Hearing her words, Xuan Wuhan pretended to be stupid and said, "I have no idea what you're talking about. I am simply sleeping over at a friend's house. Meanwhile, you're taking advantage of your situation as 'partners'. It wouldn't take you even an hour to get here from your place, yet you'd opted to stay in a man's house even though you barely know him. Perhaps you are actually secretly hoping that something might happen?"

"N-Nonsense! Even if it's just one hour, it adds up! We only have one week before the competition! If I take one hour to come here and another to return home every day, that's at least 14 hours that could've been used towards our practice! And I know Disciple Yuan isn't that type of person so I am not expecting anything!"

"Yeah, yeah. Whatever you say, 'partner who overslept and missed half of today's practice'." Xuan Wuhan said in an obnoxiously sarcastic voice.

"T-That's all your fault! I swear to heaven, Disciple Xuan! Don't push my limit!" Fei Yuyan glared at her with narrowed eyes.

However, before their tension increased any further, Yuan appeared and said with an innocent look on his face, "What's wrong?"

"N-Nothing..." Fei Yuyan immediately smiled and said to him, "Goodnight, Disciple Yuan. I definitely won't repeat the same mistakes tomorrow."

"Goodnight, Yuan. I can't wait to hear more of your music tomorrow," Xuan Wuhan also said to him with a smile on her face, acting like her little fight with Fei Yuyan never happened.

Yuan nodded and said, "Goodnight to both of you."

They all went to their respective rooms shortly after.

While Fei Yuyan immediately went to sleep and Xuan Wuhan stayed up for a few more hours to cultivate, Yuan logged off the game to eat dinner.

After dinner, Yuan spent the rest of the night cultivating until it was morning.

In the morning, Yu Rou cleaned his body and fed him breakfast before going to school while Yuan returned to the game.

"Good morning, Disciple Yuan." Fei Yuyan greeted him in an elegant manner when he appeared in the living room, even casually sipping on tea like she'd been awake for some time.

"Good morning, Disciple Fei," Yuan greeted her. "Did you have enough sleep last night?"

"Yes, I slept soundly since there was no monkey disturbing my sleep," Fei Yuyan responded with a smile that did not fit her words.

"M-Monkey?" Yuan raised his eyebrows, wondering why she would mention monkeys in this situation.

Sometime later, Xuan Wuhan appeared and said, "Oh? Looks like you really woke up properly this time. I was even thinking about knocking on your door if you weren't awake by now."

"..." Fei Yuyan looked at her weirdly, but she decided to ignore Xuan Wuhan ultimately.

A few minutes later, Min Li knocked on the door and said, "You'll also be practicing today, right?"

Yuan nodded and said, "Yeah, do you want to join us today as well?"

"If you don't mind," Min Li nodded, trying her best not to blush.

Thus, they began their third day of practice with only four days left until the zither competition.

Chapter 181 - Heavenly Melody Academy

"Un— You have improved a lot compared to yesterday's practice, Disciple Fei," Yuan said to her with an approving smile on his face after another day of practice, resembling a lecturer.

"Thank you..." Fei Yuyan said in a slightly dejected voice, unsure of how she should feel about her situation.

On one hand, her zither skills were improving at a rapid rate that she has never experienced before, but on the other hand, she was being taught by a junior disciple who had less experience than her with the zither, putting her 'senior' status to question and even subtly slapping her in the face with his godlike talents.

'It appears that I am the only one who's really benefiting from this practice...' Fei Yuyan sighed inwardly, feeling slightly ashamed of herself.

"At this rate, Yuan might win the entire competition by himself even without needing your help, Disciple Fei," Xuan Wuhan said to her with a smile.

Fei Yuyan wanted to refute Xuan Wuhan's words, but there was nothing she could say, as she also believed that Yuan has the capability to carry her to third place even if her performance turns out to be lacking.

Sometime later, once the practice was over, Min Li returned to her home next door whilst everyone else went to do their own things.

"Don't tell me you're going to stay here again tonight? I thought it was only for last night," Fei Yuyan said to Xuan Wuhan who was casually laying in her bed and had no intention of leaving anytime soon.

"Did I say it was only for a single night? Since I am already here, it shouldn't matter if I stayed here for another day or a couple more days." Xuan Wuhan said in a shameless voice.

Fei Yuyan shook her head and ignored Xuan Wuhan, almost like she was already getting used to her behavior.

The following day, Yuan and Fei Yuyan went to the backyard early in the morning to practice their zithers with Xuan Wuhan as a spectator as well as Min Li, who was ignoring her daily routine and practice just to spend more time around Yuan so she doesn't fall behind these two top beauties who were already ahead of her in terms of relationship and intimacy.

If her family knew about this, they would definitely scold her, but fortunately for her, she was the only one from the Min Family in the Dragon Essence Temple while her siblings were at the other and more powerful elite sects.

Sometime later, their fourth day of practice came to an end.

However, right as everyone there prepared to leave the backyard, a familiar-sounding voice resounded, "Disciple Fei! I'm coming in!"

Elder Shan did not even wait for one of them to open the door and opened the door with her own keys before appearing in front of them a moment later.

"Master? What's the matter? Did something happen?" Fei Yuyan looked at her with a puzzled face, wondering why Elder Shan appeared to be so excited.

"You haven't heard? The judges for the zither competition have been announced and you won't believe who'll be judging this year's competition!" Elder Shan said.

"Who?" Fei Yuyan asked with a slightly dazed look on her face, as she has never seen Elder Shan so excited before.

"The Sect Master of Heavenly Melody Academy— Senior Song Ling'er!" Elder Shan said with a smile on her face.

"WHAT?! SENIOR SONG LING'ER?!" Fei Yuyan exclaimed in a shocked voice, startling Yuan and the other two.

"Senior Song Ling'er? Who's that?" Yuan decided to ask her.

"Y-You don't know Senior Song? The number one zither expert in the Lower Heavens? She's even called the Goddess of Music!"

"Goddess of Music?" Yuan raised his eyebrows, unsure of how to feel about such an overbearing title.

"The Heavenly Melody Academy is an elite sect that purely focuses on instruments with most of if not all of their disciples using instruments as their weapons, and their Sect Master, Senior Song Ling'er, has mastered over a dozen instruments with the zither being her favorite," Elder Shan explained to Yuan.

"Honestly, I wanted to join the Heavenly Melody Academy at first before the Dragon Essence Temple, but I wasn't determined enough to focus on the zither at that time so I went with the Dragon Essence Temple instead." Fei Yuyan shrugged.

"Do you regret it?" Elder Shan suddenly asked her. "You could've definitely become a Core Disciple there as well with your zither skills."

"I would be lying if I say that I don't since there are times when I wonder if I would've done better as a disciple at the Heavenly Melody Academy, but I am mostly glad that I'd joined the Dragon Essence Temple, Master." Fei Yuyan said.

Elder Shan nodded with a smile on her face, and she continued, "Anyway, there will be two more judges alongside Senior Song, but they might as

well not be there with Senior Song's presence there! If you can impress her, it will greatly benefit you and maybe even the Dragon Essence Temple's relationship with the Heavenly Melody Academy."

"Although the Heavenly Melody Academy is vastly different from the other sects, do not underestimate their prowess, as they are ranked the 3rd strongest sect in the Lower Heavens."

"What about our Dragon Essence Temple? Where do we rank?" Yuan suddenly asked.

A bittersweet smile appeared on Elder Shan's face, and she responded, "During our Founder's era, our Dragon Essence Temple was number one, but alas, ever since his disappearance, we have slowly dropped in the ranks, and we're now only 7th in the ranking."

"7th? That's already very good, no?" Yuan raised his eyebrows.

"Of course, but compared to our former glory, it's quite shameful and a slap to our Ancestors' faces..." Elder Shan sighed.

"Anyway, I believe that our ranking will soon change for the better so it's all good." Elder Shan winked her pretty eyes at Yuan, dumbfounding the three ladies there, and they silently wondered what else Yuan was hiding from them.

Chapter 182 - Practicing Until Morning

Shortly after Elder Shan left the place, Fei Yuyan suddenly said, "Disciple Yuan, you can rest for the day. I am going to practice a little longer."

"Eh?" Yuan looked at her with raised eyebrows, and he said, "You have already practiced for 10 hours today. It's better to get some rest."

"I know, but I don't think I can calm down so quickly after learning about Senior Song. She has countless admirers whether it'd be for her beauty or her musical abilities. I've admired her ever since I can remember," Fei Yuyan said.

And she continued, "Now that I know about her appearance at the competition, I must not embarrass myself at all cost! Therefore, I am going to practice more and try my best to impress her!"

Yuan nodded and said to her, "Don't overdo it, Disciple Fei. It'll be problematic if you tire yourself out right before the competition. It's happened to me multiple times so I know how it feels."

Fei Yuyan smiled and said, "Are you worried about me? Don't forget that I am a Cultivator—a Spirit Warrior. I can practice for an entire week without rest and will still feel perfectly fine."

Sometime later, Yuan and the others left the backyard whilst Fei Yuyan remained to practice her zither.

"Brother, guess what's being talked about in my school!" Yu Rou asked Yuan after she returned home.

"What?"

"The zither competition! You know my school is a prestigious school for musicians— there's no way they wouldn't talk about something as massive as the zither competition!" Yu Rou said.

"In fact, I even know a couple of students in my school who intend on participating in the zither competition!"

"Eh? There are people in your school that also know how to play the zither?" Yuan asked with his interest piqued.

"Yes, a lot of people in my school play Cultivation Online, and they learned to play the zither there. Of course, they are still not very good at it, but they still wanted to participate. As for the others, there'll only be at the competition as a spectator."

Yu Rou then continued, "Therefore, try not to reveal yourself, okay? Most people nowadays may not remember you, but there's a lot of students in my school that still remember your talents, brother, especially since I am there."

"Don't worry, I will be wearing a mask for the competition just in case," Yuan said.

"Good." Yu Rou nodded.

"By the way, I would like to stay in the game tonight and practice the zither some more." Yuan suddenly said.

"Don't overwork yourself, brother. You should know by now that rest is as important as the practice itself."

"I know, Yu Rou. There's no reason for me to overwork myself, anyway."

"Okay..."

A few minutes later, Yuan returned inside the game, and he went to the backyard to see whether Fei Yuyan was still practicing or not.

And as he'd expected, Fei Yuyan, while being basked in gentle moonlight, was practicing the zither.

"What's the matter, Disciple Yuan?" Fei Yuyan stopped playing to look at him. "Couldn't sleep?"

"No, I've just decided to practice some more with you," Yuan said to her.

"Are you sure? You can go ahead and sleep if you want to. I am doing this on my own accord so you don't need to feel guilty about leaving me alone." Fei Yuyan said with a smile on her face.

"I am also here on my own accord so you don't have to worry. The competition is only a couple of days away, and I don't want to disappoint you so I'll try my best until then."

"Disappoint me...?" Fei Yuyan looked at Yuan with a slightly dazed look on her face.

Yuan nodded with a smile and said, "Since you came to me and asked me to become your partner, I feel an obligation to meet your expectations."

Fei Yuyan blushed for some reason after hearing Yuan's words, and she nodded, "Since you insist on practicing with me, there's no reason for me to refuse."

A few moments later, Yuan sat beside her and placed his hands on the zither.

"Then let's practice all night!" Fei Yuyan said, and they began playing the zither together.

"Hmm? This sounds like Disciple Yuan's zither..." Min Li, who had her windows open, could suddenly hear another person playing the zither besides Fei Yuyan.

The thought of closing the windows to sleep in silence was thrown out of Min Li's mind, and she decided to sleep with the zither music in the background.

As for Xuan Wuhan, she was completely oblivious to the situation outside since she didn't have her windows opened, which activates the sound-proofing formation and prevents all sound from entering her room.

Thus, she spent the entire night in her own room whilst Yuan and Fei Yuyan played the zither together until it was morning.

"Wow... It's already morning? It didn't feel like that much time had passed!" Fei Yuyan exclaimed when she saw the sun rising on the horizon.

"Time passes much quicker when we're absorbed, especially when it comes to music. And congratulations, Disciple Fei, you can now perfectly synchronize your music with mine." Yuan said to her with a satisfied smile on his face, feeling incredibly refreshed despite spending all night practicing.

"Did you already forget? You can call me Fei Yuyan when we're alone," she said, also with a smile on her face.

Sometime later, Fei Yuyan went back into the house to clean herself.

Once they were both clean and refreshed, Fei Yuyan asked Yuan, "What do you want to do today? Do you want to continue practicing after a short break?"

Yuan asked, "The competition is only 2 days away, right?"

"The competition doesn't actually start until the third day, but we will take the whole day before the competition to rest and prepare ourselves, so today will be our last day practicing." Fei Yuyan said to him.

"Okay." Yuan nodded, feeling quite excited about the competition.

Chapter 183 - Last Day Of Practice

"I will be right back," Yuan said to Fei Yuyan after taking a shower, as it was about time for him to eat breakfast.

"Okay, I'll see you in a bit."

After returning to his room, Yuan logged off the game and waited for Yu Rou to do her routine.

About an hour later, Yuan logs back into the game to find Fei Yuyan casually sipping tea in the living room.

"Did you already eat breakfast?" Yuan asked her.

"Breakfast? No. I only eat food once a week." Fei Yuyan casually responded.

"Eh?" Yuan looked at her with wide eyes.

"Once a week?! That's unhealthy! Especially if you're spending so much time practicing!" he said to her.

Fei Yuyan raised her eyebrows and said, "What are you talking about? As Cultivators, we don't need to eat as often as mortals since we feed on spiritual energy. In fact, most Cultivators treat food like snacks."

Yuan stared at Fei Yuyan with a loose jaw. Because his breakthroughs mostly relied on monster cores and fortuitous encounters such as the Carp Leaping Over Dragon's Gate Tower, he didn't know that he could fill his stomach with spiritual energy alone.

"Even if you can fill your stomach with spiritual energy... That still sounds unhealthy..." Yuan mumbled, as he cannot even begin to imagine eating no food for an entire week straight.

Furthermore, while spiritual energy may be able to fill up one's stomach, what about one's nutrition? Does spiritual energy have the necessary nutrition for one's body? How is that any different from drinking water to fill up one's stomach?

"If you want to eat something, you can go ahead and eat without me. I can wait for you to return before we start practice." Fei Yuyan said to him.

Yuan shook his head and said, "No, it's fine. I already ate. We can begin to practice whenever you're ready."

Fei Yuyan raised her eyebrows. Did he eat inside his room or something?

After shaking the questions in her mind away, Fei Yuyan tilted her head backward along with the teacup, gulping down the tea at once.

"Okay, let's start practice now." Fei Yuyan said to him afterward.

Yuan nodded, and as he turned to walk outside, Fei Yuyan suddenly said, "We can stay inside today; it's raining outside right now."

"Oh, okay." Yuan nodded again before taking a seat on the couch.

A few minutes later, once they were in position and prepared, the two of them began playing the zither.

Xuan Wuhan woke up an hour later with Min Li knocking on the door a few minutes later.

"Wow, it sounds even more impactful since we're inside a closed area," Xuan Wuhan said with a slightly dazed look on her face after listening to her first song for the day.

"Also, it sounded like you've both improved a lot since yesterday. How much did you actually practice last night? Did you even sleep?" Xuan

Wuhan asked them afterward.

"No, we didn't sleep last night actually. Instead, we'd spent the entire night playing the zither together— alone." Fei Yuyan responded to her in a calm voice.

Xuan Wuhan's eyes widened, and she proceeded to stare at Fei Yuyan with a speechless look on her face.

"Anyway, let's continue." Fei Yuyan said to Yuan, and they continued practicing the zither again.

Time passed quickly and before they realized it, it was already night again.

"Okay, Disciple Yuan. This is enough for today. Go rest now, and then we'll spend the entire day tomorrow resting even more. Our body and mind must be in perfect shape before the competition, after all." Fei Yuyan said to him at the end of their practice session.

"Okay." Yuan nodded and went to shower first this time.

Once Yuan returned, Fei Yuyan went to clean herself.

"What do you think, Yuan? Are you confident in your abilities? Do you think you'll have a chance at 3rd place? I don't know much about zither, but if someone like Disciple Fei could reach 7th place, you'll definitely be able to reach 3rd place if not even first place!" Xuan Wuhan said to him.

"I am also unsure about my current standing since I am new to the zither and Disciple Fei is the only other zither player I know and can compare to. However, no matter what happens, I'll play the zither to the best of my abilities and hopefully, meet Disciple Fei's expectations," Yuan said with a smile on his face.

"You're quite the humble one despite your talents, Yuan. I really admire that. You're clearly already better than Disciple Fei who is already highly established and respected in the zither community, yet you act like equals."

"Well, I've learned at a very young age to never look down on others regardless of their situation, so I can only look up to or as equal to somebody," Yuan said.

"Your parents have taught you well then..." Xuan Wuhan said.

However, a bittersweet smile appeared on Yuan's face, and he said in a slightly dispirited voice, "The only thing my parents taught me was music and instruments. Everything else was either self-taught or taught by my sister."

"I-Is that so? Then who taught you to be humble?" Xuan Wuhan asked, feeling a little awkward now.

A weird smile appeared on Yuan's face, and he said, "It took a while, but I learned it after realizing why all of my opponents were crying and staring at me with hatred on their faces after a music competition."

"Although I didn't realize it until it was too late, I had always looked at my opponents with a cold and indifferent face. Perhaps they mistook my natural expression as arrogance, hence why I was hated by a lot of people."

"You? Arrogant and indifferent? I cannot imagine it, especially the being hated part." Xuan Wuhan said.

Yuan chuckled and said, "I don't really remember most of it, but my sister would always tell me how much I have changed compared to my childhood days. Perhaps living most of my life as a cripple had really changed my character."

"Eh? What did you just say? A cripple? You?"

Xuan Wuhan and Min Li stared at Yuan with wide eyes after he accidentally spilled some beans.

Chapter 184 - Two Life

"Ehhh..." Yuan looked at the two beauties with an awkward look on his face after realizing what he'd just said.

"A-Anyway, I am getting very sleepy, so I am going to retire for the day. I'll see you all tomorrow," Yuan said to them before rushing upstairs, almost like he was running away before they could further question him.

"What was that about?"

Xuan Wuhan and Min Li exchanged looks with each other. Yuan was definitely keeping something from them, but who doesn't have a few secrets they'd rather keep to themselves?

"It's getting late so I'll be leaving too. I'll see you tomorrow, Senior apprentice-sister Xuan..." Min Li said as she left the building.

"Guess I'll go cultivate," Xuan Wuhan shrugged before going into her room.

"Hmm? Where did everyone go?" Fei Yuyan came out of the bathroom a few minutes later to see an empty living room.

"Oh well..."

Fei Yuyan shook her head before going into her room and falling asleep shortly later.

The following day, Xuan Wuhan asked everyone there, "What are you going to do today if you're not going to be practicing the zither?"

"Well..."

However, before Fei Yuyan could respond, someone knocked on the door before a voice resounded, "Are you guys inside? It's me!"

"Master?" Fei Yuyan went to open the door after hearing Elder Shan's voice.

"What's the matter, Master?" Fei Yuyan asked after greeting her.

"What do you mean? The tournament's tomorrow, you know, and I'm here to see if you're ready to leave yet."

"We're leaving the sect already? I thought we wouldn't have to depart until tomorrow morning." Fei Yuyan said with raised eyebrows since this did not happen last time.

"Due to the presence of Heaven and Earth Palace and Senior Song, the place will be much more crowded than last time. If we don't leave now, we'll have trouble getting into the city." Elder Shan explained.

"Oh, that makes sense..." Fei Yuyan then turned to look at Yuan and asked him, "Are you ready to leave now?"

Yuan immediately nodded and said, "I am ready to leave whenever you are."

"W-Wait a second! Elder Shan! I would also like to come with you!" Xuan Wuhan suddenly said.

"You?" Elder Shan raised her eyebrows, and then she said, "I can only carry two other individuals on my flying treasure so you'll have to ask your grandfather to take you."

"Eh? My grandpa is also going?" Xuan Wuhan mumbled in a surprised tone.

Elder Shan nodded and said, "Yes, that's why you should talk to him instead."

"Anyway, we need to speak with the Sect Master before we leave the sect. Come with me, Disciple Fei, Disciple Yuan."

"I'll see you two later," Yuan said to Min Li and Xuan Wuhan.

Once Fei Yuyan and Yuan left with Elder Shan, Xuan Wuhan and Min Li looked at each other.

"D-Do you think Grand Elder Xuan would be willing to take me along?" Min Li asked Xuan Wuhan.

"I can ask for you..." Xuan Wuhan nodded.

"Thank you, senior apprentice-sister."

Meanwhile, at the Sect Master's headquarters sometime later, Elder Shan knocked on the door and said, "Sect Master, I've brought Disciple Fei and Disciple Yuan here, and we'll be leaving the sect soon."

"Come inside."

A moment later, they entered the room.

"I didn't think I'd see you again so soon, Disciple Yuan." Long Yijun said with a somewhat stiff smile on his face.

"Anyway, about this zither competition... There'll be a lot of people there, you know?"

"I know," Yuan nodded.

"If there's a lot of people, it means there'll be a lot of people watching you..." Long Yijun narrowed his eyes at Yuan, who appeared oblivious at this moment.

Yuan suddenly smiled and said, "Don't worry, Sect Master, I'll be wearing a mask during the competition so that people won't be able to recognize me."

"Oh?" Long Yijun and Elder Shan looked at Yuan with surprised looks on their faces. They didn't think he would be aware, which definitely was a shocker.

Sometime later, Long Yijun retrieved a medium-sized wooden box and placed it on the table.

"Take these, Disciple Yuan. In case anything happens, these treasures will keep your life safe."

After opening the wooden box, Yuan could see two items sitting inside.

One of these two items was a deep green jade slip with the other being a silver talisman.

"The jade slip is called 'Jade Barrier', and the token is named 'Ten Thousand Miles Talisman'." Long Yijun said, and he proceeded to explain their usages, "If you pour some of your spiritual energy into the Jade Barrier, it will create a very powerful defensive formation around you that can block even a Spirit Grandmaster's strike, but it will only be able to block a single hit no matter who attacks you so you must use it wisely."

"As for the Ten Thousand Miles Talisman, as long as you activate it with your spiritual energy, it will immediately teleport you ten thousand miles from your location. However, it does so randomly so there are some risks involved, such as being teleported in the middle of an ocean or in the middle of a beast's nest."

"Remember, Disciple Yuan, that you can only use these treasures once before they lose their powers." Long Yijun warned him.

"I understand," Yuan nodded before accepting these two life-saving treasures.

"Thank you," he said afterward.

'The Sect Master personally handed Disciple Yuan two powerful life-saving treasures?! For what?! Leaving the sect?! Just what is his background?!' Fei

Yuyan cried inwardly after seeing this.

"Good luck, Disciple Fei and Disciple Yuan. Go and make the sect and our ancestors proud." Long Yijun said to them before looking at Elder Shan and continuing, "I'll leave them in Elder Xuan's and your care, Elder Shan."

"Rest assured, Sect Master. I won't let either of them come to any harm, and I'll prioritize their lives over mine," Elder Shan nodded with a serious look on her face.

'What the heck? We're only going to participate in a zither competition, and it's not as if we're hunting powerful magical beasts...' Fei Yuyan was left speechless by their serious conversation, as it sounded like they were going somewhere dangerous.

Chapter 185 - Special Treatment

Yuan left the Sect Master's headquarters with the others shortly after Long Yijun gave him the life-saving treasures.

"Disciple Yuan," Elder Shan suddenly called out to him, and then she reached into her spatial ring before pulling out a red pill and handing it to him.

"Although this pill is not as powerful as the life-saving treasures the Sect Master gave you, this Pill of Dominance will enhance your combat capabilities by 100% for ten minutes. However, you'll become a bit sore and feel weak afterward so if you cannot defeat your opponents in 10 minutes, use the Ten Thousand Miles Talisman to get as far away as possible."

"Thank you, Senior Shan..." Yuan accepted the pill.

[Pill of Dominance] [Tier 3] [Purity: 88%]

[Effects: Enhances all of your stats by 100% for 10 minutes followed by a 75% deduction in all stats for 24 hours]

[Description: Only consume if you are a Cultivator!]

'Even Master gave Disciple Yuan something to keep him safe?' Fei Yuyan stared at him with a slightly dazed look on her face.

"Let's go meet up with Elder Xuan now." Elder Shan said before bringing them to his living quarters.

"Hmm?" Elder Shan raised her eyebrows when she noticed two familiar-looking faces standing beside Elder Xuan.

Of course, it was Xuan Wuhan and Min Li. In the end, Xuan Wuhan managed to persuade Elder Xuan to bring her and Min Li along to the competition.

"Are we all ready to leave?" Elder Xuan asked them after they gathered.

"Yes, and we just came from seeing the Sect Master. We're ready to leave at any time." Elder Shan nodded.

"Good. Then we shall depart right away. However, before we leave, allow me to give this to you, Disciple Yuan..." Elder Xuan said as he retrieved two items and extended them towards Yuan.

"These two items will come in handy if you're ever in trouble. The first item is called 'Thunder Needle'. You can activate it by pouring your spiritual energy inside, and once that happens, it will explode in three seconds, releasing a powerful explosion that's as strong as an all-out attack from a Cultivator at the peak Spirit Master realm, so make sure you throw it before it explodes."

"This second item is called Dragon Marble; it's an extremely rare treasure with very limited quantities since only a dozen of these were found in the Dragon Temple many thousand years ago. There are only two of these treasures left in the sect, and if you activate it with your spiritual energy, it'll transport you back to the Dragon Essence Temple no matter where you are in this world as long as you're within the Lower Heavens. Use it wisely."

'The Dragon Marble?! Grand Elder Xuan is going to give away such a precious life-saving treasure to Disciple Yuan?! Why?!' Fei Yuyan's jaw dropped to the ground when she saw this, as did Xuan Wuhan and Min Li.

They were only going to participate in some music tournament inside a city. The chances of them being in danger were practically none, yet Yuan still received many powerful life-saving treasures as though he was being sent to the battlefield!

'Why are they only giving him life-saving treasures? What about me? What about the rest of us?! Aren't we also leaving the sect? Why does he get such special treatments?!' Fei Yuyan cried inwardly, feeling slightly envious of Yuan, but she didn't dare to complain.

"Thank you, Senior Xuan." Yuan accepted the small silver needle and the golden marble before tossing them into his spatial ring.

"How can you give him something so precious when I only gave him a Pill of Dominance? Now you're making me look bad..." Elder Shan sighed afterward.

"I'm sorry, it wasn't intentional, Elder Shan..." Elder Xuan said with a somewhat stiff smile.

Sometime later, Elder Shan retrieved what appeared to be a wooden boat toy from her spatial ring.

After pouring some of her spiritual energy into the wooden boat, the toy-sized wooden boat suddenly expanded until it was large enough to fit three people, dumbfounding Yuan.

"Get on." Elder Shan said to them as she boarded the wooden boat.

Fei Yuyan entered the boat before taking a seat.

"What are you waiting for, Disciple Yuan? Come over here." Fei Yuyan patted the empty seat beside her with a seemingly innocent look on her face, yet her eyes glanced at Xuan Wuhan for a split second.

Yuan nodded and took a seat beside Fei Yuyan, even feeling something soft pressing the side of his h.i.p.s afterward.

Xuan Wuhan's eyebrows twitched after seeing this, and she definitely did not miss Fei Yuyan's quick glance.

Meanwhile, Elder Xuan also retrieved his flying treasure.

"T-That's a treasure?"

Yuan stared at Elder Xuan's 'flying treasure' with wide eyes, as it looked like a small circular platform made of clouds.

Elder Xuan smiled at Yuan's reaction, and he said, "There are many different types of flying treasures. You can even find ones that resemble and move like magical beasts, but they're not actually real."

Sometime later, Elder Shan and Elder Xuan activated their flying treasures and took flight, soaring towards the clouds in the sky before speeding into the distance at a speed that was vastly superior to flying swords.

"Wow... How expensive are flying treasures?" Yuan asked a few minutes later.

"Flying treasures are very rare in the Lower Heavens so the chances of you buying them are extremely low," Fei Yuyan said.

"Then how were these flying treasures obtained?"

"I obtained mine during a large tournament two hundred years ago," Elder Shan responded.

"As for Elder Xuan, I believe it was given to him by the sect for his meritorious achievements when he was still a mere disciple. Do you also want one?"

Yuan shook his head and said, "No, I just find them really cool, and I still prefer the flying sword."

"There are also flying treasures that resemble swords. In fact, the Sect Master of the Radiance Sword Sect has a flying treasure that's simply an enormous sword." Elder Shan said, causing Yuan to imagine himself soaring in the sky with an enormous sword.

'Maybe I can use the Empyrean Overlord as my flying sword in the future?' Yuan thought to himself.

Chapter 186 - Accidentally Spilling The Beans

After flying for a couple of hours, the flying treasures came to a sudden halt, and Elder Shan said, "We're at the place. However, since we cannot enter the city with flying treasures, we'll have to descend here."

A few moments later, Elder Shan and Elder Xuan descended their flying treasures before storing them away.

Once they were standing on the ground again, Yuan retrieved a black jade mask and wore it on his face, covering his handsome features besides his bright eyes that illuminated with energy and excitement.

"W-Wait a second... That jade mask..."

When Min Li saw this familiar-looking jade mask, she immediately recalled the mysterious figure during the disciple examination.

"Y-You! It was you all along?!" Min Li cried out loud while pointing at Yuan with trembling fingers when she realized the truth.

"Huh?"

Everybody there including Yuan turned to look at Min Li with raised eyebrows and puzzled expressions.

"What are you talking about?" Xuan Wuhan asked her.

"Y-You! Disciple Yuan! You were the masked figure from the disciple examination?! I saw you during the third exam, even taking notice of you because of your powerful aura! I had wondered where you went because I

didn't see you after the examination! So you were right beside me this entire time!" Min Li exclaimed.

"Eh? Yes... I was there when you took fifty steps," Yuan nodded, not even bothering to hide anything. "Is there something wrong?"

"Of course! You emitted the power of someone at the Spirit Warrior realm at that time! How come you're only a Spirit Apprentice now?! In fact, now that I look at your cultivation, it went up by two whole levels since I last checked! How is that even possible?!" Min Li said.

"Huh? What are you talking about? Yuan has always been a Spirit Warrior. He was at fifth level Spirit Warrior even before he'd become a disciple at the Dragon Essence Temple," Xuan Wuhan casually said.

"What?!" Fei Yuyan and Min Li turned to look at Xuan Wuhan with their eyes wide with shock.

How could an Outer Court disciple be at the fifth level Spirit Warrior realm?!

Elder Xuan and Elder Shan looked at each other with a bittersweet smile on their faces, and Elder Xuan said a moment later, "Actually... Disciple Yuan is currently under the effects of a pill known as 'Pill of Concealment' that suppresses his cultivation level by an entire realm, and his real cultivation base is actually peak Spirit Warrior, but keep this a secret, okay? I am only revealing this fact because it's impossible to keep it hidden at this point."

"Peak Spirit Warrior?!?!"

The three fairies turned to look at Yuan with gawking looks on their beautiful faces.

How old was Yuan again? 18 years old? How can someone that young have such an impressive cultivation base? That's something you normally only see in the upper heavens!

Thud.

Min Li suddenly fell to her knees with disbelief on her face.

'I... I have been comparing myself to a Spirit Warrior this entire time? It's no wonder why he was able to destroy the Training Puppet so casually! I've been fooled!' Min Li cried inwardly, feeling as though she'd lived a life of lies this entire time.

'T-This guy... He's even more monstrous than I'd expected! Peak Spirit Warrior at such a young age! He's definitely from one of the Four Ancient Families if not a hidden family that's even more powerful!'

"A-Are you okay?" Yuan asked Min Li in a weird tone after seeing her fall to her knees.

"Yes... I am..." Min Li said a moment later before standing up and patting the dirt off her slightly stained robes.

Sometime later, Elder Shan asked them, "Are we ready to continue?"

"Yes."

They all nodded.

Thus, Elder Shan began leading them towards the city that was less than a mile away.

'Peak Spirit Warrior... He's not only more talented than me in music, but he's also stronger than me in cultivation...' Fei Yuyan stared at Yuan's back from behind with a profound expression on her face, wondering if there were any more secrets from him.

Many minutes later, they arrived before the city walls.

"Wow... There's a lot of people here..." Yuan mumbled in a dazed voice after seeing the sea of people trying to get inside the city.

"Damn, I've underestimated the crowd. I didn't expect there to be so many people here." Elder Shan sucked her teeth after seeing so many people.

Elder Xuan shook his head and said with a smile on his face, "Even though you are mostly shameless at the sect, you can be quite humble and innocent at times, Elder Shan."

"What do you mean by that?" Elder Shan looked at him with one of her eyebrows raised.

Elder Xuan chuckled and said, "Do you really think they're going to make us wait in line like everyone here? Just follow me."

Elder Xuan did not wait for a response and stepped towards the city walls and into the crowd.

"Eh?"

Despite having no eyes behind their back, the people in front of Elder Xuan unconsciously turned around due to Elder Xuan's profound aura that poked their backs with an invisible finger.

"That's a Sect Elder from the esteemed Dragon Essence Temple!"

"Hey! Isn't that Elder Xuan?! Dragon Essence Temple's Grand Elder! What's he doing here?!"

The people there immediately recognized his majestic robes, and not daring to block his path, they quickly made way for him, creating a long and empty path from the back of the line to the front of the line.

"What are you all waiting for? Let's go." Elder Xuan said to the others in a calm voice.

A few seconds later, Yuan and the others followed Elder Xuan through the massive crowd and towards the city entrance with dumbfounded looks on their faces.

"Welcome to our city, Sect Elders and Disciples of the Dragon Essence Temple!" The guards greeted them in a respectful voice once they reached the front.

Chapter 187 - Splitting The Rooms

"Don't mind us too much. We're only here because of the zither competition that'll be held in this city," Elder Xuan said to the guards with a friendly expression.

"Of course. The majority of people coming to the city these past few days are only here for the competition. Are you going to be participating or are you just spectating, Seniors?" The guard then asked.

"My disciples will be participating in the zither competition," Elder Xuan responded.

"I see. Then please accept this. It's a small gift from our city for those that'll be participating in the competition."

The guard suddenly showed them a small golden medallion, and he continued, "If you head to the Royal Blossom Hotel and show them this token, you'll receive rooms to reside until you decide to leave the city—free of charge, of course."

"Oh? That's very generous of this city. I'll be sure to thank the lord of this place when I get the chance," Elder Xuan said with a smile on his face.

"Thank you, Senior!" The guard bowed to him respectfully.

Of course, the city doesn't hand out these tokens to just anybody that decides to participate in the competition like candies and only prestigious or powerful backgrounds like the Dragon Essence Temple would receive them, especially if their Grand Elder is there.

After accepting the golden medallion, Elder Xuan entered the city of the others.

"Did you already reserve a hotel for us, Elder Shan? If you haven't, we can head to the Royal Blossom Hotel for our rooms since it'll be difficult for us to find empty rooms right now." Elder Xuan asked her.

"Of course, I did. I am not incompetent. However, the Royal Blossom Hotel is definitely a much nicer place than the hotel I'd reserved, so we can act as though I didn't reserve us any rooms." Elder Shan said, dumbfounding them.

"V-Very well... Since that's the case, we'll head to the Royal Blossom Hotel instead." Elder Xuan said.

"Then follow me. I am pretty familiar with this city since I've been here a few times," Elder Shan said as she took back the lead from Elder Xuan and began leading the others to the Royal Blossom Hotel.

"Wow! Look at that group of fairies! I have never seen such beautiful women in my life!"

"Damn! I would not ask for anything else in my life if I could have a woman that's even half as pretty as one of them!"

The pedestrians in the city stopped whatever they were doing to stare at Elder Shan and the female disciples with bewitched expressions on their dazed faces after noticing their presence.

"Why don't you try approaching them? Maybe you'll get lucky."

"Are you nuts? Look at their uniforms! They're from the Dragon Essence Temple! And judging by their aura, they're definitely powerful experts! If you don't cherish your life, go ahead and approach them!"

Sometime later, Elder Shan stopped walking in front of this tall and massive building that not only occupied the entire street but was also surrounded by beautiful cherry blossoms.

"Wow... What a beautiful place," Yuan mumbled with a dazed look on his face, feeling mesmerized by the cherry blossoms.

After standing outside for a few moments to admire the beautiful trees, Elder Shan entered the building with the others.

"Welcome to the Royal Blossom Hotel, esteemed guests from the Dragon Essence Temple."

A dozen servants greeted them the moment they entered the building, almost like the hotel was expecting their arrival.

Elder Shan didn't act too surprised about this and showed them the medallion.

"How many rooms do we get with this?" Elder Shan asked them afterward.

One of the workers there immediately responded, "Normally, you will be allowed to have up to five rooms, but due to the upcoming competition that has caused an influx of guests, we are only able to spare two rooms. However, each room can accommodate up to four people. We apologize for the inconvenience."

"You don't need to apologize. We can't complain about something that's given to us for free, after all." Elder Shan said.

She then turned to look at Yuan and the others.

"Let's see... We have six of us but only two rooms— two male and four females. I guess it's obvious how we should split the rooms."

Elder Shan then pointed at the female disciples and said, "The three of you can stay in one room, and I'll stay with Elder Xuan and Disciple Yuan."

"Eh?"

Everybody there stared at Elder Shan with gawking expressions.

"Ahem!" Elder Xuan cleared his throat a moment later and said, "Elder Shan, wouldn't it make more sense if you joined the three female disciples instead of joining us— two men? After all, each room can fit four people."

"Why force four people into a single room when we can share the rooms evenly and have more space? This is a no-brainer." Elder Shan responded in a clear voice, her beautiful face void of even the slightest sign of shame or embarrassment, and she continued, "And I don't mind sharing a room with you two since I'm confident that nothing will happen."

"Are you sure about that? While I am also confident that neither of us will do anything, I cannot say the same for you, Elder Shan." Elder Xuan said with narrowed eyes. "But since you want to share the rooms evenly, my granddaughter can stay in the same room as us."

Elder Shan's eyebrows twitched after hearing Elder Xuan's comeback.

Meanwhile, Xuan Wuhan's heart throbbed with excitement, and she could already imagine sleeping in the same room as Yuan, perhaps even in the same bed!

"Why are you making this so difficult, Elder Xuan? Just let the disciples be together. However, since Disciple Yuan cannot sleep with the others for obvious reasons, he can stay with us, the elders." Elder Shan said after a moment of silence.

Elder Xuan raised his eyebrows and said in a casual voice, "Why not? It's not like this is their first time sleeping in the same place, anyways."

"W-What did you just say?" Elder Shan's eyes immediately widened with shock, and she stared at Elder Xuan with disbelief on her face.

Chapter 188 - Did You Two Already Do 'That' Together?

"What do you mean it's not their first time sleeping together, Elder Xuan?!" Elder Shan suddenly stepped forward aggressively, looking like she wanted to grab Elder Xuan by the collars and shake him violently.

However, Elder Shan resisted her urges and stopped after her first step, yet her gaze still stared daggers at Elder Xuan, almost like she was demanding an answer!

A slight smile appeared on Elder Xuan's as he shook his head, and then he said, "Calm down, Elder Shan. I'll explain."

Thus, in order to calm Elder Shan down, Elder Xuan explained the whole situation regarding Fei Yuyan staying at Yuan's living quarters so they can practice more conveniently.

Elder Shan turned to look at Fei Yuyan with disbelief on her face after hearing the whole story and finally understanding the situation.

"Y-You... Unbelievable! How could you not tell your own Master about this! We're going to have a little talk later— just you and me!" Elder Shan said to her, clearly upset about Fei Yuyan's actions for some reason.

"Yes, Master..." Fei Yuyan responded with a nod before sighing inwardly, 'This is exactly why I didn't want to tell you about staying at Yuan's house...'

"Senior Shan, if you're worried about Disciple Fei breaking the sect rule, rest assure, since we'd received Elder Xuan's permission," Yuan said to

Elder Shan afterward, worried that Disciple Fei might get scolded because of some misunderstanding.

A bittersweet smile appeared on Elder Shan's face after seeing Yuan's innocent face, and she said, "Don't worry, Disciple Yuan, neither of you is in trouble, nor is this about breaking the sect rules."

"I-Is that so?" Yuan nodded, feeling relieved that it wasn't about breaking the sect rules.

"Anyway, I won't allow Disciple Yuan to sleep in the same room with the female disciples while I am here, so he'll be sleeping with us." Elder Shan said in a clear voice with an adamant look on her face.

Elder Xuan shook his head inwardly. Knowing Elder Shan's stubbornness and without any assistance from the other elders, Elder Xuan knew that it was near impossible to change her mind.

"Fine... You can stay with us..." Elder Xuan mumbled in a tired-sounding voice afterward.

"Eh?!" Xuan Wuhan felt her heart drop after hearing this, as it meant that she'll no longer be able to sleep with Yuan in the same room, much less the same bed!

While she wanted to complain, she didn't want to sound desperate, and she was not as shameless as Elder Shan.

Meanwhile, the workers in the hotel stood there with dumbfounded looks on their faces as they witnessed this spectacle that would've done great as a romantic comedy.

"P-Please, allow me to show you the rooms..." One of the servants there said to them after their little show was over.

Sometime later, the servant led them to the fourth floor and showed them the last two rooms in the hallway.

"These will be your rooms, esteemed guests. If you wish to stay even after the competition, there will definitely be more available rooms since those who came for the competition usually leave immediately afterward."

"And here are the keys to your rooms."

Once the servant left the scene, Elder Shan handed one of the two keys to Fei Yuyan and said, "You girls can do whatever you want for the rest of today and tomorrow. Just make sure you're back in the hotel before midnight so we know you're safe."

Immediately after hearing Elder Shan's words, Fei Yuyan looked at Yuan and asked him, "Disciple Yuan, do you want to look at zithers with me? I know this large musical store that not only displays powerful zithers but they also sell them!"

"Really? I want to go." Yuan immediately nodded.

"I'll go as well," Xuan Wuhan said.

"Me too," Min Li also said.

"Wait a second, before you go, let me speak with you real quick, Disciple Fei." Elder Shan suddenly said.

"I'll be right back." Fei Yuyan said to them before following Elder Shan into one of the rooms.

Once they were inside, Elder Shan silently stared at Fei Yuyan with narrowed eyes.

After a few moments of awkward silence that felt like an hour for Fei Yuyan, Elder Shan opened her mouth and spoke in a serious voice, "Did... Did you two already do 'that' together?"

"That?" Fei Yuyan raised her eyebrows with a puzzled look on her face, as she was too nervous to think properly right now.

"Do you really need me to spell it out for you?" Elder Shan shook her head.

And she continued, "I'm talking about 'that'! You lived at his house for almost an entire week, right? Surely, you must've had s.e.x already!"

"S-S-S.e.x?!" Fei Yuyan took a step back from shock, and she stared at Elder Shan with disbelief on her face. How can a beautiful woman like Elder Shan mention such a vulgar word so casually?

"We didn't do anything like that!" Fei Yuyan quickly refuted after coming back to her senses.

"What? You haven't? Really? You're not lying to me, right? There's no way a woman and man at your age would be able to live together without doing anything!" Elder Shan said, doubting her.

"W-What kind of woman do you think I am, Master?! There's no way I would do something like that with someone I'd just met! Furthermore, Disciple Yuan wouldn't lay a hand on me even if I am completely vulnerable! He's too kind and innocent!" Fei Yuyan said.

"Hmph! I don't believe it! All men are beasts by nature! If you let your guard down, they'll immediately try to take advantage of you, and I doubt Yuan is any different! Tempt him enough and he'll reveal his true nature! This is my experience with men after living for over 300 years!" Elder Shan said, clearly having some sort of resentment towards men.

"Master, you make it sound like Disciple Yuan is a bad guy, yet you'd insisted on sleeping in the same room as him and Elder Xuan. That doesn't make any sense!" Fei Yuyan said, leaving Elder Shan speechless for a moment.

Chapter 189 - Instrument Store

After a moment of silence, Elder Shan cleared her throat and said, "While that is true, have you forgotten who I am? As a sect elder, there are risks I must take, and I am very confident that I can protect myself. After all, I have managed to protect myself for over three hundred years in this world dominated by beasts."

Fei Yuyan looked at her with her eyebrows raised, unsure of what to think at this moment.

"A-Anyway, you are lucky that Disciple Yuan is a good kid, or your maiden status would've been revoked during your first night together." Elder Shan then said, before quickly changing the subject.

"By the way, do you have feelings for Disciple Yuan? Do you like him?"

"L-Like him?" Fei Yuyan's jaw dropped slightly. Why does Elder Shan care so much about their relationship? She's usually not such a busybody, and it was almost like she's jealous of them or something.

"While I respect Disciple Yuan, even admire him for his talents, so I definitely like him, but I don't think it's that sort of 'like' Master is thinking about... I think," Fei Yuyan responded after a moment of silence.

"Why do you ask, Master?" Fei Yuyan decided to ask her.

"No reason, really. I was just curious since this is my first time seeing you so close to a man— almost intimately." Elder Shan said.

And she continued, "Since you don't have any serious feelings for him nor did anything really happened between you two, I guess there's no need for

us to continue the conversation any longer. Let's go. You want to go to the music shop, right?"

"You're coming with us, Master?" Fei Yuyan asked her with a surprised look.

"Of course. I have a duty to protect Disciple Yuan. If anything happens to him, the Sect Master will have my head..." Elder Shan said.

"Just who is Disciple Yuan, and why is the sect so protective of him?" Fei Yuyan asked.

However, Elder Shan shook her head and said, "Even if you are my disciple, I am not allowed to tell you. But you're a smart girl, so you'll most likely figure it out without me. And if you can wait a few more weeks, you'll know exactly why the sect treasures Disciple Yuan so much."

"A few more weeks?" Fei Yuyan immediately pondered.

The first thing that appeared in her mind after hearing Elder Shan's words was the Mystic Realm, one of the biggest events occurring in the Lower Heavens this year, and coincidentally, it's only a few weeks away.

"D-Don't tell me... Disciple Yuan... He's going to participate in the Mystic Realm?" Fei Yuyan couldn't help but ask.

Elder Shan merely smiled at Fei Yuyan's guess without replying or confirming it.

'I see... So Disciple Yuan's going to be participating in the Mystic Realm...' Fei Yuyan thought to herself after seeing Elder Shan's smile.

Sometime later, they left the room and regrouped with the others.

"Are we ready to go?" Yuan asked them afterward.

"Yes, let's go."

Fei Yuyan nodded before taking the lead.

Meanwhile, Yuan and the other two ladies followed her.

As for Elder Xuan and Elder Shan, they also followed, but they distanced themselves a little bit more to give the disciples more room, almost like guardians looking over them from behind.

"Are you really trying to start something with Disciple Yuan, or are you only teasing him?" Elder Xuan asked her as they followed the disciples through the street.

"I have no idea what you're talking about." Elder Shan responded in a nonchalant manner.

"I know you dislike men because of your experience with them when you were young, but not every man out there is like that, and Disciple Yuan is certainly one of those people on the likable side. I haven't known him for too long, but I can tell that he's a genuine person just from the few conversations we had with each other."

"I know that. You don't have to tell me." Elder Shan said, still with an unreadable expression on her face.

"Then what is your deal? You dislike men, yet you enjoy seducing them knowing full well it won't result in anything. That's very misleading and confusing, or is this your way of revenge to make up for all of the trouble you'd encountered in the past?" Elder Xuan sighed.

"Perhaps. Perhaps not." Elder Shan mumbled.

Elder Xuan shook his head, but he didn't continue questioning her and left it as it is since it wasn't his business, and as long as it doesn't affect the Dragon Essence Temple, Elder Shan can mislead as many young men as she wants.

Sometime later, they arrive at this large store with gentle music playing somewhere in the background.

"This sounds like a flute..." Yuan mumbled after hearing this sharp and crisp sound.

"Let's go inside." Fei Yuyan said to them as she entered the shop.

"Welcome to our store, Divine Melody! How may I help you today, esteemed guests from the Dragon Essence Temple?" One of the workers there immediately recognized their background and approached them.

"We're only here to look around," said Fei Yuyan.

"I understand. Please take as long as you need. There's a small map over there if you're looking for a specific instrument. If you need anything, just speak to anyone wearing this uniform and they'll be able to assist you."

Once the worker left them alone, Fei Yuyan said, "What do you want to see first, Disciple Yuan?"

"I don't know. I am fine with anything, really." Yuan said.

Fei Yuyan nodded, "Okay, then follow me. I'll just take you around the store."

"Wow... This must be the instrument that's being played right now." Yuan said after they entered a certain room in the store.

"You mean the dizi? They are flutes usually made from bamboo," Fei Yuyan said as they stood before a display case that had a beautiful green flute with ten holes in it.

After spending a few minutes in the dizi session, Fei Yuyan led them into another room that showcased a different instrument that resembled guitars in Yuan's world.

Chapter 190 - Spirit Stones

"What is this instrument called?" Yuan asked after seeing the instrument that resembled a guitar.

"This instrument is called a pipa," Fei Yuyan quickly responded.

'A pipa, huh... I wonder if it functions similar to the guitar...' Yuan wondered to himself as they wandered around the room, admiring the beautifully crafted instruments inside the display case.

After spending a couple of minutes in the pipa room, they went to another room.

"This instrument resembles a violin..." Yuan mumbled after seeing this mallet-shaped instrument with a thin handle, and there was even a bow beside it exactly like a violin.

"I have never heard of a 'violin' but this instrument is called an erhu. You place it on your thighs and use that bow to play the strings." Fei Yuyan briefly explained to him.

"I see..." Yuan nodded.

Sometime later, they left the room with erhu and entered the last room in the building.

"Do you recognize these instruments, Disciple Yuan?" Fei Yuyan asked him in a sarcastic voice inside the room filled with nothing but zithers.

Yuan smiled and played along with her, "I don't know, but they seem very familiar."

"Anyway, look at this zither over here." Fei Yuyan then pointed at the zither in one of the display cases and continued, "This is a Heaven-grade zither made from Ice Jade, a very rare material, and rumor has it that it was once owned by the Zither Goddess. The name of this zither is Eternal Imprisonment."

"Zither Goddess? What kind of person is this Zither Goddess?" Yuan asked, feeling more interested in the individual than the zither.

"The number one zither expert in this world. If the Zither Goddess claims to be the second-best zither player in this world, nobody would dare to claim first. There are even legends of the Zither Goddess creating life and stars with her zither music."

"Creating life with music? I cannot imagine such a thing..." Yuan shook his head.

"That's just a legend, but if the Zither Goddess is real, I'd love to meet someone like her." Fei Yuyan sighed with a longing feeling in her eyes.

"Perhaps Yuan might become the Zither God one day," Xuan Wuhan suddenly said in a joking tone.

"The Zither God?" Fei Yuyan looked at Yuan with a weird expression on her face, mostly because she was trying to imagine Yuan as the Zither God, but alas, she could not put together such an image no matter how much she tried.

"Anyway, let's continue looking around. After we finish seeing these rooms, we can take a look at their store and see if there's anything to buy." Fei Yuyan said.

They returned to looking at zither a moment later while Fei Yuyan gave Yuan brief history lessons on almost all of the zithers there.

If Fei Yuyan changed her disciple uniforms to one of the uniforms in this place, the guests would never realize it.

Sometime later, Fei Yuyan brought them out of the zither room before taking them to this massive courtyard behind the store.

Inside the courtyard, there were about a dozen display cases placed in an orderly fashion, and inside these display cases were instruments with a price tag.

Yuan approached one of these display cases that was showcasing a black-colored dizi.

[Black Sparrow Flute]

[Grade: Earth]

[Quality: High]

[Description: A bamboo flute made of black bamboo found in the Black Sparrow Forest]

[Price: 5,000,000 gold coins or 500 spirit stones]

"F-Five million gold?!" Yuan's jaw dropped slightly after seeing the price tag.

"Wow, it's pretty cheap, especially since it's a high-quality Earth-grade treasure." Fei Yuyan appeared behind Yuan and said.

"This is cheap?" Yuan raised his eyebrows, and he asked a moment later, "By the way, what are spirit stones?"

"Spirit stones are a major cultivation resource for Cultivators, and not only can they be used as currency but a single one of them is worth about 10,000 gold coins. However, people still prefer trading with gold coins since they'd rather use spirit stones to improve their cultivation." Fei Yuyan explained to him.

"I see..." Yuan nodded.

"If this was a zither, I would've probably bought it, but alas... I don't play the dizi..." Fei Yuyan shook her head at the Black Sparrow Flute before walking to the next display case that was showcasing another high-quality Earth-grade treasure— a red-colored pipa with a price tag of 8 million gold coins or 800 spirit stones.

A few minutes later, Fei Yuyan sighed loudly, "How unfortunate. There's not a single zither instrument being sold today. The last time I was here, there were 3 of them being sold!"

"Is this everything to see in this place? Where should we go next? There's still plenty of time." Xuan Wuhan said.

"Who said we're done here? There's still one more place in this store that I want to show you, especially Disciple Yuan." Fei Yuyan said while looking at Yuan with a mysterious smile on her face.

"Come with me!" she said before walking off on her own.

Seeing this, Yuan quickly followed her, and the others followed him.

A couple of minutes later, they arrive at this mysterious and silent place with two guards standing beside this door that emitted an ominous feeling, both of them peak Spirit Warriors.

"Where are we? I don't think we're supposed to be here!" Xuan Wuhan said to Fei Yuyan.

"Of course this is not a place for the public. Only those who'd place top ten in the previous zither competition can come here, and since I'd placed 7th, I am allowed to go inside. However, I can only bring one person along with me, and I'll be bringing Disciple Yuan."

"Eh? That's not fair." Xuan Wuhan immediately complained.

"If you can play the zither even half as decent as Disciple Yuan, I might consider bringing you inside later. Otherwise, it'd be just a waste of my time, and effort," Fei Yuyan shook her head.

"You..." Xuan Wuhan narrowed her eyes at Fei Yuyan, but alas, she couldn't play the zither at all.

Fei Yuyan no longer paid attention to Xuan Wuhan and turned to look at Yuan.

"Follow me," she said to him.

Chapter 191 - Soul Ensnaring Zither

Sometime later, Yuan followed Fei Yuyan and approached the guards with her.

"Welcome, Fairy Fei." The guards immediately recognized her beautiful appearance.

"It's been a while, you two. I would like to go inside with a friend today," Fei Yuyan said to them.

The guards turned to look at Yuan's masked face, but since he was wearing the Dragon Essence Temple's uniforms, they didn't bother to question his identity.

"I understand. You have an hour instead."

The guards then opened the door until there was just enough room for one of them to walk inside.

Once they were inside, the guards closed the heavy doors shut.

"Do you come here often?" Yuan asked her after they entered this empty but spacious room.

"No, I've only been here three times since the last competition," Fei Yuyan shook her head.

"Anyway, come look at this."

Fei Yuyan suddenly grabbed Yuan's hands and dragged him towards the center of the room where a large white blanket was covering a round table alongside something else.

"What do you think is underneath the blanket?" Fei Yuyan asked him after casually releasing his hand.

Yuan looked at the familiar-looking shape and said, "Is it a zither?"

Fei Yuyan nodded with a smile, "Correct!"

She then removed the blanket and said, "This is the Soul Ensnaring Zither!"

"Soul Ensnaring Zither? What an ominous name..." Yuan mumbled as his gaze examined the black zither that had glistening strings like it was made out of clear crystals!

"What are you talking about? It's a wonderful name! Legend says this zither can trap both human and magical beasts' souls with its music— that is if you can play it!" Fei Yuyan said.

"What do you mean 'if you can play it'?" Yuan asked her.

Fei Yuyan did not immediately answer his question and instead took a seat in front of the zither.

"It'll be easier for me to show you instead of explaining it."

After taking a deep breath, she placed her fingers onto the string and began playing the zither.

However, to Yuan's surprise, the music notes coming from the zither were completely different from what he'd expected, and it sounded somewhat suppressed and muffled, almost like Fei Yuyan was playing the zither underwater or something.

How can a perfect-looking zither play such a weird sound? Even the strings on the zither were shaking normally when moved so such a sound shouldn't

be possible. It didn't make any sense at all, and this is his first time seeing such a thing.

"Do you understand now?" Fei Yuyan stopped playing a few moments later and looked at Yuan.

However, Yuan shook his head and said, "I'm even more confused now. I don't see anything wrong with the zither."

"That's because this zither is 'cursed'," Fei Yuyan said, and she continued, "This zither used to be played by the Zither Goddess before she left it here and left for the upper heavens, and not a single zither expert has been able to play it properly since then."

"What about the other zither that was used by her? Is that one also like this?" Yuan couldn't help but ask.

"No, that one can be played properly. It's just this one that's unwilling to let others play." Fei Yuyan sighed.

"How does that even work, though? Does the zither have a consciousness of its own? Like Soul Weapons."

Fei Yuyan shrugged and said, "Nobody knows, really. This zither is neither a Soul Weapon nor a spiritual treasure; it's like a phenomenon."

"I see..." Yuan mumbled.

"Do you want to try playing it?" Fei Yuyan suddenly asked him.

"Can I really?" Yuan looked at her with wide eyes.

"Of course," Fei Yuyan nodded, and she continued, "The only reason this zither isn't in a display case is because the owner wants people to play it and hopefully actually be able to play it properly."

"Then why not open this place up to the public?" Yuan raised his eyebrows.

"If not even experts can play it, what makes you think normal people will?"
Fei Yuyan shook her head.

"Anyway, go ahead and try it. Who knows— maybe you're the one the zither has been waiting for."

Fei Yuyan then stood up to let Yuan sit down.

After taking a seat, Yuan stared at the zither in silence without actually playing it.

"Haaaa..."

Taking a deep breath, Yuan slowly raised his hands into the air before placing it onto the zither and playing it.

'So even he cannot play it, huh? Why did I have a feeling that maybe he could?' Fei Yuyan thought to herself as the muffled noises returned.

To Fei Yuyan's surprise, even Yuan was unable to play the zither.

"Hmmm..." Yuan stopped playing after pulling a couple of strings and returned to staring at it in silence.

A few minutes later, Yuan suddenly began playing the zither again, but alas, the results were the same with the music notes sounding muffled and suppressed.

However, Yuan didn't stop playing the zither regardless and continued to play it until he played an entire song.

"There's no point, Disciple Yuan. The zither won't suddenly start working even if you play a dozen songs. Many zither experts have tried the same with some playing even hundreds of songs." Fei Yuyan said to him afterward.

"Let me play a few more songs to be certain," Yuan said, and he quickly returned to playing the cursed zither again.

After playing his second song, Yuan immediately continued onto the third — then the fourth and fifth.

On his sixth song, Yuan suddenly closed his eyes while his fingers continued to move.

Fei Yuyan raised her eyebrows after seeing this.

'How is closing your eyes going to help?' she wondered.

However, unbeknownst to Fei Yuyan, Yuan closed his eyes not because he wanted to try something new.

Instead, just like what happened at the Tablet of Comprehension, Yuan had unconsciously closed his eyes and suddenly found himself in an unfamiliar place!

However, instead of a starry scenery, Yuan was inside a pavilion while surrounded by water, almost like the Dragon Pavilion where he met Fei Yuyan for the first time!

Ting~

Suddenly, a heavenly noise resounded in Yuan's ears, causing him to turn around.

And to his surprise, there was a young lady with otherworldly beauty sitting behind him with the Soul Ensnaring Zither in front of her!

Chapter 192 - Zither Goddess

Ting~ Ting~ Ting~

This unknown beauty continued to play the zither despite Yuan's sudden appearance, and Yuan stood there silently to listen to her music, feeling as though every music note was pulling his heartstrings alongside something he couldn't really pinpoint— his soul.

After an unknown amount of time has passed, the beauty finally stopped playing the music before placing her hands on her lap and turning to look at Yuan with her beautiful eyes that resembled jewels.

"What do you think of my music?" she suddenly asked him, her clear voice sounding as beautiful as the zither music if not even more pleasant sounding.

Yuan snapped out of his daze after hearing her words, and he quickly uttered in a dazed voice, "It... It's wonderful... I have never heard of anything like your music before, nor could I have imagined that music would be able to reach such a level."

If someone like this beauty had existed in his world, it would've definitely made his professional life more exciting, and the musical world would've also been much more lively.

The beauty smiled at his words, and then she spoke, "Do you know why you're here?"

Yuan quickly shook his head.

"Because you have the potential to play music at the same level as me if not even better," she said.

"The Soul Ensnaring Zither... I have treated this instrument as though it was my own baby ever since I received it as a birthday present from my parents who'd unfortunately passed away shortly later."

"Then you're... You're the Zither Goddess?" Yuan asked her with slightly wide eyes.

"The Zither Goddess, huh? I guess you can call me that since that's what everybody addresses me as— not that I'd asked for such a nickname."

"If you don't mind me asking, why did you decide to leave behind the Soul Ensnaring Zither? I don't know how long it has been since you left the Lower Heavens but I could still clearly sense a lonely feeling from the zither when I saw it." Yuan couldn't help but ask.

"It's important to you, right? Why would you leave something so precious and with so much memory behind?"

The Zither Goddess turned to look at the black zither in silence before speaking a moment later, "Because I wanted to quit playing the zither."

"Eh? Quit the zither? Why?" Yuan looked at her with wide eyes filled with surprise, as he didn't expect such an answer from her.

However, the Zither Goddess did not respond to his question. Instead, she asked him, "Do you want to play this zither?"

"I... I do... But no matter how much I tried, I just couldn't get the sound out properly," he said.

Hearing his words, the Zither Goddess moved slightly to the side and said, "Come, sit here. I'll teach you how to play this zither."

"R-Really?" Yuan did not hesitate and quickly went to sit beside her.

The Zither Goddess chuckled in a graceful manner before saying, "The Soul Ensnaring Zither is a unique instrument that can only be played with the proper technique, and I will teach you this technique right now."

"Go ahead— try to play it."

Yuan nodded and began playing the zither shortly later.

Tong...

However, the zither still played muffled noises.

"Don't mind it and continue playing it." The Zither Goddess said to him.

Yuan nodded and focused on playing the zither despite showing no signs of progress.

Sometime later, the Zither Goddess suddenly moved, and to Yuan's surprise, she'd placed her fair hands onto his hand without disturbing his movements, almost like their hands had become one, and she began guiding them as though they were her own hands.

A few minutes later, the muffled sound coming from the zither suddenly changed.

Ting...

Although it wasn't as crisp and heavenly-sounding as the sound produced by the Zither Goddess, Yuan had still managed to play a clear sound with the zither!

"You're a quick learner." The Zither Goddess suddenly said to him.

"B-But you're the one controlling my hands..." Yuan said with an awkward smile on his face.

"That's what it may look like from your perspective, but this is actually all your own doing. I am merely teaching you the technique, and you're the one that's learning and comprehending it."

Yuan nodded and continued to concentrate on playing the zither.

In just a few more minutes of practice, Yuan had managed to not only capture the essence of the technique but also incorporate his own techniques into it, creating a whole new technique out of it.

This greatly shocked the Zither Goddess, who did not expect him to learn the zither art so quickly, much less create his own technique off of it!

'This young man is a true music prodigy... If only I had met him while I was still in the Lower Heavens...' she sighed inwardly, feeling profound regret that she couldn't have a rival like Yuan in her era.

Meanwhile, outside Yuan's mind, Fei Yuyan stared at Yuan with her eyes as wide as saucers.

'H-He's playing the zither! He's actually playing the zither!!!' Fei Yuyan cried inwardly as Yuan unconsciously played the zither exactly the same way he was inside his mind, producing heavenly sounds that resembled the Zither Goddess's music.

'How did he do it?! I can't believe it! I want to ask him but I don't dare to disturb him!' Fei Yuyan continued to cry inside her mind, feeling as though her soul was being pulled out of her body by Yuan's heavenly performance.

Sometime later, Yuan suddenly stopped playing the zither, and he turned to look at the heavenly beauty sitting right beside him before asking, "What is the name of this zither art?"

A weird smile appeared on the Zither Goddess's face, and she responded, "My zither art has no name, and since you've made it your own unique technique, you can name it yourself."

After taking a moment to think, Yuan then said with a handsome smile on his face, "Since I learned it from you, I shall call it the Zither Goddess's Ethereal Arts."

Chapter 193 - Zither Goddess's Ethereal Arts

"Zither Goddess's Eternal Art, huh? Are you sure that you want to name it after me?" The Zither Goddess asked him afterward.

Yuan nodded, "I'm sure."

The Zither Goddess smiled, and then she said, "There is nothing left for me to teach you, and I hope you get to meet the real me outside one day. Perhaps you might be able to reignite my passion for the zither once again. Until then, Zither God."

"Eh? What did you just call me?" Yuan's eyes widened with surprise when the Zither Goddess suddenly called him the 'Zither God', but alas, before he could get an answer, the scenery changed, and the young lady with otherworldly beauty disappeared from his sight.

Yuan slowly opened his eyes, and he could still see the Soul Ensnaring Zither before him. However, the Zither Goddess was nowhere to be seen, and he could only see Fei Yuyan's shocked face beside him.

<You have learned 'Zither Goddess's Ethereal Arts'>

<Rank: Unknown>

<Mastery Level: 1>

<Description: A Zither Art created by 'Yuan' after receiving enlightenment from the Zither Goddess>

<Congratulations! You have created your first unique skill!>

<You have gained the title 'Novice Technique Creator'>

Meanwhile, two system announcements appeared back to back for the players to see.

<Congratulations! Player Yuan has created a new skill!>

<Congratulations! Player Yuan has become the first Player to create a new skill!>

"What the heck? You can create your own skills in this game?"

The players around the world were baffled by this new discovery. How does one even create their own skill?

"D-Disciple Yuan!" Fei Yuyan suddenly spoke in a loud voice filled with excitement after she snapped out of her daze.

"Y-You did it! You actually managed to play the Soul Ensnaring Zither!"

"Eh?" Yuan raised his eyebrows.

He then turned to look at the Soul Ensnaring Zither for a moment before reaching for one of the strings.

Ting~

A heavenly sound echoed in the small room after Yuan pulled the string with the Zither Goddess's Ethereal Arts in mind.

"How did you do it?! What's the secret to playing this zither?! I also want to try playing it!" Fei Yuyan suddenly approached him with anticipation in her eyes.

"Uhhh... I'm not sure how to explain it... But you need a certain technique to play this zither, and I don't know if I can teach you this technique since even I don't know how it works. If I could teach you, I would definitely do it in a heartbeat!" Yuan said.

"Is that so..." Fei Yuyan sighed in a dejected manner.

A few moments of silence later, she continued, "Anyway, now that we know you can play this zither, we must let the owner of this zither know so he can give you the zither!"

"Wait... I can keep the zither if I can play it?" Yuan said with a dumbfounded look on his face.

"According to the owner of the zither, he will be willing to give the zither to whoever can play it properly. After all, what's the point of keeping something that cannot be played? Might as well give it to someone who can actually use it!" Fei Yuyan said to him.

"Where can we find this person?" Yuan asked, mostly because he also wanted to keep the Soul Ensnaring Zither.

"He's actually in this city. We can make an appointment with him today and meet him tomorrow," Fei Yuyan said.

"Then that's what we shall do." Yuan nodded.

A few moments later, Yuan left the room with Fei Yuyan, leaving the Soul Ensnaring Zither behind.

"Hey, let Senior Zou know that we'll be visiting him tomorrow." Fei Yuyan said to the guards outside.

"Eh?" The guards looked at her with raised eyebrows.

Fei Yuyan then pointed at Yuan and said with a beautiful smile on her face, "We've finally found the person who can play the Soul Ensnaring Zither."

"WHAT?!"

"IS THAT TRUE?!"

Both guards shouted simultaneously.

Fei Yuyan nodded with a prideful expression on her face, acting like she was the one who can play the zither, "That's right!"

"I-I will let Master Zou know about this! Please go see him tomorrow!"

"This is huge news! Master Zou will be exhilarated to hear this!"

Sometime later, Fei Yuyan and Yuan returned to the others' side.

"What happened?" Xuan Wuhan asked them after they returned.

"Nothing much." Fei Yuyan said with a mysterious smile on her face.

She then turned to look at Elder Shan and said, "Master, Yuan and I must visit Senior Zou tomorrow."

"The Zither Master, Senior Zou? Why?" Elder Shan asked with slightly wide eyes.

"Un." Fei Yuyan nodded, "That's right. And it's related to the zither. You'll understand tomorrow, Master."

"You can't tell us now?" Elder Xuan raised his eyebrows.

"It'd ruin the fun!" Fei Yuyan giggled.

"Anyways, we're done here. Let's walk around the city until it's time to retire for the night!"

Elder Xuan and Elder Shan looked at each other with perplexed expressions on their faces, unsure of how they should feel about surprises when it's related to Yuan.

Sometime later, Fei Yuyan and the others began strolling through the city. And because of their prestigious uniforms that were easily recognizable, they encountered little to no trouble at all throughout their entire tour with the exception of a few idiots that couldn't recognize their background and approached the ladies, hoping to gain something from it.

But alas, the only thing these ignorant individuals got was cold and somewhat murderous glares from the three young ladies.

Yuan and the others returned to the Royal Blossom Hotel after walking for a few hours.

Meanwhile, at the Zou Family's household, the two guards from the Divine Melody stood before an old man.

"Are you certain about this information? That someone who can play the Soul Ensnaring Zither has finally appeared?" The old man, Senior Zou, asked for confirmation with a serious frown on his face.

"Although we didn't witness it for ourselves, there's no reason for Fairy Fei Yuyan to lie to us about such a matter," said one of the guards.

"Fei Yuyan... That young lady from the Dragon Essence Temple who placed 7th place last competition, huh?" Senior Zou caressed his long white beard with a profound look on his face.

Chapter 194 - What Is This Indescribable Feeling?

"Although it was only briefly, I have spoken to the young lady known as Fei Yuyan before. A really talented and respectful girl. I cannot imagine someone like that lying about such a thing. What about the person who can supposedly play the Soul Ensnaring Zither? Do you know anything about his background?" Senior Zou asked the two guards.

"No, Master Zou. That person was wearing a black jade mask so we couldn't identify him. However, he was wearing the Dragon Essence Temple's disciple uniform, so we can only assume that he's a disciple there."

Senior Zou nodded after a moment of silence, and then he said to the two guards, "Bring the Soul Ensnaring Zither here. I'll see for myself whether this mysterious individual can really play the zither once owned by the Zither Goddess!"

Meanwhile, at the Royal Blossom Hotel, Elder Shan said to the three female disciples, "We'll see you all tomorrow morning."

The female disciples stood outside their own room with reluctant expressions on their faces, clearly unhappy about how the room had been split.

However, Elder Shan ignored them and said to Yuan, "Let's go to our room."

After opening the door, Elder Shan grabbed Yuan's hand and forcefully pulled him into the room.

"G-Grandpa! You must protect Yuan from Elder Shan!" Xuan Wuhan said to Elder Xuan with a serious and nervous look on her face.

A bittersweet smile appeared on Elder Xuan's face as he said, "Don't worry, Elder Shan won't do anything to Disciple Yuan even if I'm not there. She's always like this, but nothing really ever happens. That's just Elder Shan for you."

"Even if you say that, I am not convinced! Just keep an eye on Yuan until tomorrow morning, grandpa!" Xuan Wuhan urged him.

"You don't have to keep repeating it. Sect elders are not allowed to be in a relationship with the disciples, anyway. Therefore, you can rest assured and go to sleep." Elder Xuan said.

"If you say so..."

Xuan Wuhan and the other two girls went into their room sometime later whilst Elder Xuan entered his own room.

"Elder Shan is so shameless! How can she act so s.l.u.tty before a disciple if she doesn't intend on doing anything?!" Xuan Wuhan complained out loud the moment their door closed shut.

"Although my Master has her own flaws, don't you dare address her with such a vulgar word, Disciple Xuan!" Fei Yuyan immediately frowned, feeling an obligation to protect Elder Shan's image as her disciple.

Min Li shook her head at them, and she proceeded to enter one of the two available beds to sleep, completely ignoring the other two while they continued to argue with each other.

Meanwhile, in the other room, Elder Shan said to Yuan, "You will be sleeping in the same bed with me tonight, Disciple Yuan."

Yuan looked at the alluring smile on Elder Shan's face with raised eyebrows.

And then he said, "It's fine, Senior Shan. You can keep the bed to yourself. I won't be needing a bed, anyway."

"What? Then where are you going to sleep? The floor? We cannot have that." Elder Shan said.

"There's a second bed in this room, you know?" Elder Xuan said to Elder Shan after shutting the door.

Yuan then said, "No, that's not it. I will be logged off, so I don't need any bed."

"Logged... off?" Elder Shan looked at Yuan with her slender eyebrows raised in a puzzled manner, as this is her first time hearing of such a term.

"Yes, that's why you can keep the bed to yourself. Anyway, it's time for dinner. I'll be back in the morning. Goodnight, Seniors."

After saying that, Yuan logged off the game, disappearing from their sights.

"W-What the? Where did he go?" Elder Shan mumbled in a dazed voice.

Even Elder Xuan was baffled by Yuan's sudden disappearance.

However, before they could think too much about the situation, like some kind of phenomenon, both Elder Xuan and Elder Shan suddenly stopped caring about the matter.

"I'm going to cultivate. If you even dare to try anything funny, I'll make you regret it." Elder Shan said to Elder Xuan as she sat on the bed in the lotus position and closed her eyes.

Elder Xuan shook his head and said, "My wife may be dead but my loyalty for her remains unwavering. I would never do anything to betray her in heaven."

He then sat on the bed in the opposite direction and also closed his eyes to cultivate.

"..."

Elder Shan did not say anything and remained silent.

Meanwhile, after dinner was served, Yuan cleared his mind before he began to cultivate.

However, to his surprise, he was unable to clear his mind, as the sound of the Zither Goddess's music lingered inside his head.

'Zither Goddess...'

For some reason, Yuan could feel his heart beating faster when he recalled Zither Goddess's flawless appearance, who was, without doubt, one of the most beautiful women he has ever seen in his life with the mysterious beauty during his character evaluation being another flawless beauty.

However, even though the beauty during the character evaluation was very beautiful, Yuan didn't feel any different after meeting her, unlike the Zither Goddess, who would cause his heart to flutter whenever the image of her face appears inside his mind.

'What... is this indescribable feeling?' Yuan couldn't help but feel a little worried, wondering if there was something wrong with his body, or even worse, his heart.

'I cannot cultivate while my mind is like this— I should get some sleep.' Yuan sighed inwardly before giving up cultivation for the night.

Of course, it was still difficult for Yuan to fall asleep, as Zither Goddess's beautiful face and gentle smile would remain in his head and refuse to leave for pretty much half of the night.

And even when Yuan managed to fall asleep after much difficulty, Zither Goddess would still show up in his dream to play the zither with him until he was woken up by Yu Rou for breakfast.

Chapter 195 - Qi Manifestation

'What a weird dream...' Yuan thought to himself after waking up.

However, for some reason, he felt a little bit sad that he'd woken up, almost like he wanted to continue dreaming and playing the zither with Zither Goddess.

'I wonder if I'll be able to play the zither with the real person if I go to the upper heavens...' Yuan sighed inwardly, feeling a strong desire to meet Zither Goddess.

After breakfast, Yu Rou said, "Brother, the zither competition is tomorrow, right?"

"Yes, that's right."

"Are you making your way to the location yet?"

"I am already there. We arrived yesterday."

"I see... By the way, I need some help getting out of the city. I haven't logged in since we last played together, but my permit will have long expired when I log in next time, and I don't want to be punished for staying longer than I was permitted." Yu Rou said.

"Oh, right... I had forgotten about that..." Yuan mumbled.

And then he said, "Don't worry, I'll send Fei Fei over to help you when you decide to log in."

"Okay! Thank you!"

Sometime later, Yuan returned to the game.

"Welcome back, Disciple Yuan." Elder Shan opened her eyes the moment she felt Yuan's presence suddenly appear in the room.

"I am back, Senior Shan—"

Right as Yuan opened his mouth, Elder Shan suddenly reached for his arms before pulling him onto the bed.

"S-Senior Shan?!" Yuan spoke in a startled voice when Elder Shan suddenly embraced him on the bed, treating him like some sort of pillow.

"How could you let a beautiful young woman like me stay in the same room as some old man for the entire night? It's like you don't care at all..." Elder Shan sighed out loud.

Elder Xuan's eyebrows twitched at her words, and he said, "I may be older than you, but to call yourself a young woman... That'd make me a middle-aged man, no?"

However, Elder Shan ignored Elder Xuan's words and continued to hug Yuan's body, even wrapping her legs around his legs.

"What do you think, Disciple Yuan? We can stay like this for as long as you'd like... Just give me the word..." Elder Shan said with an alluring smile on her face.

Bonk!

Before Yuan could even respond, Elder Shan felt something hard hit her head.

"Ah! How dare you hit me, Elder Xuan!" Elder Shan shouted in a painful voice before turning to behind her.

However, to her surprise, Elder Xuan was still sitting on the bed and nowhere near her with a puzzled look on his face.

"What do you mean? I never hit you." Elder Xuan said with a dumbfounded look on his face, yet the pain in Elder Shan's expression looked genuine.

"Then who hit me just now?! Are you telling me a ghost did it?!" Elder Shan did not believe Elder Xuan.

"I really don't know what you're talking about, Elder Shan. You're claiming that I'd hit you, but look at my hands— they're empty!" Elder Xuan showed her his hands.

Elder Shan narrowed her eyes at him. It felt like someone had hit her head with something hard and solid, but there was no way Elder Xuan could've hit her from so far away and then hide the weapon so quickly, so what happened just now? Did she imagine being hit? Did she imagine the pain? That's ridiculous no matter how she thought about it!

However, since there was no evidence or explanation to the situation just now, Elder Shan decided to ignore it and returned to focusing on Yuan.

"Well? What do you think, Disciple Yuan? I can teach you a lot of things—"

Bonk!

"Ah!"

After being hit the second time, Elder Shan immediately turned around to look at Elder Xuan, who stared back at her with a gawking look on his face.

Although he didn't see it at first, he definitely saw what happened the second time!

"Qi manifestation!" Elder Xuan mumbled in a shocked voice.

"What did you just say? Qi manifestation?" Elder Shan looked at him with a frown on her face.

Elder Xuan nodded and said, "I witnessed it with my own eyes just now! Someone had manifested their spiritual energy and hit your head with it!"

"What?!" Elder Shan immediately sat up on the bed.

Then she continued, "How is that possible?! Only Cultivators at the level of Spirit Grandmaster can have the ability to manifest their spiritual energy outside their body! Why would someone like that attack me for no reason?!"

Elder Xuan then turned to look at Yuan. Perhaps there was a Spirit Grandmaster somewhere out there protecting Yuan and this expert didn't like what Elder Shan was doing to him?

It was at this moment, unbeknownst to Elder Xuan or Yuan, a young voice suddenly resounded inside Elder Shan's head—

'Stop being so clingy with Brother Yuan...' Xiao Hua's voice resounded, sounding a bit irritated and envious.

"Eh?" Elder Shan turned to look at Yuan with wide eyes.

'Whose voice was that just now? Does Disciple Yuan have a sister at the Spirit Grandmaster level watching over him?! I knew it! He's definitely from a very powerful family!' Elder Shan thought to herself, feeling a little sweaty afterward.

"A-Anyway, let's go see if the other disciples are awake yet..." Elder Shan then said, pretending as though everything was normal.

Elder Xuan watched as Elder Shan disappeared from the room with raised eyebrows, wondering what had happened just now.

He then looked at Yuan, who looked as puzzled.

Sometime later, they followed Elder Shan outside.

"Are you girls awake yet?" Elder Shan knocked on the door.

A few moments later, Min Li opened the door and said, "Good morning, Elder Shan, Elder Xuan, and Disciple Yuan."

"Where's the other two?" Elder Shan asked.

Min Li opened the door to show them inside the room, and both Xuan Wuhan and Fei Yuyan could be seen still sleeping in their bed.

"They spent most of the night 'talking' to each other..." Min Li said with a somewhat bitter smile on her face.

Chapter 196 - Senior Zou

"Disciple Fei, Disciple Xuan! Wake up!" Elder Shan walked into the room shouting their name, startling them awake.

"M-Master? What are you doing in our room?" Fei Yuyan asked her with a drowsy face, clearly still half asleep.

"It's already morning! Aren't you going to meet with Master Zou today?" Elder Shan reminded her.

Fei Yuyan's eyes widened when she noticed Yuan standing by the door, and she woke up almost instantly, "I-I am sorry! I overslept!"

Fei Yuyan quickly got off the bed with a flushed face, feeling embarrassed to be seen in such a messy appearance by Yuan.

Xuan Wuhan also got off the bed and quickly fixed her appearance.

Sometime later, Elder Shan asked them, "Are you ready?"

"Yes..." Fei Yuyan nodded.

After the ladies fixed their appearances and washed their faces, they began making their way towards the Zou Family's household that took almost two hours of walking.

As they approached the Zou Family, Yuan could hear many people playing the zither, sounding somewhat in tune with each other.

"The Zou Family have zither lectures for those who wish to play the zither," Fei Yuyan said to Yuan after noticing that his interest was piqued.

"Let's go inside."

A few moments later, they arrived at the gates, where a young guard stood.

"We're here to see Senior Zou. We've already notified him in advance that we'll be showing up today," Fei Yuyan said to the guard, who was instantly dazed by her beauty.

"W-W-What is your name?" The guard asked her in a nervous voice.

"Fei Yuyan."

"I-I will be right back!"

The guard turned around and ran away, acting like a shy boy running away from his crush.

A few minutes later, the guard returned with an old man wearing white robes.

"Greetings, Senior Zou." Fei Yuyan clasped her hands and bowed to him respectfully.

"It's been a while, Disciple Fei." Senior Zou nodded his head at her.

He then turned to look at the two elders standing behind her and bowed to them, "Welcome to the Zou Family, fellow Daoists."

"Thank you for seeing us despite being a busy man yourself, Master Zou."

Elder Xuan and Elder Shan returned his bow with their own.

"Of course. I wouldn't miss this chance for the world." Senior Zou said with a smile on his face before he turned to look at Yuan, who was still wearing his black jade mask.

"So you must be the one who can play my Soul Ensnaring Zither, huh? Can I have your name?" Senior Zou asked him.

"You can call me Yuan," he responded.

"I see... Please, follow me. Let's continue this somewhere more private and peaceful." Senior Zou said as he turned around and began walking.

"Soul Ensnaring Zither? Why does this name sound so familiar?" Elder Xuan asked Elder Shan.

"Soul Ensnaring Zither... If I am correct, it used to belong to the Zither Goddess before she ascended from the Lower Heavens, and it is also known as the 'cursed instrument' since nobody could play it ever since she left it behind." Elder Shan explained to him.

"I see... And we're here today because Disciple Yuan can apparently play it?" Elder Xuan mumbled.

"Why am I not even surprised?" Elder Shan said with a smile on her face.

A few minutes later, they arrived at this peaceful courtyard behind the main building.

"Here's the Soul Ensnaring Zither," Senior Zou said as he pointed at the beautiful black zither sitting on a round jade table in the courtyard.

"This instrument has been with my family ever since the Zither Goddess left it behind 25,000 years ago, and it has been waiting for a new owner since then."

He then turned to look at Yuan and continued with a serious expression on his face, "Young man... can you really play the Soul Ensnaring Zither?"

Yuan nodded with a serious face.

Senior Zou did not say anything else and took a step to the side, giving Yuan a clear path to the zither with clear indications.

Seeing this, Yuan walked to the round jade table and took a seat in front of the Soul Ensnaring Zither.

Although it has been less than a day since he last saw the instrument, it felt much longer has passed for Yuan.

After taking a deep breath, Yuan placed his fingers on the zither and closed his eyes, recalling the song played by the Zither Goddess.

Ting~

The strings on the Soul Ensnaring Zither trembled, emitting a heavenly sound that instantly caused Senior Zou's eyes to widen with shock.

'H-He's really playing the zither!' Senior Zou stared at Yuan's fingers and watched his flawless hand movements with a gawking expression.

Very quickly, Senior Zou as well as everyone else that was there became mesmerized by Yuan's zither performance.

'Heavens... It's only been a couple of days since I last heard his zither music and it has already improved by leaps and bounds—to the point where I cannot even compare it to his performance a few days ago!' Elder Shan cried inwardly.

'This is... Disciple Yuan's zither arts? Is there anything he cannot do so perfectly?' Elder Xuan sighed inwardly.

'Disciple Yuan...' Fei Yuyan stared at Yuan with a perplexed expression on her face. Although the black jade mask was blocking Yuan's face, she could still somehow see his handsome face, and the longer she stared at him, the more heated her face felt.

A few minutes later, Yuan stopped playing the zither, and he turned to look at the dazed Senior Zou.

"What do you think?" Yuan decided to ask.

"Do I even need to answer that question...?" A bittersweet smile appeared on Senior Zou's face.

Despite having over 100 years of experience with the zither, he still felt inferior in front of Yuan who appeared to be a very young man. If he knew that Yuan had only been playing the zither for about a week, perhaps he might even be puking out blood right now from shock.

A few moments later, Senior Zou suddenly lowered his head and said to Yuan in a sincere voice, "Thank you... for letting me experience the Soul Ensnaring Zither's brilliance, as I was convinced that I would never get to witness someone playing it properly— at least not in this life."

Chapter 197 - The Day Before The Zither Competition

"I was told that if someone could play this zither, they would get to keep it. Is that true?" Yuan asked Senior Zou sometime later.

Senior Zou laughed out loud after seeing Yuan's eyes that were filled with anticipation, and he nodded, "Yes, that's right."

Yuan immediately smiled behind the black jade mask.

"However, before I can give it to you, I want to know at least the face of the person I am giving this treasure to." Senior Zou suddenly narrowed his eyes at Yuan, seemingly suspicious of Yuan's identity.

Yuan nodded his head and removed the black jade mask without hesitation.

Senior Zou's eyes widened with surprise after seeing Yuan's handsome and young face.

'He's much younger than I'd expected! A true prodigy! He's a true prodigy!' Senior Zou cried inwardly.

After a moment of silence, Senior Zou nodded and said, "Very well. The Soul Ensnaring Zither is now yours, young man."

Almost instantly after Senior Zou said those words, a couple of notifications appeared in front of Yuan.

<Congratulations! You have completed the hidden quest: Zither Goddess's Abandoned Zither>

<You have been rewarded with: Soul Ensnaring Zither>

<Fame +50>

[Soul Ensnaring Zither]

[Rank: N/A]

[Description: A normal zither that turned into a unique treasure after being played by the Zither Goddess for many years. Neither a normal instrument nor a treasure.]

'So it's really not a treasure...' Yuan was not too surprised since Fei Yuyan had already told him about it beforehand. However, it was still very shocking to know that the Zither Goddess had turned a normal instrument into a treasure just by using it to play music.

"By the way, I have been wondering this, but since you're in this city at this time, do you plan on participating in the zither competition?" Senior Zou suddenly asked him.

Yuan nodded and said, "I am participating in the competition with Disciple Fei as my partner."

"Is that so..." A smile appeared on Senior Zou's face, and he said, "Well, I look forward to your performance. With your talents, I won't expect anything less than 1st place!"

"Really?" Fei Yuyan's eyes flickered with excitement.

After all, Senior Zou has participated in the zither competition many times as a judge, so his judgment is highly regarded. If he says that Yuan could achieve first place, there was a very good chance that it might really happen!

Senior Zou turned to look at Fei Yuyan and responded with a smile, "Of course... That is if you also do your part as his partner. After all, this is a paired competition— not a solo."

Fei Yuyan nodded with a serious look on her face.

"Good. Then I shall see you all again tomorrow— as one of the three judges." Senior Zou said with a smile on his face.

Sometime later, after Yuan and the others left, Senior Zou stared at the sky and mumbled in a low voice, "At last... You have found your long-awaited partner..."

After leaving the Zou Family's household, Yuan asked Fei Yuyan, "What should we do now? The competition isn't until tomorrow."

"Yes, but we still have to register for it." Fei Yuyan said.

"Eh? We still haven't registered?" Yuan looked at her with wide eyes.

Normally, one would register for a competition weeks, even months beforehand.

Fei Yuyan nodded and said, "Let's go to the place where the competition will be held."

Thus, Yuan and the others began following Fei Yuyan around again.

Sometime later, they arrived before this massive and spacious gathering area that could easily fit tens of thousands of people at once.

"Are everyone here participating in the competition?" Yuan mumbled in a dazed voice when he saw the sea of people in this area. Not even the biggest competitions he'd attended before had this many participants.

"Not everyone, but most of them. Since this competition requires a partner, it's only obvious that there would be more people." Fei Yuyan said.

"Come with me."

Yuan nodded and followed her to the large building at the end of the gathering hall.

"Hey, look over there! That's Fairy Fei from the Dragon Essence Temple! Looks like she'll be participating in this year's competition as well!"

"Wow! I still remember her performance at the last competition! I cannot wait to see how much she has improved since then!"

"Who do you think is her partner? Could it be one of those two fairies following behind her?"

The people there quickly took notice of Fei Yuyan's presence, even mistaking Xuan Wuhan and Min Li as her partner for the zither competition since there are way more females who pick up the zither than males.

Meanwhile, Yuan looked around the area and the people there with a serious gaze.

'How many of these people here are players?' he wondered inwardly as he tried to pick out those who appeared to be players.

Very quickly, he noticed a group of people that stood out from the rest of the crowd with their unique hairstyles that easily gave away their identity standing not far away.

'They must be players...' Yuan thought to himself.

A few moments later, Yuan noticed a couple more individuals there that were very likely players.

'Wow, there's a lot more players here than I'd expected...' Yuan swallowed nervously when he realized just how many players were there.

While he feels perfectly fine being around NPCs, he would, for some reason, become nervous when there are players around.

"We've arrived at the registration area," Fei Yuyan said to them after entering the building.

A few moments later, once they spotted an empty desk, they approached the worker behind the desk to register.

"We are from the Dragon Essence Temple, and I would like to register for the competition with my partner here." Fei Yuyan said to the worker behind the desk.

"Hm? Oh! Fairy Fei! Welcome back! I was beginning to wonder if you'll skip participating in this year's competition!" The worker easily recognized Fei Yuyan's pretty face and continued, "Give me a moment, I'll register your names right now."

OceanofPDF.com

Chapter 198 - Replica

"Who is your partner, Fairy Fei?" The worker asked her.

Fei Yuyan pointed at Yuan who was still wearing his black jade mask and said, "My partner is a fellow disciple, Yuan."

The worker turned to look at Yuan with raised eyebrows.

'Her partner's a man? What a lucky bastard,' The worker cursed at Yuan inwardly, feeling envious.

After writing their names in a logbook, the worker handed them two tokens, both with the number 5163 carved into them.

"These tokens will indicate that you're partners, and your scores will be added at the end."

When Yuan accepted the token, a notification appeared before him.

<You are now participating in 'Heaven and Earth Zither Competition'>

<Special event: Reach top 3 to receive special rewards>

'Top three, huh? Since I am already trying to achieve third place, this is perfect.' Yuan smiled inwardly after seeing the notification, wondering what the game will give him for reaching the top 3.

"Now that we're registered for the competition, we only need to wait for it to start. What do you want to do until then?" Fei Yuyan asked Yuan afterward.

"I would like to go somewhere where I can play the Soul Ensnaring Zither," Yuan responded after pondering for a moment.

"You want to play the zither? What about resting before the competition?" Fei Yuyan looked at him with raised eyebrows.

"I can't help it. My hands have been itching to play the zither ever since I received the Soul Ensnaring Zither!" Yuan sighed.

"What are you? An addict?" Fei Yuyan shook her head with a hopeless smile on her face.

"Anyway, if you want to play the zither, I know a place, and you can even have an audience there."

"Really? Let's go." Yuan quickly agreed.

Thus, Fei Yuyan left the gathering area before taking Yuan and the others to this large park in the middle of the city.

However, there were already people playing music in the park. In fact, there were many different instruments being played at the same time, almost like they were competing with each other.

"What's going on here? Why are there so many people playing instruments here? And wouldn't it be rude to play when there's already somebody else playing?" Yuan asked Fei Yuyan.

"Normally that'd be the case, but this place is a little special. Musicians come here to receive recognition, and it's almost like a competition for the people here to see who has the most audience."

"What do you get for doing such a thing, anyway?" Yuan raised his eyebrows.

"Well, it's also considered training for many people since your concentration can be easily disturbed in this chaotic atmosphere with so many people playing at once. Getting recognition is just a bonus."

"I see..." Yuan nodded.

"Just find an empty spot and try it. You might be surprised by how difficult it is to play in this place."

A few moments later, Yuan took a seat before this stone table and retrieved the Soul Ensnaring Zither from his spatial ring.

After placing it down on the stone table, Yuan took a deep breath to calm his mind and took a long minute to get used to the loud atmosphere.

Meanwhile, Fei Yuyan and the others took a seat nearby, patiently waiting for Yuan to start with anticipation on their faces.

'This is nothing new for me. I have been trained to ignore my surroundings and focus solely on the instrument, even playing through a massive earthquake one time...' Yuan thought to himself.

A few moments later, almost like there was a filter inside his mind, Yuan isolated the surrounding noises, and the only sound he could hear was his own breathing and the sound of his heart beating.

Ting~

Yuan began playing the zither a moment later, instantly filling the park with heavenly zither music.

When the others in this park heard this divine noise, they immediately began trying to locate where it was coming from.

"Who is playing this zither music?! I have never heard anything this beautiful-sounding before!"

"This... sounds too good to be true..."

"I must see for myself who is producing such magical notes even if it's the last thing I do in this life!"

Very quickly, everybody in the park began approaching Yuan's location, and even the other musicians in the park stopped playing their instruments to admire the music.

"Whoever is playing this must be a top expert! I cannot miss this chance to meet a top zither expert!"

Thus, even the other musicians in the park began making their way towards Yuan's location.

A minute after Yuan began playing the zither, over one hundred people were already gathered at his location to watch his performance.

"W-Who is that? The mask is blocking his face so I cannot identify him, but he's definitely a man! I don't know of any male zither experts who can play the zither with such perfection— not even Master Zou! No disrespect to him, of course!"

"L-Look at the instrument he's using! Are my eyes tricking me, or is that the Soul Ensnaring Zither?!"

"What?! The Soul Ensnaring Zither?! That's impossible!"

The audience there quickly took notice of the beautiful zither Yuan was playing from, and they were in disbelief.

"That must be a replica! The Soul Ensnaring Zither cannot be played by anyone else other than the Zither Goddess! It has been like that for thousands of years!"

"Nobody that is currently living in the Lower Heavens has ever heard the Soul Ensnaring Zither's sound before so there's no way for us to tell whether that's the real one or just a fake. However, even without any evidence, I can say with confidence that Soul Ensnaring Zither is fake!"

Although the audience did not believe even for a second that the instrument Yuan was playing was the legendary cursed instrument, they could not

question his zither arts, and they quickly ignored the instrument and returned to focusing on the music.

And while everybody there was too immersed in Yuan's music to care about their surroundings, a tall and slender figure wearing a veil over their head suddenly appeared behind the crowd to watch the performance as well.

'That's definitely the real Soul Ensnaring Zither... But how...? Just who is this person?' The veiled figure wondered, feeling extremely shocked by this abnormal situation they had encountered by mere chance.

OceanofPDF.com

Chapter 199 - Veiled Figure

'His movements... His aura... This person is definitely a top zither expert! And judging by his clothes, he's... an Outer Court disciple from the Dragon Essence Temple?!' The veiled figure was greatly shocked by Yuan's uniform, silently wondering why he didn't join the Heavenly Melody Academy instead.

'With his abilities, he could easily become a Core Disciple at the Heavenly Melody Academy, even a high-ranking sect elder! Yet he decided to join the Dragon Essence Temple that doesn't have any zither experts? What reason could have possibly led him to such a foolish decision?! He's wasting his talents in that place!'

This veiled individual did not believe the Dragon Essence Temple deserved an excellent zither expert like Yuan, even feeling a bit envious of them.

The veiled individual suddenly had the urge to go up to Yuan and tell him to leave the Dragon Essence Temple and join the Heavenly Melody Academy instead. However, when they noticed Elder Xuan and Elder Shan's presence sitting not far away, they quickly tossed out that idea.

'Grand Elder Xuan and Great Elder Shan... What are they doing in this place? Are they following that disciple? Perhaps even protecting him? That's ridiculous...'

The veiled figure has never heard of an Outer Court disciple needing protection from two high-ranking sect elders before until today.

Sometime later, Yuan finished his second song, and the audience immediately exploded with cheers and clapping.

"Play another song!"

"Encore!"

Yuan was slightly startled when he looked up and saw the massive crowd clapping for him.

"Okay, I will play another song," Yuan said to them, increasing the hype.

However, right as he prepared to play the third song, a tall figure wearing a veil on their head and pretty fitted red robes jumped from the back of the crowd and landed a few meters away in front of him.

"W-Who's that?"

The crowd stared at this newcomer with raised eyebrows.

"Damn! Look at that figure! She's definitely a peerless beauty behind that veil!"

"How can you tell that she's a beauty without looking at her face? There's a very high chance she's only perfect below the neck! Why else would she be wearing a veil?"

"Shut up! I know a beauty when I see one even without looking at their faces!"

Meanwhile, Elder Xuan and Elder Shan narrowed their eyes at this unknown threat with great caution, preparing to defend Yuan at any moment. Although they cannot tell exactly this unknown presence's full cultivation, they were sure that she was at least a Spirit Grandmaster.

And while they do not have the ability to fight against a Spirit Grandmaster, they can at least reassure Yuan's safety.

"Can I help you?" Yuan asked the veiled woman who had a flawless body figure after staring at her for a moment.

However, the unknown lady did not respond to Yuan's question and instead took a seat at the stone table directly beside Yuan.

She then retrieved a red zither from her spatial ring and placed it on the table.

This veiled lady then turned to look at Yuan and proceed to stare at him in silence, almost like she was trying to tell him something.

And even though there was a piece of cloth blocking her face, Yuan could somehow see the expression she was making and recognize that she was challenging him.

Yuan nodded and said, "Whenever you're ready."

The veiled lady then lifted her hands and showed him three of her slender fingers.

A second later, she curled one of those fingers, making it two.

Yuan immediately realized that she was doing a countdown and nodded his head.

On the third count, both Yuan and the veiled lady played their zither at the same time.

Ting~

Ting~~

Two beautiful yet very unique and distinct music notes appeared at the same time, almost like they were trying to outdo each other.

The audience expected a chaotic scene. However, to their surprise, they quickly realized that they were able to listen to both songs simultaneously without feeling like the music was interfering with one another.

"H-How is this possible?"

The audience was dumbfounded, feeling like they were existing in two worlds at once. It was an odd phenomenon that they've never experienced before.

"T-This is..." Fei Yuyan's jaw dropped to the ground when she realized what was happening, especially after witnessing the skill being displayed by the veiled lady.

'Although I've never personally heard her play the zither before, there's only one person I can think of that can play so perfectly— Senior Song, Sect Master of the Heavenly Melody Academy! I cannot believe it! She challenged Disciple Yuan with the zither the day before the competition!' Fei Yuyan cried inwardly, her heart beating with excitement.

"Master, I think that's Senior Song..." Fei Yuyan whispered to Elder Shan, who immediately turned to look at her with wide eyes.

"A-Are you sure? What's she doing here? Challenging Disciple Yuan, no less..." Elder Xuan said.

"Who else but Senior Song can produce such heavenly music notes? Eh... Besides Disciple Yuan, of course..." Fei Yuyan said.

"What do you think is going to happen to the competition now?" Xuan Wuhan couldn't help but ask.

"Who knows..." Fei Yuyan shrugged. "Anything can happen at this point once she realizes that Disciple Yuan is a participation in the competition—"

Ting!

An awkward and off-sounding noise suddenly resounded in the area, causing the people to turn to look at the veiled lady who'd suddenly stopped playing the zither.

The veiled lady looked at her own hands that were slightly trembling, seemingly in disbelief that she'd lost the challenge, and then she turned to look at Yuan, who was still playing the zither without a care in the world for his surroundings.

'It took him a single song— No, half a song to snap me out of my concentration... Just who is this zither expert and where on earth did he

come from?' The veiled lady thought to herself, her interest in Yuan peaked, feeling an indescribable feeling in her heart.

Chapter 200 - Being Poached In Public

Yuan finished his song two minutes after the veiled lady stopped playing her zither, and he turned to look at her with his clear eyes afterward.

"That was very fun. Thank you for playing with me," Yuan said with a smile behind his mask.

"..."

The veiled lady stared at Yuan's bright eyes in silence, seemingly pondering about something, and after a long moment of silence, she finally spoke for the first time in a very soothing voice, "How would you like to join the Heavenly Melody Academy? Whatever position you want, you can have."

"Eh?"

Not only Yuan but everybody there was dumbfounded by the veiled lady's sudden words that turned out to be a recruitment for the Heavenly Melody Academy!

"B-But I am already a disciple at the Dragon Essence Temple..." Yuan responded in a dazed voice.

The veiled lady nodded her head, and she continued in a shameless voice, "I know. You can simply leave them and come to us. After all, you're definitely more suited for the Heavenly Melody Academy where everybody is a musician."

However, before Yuan could even respond, the veiled lady lifted her right hand and grabbed the red veil that was covering her face before pulling it

off her head, revealing the peerless face behind it.

When the people there saw this extremely beautiful woman that resembled a goddess, their eyes and mouths widened with shock.

"T-That's!"

"Senior Song?!"

"What! She was the Sect Master of the Heavenly Melody Academy this entire time?!"

"D-Does this mean that unknown zither expert had managed to defeat Senior Song, who is widely recognized as the Goddess of Music, in a one-on-one zither battle?! This is unprecedented!"

"She really was Senior Song..." Fei Yuyan mumbled in a dazed voice.

After revealing her identity to the people there, Song Ling'er stood up and turned to look at Elder Xuan and Elder Shan with a serious expression on her face.

"I have never done this before— poaching a disciple from another sect and even in front of their sect elders and fellow disciple. What I am doing right now will definitely tarnish my reputation, and I respect the Dragon Essence Temple's reputation, but I simply cannot allow someone so talented with the instrument to waste his time in a place where they don't even teach music. In fact, I am a little frustrated that he'd decided to join your sect and not mine. I hope you can understand my feelings, elders from the Dragon Essence Temple." Song Ling'er said to them.

Elder Xuan and Elder Shan were shocked speechless after listening to Song Ling'er's words. Not even in a million years could they have imagined that there would be a day where the Sect Master of the Heavenly Melody Academy would personally poach one of their disciples and directly in front of them at that.

However, no matter how Song Ling'er felt, even if she threatened them with blades on their neck, there was no way they would give up someone like Yuan. After all, his cultivation talents are equal to his music talents if not even above that!

"I understand your feelings very well, Senior Song, but this is not something we have a say in. If you really want to continue with this conversation, then you must speak with our Sect Master," Elder Xuan said to her, directing all responsibility to Long Yijun, mostly because he didn't want to deal with someone like Song Ling'er, who was known for being stubborn and aggressive.

Song Ling'er frowned. However, if she could poach someone like Yuan, even if she has to travel to the end of the world, it would be worth it one hundred and ten percent!

"It's fine, Senior Song, you don't have to speak with the Sect Master." Yuan suddenly said, and he continued, "While I am grateful and humbled at the same time that you'd invite me to your sect, I don't plan on leaving the Dragon Essence Temple."

"Why?! What's at the Dragon Essence Temple that's keeping you there?!" Song Ling'er suddenly snapped, startling everybody there. "I have never seen someone as talented as you before! You don't belong in a place like the Dragon Essence Temple! You belong to the Heavenly Melody Academy, where you'll be able to really shine! If you join our sect, I can guarantee you that you'll become a world-famous musician whose name will be as prestigious if not even more prestigious than the Zither Goddess!"

Hearing Song Ling'er's words, Yuan couldn't help but show a bittersweet smile.

"There are some matters in the Dragon Essence Temple that I must attend to, therefore I cannot just leave. Furthermore, I don't intend on becoming a world-famous musician, since music is only a hobby of mine and I want to focus on cultivation more."

"What?! Music is only a hobby?! That's such a waste of your heaven-sent talents!" Song Ling'er stared at Yuan with disbelief in her eyes.

How could someone with such tremendous talents not focus on improving that specific talent? She has never seen such foolishness before!

Of course, Song Ling'er was unaware of Yuan's godlike cultivation talents, or else she wouldn't be reacting in such a manner.

"I'm really sorry, but I have decided to never play the instruments seriously ever again since I have already experienced enough of that in my life," Yuan said to her.

"..."

Song Ling'er narrowed her eyes at Yuan, but she didn't say anything else.

A moment later, she took a deep breath and released it.

She then turned around and started walking away from the area.

"This won't be your last time seeing me, nor will I give up on trying to poach you either. I'll be sure to give a visit to the Dragon Essence Temple after this zither competition." Song Ling'er said as she disappeared from the area.

Once Song Ling'er left the scene, Elder Xuan approached Yuan and said to him, "Let's also leave before it gets any more chaotic."

Yuan nodded and left the park with the others shortly later.

Chapter 201 - Warning Her Disciples

After leaving the park, Song Ling'er returned to the hotel she was staying at, but then she suddenly realized something that made her run back to the park.

'I forgot to ask that person for his name! What a blunder!' Song Ling'er cried inwardly when she realized that she'd forgotten to ask for Yuan's name due to her frustration at that moment.

But alas, by the time she returned to the park, Yuan and the others were already long gone!

'Forget it. I'll ask Long Yijun when I visit the Dragon Essence Temple. Even if they try to hide him from me, I have already memorized his figure and hands so I'll recognize him at glance.'

Thinking this, Song Ling'er once again returned to the hotel, but her mind couldn't get rid of Yuan's flawless zither arts, and she proceeded to spend the rest of the day thinking about Yuan's performance, even analyzing it.

'Wait a second... That person was playing the Soul Ensnaring Zither, Daoist Zou's treasure! Maybe he knows this unknown expert's identity.'

After spending an hour in her hotel, Song Ling'er went outside for the third time today, and she went straight to the Zou Family's household, surprising Senior Zou with her unannounced visit.

"S-Senior Song! Welcome to my humble place! How may I help you today?" Senior Zou bowed to her in a respectful manner.

"The Soul Ensnaring Zither... When did you give it away?" Song Ling'er asked him.

"Eh? How'd you know that I'd given away the Soul Ensnaring Zither? I haven't announced anything yet," Senior Zou looked at her with a surprised face.

"Because I saw someone playing with it not long ago," she calmly responded.

"I see... So he's already playing it..." A warm smile appeared on Senior Zou's face, causing Song Ling'er to raise her eyebrows.

Then she asked him, "Just who is that person? I have also tried playing the Soul Ensnaring Zither multiple times, but I never figured out how to play it properly, yet this person did it flawlessly."

Senior Zou shook his head and said, "Believe me when I say this, but I also don't know his background. Besides his face and that he's from the Dragon Essence Temple, I don't know anything else about him."

"Wait... You saw his face? What did he look like?" Song Ling'er suddenly asked, her eyes brimming with curiosity.

"Well... He was a very handsome young man."

"A handsome young man? And you don't recognize him at all? How can such a talented individual be a nobody?" Song Ling'er asked.

Senior Zou shrugged and said, "I have no idea."

Song Ling'er no longer said anything and stood there with a pondering look on her beautiful face.

And almost as though he'd suddenly recalled something, Senior Zou spoke a moment later, "Oh, right. He's also called 'Yuan', and he will be participating in the zither competition with Fei Yuyan as his partner."

"He's what?!" Song Ling'er turned to look at him with a shocked look on her face.

If someone like Yuan participated in the competition, it would no longer become a competition but a one-sided performance instead!

"I-Is there something wrong with that?" Senior Zou asked her.

"..."

"No... If someone like him participates in the competition, there's no doubt that he will become an instant sensation. In fact, if I could, I would give him the first place and end the competition right now."

"You think of him that highly? I have never seen you praising someone to such an extent. Your disciples will cry if they hear that," Senior Zou chuckled.

"They can cry all they want, but if they want to complain, they better prove to me that they're worth praising." Song Ling'er spoke in a nonchalant voice.

"Anyway, I'm going to leave now. Thank you for your time."

Senior Zou nodded and said, "My Zou Family will always have its doors open for you, Senior Song."

Song Ling'er left the Zou Family shortly later.

"Yuan, huh?" Song Ling'er mumbled his name as she traveled in the streets with a veil covering her face, yet her womanly figure still attracted countless gazes.

Sometime later, Song Ling'er arrived at a hotel that was different from the one she was staying at.

"Welcome back, Senior Song!"

The workers there immediately greeted her when they saw her figure.

"Are my disciples here?" she asked the workers behind the reception desk.

"Yes, they are currently inside their room, Senior Song."

Song Ling'er nodded and proceeded to look for her disciples.

"Master!"

Two individuals in their early twenties, a young lady and young man, showed up shortly after Song Ling'er knocked on their doors and greeted her.

"Ai Wan, Wei Kang, I have something important to say," Song Ling'er said to them, and she continued with a serious look on her face, even removing her veil so they could see how serious she was being, "This zither competition... You will meet someone exceptional— someone who will make you doubt your own talents and existence."

Her disciples looked at her with a gawking expression, as they could not comprehend why she was telling them such a thing right before the competition.

"I am telling you this because I want you to prepare yourselves, since you two have been acting very relaxed, almost like you've already won the competition. Don't get complacent because you are my disciples."

"We were wrong to look down on others just because we're your disciples, Master." The disciples lowered their heads, apologizing for being complacent.

Song Ling'er nodded her head and left shortly later, returning to her own hotel.

"What happened to the Master? She's acting a little suspicious."

The two disciples looked at each other with a dumbfounded look after she left.

"Master usually carries this confident and slightly arrogant aura around her, but I couldn't feel that from her just now..." Wei Kang, the male disciple mumbled.

"Perhaps something really happened. I have never seen her act like this before." Ai Wan sighed.

And she continued, "She said there'll be someone 'exceptional' in the competition, right? Did she just praise someone? I don't think I have ever seen her praise anyone before— not even her own disciples."

"I'm actually feeling a little excited about this competition now." Wei Kang said with a slight smile on his face.

"Me, too."

Chapter 202 - Introducing The Judges

After returning to the Royal Blossom Hotel, Elder Shan sighed while looking at Yuan, "I knew you'd attract Sect Master Song's attention at the competition with your talents, but I didn't think we'd encounter her before the competition, and she'd even gone as far as trying to poach you. This is going to be problematic..."

"Why would it be problematic? I have already refused her invitation to join the Heavenly Melody Academy," Yuan said.

"Just because you'd refused her invitation doesn't mean she'll give up on you, Disciple Yuan. And knowing Senior Song's character, she'll most likely continue trying to poach you until she gets tired of it, which might take a couple of years if not decades..."

"Hopefully the Sect Master can convince Senior Song to give up." Elder Xuan sighed loudly.

"Anyway, you should stay inside the hotel for the rest of the day. It's best to stay lowkey after what happened at the park today since I'm sure that it is already being spread around as we speak."

As Elder Xuan had guessed, the people that witnessed Yuan's performance were already spreading what they witnessed and how an unknown zither expert from the Dragon Essence Temple had defeated the Heavenly Melody Academy's Sect Master, Song Ling'er. Of course, nobody believed this rumor at first, since they would've known about such an expert already if he really existed.

But as more and more people began spreading the news with even some reputable musicians saying the same thing, some people could not help but start believing the rumors to a certain extent.

"Since there's nothing to do until the competition tomorrow, I'll log off for today," Yuan said to the elders before logging off in their room and spending the remainder of the day cultivating in the real world, even advancing a level by the end of the day, reaching 7th level Spirit Apprentice.

The following day, after returning to the game and some preparations, Yuan and the others left the hotel and went to the gathering area again.

"Good luck, both of you. We'll be watching your performance in the spectators' area," Elder Shan said to Yuan and Fei Yuyan once they reached outside the gathering area.

"Good luck, Yuan! I'll be cheering for you!" Xuan Wuhan said to him with a bright smile on her face.

"Good luck, Disciple Yuan..." Min Li said to him, feeling a little awkward, as this is her first time being in such a situation.

"Good luck, and above all, have fun." Elder Xuan said with a smile.

"Thank you all," Yuan said to them before following Fei Yuyan inside the gathering area.

"Hm? There appear to be fewer people here today than before. What happened?" Yuan asked after noticing that the gathering area was much more empty compared to yesterday.

"Only participants are allowed here now, that's why." Fei Yuyan said.
"Anyway, there's still another hour or so until they close the gates and begin the competition. Let's find a place to wait until then."

Yuan nodded and followed Fei Yuyan around until they found an empty spot underneath a tree, where they proceeded to wait.

"Look over there— isn't that Fairy Fei from the Dragon Essence Temple? She's participating in this year's competition as well!"

"Who's her partner, though? And why is that person wearing a mask?"

The other participants there quickly noticed Fei Yuyan's presence, and some of them even decided to approach her with friendly greetings.

"Hello, Fairy Fei. I am Wan Hu from the Wan Family. I just want to let you know that I'd started playing the zither after witnessing your performance in the previous competition, and now I am participating in the competition myself."

"Fairy Fei, do you remember me? I am Du Ruhui, and I was ranked 8th place in the last competition."

Fei Yuyan glanced at these people, and then she said, "Please do not bother me right now, I am trying to concentrate on the competition. If you have the time to chit chat, use that time to prepare yourself for the competition instead."

These people were dumbfounded by Fei Yuyan's cold response, but it was not unexpected, since Fei Yuyan was known for being distant towards others, especially men.

Meanwhile, Yuan surveyed the area, even paying attention to the people that were just entering the place, almost like he was searching for a certain individual.

Of course, he was simply trying to see how many participants there were players.

Time passed quickly, and the gates to the gathering were shut exactly an hour later.

"Welcome to the 100th Zither Competition."

A familiar face suddenly appeared before the participants and said out loud, silencing the place immediately.

"That's Senior Zou..." Yuan mumbled after seeing him.

"My surname is Zou, and I am one of the judges that will be participating in this year's competition," Senior Zou said, and he continued, "Allow me to introduce the other two judges that will be working with me today."

A few seconds later, two figures descended from the sky and landed beside Senior Zou.

One of them was a woman wearing a crimson red dress and a veil over her head, whilst the other judge was a tall handsome man that emitted a powerful aura.

"On my right side, we have Senior Song, Sect Master of the Heavenly Melody Academy." Senior Zou introduced Song Ling'er.

He then pointed to the tall man and said, "On the other side, we have Elder Jing from the Heaven and Earth Palace, our sponsor for this year's competition!"

After introducing the judges, Senior Zou continued, "Normally, we would grade each of you separately until the final event, but as most of you have guessed, we will be doing things slightly different for this year's competition."

While Senior Zou talked about competition, Song Ling'er searched the crowd with her sharp eyes from behind the veil, seemingly trying to look for a certain individual.

'Found him! He's really participating in this competition! Yuan!' Song Ling'er's eyes widened when she saw Yuan with his black jade mask standing beside Fei Yuyan, and she could immediately feel her heart beating slightly faster than just a moment ago for some reason.

Chapter 203 - Always Looking For Talented Individuals

After Senior Zou mumbled about the competition and some of its history, he turned to look at Song Ling'er and spoke, "Senior Song, are we ready to start the competition?"

"..."

However, almost as though she didn't hear him, Song Ling'er did not respond to his question, making Senior Zou repeat his words for a second time.

"Senior Song, are we ready to start the competition?"

"Eh? What did you just say?" Song Ling'er suddenly snapped out of her dazed and turned to look at Senior Zou's dumbfounded face.

"I-I said, we are ready to start the competition whenever you are ready, Senior Song."

Song Ling'er then nodded, "Yes, we can start."

Senior Zou nodded his head, and then he turned to look at the thousands of participants there and said, "Follow me to the arena where you'll perform in front of millions of people."

The participants there swallowed nervously when they heard that there were going to be millions of people.

While they'd expected and prepared themselves for a large crowd, they didn't expect such a massive audience! This must be the influence of the

Heaven and Earth Palace and the Sect Master of the Heavenly Melody Academy, Song Ling'er!

Senior Zou suddenly turned around and walked into the building, and the participants followed him.

A few minutes later, Senior Zou led them through the entire building and into a vast, empty area that spanned for almost an entire mile, with spectators blocking the scenery in every direction due to the sheer amount of people that were present.

However, upon closer inspection, the area wasn't actually empty, and there were thousands of small wooden tables placed around the area in an orderly fashion with a zither resting on top.

Furthermore, each of these zithers looked exactly the same, and none of them looked any different from another. In fact, they were all ordinary zithers.

When the spectators saw these participants coming out of the building, the noises in that area exploded with excitement, causing the air to shake.

"You have five minutes to find a seat, and you must be sitting directly next to your partner. Go." Senior Zou said to them, and the participants scattered like ants to find their seats.

Although it was a bit messy at first, all of the participants were seated before five minutes had passed.

Once everyone was seated, the three judges jumped on top of three tall platforms that were placed directly in front of the participants before taking a seat.

Sitting directly in the middle of the participants was Song Ling'er with Senior Zou on her right side and Elder Jing on her left side.

"Thank you all for coming here today." Senior Zou spoke in a calm voice, yet his voice boomed loudly and rippled throughout the area, sounding as

though he was using an invisible microphone.

"Before we start, allow us to introduce ourselves."

Senior Zou suddenly stood up and introduced himself, "My name is Zou Fujian, and I was only 7 years old when I first touched the zither. It has been exactly 135 years since I've started practicing the zither, yet I still cannot help but become excited when I see a zither in front of me. This is also my 9th time acting as a judge here. That's all."

After his brief introduction, Senior Zou returned to his seat whilst the sect elder from the Heaven and Earth Palace stood up and began introducing himself with a proud aura around him, "Surname Jing, and I am a sect elder from the Heaven and Earth Palace for the Inner Court disciples. I will admit that my experience with the zither is not as vast or profound as the other two judges, but I have supervised over 100 disciple examinations for the Heaven and Earth Palace, bringing hundreds of talented disciples to the sect, so I know a thing or two about judging people. That's all."

After Elder Jing sat down, everybody in the area turned to look at the beautiful figure sitting in the middle, their gaze filled with admiration and anticipation.

A moment later, Song Ling'er stood up and removed her veil, revealing to the audience her peerless beauty.

"Heavens! What a divine beauty!"

"As expected of the Divine Zither Fairy! Her beauty knows no boundaries!"

"Hahaha! I didn't come here to watch the zither competition, only to witness for myself whether Senior Fairy Song was as beautiful as people say she is! I can now say for certain that she's the most beautiful woman I have ever seen! This trip was definitely worth it!"

"Aaaaah! Senior Fairy Song! I love you!"

The men and women there showered Song Ling'er with praises regarding her beauty, almost like everyone there were her admirers.

However, Song Ling'er did not pay attention to the noises, and her eyes remained fixed in a certain direction.

Noticing this, Senior Zou followed her gaze and turned to look in the direction she was looking at.

'Why am I not surprised?' A slight smile appeared on his face when Senior Zou saw a distinct figure wearing a jade black mask who was also sitting beside a very pretty young lady.

'She's really obsessed with him, huh? Well, I cannot blame her. After all, she always talked about how she will be the first one to play the Soul Ensnaring Zither after the Zither Goddess... I can imagine the shock that she'd received when someone much younger than her stole that achievement from her.'

A few moments later, once the noises in the area died down, Song Ling'er spoke in a calm voice, "Sect Master of the Heavenly Melody Academy, Song Ling'er. We are always looking for talented individuals in the Dao of Music, especially those who specialize in the zither. Therefore, if you can attain at least the top ten, I will consider accepting you as a disciple in the Heavenly Melody Academy. As for whoever achieves first place... I shall make you my own disciple!"

The crowd gasped in shock when they heard such words from Song Ling'er. She was going to accept a disciple today? This was something nobody there could've expected— not even her own disciples!

Meanwhile, Yuan looked at Song Ling'er's beautiful figure from behind the mask, pondering to himself, 'Why does it feel like she's talking specifically to me?'

Chapter 204 - How Is This Even Fair?

After her explosive announcement, Song Ling'er returned to her seat in a casual manner, almost like it was just another day for her.

Meanwhile, the crowd exploded into another commotion.

"Senior Fairy Song will be accepting another disciple?! But if I remember correctly, she'd mentioned that she won't be accepting any more disciples after accepting her current two disciples six years ago!"

However, not everybody was excited about Song Ling'er's announcement.

"She's really sneaky... I didn't think she would strike back so quickly..." Elder Shan felt her eyebrows twitch upon hearing Song Ling'er's announcement.

"Since she already knows that Disciple Yuan has what it takes to achieve first place if not guaranteed to take first place, she purposefully announced that she'll accept the first place as her disciple to use the crowd to pressure Disciple Yuan into accepting. What a brilliant yet shameless move!" Elder Xuan shook his head, unsure whether to laugh or cry at Song Ling'er's desperate attempt to force Yuan into joining the Heavenly Melody Academy.

"What if Disciple Yuan doesn't actually achieve first place? What then? Will she simply change her mind?" Xuan Wuhan couldn't help but that.

"No, that's not possible. Although there are two other judges there, Senior Song's judgement will easily outweigh their judgement. If she says first

place belongs to Disciple Yuan, he will undoubtedly get first place! Who will dare to refute her judgement? Who has the credentials to challenge her judgement? Nobody!" Elder Xuan explained to her. "Furthermore, with Disciple Yuan's abilities, nobody would find Senior Song's judgement unfair!"

"T-This is really unfair! A scandal! How can someone as prestigious as Senior Song lower herself to such a degree just to recruit Disciple Yuan? I cannot understand this..." Xuan Wuhan sighed.

Elder Xuan and Elder Shan looked at Xuan Wuhan with weird looks. If Xuan Wuhan knew just how talented Yuan was, she would understand Song Ling'er's desperation. In fact, if the roles were reversed, their Sect Master Long Yijun would undoubtedly be doing the same thing as Song Ling'er—doing whatever he could to poach Yuan.

Sometime later, Senior Zou cleared his throat, and he spoke in a clear voice, "Now let's talk about the competition itself."

"There will be three different parts in the competition, and you will be scored from one to ten by each judge. At the end of the competition, whichever team has the most points will be declared first place."

"For the first part, we will have each of you play three music notes— no more, no less. You can play any note you want, but you only have three, so choose wisely."

Senior Zou then pointed to the participants sitting in the first row and said, "We will start from you. You have 30 seconds to prepare, starting now."

The place immediately became silent, and millions of eyes gazed upon this participant who was going first, casting an invisible pressure on this participant who felt like a mountain had suddenly appeared on his shoulders.

The participant's hands trembled as he reached for the zither on the table, and a moment later—

Ting... Ting... Tin—

Three very awkward-sounding music notes echoed in the area, immediately putting frowns on the audiences' faces.

However, none of the audience made any noise or complained, and they silently waited for the judges' verdict.

Senior Zou and Elder Jing turned to look at Song Ling'er, almost like they were waiting for her to give her verdict first, but after seeing that she hadn't moved even after a good moment, they decided to give their verdicts first.

"Zero."

Senior Zou spoke in a cold voice.

"Zero."

Elder Jing followed.

Once the other judges gave their verdict, Song Ling'er finally spoke, and her cold voice resounded clearly in the place, "There's no need for your partner to continue. The two of you may leave the premise, as you are no longer qualified to participate in this competition."

The participant nodded with a flushed face and teary eyes, yet he didn't complain. As for his partner who was staring at him with an enraged expression, he also remained silent.

After bowing to the Song Ling'er and the others, the two of them left the area with a shameful back.

"Next." Senior Zou immediately looked at the next participant.

A few seconds later, three beautiful notes resounded in the area.

"Five." Senior Zou declared.

"Six." Elder Jing followed.

"Two." Song Ling'er said in a nonchalant voice.

"..."

The audience was slightly baffled by Song Ling'er's score that was vastly lower compared to the other two judges. However, they weren't too surprised, since someone like Song Ling'er must have an extremely high standard due to her experience and background.

A few minutes later, over a dozen teams were graded, but Song Ling'er has yet to give anyone above three points.

Half an hour and hundreds of teams later, they finally reached a team that was relatively famous, as they'd ranked in the top 20s individually in the previous competition.

Three music notes later, the two judges looked at Song Ling'er.

However, she remained silent.

A few more seconds later, Senior Zou spoke, "Eight points."

"Eight points from me as well. Great job."

Everyone there turned to look at Song Ling'er and patiently waited for her judgement.

Two seconds later, she opened her mouth and mumbled, "Six points."

"Oh! Someone finally managed to score above three points, even doubling it!"

"Who is that? I don't think I know his name."

"That's Ning Xiang, he placed 11th last competition. It seems like he has practised his butt off since then, and his efforts are showing."

Ten minutes later, another team managed to receive more than 5 points from Song Ling'er. At this point, the audience and participants alike only cared

about Song Ling'er's verdict and barely paid attention to Senior Zou and Elder Jing.

After some time, it was finally Song Ling'er's own disciple turn.

"Look! That's Ai Wan and Wei Kang! Senior Fairy Song's disciple! I didn't know they were going to participate in the competition!" The spectators' immediately recognized them.

"What! How is this even fair?! They'll definitely get first place! This is probably why Senior Fairy Song announced that she was accepting new disciples! Because she knew how difficult it would be to achieve first place with her disciples participating!"

The audience was stumped by their unexpected appearance.

Chapter 205 - Zero Points

"Wei Kang and Ai Wan? Is this even legal? How can they allow Senior Song's own disciples to join this competition? They'll obviously dominate the entire competition!" Xuan Wuhan complained in a sighing voice, and she continued, "I just hope that they're not better than Yuan."

"I have never heard them play before, but I don't think Disciple Yuan would fall behind them." Elder Shan said, continuing with a smile on her beautiful face, "After all, he defeated their master, Senior Song, in a one-on-one battle."

While the audience talked about Wei Kang and Ai Wan, Song Ling'er spoke first for the first time, "You may begin."

The place instantly turned silent, and everybody there stared at Wei Kang who was the first to go with intensive gazes.

After taking a deep breath, Wei Kang moved his arms in an elegant and precise manner, playing three music notes in quick succession, his aura radiating with confidence and elegance.

Ting~ Ting~ Ting~

Three beautiful music notes that pulled the listeners' heartstrings resounded in the area.

"Aaahh... What beautiful music notes..."

"As expected of Senior Fairy Song's disciple—he's on an entirely different level compared to the other participants..."

"Indeed... Nobody else has managed to cause my heart to tremble in such a manner."

A few moments later, Senior Zou and Elder Jing turned to look at Song Ling'er, giving her the opportunity to go first since they were her disciples.

However, Song Ling'er remained silent, her intentions clear.

Senior Zou and Elder Jing exchanged looks with each other before nodding.

The next moment, Senior Zou spoke with a smile on his face, "That was excellent, Junior Wei. I expected nothing less from one of Senior Song's disciples. Although it was only three mere music notes, I was able to fully grasp your profound understanding of the zither with that brief performance just now. I'll give you ten points."

The crowd cheered with excitement after hearing Senior Zou give out his first perfect score, which was to be expected.

"I agree with Senior Zou. It was only three music notes, but I already want to hear more. Great job." Elder Jing praised Wei Kang.

"Thank you, Seniors." Wei Kang stood up and bowed to them before turning to look at Song Ling'er who has yet to give her judgment.

After a moment of awkward silence, Song Ling'er finally spoke in a nonchalant voice, "Do you remember what I told you about being complacent?"

"I do, Master." Wei Kang nodded, sensing an ominous feeling coming from Song Ling'er's tone.

"Then what was that rubbish just now? I've heard better sounds coming from a pig. What an utter disappointment from you, Wei Kang. Zero points." Song Ling'er said in a cold voice.

"Z-Zero points?"

Everybody there including Wei Kang himself was baffled by Song Ling'er's harsh assessment. How could such a wonderful performance be worth less than the others who were clearly worse, much less zero points?

"Maybe she's being especially harsh on him because of their master and disciple relationship. You see this very often— when the master purposefully degrades their own disciples so they can grow stronger and faster."

While everybody there felt that Wei Kang had deserved much better than zero points, who dared to challenge Song Ling'er's decision? Regarding her own disciple, no less.

After giving Wei Kang her verdict, Song Ling'er turned to look at the pretty young lady sitting beside him, her second disciple, Ai Wan, whose back was filled with cold sweat at this moment.

"Go ahead." Song Ling'er said to her a moment later.

"Yes, Master."

Ai Wan nodded, and she proceeded to take the full 30 seconds of preparation time to calm her mind and focus on the zither before her.

After taking a deep breath, Ai Wan played three music notes in a similar fashion to Wei Kang, yet it produced an entirely different sound, even giving off its unique atmosphere.

The audience could feel their bodies relaxing after hearing these music notes.

"Such a powerful yet peaceful note... How does she create such a wonderful sound?"

"I nearly dozed off after listening to her music notes!"

Sometime later, Senior Zou spoke with a smile on his face, "Wonderful! It's only been half a year since I've last heard you play and you've improved by leaps and bounds since then! A definite 10 points from me!"

"I am speechless, really." Elder Jing spoke next, and he said, "It's also a definite 10 points from me."

Once the two judges finished their assessments, everybody turned to look at Song Ling'er, and Ai Wan swallowed nervously.

After a moment of silence, Song Ling'er said in a calm voice, "I'm glad to see that at least one of my disciples had listened to my words. Nine points."

A bright smile appeared on Ai Wan's face after hearing Song Ling'er's verdict, and she immediately bowed, "Thank you, Master!"

'Che...' Wei Kang sneered inwardly when Ai Wan didn't get scolded like he had been shamed in front of millions of people by their master, feeling incredibly salty.

After Song Ling'er's disciples' turn, the next hundred teams failed to produce anything worthy of praise, as the standard had been raised incredibly high by Ai Wan and Wei Kang despite his score.

In fact, it was so boring that some of the crowds even began to doze off.

Half an hour later, three unexpectedly beautiful music notes resounded in the area, sweeping the audience's drowsiness away in an instant.

"W-Who played those three notes just now?" Someone in the audience asked.

"It was that beautiful young fairy—I think that's Fairy Fei from the Dragon Essence Temple."

"Oh! I know of her! She placed 7th in the last competition!"

"Wow! She is not only a beauty but also an excellent zither expert! I think Senior Fairy Song's disciples finally have a real opponent in this zither competition!"

"Are you sure she only placed 7th? That doesn't seem right! Her three music notes were not any less magnificent than Ai Wan or Wei Kang, who

could easily reach the top 3 if they participated in the competition!"

"I'm sure! I cannot even begin to imagine how much she'd practiced since then for her to reach this level in such a short time!"

The audience was blown away by Fei Yuyan's performance, completely oblivious to the fact that her improvements were due to practicing with Yuan, and it was only for one short week!

Chapter 206 - Yuans Three Music Notes

Chapter 206 - Yuan's Three Music Notes

Clap *Clap* *Clap*

A few moments after Fei Yuyan played her three music notes, Senior Zou suddenly began clapping his hands, and he spoke in a praising voice, "I don't even know where to begin, Disciple Fei. I have witnessed your performance in the previous competition, and if I had listened to your performance just now while blindfolded, I would have never guessed that it was you playing the zither."

After taking a deep breath, he continued to speak, "If you were to participate in the previous competition in your current condition, I have no doubt that you would be able to achieve first place easily! Ten points from me!"

"Thank you for your praises, Senior Zou." Fei Yuyan stood up and bowed to him.

A few seconds later, Elder Jing said, "While this is my first time seeing you play the zither, I have no qualms claiming that you're as talented as Ai Wan and Wei Kang after listening to those three music notes alone. Ten points from me as well, and I am excited to see what else you have in store for us later."

"Thank you, Elder Jing." Fei Yuyan said to him before turning to look at Song Ling'er, who was staring at her with a profound expression.

After a moment of silence, Song Ling'er spoke, "You... Where did you learn to play the zither?"

"Eh?"

To her surprise, as well as everyone there, Song Ling'er had asked her a question instead of giving her verdict.

"I learned to play the zither by myself as it was only a hobby at first, Senior Song."

Hearing her response, Song Ling'er continued to ask, "How do you usually practice?"

"I don't have any special practice routines, and I only practice by playing the zither normally— a few hours every week. However, I have changed things up very recently by practicing with my partner, who has contributed a lot to my improvements." Fei Yuyan explained.

'This girl... she's managed to reach such a high level of zither arts without a proper master? And she's also from the Dragon Essence Temple? Why are there so many talented musicians at the Dragon Essence Temple when they don't belong there at all?!?!' Song Ling'er cried inwardly after realizing that Fei Yuyan was mostly another genius with talent equal if not even greater than her current disciples, and her envy towards the Dragon Essence Temple increased some more.

After a moment of silence, Song Ling'er finally gave her verdict, "Nine points from me."

"Thank you, Senior Song!" Fei Yuyan bowed to her.

"Wow! She actually received nine points from Senior Fairy Song! Does this mean Senior Fairy Song recognizes Fairy Fei's talents to be similar to her own disciples?"

"Well, she definitely deserves it!"

"If her partner doesn't drag her down, there's a good chance that her team will become top 10— even top 3!"

Meanwhile, Ai Wan and Wei Kang turned to look at Fei Yuyan with narrowed eyes, wondering if she was the person Song Ling'er was talking

about when she warned them of an 'exceptional' genius that will be in the competition.

A few moments later, everybody in the audience turned to look at the next participant— a somewhat slender figure wearing a black jade mask on his face.

"What the heck? Why's he wearing a mask?"

"What an oddball. He's even the only person wearing a mask there."

"This is Fairy Fei's partner? I hope his zither arts won't become a burden."

The people there already began looking down on Yuan before his performance even began.

'Oh boy...' Senior Zou sighed inwardly, wondering what's going to happen now that they've finally reached this unknown prodigy who could defeat even Song Ling'er in a one-on-one battle.

"W-Wait a second! I recognize him! He was at the park yesterday!"

Someone in the crowd suddenly shouted in a surprised voice, dumbfounding the people around him.

"Park? What park?"

"Oh! I was there too! He was the one who was challenged by Senior Fairy Song to a zither battle, even defeating her one-on-one!"

"What kind of nonsense is that? Senior Fairy Song is the number one zither expert in the Lower Heavens! As if someone in this place could defeat her in a one-on-one zither battle!"

"Trust me, I completely understand why you'd be suspicious because I would be too if I didn't witness it for myself, but once you listen to him play the zither, you'll understand what I said is true! I couldn't sleep last night because his zither music was stuck inside my head!"

"..."

Song Ling'er's eyebrows twitched uncontrollably after hearing the crowd's conversation, yet there was nothing she could say about it.

"Ahem!"

Senior Zou suddenly cleared his throat loudly, causing a small ripple to sweep the place, quickly silencing the noise.

"Go ahead. You may begin." Elder Jing said to Yuan shortly after the place calmed down, completely oblivious of the other two judges that were acting slightly strange.

Yuan nodded his head and proceeded to place his fingers gently on the string without actually touching the strings.

After taking a deep breath, Yuan pulled on the string with his fingers, creating three music notes that actually sounded as though it was only one note, almost like he'd played the three notes simultaneously, and an otherworldly sound echoed in the place.

When the audience heard this music note, their eyes immediately widened with surprise, as they could somehow see the image of an incredibly beautiful flower field in front of them.

"W-What the heck? Am I seeing things? Why do I suddenly see flowers?"

"I am seeing it too! The entire area is filled with beautiful flowers!"

"T-This is..."

The judges' eyes widened with shock when they realized what was happening.

"His music note was so profound that it'd created an illusion for anyone that heard it! This level of zither art is simply legendary! And as far as my knowledge goes, only the Zither Goddess has managed to produce this phenomenon before, and he'd managed to achieve this same phenomenon

using only an ordinary zither!" Senior Zou unconsciously stood up on the platform and stared at Yuan with a gawking look on his face.

Chapter 207 - Playing Seriously

"Heavens... Who on earth is that participant?" Elder Jing mumbled in a dazed voice as he stared at the figure wearing a black jade mask with wide eyes.

'This Yuan... He wasn't using all of his abilities during our one-on-one? Was he... looking down on me?' Song Ling'er stared at Yuan with clear disbelief in her eyes.

It was simply unthinkable that someone would look down on her—the Sect Master of the Heavenly Melody Academy, feeling an indescribable sensation in her heart after learning this.

Of course, Yuan wasn't purposefully looking down on Song Ling'er during their one-on-one; it was just that he didn't feel being so serious in a friendly competition between two zither players, and he saw it more of a friendly spar.

However, as someone who was conditioned to perform his very best during competitions, now that he was actually participating in one, he'd unconsciously flipped his 'serious' switch on and played the zither with absolute focus and seriousness, especially since this is a music competition.

Meanwhile, the audience and the participants alike stared at Yuan with shock and disbelief written all over their faces. Although most of the spectators didn't comprehend the situation and just how amazing Yuan's performance just now truly was, they knew that it was the best thing they've heard today and most likely their entire lives.

As for the other participants, they were gobsmacked by Yuan's performance, and they could still see the illusion of flowers even though

many moments had passed since they heard the three music notes!

'Yuan... you...'

Even Fei Yuyan was staring at Yuan with a gawking expression on her face, feeling her heart racing at this moment.

After a long moment of silence that lasted for a few minutes, Song Ling'er finally snapped out of her daze, and for the first time in this competition, she gave a verdict first, "Ten points."

However, she didn't say anything else. No praises, no opinions— nothing, almost like she was speechless.

Senior Zou and Elder Jing followed a moment later, and they also only gave their verdict without any other words.

"Ten points..."

"Ten points..."

Despite having the first participant to receive a perfect score in this competition, the audience did not explode with excitement or cheering and remained relatively silent, most likely because they were still trying to grasp the situation.

By the time most of these spectators returned to their senses, the judges had already given their verdict and moved onto the next team.

However, the next team did not seem to be in the right mindset when it was finally their turn, and when they tried to play the zither, it sounded almost as though it was their first time touching the zither, or they'd completely forgotten how to play it.

"Zero points."

"Zero from me as well."

"Zero."

The three judges quickly gave their verdict, and for the first time in this competition, right after the first perfect score, the first lowest possible score was achieved.

And to the audiences' surprise, this continued to happen for the next few teams as well. It was almost like every participant that went after Yuan had suddenly lost their ability to play the zither.

This greatly baffled the audience, making them wonder if Yuan had purposefully screwed with the other participants, which should be considered cheating.

However, the judges didn't say anything about it, so there was nothing the audience could say. Even when someone wanted to raise their voice, they would suddenly recall Yuan's otherworldly performance, which quickly made them change their mind. After all, there was no need for someone with such talents to cheat in a competition.

An hour later, the final team received their verdict for the first part of the competition.

And by the end of the first part of the competition, over half of the participants were disqualified due to their unsatisfactory results with only a few hundred teams left.

"That is the end of the first part," Senior Zou said, and he continued, "For the second part of the competition, we will have the teams play a song together."

"Finally we get to listen to some real music!"

"I have been waiting for this!"

The audience was hyped. Although the first part of the competition was exciting in its own ways, it was too short for the audience to truly immerse themselves in the music, as it would end after three quick notes.

Sometime later, Senior Zou continued, "Since this is a partnered competition, you should've practiced with your partner. Therefore, we'll let you decide on the songs you want to play."

"You have three minutes to perform, but any of us judges can decide to cut it short if they find it displeasing to the ears."

Senior Zou then pointed to the team in the front and said, "We'll start from you. You have one minute to discuss with your partner and prepare for your song. As for the other teams, you are not allowed to talk with each other until it's your turn or you will be automatically disqualified. Begin."

Immediately, the two people in that team began talking with each other, deciding which song they should play.

Thirty seconds later, the participants took a deep breath and began playing the zither simultaneously.

A very pleasant-sounding noise flowed throughout the area and into the audiences' ears.

The majority of the audience was quickly attracted by the music and became immersed in it.

However, thirty seconds into the song, when the team made their first mistake with a single out-of-tune note, Song Ling'er's voice resounded, "That's enough."

The music immediately stopped after her words resounded, and the participants lifted their heads to look at Song Ling'er's face that had a slight frown on her beautiful face, their back and forehead soaked in cold sweats.

"This is a team competition— not a solo. You've clearly not practiced with each other enough to screw up so early into the song. You're disqualified." Song Ling'er said a moment later in a cold voice, crushing that team's hopes into pieces.

Chapter 208 - God Descends From Heaven

After the first team was disqualified, they continued onto the second team, who was shaking a little, obviously quite nervous after seeing what happened.

"Begin." Senior Zou said to them.

Fifty-five seconds later, the team began playing their music.

Luckily for this team, they'd managed to calm down enough within those fifty-five seconds to play more than half of the song without making any mistakes.

However, in the end, they made a couple of mistakes towards the end, which resulted in even more mistakes because they thought Song Ling'er was going to immediately disqualify them for a single mistake.

But to their surprise, Song Ling'er did not disqualify them right away.

Once the judgment began, Senior Zou said, "It was pretty decent at the beginning, but after your first mistake, like a ripple effect, the rest of your song became riddled with mistakes. Two points."

"I enjoyed the first half, so I'll give you three points at the very least," said Elder Jing.

Song Ling'er then said, "Zero points. You're disqualified."

The third team began playing their song a couple of moments later.

But alas, just like the first team, they were immediately disqualified by Song Ling'er after their first mistake before the thirty-second mark.

"It looks like Senior Fairy Song intends on disqualifying those who make mistakes early."

"Man, I cannot imagine what it would be like to be one of her disciples. They must be under a lot of stress with her straight and unforgiving character."

"If you want to be the very best, you have to sacrifice some things in your life..."

Half an hour and a dozen disqualified teams later, the first team to make zero mistakes during their performance finally appeared.

"Finally, someone competent." Senior Zou said, and he continued, "The performance was pretty amazing overall, your music notes were in sync, the pace was neither too fast nor too slow, and your techniques were smooth and precise. Ten points from me."

"I agree with Senior Zou. Ten points from me as well." Elder Jing said.

"Seven points." Song Ling'er said, surprising the audience with her high score.

"Who are those two?! They also received somewhat high scores from Senior Fairy Song in the last part as well!"

Some of the audience that did not recognize the team then asked the others.

"That's Zhao Jieyu and Zhao Chengjiao. They're siblings that placed 2nd and 3rd in the last competition."

"Wow! Second and third place?! Their family must be grinning from ear to ear!"

A couple of hours later, it was finally Ai Wan and Wei Kang's turn to perform once again, and the audience immediately straightened their backs

with some even leaning forward from anticipation.

"What song should we play?" Ai Wan asked Wei Kang.

"God Descends from Heaven!" Wei Kang quickly responded without hesitation.

"What?! You want to play God Descends from Heaven? That's one of the most difficult songs in existence! There's no way we can play this song without making any mistakes!" Ai Wan said to him with a look of surprise on her face.

And she continued, "We're already behind that team with Fei Yuyan and that mysterious masked person! We cannot risk losing any more points!"

"They are exactly the reason why we must take this risk! Do you think we'll defeat them without going all out? Did you not hear that masked person's three music notes? There's no way we can defeat someone like that if we don't go all out!"

Ai Wan turned silent for a moment after hearing Wei Kang's words, and then she nodded a moment later with a serious expression on her face, "You're right, Wei Kang. Our Master told us to not be complacent. If we don't take this seriously and lose first place, we'll be a laughing stock!"

"Are you ready?" Senior Zou asked them since they took a little over a minute to discuss.

"Yes, we are." Wei Kang said to him.

A few seconds later, the two of them began playing the zither, and a dozen unique music notes appeared in quick succession, dumbfounding the audience with their face-paced music.

"T-This song is God Descends from Heaven! One of the most difficult songs in this world with over ten thousand music notes, and they're going to play this in a competition?! As expected of Senior Fairy Song's disciples — they're very bold!"

"Heavens! Look at how fast they're playing the zither!"

"Legends has it that a god had descended to the Lower Heavens from the upper realms when this song was first created, hence its name!"

Meanwhile, Senior Zou and Elder Jing looked at Ai Wan and Wei Kang with surprised looks on their faces. Even they can't play the God Descends from Heaven song perfectly, yet these two are going to play it in a duet during a competition?

And as one would've expected, Ai Wan and Wei Kang made plenty of mistakes during their performance— over a hundred mistakes before the thirty-second mark, yet Song Ling'er did not disqualify them and allowed them to continue to play this seemingly impossible song.

However, they were also playing the music too quickly for most people to notice these mistakes, so only the top experts like the judges were able to discern these mistakes.

'What fast-paced, chaotic music... This is my first time hearing such a song...' Yuan glared at these two people with narrowed eyes, clearly piqued by their music.

Exactly three minutes later, Ai Wan and Wei Kang stopped playing at the exact same time with their last music note rippling throughout the place, their faces and body soaked in sweat.

Three seconds later, once the audience realized that the music had stopped, the entire place exploded with cheering that shook the atmosphere there.

Sometime later, Senior Zou said while clapping, "Even though there were many mistakes in your performance, I cannot help but still admire your courage for playing this song during a competition, even playing it to the end without any major mistakes or obvious off syncs. And this is my first time hearing the God Descends from Heaven song during a competition despite my experience. Therefore, I am going to give you ten points."

Chapter 209 - Perfectly In Sync

After Senior Zou's verdict, Elder Jing spoke, "Above and beyond— that's all I can say. Ten points from me as well."

Everybody then turned to look at Song Ling'er, who nodded her head and said, "I see that you've finally understood the situation you're in, Wei Kang."

"Yes, Master!" Wei Kang said with a serious look on his face.

"Although there were many mistakes in your performance, I do not expect anyone to play the God Descends from Heaven song perfectly, especially not in a duet. You get nine points from me."

The crowd cheered after hearing Song Ling'er's verdict. Although it was not a perfect score, neither was their performance, so it was fully justified for once.

"Thank you, Master!"

Ai Wan and Wei Kang bowed to her before sitting back down and exchanging satisfied looks with each other. Then they turned to look at Yuan, who was calmly sitting there and staring at his zither with a pondering gaze.

'What's he thinking about?' They couldn't help but wonder to themselves after seeing Yuan's bright eyes that gave them an ominous feeling for some reason.

The competition continued, and just like previously, after Ai Wan and Wei Kang's performance, the rest of the participants appeared to be lacking in their performance, causing the audience to grow bored.

Sometime later, when they finally reached Yuan's team, the audience immediately straightened their backs and widened their eyes with anticipation flickering within.

"It's them! Fairy Fei and her mysterious partner!"

"I wonder what kind of surprise they'll bring this time and how their performance will compare to Ai Wan and Wei Kang's performance!"

Meanwhile, Fei Yuyan asked Yuan, "What song should we play?"

However, almost as though he couldn't hear her, Yuan remained silent and continued staring at his zither with a dazed look on his face.

"Disciple Yuan?" Fei Yuyan called out to him again.

"Eh? I'm sorry, I was thinking about something. What did you just say?" Yuan snapped out of his daze and turned to look at her with a puzzled look on his face.

"It's our turn to perform," Fei Yuyan said with her eyebrows raised, and she continued, "What song should we play? After Senior Song's disciples' performance, it'll be hard for us to compete since we don't know any difficult songs like Gods Descending from Heaven."

Yuan then said, "Do you remember that one song we played during our practice when we stayed up all night? Let's play that song."

Fei Yuyan's eyes widened, and then she said, "A-Are you sure about that? That song... It's too unique. What if the judges don't like it? I think it'd be safer if we played one of my songs."

"It'll be fine. It may be a bit unique compared to the music you're used to, but this is a competition to see how well we can play the song as partners. Anyway, just play as we did during practice—I'll follow your pace." Yuan said to her with a smile behind his mask.

Fei Yuyan nodded with a serious look on her face, and then she turned to look at her zither.

'I cannot be a burden to Yuan...'

After taking a deep breath, Fei Yuyan moved her slender arms and began playing the zither with her fair hands.

Yuan followed Fei Yuyan's movements and played the zither at the exact time she did.

"W-What the? What kind of music is this?"

The audience was immediately taken aback by the unique-sounding music that had a theme they've never heard before.

However, not every single spectator in the audience was unfamiliar with this type of music.

"Wait a second... Why does this music sound so familiar?"

"H-Hey! That's a famous song from our world! Why do they know such a song?!"

The players in the audience were baffled once they realized that this song being played was a song from their modern world, especially the players that were among the participants there!

Unless a fellow player taught them this song, there was only one other reason why they would know this song! One of them was a player! And since most of the NPCs there knew Fei Yuyan, it could only mean that the figure wearing the black jade mask was a player!

'That person was a fellow player this entire time? My god! Why is he so good at the zither already?! Did he pick up the zither the moment he started playing this game?!'

"Just who is behind that black mask?!" The participants that were players wondered.

Meanwhile, the judges were baffled by not only the unique song but also their perfect performance that flowed smoothly and was also flawlessly in

sync.

In their eyes, it was almost as though Yuan and Fei Yuyan had become a single entity playing one song.

"T-This is..." Song Ling'er almost couldn't believe her eyes.

'Impossible! The reason they sound so perfectly in sync is not because they are used to playing together—it's because Yuan is following Fei Yuyan's rhythm flawlessly!'

Although most of the people there may not be aware of the situation, Song Ling'er knew exactly how shocking Yuan's performance was.

While Fei Yuyan only needed to play the song at her own pace, Yuan had to imitate Fei Yuyan's movements and follow her pace without making any mistakes; it was an incredibly difficult thing to do even for top experts, and only those who fully grasp their partners' skills would be able to achieve such a thing.

Of course, even Fei Yuyan herself was not aware of this, and she continued to play the zither innocently.

A few minutes later, Fei Yuyan stopped playing the zither, and the music immediately halted without any delays, almost like she was the only one who was playing the zither this entire time.

However, the audience appeared to be a little puzzled afterward.

"Is it just me or was their performance a little bit disappointing? It didn't have the same impact as their previous performance..."

"Right? Although the song was unique and very pleasant-sounding, it wasn't as exciting as I thought it'd be..."

"Compared to Ai Wan and Wei Kang, their performance is definitely lacking."

Completely oblivious to the 'real' performance behind Yuan and Fei Yuyan's show just now, the audience expressed their disappointment.

Chapter 210 - Thirteen Points

After Yuan and Fei Yuyan's performance, the judges pondered before giving their verdict.

Elder Jing turned to look at Senior Zou and Song Ling'er. Since he was the least experienced out of the three, he wanted to let the experts go first so that his judgment isn't too far off, causing him to lose face.

However, neither Senior Zou nor Song Ling'er spoke even many moments later, causing Elder Jing to raise his eyebrows.

Then he turned to look at Yuan and Fei Yuyan. After clearing his throat, Elder Jing gave his verdict first for the first time.

"This is my first time hearing such unique music, and I must say, it was definitely a positive new experience overall. The synchronization between the two of you was also fantastic. However, compared to your previous performance, especially you, young man in the black mask, it was quite lacking and a disappointment if I am being honest. I had expected much more, but alas... Seven points from me."

"..."

The audience was silent throughout Elder Jing's verdict, and nobody made any noises afterward, as they also felt that it was quite a fair assessment.

However, Senior Zou and Song Ling'er turned to look at Elder Jing with frowns on their faces.

'This guy... He also couldn't fathom their performance?' Senior Zou was speechless, but he wasn't too shocked, since he also almost missed it.

Senior Zou then turned to look at Song Ling'er, who held a frown even deeper than his own on her beautiful face, causing him to swallow nervously.

"I... I will give you ten points." Senior Zou suddenly said, dumbfounding Elder Jing and the audience.

"What? Ten points? Are you sure about your verdict, Daoist Zou? I don't mean to doubt your judgment, but how could you give them a similar score to what you gave Ai Wan and Wei Kang who was clearly superior? I hope you aren't still affected by their previous performance..." Elder Jing couldn't help but question Senior Zou's decision.

Senior Zou shook his head and said, "I'll let Senior Song explain..."

They turned to look at Song Ling'er, who spoke in a calm yet cold voice a moment later, "If you cannot fathom why Daoist Zou gave them ten points instead of a disgraceful seven points, you do not qualify to be a judge in this competition. If not for my respect for the Heaven and Earth Palace, I would have you removed from your position as judge already."

After her cold remarks, shocking Elder Jing, Song Ling'er turned to look at Fei Yuyan and Yuan.

"Once again, you have exceeded my expectations. Ten... No, thirteen points from me." Song Ling'er said, her gaze directly on Yuan's figure.

"W-What? Did Senior Fairy Song just say 'thirteen points'?"

"Unless we are all hearing things— I think she did..."

"Is it even possible to give more than ten points? And why thirteen points?"

"Maybe it's to make up for Elder Jing's seven points, making it a total of 30 points..."

"Why would she do that, though? Even Senior Zou gave them ten points. I cannot fathom their reasons for doing so."

"Perhaps there was something about their performance that only those two noticed? After all, they're the judges."

The audience went into an uproar after hearing Senior Zou and Song Ling'er's puzzling verdict.

After all, how could they give Yuan's team a perfect score when Ai Wan and Wei Kang couldn't achieve that kind of score after playing God Descends from Heaven, a song that's objectively harder to play?

"You must be wondering why I gave you such a score." Song Ling'er suddenly said as she looked at Fei Yuyan's direction who held a confused look on her face.

Upon hearing Song Ling'er's words, Fei Yuyan nodded with a dazed look on her face. While she was pretty satisfied with their performance, she didn't think it was worthy of such a high score.

Song Ling'er then said, "Your performance overall was great, but it wasn't anything too amazing, and it would be worth at most 7 points if not for the other factors."

"The other factors...?" Fei Yuyan raised her eyebrows.

Song Ling'er nodded and said, "Your partner's performance."

'Yuan's performance?'

Song Ling'er continued, "Your partner displayed a shocking level of talent and skills by following your pace flawlessly, which earned the extra points. I normally wouldn't do something like this, but I know very well that he could've performed much better if he wasn't limited by you."

"If he'd played the zither at his own level without any restrictions, the performance would've definitely turned out better. However, if he'd done that, you would not have been able to play together, simply because of the fact that the disparity between your abilities is just that vast, and this is not

a solo competition, so he sacrificed his own performance in order to match yours."

"..."

Fei Yuyan was shocked speechless after learning the real reason behind their verdict, and she turned to look at Yuan with a pained expression on her face.

"I'm sorry, Disciple Yuan... It seems like I will be a burden to you no matter what I do..." Fei Yuyan said to him a moment later with teary eyes.

"I..." Yuan didn't know what he should say in this situation since this is the first time he's been put into such an awkward situation.

"You don't have to say anything to me. I know that I cannot compare to you, nor can I catch up to you, and that's not your fault. Although I may continue to be a burden until the end of this competition, let's play to the best of our abilities, okay?" Fei Yuyan said to him after wiping her eyes and showing him a smile.

"..."

After a moment of silence, Yuan suddenly turned to look at Song Ling'er and said, "I have a suggestion, Senior Song."

"What is it?" Song Ling'er raised her eyebrows in a curious manner.

"As you'd said, I didn't perform at my best, and our performance was only above average, so we don't deserve such a high score no matter how you spin it. Therefore, allow me—by myself—to play another song to make up for the points, or at least justify it somewhat." Yuan said, surprising her and everyone there.

Chapter 211 - Temporary Buff

"You... want to play a song by yourself?" Song Ling'er raised her eyebrows.

Under normal circumstances, that would not be allowed, as this is a competition— a partnered competition. However, she really wanted to listen to Yuan play the zither seriously by himself even if it would invalidate the integrity of the competition. After all, in her eyes, he was going to win this competition regardless.

"Okay, go ahead." Song Ling'er nodded her head a moment later, surprising the audience.

"Senior Song, are you sure? This isn't part of the competition..." Elder Jing said in a nervous voice.

"Who cares? If he wants to play, let him play," Senior Zou said with a smile on his face.

"You too, Daoist Zou...?" Elder Jing was dumbfounded. Why did they want to listen to this participant play so much? It was almost as though they were subtly favoring him!

"Thank you, Seniors..." Yuan said to them before focusing on the zither.

He then closed his eyes to recall a certain face-paced song that was played only recently.

A few moments later, after taking a deep breath, Yuan began playing the zither, and his hands moved with extreme speed.

Ting~!

A very familiar-sounding song began playing, dumbfounding the audience and the judges alike.

"T-This song is—?!"

"God Descends from Heaven! He's actually playing God Descends from Heaven!"

"So he actually knows this song as well!"

Song Ling'er and the other judges watched with bulging eyes as Yuan played God Descends from Heaven flawlessly and at a pace that sounded even faster than Ai Wan and Wei Kang when they performed.

Meanwhile, Fei Yuyan stared at Yuan with a gawking expression on her face. Although nobody else there was aware, she knew that not only did Yuan start playing the zither only a week ago but he has also never heard or played the song God Descends from Heaven until today!

'He can play God Descends from Heaven after listening to it a single time...? Just how heaven-defying are his musical talents? How does his mind operate?' Fei Yuyan couldn't help but cry inwardly, feeling like this is Yuan's most shocking moment to date.

'This guy is a fucking monster! How can he play one of the most difficult songs with seemingly no effort at all?!' Wei Kang cursed inwardly as he watched Yuan's finger movements flow as smoothly as water and with precision, almost like he was a music machine or something similar.

"L-Look behind him! Am I seeing things or is there someone floating behind him?!" One of the spectators suddenly pointed at Yuan and shouted in a shocked voice.

"No, you're right! I also see it! What a beauty!"

"This must be another illusion!"

"It's almost like a goddess has descended from the heavens because of his music!"

The audience was shocked when a beautiful young lady with peerless features suddenly appeared behind Yuan halfway through the song like a spirit guardian watching over him.

"T-That's—!" Senior Zou shook uncontrollably and stood up after seeing the beautiful figure floating behind Yuan.

Although it took a moment for him to recognize her face, it was, without doubt, the Zither Goddess behind Yuan!

'W-Why am I seeing the illusion of the Zither Goddess behind him? What's the meaning of this?'

Meanwhile, Song Ling'er subconsciously placed her hands onto her chest, and she could feel her heart beating almost as fast as Yuan was playing the zither.

Exactly three minutes later, Yuan stopped playing the zither with the last music note creating a ripple that spread throughout the area and snapping everyone out of their daze.

As for the players there, a notification popped up for them.

[Your stats has been increased by 10% for 30 minutes from the effects of 'God Descending from Heaven']

To their surprise, they'd received a temporary buff after listening to Yuan's zither arts!

"Phew... What an amazing song..." Yuan took a deep breath after the song ended, feeling extremely satisfied despite making a couple of mistakes.

In fact, one of the major reasons why he suggested playing a song by himself was simply so that he could play God Descends from Heaven while it was still fresh inside his mind, even using the score as an excuse to play the song.

Yuan then turned to look at the judges and said, "I have finished. Thank you for listening to my selfish request."

The place turned dead silent, to the point where even a pin drop could be heard miles away.

Sometime later, Song Ling'er said in a somewhat shaky voice, "I... I think I have seen enough today."

"Eh? What do you mean by that, Senior Song?" Elder Jing couldn't help but ask her.

Song Ling'er then stood up and said in a loud and clear voice, "There's no need for us to continue this when the results are clear. Therefore, I am ending this competition here."

"WHAT?!"

The audience, participants, and judges alike stared at Song Ling'er with disbelief in their eyes, as they couldn't believe that she'd cut the competition short just like that!

However, if they thought about it, after witnessing Yuan's performance, it was clear who would receive first place so Song Ling'er's decision made some sense!

"S-Senior Song... T-This is a partnered competition... I don't think it'll be fair for the other participants if we end the competition because of a single outstanding participant." Elder Jing said in a nervous tone.

Song Ling'er glared at Elder Jing, but she didn't say anything. She then pointed at the participants and said, "Look at their faces. Do they look like people with the will to continue? And I don't need to sit through the entire competition to know who'll obtain what place."

Elder Jing turned to look at the participants, and sure enough, the majority of them held bitter expressions on their faces and their aura without any motivation or confidence. Even if they continued with the competition, their performances would be lackluster at best.

"W-What about the second and third place? There has to be more than one winner..." Elder Jing then said.

Song Ling'er glanced at the participants before speaking in an indifferent voice, "The rewards are too good for them! The second and third place will remain empty! If you have a problem with that, go ahead and challenge me!"

Author's Note: Since we've managed to take first place for win-win, I will be giving a five-chapter mass release later, probably sometime during the middle of the month since I am very busy now.

Chapter 212 - Player Yuans First Public Appearance

Chapter 212 - Player Yuan's First Public Appearance

The place fell into silence once again after Song Ling'er's domineering words, and the participants trembled at the thought of challenging Song Ling'er.

The participants then turned to look at Yuan who suddenly looked much bigger than previously, almost like he'd grown a few sizes. However, that was just their admiration for Yuan making it seem like he was bigger than normal.

After witnessing his god-like performance that'd seemingly summoned a goddess instead of a god, they did not feel like competing against such a monster.

Suddenly, someone within the participants stood up and approached Yuan.

The others there turned to look at this individual, who was Wei Kang.

Once he was standing before Yuan, to everybody's surprise, Wei Kang lowered his head and bowed to Yuan before speaking in a respectful voice, "Congratulations on winning the competition, Senior. You definitely deserve it even though the whole thing was somewhat abnormal and unprecedented."

"L-Look! That arrogant Wei Kang is lowering his head to someone else that isn't Senior Fairy Song!"

"I can see that for myself!"

A few moments later, Ai Wan followed Wei Kang's footsteps and also bowed to Yuan in a respectful manner.

"Hello, Senior. I am Ai Wan, and I would like to thank you for opening my eyes today. This may sound a little disrespectful to my master, but you have broadened my views with your zither arts. Hopefully, we can play the zither together in the future."

Yuan nodded at them and said, "Thank you. If there's ever a chance, let's play the zither together."

Sometime later, Song Ling'er asked the other two judges, "Do you have anything else to say? If you are not satisfied with the results, we can talk about it."

Senior Zou quickly shook his head and said, "No, there's no need. I already knew the results of this competition the moment he played the Soul Ensnaring Zither before my very eyes, and if I was as daring as you, Senior Song, I would've also ended the competition early."

"What about you, Elder Jing? Do you have something else to add?" Senior Zou then asked Elder Jing, who quickly shook his head.

"Do whatever you want. I am only here because my sect is sponsoring the competition. Otherwise, I wouldn't even be here." Elder Jing shrugged.

"Then it's decided."

They turned to look at Song Ling'er, who nodded.

A few moments later, Song Ling'er turned to look at Yuan and Fei Yuyan and spoke in a loud voice that resounded clearly, "This concludes the zither competition! Congratulations to the winners, Fei Yuyan and 'Yuan' from the Dragon Essence Temple, for achieving first place in this competition!"

"W-What did she just say?"

"Huh? Did I just hear 'Yuan'?"

The players there stared at the figure wearing the black jade mask with shocked looks on their faces.

Literally, three seconds later, a large notification appears directly above the competition, confirming the players' doubt.

[Congratulations to the participants that have attained the top three for this event!]

[First Place: Player Yuan]

[Second Place: N/A]

[Third Place: N/A]

[Player Yuan's brilliant performance that mesmerized millions of spectators as well as the judges with his zither arts has achieved first place and will be given a special reward for his achievements!]

In front of Yuan, a couple of notifications appeared.

[Due to your performance in the zither competition, you have gained a massive amount of fame!]

[Fame +1,000]

[You have gained the title 'Zither Prodigy' for obtaining first place in the zither competition]

[Because of your title 'Zither Prodigy', spiritual music played from a zither will have an enhanced effect, increasing its buff strength by 50%!]

"What?! He's really Player Yuan! The currently leading player who's rumored to be a cheater!"

"Impossible! I thought he was a little girl! I knew I couldn't have trusted those bullshit rumors!"

"So that's Player Yuan! He's somehow exactly as I imagined! Mysterious and all!"

The Players were excited to see this infamous Player Yuan for the first time with their very eyes, as there have been only speculations about his existence this entire time. In fact, some of them even believed that Yuan was created by the creators of this game to fool the players!

"Does this mean he's really a Player and not some NPC created by the creators? Heavens! I can see the forums exploding once they find out about this!"

"They said he's from the Dragon Essence Temple, right? This is huge news! Maybe we'll even get to speak with him soon!"

Meanwhile, the players within the participants felt an urge to approach Yuan and speak with him, perhaps even shake his hands, but alas, Song Ling'er had just left the judges' platform and stood before Yuan, preventing anybody from approaching them with her immense aura.

"Follow me so I can distribute your rewards for your achievements," Song Ling'er said to them.

Fei Yuyan and Yuan nodded, and they followed Song Ling'er into the building, leaving everyone else behind.

Once Yuan left the area, the players there immediately began logging out of the game and jumping straight into the forums for Cultivation Online, spamming the place with new threads.

[Breaking News! Player Yuan has appeared in the zither competition!]

[Shocking new information about Player Yuan has surfaced!]

[Player Yuan is currently a disciple at the Dragon Essence Temple!]

The online forums were bombarded with new threads regarding Yuan, and the forums quickly flared with excitement from this new information.

The news traveled so fast that Yu Rou, who was still at school, was already hearing about it.

"Did you hear?! They say Player Yuan has appeared in the zither competition that a couple of our students had participated in! This is his first public appearance ever!"

"What! Really?! What did he look like?!"

"He was wearing a mask so they couldn't see his face properly, but he was a tall and slender man!"

"So he wasn't a little girl? I was right to not listen to the previous rumors regarding his gender!"

"Anyway, this is huge news! I'm sure there will be a lot of people visiting the Dragon Essence Temple now that they know his whereabouts!"

Chapter 213 - Zither Competition Rewards

'They're talking about Brother Tian?' Yu Rou listened to the conversation between her classmates without turning to look at them, as she didn't want to make it seem like she was interested.

However, Meixiu was a different case, and she listened to the conversation while looking at them with a pondering look on her face.

'Player Yuan... first place? If I remember correctly, the Young Master is also participating in a music competition inside the game...' Meixiu thought to herself.

As someone who has been with the sibling for her entire life, she knew very well the extent of Yu Tian's talents, and she found it hard to believe that someone other than Yu Tian would achieve first place in a music competition. In fact, Yu Tian has never received anything lower than first place, so it was always expected that he would achieve first place no matter what kind of competition he participated in.

'Perhaps the Young Master is participating in a different competition? After all, I heard the world in Cultivation Online is countless times larger than our own world.'

"Sister Rou!"

Someone suddenly approached Yu Rou from behind and called out to her.

Yu Rou turned around to see an innocent-looking young lady with long wavy brown hair, a slim figure, and two large meat buns on her chest

standing behind her.

"Xia Jingyi," Yu Rou smiled at her.

"It's time for lunch, Sister Rou. Let's go eat."

"Okay." Yu Rou nodded and stood up from her seat before following this pretty young lady outside.

On her way outside, the other classmates in the room watched her leave without turning their heads, their gazes filled with admiration and respect.

Once they were outside the classroom, Yu Rou and Xia Jingyi went to sit at a clean table somewhere in the large courtyard in the middle of the school.

"Here's your lunch, Young Lady." Meixiu placed a large and luxurious-looking lunchbox on the table.

"Thank you, Meixiu. You can also take a seat and eat with us," Yu Rou said to her.

However, Meixiu shook her head and said, "I'm afraid I cannot act so familiar with the Young Lady at school..."

Yu Rou sighed, "Do whatever you want..."

After eating their lunch quickly but elegantly, Xia Jingyi said, "Sister Rou, I'm sure you've heard by now— about Player Yuan! He's made another appearance! A public one this time!"

A smile appeared on Yu Rou's face, and she said, "Of course. After all, everyone else in my class was talking about it. I would hear about it even if I didn't want to."

"I almost couldn't believe it when I heard it! To think Player Yuan is also a musical genius! It's almost like there's nothing in this world that he cannot do!" Xia Jingyi said in an excited voice, her admiration for Player Yuan as clear as day.

"You really admire this Player Yuan, huh?" Yu Rou said with a somewhat mysterious smile on her face.

Even though Xia Jingyi is her best friend for many years and someone she trusts fully, she never thought about revealing Yuan's real identity to her.

"Of course! Everything about his existence intrigues me! Aren't you also curious about his background? His real identity!" Xia Jingyi said to her.

"Well... I was..." Yu Rou said in a somewhat awkward voice.

"Past tense? What's that supposed to mean? Did you lose interest?" Xia Jingyi looked at her with raised eyebrows.

"Something like that." Yu Rou nodded.

And she continued, "What are you going to do if you learn his identity, anyway?"

"I don't know, but I'll probably ask him to be my friend or something."

"Your friend...?" Yu Rou couldn't help but chuckle at her words.

"Anyway, are you ready to play Cultivation Online with me this weekend? I will be playing the game for the first time tonight." Xia Jingyi asked her.

Yu Rou nodded and said, "Just let me know where you start and I'll see if we can play together."

"Okay! I'll let you know tomorrow!" Xia Jingyi said.

Sometime later, they returned to their classrooms to continue with their school day.

Meanwhile, inside the game, Yuan followed Song Ling'er to this small room somewhere inside the building.

"Since you've achieved first place and there is no second or third place, I'll give you the rewards for first place as well as second place," said Song

Ling'er as she retrieved the treasures and placed them onto the table.

Fei Yuyan stared at the Divine-grade Zither and Divine-rank Zither Arts with a dazed look on her face, as this is her first time being so close to something so precious.

'Wow... So this is what a Divine-grade treasure looks like...'

However, Fei Yuyan quickly shook her head, and then she turned to look at Yuan and said, "Go ahead, Disciple Yuan. You can take the rewards for the first place and I'll settle with the second place rewards. After all, you are the only reason we've made it this far, and I am not shameless enough to ask for something so precious when I know that I don't deserve it."

"Are you sure? We entered this competition as a team, so regardless of our contribution, we should share the rewards." Yuan said to her.

"Disciple Yuan..." A sweet smile appeared on Fei Yuyan's face, but she insisted that he accept the treasure.

"I know that you're trying to make me feel better but don't— you'll actually make me feel worse and filled with guilt if I accepted the first place rewards."

"Hmmm..."

Yuan remained silent for a moment to ponder.

A few moments later, he said, "How about this? I'll take the Divine-grade Zither, and I'll also take the Divine-rank Zither Arts. However, I'll only keep the Divine-rank Zither Arts until I learn the technique, and I'll give it to you right after I am done with it so that you can use it as well. It'll only be a few days at most."

"A few days at most... But this is a Divine-rank technique we're talking about..." Fei Yuyan and Song Ling'er stared at Yuan with wide eyes filled with disbelief.

Chapter 214 - End Of The Zither Competition

"Y-You don't have to give yourself a deadline, Disciple Yuan. You can give it to me whenever you are finished with it. There's no need to rush it. I highly doubt anybody can learn a Divine-rank technique in just a few days. Zither Arts may not be as complicated as some cultivation techniques, but it's still a Divine-rank technique nevertheless." Fei Yuyan said to Yuan after hearing his words that sounded like bragging.

"Okay." Yuan didn't argue with Fei Yuyan and nodded his head before tossing the Divine-grade Zither and the Divine-rank Zither Arts into his spatial ring.

[Congratulations! You have obtained a Divine-grade treasure!]

[Congratulations! You have obtained a Divine-rank technique!]

After accepting the rewards, a notification appeared in the sky for all of the players to see.

[Player Yuan has obtained a Divine-grade treasure!]

[Player Yuan has become the first Player to have obtained a Divine-grade treasure!]

Once both Yuan and Fei Yuyan stored away their treasures, Song Ling'er said to them, "Now that I've given you one of the rewards, let's continue onto the second reward."

"Eh? There are more rewards?" Fei Yuyan looked at Song Ling'er with wide eyes.

Song Ling'er nodded her head and said, "Did you already forget what I said at the beginning of the competition? That I would accept the first place as my disciples?"

"Y-You mean... You want to accept us as your own disciples? You weren't joking about that?" Fei Yuyan's jaw dropped to the ground. After all, she could've never imagined that she would one day have the opportunity to become the famous Song Ling'er's disciple!

"Why would I joke about something like that before so many people?" Song Ling'er responded with a serious look on her face.

"Though to tell you the truth, I originally only wanted to accept Yuan as my disciple, but after seeing your talents that could compete even with my current disciples, I have decided to also make you my disciple." Song Ling'er said to Fei Yuyan, not hiding her true intentions.

"But we're still disciples of the Dragon Essence Temple... We cannot just accept someone from another sect as our Master, especially me, since I am already a Core Disciple." Fei Yuyan said to her, mostly as an excuse.

"It'll be fine. What I will be teaching you will not interfere with the Dragon Essence Temple's teachings, and I will even speak to your Sect Master about this. Furthermore, it's not impossible to accept a master from another sect since that has happened many times in the past."

Song Ling'er then turned to Yuan and continued, "I know you don't want to leave the Dragon Essence Temple so I'll allow you to stay at the Dragon Essence Temple while being my disciple at the same time. This way, you won't have to leave your sect while being able to study under me at the same time."

However, Yuan said, "I appreciate your considerations, Senior Song, but I really don't intend on focusing on the zither too much. After all, I am already studying the sword and the dagger."

"You're what?"

Both Fei Yuyan and Song Ling'er stared at him with wide eyes again.

Seeing their expressions that were filled with disbelief, Yuan decided to retrieve the Empyrean Overlord and the Starry Abyss to prove to them that he indeed practiced with swords and daggers.

"See? I am playing the zither mostly as a hobby, and I do not intend on focusing too much on it."

"T-That's ridiculous! How can you toss away such a heaven-sent talent like this! I won't allow it!" Song Ling'er said with a frown on her face, clearly unwilling to see someone as talented as Yuan letting his talent go to waste.

And before Yuan could even respond, Fei Yuyan spoke, "I have to agree with Senior Song here, Disciple Yuan. You have the capabilities to become one of the greatest zither experts in the world. Why would you not focus on this path instead? Can you at least give us your reason?"

A bitter smile appeared on Yuan's face, and he proceeded to tell them a little about his past when he was still active as a musician and how his parents would force him to play, working him like a machine.

"Although I like music— even love— I simply cannot find myself focusing on music like it's the only thing in my life, as I have already found other things in life that I am interested in. The sword and the dagger are only some of many examples."

"Perhaps I might return to that path in the future, but for now, while I still can, I want to enjoy everything else this world has to offer."

"..."

Song Ling'er and Fei Yuyan remained speechless for a few moments after hearing Yuan's background.

"Fine... If you don't want to focus on this path then I won't force you, since that'll only do more negative than positive. However, that doesn't mean I have given up on you because I haven't, and I will never abandon someone

as talented as you, Yuan. Mark my words— I'll make you serious about music again even if it's the last thing I do!"

After saying that, Song Ling'er turned around and walked out of the room.

And just as Yuan and Fei Yuyan prepared to leave the room as well, Elder Shan and Elder Xuan appeared before them with Min Li and Xuan Wuhan behind them.

"Congratulations on achieving first place, Disciple Yuan, Disciple Fei! The Dragon Essence Temple will definitely reward you for your contribution!" Elder Xuan said to them with a wide smile on his face.

"Did Senior Song do anything weird to you, Disciple Yuan?" Elder Shan began patting Yuan all over his body like she was looking for injuries.

"I-I am fine..." Yuan said in a slightly dazed voice.

"Congratulations, Yuan! We'll have to celebrate this occasion when we return to the sect!" Xuan Wuhan said to him.

"Congratulations, Disciple Yuan." Min Li said afterward.

"Thank you all." Yuan nodded with a bright smile on his face, feeling relieved that he did not disappoint anyone.

Chapter 215 - Group Call

After the zither competition ended, Yuan and the others returned to the Royal Blossom Hotel for a moment before checking out of the hotel and making their way back to the Dragon Essence Temple on the sect elders' flying treasures.

Meanwhile, in the real world, many powerful and influential individuals from over a dozen different families from across the world gathered online in a group call.

"We have to do something about this Player Yuan! He's tearing the Legacy Families' reputation to shreds! Every single time his name appears on the announcement, it's a slap to our faces! Even worse, we still don't know his identity!" One of the voices said in a serious voice.

"What do you suggest we do then? We don't know this player's identity, nor does it seem like he wants our money," said another voice.

"No logical being would refuse status and money unless they already have these..." Another person in the group call voiced his opinions.

"Then what can we do? We cannot allow this Player Yuan to continue dominating the game! Cultivation Online has become the most successful and fastest-growing game the world's ever seen before, and it will only continue to grow as more people realize its potential! We cannot allow a single person to monopolize it!"

"Since we cannot contact him from the outside, we can only try to contact him from the inside, right? I heard Player Yuan had appeared in public for the first time day in a music competition, even obtaining a Divine-grade treasure and a Divine-rank technique from it."

"What! Is that true?!"

"Yes, and according to the people that were at this competition, Player Yuan is a disciple at the Dragon Essence Temple in the Eastern Continent."

"Eastern Continent, huh? I have some people from my family in the Eastern Continent who can approach him, but my top player is currently in the Southern Continent so he won't make it," said a new voice that belonged to a female.

"I also have a couple of players in the Eastern Continent that can try to contact Player Yuan," said another voice.

"No disrespect to your families or players, but I wouldn't suggest sending just any players to approach Player Yuan. After all, what if he sees it as a sign of disrespect— that we're underestimating or undervaluing him."

"I agree with Mister Jason. If possible, we should have our top players approach him so that he can feel more comfortable and valued."

"Who here have their top players in the Eastern Continent?"

"What about White Lotus? She's a top player and currently at the Eastern Continent, right?"

"Yes, but she's currently busy in her own sect. I don't think she'll have the time to travel all the way to the Dragon Essence Temple to find him, especially when there's a really important event coming up in the upcoming weeks."

"The Lightning Emperor is also busy with his own sect, so we cannot ask him to meet Player Yuan."

"Most of the top players are all too busy grinding their own strength so they don't fall behind Player Yuan too much. There's nothing we can do."

"Speaking of this upcoming event, what was it called again? Mystic Realm?"

"Yeah, I heard it's one of the biggest events in the Lower Heavens and every top player is aiming for it."

"Does this mean Player Yuan will also be participating in this event? If that's the case, we can simply wait until the top players meet him during this event. It's less than a month away, anyway."

"While I prefer that we contact him sooner than later, if there are no top players that can meet him now, we can only wait until the Mystic Realm. I don't want to risk offending this Player Yuan."

"Furthermore, he must know some secrets about the game that's allowed him to progress so insanely fast. He might even have relationships with the creators of this game that nobody knows about. If we can learn some of these secrets, our own players will also be able to progress as fast if not even faster than him!"

"What about the other families? They will surely do everything in their power to contact him."

"So what? Even if they go to the Dragon Essence Temple, they still need to find Player Yuan amongst the thousands of people there."

"I suggest we send some of our players to the Dragon Essence Temple to investigate. After all, we also don't know his identity. It'll be like finding a needle in a haystack."

"There's no way someone like Player Yuan would be able to hide his identity perfectly. Even if he tries, he's simply too unique."

"Then it's settled. All of us will send some players to the Dragon Essence Temple to investigate. In fact, see if there are any players from our alliance that are already a disciple there. If you receive any new information regarding Player Yuan, notify the rest of us immediately."

The group call ended shortly later, and the people that were in the call began preparing for their investigation in Player Yuan.

In fact, these people were not the only ones in a meeting on this day, as similar conversations between other families had occurred after the zither competition, all planning to approach the Dragon Essence Temple to learn more about this mysterious Player Yuan.

"Welcome back, all of you. I'm relieved to see that all of you have managed to return in one piece." Long Yijun said to Yuan and the others after they returned to the Dragon Essence Temple.

"I have already heard about what happened at the zither competition so you can spare the explanation. Disciple Yuan, Disciple Fei, your achievements have greatly boosted the Dragon Essence Temple's reputation, and for your contribution, the sect will definitely award you appropriately. For now, go home and get some rest. We'll find you once we are prepared to hand the rewards out."

"Thank you, Sect Master!" Fei Yuyan bowed to him, and Yuan followed.

Sometime later, they left the place, leaving Elder Xuan and Elder Shan behind with Long Yijun.

Chapter 216 - Returning To The Dragon Pavilion

Once Yuan and the other disciples left the place, Long Yijun turned to look at Elder Shan and Elder Xuan with a serious expression on his face.

"Tell me everything that has happened," he said to them with a listening look on his face.

Elder Xuan nodded and said, "Allow me to explain first."

He then proceeded to explain everything that had happened during their time outside the sect, leaving almost no detail out, such as Elder Shan's scandalous behavior.

"I see..."

Long Yijun turned to look at Elder Shan and asked, "Do you have anything to add."

"Only one thing," she quickly responded before continuing, "I am certain that there's a Spirit Grandmaster watching over Disciple Yuan in the shadows."

"What!"

Both Long Yijun and Elder Xuan looked at her with wide eyes.

"Tell me more!" Long Yijun said in a somewhat demanding tone.

Elder Shan nodded and explained her encounter with Xiao Hua's voice that occurred when she got too clingy to Yuan.

"Qi manifestation... Indeed, only Spirit Grandmasters would be able to achieve such a feat..." Long Yijun pondered with a serious look on his face.

Even as a peak Spirit Master, he could barely use qi manifestation, much less make it stiff enough to hit someone with it.

"If this is really the case, we won't have to worry too much about Disciple Yuan's safety. However, we can't let our guard down even after learning this information. After all, we want to show this Spirit Grandmaster that we truly care about Disciple Yuan and his well-being."

"I agree." Elder Xuan nodded.

"Good, now let's talk about their rewards. How should the sect award them for their contribution? I think they deserve more than just some contribution points," Long Yijun said.

"How about we let them cultivate at the Dragon's Peak?" Elder Xuan suddenly suggested.

"The Dragon's Peak? That's very generous of you..." Elder Shan looked at him with wide eyes.

"Can I hear your reason for this, Elder Xuan?" Long Yijun did not refuse and asked for his reason instead.

"Simple. Disciple Yuan. I wouldn't have even thought about it if not for Disciple Yuan. However, with his talents, he'll definitely benefit greatly from the Dragon's Peak. Perhaps he'll even feel indebted to us afterward." Elder Xuan said.

"Hmmm..." Long Yijun closed his eyes to ponder.

A few moments later, he opened his eyes again and mumbled, "I'd originally planned on letting him enter the Dragon's Peak after the Mystic Realm and before the Dragon Temple, but if I let him go there before the event, it'll definitely increase our chances of obtaining a higher rank."

"The other Core Disciples won't be happy once they learn of this, especially since Disciple Yuan is still an Outer Court disciple." Elder Shan suddenly said.

"Hmmm... Good point. The Mystic Realm is only two weeks away, and I don't intend on having Disciple Yuan participate as an Outer Court disciple. Although this is a little bit earlier than scheduled, let's have Disciple Yuan take the Inner Court disciple examination next week." Long Yijun said.

Sometime later, Elder Xuan asked, "What about the matter with the Carp Leaping Over Dragon's Gate Tower? Have the participating sects sent their disciples yet?"

Long Yijun then said, "I was just about to talk about this. Yes, they have already sent their disciples here. We are waiting on just a couple more people to arrive before we begin, and they are expected to arrive tomorrow."

"I see..."

At the same time, after leaving the Sect Master's headquarters, Yuan returned to his own home with the others still following him.

"We should celebrate your victory at the Dragon Pavilion," Xuan Wuhan suddenly suggested to them.

"That's a great idea. The treat will be on me." Fei Yuyan nodded.

And then she continued, "Of course, I am only treating Disciple Yuan. The two of you can pay for your own food."

"How stingy," Xuan Wuhan snorted.

"Why should I spend my precious contribution points on you who did nothing for me other than giving me headaches? What did you do to deserve it?" Fei Yuyan sneered back without hesitation.

Sometime later, Yuan and the others made their way to the Dragon Pavilion.

The people there were ecstatic when they saw Fei Yuyan's pretty face at the Dragon Pavilion because they thought that she had finally decided to practice there again.

"Welcome back, Senior apprentice-sister Fei! The stage has been lonely without you lately. Thankfully, you're finally back." One of the workers there quickly approached them.

"Senior apprentice-sister Xuan and senior apprentice-sister Min as well—welcome to the Dragon Pavilion."

"I'm sorry, but I did not come here today to play the zither. I'm here to eat. Give me your best table," Fei Yuyan said to the disciple who ignored Yuan because he didn't think Yuan was with them at first.

"Oh... Is that so..." The disciple showed a disappointed look on his face after learning that Fei Yuyan was only there to eat.

"Anyway, please follow me."

Fei Yuyan and the others proceeded to follow him.

However, the disciple frowned when he noticed that Yuan was also following behind them, and he said in a somewhat cold voice, "Excuse me, Outer Court disciple. Unless you're with these seniors, please wait outside."

Yuan raised his eyebrows slightly, and he said, "I am with them."

"Eh?"

The disciple turned to look at the three beauties who now held a small frown on their faces, and it was at this moment that the disciple realized that he'd fucked up big time.

"I-I deeply apologize for the misunderstanding!" The disciple bowed to Yuan.

"Just bring us to our table." Fei Yuyan said.

"R-Right away!"

The disciple turned around and led them to their table shortly later.

"Please take your time looking at the menu, seniors. I have another table to attend to so I'll go look for a replacement now..."

The disciple then scurried away without returning, almost like he didn't dare to continue being around them after his mistake, and he went to find another worker there to serve them.

A few minutes later, a disciple with a familiar face, Chu Bo, who had served Yuan previously, appeared before them to take their orders.

Chapter 217 - An Expensive Meal

"Welcome back to the Dragon Pavilion, senior disciples," Chu Bo greeted Yuan and the others the moment he'd arrived before looking at Yuan with admiration in his gaze.

After all, this is his first time seeing someone with so many top beauties at once, and they were even prominent beauties within the sect. One can only imagine how many people would be envious of Yuan's situation right now, as he had a beauty sitting close to him in almost every direction.

"Have you decided on what you'd like to eat?" Chu Bo asked them after his greeting.

Yuan nodded and spoke without even a shred of hesitation within his voice, "I want everything on the menu like last time."

"..."

Everybody there beside Chu Bo looked at Yuan with surprised expressions on their faces, almost like they couldn't believe what they'd just heard.

"I understand. What about the Senior Fairies? What would you like to eat today?" Chu Bo proceeded to ask the others, dumbfounding them even more.

Yuan had already ordered everything that was on the menu, why did he feel the need to ask them what they wanted to eat? It was almost as if he expected Yuan to eat all of the food he'd ordered by himself, which didn't sound very possible.

Seeing these beauty staring at him with questionable gazes, Chu Bo responded with a somewhat stiff smile on his face, "Senior apprentice-

brother Yuan has a big appetite, and he finished everything on the menu by himself the last time he was here, so I assumed that he'd be doing the same this time..."

"What? Is that true?" They turned to look at Yuan who quickly nodded his head without any shame on his face.

"Heavens... even my contribution points would be in danger if we come to the Dragon Pavilion more than once a month..." Fei Yuyan spoke in a joking voice.

"Anyways, since that's the case, I'll have..."

Fei Yuyan ordered her food next, followed by Xuan Wuhan and Min Li.

"Thank you. I shall notify the cooks right now," Chu Bo bowed to them before leaving the place.

Once they were alone again, Fei Yuyan turned to look at Yuan and said, "Not only did we win this zither competition, I'd even improved my own zither arts greatly, and this is all thanks to you, Disciple Yuan. This isn't much, but I'd like to thank you properly..."

She then reached into her robes before retrieving her disciple identification badge.

"Let me see yours."

Yuan didn't think much about it and retrieved his bronze disciple identification badge.

Fei Yuyan placed her own directly before Yuan's badge, and a few seconds later, she transferred some of her own contribution points to him.

[You have received 1,000 contribution points from Fei Yuyan]

"Are you sure? You really don't need to... I didn't join the competition because I wanted a reward from you," Yuan said to her.

"It's okay, really. It's the only thing I can do for you now, and I don't know how else I can express my gratitude," she responded.

Yuan nodded and accepted the contribution points.

'I should check out the place where I can use my contribution later and see what I can buy with my points...' Yuan thought to himself as he put away his badge.

A few moments later, Yuan suddenly retrieved the Soul Ensnaring Zither and said, "Why don't I play a few songs while we wait for our food?"

"That sounds great!" Xuan Wuhan immediately nodded.

After taking a deep breath, Yuan began playing the zither. However, he didn't play anything too extravagant. With that being said, even though he wasn't playing seriously, it was good enough to fool every disciple in the Dragon Pavilion, making them believe that it was Fei Yuyan who was playing.

Meanwhile, the three beauties sitting around him stared at him without blinking, looking like they'd been mesmerized by his performance.

Sometime later, once the food began arriving at the table, Yuan stored the zither and began eating his food, quickly shocking the ladies.

'How can so much food fit inside such a small body?' They couldn't help but ask themselves.

'He's really talented in everything he does... even eating...'

Sometime later, Yuan sighed in a satisfied manner, "That was a great meal."

"I can't believe it... You really finished every single plate..." Xuan Wuhan mumbled in a dazed voice, and she continued, "This makes me somewhat worried about that time you had dinner at my house... It was probably only enough to fill the gaps between your teeth..."

"What? Disciple Yuan had dinner at your house?" Fei Yuyan turned to look at her with wide eyes, surprised by her sudden reveal.

"That's right. We had dinner with my father there as well." Xuan Wuhan said with a somewhat smug look on her face.

"..."

Fei Yuyan was speechless.

"Anyway, here's my badge for the bill. This is my treat." Fei Yuyan then handed Chu Bo her badge.

"Eh? Does that include us? Even though you'd already said that you wouldn't treat us?" Xuan Wuhan asked her.

Fei Yuyan glanced at her and said, "I will gladly change my mind and make you pay for it if that's what I am understanding from your words."

Xuan Wuhan immediately turned around and began whistling. Although she has plenty of contribution points as well, she'd rather not use them if she didn't have to, as she was saving them up for a new cultivation technique.

"Thank you, Senior apprentice-sister Fei." Chu Bo said as he subtracted the bill from her contribution points.

'200 contribution points gone just like that...' Fei Yuyan's eyebrows uncontrollably twitched after seeing the devastation Yuan had caused to her wallet. For an ordinary disciple, it would take months, even years to collect 200 contribution points, yet she'd spent the same amount for a single meal, not to mention the 1,000 contribution points she'd given to Yuan beforehand.

Spending 1,200 contribution points in a single day, unless somebody went on a shopping spree in the Exchange Hall and bought every expensive treasure their gaze landed on, was an unthinkable act that would cause many disciples to physically cry.

Chapter 218 - Heaven Severing Zither Arts

After leaving the Dragon Pavilion, Xuan Wuhan and Fei Yuyan said their farewells to Yuan and Min Li.

"I have to get back to training, so I'll find another time to chat with you, Yuan. It has been a wonderful experience these past few days," Xuan Wuhan said to him.

"Now that the zither competition is over, I also have to return to my regular training schedule. Once again, thank you for everything, Disciple Yuan. I'll see you later," Fei Yuyan bowed to him before leaving.

"What are you going to do now that the competition is over?" Min Li asked him as they walked back to their houses together.

"I'll spend some time on the technique I'd gotten from the competition, and then I'll probably go to the place where I can spend some of my contribution points," said Yuan.

"The Exchange Hall? What are you trying to buy?"

"I don't know yet. Do you want to come as well?" Yuan asked her, as he was used to having her follow him around.

"N-No... I have already spent enough time without a sword in my hands. Just like the other two, I must get back to my training, or else I'll get scolded by my family when I show no improvements," she sighed.

"I see... I'll see you around, Disciple Min," Yuan said to her before entering his building.

After returning to his room, Yuan retrieved the Divine-grade treasure and the Divine-rank technique to inspect it.

[Frozen Jade Zither]

[Grade: Divine]

[Quality: Low]

[Mental Strength Requirement: 35,000]

[Soul Strength Requirement: 50,000]

[Description: Can create music notes that will freeze one's heart and soul]

"Heaven Severing Zither Arts... A single music note can split the heavens in half..."

"Xiao Hua, I know Divine-grade treasures cannot be used by those with insufficient cultivation, but does that apply to even instruments? I cannot imagine exploding to death because I pulled one of its strings," Yuan said out loud.

"No, Brother Yuan can play it, but you won't be able to utilize its full potential," Xiao Hua's voice resounded, and she continued, "It'll just be like playing an ordinary zither without injecting your spiritual energy into it."

"One can also wield a Divine-grade sword as a mortal, but without the cultivation to use it properly, the Divine-grade sword will only function as though it's an ordinary sword that's sharper and more durable than usual."

"I see... So I can still use this zither to play music normally, but I won't be able to produce special effects that can only be done when using spiritual energy. I think I get the gist of treasures in general." Yuan nodded as he pulled one of the strings on the Frozen Jade Zither.

A beautiful music note resounded in the room.

"Hmmm... It's pretty good sounding, but I still prefer the Soul Ensnaring Zither," he mumbled after the noise calmed.

After putting away the Frozen Jade Zither, Yuan turned his attention to the Divine-rank technique 'Heaven Severing Zither Arts' and began reading through it.

"What an interesting technique..."

Yuan mumbled to himself after reading through the entire content once. After pondering for a few minutes, he returned to the first page to reread it once again.

An hour later, a notification appeared before Yuan as he was absorbed in the technique.

[You have learned 'Heaven Severing Zither Artz']

[Heaven Severing Zither Arts]

[Rank: Divine]

[Description: A single music note to sever the heavens!]

"Hmm... This technique was much simpler than I'd anticipated, and I managed to learn it in an hour. Guess I can give this technique to Fei Yuyan tomorrow when I check out the Exchange Hall."

With that in mind, Yuan logged off for the day and cultivated in the real world while waiting for Yu Rou's return.

"Welcome back, Yu Rou," Yuan said out loud after hearing her footsteps entering his room.

"I'm back, brother! And congratulations! I heard that you'd achieved first place in the zither competition! Of course, I had already expected this outcome since it's a given that you would come first in a music competition, but still, congratulations!" Yu Rou said to him in a cheerful voice.

"Thank you, Yu Rou."

"I wish I was there to witness it... But alas... School... Haaa..." Yu Rou sighed.

"Don't worry, I'll play the zither for you the next time we meet," said Yuan.

"It won't be the same since you're not competing against others..."

"To be honest, it wasn't much of a competition since it was very different from what I'm used to."

Yuan spoke with Yu Rou for about half an hour, telling her everything he'd experienced at the competition before Yu Rou left the room and Yuan went to cultivate for the rest of the night.

Once morning came and Yu Rou finished her morning routine, Yuan dived back into Cultivation Online and left his house early in the morning to head to Fei Yuyan's house so he could give her the Divine-grade technique.

However, halfway there, Yuan suddenly stopped walking, as he'd realized that he no longer had the permission to enter the Inner Court, prohibiting him from even getting close to Fei Yuyan's living quarters, much less meet her.

'Looks like I'll have to find another way to meet her,' he thought to himself.

'For now, let's head to the Exchange Hall to see what kind of things they have there.'

Thus, Yuan turned around and began making his way towards the Exchange Hall after taking a moment to recall the map of the sect.

On his way to the Exchange Hall, Yuan passed the Practice Grounds, where hundreds of disciples were already awake and training. Of course, Min Li was also there, practicing her sword techniques on the training puppets and being watched by the other disciples, their gazes filled with admiration for Min Li.

Yuan stopped to watch Min Li practice for a few minutes before he continued walking again.

Half an hour later, he stood before a tall and large pagoda that had 3 floors, and directly above its entrance was a grand sign that read 'Exchange Hall'.

Chapter 219 - Exchange Hall

"So this is the Exchange Hall, huh?" Yuan stared at the entrance with a pondering gaze.

The Exchange Hall is where disciples go to spend their hard-earned contributions points, and unlike the Profound Pavilion that only has cultivation techniques, the Exchange Hall has everything else from treasures to cultivation resources.

"Hey! Why are you standing there and blocking the entrance? If you're not going to enter, scram!"

A tall and bulky disciple suddenly walked up from behind and forcefully bumped into Yuan's shoulder, snapping him out of his admiration for the building.

Yuan frowned at this. He was standing many meters away from the entrance and was nowhere near it, so how could he be blocking the entrance.

"What? Do you have a problem?" The bulky disciple that rudely bumped into Yuan stopped walking when he noticed the displeased look on Yuan's handsome face, feeling even more irritated at Yuan because of his own lacking appearance.

This small commotion quickly attracted the disciples in that area.

"Look! Someone had offended Senior apprentice-disciple Tiger, the Mad Tiger!"

"What's this about? Why would an Outer Court disciple offend him? Does he not know who he's dealing with?"

"I don't know, but only an idiot would dare to offend one of the top ten disciples in the Outer Court! And this is Mad Tiger we're talking about! He's infamous for beating anyone that bothers him even slightly!"

While the disciples there watched the commotion from a distance and laughed at Yuan's misfortune, the bulky disciple who is known as 'Mad Tiger' approached Yuan in an aggressive manner.

Disciple Tiger stopped once he stood directly before Yuan and stared at Yuan in the eyes, and he said in an overbearing voice, "Since you don't seem to recognize me, I'll assume that you're a new disciple and give you some slack. I am Wu Laohu, ranked 3rd in the Outer Court ranking! Now that you know my identity, you can either kiss the ground with your forehead and apologize for blocking my way or eat one of my fists— you decide."

However, Yuan stood his ground despite the menacing aura coming from Disciple Tiger's large body that resembled a boulder, and he said in a calm voice, "I will choose neither. You were the one who bumped into me. If somebody has to apologize, it should be you."

"Heavens! He actually dared to defy Mad Tiger even after he had introduced himself! This Outer Court disciple is simply courting death!"

"Looks like another victim will fall to the Mad Tiger today..."

Wu Laohu's body trembled after hearing Yuan's words that defied him, and veins began appearing all over his body.

"Since you cannot pick— I shall pick one for you!" Wu Laohu suddenly raised his fists with an explosive aura.

However, just as Wu Laohu prepared to release his punch, a figure appeared behind him and gently tapped his shoulders, drifting Wu Laohu's attention to behind him.

"E-Elder Zhou!"

Wu Laohu's aggressive aura immediately disappeared when he saw the face of the person standing behind him, and his large figure suddenly appeared much smaller than just a moment ago.

"Just because you are ranked 3rd in the Outer Court ranking does not mean you can act however you please in this sect. This is also not the sparring stage but the Exchange Hall. If you continue causing a ruckus out here, I'll gladly be your opponent." Elder Zhou said to him.

"I-It was this disciple's mistake. It won't happen again, Elder Zhou!" Wu Laohu bowed to Elder Zhou in a respectful manner, yet his eyes remained on Yuan's figure.

'This is all that little bastard's fault! If he didn't oppose me, I wouldn't have been scolded by Elder Zhou in front of so many people! How fucking unlucky of me!' Wu Laohu cried inwardly, pushing all of the blame to Yuan.

"If you're here to purchase something, do your business and leave."

"Yes, Elder Zhou!" Wu Laohu did not dare to linger around and immediately went inside the Exchange Hall.

The other disciples there followed and immediately returned to their own business.

Elder Zhou then turned to look at Yuan, who was just calmly standing there.

'So this is Disciple Yuan, huh. I didn't get to see him last time at the Carp Leaping Over Dragon's Gate Tower because of the guests, but he's somewhat different from what I'd expected. He appears... more humble than I'd imagined...' Elder Zhou thought to himself.

"You too. If you have business at the Exchange Hall, do it and leave. This is not a place for you to loiter around," Elder Zhou said to Yuan a moment later.

Although he'd like to speak with Yuan more, he knew about Yuan's special existence, so he couldn't just start chatting with him as though they were friends, as that would immediately raise suspicions from the other disciples.

"Thank you, Elder, for stopping that disciple." Yuan bowed to him before entering the Exchange Hall.

'What a humble kid. But if I hadn't stopped that disciple just now, you would've sent him flying...' Elder Zhou sighed inwardly as he watched Yuan's figure disappearing into the building.

Once he'd entered the Exchange Hall, Yuan went directly to the reception desk and asked the disciple behind the counter, "Hello, what do you sell here?"

The disciple looked at Yuan as though he was looking at someone crazy, and he spoke a moment later, "This is the Exchange Hall. Whether it be cultivation resources or treasures, you can have anything you want as long as you have enough contribution points."

"Anything I want?" Yuan raised his eyebrows.

However, he'd only come here to see what they had, even expecting some sort of display area like regular stores, so if he was asked what he wanted, he most likely wouldn't have an answer immediately.

'What do I need?' Yuan began pondering.

"If you don't know what you want yet, you can think about it elsewhere—just don't stand here." The disciple warned Yuan.

"Oh, okay." Yuan nodded and proceeded to stand in the corner of the large room, pondering if there was anything he needed from this place.

Chapter 220 - The Most Unreasonable Person Yet

Standing casually by the wall, Yuan pondered what he could use his contribution points on.

'I already have two Soul Weapons and a couple of treasures, so I don't need any more of these. I also have enough techniques. What about cultivation resources? But how do I know what I need?'

'I am one level away from being a Spirit Master, but I am not in a rush. Though, if they have something that can help me reach Spirit Master, I might as well get it...'

After pondering for a few minutes, Yuan decided to ask for some Spirit Warrior monster cores so that he can consume them and hopefully reach the Spirit Master realm.

However, just as Yuan prepared to return to the reception, a large frame suddenly stepped in front of him and blocked his path.

Yuan raised his eyes slightly to look at Mad Tiger Wu Laohu staring at him with profound rage within his gaze.

"What do you want this time? I'm certain that I'm not blocking your path this time," Yuan said to him in a slightly mocking tone.

"You must think you're safe just because Elder Zhou stopped me from beating you, huh? Unless you plan on staying in the Exchange Hall for the rest of your life, you'll never escape from me!" Wu Laohu growled in a low voice.

"Why would I need to escape from you? If you have a problem with me, we can settle this with a sect elder's assistance." Yuan said to him.

"Oh, don't worry, we'll settle this alright, and we won't even need any assistance from a sect elder," said Wu Laohu as he reached into his robes and pulled out his disciple identification token.

"I, Wu Laohu, challenge you to a deathmatch!"

Ding!

[You have received a special request!]

[Outer Court Disciple Wu Laohu has challenged you to a deathmatch!]

The other disciples there gasped in shock when they heard Wu Laohu's words.

"Good lord! Did the Mad Tiger just challenge someone to a deathmatch?! It has been over a year since he's last stepped onto that kind of stage!"

"What's that Outer Court disciple going to do?! He has every right to refuse Mad Tiger's challenge, but I doubt the Mad Tiger would accept that!"

Yuan looked at Wu Laohu's disciple identification badge that was shoved directly in front of his face, and he spoke in a somewhat surprised voice, "You're willing to challenge someone to a deathmatch because they 'blocked' your path? You're probably the most unreasonable person I've come across to date!"

"You think this is about that?! This is about you making me lose face in front of so many people! This is about Elder Zhou scolding me! If you hadn't opposed me, none of that would've happened!" Wu Laohu said in a suppressed voice, yet one could hear the anger in his voice very clearly!

Yuan stared at Wu Laohu in disbelief. He simply couldn't believe that someone so unreasonable would exist in this world, and he cannot imagine what goes through such a mind.

After a moment of silence, Yuan shook his head and said, "I'll have to refuse your challenge. You may be an unreasonable person, but there's no reason for me to go along with your farce."

"Y-You little..." Wu Laohu's large body trembled, yet he didn't dare to act too rashly, especially since he was inside the Exchange Hall. If he fought Yuan in this place, he would definitely receive a harsh punishment. However, if he waited until Yuan left the premises, he would be able to beat Yuan up all he wanted and he'll most likely only receive a slap on the wrist like all the other times.

"Good! If that's how you want to play, I'll play your damn game!" Wu Laohu said to Yuan before leaving the Exchange Hall with large strides and heavy steps.

'What a bothersome disciple...' Elder Zhou sighed inwardly after watching this scene from somewhere inside the building.

'I should let the Sect Master know about this just in case anything really happens.'

After Wu Laohu left the scene, an upset voice resounded in Yuan's head, "Why didn't you just accept his challenge, Young Master? It wouldn't have required you to lift more than a single finger to kill that arrogant cultivator. If you don't want to kill him, I'll gladly turn him into ashes for you!"

Yuan shook his head and said, "I simply cannot imagine killing someone over something so insignificant. Why are there such unreasonable and petty people in this world? It's almost like nobody had taught them about decency or respect."

"Anyway, I'm going to see if they have Spirit Warrior monster cores. I really hope that guy calms." Yuan said as he approached the receptionist once again.

If Wu Laohu was a fellow player, he might've accepted the deathmatch because they can respawn with only slightly inconveniences, but since he doesn't know whether NPCs can respawn or not, he didn't want to take

their lives so easily, as that would feel like he'd actually murdered someone.

After reaching the desk, the disciple behind it looked at Yuan as though he was crazy, as most Outer Court disciples wouldn't even dare to look at Wu Laohu, much less oppose him!

"Do you have any Spirit Warrior monster cores?" Yuan asked the disciple since he wasn't talking.

"Spirit Warrior... monster cores?"

The ridicule on the disciple's face became even more apparent after hearing Yuan's words. After all, what kind of Outer Court disciple would be able to afford Spirit Warrior monster cores? Even if he could afford it, why would he need something so powerful at his level? Only Core Disciples would need something so powerful.

"You won't find any Spirit Warrior monster cores on the first floor. You need to head to the second floor, but only Inner Court disciples are allowed up there." The disciple answered Yuan a moment later.

"Inner Court disciple, huh? Looks like I won't be able to obtain the monster cores for now." Yuan sighed.

Chapter 221 - Disciples From Other Sects

After Yuan left the Exchange Hall because he learned that one cannot access the second floor unless they are Inner Court disciples, he suddenly recalled the silver medallion that Elder Xuan had given him.

'If I remember correctly, the silver medallion will allow me to obtain cultivation resources at the Treasury Hall. Maybe they'll have some Spirit Warrior monster cores there.' Yuan thought to himself.

'Where's the Treasury Hall, again?' Yuan began pondering.

A few moments later, once Yuan realized that the Treasury Hall was in the Inner Court, he sighed out loud, "In the end, I still have to become an Inner Court disciple..."

"What should I do now?"

Yuan looked around the sect with a pondering look, wondering where he should explore now that his adventure had ended much quicker than he'd expected.

And just as he was thinking, Yuan suddenly heard the disciples around him speaking with excitement, "Did you hear? Disciples from other sects are currently challenging the Carp Leaping Over Dragon's Gate Tower!"

"What? This is the first time outsiders are challenging the tower!"

"No, I think this has happened before, but that was very long ago. Why are disciples from other sects challenging the tower so suddenly? Did something happen recently?"

"You forgot already? One of our disciples had managed to clear all one hundred floors, creating a pretty big commotion not long ago!"

"Oh, right, that did happen, and we still don't know that disciple's identity. However, what does that have anything to do with what's happening now?"

"Who cares! Do you want to go watch or not?"

"Of course! Let's go!"

Many disciples from around the sect could be seen approaching the same direction at this moment— towards the Carp Leaping of Dragon's Gate Tower to witness the special event.

Yuan's interest was immediately piqued after listening to the disciples, mostly by the disciples from the other sects, and he began following the other disciples to the scene.

Sometime later, Yuan arrived at the Carp Leaping of Dragon's Gate Tower where hundreds of other disciples and even sect elders were already present.

'Wow, there's a lot of people here...' Yuan thought to himself as he stood towards the end of the crowd, so he couldn't really see the disciples from the other sects.

However, he was able to see the golden lights emitted by the tower, and whoever was challenging the tower at this moment was on the 40th floor.

"Heavens! Who's currently inside the tower?" One of the newcomers there decided to ask.

"It's Ao Zongqing that's inside right now. It took him less than an hour to reach 40 floors." Someone there responded.

"What! The number one genius from the Iron Courage Pavilion?! Why's he challenging the tower?!"

"Nobody really knows the details, but rumors say it's because of a gamble between the Dragon Essence Temple and their sect."

Meanwhile, standing in the front, there were seven disciples and four sect masters from their respective sects. Of course, Long Yijun and some of the high-ranking sect elders were there as well.

'It would be nice if we could see what's happening inside, but alas...'

Yuan wanted to watch the disciples from the other sects challenge the tower, but then he remembered how long it took Min Li to finish, which quickly made him lose interest, as he wasn't willing to stand around for a whole week until they all finish.

Thus, after standing around for a couple of minutes, Yuan decided to leave the place and return to his own room.

However, right as he turned around and walked a few steps, Elder Xuan's voice resounded in his head, "Disciple Yuan, go to the Inner Court and find Elder Shan. She has a few things to give you and also something to tell you. If you need help entering the Inner Court, show the elder your gold disciple identification badge."

Yuan nodded and began making his way towards the Inner Court whilst Elder Xuan remained at the tower for the event.

'I didn't know I could use my second identification badge like this... Now I can visit the Treasury Hall as well.' Yuan thought to himself.

Many minutes later, Yuan arrived at the entrance to the Inner Court.

"What do you want, Outer Court disciple? Do you have business in the Inner Court?" The elder there asked Yuan.

"Yes. Here's my identification badge." Yuan responded as he showed the elder his gold identification badge.

"T-This is...!" The sect elder was immediately shocked to see the gold identification token, and he turned to look at Yuan with wide eyes filled

with disbelief and respect.

"I understand... If you don't mind me asking, what business do you have in the Inner Court?" The elder asked him after handing the badge back to him.

"I would like to go to the Treasury Hall," Yuan answered, purposefully not mentioning Elder Shan.

"Thank you... You may enter now." The sect elder then opened the gates for him, allowing Yuan to enter the Inner Court with relatively no effort.

Yuan was slightly dumbfounded by how easy it was to enter the Inner Court.

'This gold identification badge is very convenient...' Yuan thought to himself as he stored the badge inside the spatial ring.

'If I recall correctly, Elder Shan said that I could find her at the Blossom Peak...' Yuan closed his eyes and opened the sect's map inside his head to look for a Blossom Peak.

Once he'd located Blossom Peak, Yuan began making his way towards Elder Shan's place, even passing the Treasury Hall on the way there.

About half an hour later, Yuan arrived at this vast and spacious hill with a single large building sitting in the middle and surrounded by a flower field.

And even though he was still very far away from Elder Shan's building, he could see Elder Shan's figure and a couple of other figures near a blossom tree right beside the house, looking like they were in a lecture or something.

Seeing this, Yuan began walking towards them with a nonchalant look on his face.

Chapter 222 - Elder Shans Reward

Chapter 222 - Elder Shan's Reward

As Yuan approached Elder Shan and the other two figures, he noticed these four-legged objects sitting on the ground in front of them, and they were pretty large as well.

'What are those things? They look like pots... And there is even smoke coming from them...' Yuan thought to himself as he got closer and closer to them.

"Senior Shan!" Yuan called out to her once he was close enough.

"Hmm?" Elder Shan turned around with raised eyebrows, wondering who would dare to enter her territory without making an appointment, as she wasn't expecting any visitors today.

However, when she saw Yuan's innocent face, a smile immediately appeared on her face, and she said, "Disciple Yuan! You've arrived much quicker than I'd anticipated. I wasn't expecting to see you until tomorrow, after all."

The other two figures also turned to look at Yuan after they saw Elder Shan's reaction, acting like she was delighted to see him or something.

'An Outer Court disciple...?'

These two disciples raised their eyebrows after seeing Yuan's uniform, as they have never seen an Outer Court disciple appearing in this sacred place before.

"Hello, Senior Shan. I hope I'm not bothering you, but Senior Xuan told me to come here," Yuan said to her.

"Don't worry, you won't bother me even if you tried!" Elder Shan laughed gracefully before she pointed to the two dumbfounded figures sitting not far away from her.

"Let me introduce you to my disciples."

Elder Shan's disciples then stood up and introduced themselves despite feeling that Yuan should've been the first one to introduce himself since they were more senior.

"Qian Qi, Inner Court disciple."

"Bei Bei, Core Disciple."

They gave a simple and direct introduction.

Yuan nodded and said, "Hello, I am Yuan."

After their brief introduction, Elder Shan turned to look at her disciples and said, "Anyway, the two of you can continue concocting pills. I'll be right back."

"Follow me inside," Elder Shan said to him before entering the building.

Yuan nodded and followed her.

Once they were inside, Elder Shan pointed to the couch and said, "Go ahead. Take a seat."

After Yuan sat down on the couch, Elder Shan also took a seat, even deciding to sit directly beside him.

"First and foremost, allow me to congratulate you again for getting first place in the zither competition, exceeding my expectations." Elder Shan said to him with a somewhat serious look on her face, and she continued, "Even though you've already received a reward from the competition, the Dragon Essence Temple has decided to also reward you for your contribution since your results greatly increased our reputation."

"Let me see your identification badge."

Yuan nodded and showed her his bronze identification badge.

[You have received 10,000 contribution points from Shan Shang]

"Ten thousand contribution points!" Yuan mumbled in a surprised voice.

"10,000 contribution points may be a lot, but compared to the next reward, it's almost worthless," Elder Shan said with a smile on her face.

"There are more rewards?" Yuan raised his eyebrows.

Elder Shan nodded and said, "The Sect Master has decided to let you go to the Dragon's Peak."

"Dragon's Peak? What's that?" Yuan asked.

"It's one of the most sacred places in the Dragon Essence Temple beside the Dragon Temple. After all, it used to be our Ancestor's peak."

"What's so special about this place?" Yuan continued to ask.

"Well, I have only been there once, but the spiritual energy there is extremely dense for some reason, which will greatly boost your cultivation speed. Furthermore, legend has it that the Ancestor had hidden a treasure in that place before he disappeared, but nobody has been able to find it despite looking through every nook and cranny."

"I see..."

"One more thing, we want you to participate in the Inner Court disciple examination next week and become an Inner Court disciple," said Elder Shan after a moment of silence.

"Eh? Inner Court disciple? I thought we can only do that once we've spent enough time as an Outer Court disciple."

"Indeed, but there are always special occasions. As long as you have the Sect Master's permission, a disciple can partake in the Inner Court— even Core Disciple examination regardless of their time in the sect."

After a moment of silence, Yuan nodded, "Okay. If the Sect Master wants me to become an Inner Court disciple, I'll participate in the examination."

"Thank you, Disciple Yuan. Once you become an Inner Court disciple, you'll be able to enter the Dragon's Peak. After Dragon's Peak will be the start of the Mystic Realm, so you'll be quite busy."

"It'll be a great experience," Yuan said with a smile.

"Do you have anything else for me?" He then asked.

"No, that's all for now." Elder Shan said.

"Then I won't linger around and disturb your lecture with your disciples."

"Don't worry about it. I am only going through previous lessons today."

"I'll see you later, Senior Shan," Yuan said as he stood up.

"Wait a second."

Elder Shan suddenly grabbed his robes.

"Hmm?"

Just as Yuan turned around, Elder Shan stood up and moved with lightning-quick speed, giving him a gentle kiss on the forehead.

"E-Elder Shan?" Yuan stared at her with a dumbfounded look on his face.

"That was my reward to you. I'll give you something even more intense if you manage to achieve first place for the Mystic Realm as well." Elder Shan winked at him with a smile on her beautiful face.

Yuan was speechless and didn't know how he should respond to such words. Therefore, he only nodded at her words in a dazed manner.

Meanwhile, Xiao Hua nearly left the necklace on an impulse after seeing Elder Shan's quick and sly action, but she'd somehow managed to resist herself and remained inside the necklace.

Sometime later, Yuan left Elder Shan's house, but right as he closed the door, he could hear a painful cry suddenly coming from Elder Shan.

Bonk! Bonk! Bonk!

"Ah!"

"Are you okay?" Yuan asked her, who was almost in tears from the pain.

"Y-Yes... I am..." Elder Shan said with a stiff smile on her face.

Chapter 223 - I Did Not Steal Anything!

"Goodbye, fellow disciples," Yuan said to Elder Shan's disciples before leaving the premises.

The two disciples watched as Yuan's figure disappeared into the distance, and they mumbled—

"Just who is that Outer Court disciple? What relationship does he have with our Master?" Qian Qi asked out loud.

"I have never seen him before so I don't know. But if he can come to this place as an Outer Court disciple then there must be something special about him. Maybe he's from a powerful family," said Bei Bei the Core Disciple.

A couple of minutes later, once the pain dealt by Xiao Hua had finally disappeared, Elder Shan came back outside and returned to their lectures.

When her disciples saw this, they wondered if she would tell them about that mysterious Outer Court disciple later, but alas, Elder Shan never mentioned Yuan even after their lecture ended.

After leaving Elder Shan's place, Yuan began making his way towards the Treasury Hall, but then he recalled something that made him turn around and walk in another direction.

Sometime later, Yuan arrived at a familiar-looking place— Fei Yuyan's living quarters.

Yuan approached the doorstep and knocked on her door.

After waiting for a couple of moments without any answer, Yuan knocked on the door again, and he repeated this for a few minutes.

"Is she not home?" Yuan mumbled.

Yuan decided to wait a few more minutes just in case Fei Yuyan was busy.

Once he was certain that Fei Yuyan was absent, Yuan decided to leave for now and head to the Treasury Hall.

"I'll just come back here at another time since I can enter the Inner Court without any problems now."

After leaving Fei Yuyan's living quarters, Yuan finally arrived at the Treasury Hall half an hour later, and although it resembled the Exchange Hall, there was only a single floor here.

Upon entering the building, Yuan went straight to the front desk where a sect elder was in charge.

The sect elder turned to look at Yuan with raised eyebrows after seeing his Outer Court uniform.

"What's an Outer Court disciple like you doing here? Only Inner Court disciples are allowed to use this place, you know." The sect elder said to him.

Hearing the sect elder's question, Yuan retrieved his spatial ring and took out the silver medallion that Elder Xuan had given to him before showing it to the sect elder behind the desk.

"Can I use this place if I have this?" Yuan asked him in a calm voice.

"What's that?"

The sect elder did not immediately recognize the silver medallion at first because it was so rare. However, once he picked it up and inspected it, his eyes widened with shock, and he exclaimed, "T-The Silver Fortune Medallion! Where'd you get this?!" The sect elder exclaimed in a startled

voice, sounding as though he'd just witnessed his ancestors crawling out of their graves.

"Uhh... It was given to me?" Yuan said.

"Nonsense! There's no way an Outer Court disciple would have something like this! You either stole it or found it by accident! I am confiscating this now!" The elder said with a frown on his face as he tossed the Silver Fortune Medallion inside his pocket.

"What?!" Yuan exclaimed in a surprised manner, and he spoke, "How could you accuse me of stealing it when you have no proof! It was given to me! You can't just take it from me!"

"Hmph! Do I need any proof besides you being an Outer Court disciple?"

"What does my disciple status have anything to do with this?" Yuan asked with a frown.

"Then let me ask you this— What kind of Outer Court disciple would have the Silver Fortune Medallion that allows one to retrieve as many treasures as they want from the Treasury Hall?! Not even Core Disciples would be given such a thing, let alone an Outer Court disciple!" The sect elder responded. After all, if the sect were to give an Outer Court disciple the Silver Fortune Medallion that allows them near full access to the Treasury Hall, they might as well make him a high-ranking sect elder!

"But it is a fact that I was given that medallion! Please give it back to me." Yuan extended his hand with a stern look on his face.

"The audacity! I am already saving you some face by not giving you a beating for stealing such a precious thing! If you don't scram, I'll not only discipline you but also report you to the Sect Master!" The sect elder raised his voice, causing the other people there to notice them.

"Stealing? Did that Outer Court disciple steal something from the Treasury Hall? Does he have a death wish?"

"What kind of idiot would try to steal from the sect..."

The Inner Court disciples there shook their heads before returning to their own business, as they couldn't care less about an Outer Court disciple who was about to be punished.

"Well?! Do you admit to stealing the Silver Fortune Medallion or not?!"
The sect elder then said, urging Yuan to admit his faults.

"I did not steal anything!"

However, Yuan did not back down and refused to admit to something he didn't do.

Seeing this, the sect elder trembled in anger, and he suddenly pulled his arms back before releasing it, propelling his palms at Yuan with a powerful force.

"Get out of here!" The sect elder said as he attacked Yuan, trying to kick him outside with force.

Yuan's eyes widened with surprise when the sect elder attacked him out of nowhere. Though, since the sect elder was only a sixth-level Spirit Warrior, Yuan did not feel intimidated or pressured.

Just as the sect elder's palms reached Yuan's chest, Yuan activated his movement technique and dodged the strike flawlessly.

The sect elder's eyes widened with surprise when Yuan dodged his surprise attack, and he could feel many surprised gazes directed at him, which caused his face to flush with redness.

"Y-You little brat...!" The sect elder growled in a low voice, feeling like Yuan had slapped him in the face by dodging his strike in front of so many people.

Chapter 224 - Treasury Hall

"W-What's going on?! Why did the sect elder suddenly attack that Outer Court disciple?!"

The Inner Court disciples there were greatly shocked by this sudden incident, as they have never seen such a forceful and aggressive reaction in the Treasury Hall before.

"Whatever that disciple did, he's done for. Nobody offends a sect elder from the Treasury Hall and gets away with it!"

"It's been a long time since someone has caused trouble in the Treasury Hall! I cannot wait to see how that Outer Court disciple gets punished!"

Meanwhile, Yuan turned to look at the sect elder with a frown on his face, "That was dangerous! How could you suddenly attack a disciple without any reason as a sect elder?!"

"Without a reason?! I have plenty of reasons to discipline you! You not only stole the Silver Fortune Medallion but you also dared to talk back to a sect elder!"

"You assumed that I'd stolen it without any evidence, and then you attacked me when I asked for you to return it to me! That's unreasonable!"

"Shut your damn mouth, you freaking liar! How could a disciple like you exist in the righteous Dragon Essence Temple?! You don't belong here! Not only will I discipline you, but I will also make sure you are no longer a disciple after today!"

"I can say the same thing to you! You want to discipline me? Go ahead and try!" Yuan stood his ground, not willing to be bullied by the sect elder.

'Not only the disciples but even the sect elders are unreasonable! This really makes me question some things!' Yuan sighed inwardly.

Hearing Yuan's provoking words, the sect elder jumped over the desk and approached Yuan while surrounded by an aggressive aura.

"If I don't punish you today, I do not deserve to be a sect elder!" The sect elder spoke as he approached Yuan.

"Haaa... What the heck is going on here, Elder Gu? I stepped away for a few minutes and trusted you with the Treasury Hall, and this is how you repay me? By creating a commotion with an Outer Court disciple inside the Treasury Hall?" A sighing voice suddenly resounded, causing everybody there to look at the entrance, where a tall middle-aged man stood.

"Elder Bei!" Elder Gu looked at Elder Bei with a perplexed look on his face.

"You've misunderstood the situation, Elder Bei. I am merely disciplining this disciple who not only dared to steal a precious item from the sect but also dared to lie in front of a sect elder!"

Elder Bei raised his eyebrows, and he turned to look at Yuan, who was standing there still with an unpleasant look on his face.

"What did he steal?" Elder Bei asked as he approached them.

"This— the Silver Fortune Medallion!" Elder Gu quickly showed him the silver medallion in his hands.

"T-That's..." Elder Bei's eyes widened with shock when he saw the Silver Fortune Medallion.

He then turned to look at Yuan in a stiff motion before asking him, "Y-Young disciple... Can you tell me your name?"

"Disciple Yuan," he responded.

'Disciple Yuan! Shit! He's the disciple Grand Elder Xuan warned me about! This fucking idiot Elder Gu actually offended the one person we're not supposed to offend when I went to get some food!'

Elder Bei immediately began sweating after realizing the situation.

While Elder Xuan had told Elder Bei about Yuan and the Silver Fortune Medallion because he was the manager at this place, Elder Xuan didn't tell anyone else because he didn't want too many people knowing about Yuan's existence to keep the risks of revealing his identity low. Furthermore, Elder Gu was only an assistant working in this place temporarily, so he was definitely not briefed about Yuan.

But alas, little did Elder Xuan and Elder Bei expect that Yuan would arrive at the Treasury Hall at the worst time— when Elder Bei went out to get some food.

"Elder Bei?" Elder Gu called out to him when he stood there in silence for many moments.

Elder Bei rubbed his eyes and released a long sigh.

After sighing, he turned to look at the other disciples there and said, "The Treasury Hall is closed for today. Everybody, get out."

Although Elder Bei tried his best to remain calm, his voice turned out quite angry-sounding, causing the Inner Court disciples there to sweat.

The disciples began leaving the building, and a couple of moments later, only Elder Gu, a few other sect elders working there, and Yuan remained.

Once the place was dead silent, Elder Bei extended his hand at Elder Gu and spoke again, "Give me the Silver Fortune Medallion."

Elder Gu did not think twice and handed the silver medallion to Elder Bei.

Once the medallion was in his hands, Elder Bei turned to look at Yuan before showing him the Silver Fortune Medallion on his palm, almost like he was offering it to Yuan, shocking everybody there.

"I deeply apologize for the misunderstanding and inconvenience you've experienced at the Treasury Hall today. I am the only one here who was informed by Elder Xuan regarding your situation, so please excuse the others for their ignorance." Elder Bei lowered his head as he apologized to Yuan, shocking the others even more.

Yuan then said, "I won't blame anyone for being ignorant. However, being ignorant and being unreasonable are two different things. That sect elder immediately assumed that I'd stolen this medallion without any evidence when I showed it to him, even striking me out of the blue when I asked for him to return it. That's simply inexcusable."

"What? Is this true? He attacked you?" Elder Bei looked at Yuan with wide eyes.

Yuan nodded with a serious look on his face.

"..."

After a moment of silence, Elder Bei turned to look at Elder Gu and said, "Since when do we, sect elders, attack disciples over suspicions and without any evidence that they'd committed a crime? Even if he did, when did that become our responsibility to discipline disciples? The disciplinary squad exists for a reason! I will listen to the whole story and deal with you later. Go wait in my room until I am done here!"

"Y-Yes..." Elder Gu nodded with a dazed look on his face, as he still couldn't comprehend the situation. Why did Elder Bei protect that Outer Court disciple? Why was he scolded? It didn't make sense!

Once Elder Gu left the scene, Elder Bei returned to Yuan and said, "Don't worry, I will handle this properly later, so let's stop thinking about this for now. Why did you come to the Treasury Hall today? Are you looking for some treasure? Tell me what you need and I'll see if we have it."

Seeing how Elder Bei wanted to drop the subject, Yuan had no reason to continue this drama and said, "I am here to see if I can get some Spirit Warrior monster cores."

"Spirit Warrior monster cores?" Elder Bei raised his eyebrows at this unexpected answer.

"Do you have a specific type of monster core in mind?"

Yuan shook his head and replied, "No, any kind of monster core will do."

Chapter 225 - Ill Take Them All

Chapter 225 - I'll Take Them All

"Any kind, huh?" Elder Bei went behind the desk and took out a small book that listed all of the monster cores they had in the Treasury Hall. While they have plenty of Spirit Apprentice monster cores, they don't have many monster cores at the Spirit Warrior level since it's not often sought after by the disciples.

"How many do you need? And what level do you prefer for the Spirit Warrior monster cores?"

Yuan scratched his head and said, "Honestly, I don't know how many I need, but I'd like the highest level monster core you have."

"The highest level?" Elder Bei looked at him with wide eyes.

In his eyes, Yuan was only at the ninth level Spirit Apprentice realm. Why would he need monster cores that were far above his own level?

However, since the Treasury Hall has wronged Yuan, Elder Bei didn't ask him any questions and looked at the monster core book.

A few moments later, he said, "The highest level Spirit Warrior monster core we have right now is at the 8th level, and we only have one of them. We also have one 6th level Spirit Warrior monster core. Then we have about a dozen Spirit Warrior monster cores below the 3rd level."

"I'll take them all," Yuan said without any hesitation.

"A-All of them?" Elder Bei looked at Yuan with a gawking expression on his face, wondering if this is Yuan's method of revenge because they'd treated him wrongly.

However, since Yuan had the Silver Fortune Medallion, the Treasury Hall was obligated to give Yuan whatever he wanted as long as it wasn't unreasonable. While the monster cores are worth a couple of hundred contribution points, it wasn't so much that it would instantly bankrupt the Treasury Hall.

After a moment of silence, Elder Bei nodded with a forced smile on his face, "I understand. Please give me a minute to prepare your monster cores."

Yuan nodded and proceeded to wait whilst the other sect elders watched him with dazed expressions.

A couple of minutes later, Elder Bei returned to the room with a large box.

"Here are your monster cores." Elder Bei placed the box on the counter.

Yuan nodded and then said, "Thank you. How many contribution points do I have to pay for it?"

"Pay?" Elder Bei looked at him with raised eyebrows before saying, "You don't have to pay anything. It's all for free."

Yuan looked at him with wide eyes and mumbled, "Free?"

In his mind, the Silver Fortune Medallion only gave him access to the Treasury Hall and perhaps some low tier treasures for free, but he didn't expect that it would allow him to obtain so many Spirit Warrior monster cores for free, as that sounded too good to be true in a place where most disciples are expected to earn their resources.

"Uhh... I'll feel bad if I accept so many resources for free. How about I purchase them at a discounted rate instead?" Yuan suddenly suggested.

Since he already has so many contribution points, it would be a waste if he didn't use them because he would get everything for free.

After pondering for a moment, Elder Bei nodded, "Since you insist on paying for them, I'll give you a 50% discount for the monster cores. It'll be

450 contribution points. Are you okay with this?"

Yuan nodded and handed Elder Bei his disciple identification badge without hesitation.

A few moments later, Elder Bei handed Yuan's identification badge back to him and said, "Thank you for your business."

Yuan accepted his badge and the monster cores, tossing them into his spatial ring afterward.

Once he had everything he needed, Yuan left the Treasury Hall with a calm look on his face and made his way back to his own living quarters.

Meanwhile, Elder Bei turned to look at the other sect elders and said, "What happened here today... You will act as though it never happened, or you can ignore what I said and risk your status as a sect elder. That's all I have to say."

After his brief words that shocked the other sect elders, Elder Bei returned to his room in the Treasury Hall where Elder Gu was waiting.

"E-Elder Bei! What was that all about?! Why did you protect that Outer Court disciple?!" Elder Gu immediately began asking for an explanation.

"..."

In response to Elder Gu's words, Elder Bei raised his hands and swung them directly across Elder Gu's face, slapping him soundly.

"Y-You..." Elder Gu looked at Elder Bei with disbelief in his eyes and a burning sensation on his cheeks, but he didn't dare to retaliate since he was far weaker than Elder Bei who was at the Spirit Master realm.

"Follow me!"

Elder Bei said and turned around, walking outside.

Although he was reluctant, Elder Gu couldn't oppose Elder Bei's commands and followed him outside.

Once they were outside alongside the other sect elders, Elder Bei asked out loud, "Allow me to ask all of you this— What did I tell all of you at the beginning of this month?"

One of the sect elders there immediately raised his hand and said, "That if a disciple with the Silver Fortune Medallion appears, we are to immediately notify you, Elder Bei!"

"Good! So I wasn't just dreaming about telling you!" Elder Bei then turned to look at Elder Gu and asked them, "Then what happened to you, Elder Gu? Did you forget? Or did you purposefully disobey my order?"

"I-I had forgotten, Elder Bei..." Elder Gu quickly responded.

"I see, so you'd forgotten, huh? Then let's hope this incident will help you remember things better in the future." Elder Bei said, and he continued after taking a deep breath, "Regardless of how the entire situation went down, even if I want to, I cannot protect you since you decided to attack that disciple."

"However, I do not have the authority to punish you since I am only the manager of this place, so I will let someone with more authority and status than myself handle you. Elder Gu, you are temporarily relieved of your duties in the Treasury Hall, and I will be letting Grand Elder Xuan know about the situation so he can deal with you later."

"G-Grand Elder Xuan?!" Elder Gu exclaimed in a shocked voice. Why would a Grand Elder be involved in such a minor incident?!

Chapter 226 - You Cannot Do This To Me!

"W-Why do you have to involve Grand Elder Xuan?! This is only a small incident! There's no need to bother a grand elder because of an Outer Court disciple! That's an exaggeration, Elder Bei!" Elder Gu immediately began sweating after hearing that Grand Elder Xuan might be involved in this mess.

Elder Bei shook his head before sighing, "You really are clueless, aren't you, Elder Gu? Just an Outer Court disciple? Do you really think an ordinary Outer Court disciple will be given the Silver Fortune Medallion? When was the last time an Outer Court disciple had such a priceless object in their pockets? Think about it before you speak..."

Elder Gu immediately turned speechless. After listening to Elder Bei's words, he'd finally come to that realization, but alas, it was too late for him to regret it, as there was no medicine for regret in this world.

"Get out of my sight before I lose my patience." Elder Bei said a few seconds later.

Elder Gu nodded in a dispirited manner before walking out of the Treasury Hall and returning to his living quarters, where he pondered what he went wrong and what he could've done to prevent this disaster that had fallen upon him.

Meanwhile, Elder Bei returned to his room and retrieved a communication jade slip.

After activating it with his spiritual energy, Elder Bei spoke to it, "Grand Elder Xuan, this is Elder Bei from the Treasury Hall. I apologize for bothering you, but this is regarding Disciple Yuan that you'd warned me about..."

Elder Bei proceeded to explain the situation to Grand Elder Xuan, telling him about Elder Gu's behavior and how he'd treated Yuan.

On the other side of the sect at the Carp Leaping Over Dragon's Gate, Elder Xuan who'd been watching the disciples from the other sect challenge the tower immediately frowned after receiving Elder Bei's notice.

"Sect Master, I'll have to excuse myself for a bit." Elder Xuan said to him, who was also there with him.

"Hm? What happened?" Long Yijun raised his eyebrows after seeing Elder Xuan's angry face.

"Well..."

Elder Xuan proceeded to give a brief explanation of the situation about what had occurred at the Treasury Hall with Yuan and Elder Gu.

"Elder Gu did what?!" Long Yijun exclaimed in a shocked voice after hearing the news, causing the other people there to turn and look at him with raised eyebrows, wondering what this was about.

"Go deal with him quickly! If not for my current situation, I would personally see him myself!" Long Yijun said in an angry voice.

How could a sect elder treat Yuan in such a manner after his massive contribution to the sect? Granted that nobody in the sect knows about Yuan participating in the sect because Long Yijun had personally made it so that it wouldn't spread, there are no excuses for a sect elder to be acting like the way Elder Gu had towards any disciple.

A few moments later, Elder Xuan left the scene and headed towards the Inner Court and the Treasury Hall.

"Greetings, Grand Elder!"

The sect elders inside the Treasury Hall greeted Elder Xuan the moment he stepped into their building, feeling their back soaked in cold sweats, as they didn't expect Elder Xuan to appear so quickly.

"Tell me everything that happened." Elder Xuan spoke in a calm yet commanding voice.

One by one, the sect elders gave their side of the story and what they saw during the incident.

"I understand. Thank you."

After getting all of the sect elders' statements, Elder Xuan made his way to Elder Gu's living quarters and knocked on the door in a somewhat aggressive manner.

A few moments later, Elder Gu opened the door and appeared before Elder Xuan, greeting Elder Xuan with a pale complexion and his back soaked in sweat.

"Do you know why I am here?" Elder Xuan asked him with narrowed eyes.

"I...I do..." Elder Gu nodded in a timid manner.

"Before I say anything, I'll give you an opportunity to explain yourself and tell me your side of the story," said Elder Xuan.

"Thank you, Grand Elder!"

Elder Gu proceeded to explain the situation to him and how he thought Yuan had stolen the Silver Fortune Medallion because it wasn't possible for an Outer Court disciple to have such a thing.

However, Elder Gu also subtly blamed Yuan for being aggressive and disrespectful to him, hence why he lost his temper and tried to force him out of the Treasury Hall.

Elder Xuan's eyebrows twitched when Elder Gu called Yuan disrespectful and aggressive. Although he didn't say anything, Elder Xuan didn't believe even for a second that Yuan, who was as innocent as a child, would behave in such a manner without any reason.

A few minutes later, once Elder Gu finished explaining himself, Elder Xuan spoke in a low but grim voice, "You claimed that Disciple Yuan had disrespected you and even provoked you to attack him, but I cannot imagine someone like him doing such a thing. Although I may not have known him for long, I have known him long enough to know what kind of person he is."

"As for the Silver Fortune Medallion, Elder Bei had already warned everyone in the building about it, so you can only blame yourself for forgetting about it."

"Elder Gu, your behavior today has greatly disappointed the Sect Master and me. Therefore, as of this moment, you are no longer a disciple of the Dragon Essence Temple."

"W-What?! You're going to kick me out of the sect over a small mistake?! Because of a mere Outer Court disciple?! This isn't fair at all and totally not justified! It's not like I'd broken any sect rules either! You cannot do this to me, Grand Elder!" Elder Gu couldn't believe his ears.

However, Elder Xuan shook his head and said, "You have no idea who that 'Outer Court disciple' is, nor do you have any idea how much the sect values his presence. If you'd chased him out of the sect, even a million of your lives would not be able to compensate for such a loss!"

Chapter 227 - Nearly Lost Her Mind From Shock

"Even a million of my lives cannot compare to that Outer Court disciple's...?" Elder Gu stared at Elder Xuan with a dazed look on his face, his gaze filled with disbelief.

Elder Xuan shook his head and said, "You're extremely lucky that I was the one who came here since the Sect Master wanted to personally come here after hearing what you'd done. Fortunately for you, he's currently busy with our guests. If you understand what I'm saying, I recommend you leave this sect before the guests leave and the Sect Master comes to find you."

Elder Gu immediately began sweating again. The Sect Master wanted to see him? Because he'd offended a mere Outer Court disciple? Heavens! He better get as far away from the Dragon Essence Temple or else the Sect Master might skin him alive!

"If you don't have anything else to say, hand over your disciple identification badge." Elder Xuan said as he showed his palms to Elder Gu.

After a deep sigh, Elder Gu handed over his disciple identification badge.

"You have three days to pack everything and leave the sect's premises." Elder Xuan said to him before turning around and walking away, returning to the Long Yijun's side.

As for Elder Gu, since he didn't have much to pack, he left the Dragon Essence Temple without speaking to anyone, as he was too embarrassed by his own situation to say anything.

"Sect Master, everything has been dealt with."

After returning to Long Yijun's side, Elder Xuan showed him Elder Gu's disciple identification badge.

"Hmph! You're too kind, Elder Xuan. If it was me, I'd given him a good beating before I kicked him out!" Long Yijun coldly sneered before focusing on the tower again.

Meanwhile, inside his own room, Yuan retrieved the monster cores and laid them on the table.

After counting them, he had one 8th and 6th level Spirit Warrior monster core, four 3rd level, four 4th level, and eight 1st level Spirit Warrior monster cores.

'18 monster cores, huh. I wonder if this will be enough for me to breakthrough to the Spirit Master realm...' Yuan thought to himself.

He needed approximately 12 billion Qi Experience in order to breakthrough to Spirit Master, but he wasn't sure if these monster cores would be enough.

"Young Master, what do you plan on doing with so many monster cores? If you're trying to reach the Spirit Master realm, I don't think you'll be able to with that little amount of monster cores, and it'll take you months to absorb them." Feng Yuxiang said to him, completely unaware of Yuan's heaven-defying physique.

"You think so too, Feng Feng? If only I had a Spirit Master monster core," he sighed.

"I have a Spirit Grandmaster monster core, but that's too much for you to handle, Young Master. Furthermore, it's not an ordinary monster core, so it'll be even more difficult to absorb. If you're not careful with it, the monster core could even attack you as you absorb it, destroying your cultivation base."

"Destroy my cultivation...?" Yuan could feel his back beginning to sweat after hearing Feng Yuxiang's words. He should be more careful with consuming monster cores in the future.

"What about these, Feng Feng? Will these monster cores give me any issues?" Yuan asked her a moment later.

"Hmm... I don't think they will..." Feng Yuxiang said after examining the monster cores with her spiritual sense.

"Okay, then I will absorb them," Yuan said in a casual manner.

"Wait a second, Young Master. You're going to absorb them now? Even if you are at the peak of the Spirit Warrior realm, it'll take you at least a week to absorb the eighth level Spirit Warrior monster core, and it won't even be worth the time since you'll only get a very small fraction of its spiritual energy." Feng Yuxiang said to him.

After all, most people absorb monster cores that are above their own level.

"It's okay, Feng Feng. It won't take me a week, and even if it doesn't help me breakthrough, it'll definitely bring me closer to Spirit Master."

After saying those words, Yuan picked up the low-level monster cores first and began tossing them into his mouth one by one like candies.

When Feng Yuxiang saw this, she nearly lost her mind from shock, and she quickly left his body and appeared in the room.

"W-What are you doing, Young Master?! You can't eat monster cores! Hurry and spit it out!" Feng Yuxiang spoke in a panicked voice, even sticking her fingers into Yuan's mouth to try and search for the monster cores, almost like a mother trying to dig out something her baby wasn't supposed to put into their mouth, but alas, the monster cores had already melted the moment it touched his tongue.

"Calm down, phoenix..."

Xiao Hua also came out of her necklace and pulled Feng Yuxiang away from Yuan.

"B-But the Young Master swallowed some monster cores! The last time someone did that, he exploded into a bloody mess!" Feng Yuxiang said, as she could still remember that one time thousands of years ago when she'd witnessed someone swallowing monster cores and the consequences of such actions.

"Brother Yuan is okay... He has a special physique that allows him to consume monster cores without any problems... See? He's still fine." Xiao Hua pointed to Yuan, who was startled by Feng Yuxiang's exaggerated reaction.

"R-Really?" Feng Yuxiang wiped the tears that had gathered in the corner of her eyes after realizing that Yuan hadn't exploded into a bloody mess yet.

"Yes... I am perfectly fine." Yuan confirmed.

Feng Yuxiang released a long and deep sigh afterward, feeling like she'd just lost a few hundred years of her lifespan from shock just now.

Xiao Hua merely shook her head, as she knew very well what Feng Yuxiang felt since she had experienced the same shocking experience firsthand.

Chapter 228 - Above Divine

"A-Are you sure there are no side-effects to eating monster cores, Young Master?" Feng Yuxiang asked him a moment later, as she was still not convinced that one could consume monster cores like that.

"Look, I'll even eat another one to prove to you that nothing happens," Yuan said to her as he popped another monster core into his mouth and swallowed it.

[Heaven Refining Physique activated]

Feng Yuxiang experienced another minor heart attack after seeing Yuan eat another monster core.

"Brother Yuan has been doing this way before he met you and nothing bad has happened to him yet so we can assume that it's safe," Xiao Hua said a moment later.

After a moment of silence, Feng Yuxiang spoke in a dazed voice, "Young Master, if you don't mind, can you tell me what kind of physique you have that allows you to consume monster cores like that? I have never heard of such a heaven-defying physique even in the upper heavens."

Yuan nodded and said, "Heaven Refining Physique."

"Heaven Refining Physique?" Feng Yuxiang raised her slender eyebrows in a manner as she has never heard of such a thing before.

Then she closed her eyes to ponder.

After many moments of silence, she suddenly snapped her eyes open and shouted in a voice of realization, "That's right! I have heard of this physique before!"

"Eh? Really?" Both Yuan and Xiao Hua looked at her with anticipation in their gazes.

Feng Yuxiang nodded and said, "If I remember correctly, I heard about the Heaven Refining Physique once before over 50,000 years ago when I was still roaming the upper heavens. It's a legendary physique that has existed only once before, and the individual who had that physique was said to be an incredible cultivator who dominated the heavens. Unfortunately, that's all I know."

"I see... So someone else had this physique before..." Yuan mumbled.

"Well, that's only natural," said Feng Yuxiang, and she continued, "In this world, there can be multiple people with the same physique. Of course, the rarer and stronger the physique, the fewer people will have them. However, there are some really special physiques in this world that can exist only in one person at a time as mandated by the heavens, as they are simply too powerful to exist in multiple people. In other words, unless that person dies, nobody else can be born with the physique."

"In your case, Young Master, the person who used to have the same physique was a legend from countless years ago in the ancient times, so we can assume that he's long passed away, as only real immortals at the peak of cultivation can exist for that long, or else he wouldn't be a mere legend."

And she continued, "Does your physique do anything else besides allow you to consume monster cores?"

Yuan shook his head and said, "Not that I know of. Can physiques have multiple powers?"

Feng Yuxiang nodded and said, "Of course. The more powerful the physique the more likely it'll have a second, even a third effect."

"What about the rank? Do you know the rank of your physique, Young Master?"

Yuan nodded and said, "Celestial."

"Celestial? What rank is that?" Feng Yuxiang raised her eyebrows in a truly puzzled manner, as this is her first time hearing of such a rank.

"Above the Divine-rank is the Ancient-rank, and above Ancient-rank is Mythic-rank, so I can only assume that the Celestial-rank is above the Mythic-rank, which is quite hard to believe if I am being honest..." Feng Yuxiang mumbled in a low voice.

"After all, you won't see anyone above the Divine-rank in the Lower Heavens, much less the Celestial-rank that is likely above the Ancient and Mythic-rank. It just doesn't sound plausible unless the Young Master was born in the upper heavens."

"That's not possible," Yuan shook his head. Forget about the upper heavens, he wasn't even born in the Lower Heavens.

The only logical reason for this is that Players such as himself don't abide by the laws of this world, hence why they're able to cultivate much quicker and defy the laws in this world. After all, if one thinks about it, Players are Otherworlders who came from another world— Earth. It shouldn't be too far-fetched to think that they would have an advantage over the people of this world since they're Players comparing themselves to NPCs.

"Anyway, I am going to consume the rest of these monster cores. Hopefully, they'll help me reach Spirit Master."

Yuan proceeded to toss the rest of the monster cores into his mouth, and Feng Yuxiang could only watch this unfathomable scene with a dazed look on her face.

[5,652,214,875 Qi has been refined from the Lonely Giant Screamer's monster core]

"E-Even the eighth level Spirit Warrior monster core was swallowed without any problems... Just how powerful of a heaven-defying physique is this Heaven Refining Physique?" Feng Yuxiang mumbled in a low voice, feeling a chill in her spine after watching Yuan's shocking performance.

'Hmmm... I'd only managed to absorb a little over 9 billion Qi from all of the monster cores. I still need three more billion Qi Experiences before I can breakthrough to Spirit Master...' Yuan thought to himself afterward. Where else can he obtain these 3 billion Qi Experiences? Cultivating normally would take too long, and the Treasury Hall already gave him all of their monster cores.

"Hopefully, the Dragon Peak will be able to help me obtain the last three billion Qi and allow me to breakthrough to Spirit Master..." Yuan mumbled as he gazed outside the window.

Sometime later, once they calmed down, Xiao Hua and Feng Yuxiang returned inside Yuan's body. And since there was nothing else to do until the Inner Court disciple examination next week, Yuan decided to log off for the day to cultivate in the real world.

Chapter 229 - Parents

After cultivating in the real world for a couple of hours, Yuan stopped his cultivation and waited for Yu Rou to enter his room.

Suddenly, he could hear footsteps approaching his room. However, these graceful and quiet steps did not belong to Yu Rou.

A few moments later, the door opened, and Meixiu's voice resounded, "Good evening, Young Master. I will be attending you tonight because the Young Lady has been summoned by the Masters."

"Our parents? Do you know why?" Yuan asked her.

"I do not, Young Master."

"I understand. Thank you."

A few moments later, Meixiu began removing Yuan's clothes and wiping him down with a wet towel.

"Young Master, if you don't mind me asking, you'd participated in a musical competition in Cultivation Online, right? I heard about it from the Young Lady." Meixiu suddenly asked him.

"Yes, I did."

"What kind of instrument did you play?" she then asked.

"An instrument called the zither," Yuan casually said.

"Did you win? Knowing the Young Master, you most likely placed first again."

"I did."

"C-Congratulations, Young Master," Meixiu said in a somewhat surprised voice.

After wiping his body, Meixiu began feeding Yuan his three bowls of soup.

'Could the Young Master be Player Yuan who's currently dominating the game and causing a commotion around the world with his mysterious identity? Although it's hard to believe, their stories line up...' Meixiu thought to herself. While she doesn't particularly care about matters outside of the Yu Family, the countless talks about Player Yuan have also caught her interest recently.

Meanwhile, in a separate household a couple of miles away from Yuan's home, Yu Rou stood before two individuals— a handsome middle-aged man and a beautiful middle-aged woman.

"Yu Rou, do you know why we called you here today?" The middle-aged man asked her.

"I do not, father." Yu Rou responded in a calm voice.

Indeed, these two individuals were the sibling's parents, Yu Yong, the father, and Tang Lee, the mother.

After a moment of silence, Yu Yong spoke, "Do you know of the game 'Cultivation Online'?"

"Eh?"

Yu Rou's eyes widened at Yu Yong's unexpected question, as she never expected things that were not related to music would come out of their parent's mouth.

"I-I have... I even played it for a couple of days during my vacation," she responded after her initial surprise.

Tang Lee then said, "Well, the other families have been talking about it recently, or more specifically, they have been talking about an individual who goes by the name of 'Player Yuan'. Do you know of this person?"

"I do... He's all over the internet, after all." Yu Rou nodded in a somewhat dazed manner, silently wondering to herself why their parents were suddenly interested in Player Yuan who was their own son.

Yu Yong then said, "The children from the other families have recently participated in this musical competition related to the 'zither' within Cultivation Online, and they told their families that this Player Yuan was without a doubt a musical genius with strong beliefs that he belongs to a family with a music background."

And he continued, "I have heard of this Player Yuan before but never really paid attention to him, but if he's really a musical genius, I would like to meet him."

"Why do you want to meet him, father? He's just a gamer who's decent with the zither, right? Even if he's a genius with the zither, there's no guarantee that he could play the other instruments as well. Furthermore, nobody plays the zither anymore." Yu Rou asked him.

"It doesn't matter how many instruments he can play. Our company is always looking for talented people, and if this Player Yuan is as talented as they say, I want him to play for my company!" Yu Yong said.

Yu Rou shook her head and said, "I'm afraid that's impossible for now, father. Everybody has been looking for Player Yuan's real identity since the game started weeks ago, but nobody has been able to learn anything to date."

"I know—I have been researching about him as well. However, I don't believe that he'll be able to hide his identity forever. Sooner or later, his identity will be revealed, and when that happens, I will be the first one to greet him." Yu Yong said with a serious look on his face.

"Anyways, the reason I called you here today is to let you know that we will begin doing our tours in Cultivation Online instead of the real world, as that seems to be the trend nowadays."

"W-What? How does that work?" Yu Rou stared at them with a gawking look on her face.

"Simple. We will start doing concerts in the game to spread our company's reputation within the game. The other families have already been doing this and to great success. Therefore, we shall be doing the same as well."

"Y-You don't mean..." Yu Rou swallowed nervously after hearing this, as she could feel an ominous feeling looming in the atmosphere.

"I've heard from others that even people who cannot see or move in the real world can operate like they're perfectly healthy inside the game. If that's the case, then we can have Yu Tian play the game and start playing instruments again within the game. He has been useless for far too long, and it's about time he steps onto the stage again, albeit a virtual one."

Yu Rou silently gritted her teeth when she heard this, yet she didn't know what she could say at this moment.

"What... What if Brother Tian doesn't want to do it?" Yu Rou asked a moment later.

Tang Lee then spoke in a cold voice, "He doesn't have a choice in this. If he doesn't want to do it, then we will simply disown him and kick him out of the house, as we have no use for someone who does nothing but eat up our money and resources. It's not cheap maintaining someone in his condition even for us, after all."

Chapter 230 - Yu Tians Decision

Chapter 230 - Yu Tian's Decision

"T-That's unreasonable, mother! Where will Brother Tian go if you kick him out?! He cannot do anything by himself, either! You cannot do this to him!" Yu Rou immediately said.

"How dare you raise your voice at me, Yu Rou!" Tang Lee shouted back, and then she continued, "We have spent hundreds of millions of dollars in these last 10 years on that boy's medical bill hoping that he can be healed! However, it's very clear to us that his condition is permanent! If that's the case, why should we continue to waste our money on someone like him?! There are things in life you must give up, even if that 'thing' is family!"

"But Brother Tian has brought fame and reputation to our family and company! How can you throw him away like trash after everything he's done for the family?! He'd even sacrificed his childhood so that our family could prosper!" Yu Rou did not care about getting scolded and continued to defend Yu Tian, as she cannot imagine a life without him.

"It is true that his talents have brought our family and company to the peak of the musical world—that we won't deny. However, we've paid him back and more with the millions we've spent on him for the last 10 years. If he doesn't want to continue contributing to the family, then there's no reason for him to remain in this family. We've thought long and hard about this, and this is our decision. If you don't want that, then it'd be in your best interest to convince Yu Tian to comply with our request and play for the family again." Yu Yong said to her with a stern expression on his face.

"...I understand." Yu Rou said after a moment of silence.

Sometime later, Yu Rou left her parent's living quarters and returned to her own place.

On her way home, she pondered how she should relay this news to Yu Tian and convince him to play for the family again.

Once she'd returned, Yu Rou went straight to Yuan's room. However, she didn't immediately enter his room and stood outside in front of the doors for many minutes.

"What's wrong, Yu Rou?" Yuan's voice resounded from inside the room.

Yu Rou took a deep breath before entering the room, and she said in a solemn voice, "I spoke with father and mother today."

"I know. Meixiu told me." Yuan said.

"What did you talk about this time? Did your grades lower again?" Yuan spoke in a joking voice.

However, Yu Rou didn't smile, nor did she respond to his question.

"What's the matter, Yu Rou?" Yuan asked her, feeling something amiss from the quiet atmosphere.

"Well... You might not like what I am about to tell you, but this is something I must tell you," Yu Rou said, and she began telling him about what had occurred at her meeting with their parents as well as the conversation.

"Because the other families have been bringing their music into Cultivation Online, mother and father decided to do the same, and they want you to start playing the instruments again." Yu Rou said to him, leaving out the part about disowning him if he refuses for now.

"..."

Yuan immediately became speechless after listening to Yu Rou's words, and after a long moment of silence, he spoke, "So... They want me to repeat what I did when I was young in Cultivation Online?"

"Yes, they want you to start playing the game but purely focusing on music."

After another moment of silence, Yuan said in a sighing voice, "If I hadn't experienced the beautiful world that is Cultivation Online, I would've probably agreed. However, I have many things to do inside the game, so I won't have time to do what they want me to. Even if I do have time, I refuse to play the instrument for them."

Yu Rou began sweating when she heard Yuan's decision, and she began trying to convince him, "Why don't you think about it again, brother? You'll be able to return to your previous spotlight, and people will finally stop looking down on you. I also want to hear you play music again."

However, Yuan remained reluctant and said, "There's no need for me to think about it. I want to explore the cultivation world of my own free will. If you want to listen to my music, just let me know and I'll play for you, Yu Rou."

"..."

It was Yu Rou's turn to remain silent this time, and after a long moment of silence, she spoke in almost a crying voice, "Brother... I didn't want to tell you this at first because I know it'll hurt you, but... Mother and father said that if you don't comply, they'll disown you and kick you out of the house..."

"Oh... Is that so..."

Even though Yuan's voice remained somewhat calm, he could feel a painful sensation in his heart for a few seconds after learning that he might be disowned. After all, anybody would feel betrayed if their parents said they'd disown them non-jokingly.

Sometime later, Yuan said in a calm yet somewhat cold voice, "If they are going to disown me purely because I don't want to work as a puppet for them again, then they can disown me. I don't want to spend the rest of my

life as a puppet. Instead, I want to live the rest of my life to the fullest so I don't have any regrets when I inevitably pass."

"B-But where are you going to go, brother?! Think about this for a second! You won't be able to survive by yourself! And don't make it sound like you're going to die anytime soon because you're not! Even Doctor Wang said that you're growing healthier!"

"It'll be okay, Yu Rou. I will figure something out, and this is a good opportunity to finally set you free from your responsibilities and live a normal life."

"No! I don't want that! I want to continue taking care of you forever!" Yu Rou quickly refused.

"You know you can't do that, Yu Rou. After all, you also have your own life to live." Yuan sighed, wondering what he can say to convince his little sister to give up on him so that she could also live her life to its fullest.

Chapter 231 - Planning To Leave The Family

"Yu Rou, how about we end this conversation here today? I would like to think about it some more... alone." Yuan suddenly suggested.

After a moment of silence, Yu Rou said, "Okay... I'll leave you alone for tonight. Please think about this carefully, brother. I don't want to be separated from you."

"Un."

After turning off the lights, Yu Rou left Yuan's room and returned to her own room.

However, just as she prepared to sleep, her phone began ringing.

Yu Rou looked at the caller; it was from her father, Yu Yong.

"Yes, father?"

"Did you speak to him?" Yu Yong asked her.

"I did, father."

"What was his response?"

"Brother Tian... He said that he needed some more time to think about it." Yu Rou said.

"Hmph!"

A cold snort immediately followed, and Yu Yong said, "What does he even need to think about? The answer should already be obvious! Did the illness start affecting his brain?! Yu Rou! You tell him that he has three days to decide! If he doesn't decide by then, we'll decide for him by disowning him!"

"I... I understand, father. I'll tell Brother Tian."

Yu Rou tossed her phone on the bed after Yu Yong ended the call.

Plop!

Yu Rou's body suddenly collapsed onto the bed in an exhausted manner.

"How did it come to this...? I just wanted to live a peaceful life with Brother Tian even if I had to take care of him forever..." she sighed.

Meanwhile, inside his own room, Yuan tossed his plan to cultivate for the night and began pondering what he should do now that he's been thrown into this difficult situation so suddenly.

As much as he wanted to remain inside the family and stay with Yu Rou, he didn't want to continue playing the instruments just so his family, mostly his parents, could feed off his fame and hard work. Furthermore, if his family disowns him, he will finally have a good excuse to tell Yu Rou to stop taking care of him so she could also live a normal life.

'The cultivation world... I want to explore more of it— every nook and cranny if possible. But that won't be possible if I spend most if not all of my time playing the instruments like I used to. But... How am I supposed to live alone when my body is like this? Like Yu Rou had said, I cannot survive by myself...'

'Even if I can somehow manage by myself, where can I go?'

'Wait... I should have a bank account with a couple of thousands inside. Maybe I can use that money to move out and then find some way to earn more money.'

'But how can I earn money when I'm in this condition? If only I can earn money just by playing Cultivation Online...'

Yuan proceeded to spend the entire night thinking about his plan just in case his family really decided to disown him.

The following morning, Yu Rou came to his room, and she asked him in a tired voice, almost like she didn't get any sleep, "Brother... Did you think about it? Father... He said you only have three days to decide or he'll disown you."

"I don't need three days to decide, since I have already come to a decision." Yuan said, and he continued, "I know you want me to stay here, but I really don't want to give up my freedom even in Cultivation Online as I had in the past. I know you don't want this, but I also want you to live your life without any large responsibilities like taking care of me every day, and it's not like we're not going to see each other ever again."

"But where are you going to go? Who will take care of you? How are you going to survive?" Yu Rou asked him.

"You're probably going to laugh at me for saying this after what I just said, but I'll need your help for a few more things if I want to live by myself. Can you do that for me? If not... I'll just let fate decide my life." Yuan said in a sighing voice.

"..."

After a moment of silence, Yu Rou sighed, "What do you need me to do for you, brother? I'll hear you out at least. What's your plan?"

"I should have an account with a few thousand dollars inside, and I'll use that money to move to another place, which should last me a couple of months. I'll also use some of that money to hire someone who can take care of me in your place. This way, you won't have to worry about me as much anymore. However, I'll need someone you can trust to take care of me."

"I also plan on making money, but I'm not sure how I can do that at the moment. Perhaps there is a way I can earn real-life money by playing Cultivation Online."

"Hmm..." Yu Rou listened to Yuan's plans with a serious look on her face.

"I understand your plans..." Yu Rou spoke after pondering for a moment, and she continued, "I guess you can use that money to move out of the house and hire a maid or something, but who will fit that role? I don't think there is anyone that I trust enough to take care of you every day. As for making money through Cultivation Online, that is very possible, as you can sell items or gold in the game for real-life currency. In fact, it's already a huge market with tens of millions of dollars being traded every day."

"Really? I can do that? If that's the case, I can simply sell some things and earn money that way," Yuan said.

"But you'll need someone to do that for you since you obviously can't do it yourself, and that might give away your identity, so it's really risky unless the person doing it can be trusted." Yu Rou sighed.

Chapter 232 - I Can Only Trust You

"Well, can you think of someone? I can only think of one person when it comes to 'trust'." Yuan said a moment later.

"Really? Who?" Yu Rou asked in a truly puzzled voice.

"Meixiu," Yuan quickly answered.

"..."

Yu Rou turned silent.

"It's true that Meixiu can be trusted... But..." Yu Rou pondered with a perplexed frown on her face.

While she can trust Meixiu to take care of Yuan in her stead, even keeping his secret as Player Yuan, she was worried that they would develop some sort of relationship with each other from spending too much time together and that her relationship with Yuan might grow further apart as a result.

"Oh, right... She's your personal maid, nor can we really separate her from you just to help me, much less giving her such a burden that is me... That would be way too selfish of me. I guess we'll just have to find some random person to help me and hope for the best. If my identity as Player Yuan is revealed, it is what it is... I highly doubt that'll make my life more miserable than currently," Yuan sighed.

"..."

Yu Rou turned silent once again, and then she said a moment later, "Brother... Let me speak with Meixiu to see if she wants to help you. Of course, I won't command her or anything like that, and it will be entirely up to her whether she helps or not. How does that sound?"

"Are you sure? You've been with Meixiu for all your life, and she has been your servant for as long as well. I don't think I can really separate the two of you."

"Don't worry, brother. It's not like Meixiu will stop helping me. Furthermore, I can say the same to you, as Meixiu has been in our lives for almost the same time, and she's almost like a second sister to us at this point."

"I guess you can go ahead and ask her. However, don't force her, Yu Rou. Even if you are trying to help me, I don't want you to force Meixiu, because I won't accept her help if that's the case."

"Who do you think I am, brother? I am not unreasonable like some people in this family. I won't force her—I swear."

"Okay... If you say so."

"Are you going to play Cultivation Online today?" Yu Rou asked him after their daily routine.

"No, I'll take a break today. There's nothing to do until next week, anyway."

"Okay."

After cleaning up, Yu Rou went to eat her own breakfast and prepared for school.

On her way to school, Yu Rou asked Meixiu while they sat in the car.

"Meixiu, I have something important to ask you." Yu Rou stared at Meixiu in the eyes with a serious look on her face.

"What is it, Young Lady?"

Yu Rou took a deep breath, and she began explaining to her the situation regarding Yuan.

"Well, my parents are thinking about making Brother Tian play instruments inside Cultivation Online as he used to when he was young, but my brother refused. The thing is... if he refuses, they will disown him and kick him out of the house..."

"What?!" Meixiu covered her mouth in shock, as she could almost not believe her ears. "How could the Masters..."

"What does the Young Lady and Young Master plan on doing?" Meixiu couldn't help but ask, as this will definitely change the entire household as a whole.

"We don't really know yet, but Brother Tian intends on leaving the family and living by himself. However, his condition doesn't exactly allow that... Therefore, he's thinking about hiring someone else to take care of him, as he doesn't want me to bear the burden anymore."

"That's very like the Young Master." Meixiu nodded.

"But the problem is that I don't know anyone I trust enough to take care of Brother Tian. There are many bad people out there— heartless people who will mistreat or take advantage of Brother Tian's condition, and I fear that very much." Yu Rou spoke from the bottom of her heart.

While it sounded like she was trying to get sympathy from Meixiu so that she could pressure Meixiu with guilt, that was not the case, as Yu Rou truly feared that someone might take advantage of Yuan.

"Indeed, this world is filled with nasty people." Unexpectedly, Meixiu agreed.

"Anyways, I have been thinking about people who I trust enough to take care of Brother Tian, and after thinking about it for very long, I could only

think of a single person that I trust enough— and that's you, Meixiu."

"M-Me...?" Meixiu pointed at herself with a startled look on her face. "But I am the Young Lady's..."

"I know." Yu Rou quickly interrupted, and she continued, "I know that you're my personal maid and that you've been for almost my entire life, but I can only trust you to take care of Brother Tian. Of course, I am only asking you, and if you refuse, I won't hold anything against you since I know very well from experience how difficult it could be at times to take care of Brother Tian, especially if you're doing it every day for years, and even brother himself said that it's all up to you whether you want to listen to our request or not."

"You don't need to give me an answer right away. Think about it. We'll continue this conversation when we come back home," Yu Rou then said.

"I understand, Young Lady." Meixiu nodded, feeling many perplexed emotions in her heart.

While Yu Rou went to school, Yuan focused on cultivation.

'Now that even my own parents have given up hope on me, I can only rely on Yu Rou and myself to survive! I should've expected this outcome sooner or later!' Yuan gritted his teeth in frustration, his heart burning with the desire and passion to crawl out of this hellhole.

'Cultivation is now my only hope to recover! Even if it's not a full recovery, I will be satisfied with a partial recovery!'

At this moment, unbeknownst to Yuan, the flames within his heart began pulsating, and the golden symbols engraved in his bones began to glow brightly.

Chapter 233 - Meixius Decision

Chapter 233 - Meixiu's Decision

Although Yuan was unaware of the subtle changes within his body, the golden symbols engraved in his bones glowed brightly and emitted this profound aura that attracted the nearby spiritual energy, vastly increasing Yuan's spiritual energy absorption rate.

Meanwhile, the mysterious flame inside his heart pulsed as though it had become a heart itself, and with each beat, the spiritual energy he'd absorbed was instantly purified and enhanced, greatly boosting its effectiveness.

With these two profound and mysterious powers inside his body, Yuan's cultivation speed soared to a level that rivaled even his cultivation speed in Cultivation Online without eating monster cores.

'What's going on? Why did my cultivation speed suddenly increase so much?'

Even without knowledge of what's happening inside his body, Yuan could tell that something had changed, as his cultivation speed had suddenly increased.

However, he wasn't complaining. And worried that it was only temporary, Yuan focused on cultivating without thinking about anything else.

Whoosh!

A fresh feeling suddenly exploded within his body, signaling that he had a breakthrough, reaching 8th level Spirit Apprentice in just one hour since he began cultivating.

The same refreshing feeling occurred again just three hours later, meaning Yuan had another breakthrough, reaching the peak Spirit Apprentice.

'I had managed to enter Spirit Warrior previously without needing any enlightenment, but that is most likely because of the game. If I want to achieve the same feat in the real world, I'll probably have to experience this enlightenment. Let's see if I can make another breakthrough again.'

With that in mind, Yuan began cultivating again.

Six hours later, Yuan could feel his body filled to the brim with spiritual energy, yet he could not enter Spirit Warrior, almost like there was something preventing him from advancing.

'So this is what Xiao Hua meant by needing enlightenment to continue. However, how does one achieve enlightenment?' Yuan began pondering.

But alas, no matter how much he thought about it, he had zero clues about enlightenment.

'I should ask Xiao Hua about it tomorrow...'

Meanwhile, after school, Yu Rou got into her limousine with Meixiu.

Once the door closed and the car began moving, they resumed their conversation from this morning.

"Have you thought about it, Meixiu?" Yu Rou asked her.

Meixiu nodded, and then she spoke, "Young Lady, if you don't mind me asking, what will happen to us if I decide to help the Young Master? Will I still be serving you?"

"I want you to focus on taking care of my brother, and I don't want to overwork you, so I'll find someone else to take care of my needs. Don't worry, it's not like you're fired. You're just being hired by my brother instead." Yu Rou said.

"I'll even pay you for him. This way, Brother Tian will have less burden."

"I don't really care for the money, Young Lady. If money is my only reason to work for you, I would've left long ago since I have already saved up

enough money to quit my job." Meixiu said.

And she continued, "I know how much the Young Master means to you, and I am also indebted to the Young Master for many things in the past, so if the both of you need my help, I'll do my best."

"D-Does this mean you're willing to take care of Brother Tian?" Yu Rou asked her for confirmation.

Meixiu nodded with a slight smile on her face, and she said, "Only if the Young Lady allows me to continue working for her even if I am already taking care of the Young Master. Of course, I will still prioritize the Young Master, but if I have some free time, I would like to work for you then."

"Meixiu... I don't even know how I should thank you..." Yu Rou could feel herself tearing up.

"You don't have to thank me for anything, Young Lady. I am merely doing my job."

Yu Rou nodded, "Then it's decided. We'll talk more about this once we return to my brother."

Sometime later, the limousine stopped in front of their home, and Yu Rou and Meixiu headed directly for Yuan's room.

"Brother! I have great news!" Yu Rou said as she opened the door.

"I can hear you perfectly, Yu Rou. There's no need to scream." Yuan said with a smile on his face.

"Meixiu, go ahead and tell him!" Yu Rou said to Meixiu who'd just entered the room.

Meixiu then approached the bed before bending her body and bowing to Yuan.

"Young Master, I, Meixiu, will be in your care starting today."

"Huh? Does this mean you're willing to leave Yu Rou's side to come work for me? If that's the case, I should be the one saying that..." Yuan said in a somewhat dazed voice.

"Yes, but I won't be leaving the Young Lady's side. I have decided to work for the both of you, as I'd been trained for this very purpose." Meixiu said.

"Isn't this great, brother? Now that we have taken care of your caretaker problem, we only have two more problems left! Your new home and..."

Yu Rou suddenly stopped in the middle of her sentence. She then went to close the door and continued in a lower voice, "Meixiu, we're about to tell you a very big secret that you must not reveal to anybody— not even my parents, okay?!"

"Not even the Masters?" Meixiu swallowed nervously. What kind of secret are they going to tell her?

"Can you promise to not tell another soul, Meixiu? This secret is very related to taking care of Brother Tian as well."

Meixiu nodded with a serious look and said, "I promise, Young Lady, that I won't tell another soul even if I'm tortured to death."

"T-That's a little bit extreme but okay..." Yu Rou was taken aback by Meixiu's seriousness.

"Anyway, do you know about Player Yuan? The player that everybody has been talking about recently? Well, that's—"

Before Yu Rou could even finish her sentence, Meixiu interrupted and said, "Player Yuan is the Young Master, right? I know."

"Eh?" Yu Rou stared at her with a shocked face.

Chapter 234 - A Small Change

"Wait a second... You knew? How did you know that I was Player Yuan? And how long have you known about it?" Yuan asked Meixiu after a moment of silence since Yu Rou was too shocked to speak. "I'm pretty sure we'd kept it hidden pretty well... I think..."

"The musical competition—that's how I learned it," Meixiu said in a calm voice.

"The Young Lady said the Young Master was participating in a music competition, and then Player Yuan managed to obtain first place in a music competition sometime later."

"When I asked the Young Master what kind of instrument he played during his competition, he said it was the zither, which happened to be the same competition Player Yuan had won first place, so I assumed that the Young Master was Player Yuan. It was only after the Young Lady's words just now that confirmed my suspicions."

"So you've only known about it for a day or so?" Yuan asked her.

"That's correct."

"Y-You didn't tell anybody else about this, did you?" Yu Rou finally asked her.

"Of course not, Young Lady. It was only a suspicion until just now, anyway." Meixiu shook her head.

"Well... Since you already know, this will make things much easier for us. Brother Tian will need to earn money in the future, and he intends on selling some things in Cultivation Online for real money. However, it's

obvious that he won't be able to do that by himself, so you'll do that for him, hence why not just anyone can do this job."

Meixiu nodded, "I understand."

"By the way, Brother Tian, while you've already decided to leave the family, let's wait until the last day so we have more time to prepare. Although we've found someone to take care of you, we still need to look for a new home for you. It's the weekend tomorrow, so I'll call some people and see if they have a place. After all, I'd rather you stay with someone I know."

"Okay," Yuan said.

Yu Rou and Meixiu left the room to prepare dinner for Yuan.

An hour later, Yu Rou returned to the room to take care of his needs.

"Yu Rou, I want to play tonight. I've slept enough this morning."

"Okay." Yu Rou said as she fixed his long hair and placed the console on his head before turning the power on.

While Yuan entered the game, Yu Rou cleaned the place and left his room.

Meanwhile, Yuan summoned Xiao Hua.

"Xiao Hua, I have a question regarding something you'd said before. When a cultivator reaches peak Spirit Apprentice, they must experience 'enlightenment' before they can breakthrough to Spirit Warrior, correct?"

"That's right." Xiao Hua nodded.

"What exactly is this enlightenment? Are there any tricks to it?"

"Why do you want to know, Brother Yuan? You're already a Spirit Warrior and even about to become a Spirit Master." Xiao Hua asked him.

"Well... I am just curious about it since I never got to experience it for myself. Furthermore, it might help me if I need to experience enlightenment for Spirit Master."

Xiao Hua nodded and then said, "Close your eyes, Brother Yuan."

Yuan didn't question her and closed his eyes.

Once Yuan closed his eyes, Xiao Hua lifted her small hands and poked Yuan between his eyebrows with her finger.

A small light appeared between Yuan's forehead for a split second before disappearing.

Meanwhile, inside Yuan's head, he was experiencing enlightenment. However, it was not his own enlightenment. Instead, it was Xiao Hua's enlightenment when she first broke through to Spirit Warrior, and she was merely sharing her experience with him through a mysterious technique.

"So this is what enlightenment feels like, huh?" Yuan mumbled, and he opened his eyes a few seconds later.

Although it felt much longer inside his head, it only lasted a few seconds in reality.

"There are really no tricks to receiving enlightenment, Brother Yuan. However, it might help you if you have felt it before."

"I see... Thanks a bunch, Xiao Hua! I'll see you again tomorrow!"

Yuan immediately logged off and began trying to gain enlightenment for himself while the feeling was still fresh.

After taking a deep breath, Yuan recalled what he'd experienced just now and began cultivating with that in mind.

Yuan quickly entered a tranquil state of mind where he thought of nothing, almost like he was half asleep.

A few hours later, Yuan felt as though the invisible wall that had been blocking him from progressing had suddenly collapsed, allowing his spiritual energy to flow forward, breaking through to Spirit Warrior.

Whoosh~!

A gust of wind appeared in the room despite the closed windows, and the thin blankets covering Yuan's body were sent flying off the bed.

In this dark room with all light sources turned off, a faint golden light could be seen around Yuan's body at this moment, and inside Yuan's body, he could feel a tingly sensation coursing through his veins across his body.

A couple of moments later, the light subdued and the wind disappeared.

'This is what Spirit Warrior feels like in the real world? I feel more energetic and powerful than I did in Cultivation Online when I first entered Spirit Warrior...'

With so much energy in his body, Yuan couldn't help but try to move his limbs, and to his surprise, while he couldn't move his arms or legs, he could feel rigid movements in his fingers and toes!

'I...I can move?!'

Even though he was barely able to move his fingers and toes for a few seconds, Yuan was ecstatic about this small change, as this meant that he still has hopes for recovery!

And to make sure he wasn't imagining things, Yuan spent the next couple of minutes moving his fingers and toes.

'I-It's real! I am not dreaming! I can really move my body!' Yuan cried inwardly.

Once he'd calmed down, Yuan immediately returned to cultivating. If reaching Spirit Warrior helped him recover some control over his own body, what will happen once he reaches Spirit Master and above? Will he be able to move his limbs next? Maybe he'll even be able to walk again!

Chapter 235 - Looking For A New Home

Even though he'd broken through to Spirit Warrior, Yuan's cultivation speed did not slow down. Instead, it grew even stronger. In fact, he was absorbing the spiritual energy around him so quickly that it created a very subtle wind in the room, almost like there was a fan on low power inside the room.

By the time morning came, Yuan had advanced another level, reaching 2nd level Spirit Warrior.

Meanwhile, after waking up, Yu Rou immediately went to prepare breakfast.

'Eh? Why's the blanket on the floor?' Yu Rou thought to herself when she entered the room and saw the blanket on the floor.

The windows were closed, so it couldn't have been the wind. However, she didn't think much about it and proceeded with her daily routine.

A few hours later, after feeding Yuan and cleaning him up, Yu Rou prepared for her morning practice.

After morning practice was finished, Yu Rou returned to her room. However, instead of surfing the internet or playing Cultivation Online as she'd planned, Yu Rou looked through the contacts on her phone and began calling people she trusted.

And while there were a lot of contacts on her phone, only a couple of them truly mattered to her.

Yu Rou picked one of these trusted contacts and called it.

Ring~

A few rings later, someone picked up the phone.

"Good morning, Young Lady. Do you need me for something? Did something happen to the Young Master?" Doctor Wang's voice resounded through the phone.

"Doctor Wang, how are you doing? Although this is related to Brother Tian, it's not what you are thinking." Yu Rou said, and she continued, "Due to a few unexpected circumstances, Brother Tian... he's looking for a new place to stay, and I was wondering if you have any places that you're willing to rent to him."

"Huh?"

As Yu Rou had expected, Doctor Wang made a puzzled noise behind the phone and turned silent for a moment.

"If you don't mind me asking, why is the Young Master looking for a new place to stay? What's wrong with his current room? Did he release impurities again?" Doctor Wang asked.

"No, it's nothing like that... I wished it was that simple," Yu Rou sighed.

She continued, "Well... Brother Tian might get kicked out of the house, so we have to look for a new place for him to stay, and I'd prefer it if he rents a place from someone we trust."

"W-What? Why would the Young Master be kicked out of the house?" Doctor Wang's flabbergasted voice resounded.

"It's a long story..." Yu Rou sighed, and she proceeded to explain the situation to Doctor Wang, mostly because he'll be affected by it sooner or later. After all, once their parents disown Yuan, they will no longer pay for his medical bills. Even if Doctor Wang is a very generous individual, there's

no way he'd continue treating Yuan without any payments that would cost him millions each year.

"Heavens... I can't believe it... To think they'd disown the Young Master over something like this..." Doctor Wang was truly speechless.

"Don't worry, Doctor Wang... Even if my parents will no longer pay for Brother Tian's treatment, we'll pay for it instead." Yu Rou said.

Since she knew how much wealth Player Yuan has, if Yuan sold even a portion of his in-game gold and treasures, he'll be able to pay for the medical bills and live comfortably for a while.

"Young Lady... We can talk about that once we get there. For now, let's deal with the situation at hand, and that is finding the Young Master a new residence." Doctor Wang said.

And he continued, "While I don't have any free rooms to rent, I have a few guest rooms available in my main home, and if you don't mind, you can move the Young Master there. That way, I can monitor him with more ease. Of course, it'll be free of charge. You don't need to pay me for rent, as your family has donated more than enough to my hospitals."

"Your main home...?"

Yu Rou immediately hesitated. If this is their main home, Doctor Wang's granddaughter should also be there, and she'd rather not let Yuan so close to her without any supervision.

'I'll let Brother Tian live there if it's our last resort...'

With this in mind, Yu Rou said, "Thank you for your offer, but I can't let Brother Yuan invade your family like this, Doctor Wang. I'll see if there are any other options first. If not, I'll contact you again."

"I understand. My doors will be open for the Young Master whenever. I'm sure my granddaughter Wang Xiuying wouldn't mind having the Young Master here as well." Doctor Wang said.

Yu Rou hung up shortly later and exclaimed afterward, "She's exactly the reason why I don't want Brother Tian living there! Who knows what that fox might do to my brother when I'm not around!"

Sometime later, Yu Rou called a few more people but to no avail.

"Looks like there's only one more person to call..."

Yu Rou picked up the phone and tapped on the name 'Xia Jingyi'.

Ring... Ring... Ring...

"Sister Rou! I was just about to call you! Are you going to play Cultivation Online today? I just finished unboxing the console!"

"Oh... Something else came up, so I won't be able to play this weekend." Yu Rou said.

"What happened? You don't sound happy," Xia Jingyi suddenly asked.

After sighing, Yu Rou responded, "I'm looking to rent a place for my brother. I don't want to go into the details, but he needs to find a new home soon."

"Is that so..."

After a moment of silence, Xia Jingyi said, "Well, if you're looking for a place, how about I lend you one of the rooms in an apartment owned by my parents? You don't have to pay me anything either. It's also not too far away from our school, so you can visit him after school."

"Really?!" Yu Rou immediately became ecstatic after hearing this.

"Yes. I'll let my parents know that it's occupied so they don't rent it out by accident." Xia Jingyi said.

"Thank you so much! I'll definitely repay you for this when I get the chance!"

"You don't have to repay me, Sister Rou. After all, we're friends, and you've already done enough for me at school. If anything, I should be the one repaying you for everything you've done for me." Xia Jingyi said with a warm smile on her face.

Chapter 236 - Moving Out

After talking with Xia Jingyi for a few minutes on the phone, Yu Rou hung up and went to Yuan's room to relay the news to him.

"Brother, I've found a place for you to stay at, and it's even for free!"

"Really? How did you find this place?" Yuan couldn't help but ask.

"Do you remember that time I mentioned my classmate who was a sweet girl? I spoke to her just now, and she said that you can move into her apartment for free!"

"I see... Thank you, Yu Rou, for helping me with this... None of this would've been possible without you." Yuan said.

"Don't even mention it!" Yu Rou chuckled.

"Anyway, when do you plan on moving out?"

"I can move out now if everything is prepared," Yuan said.

"Well, you have someone to take care of you, and you have a place to stay. Now we just need to worry about your medical expenses and whatnot." Yu Rou said.

"It's fine, Yu Rou. I don't think I'll need to do any more checkups. After all, I've been doing it for the past ten years without any different result; it's just a waste of money at this point." Yuan said, not mentioning his slight recovery just yet, as he wanted to be able to move at least his limbs before telling her.

"Are you sure? I still think it would be better if we have Doctor Wang check your body every once in a while." Yu Rou said.

"I guess we can do that."

"Anyway, since there's nothing else, we can move whenever you want, brother."

"Let's move out now. I don't want to stay in this place any longer." Yuan said.

"Okay. Let me get your wheelchair."

Yu Rou went outside and returned a couple of minutes later with the wheelchair.

"Brother, I think we should get you cleaned first before you leave. After all, it might be more difficult to clean you in your new home." Yu Rou suddenly suggested.

"Okay."

Thus, Yu Rou placed Yuan in the wheelchair before pushing him to the bathroom.

Once the bathtub was ready with warm water, Yu Rou rinsed Yuan's body and washed him before carrying him into the bathtub.

"Brother... you've gotten noticeably heavier... I'm already starting to have trouble carrying you." Yu Rou said, and she continued, "Even your body... It's definitely much meatier than last week, and even your muscles are somewhat refined! Is this because of the soup or something else?"

Yu Rou was pleasantly surprised when she realized just how much Yuan's body has changed compared to last week. It would be like comparing a skeleton to a healthy body!

"Who knows, but isn't this a good thing? Maybe I'll even suddenly start walking again next month if it continues like this!" Yuan laughed in a non-

joking voice.

"Don't worry, bother. No matter what, I will not lose hope. Even if our parents give up, I will never give up on you..." Yu Rou said in a somewhat sobbing voice.

If Yuan could turn around and see Yu Rou's face right now, he would see tears dripping from her beautiful face.

"Yu Rou..." Yuan sighed.

'While I cannot do anything for her in this world... if it's Cultivation Online...'

After thinking for a moment, Yuan said, "Yu Rou... You've always wanted me to return to the spotlight, right?"

"Eh?" Hearing Yuan's sudden question, Yu Rou quickly wiped her tears and said, "Of course. Brother's the most handsome when he's surrounded in that dazzling light, and I want people to look at you in admiration like previously."

"I don't know when I'll be able to return to that spotlight in this world, but in Cultivation Online, where I can use my body to its full extent and more, I'll do my best."

"What are you talking about, brother? You're already in the spotlight. People just don't know it's you... yet." Yu Rou laughed slightly.

"I know... that's why I'll reveal my identity—I'll let the world know who Player Yuan is, so they'll know it's me." Yuan suddenly said, shocking Yu Rou.

"What?! If you do that, you'll—!"

"Of course I am not going to reveal it now, but once I'm ready, I'll let the world know. The only reason I've been keeping this identity a secret is so that our peaceful life won't be disturbed. However, now that our peace has

been disturbed, it wouldn't matter if I reveal my identity or not. Perhaps I'll even get some help that way."

"While that is true... That's a very risky move. Who knows what will happen once the world learns of your real identity, especially the Legacy Families. They're the ones you should be the most worried about since you've taken their spotlights."

"I see..." Yuan mumbled.

After submerging themselves in the bathtub for many minutes, Yu Rou carried Yuan out of the bathtub and placed him on the drying table whilst she went to dry herself with a towel.

Once she was fully dressed, Yu Rou helped Yuan put on his clothes before carrying him back to his wheelchair.

Upon leaving the bathroom, Yu Rou went to speak with Meixiu.

"Meixiu, I'll bring Brother Tian to his new living quarters now. Can you pack his things in the meantime? It's mostly just his clothes and the console," Yu Rou said to her.

"I understand." Meixiu nodded.

Once Yu Rou and Yuan left the place, Meixiu immediately began packing Yuan's clothes.

And just like Yu Rou had said, there really wasn't much to pack besides some clothes and pajamas. In fact, the biggest thing she had to pack was the gaming device that took up an entire suitcase by itself.

Meanwhile, Yu Rou entered the limousine with Yuan and made their way to the apartment that was only three miles away from the school she was attending, and she called Xia Jingyi before leaving the house to let her know that they were heading there now.

Chapter 237 - 17F

Half an hour after leaving the house, the limousine stopped in front of a large apartment that had over 20 floors, and Yu Rou pushed Yuan towards the entrance, where a young lady with two large assets was standing.

"Sister Rou!" Xia Jingyi waved at her with a delightful look on her face upon seeing their figures.

"I'm sorry for coming here on such short notice, Jingyi," Yu Rou said with an apologetic smile.

"Don't even mention it. I don't live that far away from here, anyway." Xia Jingyi said.

She then looked at Yuan and said, "Hello, Sister Rou's elder brother. My name is Xia Jingyi, a fellow classmate, it's really nice to finally meet you."

"My name's Yu Tian. Thank you for letting me stay here. When I get the chance, I'll definitely repay you."

"We can talk about that later," Xia Jingyi said, and she continued, "Come, let me show you your room."

There were two entrances they had to pass before reaching the elevators. The first entrance led to a small lobby where the mailboxes are kept, whilst the 2nd entrance led to the receptionists and elevators.

"Your room will be on the 17th floor." Xia Jingyi said as she pressed the button inside the elevator.

The elevator door closed, and they began ascending quickly.

A few moments later, they arrived on the 17th floor.

Ding!

The door opened, and Xia Jingyi walked out, followed by Yu Rou and Yuan.

Xia Jingyi stopped in front of the door at the end of the hall and said, "This is 17F, it's the largest and most luxurious room on this floor."

"A-Are you sure?" Yuan spoke in a hesitant voice, and he continued, "You can just give me one of the ordinary rooms. I don't want to feel like I am taking advantage of your kindness, especially since I am living here for free."

Xia Jingyi chuckled and said, "Sister Rou always mentioned how kind and humble you are. Don't worry, it's just one room. It won't affect us at all."

"Here's the keys and a spare one." Xia Jingyi handed Yu Rou two sets of keys after unlocking the doors.

"Thank you."

"Let me show you around." Xia Jingyi opened the door and went inside the apartment room.

"There is a living room, a kitchen, one bathroom with its bathtub and shower separated, three bedrooms, and a balcony. Also, everything in here is new, so it's not been used before. What do you think?"

After a quick tour around the place, Yu Rou nodded, "If I have to be honest, it's much larger than necessary."

And she continued, "The bedroom is good, and the bathroom is also big enough. I don't have any complaints."

"That's great. Then you can move here whenever you feel like it. The keys are already in your hands."

"Once again, thank you for this, Jingyi," Yu Rou said to her.

After talking for some time, Xia Jingyi, "If you ever need me, just call my number and I'll see what I can do."

"Okay," Yuan said.

"By the way, Sister Rou, before I leave you two alone, I am currently in the Eastern Continent at someplace called Red Pearl City."

Yu Rou nodded and said, "I'll see how far away it is and if I'll be able to get there."

"Okay. I'll go do some quests and cultivate some more in the meantime."

After Xia Jiayi left the place, Yuan said, "I'll let Feng Feng know. She should be able to help you meet her since you're both within the Eastern Continent."

"Sounds great. Anyways, let's put you on your new bed so we can get some feedback. If you don't like it, we can change the mattress."

Yu Rou proceeded to push the wheelchair into the largest bedroom before carrying Yuan onto the bed.

"Well? What do you think?"

"It's a bit softer than what I'm used to, but I think I like this better."

"I'll ask you again in a few days." Yu Rou said.

Ring~ Ring~

"It's Meixiu." Yu Rou said after seeing the caller on her phone.

"Are you on your way here, Meixiu?"

"Yes. I am on my way to the address you gave me."

"Okay, call me again when you're downstairs."

After hanging up, Yu Rou and Yuan began talking more about their plans until Meixiu called again.

Once Meixiu arrived, Yu Rou went downstairs to meet her before coming back up.

"This will be Brother Tian's new home." Yu Rou gave Meixiu a tour around the place.

"This place is very close to school, which will make things far more convenient for the both of us."

Meixiu nodded, and then she asked, "What else needs to be done?"

"Well, there's really nothing else to do... Oh, right!" Yu Rou suddenly recalled.

"We need to find a way for Brother Tian to sell his in-game items for real-life currency. It would be risky if Brother Tian traded the treasures personally so it would be for the best if he handed you the treasures instead."

"In other words, we need you to play Cultivation Online!"

"I-I understand..." Meixiu nodded, feeling like it was a weird thing for her to play video games since she has never really touched them before besides a few occasions when Yu Rou wanted to play with her.

"Hopefully, you are also in the Eastern Continent, or that will make things complicated," Yuan said.

And he continued, "Though, Feng Feng should still be able to pick you up... I'll ask her later."

"Feng Feng...?" Meixiu raised her eyebrows.

"Yes, she's a phoenix who can fly at extreme speeds. She'll probably be able to travel to other continents with ease as well. Anyways, we can figure the rest of this out once you create your character."

"Okay."

Sometime later, Yu Rou began unpacking Yuan's luggage whilst Meixiu went to clean the house that was slightly dusty. Once that was done, Meixiu went outside to buy a console so she could play Cultivation Online later.

Chapter 238 - Meixius Evaluation

Chapter 238 - Meixiu's Evaluation

Meixiu returned to the apartment half an hour later with the console in her grasp.

"Great! Why don't you start playing now?" Yu Rou said to her.

"You want me to play right now, Young Lady?" Meixiu raised her eyebrows.

Yu Rou nodded. "There's nothing else to do until dinner anyways."

"If that's what you want..."

"Let's go to the other room." Yu Rou and Meixiu went to the room next to Yuan's room a few moments later.

Once Meixiu laid on the bed and placed the helmet on her head, Yu Rou said to her, "You can log off after creating your character and looking at the map to see which continent you're on. You'll be transported to one of the four available continents randomly, so let's pray that you end up in the Eastern Continent. See you in a bit."

After pressing the power button, Meixiu could feel her consciousness leaving her body and moving elsewhere, feeling almost like she was ascending to heaven or something similar.

A few moments later, she found herself inside a white room that had been visited by every other player in the world.

Clank!

The space before her suddenly cracked, and to Meixiu's surprise, a young lady around her age appeared from the crack.

"Hmmm... So you're someone from the 'Missing Piece', huh? I was wondering if you guys were anything special, but looking at you now, you don't seem any different than the mortals in our world." The young lady said in a somewhat disappointed voice after staring at Meixiu for a second.

"Umm..." Meixiu had many questions in her head, but she wasn't able to ask any of them due to the young lady speaking before she could.

"Place your hand on this crystal ball so we can get this over with. I've already lost my interest."

Meixiu decided to not ask any questions and placed her hands on the crystal ball.

A few moments later, her status appeared.

Name: Meixiu

Cultivation: None

Legacy: None

Bloodline: None

Physique: Spirit Severing Physique

Physical Strength: 82

Mental Strength: 220

Soul Strength: 555

Physical Defense: 34

Mental Defense: 150

"Oh?"

The young lady's eyebrows raised in a slightly surprised manner when she saw Meixiu's seemingly high stats.

"Spirit Severing Physique, huh? Not bad— Not bad at all. Since you have a Divine-rank physique, you're qualified to become a servant for me at the very least. Here. Take this. If you ever reach the upper heavens, come find me at the Qu Family and show this to the people there."

The young lady surnamed Qu tossed a jade medallion to her before turning around and walking into the crack.

A few moments after the young lady disappeared from the white room, Meixiu was teleported to Mountain #189, one of the thousands of floating mountains around that place, and despite the gaming being out for many weeks now, there were still tens of thousands of new players every day.

After standing around for a few minutes, an NPC appeared before them in the sky, and he began explaining to them about the cultivation world.

Once the explanation ended, he gave the players the Basic Qi Gathering Technique alongside a talisman that told the players their physique's rank.

[Rank: Divine]

Meixiu stared at the word on her talisman that would make countless players and NPCs alike jealous with a somewhat tranquil look on her face, almost like she didn't really care.

"If you have a Heaven-rank or above physique here, raise your hand." The Cultivator in the sky said.

"..."

However, nobody raised their hands.

The Cultivator sucked his teeth in disappointment after seeing this, and he quickly said afterward, "My time is precious and limited. You can all get out of my face now."

And with a wave of his sleeves, all of the players there were sent flying towards the portals in the back.

Once she was standing again, Meixiu brought up the map.

"Western Continent..." Meixiu sighed before logging off the game like Yu Rou had told her to.

After logging off the game, Meixiu removed the helmet from her head and got off the bed.

"Young Lady, I am done." Meixiu knocked on Yuan's door.

"Already? That was quick." Yu Rou opened the door for her, and she continued, "Well? Did you spawn within the Eastern Continent?"

Meixiu shook her head and said, "Unfortunately, I did not, Young Lady. I am currently within the Western Continent."

"How unlucky..." Yu Rou also sighed.

"It'll be fine. I'll talk to Feng Feng after this and see if there's any way we can bring her to the Eastern Continent." Yuan said.

"Okay."

Sometime later, Yu Rou said, "I'll go prepare for your dinner now— Oh, wait... We don't have any ingredients to cook with since we didn't go shopping yet."

"Let me go order some groceries now..."

Yu Rou opened her phone and began buying groceries on a shopping app, allowing them to receive food and groceries without leaving the house.

An hour later, someone knocked on their door and handed off the groceries to Meixiu.

"I'll cook dinner, Young Lady," Meixiu said.

However, Yu Rou immediately refused and said, "Although this won't be my last time cooking for Brother Tian, I won't be able to cook for him as often, so I want to do it properly like usual. You can just relax, Meixiu. After all, you'll be working hard starting tomorrow."

"If you say so, Young Lady..." Meixiu nodded, and she proceeded to sit on the couch doing nothing but stare at the space in front of her with a dazed look.

"..."

Yu Rou was speechless by this, and she sighed, "If you want, you can help me wash the vegetables, I guess..."

"I shall do that then." Meixiu immediately stood up and went to the sink to wash the vegetables.

"Just how much of a workaholic are you, Meixiu? You're still too young to be acting like this..." Yu Rou shook her head, as she didn't know whether to laugh or cry at Meixiu's desire for work.

Chapter 239 - The Truth

After cooking dinner and feeding Yuan, Yu Rou said, "Even though you'd moved out of the house and everything, there's still about two days before you're officially disowned, so I plan on keeping it a secret until then. Who knows, maybe mother and father will even change their minds about disowning you."

"Okay. However, even if they change their mind, I have already decided to leave the family. After all, if one day I recover from this condition, I don't want them to believe that it was all due to their help. I want to prove to them and myself that I can survive even without them." Yuan said.

"If that's your decision, brother, I won't say anything else. I also believe that you'll one day make a full recovery," said Yu Rou.

"Anyways, it's getting late, so I'll head home tonight. I'll be back tomorrow, though." Yu Rou said.

"Okay. See you tomorrow."

After leaving Yuan's apartment, Yu Rou locked the door with the spare keys and quickly returned home.

Meanwhile, Meixiu stayed behind to take care of Yuan.

"Do you need anything, Young Master?" Meixiu asked him.

"Yes, I actually do... Meixiu, can you stop calling me Young Master? I am no longer part of the Yu Family, and there's no need to be so formal to me. Just call me Yu Tian, or even better, Yuan."

"..."

Meixiu did not immediately respond.

After a moment of silence, she suddenly asked him, "When do you plan on telling the Young Lady the truth?"

"..."

"..."

"..."

"The truth... huh."

A bittersweet smile appeared on Yuan's face, and he said, "I wanted to tell her yesterday— No, I planned on telling her if she refused to let me leave the family, but I guess that's no longer needed. However, that's not to say I intend on keeping that secret forever. Once the time is right, I'll tell her."

"I understand."

"Thank you, Meixiu..." Yuan suddenly said, and he continued, "Thank you... for not telling her even though you work with her pretty much every day."

"It's not a big deal, really. I don't think it would change your relationship that much even if she knew."

"Perhaps... But I don't want to risk it." Yuan sighed.

"But she will find out sooner or later, especially now that you're no longer part of the family." Meixiu said, and she continued, "Who knows, maybe the Masters will reveal everything to her once they officially disown you."

"..."

Yuan turned silent after hearing her words.

And he spoke in a solemn voice, "If that happens, it is what is it."

Meixiu shook her head and sighed, "I really don't understand you sometimes, Young Master— Yuan. How hard would it really be for you to say 'we're not blood-related since I was adopted into the family'?"

"You won't understand it even if I told you, Meixiu. The fear of being ignored once someone realizes that you're not who they think you are." Yuan sighed.

"I don't think the Young Lady is that kind of person. Even if you're not real siblings, she won't abandon you." Meixiu said.

"I know she's not, and she most likely won't abandon me, but I still fear that minuscule possibility, and I can't shake off this feeling no matter how much I try. I... really don't want her to hate me for lying to her all these years."

"I wouldn't consider that lying so neither should you. After all, everyone has a secret or two in their lives. Don't think too much about it." Meixiu shook her head.

"If our parents don't tell her first, I'll tell her the truth once I recover from my condition somewhat," Yuan said.

Meixiu looked at Yuan's still body for a moment before speaking, "Yuan... Do you really believe that you'll be able to recover fully?"

Yuan chuckled at her words and said, "Of course not. However, there's no harm in hoping for the best."

"I see..."

"Anyway, you can go rest. I'll be on Cultivation Online tonight to see if I can bring you to the Eastern Continent." Yuan said.

"I understand. Goodnight."

"Goodnight."

Once Yuan entered the game, Meixiu went to the bathroom to wash herself before going to sleep shortly later.

Inside the game, Yuan called for Feng Yuxiang and asked her, "Feng Feng, do you think you can bring someone from the Western Continent to the Eastern Continent?"

"The Western Continent? I can. But why?"

"I have a friend there, and I have some business with her. How long do you think it'll take to bring her here?"

"It shouldn't take too long— probably a few days, even less if we take the teleportation devices. Do you want me to bring your friend from the Western Continent here, Young Master?" Feng Yuxiang asked.

Yuan nodded, and he said, "Yes, but before that, can you bring my sister, Yu Rou, to a place called Red Pearl City? She's still in Phoenix City, and her permit expired."

Feng Yuxiang nodded, "That won't be a problem. When do you want me to go?"

"You can start making your way there now. I'll tell her to meet you there sometime tomorrow." Yuan said.

"It's fine, I have memorized her aura, so I will be able to find her no matter where she is as long as she's within the city. However, it'll still be better to have a meeting point. How about the Golden Phoenix Bazaar where we first met?"

"Okay. I'll tell her that."

"Then I'll be back after I transport your sister. See you later, Young Master."

"Thank you for your help, Feng Feng."

"Don't even mention it, Young Master. It's my pleasure to assist you."

Feng Yuxiang left the Dragon Essence Temple shortly later and soared towards Phoenix City, shocking the sect elders and disciples within the sect with her fiery appearance.

And shortly after Feng Yuxiang left, someone knocked on the door to Yuan's house.

"Is this where Disciple Yuan lives?! You had an official match today, and you missed it! If you don't show up tomorrow, you'll be punished according to the sect rules!"

"What?" Yuan was shocked when he heard this. Where did this match come from? And who's he fighting?

Chapter 240 - Official Match

Chapter 240 - Official Match

After hearing the knock on the doors, Yuan went downstairs to see who was knocking on the door.

Upon seeing the middle-aged man standing before him, Yuan asked, "Excuse me, but what do you mean by official match? I don't remember accepting any matches."

The sect elder standing outside then pulled out a logbook and pointed at his name that was written on one of the pages, "Is this not you?"

Yuan looked at the logbook.

"Outer Court Disciple Yuan versus Outer Court Disciple Wu Laohu."

"That is indeed my name, but I don't recall agreeing to any matches." Yuan was baffled to see that unreasonable disciple's name next to his name.

And he wondered, 'How did he even learn my name? I don't remember giving it to him!'

Unbeknownst to Yuan, whenever a disciple challenges another disciple to a deathmatch, regardless if the challenge is accepted or not, their names will be recorded in a jade slip at the Dispute Hall so the sect elders can keep watch of them, and that's how Wu Laohu learned of his name.

"I don't know your situation, Disciple Yuan, but it's an official match, and if you don't participate tomorrow, you'll be punished according to the sect rules." The sect elder said, thinking to himself that Yuan must be backing out after agreeing to fight Wu Laohu.

"Is there no way to cancel the match?" Yuan asked, as he really didn't feel like fighting without any reason.

The sect elder shook his head and said, "After your name is written in the logbook and a sect elder stamps it, you must participate in the fight no matter what. However, if both you and Wu Laohu agree to end the match, we can stop it."

'Haaaa... I doubt that person will agree to stop the fight, especially since he was the one who started it.' Yuan sighed inwardly.

Xiao Hua's voice suddenly resounded inside his head, "Brother Yuan, just accept the challenge and fight him. That disciple is the type of people who won't give up until the bitter end, so it's better to just give him what he wants. You'll take care of him easily, anyways."

'Since I have no choice but to fight him, I guess so...'

Yuan then nodded, "I understand. I'll show up for the match tomorrow."

"Good. The match will begin at the peak of sunrise tomorrow morning." The sect elder said to him before leaving.

After returning to his room, Xiao Hua appeared and said, "Brother Yuan, there will be times when you must step onto the stage and fight even if there are no good reasons for it. That's just the cultivation world. You fight and fight and fight until nobody dares to fight you anymore."

"If you don't accept these challenges, people will think you're a pushover and continue pressuring and bullying you. That's why the best thing to do is to just fight them."

"Hmm..." Yuan laid on the bed and stared at the empty ceiling with a dazed look on his face.

"Thank you, Xiao Hua. I think I know what to do tomorrow." Yuan nodded.

"I'll see you tomorrow morning, Xiao Hua. I just logged on to speak with Feng Feng for a bit."

"Okay. Goodnight, Brother Yuan."

After Xiao Hua returned to the necklace, Yuan logged off and proceeded to cultivate until morning.

"Good morning, Yuan." Meixiu entered his room early in the morning already with breakfast prepared.

"Good morning, Meixiu."

Sometime later, Meixiu began feeding Yuan soup.

"What do you think? Does it suit your taste?" Meixiu asked.

"Yes."

After breakfast, Yuan said, "By the way, Meixiu, I have a way to get you to the Eastern Continent in just a few days. I'll let you know when it happens."

"I understand."

After cleaning up, Meixiu said, "The Young Lady should be here in half an hour."

"I have something to take care of in Cultivation Online so I won't be able to greet her when she arrives," Yuan said.

"I understand. I'll notify the Young Lady."

Sometime later, Yuan went into Cultivation Online whilst Meixiu waited for Yu Rou's arrival.

Once Yuan returned to his room in the Dragon Essence Temple, he left the house and made his way to the sparring area where matches between disciples are held almost every day whether it be deathmatches or just casual sparring.

About twenty minutes later, Yuan arrived at the area, and to his surprise, there was already a large crowd there with all of them surrounding a large

platform.

"I heard Mad Tiger's opponent was too scared to show up yesterday?"

"That's right. We waited for the entire day and the bastard never showed up despite agreeing to this fight! What a spineless coward!"

"Then how do we know he'll be showing up today?"

"Apparently one of the sect elders spoke with him last night and confirmed that he will be showing up today."

"I see..."

While the disciples made fun of Yuan for not showing up yesterday, Yuan approached the stage that had two people on it— Wu Laohu and a sect elder.

"Look who decided to finally show up?! Did you finally stop shitting your pants?!" Wu Laohu laughed out loud when he noticed Yuan's approaching figure.

The disciples there quickly turned to look at Yuan's handsome face, even making a path for him so he could enter the stage.

A few moments later, Yuan stepped onto the large stage and stood a couple of meters away from Wu Laohu.

"Where were you yesterday?" The sect elder looked at Yuan with a frown on his face.

"I didn't know I had a match yesterday because I never agreed to fight him," Yuan responded in a calm voice.

The sect elder coldly snorted at his words and said, "Bullshit. I personally witnessed you agreeing to the fight, yet you dare claim that it never happened? I didn't know you were this shameless."

Yuan frowned at the sect elder's words. Was he involved in this scandal as well?

Chapter 241 - Im Gonna Make An Example Out Of You!

Chapter 241 - I'm Gonna Make An Example Out Of You!

"Disciple Yuan, right? I can still forgive you for your audacious behavior if you kowtow before me and beg for forgiveness." Wu Laohu laughed out loud in a provocative manner.

However, Yuan remained calm and said, "If you fight every person that you bump into, you'll eventually bump into the wrong person and regret it."

Yuan's words wiped the smile off Wu Laohu's face, and Wu Laohu sneered, "I changed my mind. Even if you beg for forgiveness, it's already too late. I'm going to beat you until even your mother won't recognize you!"

"Elder Cheng, you can start the match!"

Elder Cheng nodded and said, "The rules for this match are simple— you fight until either one of you faints!"

The disciples were shocked when they heard the rules. Normally, one can end the fight by surrendering or leaving the stage, but according to Elder Cheng's words, they only lose when one of them loses consciousness! Isn't this basically a death match but without the death part?

"What? I have never seen such rules before! Did Elder Cheng and Mad Tiger plan this fight? I have heard rumors of it happening before as well!"

"Shhh! Don't let them hear you or you'll be on the stage next!"

Yuan's eyebrows twitched when he heard these disciples' whispers. Apparently, this isn't Wu Laohu's first time doing something like forcing another disciple to fight him.

'Why am I not surprised?' Yuan sighed inwardly.

"This is the true nature of the cultivation world, Brother Yuan. People will do whatever they can to achieve their goals." Xiao Hua's voice resounded inside his head.

Elder Cheng then continued, "Weapons are allowed in this match, but you are not allowed to use treasures! Furthermore, you are not allowed to kill each other!"

Elder Cheng looked at Wu Laohu as he said the last sentence, almost like it was specifically meant for him!

After all, even though he can help Wu Laohu rig a match, he won't be able to save him if he kills another disciple.

Seeing Elder Cheng's gaze, Wu Laohu showed a smile that said, "Don't worry, I won't kill him."

Elder Cheng nodded. He then turned to look at Yuan and said, "Are you ready to fight?"

"I am," Yuan responded calmly.

Wu Laohu retrieved an ordinary sword from his storage pouch and swung it around a few times with excitement in his movements.

Meanwhile, Yuan simply stood there without moving a single finger. Since he couldn't use treasures, all of his weapons were restricted. With that being said, he never planned on using a weapon to begin with.

"Does that disciple intend on fighting Mad Tiger without a weapon?! He's a madman!"

The disciples were dumbfounded when they saw this, and they couldn't tell if it was arrogance or stupidity.

Wu Laohu frowned when he saw this, thinking that Yuan was looking down on him.

"Hmph! As if I need a weapon to best your ass! In fact, I can beat you even more without a weapon!" Wu Laohu tossed his sword back into the storage pouch a few seconds later.

Meanwhile, many meters in the distance, hidden from plain sight, an old woman wearing high-ranking sect elder robes watched the match with a smile on her face.

"The Sect Master told me to protect him, but he also told me to not interfere unless necessary. While I could have prevented this match from even happening in the first place, that wouldn't be fair to Disciple Yuan who wanted to experience life as a disciple, right?"

This old lady was a high-ranking sect elder who worked at the Dispute Hall. Even though she could've stopped Wu Laohu and Elder Cheng from rigging this match, she purposefully allowed this match to continue so that Yuan could experience the true nature of the cultivation world and sects where unfairness is in every corner.

While the Dragon Essence Temple tries its best to keep certain things fair for the disciples, they only keep it to a minimum as a way to teach the disciples the laws of the jungle and prepare them for the outside world where everything is much worse.

Once both disciples were ready, Elder Cheng left the stage and said, "You may now begin the match!"

Immediately after Elder Cheng's words ended, Wu Laohu kicked his feet and rushed at Yuan with a bloodthirsty look on his face.

"I'm gonna make an example out of you and show the others what happens when you offend me, Mad Tiger Wu Laohu!"

Once he was close enough, Wu Laohu began clawing his hands at Yuan like a tiger relentlessly.

"..."

However, to the disciples' surprise, Yuan casually dodged every strike with a graceful movement technique they have never seen before.

"What kind of movement technique is that?!"

"I don't know, but look at his feet! You can see a trail of flames wherever he moves!"

"I guess this disciple has some ability, after all!"

The disciples were excited to see Yuan holding his own ground, but some of them still wanted to see a beatdown.

"Is that all you can do?! Dodge?! Fight me!"

Wu Laohu began getting irritated after a couple of minutes, feeling as though he was fighting an invisible enemy who he cannot hit.

Yuan remained silent as he continued dodging Wu Laohu's strikes.

A few more moments later, Yuan suddenly said, "I didn't want to fight, but you forced my hands."

Suddenly, Yuan disappeared from Wu Laohu's view and distanced himself.

"Where do you think you're going?!" Wu Laohu quickly turned around and chased after Yuan.

However, before he could even take two steps, Wu Laohu suddenly stopped moving and stood there like a statue, puzzling the spectators.

Meanwhile, Yuan stood there with a cold expression on his face, his eyes glowing brightly with a golden color as he activated Dragon's Gaze for the first time.

"T-This is..."

Wu Laohu's body trembled uncontrollably after seeing Yuan's golden eyes that emitted a feeling of absolute dominance.

Under the effects of Dragon's Gaze, Wu Laohu suddenly felt as though the entire world had darkened and the passage of time had stopped, and the only thing he could see was these two glowing eyes in the distance that were threatening his very existence!

Chapter 242 - There's No Surrendering In This Match

Chapter 242 - There's No Surrendering In This MatChapter

After activating Dragon's Gaze for the first time since he learned it, Yuan continued to stare at Wu Laohu like a predator staring at its prey.

Since he could not use his treasures, nor did he intend on using any weapons, this was the only way he could deal with Wu Laohu without gravely injuring him.

"W-What's happening to Mad Tiger? He suddenly stopped moving!"

"Look at his face! It's twisted with fear for some reason!"

"What?! How is that possible?!"

The disciples and Elder Cheng there turned their heads to look at Yuan, and to their surprise, when they saw his golden eyes, their bodies trembled with profound fear despite not being targeted by the terrorizing gaze.

'What kind of terrifying technique is that?! I have never experienced such fear in my life— not even when I nearly died that one time!' Elder Cheng could feel his legs shaking uncontrollably, almost like there was an ongoing earthquake.

While the disciples and Elder Cheng were quaking in their boots by the unfathomable aura emitted by the Dragon's Gaze, Wu Laohu, who was directly targeted by this gaze, felt a hundred times worse, almost as though he was staring at a divine beast at this moment.

'What am I looking at? Why is everything so dark? Where am I? Who... am I?'

As though he'd lost his mind, Wu Laohu began questioning his own existence.

Shhhhh...

Unbeknownst to Wu Laohu, he'd pissed his pants, creating a yellow puddle underneath his feet and shocking the crowd. In fact, even after pissing his pants, Wu Laohu remained oblivious to that fact, as he was too fearful to notice anything.

Furthermore, he didn't dare to look away from Yuan's threatening gaze even for a split second, as he feared that if he looked away, Yuan would immediately kill him.

"You forced my hand."

Yuan suddenly said, startling Wu Laohu.

"W-What did you just say...?" Wu Laohu mumbled in a low voice.

"I said... this is all your fault."

BOOM!

Yuan's aura suddenly exploded, and his eyes began glowing even more brightly!

"Amazing! He's releasing an aura that's similar to Spirit Warriors but he's only at the peak of Spirit Apprentice!"

The disciples were shocked by Yuan's sudden display of prowess.

Cough!

Unable to bear Yuan's Dragon's Gaze any longer, Wu Laohu coughed up a mouthful of blood, staining the marble floor red. However, he didn't fall unconscious just yet and is barely holding on!

"If you didn't provoke me, none of this would have happened. If you didn't force this match, I wouldn't need to do this." Yuan spoke in a calm voice as he began moving again, making his way towards Wu Laohu.

"S-S-Stay away from me..." Wu Laohu spoke with a terrified voice, feeling a strong desire to turn around and run away, yet he remained standing there, rooted in fear.

Before he realized it, Yuan was already standing in front of him like a towering giant!

"P-Please... I-I forfeit! I surrender this match!" Wu Laohu shouted out loud, sounding like he was beginning for his life.

However, Yuan calmly resounded, "Surrender? Did you forget? There's no surrendering in this match. It'll only end when one of us loses consciousness."

The moment his sentence ended, Yuan increased the intensity of his Dragon's Gaze, pressuring Wu Laohu even more.

Cough!

Wu Laohu coughed up another mouthful of blood, feeling his vision becoming blurry.

"Perhaps... I should just kill you right here and right now so you will never be able to bother me again..." Yuan spoke in a cold voice, his eyes narrowing slightly.

"W-What?!" Wu Laohu's eyes widened with shock, and he could feel bloodlust coming from Yuan's gaze.

'He's not bluffing! He'll really kill me!' Wu Laohu thought to himself.

Unfortunately for Wu Laohu, due to the influence of Dragon's Gaze, he was in no condition to think logically, hence why he forgot about the sect rules regarding disciples killing another disciple.

"Die!"

Yuan activated Dragon's Gaze to almost full power, sending Wu Laohu into shock.

"Ah!"

Wu Laohu's eyes rolled behind his head with his body falling backward.

Thud!

Wu Laohu's body collapsed onto the floor a moment later with foam coming out of his mouth.

"..."

The entire place turned dead silent when they realized what had just happened.

"Mad Tiger lost consciousness! It's that disciple's win! He defeated the 3rd ranked Outer Court disciple without lifting a single finger!" One of the disciples there exclaimed after a moment of silence.

After defeating Wu Laohu, Yuan closed his eyes and rubbed them for a few seconds. Once he reopened his eyes, they returned to normal.

"This is my win, right?" Yuan turned to look at Elder Cheng and spoke.

"Gulp!"

Elder Cheng swallowed nervously as a chill went down his spine. Even though Yuan was no longer using Dragon's Gaze, Elder Cheng's body subconsciously reacted even to Yuan's gaze.

'J-Just who is this Outer Court disciple?!' he cried inwardly.

"Hahahahaha!"

Suddenly, a burst of loud laughter resounded in the area, causing everybody there to turn around, and to their surprise, an old lady was approaching the arena.

"Who is that sect elder?"

The Outer Court disciples there were unfamiliar with this old lady's appearance.

However, Elder Cheng's eyes widened with shock when he saw this old lady, as there was no way he'd not recognize the person he's working for—his boss!

"Senior E-Elder Dai!" Elder Cheng immediately bowed to her.

Elder Dai stopped in front of Elder Cheng and spoke in a calm voice, "Elder Cheng, what's going on here?"

"N-Nothing out of the ordinary, Senior Elder Dai. It's just two Outer Court disciples sparring with each other." Elder Cheng responded with a stiff smile on his face.

"Oh? Is that so?" Elder Dai nodded with an oblivious look on her face, acting as if she didn't know any better.

And she continued, "You may return to the Dispute Hall. I'll handle things from here."

"You will?" Elder Cheng looked at her with a gawking expression. Why does she, a high-ranking sect elder, want to handle something like a match between two Outer Court disciples?

Chapter 243 - Becoming Famous In The Outer Court

"Do I have to repeat myself?" The calm look on Elder Dai's face suddenly turned cold, causing Elder Cheng to tremble.

"N-No! I will leave this to you, Senior Elder!" Elder Cheng bowed to Elder Dai again before leaving the area in large strides.

Once Elder Cheng was gone, Elder Dai looked at the Outer Court disciples and said, "Someone bring me a bucket of cold water. Now."

Immediately after Elder Dai's words, most of the disciples there scrambled to get a bucket of cold water.

While they waited for the water, Elder Dai looked at Yuan and asked him, "That was a marvelous display of technique. However, why didn't you strike him? It would've ended much sooner if you'd just knocked him unconscious with your fists."

After a moment of silence, Yuan spoke in a calm voice, "Because I was taught that intimidation works better than violence. Even if I'd beaten him, I don't think he will give up, and he will eventually come to bother me again."

"Is that so?" Elder Dai nodded.

"Anyways, congratulations on defeating Wu Laohu who was ranked 3rd. Since you defeated him, you'll now replace his spot as third."

Meanwhile, somewhere within the Outer Court, on the Outer Court disciple's Power Ranking, Wu Laohu's 3rd place was replaced by Yuan's

name before being pushed down to the 4th place, shocking the disciples that were there to witness this change.

"Disciple Yuan? Who's this? I don't recognize this name! Where the heck did he come from?! Defeating that Mad Tiger is no easy feat!"

A small uproar occurred within the sect on that day with Yuan's name spreading like a wildfire.

A few minutes after the disciples left to get a cold bucket of water, one of the disciples finally returned with a large bucket of cold water.

"Here you go, Senior!" The disciple handed the cold bucket to Elder Dai, who immediately went onto the stage and dumped the entire cold bucket on Wu Laohu's unconscious body.

Splash!

"Aaaaaah!"

Wu Laohu woke up screaming as though he was just having a nightmare.

"Where am I?!" He looked around with a dazed look on his wet face, clearly puzzled by his situation.

However, when he saw Yuan's handsome figure standing not far away, Wu Laohu recalled everything that had happened and immediately ran away.

"Ahhh! Monster! Get away from me! Help—!"

Before Wu Laohu could run very far, Elder Dai appeared in front of him and slapped him in the face, causing him to fall on the floor again.

"Looks like you're still quite healthy." Elder Dai said in a nonchalant voice, and she continued, "You're lucky this wasn't a deathmatch, young man. Come with me, I have a lot to say to you."

Although he was puzzled, Wu Laohu nodded regardless.

"Senior, I..."

Yuan suddenly spoke, but Elder Dai shook her head and interrupted, "You don't have to tell me anything. I know what happened. They forced this match upon you even though you didn't accept it. Don't worry, I will punish them according to the Sect Rules."

Hearing Elder Dai's words, Yuan nodded and said, "Thank you."

"Heavens! I was right! Wu Laohu and Elder Cheng actually conspired against this Disciple Yuan with this fixed match! What an unfair match!"

"Hahaha! But they still lost in the end! How hilarious!"

Sometime later, Yuan left the scene, and the other disciples also left shortly later to spread the news of Wu Laohu's miserable loss.

"What? Disciple Yuan? This is the first time I've heard of this disciple. Is he new?"

"A new disciple defeated that Mad Tiger? He must be a genius!"

"I heard he used some kind of eye technique that rendered Mad Tiger spineless with a single gaze! I wouldn't mess with this guy even if I had ten lives!"

"I was there to witness his eye technique! Shit! I am still getting chills down my spine just thinking about it, and it felt like I was looking at a powerful beast!"

Yuan's name spread across the Outer Court like wildfire, and within a single day, almost every disciple in the Outer Court had heard about his fight against Wu Laohu, becoming famous.

Meanwhile, in the Dispute Hall, Elder Cheng and Wu Laohu stood beside each other while they faced Elder Dai with nervous looks on their faces.

"Elder Cheng, did you really think I didn't know about your actions? Not just today—I have known about it since you rigged your first match." Elder

Dai said in a calm voice, dumbfounding Elder Cheng.

'Does this mean she doesn't intend on punishing me?' He wondered inwardly with a hopeful feeling.

"Do you know why I didn't even bother to punish you?" Elder Dai then asked him.

"N-No, I do not, Senior Elder." Elder Cheng quickly shook his head.

"Because the cultivation world is never fair. Things like this happen on a daily basis throughout the world, not just the cultivation world, and I really couldn't care less about it since it doesn't really affect the sect." Elder Dai said, and she continued, "However, like most situations in the cultivation world, it's not about whether you're caught or not."

Elder Dai narrowed her eyes and said in a cold voice, "It's about who you're doing it to."

"If you'd treated a nobody unfairly, who would care? Nobody would care even if the entire world knew. However, if you treated someone from the Legacy Family like how you treated Disciple Yuan today, what do you think would happen once word gets out?"

"Of course, I doubt anybody would be stupid enough to offend someone from the Legacy Family, but hypothetically, if you'd done that, everybody would call you out for it."

"Now returning back to the topic at hand. The main reason I will be punishing you two for your actions today is not because you were being unfair—it's simply because you'd picked the wrong person to offend." Elder Dai spoke in a calm manner.

"Elder Cheng, you are no longer a disciple of the Dragon Essence Temple as of this moment. As for Wu Laohu, you'll be punished with four years of confinement. If you have a problem with my decision, you may speak with the Sect Master. However, I highly advise you to just accept my punishment

and not speak with the Sect Master, who will definitely make your lives much more miserable."

Chapter 244 - A Powerful Slap

"Y-You're going to kick me out of the sect?" Elder Cheng stood there with disbelief on his face.

"I-I have served this sect for over 50 years! How can you throw me away like trash for something like this?! If it's as you'd said, that my actions don't affect the sect that much, why must you give me such a severe punishment, Senior Elder Dai?! Just who is that Outer Court disciple?!"

"I don't really have anything else to say. If you want to challenge my decision, go ahead and speak with the Sect Master. However, don't say I didn't warn you." Elder Dai said in a casual manner before waving her hands.

"You may leave now. Ah, make sure you hand over your disciple identification token before you leave." Elder Dai said.

"I will speak with the Sect Master! Even though I am wrong for what I did, I don't deserve such a punishment!" Elder Cheng slammed his disciple identification token on the desk before walking out.

"What about you, Disciple Wu Laohu? Do you also want to challenge my decision?" Elder Dai turned to look at him.

However, Wu Laohu shook his head and said, "I... I accept my punishment. No, please punish me."

After the horror he'd experienced today and the embarrassment he'd shown, Wu Laohu would rather stay holed up in confinement for the next couple of years, hoping that the disciples would forget him by the time he reemerges, especially Yuan, who he prays to never run into again for the rest of his life.

Meanwhile, Elder Cheng left the Dispute Hall to look for the Sect Master.

"Hm? The Sect Master? He should be at the Carp Leaping Over Dragon's Gate Tower right now with the other Sect Masters." A fellow sect elder told Elder Cheng after being asked about Long Yijun.

"I see. Thank you."

While Elder Cheng proceeded to make his way towards the tower, the disciples at the tower began whispering to each other after hearing about the fight between Wu Laohu and Yuan.

"What? Wu Laohu was defeated by a new disciple? As if I'd believe that!"

"It's true! Look at the Power Ranking if you don't believe me! A disciple by the name of Yuan had taken his spot and pushed everyone else down a place!"

"What?!"

Once a small commotion occurred in the place, the news eventually reached the ears of Long Yijun and the others.

'What? Disciple Yuan fought a match against Disciple Wu Laohu? How come I'm not aware of this until after the fight ended?' Long Yijun immediately frowned.

Elder Xuan and the other high-ranking elders such as Elder Bai and Elder Xin turned to look at Long Yijun, as they were also clueless.

"Wu Laohu? Isn't that the rumored Mad Tiger who climbed to 3rd place after spending only 2 years in the sect? A new disciple defeated someone like him? This is interesting."

The other sect masters there also had their interests piqued when they heard this news.

"Sect Master Long, do you know this Disciple Yuan who defeated the Mad Tiger?" One of them even decided to ask him.

"No... I have no idea." Long Yijun shook his head.

"If even the Sect Master doesn't know of such a talented disciple, he must be fairly new to the sect! Hahaha! How lucky for the Dragon Essence Temple! Looks like you have picked up another rough gem!"

The guests there laughed out loud.

'You have no idea...' Elder Xuan smiled inwardly at their statement.

Sometime later, Elder Cheng arrived at the place and approached the Long Yijun with a sweaty face.

"S-Sect Master... This disciple would like to have a word with you..." Elder Cheng bowed to Long Yijun in a respectful manner.

Long Yijun raised his eyebrows at Elder Cheng's unexpected approach.

"Elder Cheng from the Dispute Hall, correct? What's the matter? Why are you sweating so much?" Long Yijun asked him with raised eyebrows.

"T-This is..."

Elder Cheng's legs trembled, feeling incredibly nervous at this moment, almost like there was someone suffocating him.

"This disciple seeks justice!" Elder Cheng managed to speak his mind by shouting out loud, even crying afterward.

This shocked the people there. What happened? Why does Elder Cheng look like a child running to his parents after being bullied?

Seeing this, Long Yijun turned to look at the other Sect Masters and said, "Please excuse me for a moment."

"Come with me." He then said to Elder Cheng before leaving the crowd to go somewhere more private.

"What happened?" Long Yijun asked him.

"T-This..."

Elder Cheng proceeded to explain how he'd wronged by forcing a match between two disciples and how Elder Dai wanted to punish him by throwing him out of the sect without mentioning Wu Laohu or Yuan's name.

"What? Elder Dai said that?" Long Yijun couldn't help but become surprised after listening to Elder Cheng.

Even if Elder Cheng had done exactly what he'd said, kicking him out of the sect for something like this was truly an overkill, especially if he'd worked at the sect for so many years.

However, just as Long Yijun was prepared to show Elder Cheng some pity by lowering his sentence, he suddenly recalled what the others were talking about not long ago, which immediately caused him to frown.

And in a low but cold voice, Long Yijun spoke, "Elder Cheng. Let me ask you something. What is the name of the disciple that you'd forced to fight in a match?"

"The name? I think his name was Yuan—"

Before Elder Cheng could even finish his sentence, Long Yijun roared with veins all over his forehead.

"YOU FUCKING FOOL!"

PAP!

A powerful slap suddenly flew across Elder Cheng's face, sending him flying high into the air and towards the crowd at the Carp Leaping Over Dragon's Gate Tower, greatly shocking them.

"What the heck?!" One of the Sect Masters there fell from his seat in a startled manner before staring at Elder Cheng's unconscious body that had suddenly fallen from the sky and landed in front of him like a corpse!

Chapter 245 - Fake It Till You Make It

Elder Cheng's unconscious body falling from the sky had shocked everybody at the Carp Leaping Over Dragon's Gate Tower, immediately causing a scene there.

"E-Elder Cheng! What happened to you?!" Elder Xuan quickly went to check his pulses just to make sure he wasn't actually dead.

After confirming that Elder Cheng was alive, Elder Xuan released a sigh of relief.

"What happened? Where's Sect Master Long?" The other Sect Masters there wondered since Elder Cheng was seen following Long Yijun.

And as though their words had summoned the demon, Long Yijun could be seen approaching them from a distance, but there was something different about him compared to when he left.

When the Sect Masters and the other disciples there saw the rage on Long Yijun's face, they thought his parents had been murdered or something, causing their body to tremble uncontrollably.

"Sect Master! What's the matter? Why are you so angry?" Elder Xuan quickly approached Long Yijun.

"Hmph! Get this!"

Long Yijun quickly explained the situation to Elder Xuan without letting the others hear it.

"Elder Cheng did what?!"

Elder Xuan shook his head in regret, and all of the pity and worry he had for Elder Cheng disappeared in less than a second after learning what Elder Cheng had done to Yuan.

"Elder Bai!" Long Yijun suddenly called for Bai Ling, Disciplinary Hall's leader.

"Yes."

Elder Bai appeared beside him immediately.

"Toss Elder Cheng into the Confinement Chamber until we're done here! I'll deal with him later!" Long Yijun spoke in a demanding tone.

"Yes, Sect Master."

Elder Bai did not question Long Yijun and immediately went to pick up Elder Cheng before carrying him away, and the people there watched with gawking expressions on their faces.

"I apologize for the slight disturbance, fellow guests and disciples. Please, act as though nothing had happened just now." Long Yijun said to the people there with a smile on his face before walking back to his seat like nothing really happened just now, shocking the people even more.

'What the heck just happened?! Who was that sect elder and what did he do to piss Sect Master Long so much?!'

'As if I could forget such a scene just because you told me to! I probably won't ever forget the look on Sect Master Long's face for the rest of my life!'

Although the people there were extremely curious about the situation that had just occurred, nobody there actually dared to bring the topic up after seeing Long Yijun's fearsome demeanor just now— not even the Sect Masters from the other sects.

On the other hand, Long Yijun cursed inwardly, 'Fuck! Why are there so many people trying to offend Disciple Yuan?! It's almost like they're purposefully trying to chase him out of the sect with their scandalous behaviors! If I have to kick out every sect elder to keep Disciple Yuan safe until the Mystic Realm, I'll freaking do it!'

"Sect Master, while what Elder Cheng did was wrong, you should also calm down." Elder Xuan suddenly said to him. "Don't forget that it's Disciple Yuan's desire to experience sect life as a normal disciple, and for normal disciples, they experience these kinds of unfairness every day."

"..."

Long Yijun became somewhat speechless after hearing Elder Xuan's words. How could he have overlooked such a thing? If they keep on protecting Yuan from these unfair situations, he will never experience life as an ordinary Outer Court disciple, nor will he understand their struggles.

Therefore, unless it threatened Yuan's life, they shouldn't interfere with his life and let him deal with the problems by himself. Of course, once Yuan deals with the situation, they'll punish the offenders afterward.

"Thank you for the reminder, Elder Xuan. I nearly robbed him of what made him want to join the Dragon Essence Temple in the first place—experience." Long Yijun sighed.

At this moment, the 89th floor from the tower emitted a golden light, signaling that whoever was challenging the tower had managed to reach the 90th floor.

"Hahaha! Look at this, Sect Master Long. We're only at our second challenger and he's already managed to climb all the way to the 90th floor! At this rate, someone will defeat all 100 floors and we'll still have half of our disciples left!" One of the guest Sect Masters laughed out loud.

"Hmm? The 90th floor, huh? Not bad for someone who's supposed to be your sect's best disciple." Long Yijun responded in a casual manner, almost like he wasn't worried even in the slightest.

"Hmph! Act tough all you want now! I can't wait to see the desperation on your face when you have to hand over the Dragon Slaying Saber!"

Long Yijun smirked at such remarks and said, "Yes, I also cannot wait."

Meanwhile, after defeating Wu Laohu, Yuan returned to his room and laid on his bed, and he proceeded to stare at the empty ceiling with a dazed look on his face.

"It was much harder than I'd expected— acting like I did during the match," Yuan sighed out loud.

"Brother Yuan, what you did today is simply acting like a real 'Cultivator'." Xiao Hua said to him.

"A real Cultivator? What's the difference?"

"A real Cultivator won't let anything block their path— they will walk straight no matter what stands in their way. If a mountain blocks your path, you destroy that mountain. If an ocean blocks your path, you split that ocean. If another Cultivator blocks your path, you trample on that Cultivator. That's how the most successful and powerful Cultivators in this world behave, hence why they're called 'real Cultivators'." Xiao Hua explained to him.

"That's... very aggressive and unreasonable... I don't know if I want to become someone like that." Yuan sighed.

"Don't worry, Brother Yuan. You can become a true Cultivator even without being like that. As long as you know when and how to act like a true Cultivator, you'll be fine. If I recall correctly, there's this saying— fake it till you make it... You simply need to fake that character and hope people believe it."

"Hmmm..." Hearing Xiao Hua's words, Yuan turned silent to ponder again.

Chapter 246 - Picking Up Yu Rou

"I think I understand what I should do. Thank you, Xiao Hua. You're always helping me. If only there's something I can do for you." Yuan said.

"Xiao Hua is satisfied with just being around Brother Yuan." Xiao Hua quickly responded.

Sometime later, Yuan said, "I'll see you later, Xiao Hua."

"Goodbye, Brother Yuan."

Yuan logged off the game shortly later.

Once Yuan logged off, he could immediately feel two presence around him.

"Sorry for making you wait, Yu Rou," Yuan said to her.

"Don't worry about it. I just got here." Yu Rou responded.

"By the way, I spoke with Feng Feng, Yu Rou. I told her about your situation, and she's currently heading to Phoenix City to pick you up. She also told you to wait for her at the Golden Phoenix Bazaar."

"Wait. Today?" Yu Rou asked.

"Yes."

"Okay. Fortunately, I brought my console with me, so I can enter the game even though I am here." Yu Rou said.

Yuan then continued, "As for Meixiu, after helping Yu Rou meet with Xia Jingyi, she will come to the Western Continent to help you next, but you

need to let her know your location so that she knows where to go."

"I understand, Yu— Young Master," Meixiu said.

Sometime later, Yu Rou went into the 3rd bedroom to set up her console whilst Meixiu went into her own room, both of them entering Cultivation Online once they were prepared.

While Yu Rou went to meet Feng Yuxiang and Meixiu wandered around to find her location, Yuan remained in the real world to cultivate. Currently, his priority was to raise his cultivation as fast as possible so that his body could recover faster, and he still had a few days until the Inner Court disciple examination.

Meanwhile, after entering the game, Yu Rou began making her way towards the Golden Phoenix Bazaar.

Many minutes later, Yu Rou arrived at the Golden Phoenix Bazaar, and she proceeded to stand outside the street to wait for Feng Yuxiang.

When the guards saw this, they tilted their heads. Normally, one can't loiter around the Golden Phoenix Bazaar even if they are outside the street. However, since Yu Rou was quite the eye candy, they didn't want to drive her away and allowed her to stay there so they could look at her beauty.

"Looks like she's waiting for somebody. Do you think it's her boyfriend?" One of the two guards there asked.

"If it is, then that man is a damn fool," said the other guard, and he continued, "If she was my girl, I wouldn't make her wait so long. In fact, I'd even be here before sunrise."

"Do you want to go speak with her? Maybe you'll get lucky."

"I don't know man. You think I should?"

"I wouldn't be saying it if I didn't! Go get her!"

The guard nodded, and just as he prepared to approach Yu Rou, a burst of flames appeared in the sky before descending directly outside the Golden Phoenix Bazaar, shocking the guards and everybody there.

"T-That's Madam Feng! Madam Feng is back!"

The guards were greatly shocked by her appearance, as Feng Yuxiang's whereabouts had been unknown for a while now!

Many people could be seen running out of their stores in the Golden Phoenix Bazaar when they noticed Fang Yuxiang's aura, and they quickly approached Yu Rou and Feng Yuxiang.

"Where have you been, Madam Feng?! The city's Lord has been worried sick ever since you disappeared!"

"Madam Feng! Are you finally back at the Golden Phoenix Bazaar?!"

"I've missed you and your shop, Madam Feng! Please come back to us! The Golden Phoenix Bazaar is not the same without your presence! It feels empty!"

Feng Yuxiang looked at the people swarming them with a nonchalant expression on her face, and she spoke a moment later, "I am busy with other things, so no, I won't be returning."

"What?! What are you busy with, Madam Feng? Perhaps we can help you!"

"Yeah! We'll do everything in our power to help you accomplish your needs!"

Hearing their words, Feng Yuxiang coldly snorted and said, "None of you can help me. Just forget about it. I won't return to the Golden Bazaar Phoenix no matter what you say."

She then turned to look at Yu Rou and asked her, "Are you ready to leave?"

"Yes."

Feng Yuxiang then wrapped her arm around Yu Rou's waist before soaring towards the heavens.

"Madam Feng~~~~! Please come back to us~~~!"

Despite the desperate shouting from below, Feng Yuxiang ignored it and asked Yu Rou, "Red Pearl City, right? If we head to the Teleportation Device three cities away, we arrive at the destination in less than a day."

"Thank you, Senior Feng." Yu Rou said to her.

"You can call me by my nickname just like the Young Master." Feng Yuxiang said to her as she began flying away from Phoenix City.

While Feng Yuxiang and Yu Rou made their way towards Red Pearl City, Meixiu wandered around the area until she could see city walls in the distance.

Ding!

[You have discovered Tang City]

"Tang City, huh..."

However, since Meixiu was not really interested in Cultivation Online, she logged off after learning the name of her location.

"Yuan, are you awake?" Meixiu asked him after entering his room.

"Yes, what's the matter?" Yuan stopped cultivating and responded.

"I am in a place called Tang City."

"I see. I'll let Feng Feng know once she's finished helping Yu Rou."

"I understand."

"In the meantime, can you check my bank account to see how much money is left in there? The information is..."

After giving Meixiu his personal bank account information, Meixiu used her phone to look at his bank balance.

A few moments later, she spoke in a low voice, "Yuan... there's no money in this bank account. The balance is literally zero."

"W-What?!" Yuan exclaimed in a shocked voice.

Where did his money go? He doesn't recall spending any of it, either!

OceanofPDF.com

Chapter 247 - A Year Ago

'I don't have any money in my bank account? How's that possible? I haven't touched it since I got it!' Yuan pondered for a moment before realizing something.

However, before he could even say anything, Meixiu spoke, "The statement says the money, all 242,690 dollars, had been transferred to another bank account last year..."

"Two hundred thousand? I guess I had more than just a couple of thousand inside. As for where the money went, I can only imagine that it was my parents who took them." Yuan sighed.

And he continued, "Although I don't know how much I actually earned during my professional days, they really don't intend on leaving anything for me even though I earned it, huh? And if they'd taken the money a year ago, that means they were already prepared to disown me at that time."

"..."

Meixiu was silent as she listened to Yuan's grumbling.

If she recalls correctly, not even mentioning the money Yuan had won from major competitions, his parents would earn millions of dollars every single time Yuan went on the stage to perform in front of an audience. In fact, the larger performances easily earned them tens of millions of dollars. It is safe to assume that Yuan was the Yu Family's golden goose, hence why his parents waited so long before officially abandoning him.

Furthermore, Yuan would perform almost every other day, and if he was not performing for an audience, he would be participating in competitions, and he did this for many years. One can safely assume that Yuan had earned the

Yu Family hundreds of millions of dollars if not billions when he was playing for them.

However, despite everything he's done and given them, the Yu Family discarded him when they deemed him useless, and even worse, they were shameless enough to take what little he had left, leaving him with literally nothing.

'Perhaps this is why they even adopted me in the first place— because they can dispose of me whenever they feel like it since I'm not their real son.' Yuan sighed inwardly.

"Anyway, since my parents have access to that account, I cannot use it anymore. I will need a new bank account. But how do I open one?" Yuan asked a moment later.

"We can ask the Young Lady once she's done with the game," Meixiu suggested.

"Okay."

Thus, Yuan returned to cultivating whilst Meixiu went to clean the house even though it was already pretty clean.

Many hours later, Yu Rou finally arrived at Red Pearl City with Feng Yuxiang.

"Thank you, Feng Feng." Yu Rou said to her as they landed in front of the city entrance, shocking the pedestrians and guards there.

"Don't even mention it." Feng Yuxiang said, and she continued, "Anyway, I will return to the Young Master's side now. But before I leave..."

Feng Yuxiang reached into her spatial ring and retrieved a small red pouch before handing it to Yu Rou.

"Take this. If you're ever in danger, just use the life-saving treasures inside."

"You don't have to..." Yu Rou hesitated to accept such precious treasures for free.

"It's okay. The Young Master cares for you very much, and he will be sad if anything happens to you."

After a moment of silence, Yu Rou reluctantly accepted the treasures. "Thank you, Feng Feng. I'll definitely repay you in the future."

Feng Yuxiang nodded before flying away, making her way back to the Dragon Essence Temple.

'Young Master's sister... she doesn't share the same bloodline as the Young Master...' Feng Yuxiang thought to herself as she soared in the sky.

After spending a few hours with Yu Rou, Feng Yuxiang couldn't help but probe Yu Rou's body with her spiritual energy, and to her surprise, she noticed that Yu Rou and Yuan belonged to a different bloodline!

Even without tasting Yu Rou's blood, as a phoenix and a Divine Beast, she has the ability to examine one's bloodline just by being in close contact with them, and while she was curious about their real relationship, Feng Yuxiang didn't dare to probe too deeply into their business.

'No wonder why the Young Master is extremely talented whilst his sister is somewhat lacking... So they weren't related in the first place...' Feng Yuxiang thought to herself.

While Yuan's presence radiated with overwhelming talents, Yu Rou, on the other hand, was only above average compared to the Cultivators of this world— at least that's how she appeared in Feng Yuxiang's eyes, which didn't make sense at first. But if they were not real siblings, that explained their disparity.

After arriving at Red Pearl City, Yu Rou logged off the game to let Xia Jingyi know.

"Jingyi? I have arrived at Red Pearl City." Yu Rou said to her over the phone.

"What? Already? That's super quick! How did you do it?" Xia Jingyi's surprised voice resounded shortly later.

"Let's just say I had a little assistance from a friend," Yu Rou chuckled.

"Anyways, it's already late, and we have school tomorrow, so let's play next weekend."

"Okay!" Xia Jingyi quickly said.

After hanging up the phone, Yu Rou went to knock on Yuan's door.

"Brother Tian, I have arrived at my destination, and Feng Feng is returning to your side now," she said to him.

"That's good," Yuan said.

"I'm going to prepare your dinner now." Yu Rou said.

"Wait for a second, Yu Rou. Before you go, I have something to tell you."

"What's the matter?" Yu Rou asked.

"Well... It's about my bank account... It's completely empty." Yuan said in a sighing voice.

"What?" Yu Rou stared at him with wide eyes.

Yuan then explained the situation to her.

After learning the situation, Yu Rou was greatly shocked, even disgusted by her parents' actions.

"How could they do something like this, much less to their own son?! That's your money! Something you earned! They have no right to take it

from you! And to think they did it last year! Completely shameless and disgusting!" Yu Rou exclaimed, immediately feeling enraged.

OceanofPDF.com

Chapter 248 - Real

"It's okay, Yu Rou. Fortunately for us, your friend allowed me to stay here for free." Yuan said a moment later.

"Even if that's the case, their actions are inexcusable! It's like they're doing everything they can to ruin your life! How can they do that to their own children?! That's despicable!" Yu Rou sighed.

'Because I'm not really their child...' Yuan sighed, feeling a strong urge to reveal everything to Yu Rou at this moment, but he'd managed to resist such urges at the end.

"Anyways, what should we do now? That bank account is no longer safe, so I will need to put my money somewhere else." Yuan asked her a moment later.

"I can open up a new account for you tomorrow, brother. But until you have enough money, I will pay for your expenses," Yu Rou said.

"Are you sure?"

"Of course. How else are you going to pay for your food and other necessities? Although I'm not rich, I have more than enough to help you." Yu Rou said.

And she continued, "But you should really sell your in-game stuff as soon as possible, brother, as the value for gold in Cultivation Online has been decreasing lately since people are growing stronger, allowing them to grind gold at a faster rate, not to mention the number of new players joining the game everyday. It's not really bad right now since the game is still fairly new and the rich people are buying as much gold as they can to upgrade

their avatars, but every dollar counts, especially when the family is no longer supporting you."

"Hmm... How much are gold coins worth, anyway?" Yuan suddenly asked.

"Let me check real quick..."

Yu Rou proceeded to check on her phone.

"According to the most popular trading website right now, one gold is worth about 7 dollars, so it dropped a few bucks since the Wealth Leaderboards came out."

"Seven dollars for a single gold coin? That's very profitable, no?" Yuan said in a surprised voice.

If he has one million gold coins, that's about 7 million dollars in the real world!

"If you think about it, it's not easy to earn money in Cultivation Online, and it usually takes on average three to four hours for the average player to earn a single gold coin. Of course, if you're a powerful Cultivator who can fight high-level monsters, you can make much more by selling their materials and monster cores, but not many people are at that level. Even the top players just recently entered Spirit Warrior despite spending tens of millions of real-life money for Cultivation Online gold and treasures to boost their cultivations."

"Speaking of cultivation, what level are you at right now?" Yu Rou suddenly asked.

"Hm? Me? The peak of Spirit Warrior, about to enter Spirit Master." Yuan casually responded.

"Peak Spirit Warrior?!?!" Yu Rou's jaw dropped after hearing his words.

Yuan had managed to surpass the top players by almost an entire realm without spending a single penny? That's simply too crazy! Too

overwhelming! The difference was too vast! Even if the top players spend hundreds of millions, they probably won't be able to reach Yuan's level!

'If the world knew of Brother Tian's cultivation, they'd probably go crazy — even more than currently...' Yu Rou thought to herself.

"S-Since you're this powerful, it shouldn't be a problem for you to earn gold in Cultivation Online. However, there is something even more precious than gold, and that is raw materials and treasures." Yu Rou then said.

And she continued, "Let's say you have a million gold and a treasure worth one million gold. If you sold the gold coins, you'll only get 7 million. However, if you sell the treasure, people will definitely pay more— at least 30 percent more. After all, treasures are more unique than gold, so it's always better to sell resources and treasures."

"How much would a Divine-grade treasure sell for?" Yuan suddenly asked.

"Eh? Divine-grade? Do you intend on selling a treasure at that grade?" Yu Rou looked at him with a surprised expression.

"Yes. I obtained this Divine-grade zither after winning the competition, but I don't really need it, as I already have another zither." Yuan said.

"A Divine-grade instrument... The families with a music background will go crazy for that. But I'm not sure about the price since nobody has sold anything even close to this grade before..."

"What's the most expensive item that has been sold thus far? Xiao Hua sold a Heaven-grade with peak quality to an auction house for over 30 million gold coins before." Yuan said.

"T-Thirty million gold coins? That must be when you unlocked the Wealth Leaderboards. If you'd sold that in the market, you'd have earned at least 300 million dollars!" Yu Rou exclaimed.

"Well, yeah, but I don't really consider that my money since it was Xiao Hua's treasure that was sold," Yuan said.

"If you sell the Divine-grade zither, you can easily get half a billion dollars, Brother Tian! That's more than enough to support yourself for many years! Are you going to sell it?" Yu Rou asked him.

"Yes. I plan on selling it. But how do I go about selling something so precious?"

"Indeed, you cannot sell something that precious in an ordinary market. However, I know just the place for expensive treasures—the auction house!" Yu Rou said.

"You can place the zither in an online auction house with a minimum starting price and the highest bidder gets to buy it."

"How will the trade work? Do I give them the treasure before or after they pay? Either way, this doesn't seem safe." Yuan said.

After all, what if the buyer just logs off the game after receiving the item without paying? How can you chase the scammer, much less get your items back? Wait for them to log back on and kill them?

"Don't worry, brother. Although it's not perfect, there's a system in place for that." Yu Rou said, and she proceeded to explain to him about the system in more detail.

Chapter 249 - Officially Disowned

"Let me explain to you how the online auction house works." Yu Rou said, and she proceeded to explain.

"First, a seller will list the item in the auction house, and if the item exceeds a certain price threshold, a staff member from the website must verify the item before the treasure is allowed to be auctioned."

"Once the treasure is verified in-game by a staff member and the auction begins, verified accounts will be allowed to bid on the item."

"At the end of the auction, the player with the highest bid will deposit the money on the website which cannot be touched until the transaction is completed or canceled."

"Once the staff member confirms the money is there, the seller will meet a staff member in-game and hand the treasure to the staff member."

"After the website confirms that the treasure is indeed the real thing, they will proceed to transfer the money to the seller's bank account before handing the treasure to the buyer, completing the transaction."

"I know there are some obvious flaws with this system, such as the staff member working together with others to scam the seller or vice versa, but that hasn't happened yet, and the website itself is very popular and reliable with millions of dollars in transaction every day, so I doubt they would risk their reputation over a treasure. In fact, even the government is watching them closely, so they won't do anything stupid."

"I see... Then let's do that." Yuan said.

"Okay. I'll create an anonymous account for you when I get home later." Yu Rou said.

"Thank you."

Sometime later, Yu Rou went to cook dinner whilst Meixiu assisted her.

After feeding Yuan, Yu Rou went back home to create an account for Yuan.

"Let's see... Register a new account..."

"Anonymous..."

"Seller..."

"Current location... Eastern Continent..."

"Complete."

After spending a few minutes on the website, Yu Rou created an anonymous account for Yuan, so that people won't see his player name when he sells things in the auction house. Of course, it would be better for one to show their name, especially if they're a top player, as that would give them more credibility.

"Good. Now I just need to wait until Meixiu meets with Brother Tian so that we can begin earning some money." Yu Rou chuckled.

If Yuan seriously wanted to earn money through real-world trading, he could easily become one of the richest players in this world with the stuff he currently has. However, knowing her brother, he probably doesn't care much about fame or wealth.

Just as Yu Rou prepared to enter her bed to sleep, her phone began ringing.

A frown appeared on Yu Rou's face when she saw the caller, but she picked it up regardless.

"Hello, mother."

"I'm tired of waiting. What's his decision?" Tang Lee spoke in a cold voice.

"Brother... I tried to convince him, but he refuses to play the instruments again..." Yu Rou responded in a nervous voice.

"Damn! That fucking useless piece of shit! How dare he defy us after all that we've done for him?! If it weren't for us, he would have remained as a nobody! If it weren't for us, he wouldn't have survived this long in his condition! Good! If this is his decision, then he can get the hell out of my family! I doubt he'll even survive a week in that condition without our support!"

"..."

Hearing her mother's enraged voice and insults towards Yuan, Yu Rou's body trembled in anger, and she tightly gritted her teeth, resisting her urges to curse Tang Lee out loud.

"Furthermore, I forbid you from meeting him from now on! He's officially disowned! Therefore, he's no different than a stranger now!" Tang Lee suddenly said.

"What?! T-That's unreasonable, mother!" Yu Rou immediately said in a panicked voice, her voice even cracking a bit from shock.

"Shut up! As long as you're part of this family, you will listen to us! Unless you want to follow in your brother's footsteps and leave the family, don't you dare talk back to your parents! Do you understand me?!"

"I..."

Yu Rou wanted to rebel at that moment and follow Yuan's decision by leaving the family. However, she ultimately resisted her impulses. After all, even if she cannot see Yuan anymore, she can still help him from the shadows. However, if she left the family, she will no longer be able to help Yuan in case of emergencies.

Furthermore, she's still a minor who has to attend school. It was unrealistic and irresponsible for someone like her to suddenly leave the family.

"Well?! I don't think I heard your answer, Yu Rou!" Tang Lee's voice resounded again.

"I understand, mother... I will no longer see Brother Tian..." Yu Rou responded in a pained voice, as she never thought that she would one day utter such words.

"I don't want to hear that useless thing's name anymore, either!"

Sometime later, Tang Lee closed the connection.

"..."

After hanging up, Yu Rou tossed her phone on the bed before burying her face in the pillow and bawling her eyes out until she cried herself to sleep a few hours later, soaking the pillow with her tears.

Early in the morning, Yu Rou woke up before sunrise as usual. Since she has been waking up at the same time almost every day for the past few years to take care of Yuan, her body would instinctively wake up.

However, after remembering that Yuan was no longer part of the family, Yu Rou closed her eyes and went back to sleep, but to nobody's surprise, she was unable to go back to sleep.

"I'm sorry, brother, for being so powerless..." she mumbled in a dispirited voice.

Once it was time for school, despite having no motivation or energy to leave the bed, Yu Rou struggled with herself until she was in the car.

Sometime later, Yu Rou went to pick up Meixiu at the apartment.

"Did something happen, Young Lady? Your eyes are red, and you look exhausted... Did you not sleep last night?" Meixiu asked her in a worried tone after seeing her messy appearance.

"I'll explain everything later..." Yu Rou sighed.

Chapter 250 - Desperation And Passion

After struggling to pay attention and stay awake in her classes, Yu Rou managed to endure until lunchtime.

"Sister Rou, did something happen to you? I noticed that you were dozing off during class. This is unprecedented..." Xia Jingyi asked her after they sat down for lunch.

"It's a long story..." Yu Rou sighed.

"If you don't want to say it..."

"No, I'll tell you, since you're somewhat related now." Yu Rou said, and she proceeded to explain to them what had happened yesterday and how her mother forbade her from seeing Yuan.

Cough! Cough!

"What?!" Xia Jingyi almost choked on her drink after listening to Yu Rou, and she slammed the desk in anger.

"How can she do that to you and your brother— her own children?! I have never seen such despicable people before! Ah... I'm sorry for yelling at your parents, Sister Rou, but I just can't remain calm after hearing what they did..." Xia Jingyi said.

"Don't worry about it, Xia Jingyi. I also feel that what my parents did is unforgivable! However, there's nothing I can do, and it's not like I could just leave the family. If I was even half as talented as Brother Tian, perhaps

I would have some saying in the family, but alas, that's not the case." Yu Rou sighed.

While it's true that Yuan could support both of them if he begins real-world trading, there are things in this world that cannot be solved even with money. Furthermore, she doesn't intend on letting Yuan take care of her forever. If anything, it should be the other way around— she should be taking care of him! However, she can't do that if she leaves the family, and the biggest problem is that she's still a minor, whilst Yuan is considered an adult.

"What are you going to do now, Sister Rou?" Xia Jingyi asked her a moment later.

"I honestly don't know, but we can only continue with our plans and see how it goes. If things don't work out, we will think of something else." Yu Rou said.

"If you need anything, just let me know, Sister Rou! I'll do my best to support you and your brother!" Xia Jingyi said.

"Thank you, Jingyi." Yu Rou said to her with a sweet smile.

"What should I do, Young Lady? If the Masters find out that I'm helping the Young Master, there's a good chance they'll also force me to stop." Meixiu suddenly said.

"You'll continue taking care of Brother Tian since there's nobody else we can trust right now. I'll try my best to keep your business a secret. If my parents find out... Once again, we'll think of something." Yu Rou said to her.

"I understand, Young Lady." Meixiu nodded.

Meanwhile, Yuan continued to cultivate in his room, reaching 3rd level Spirit Warrior an hour before Meixiu returned.

"Young Master... I mean, Yuan, I have something news regarding the Young Lady." Meixiu said in a solemn voice.

"Hm? Did something happen to Yu Rou?" Yuan asked in a worried voice.

"Well..."

After taking a deep breath, Meixiu explained to him the situation, how he's officially disowned and kicked out of the Yu Family and how they forbade Yu Rou from seeing him anymore.

"Yu Rou can't see me anymore...?" Yuan mumbled in a dazed voice.

After taking longer than necessary to understand the meaning behind such words, mostly because he was shocked, Yuan gritted his teeth in anger.

"I don't care if they take away all of my possessions and money. I don't even care if they kick me out of the family. However, to think they'd stoop as low as this...! They're clearly using Yu Rou to purposefully piss me off!"

Yuan subconsciously tightened his hands to make a fist at this moment despite not feeling them, and his fingers trembled a bit, moving more than usual.

"..."

Due to her attentiveness, Meixiu did not miss this slight movement and nearly cried out loud of shock after seeing it.

'I... I wasn't imagining things just now, right? Yuan... his fingers... it moved!' Meixiu cried inwardly, unsure how much of what she just witnessed was real or just her imagination.

However, after rubbing her eyes and looking again, she couldn't see Yuan's fingers moving anymore.

'Perhaps it really was just my imagination?' she wondered.

"I swear... if they made Yu Rou cry just to get back at me!" Yuan said, experiencing an indescribable feeling of rage in his heart that felt similar to heartburn.

Dub! Dub! Dub!

Yuan could feel his heart racing, unaware of the flame in his heart that was expanding larger and fiercer.

Feeling a subtle but suffocating atmosphere suddenly appear in the room, Meixiu spoke in a nervous voice, "I... I am going to prepare dinner now."

And she quickly escaped the room, immediately feeling better after leaving Yuan's room.

'What was the feeling just now?' Meixiu wondered to herself as she wiped the cold sweats off her forehead.

Meanwhile, Yuan tried his best to calm down, but alas, it was much more difficult than he'd expected.

'I thought only the cultivation world would have such unreasonable people, but it appears that such people exist in this world as well, and they even used to be my own parents!' Yuan sighed inwardly after realizing this fact.

Unfortunately, unlike Cultivation Online where he has many powerful supporters, he could only rely on Yu Rou and a few other people in this world. Furthermore, his movements are extremely limited, making it impossible for him to do anything about this situation.

'If only I could move! If only I am not so useless in this world!' Yuan gritted his teeth in frustration.

'The only thing I can do right now is to improve my cultivation!'

With this thought in mind, Yuan began cultivating again despite the unpleasant feeling in his heart that is desperation mixed with passion.

A few moments later, a gentle breeze appeared in the room as Yuan's cultivation speed suddenly increased even more, but alas, he was too focused to notice this change.

Chapter 251 - Soul Techniques

After cooking dinner, Meixiu went back into Yuan's room to feed him. However, she was a little bit nervous to enter his room at first, fearing that uncomfortable atmosphere that still lingered in her body.

Yuan stopped cultivating the moment he noticed Meixiu standing in front of his room.

Sometime later, Meixiu began feeding Yuan three bowls of soup.

After Yuan gobbled down all three bowls of soup with ease, Meixiu gently wiped his lips with a wet towel.

"Allow me to wipe your body now," said Meixiu in a somewhat shaky voice.

"Okay."

Meixiu proceeded to unbutton Yuan's customized pajamas and began wiping his body down with a warm wet towel.

'His body... It's even more refined and muscular than last time... Just how does his body work?' Meixiu wondered to herself as she wiped every nook and cranny of his body before moving to the lower areas.

Meixiu swallowed nervously as she carefully wiped his lower body, trying her best to avoid another accident like last time.

A few minutes later, Meixiu buttoned his clothes back up before leaving the room to clean up.

Meanwhile, Yuan returned to cultivating.

After cleaning the dishes and taking a shower, Meixiu visited Yuan one more time before bed to see if he needed anything.

"Goodnight, Meixiu."

"Goodnight..."

Once Meixiu went to sleep, Yuan began absorbing the spiritual energy in the area.

'Is it because we're living in a higher place that there's more spiritual energy here?' Yuan wondered to himself as he realized that compared to his old home, the spiritual energy in this place was more abundant.

One hour... Two hours... Three hours...

Time passed in a flashing speed as Yuan deeply indulged himself in his cultivation, achieving another breakthrough and reaching 4th level Spirit Warrior.

'At this rate, I'll catch up to my cultivation in Cultivation Online...' Yuan thought to himself.

'Wait a second...'

Yuan suddenly came to a realization.

'If I could use Divine Sense when I am only a Spirit Warrior in Cultivation Online, perhaps I'll also be able to Divine Sense in this world with my current cultivation?'

Yuan could feel his heartbeats quickening immediately after this thought.

What if he can use Divine Sense to see again? This way, even if he cannot move, he can at least see his surroundings.

With this thought in mind, Yuan immediately began trying to use Divine Sense.

'Let's see... Divine Sense...'

Yuan tried to replicate the feeling he gets when he uses Divine Sense in Cultivation Online, but after trying for a couple of minutes without any results, Yuan gave up for the moment.

'Why can't I use Divine Sense? Do I have to reach Spirit Master before I can use Divine Sense like Xiao Hua once said?' Yuan wondered to himself.

Just like how he couldn't immediately breakthrough to Spirit Warrior from Spirit Apprentice without enlightenment like he had in the game, perhaps he can't use Divine Sense until he's a Spirit Master either.

'Or maybe I'm just not used to Divine Sense enough to use it in the real world. I should practice in Cultivation Online after breakfast and try again later.'

Meixiu woke up early in the morning to prepare breakfast. After feeding Yuan, she went to school with Yu Rou whilst Yuan went into Cultivation Online to practice his Divine Sense.

"Xiao Hua, are there any tricks to learning Divine Sense?" Yuan decided to ask the expert before doing anything.

"Unfortunately, just like enlightenment, Divine Sense is something one naturally learns when they reach Spirit Master. Of course, there are geniuses who learn Divine Sense before that like Brother Yuan, these people are very rare." Xiao Hua said to him.

"I see... Then is there any way to practice Divine Sense to make it stronger?" He then asked.

"As long as you continue using it, you'll naturally improve. Though there are methods to training one's Divine Sense, and that is to cultivate Soul Techniques."

"Soul Techniques? How are they any different compared to normal cultivation techniques?"

"As the name suggests, Soul Technique specifically trains one's spirit and soul. However, these techniques are very rare and even the lowest rank Soul Techniques can be worth more than Heaven-rank cultivation techniques."

"What? They're that valuable?" Yuan was shocked to learn this.

"Of course. While it's relatively easy for a Cultivator to train their physical bodies and their cultivation bases, training their soul is an entirely different matter, and without the proper technique, there's a high chance of damaging their soul—a risk no sane Cultivator would dare to risk since a damaged soul usually means instant death with no chance of reincarnation." Xiao Rou said.

And she continued, "Training one's soul is a very delicate matter that requires extreme care and attention, as a single mistake could cost even an Immortal their entire life."

"Immortals and reincarnation? Do they really exist?" Yuan couldn't help but ask.

"While Immortals are definitely very real, reincarnation, on the other hand... There has been no solid evidence it exists. However, many if not most Cultivators believe in reincarnation," said Xiao Hua.

"I see... Thank you, Xiao Hua. I'll practice my Divine Sense the normal way since I don't have a Soul Technique and I don't feel like touching something that dangerous without more knowledge."

"Xiao Hua will help Brother Yuan." Xiao Hua said, and she continued, "Sit down and activate your Divine Sense."

Yuan nodded and followed her instructions.

Once he was seated in the lotus position, he closed his eyes and activated his Divine Sense.

"Now try to expand your Divine Sense until you can no longer expand it." Xiao Hua's voice resounded.

A few moments later, Yuan expanded his Divine Sense until he reached his limit, feeling like someone trying to stretch their arms without moving.

"Good. Now keep your Divine Sense like that until you can no longer endure it, Brother Yuan. This will improve your endurance and strength at the same time," Xiao Hua said to him like a lecturer.

Chapter 252 - A Bored Face

Yuan followed Xiao Hua's instruction and kept his Divine Sense active and as far out as he could manage until he could no longer keep it up due to exhaustion.

"Haa... haaa... It's really tiring trying to maintain Divine Sense; it's much more exhausting than using cultivation techniques." Yuan said afterward while panting.

"That's obvious, Brother Yuan, since using Divine Sense requires more than just your spiritual energy, as it uses your mental strength as well. With that being said, Brother Yuan is only a Spirit Warrior whilst people normally unlock their Divine Sense as a Spirit Master. Compared to the others, Brother Yuan is already miles ahead."

Yuan nodded his head and rested until he recovered his mental and spiritual energy before he began training his Divine Sense again, and he repeated this process for nearly the entire day.

Just as Yuan prepared to log-off, Feng Yuxiang returned to the house.

"I'm back, Young Master!" Feng Yuxiang said, sounding like a family member after a long day at work.

"Welcome back, Feng Feng. Thank you for taking my sister to that location," Yuan said to her.

"Don't even mention it, Young Master. It's my pleasure to help you. After all, as long as this contract stands, my everything belongs to you." Feng Yuxiang said with a smile on her face.

And she continued, "What about your other friend who's in the Western Continent?"

"Oh, right. Her name is Meixiu, and she's currently at Tang City in the Western Continent."

"Tang City, right? Got it. What does she look like, Young Master? It'll make things much more convenient since I have never seen her before." Feng Yuxiang then asked.

"Uhh... How does she look...?" Yuan was speechless, as he hasn't seen Meixiu's appearance since he lost his eyesight over a decade ago!

Feng Yuxiang raised her eyebrows, and she spoke a moment later in a puzzled voice, "You don't know what your friend looks like, Young Master?"

"W-Well... It's been a very long time since I last saw her, after all." Yuan quickly thought of an excuse.

"Oh, I see. Then what do you remember about her?" Feng Yuxiang then asked.

"Hmm..."

Yuan closed his eyes to think, recalling Meixiu's features when she was young.

"She has this naturally bored-looking face, or more precisely, she always looks bored, almost like nothing in this world could entertain her. I think you'll immediately notice her since she really stands out." Yuan said as he recalled Meixiu's face.

"I-I see..." Feng Yuxiang nodded with a somewhat dazed expression on her face, as she didn't expect such an awkward description.

"Ah, she will be at the city entrance waiting for you." Yuan suddenly said.

"The entrance, right? I understand. I'll see you in a few days, Young Master. Stay safe." Feng Yuxiang said to him before turning around and leaving the house again.

Whoosh!

Two large and majestic flaming wings appeared behind Feng Yuxiang's back, and with a single flap of her wings, Feng Yuxiang soared many miles into the distance.

"See you tomorrow, Xiao Hua."

"See you later, Brother Yuan."

After logging off the game, Yuan immediately tried to use his Divine Sense, but alas, there were no results.

'I shouldn't expect immediate results. This could take days, even months before anything happens... However, no matter how long it takes, as long as there's a chance that I can see again...' Yuan motivated himself.

Sometime later, Meixiu returned home and began preparing dinner.

During dinner, Yuan said to her, "Meixiu, my friend Feng Feng is heading to the Western Continent right now, and she'll probably be there in a few days. If you have time, log into the game and see if she arrived yet."

"What does this friend of yours look like?" Meixiu asked.

"She's a really pretty lady with long black hair and brown eyes. She also wears red clothes that seem a little too small for her since it sticks to her skin." Yuan said as he recalled Feng Yuxiang's image in his head.

"Sticks to her skin...?" Meixiu raised her eyebrows, thinking that this person must be wearing a tight dress or something to show off her body but Yuan is too oblivious to realize it.

"I understand. I will check the game whenever I'm available." Meixiu then said.

After dinner, Meixiu went to do her own things whilst Yuan tried activating his Divine Sense again.

An hour later, Yuan gave up and went to cultivate instead.

The following morning, after Meixiu finished feeding Yuan breakfast, he went into the game while Meixiu went to school.

"Let's train my Divine Sense today as well!" Yuan sat down and quickly activated his Divine Sense with more determination than ever.

However, a few hours into his training, someone knocked on his door, forcing him to stop for the time being.

"Who could it be?" Yuan wondered to himself as he went to open the door.

Standing outside his doorsteps was a beautiful young lady with a familiar-looking face.

"Hello, Min Li. It's been a while." Yuan said to her.

"Hello, Disciple Yuan. I hope I'm not bothering you." Min Li greeted him back.

"No, you're fine. Do you need something?" Yuan then asked.

Min Li shook her head and said, "Nothing, really. I heard about what happened recently and how you defeated the 3rd strongest Outer Court disciple, taking his place in the Power Ranking. Congratulations."

"Although it wasn't my intention to fight him, thank you," Yuan said with a somewhat stiff smile.

"Disciple Yuan, you may be a Spirit Warrior and with extreme talents that this world has never seen before, but I won't give up on trying to catch up to you!"

Min Li said, and she suddenly released her aura, surprising Yuan.

"You managed to breakthrough to Spirit Warrior? Congratulations!" Yuan congratulated her in a sincere voice.

"T-Thank you..." Min Li felt embarrassed by his words for some reason and began blushing in response.

"A-Anyway, I'm going to return to my training now. I'll talk to you later, Disciple Yuan."

"Okay. See you." Yuan nodded.

Min Li then turned around and walked away.

Chapter 253 - Inner Court Disciple Examination

After Min Li left, Yuan went back inside his house and returned to training his Divine Sense.

However, not even an hour later, he could hear the door being knocked on again.

"Who is it this time?" Yuan mumbled as he went to open the door.

"Are you Disciple Yuan?" A middle-aged woman wearing sect elder robes stood outside his door this time.

"Yes, I am." Yuan nodded.

"I am here to notify you that the Inner Court Disciple Examination will begin tomorrow morning, and you must be present at Jade Peak before sunrise or you'll automatically fail. Do you have any questions for me?"

"Jade Peak before sunrise, right? I will be there. Thank you." Yuan said to the sect elder.

The sect elder left the place shortly later.

After leaving Yuan's place, the sect elder sighed to herself, "This is my first time notifying a disciple in such a manner. What am I? Some kind of messenger? However, this is an order from a high-ranking elder, so I have no choice but to do it..."

Yuan returned to his room afterward, and he mumbled, "Inner Court disciple, huh? I kind of want to experience life as an Outer Court disciple

some more, but I don't really know if there's anything else I can do as an Outer Court disciple that an Inner Court disciple cannot do..."

"Brother Yuan is an abnormal existence. Even though you have the title of an Outer Court disciple, you don't really get treated like one, and you're already too powerful to experience the struggle that other Outer Court disciples must endure." Xiao Hua said to him.

"Is that so? But there's nothing I can do about that... What a pity..." Yuan sighed.

"Once Brother Yuan travels to the upper heavens where there are more geniuses, you might be able to experience the struggle some people go through— or not... since I highly doubt someone as talented as Brother Yuan would struggle in anything that's related to cultivation..."

"Anyways, I'll participate in this examination and become an Inner Court disciple tomorrow. For now, let's continue focusing on training my Divine Sense."

Thus, Yuan returned to his training.

Once the sun began setting, Yuan logged off the game and waited for Meixiu to return. Of course, he tried to activate his Divine Sense again but to no avail.

After dinner, he said to her, "Meixiu, I'm going to stay in the game tonight since there will be an event early tomorrow morning, and I don't want to wake you up earlier than you already do."

"It's fine. I don't mind. Your health is more important to me. When do you need to enter the game?" Meixiu asked him.

"Are you sure? I can just stay in the game. It's not my first time doing this, anyways. Of course, Yu Rou approved of this as well."

"If the Young Lady also allowed it then..." Meixiu said, then she continued after a brief pause, "What about breakfast? You'll miss breakfast at this

rate..."

"It's only one meal, I'll be fine. Furthermore, I'll be in the game, so I won't really feel any hunger."

"I understand. Then goodnight, Yuan."

"Goodnight."

After Yuan went inside the game, Meixiu went to do her own things before falling asleep.

Inside the game, Yuan proceeded to spend the entire night training his Divine Sense.

"Brother Yuan, your Divine Sense's range has increased by almost a dozen meters since you began training. At this rate, it won't be long before you surpass me, Brother Yuan." Xiao Hua said.

"You're exaggerating, Xiao Hua. It'll take me years before I can catch up to you..." Yuan sighed.

Xiao Hua looked at Yuan and blinked her eyes in a dazed manner.

If Yuan had managed to reach the peak of Spirit Warrior in just a few weeks as a mortal who has never cultivated before, one can only imagine what he could achieve in a few years! Perhaps he might even ascend to the highest heaven and stand at the peak of this universe!

Xiao Hua suddenly turned to look at the window and said, "Brother Yuan, it's almost sunrise."

"Oh, right! I almost forgot! Thank you for reminding me, Xiao Hua!"

Once Xiao Hua entered the necklace, Yuan made his way to the Jade Peak that was only a couple of minutes away if he ran.

Meanwhile, at the Jade Peak, there were already over a hundred Outer Court disciples gathered there, all of them preparing to take the Inner Court

Disciple Examination.

And just minutes before the sun fully rises, Yuan arrives at the Jade Peak, being the last person there. With that being said, since almost everybody there arrived hours earlier in advance with some even having slept there through the night in fear of missing the examination, Yuan was destined to be the last to arrive.

The other disciples there frowned when they saw Yuan arriving right before the deadline. In their eyes, it was because Yuan couldn't care enough about the examination, hence why he was acting so carefree.

"Che! Why is someone like that participating in the examination? He's looking down on all of us with his carefree attitude!"

"Right?! Look at his casual-looking face! It's like he's taking a stroll in a park or something!"

"Forget about him. People like that won't make it through half of the examination. In other words, he won't become an Inner Court disciple."

"Hmph! I have engraved his face into my soul! Just wait until I become an Inner Court disciple! I'll be sure to teach him a lesson or two about his behavior!"

To these Outer Court disciples that have trained for years and endured countless trials to reach this point, becoming an Inner Court disciple is something profoundly significant and honorable with the Inner Court Disciple Examination being the sacred path that will lead them to that position, and for someone to act so nonchalant in this sacred exam was a blasphemy, even a slap at their faces!

Chapter 254 - Increasing The Standards

After arriving at the Jade Peak, Yuan could already feel an unpleasant atmosphere in the air when he noticed the other disciples staring at him with frowns on their faces.

'They seem unhappy. Did something happen? Or are they just nervous about the examination?' Yuan wondered to himself, completely oblivious that they were angry at him for being on time, as that was completely unreasonable.

And while the other disciples only mumbled to each other, one of them was actually brave enough to approach Yuan and said loudly, "Hey! You! What's your name?!"

"Me? I'm Yuan," he calmly responded.

"Hm? Yuan? Why does that name sound so familiar?" The disciples there wondered when they heard Yuan's name.

"Oh, shit! He's that Outer Court disciple who defeated the Mad Tiger recently!" One of them quickly realized and exclaimed in a surprised voice, shocking the other disciples.

"What?! He's the new disciple who took Mad Tiger's 3rd place in the Power Ranking?! No wonder why he dares to act so carefree in the Inner Court Disciple Examination!"

The Outer disciples there immediately found Yuan's 'late' arrival to be more understanding now and felt less offended.

"He's a new disciple who only recently joined the sect, right? Why is he participating in the Inner Court Disciple Examination already? Even the top geniuses in our sect usually wait half a year before they decide to become an Inner Court disciple."

"Maybe he's just that confident. Who knows."

"Even though he's defeated the Mad Tiger, you cannot become an Inner Court disciple with just raw strength, after all."

While the disciples mumbled to each other, Yuan asked the disciple who spoke to him, "Do you need something from me?"

"Uh... N-No... I just wanted to know the names of those who will be participating in the examination with me... I'm sorry if I'd bothered you... And good luck..." The disciple acted very humbly after realizing that he was standing before the one who was said to have defeated the Mad Tiger without lifting a finger.

"I see. Good luck to you, too." Yuan nodded at the disciple who quickly turned around and walked back into the crowd.

A few seconds after Yuan gathered with the other disciples, the sect elder that went to Yuan's house to notify him of the examination appeared before them and said, "Hello, Outer Court disciples. I am Elder Tantai. Everybody here that is participating in the examination, follow me to the examination hall."

Once Elder Tantai turned around and began walking, the disciples there followed her like a group of ducklings.

Half an hour later, they arrived at the borders between the Outer Court and the Inner Court.

"That is the Examination Hall; it's where one comes out either as an Inner Court disciple or remains as an Outer Court disciple." Elder Tantai pointed at the massive stadium in the distance.

A few minutes later, they arrived at the large entrance to this place.

"Once we walk through these doors, whether you become an Inner Court disciple or not today, you will not enter these doors again for another year." Elder Tantai said.

If they become an Inner Court disciple, even if they are a cultivation genius, it will take them more than one year to even qualify to take the examination to become a Core Disciple. As for those who fail to become an Inner Court disciple today, they will have to wait another year before they can try the examination again.

Elder Tantai opened the door and walked inside.

Sometime later, they arrived inside the stadium that was shaped like a football field in the modern world; it was a vast and spacious one-mile long field inside with a couple of gates towards the end.

Once they were at the center of this field, Elder Tantai said, "For the examination, you will have to pass three tests."

And she continued, "For the first test, we will test your endurance by lighting an incense that has poisonous properties, and you must protect yourself with your spiritual energy until the incense is completely burned. Don't worry if you're infected by the poison, as we have antidotes prepared."

"For the second test, we will test your combat prowess with a Training Puppet. Use your strongest and most experienced martial skill on it."

"Lastly, we will have you fight against a real magical beast at the peak of Spirit Apprentice. Of course, you must defeat it in order to pass."

"Does anyone have any questions before we begin?" Elder Tantai then asked.

"What kind of poison is it, Elder?" Someone raised his hands and asked.

"Poison from a Weeping Serpent," said Elder Tantai without hesitation.

"What?! The Weeping Serpent?!"

The disciples were shocked when they heard this name, and some of them even began shaking in fear.

Poison from a Weeping Serpent can kill anyone below Spirit Warrior within seconds, and most of the people there were only peak Spirit Apprentice with a few that just entered Spirit Warrior!

What if they die before they even begin the second exam, much less become an Inner Court disciple?!

Furthermore, while they expected this sort of test since it has happened before in previous examinations, the sect has never used such a strong poison for the examination before! This is a first!

Seeing the fear on the disciples' faces, Elder Tantai said, "If you're too afraid of the poison, you may turn around and leave the Examination Hall. However, let me tell you, even if you come back next year, the poison won't get any weaker. In fact, it'll only grow stronger as time goes. The Dragon Essence Temple has decided to increase its standards for all disciples, after all."

The disciples' eyes widened with shock when they heard this. The sect increased its standards? Why would they suddenly do that when the sect has remained the same for thousands of years? What caused this change?

"You have ten seconds to decide whether you want to continue or not... Ten... Nine..."

Elder Tantai suddenly started the countdown, making the disciples panic even more.

Chapter 255 - Special Training

Puppet

"Three... Two... One..."

After ten seconds, to Elder Tantai's surprise, none of the disciples decided to leave the examination.

"Now then, let's continue with the examination, shall we?"

Elder Tantai placed a foot-long purple-colored incense stick into the ground and said, "I want everybody to sit around the incense stick."

The disciples followed her instruction, and a few moments later, all 121 disciples sat around the incense stick.

"The exam will officially begin once I light the incense stick. If you're poisoned, I will immediately apply the antidote, but you will automatically fail the examination."

The disciples swallowed nervously, and they watched as Elder Tantai lit the incense stick.

Once the incense stick was lit, purple smoke began to fill the area quickly, but Elder Tantai remained standing directly beside the poisonous incense stick without a care in the world.

Meanwhile, the disciples quickly began releasing their spiritual energy, covering their body with it so that the poisonous smoke won't be able to touch them. Of course, it required tremendous effort and a lot of stamina to maintain this state, and the disciples could feel their spiritual energy depleting at a rapid rate.

As for Yuan, since he was a peak Spirit Warrior, he had plenty of spiritual energy to spare, and compared to the other disciples, he only needed to expend some of his spiritual energy to block the poison since his spiritual energy was much more powerful.

"Brother Yuan, you don't even need to use any spiritual energy to defend against poison at this level," Xiao Hua's voice suddenly resounded in his head.

"Furthermore, with Brother Yuan's ability to resist poison, something that he'd obtained from consuming the Demonic Spider's Monster Core, the Weeping Serpent's poison won't have any effect on you."

'Really? Let me try it...'

Trusting Xiao Hua's words, Yuan stopped cultivating and covering his body with spiritual energy, allowing the purple smoke to engulf his body.

'Xiao Hua's right. I don't feel any different.' Yuan was pleasantly surprised by this.

However, when the sect elder saw this, she immediately retrieved a brown pill and tossed it at Yuan.

"Eat it quickly or you'll die!" Elder Tantai thought Yuan had already exhausted his cultivation and was exposed to the poison.

"Eh?" Yuan subconsciously caught the brown pill, but he didn't eat it and instead said to her, "But I'm fine."

"What?" Elder Tantai's eyes widened with surprise after hearing Yuan's word, and upon closer inspection, Yuan didn't appear to be struggling at all.

'What is going on?' she asked herself.

Yuan was clearly exposed to the Weeping Serpent's poison, but for some reason, he was completely fine.

'Does he have a unique physique that protects him from poison?' Elder Tantai could only think of this logical explanation to Yuan's situation. However, if that was the case, why didn't he do it early to save some spiritual energy?

Elder Tantai decided to not think too deeply about this as long as Yuan was fine.

"Keep the pill just in case you feel any symptoms. If you feel unpleasant or sick even the slightest at any moment, consume that pill immediately or you will really die," she then said to him.

"I understand." Yuan nodded his head and proceeded to sit there with a calm atmosphere around him.

"..."

Despite listening to their puzzling conversation, the other disciples did not stop focusing on protecting themselves, fearing that if they lose focus for even a second that they might fail the exam.

Fifteen minutes later, the incense stick only burned halfway to the end, and over half of the disciples there were already soaked in sweat, looking like they could barely hold on.

Elder Tantai took note of the disciples who she believes will fail soon and prepared the antidote in advance.

A minute later, the first disciple to exhaust his cultivation base before the entire incense stick burned, and Elder Tantai tossed the pill at him.

The disciple did not hesitate to consume the pill, as he could feel his skin burning the second the smoke touched his body.

After another couple of minutes later, over a dozen disciples swallowed the same pill, failing the examination.

The incense stick lasted for exactly thirty minutes, and at the end of the test, fifty-one disciples failed the examination.

"70 of you remaining, huh? Much better than I'd expected, to be honest." Elder Tantai nodded her head in approval.

"You have ten minutes to rest before we begin the next test." Elder Tantai said to them afterward.

The disciples immediately sat down to cultivate and restore their spiritual energy.

While the disciples rested, Elder Tantai prepared the next test by placing a Training Puppet in the middle of the field.

Ten minutes later, Elder Tantai clapped her hands and spoke loudly, "You are done resting! If you continue, I will immediately fail you! Gather in front of me!"

The disciples quickly stopped their cultivation and stood up after hearing Elder Tantai's words.

A few moments later, all of the disciples gathered in front of Elder Tantai.

"I will now explain the second test." Elder Tantai said as she pointed at the silver-colored training puppet that looked slightly different compared to the ones in the Practice Area.

"Some of you might have seen this before, but this is a special training puppet mostly used by Inner Court and Core disciples because they are more durable than the ones in the Outer Court, and they have a special feature that allows them to gauge how powerful their attacks are."

As her sentence ended, Elder Tantai turned around and punched the training puppet.

Boom!

The impact sounded very powerful, but the training puppet only moved back a couple of meters.

A few seconds later, the training puppet began changing colors from silver to a dark yellow color.

"The colors will determine how much damage it'd sustained. There are three colors— Green, yellow, and red. Green means nonlethal damage. Yellow is lethal. As for red, it means you can kill even a Spirit Warrior magical beast with that strike, and the darker the color the more damage they sustain. In order to pass this test, you must make the puppet turn yellow." Elder Tantai explained.

Chapter 256 - Exploded Into Many Pieces

"Oh, one more thing. You are not allowed to use your own weapon in this test." Elder Tantai added, and she pointed to the weapon rack not far in the distance and continued, "Use one of those."

"Are there any questions?"

One of the disciples there raised his hand and said, "We can use any technique we want, right?"

Elder Tantai nodded, "That's right."

Sometime later, after the questions, Elder Tantai said, "If you wish to challenge the training puppet, step forward."

A few seconds after Elder Tantai's words, a disciple at the peak Spirit Apprentice stepped forward and spoke loudly, "I will go first!"

He then went to pick up a spear from the weapon rack before coming back and approaching the training puppet.

The disciple stood a few steps in front of the training puppet and took a moment to prepare himself.

After taking a long and deep breath, the disciple raised his spear.

Once the spear was raised perfectly parallel to the ground, the disciple held his breath for a second before thrusting it forward.

Boom!

The training puppet was sent flying backward, but it slowed down very quickly and stopped five meters away from its original spot.

The disciple waited for the evaluation nervously, and a few seconds later the training puppet turned from silver to green, then dark green, before finally settling at yellow.

"You passed." Elder Tantai said.

"Yes!" The disciple shouted in excitement before returning the spear in the weapons rack.

A few minutes later, another disciple stood before the training puppet that had returned to its original spot with a different weapon in his hand— a sword.

"Haaaa.... Ha!"

The disciple slashed the sword in his hand, creating a powerful strike that made the training puppet fall to its knees.

Once it stood up again, the colors began changing.

Light green... dark green... light yellow...

"You passed." Elder Tantai said once the color stopped at light yellow.

The next disciple went, but he didn't pick up a weapon and stood before the training puppet with his bare fists.

"Mountain Shattering Fist Strike!"

The disciple threw a punch with immense force at the training puppet, sending it flying many meters away.

After falling down a dozen meters away, the training puppet got back up and slowly walked back to its original spot while changing colors as it walked.

Dark green... light yellow... dark yellow...

"Not bad." Elder Tantai nodded her head when she saw this, and she continued, "You pass."

"Thank you, Elder." The disciple bowed to her before standing with the other two who had passed before him.

The disciples continued to challenge the training puppet one by one, and in less than an hour, over half of the disciples used their turn.

"Light yellow— pass."

"Light yellow— pass."

"Dark green— fail."

"Dark green— fail."

"Light Yellow— pass."

Out of the thirty-something disciples that challenged the training puppet, only two-thirds of them had managed to pass the test by scoring a yellow color. However, nobody there has managed to make the training puppet turn red.

A few more tries later, a disciple with a first-level Spirit Warrior cultivation base has finally managed to hit the training puppet hard enough for it to turn light red.

"Heavens! What a powerful martial skill! I could feel the impact even from here! I don't even dare to imagine what it must feel like to get struck by such a powerful blow!"

The disciples were shocked by this young man who was wielding a greatsword in his hands.

"I recognize that martial skill! It's the 'Relentless Force', an Earth-rank martial skill!"

"No wonder why it was so powerful! To think he'd trained an Earth-rank technique to such a high level! What astounding talents and display!"

Elder Tantai clapped afterward, and she spoke in a praising voice, "Great! It's been a while since a disciple has managed to hit a red color during the examination. In fact, the last time someone managed to hit red was almost a year ago."

"Thank you, Elder, for your praises!"

Sometime later, once everyone else went, it was only Yuan who hadn't gone.

"That's Disciple Yuan who defeated the Mad Tiger. What color do you think he'll achieve?" The disciples immediately started mumbling to each other while Yuan went to the weapons rack to pick his weapon.

"Who knows, really. During his match with the Mad Tiger, he didn't lift even a finger and used some mysterious technique to take down the Mad Tiger."

"I have a feeling he'll hit a dark yellow, maybe even light red."

"I think it'll only be light yellow."

A few moments later, Yuan returned to the training puppet with a sword in his hand, and the other disciples stopped talking to watch with intensive gazes.

'Hmm... What technique should I use?' Yuan thought to himself.

While the Heaven Splitting Sword Strike is his most powerful technique available, he didn't want to destroy this place. As for his next strongest sword technique, Demon Sealing Technique, it was out of the question since he has never used it before. Therefore, he could only use the Bloody Sword Strike, his most used technique.

After taking an offensive stance, Yuan took a deep breath.

Once he released his breath, the sword in his hand began glowing bright red, and Yuan swung the sword with all of his might.

Boom!

Yuan's aura exploded with a tyrannical feeling, and a red arc of light appeared in the air as the sword connected with the training puppet's neck.

Cling!

To Yuan's surprise, the blade to the sword in his hand exploded into many pieces after Yuan struck the training puppet.

However, that was not the only thing to break during his strike, as the training puppet's head was cleanly sliced off from its body like it had been executed.

"WHAT?!" Elder Tantai shouted in a shocked voice when she saw this, as this is her first time seeing someone destroy a training puppet in such a manner.

As for the other disciples, their eyes were wide as saucers with their jaws dropped to the ground, looking like they'd just witnessed something impossible.

Chapter 257 - Powerful Magical Beast

"What in the name of heavens just happened?! Am I imagining things or did he just decapitate the special training puppet that even Spirit Warriors cannot destroy?!"

One of the disciples there mumbled in a dazed voice as he stared at the silver head that had rolled a few meters away after being detached from its body.

Meanwhile, the training puppet that Yuan had decapitated continued to function, turning colors.

Light green, dark green, light yellow, dark yellow, light red, dark red... black!

To everybody's surprise, the special training puppet had suddenly turned black—a color they didn't know existed, much less seen before!

Yuan looked at the broken sword in his grasp with a dazed expression on his face. He didn't expect the sword to break so easily; it felt like he'd smashed a rock with an egg. However, to his surprise, he'd still managed to decapitate the training puppet.

Of course, it was the spiritual energy released from the sword that had sliced the training puppet's head cleanly off its body, as the sword was destroyed the moment it touched the puppet's tough body due to the immense force behind it.

Sometime later, once she snapped out of her daze, Elder Tantai approached the training puppet to examine its damage with a perplexed look on her face, seemingly trying to figure out what the heck just happened.

She then looked at Yuan's broken sword.

"I don't recognize the technique you'd just used. What rank is it?" she then asked him.

"Earth-rank," he calmly responded.

"..."

Elder Tantai questioned her own existence after learning that Yuan had managed to decapitate a special training puppet with an Earth-rank technique while she can't even damage it with a technique of the same rank and a cultivation base of 7th level Spirit Warrior.

"A-Anyway... you passed..." Elder Tantai said after a moment of silence.

Even if she can't comprehend what just happened, she couldn't deny what was right before her eyes.

Fortunately for her, Yuan was the last person to take the test, or she would've needed to find another special training puppet, which would have delayed the examination for at least two to three hours since nobody could've expected an Outer Court disciple destroying a special training puppet that even Core Disciples cannot destroy.

"As expected of the one who defeated the Mad Tiger without lifting a finger... If he'd lifted his finger, perhaps that match would've ended up as a deathmatch..."

The disciples there wholeheartedly believed that Wu Laohu had lucked out when Yuan decided to let him survive.

Sometime later, Elder Tantai gathered the disciples again and said, "There are twenty-four of you left, and we will be heading to the final test where

you must defeat a magical beast before you become an Inner Court disciple. If you have any questions, ask away."

One of the disciples immediately raised his hand and asked, "What kind of magical beasts will we be fighting?"

Elder Tantai then responded in a calm voice, "It's a powerful magical beast that is mostly found within the Jade Forest—the Jade Frog."

"The Jade Frog?!" The disciples expressed shock upon hearing this name.

Jade Frogs are incredibly hard to deal with since they have a large body and tough skin, and they like to jump around. A single mistake could lead to their bodies getting flattened.

Meanwhile, Yuan tilted his head after hearing this familiar name.

'Jade Frog? Isn't this the first monster that I have fought in this game? The one that nearly gave me a heart attack because I thought it'd turned Xiao Hua's body into meat paste?' Yuan remembered his encounter with the Jade Frog as though it was just yesterday, as that was his first combat experience in this world.

"Who would like to go first?" Elder Tantai asked the disciples after answering all of their questions.

"I'd like to go first." An eager voice immediately responded.

The disciples turned to look at the voice, and to their surprise, Yuan had volunteered to go first.

"S-Sure, go ahead." Elder Tantai said, and she continued, "One of the gates at the end will open once the test begins, and you will have fifteen minutes to defeat the Jade Frog or it's an automatic loss. And just like the previous test, you can only use the equipment provided to you."

Yuan nodded his head before heading to the weapons rack to pick up another weapon.

This time, he chose a dagger, surprising the Elder Tantai and the other disciples with his choice.

"Why's he using the dagger? I thought for sure he was going to use the sword again!"

"Is he trying to show off or something? This test is entirely different compared to the previous two tests. You need a lot of experience and knowledge to fight a magical beast, especially the Jade Frog that's well known for killing inexperienced Cultivators who are not used to their attack patterns."

"Who knows. He's done nothing but surprise since the beginning. Maybe he'll do the same for this time as well."

Sometime later, once Yuan was standing in the middle of the field with the other disciples standing all the way in the back, Elder Tantai shouted, "Release the magical beast!"

The metal gates immediately opened, and the ground began shaking as a Jade Frog made its appearance by hopping out of the entrance.

The disciples swallowed nervously when they saw the Jade Frog and its intimidating appearance.

Meanwhile, Yuan stared at the round magical beast with a nostalgic feeling.

BOOM!

The Jade Frog stopped moving after it landed a few meters away from Yuan, and it proceeded to stare at Yuan and the others there as though it was analyzing them and their situation.

In this stillness and silence, a movement was suddenly made, but it was not by the Jade Frog.

Instead, it was Yuan who moved first, as he'd suddenly tossed his dagger into the air.

A vicious light flickered in his eyes, and right as the dagger in the air reached its highest point and prepared to fall down, it suddenly stopped moving and hovered in the air for a split second before shooting itself at the Jade Frog like a shooting star.

Chapter 258 - Becoming An Inner Court Disciple

The moment it saw the dagger trembling in the air, the Jade Frog sensed imminent danger, causing its body to instinctively jump up to avoid it.

Whoosh!

The Flying Dagger barely missed the Jade Frog. However, before the Jade Frog could even land, the Flying Dagger suddenly did a sharp turn and flew at it again like there was a string attached to the Jade Frog.

Whoosh!

A gaping hole appeared before the Jade Frog's forehead a split second later, instantly killing it.

Thud!

The ground shook when the large and heavy Jade Frog's lifeless body fell down from the sky, shocking the spectators.

Once the place was still, Yuan turned around and walked back to be with the rest of the disciples without even turning around or checking whether the Jade Frog was truly dead or not.

"I have defeated the Jade Frog. Am I an Inner Court disciple now?" Yuan asked Elder Tantai who stood there with a gawking look on her face.

After a long moment of silence, Elder Tantai nodded her head in a stiff movement before speaking, "Y-Yes... Congratulations on becoming an Inner

Court disciple, Disciple Yuan... here's your badge. Take this to the distribution center to get your Inner Court disciple badge and robes..."

Yuan accepted the badge with humbleness before walking out of the examination hall in a casual manner, almost like he was taking a stroll in a park.

The other disciples there watched as Yuan's back disappeared from their sights.

"Just where on earth did this Disciple Yuan come from and how come I have never heard of him until recently? There's no way such a genius would be a nobody!" Elder Tantai mumbled to herself in a dazed voice.

Sometime later, once the Jade Frog's corpse was taken away, Elder Tantai resumed the examination.

Meanwhile, Yuan went to the distribution hall and handed the elder at the front desk the badge he'd just obtained from Elder Tantai.

"So you just passed the Inner Court Disciple Examination, huh? Congratulations." The sect elder there treated him with respect, taking Yuan by surprise.

After all, he's been treated like an insect most of the time by the sect elders in this sect—at least that's what it feels like, and it was a refreshing feeling to be respected by a sect elder.

"Can I have your old identification badge?" The sect elder then asked him.

Yuan nodded and handed him the bronze identification badge.

"I'll be right back." The sect elder went to the back of the room for a few minutes before returning.

"Here you go. I have updated your identification badge. As for your living quarters, you can choose to stay in your current place or be assigned a new living quarter in the Inner Court."

Yuan immediately responded without any hesitation, "I will remain in my current residence."

The sect elder was slightly surprised by Yuan's decision. After all, the living quarters within the Inner Court are more spacious and luxurious overall, and you only have one roommate compared to the 5 roommates in the Outer Court. Any logical being would choose to live in the Inner Court.

'Perhaps he doesn't want to leave his friends?' The sect elder could only think of one reason for Yuan's decision.

"If that's your decision, then I won't say anything. However, if you wish to move to the Inner Court for whatever reason, you can come back here and we'll arrange something for you," said the sect elder a moment later.

And he continued, "Now about your new uniforms... Which color do you want? Blue or green?"

"Does it matter which one I choose?" Yuan asked.

"No, it doesn't matter. It's just a preference thing."

"Then I'll choose blue."

"Very well. I'll be right back again."

The sect elder went to the back for a second time before returning a few minutes later with three sets of blue uniforms.

"Here you go. If the sizes don't fit, you may return to exchange them."

"Thank you, Senior." Yuan accepted the uniforms.

"One more thing before you leave. There'll be a lecture tomorrow that'll introduce you to life as an Inner Court disciple. If you can, please attend it. It'll be at the Education Peak in building #111."

"I understand. I'll try to attend it." Yuan nodded.

Sometime later, Yuan left the distribution hall and returned to his own living quarters.

"Hm?"

Min Li, who was just about to leave her house, noticed Yuan's approaching figure and the blue robes he was carrying.

"D-Disciple Yuan! Those uniforms— You're an Inner Court disciple now?!" Min Li exclaimed in a shocked voice.

Yuan nodded and said, "Yes, I just took the examination today and became an Inner Court disciple."

Min Li's jaw dropped to the ground.

"W-Why didn't you tell me?! I would've done the examination with you!" Min Li asked him.

"That... never crossed my mind... I didn't know you wanted to take the examination as well," Yuan said in an apologetic voice.

"I-I am not blaming you or anything..." Min Li quickly said.

"Anyways, now that you're an Inner Court disciple, will you be moving out?" Min Li then asked him.

"No, I will be staying here," Yuan responded.

"Really?" A pleasantly surprised expression on Min Li's face.

"Why?" she couldn't help but ask him, hoping that he would say something romantic like 'because of you' or something along that line.

But alas, Yuan said, "There's really no reason for me to move out of such a nice house."

"Eh? But you will have to walk to the Inner Court every time you need something from there, which will take up a lot of time."

"It's okay. I like to be active, anyways."

"I-Is that so..." Min Li mumbled.

Normally, Cultivators want to spend as much time as they could on cultivation whilst saving time for everything else so they can have more time for cultivation. However, for geniuses like Yuan, minor things like that don't really matter, as it won't affect their extreme cultivation speed much if any at all.

Sometime later, Min Li left the place to go to the practice area.

'The next Inner Court Disciple Examination is in three months... haaa...'
Min Li sighed inwardly as she left the place.

Meanwhile, Yuan went back to his own room.

"Congratulations on becoming an Inner Court disciple, Brother Yuan." Xiao Hua said to him.

"Thank you, Xiao Hua," Yuan said to her.

A few moments later, Yuan sat down and began training his Divine Sense.

Once the sky began turning dark, Yuan logged off the game and waited for Meixiu to return home.

"I'm back, Yuan," Meixiu said to him after closing the door.

"Welcome back, Meixiu."

"I'll prepare dinner right now."

After putting down her stuff from school and changing her clothes, Meixiu went to cook dinner.

Once that was done, Meixiu went to feed Yuan.

"Yuan, you need to be careful when you're playing the game," Meixiu suddenly warned him.

"Huh? Why would you say that?" Yuan asked.

"The Young Lady told me to warn you because there will be a lot of players trying to get into the Dragon Essence Temple to meet you."

"Really? I should start wearing my mask even in the sect then..." Yuan mumbled.

"The Young Lady also told me to warn you to stay away from people who try to ask you personal questions even if they might be an NPC because players can disguise themselves as NPCs and you won't know it."

"I understand. I'll be careful," Yuan said.

"By the way, how is Yu Rou doing at school? I hope she's doing fine after what happened recently."

"The Young Lady is doing much better. Furthermore, she can always meet you in Cultivation Online— at least that's what she keeps telling herself."

"I see... I plan on leaving the Dragon Essence Temple to spend more time with Yu Rou in a week or so anyway. I cannot leave until I participate in the Mystic Realm, since I promised the Sect Master and others that I'd help them."

"The Mystic Realm?" Meixiu raised her eyebrows.

Sometime later, after she finished feeding Yuan dinner, Meixiu said, "I'll let you rest for a bit before I wash your body, Yuan."

"Okay."

Meixiu went to clean the dishes afterward.

Half an hour later, Meixiu returned to the room with his wheelchair.

After picking Yuan up from the bed and placing him in the chair, Meixiu pushed him to the bathroom, where she helped him undress.

And since she didn't want to get her clothes wet while washing Yuan, Meixiu decided to also take her clothes off and went into the bathroom with him naked.

Once they were inside the bathroom, Meixiu squeezed some body wash onto her palms before she rubbed it all over Yuan's body.

Once Yuan's body was covered in body wash, Meixiu used a soft scrubber and began scrubbing his body.

'This is my first time washing him...' Meixiu thought to herself as she cleaned whatever she could.

A few moments later, Meixiu reached his lower area, and her eyes subconsciously moved to look at the cute thing between Yuan's legs.

Almost like she was mesmerized or something, Meixiu couldn't find the strength to look away, and she proceeded to stare at it with a dazed look on her face.

Meixiu finally snapped out of her daze a few moments later, and she proceeded to wash Yuan's legs, ignoring the thing in the middle for now.

'What is this feeling?' Meixiu swallowed nervously when she noticed her heart beating faster than usual, feeling as though the temperature in the room had suddenly increased.

Chapter 259 - An Unexpected Phenomenon

"I know I said this before, but I really appreciate you doing this for me, Meixiu." Yuan suddenly said to her while she scrubbed his legs.

"D-Don't worry about it... You have also helped me out a lot when I didn't know any better as a child." Meixiu responded in a low voice.

When she was a young child who was still in training to be the perfect servant, she would often make mistakes and get scolded by her mother. When that happens, Meixiu would cry like any other brat and seek Yuan for comfort.

"I was originally trained to serve you, Yuan, but after what happened to you, they decided to assign me to the Young Lady instead..." Meixiu suddenly said.

"At one point, I was even..."

Meixiu suddenly stopped midway through her sentence.

"Meixiu?"

"Never mind that... I was just talking to myself," Meixiu mumbled a moment later.

After cleaning Yuan's legs, there was only one place that still needed to be cleaned—the area between his legs.

Meixiu swallowed nervously at the thought of touching this cute snake, almost like she feared that it might bite her if she approached it.

However, as much as she wanted to leave that place alone, she was trained to do her job properly; it was inexcusable for her to half-ass a job or leave her job unfinished.

Therefore, she could only swallow her nervousness and reach for the soft thing between Yuan's legs and began cleaning it with her hands, as it was very difficult to clean every nook and cranny with the sponge.

A chill went up Yuan's spine when Meixiu began cleaning his precious thing. Perhaps it was due to his Spirit Warrior cultivation base, but the sensation of his own body has significantly improved since then, allowing him to feel a lot more. He'd already noticed this when Meixiu began washing his body, but it wasn't as apparent as currently for some reason, almost like the area between his legs was much more sensitive than other areas on his body.

And then an unexpected phenomenon happened.

"This is..." Meixiu's eyes widened with shock when the small snake suddenly started growing larger and larger.

Since this is her first time washing Yuan, it is only obvious that she has no prior knowledge, so she didn't know if Yuan's sprout was normal in such situations.

Of course, Yuan was oblivious to this natural reaction on his body.

Meixiu didn't know whether she should continue or stop at this point, but she eventually convinced herself to continue.

Thus, Meixiu began washing Yuan again but with a slight difference— she was rushing it, something she had never done before.

A few seconds later, Meixiu finally stopped washing him and began rinsing the soap off his body with the showerhead.

"I am finished..." Meixiu spoke in a tiny voice afterward, her face flushed with redness.

"Thank you, Meixiu." Yuan said to her in a calm voice, completely oblivious to the blushing expression on Meixiu's face at this moment.

Sometime later, Meixiu laid a large dry towel on Yuan's bed before placing Yuan on this blanket and drying his body off with another towel.

'It's back to normal again...' Meixiu thought to herself as she dried his body.

After drying Yuan's body, Meixiu helped Yuan put his clothes on.

"I am done here, Yuan. I am going to clean myself now..." Meixiu said, still completely naked at this point.

"Okay. You can go to sleep afterward."

"Goodnight, Yuan."

"Goodnight."

Meixiu went to the bathroom to wash herself shortly after, and Yuan began cultivating.

'What was that warm sensation just now?' Yuan wondered to himself before he started his cultivation.

Meanwhile, Meixiu spent longer than usual in the bathroom. Once she was finally out again, she went straight to her room and sat on her bed with a dazed look on her face for many minutes before she decided to put on the console and enter Cultivation Online to see whether Yuan's friend was there.

After spending half an hour of waiting with no results, Meixiu logged off the game to sleep.

That night, Meixiu had a weird dream where she was surrounded by mushrooms and snakes.

The following morning, after feeding Yuan breakfast, Meixiu went to school.

"You look tired, Meixiu. Did you not get enough sleep last night? This is my first time seeing you like this." Yu Rou said to Meixiu inside the car when she noticed Meixiu's dazed look.

"N-No... I am fine, Young Lady." Meixiu responded with a slight delay.

"I see... If you need to rest, just let me know and I'll give the teachers an excuse so you can rest for the day."

"Thank you, Young Lady, but I am fine."

"How's Brother Tian?" Yu Rou then asked.

"The Young Master is doing great, and as usual, he's eating three bowls of soup with ease," she responded.

"I see... By the way, this reminds me, you were supposed to be Brother Tian's servant at one point, right? I remember your mother saying something like that to me before." Yu Rou suddenly asked.

"T-That's right... I was trained to support the Young Master and satisfy his every need." Meixiu nodded.

Yu Rou's eyes widened, and she mumbled in a slightly surprised voice, "That sounds like they trained you to become his wife or something."

"..."

Meixiu remained silent regarding Yu Rou's statement, yet a weird glint flickered in her eyes.

"Do you regret it?" Yu Rou continued to ask. "Not being able to work for Brother Tian despite training for it, I mean."

"While it did feel bitter at first since it felt like all of the training I did was for nothing, I was able to assist the Young Lady because of the skills I had

learned with that training, so I don't have any regrets," Meixiu answered after a moment of silence.

"But you're taking care of Brother Tian now, just like you were trained. It feels like fate," Yu Rou chuckled at her own statement.

Sometime later, they arrived at school and began their classes.

Chapter 260 - You Tricked Me!

While Meixiu went to school with Yu Rou, Yuan continued to train his Divine Sense in Cultivation Online.

Meanwhile, at the Carp Leaping Over Dragon's Gate Tower, Long Yijun and the other Sect Masters stared in shock as the 99th floor emitted a golden light.

"H-He really did it! He's managed to reach the 100th floor!"

The disciples there mumbled to each other with surprise.

"Who's currently inside? I just arrived."

"Shui Zi, the number one genius of the Grand Saber Palace!"

"Shui Zi, huh? I heard he managed to reach Spirit Warrior at the young age of 18 and peak of Spirit Warrior at 27 years old. He's definitely up there even for a genius."

Meanwhile, the Sect Masters laughed out loud, "Hahaha! Looks like this will be the last person to challenge this tower even though we still have 2 more people!"

"I was getting worried for a second, but it's relieving to see someone finally reach the final floor!"

Despite most of their disciples challenging the tower, most of them had stopped around the 90th floor, and only Shui Zi managed to reach the 100th floor.

However, Long Yijun did not show any signs of worry, and he merely stared at the tower with a calm look on his face.

"What do you think about this, Elder Xuan? Do you think he'll beat the 100th floor?" Elder Bai suddenly asked him.

"I want to say it's impossible, but we have been taught again and again that there's no such thing as 'impossible' by 'him'. Though, it is still unlikely that he would be able to pass that floor." Elder Xuan said with a bittersweet smile on his face.

Meanwhile, inside the tower, a handsome young man with a fierce expression on his face slowly climbed the stairs to the 100th floor after spending 15 minutes recovering his strength.

"Already the last floor? I will give this place some credit since it was not easy climbing to this level, but alas, it looks like I am fated to defeat this tower." Shui Zi said with a confident smile on his face.

A few moments later, Shui Zi stepped onto the 100th floor and was greeted by the new scenery.

"What a vast place... Am I still inside the tower? Or is this merely an illusion?" Shui Zi mumbled in a dazed voice.

"Anyways, where are the monsters? Hurry up and come out so I can beat this boring tower already." Shui Zi shouted out loud in an arrogant voice.

"Hoh? A boring tower, huh?"

The space before Shui Zi suddenly twisted, and a gaping hole appeared in the space a moment later.

Then, Shui Zi watched with wide eyes as a massive golden dragon appeared from within the black hole.

Once it appeared, the Great One gazed upon Shui Zi as though he was an ant and spoke in a calm voice, "While I will give you credit for making it

here, nor did I expect someone else to come here so soon after the last one, but you don't have what it takes to clear the 100th floor."

"..."

Shui Zi did not respond to the Great One, mostly because he was frozen stiff from shock and fear.

"Hmph. What a boring one." The Great One shook its head when it saw the state Shui Zi was in.

"Anyways, since you want to get this over with, allow me to tell you the challenge for this floor."

BOOM!

An intense aura suddenly exploded from the Great One's large body, causing the entire world to shake.

"If you want to defeat the 100th floor, you must defeat me!" The Great One's voice echoed in Shui Zi's ears.

"I-Impossible! You're asking for the impossible! This isn't fair! How the fuck am I supposed to defeat a dragon?!" Shui Zi was snapped out of his daze by the Great One's aura that activated his instincts and desire to run.

"Hahaha!"

The Great One suddenly laughed before speaking, "Impossible? If it was impossible, how did the person who came before you pass the floor and defeat the tower?"

"Are you telling me that this person defeated you?!" Shui Zi exclaimed.

"No, we didn't fight, and I had another challenge for him."

"What?! That's even more unfair! Why are you giving me a different challenge, then?!"

A mysterious smile appeared on the Great One's face, and it spoke in a calm voice, "If you'd like, I can let you take that challenge instead."

"Really?"

A hopeful look appeared on Shui Zi's face after hearing this and he immediately nodded his head, "Yes! I want to take that challenge!"

"Very well..."

The Great One said.

A few moments later, the ground suddenly began rumbling, startling Shui Zi.

'What the heck is this shaking?' he wondered to himself.

The Great One spoke as a black line appeared on the horizon.

"For this challenge, you must defeat 100,000 peak Spirit Warrior magical beasts. You will have unlimited time to do so and 24 hours of rest time, and you may pause this challenge whenever you wish. However, once your 24 hours run out, you will have to fight until your last breath."

Shui Zi's eyes widened with shock after hearing this.

"You want me to fight against 100,000 Spirit Warrior magical beasts?! This is even more impossible than fighting you! You tricked me! There's no way anyone could possibly pass this trial even if they're given a week to rest!" Shui Zi pointed at the Great One with trembling hands.

"Why would I trick you? The last person cleared this challenge with no problem at all." The Great One shook its head.

"Then tell me who defeated this challenge?! I'll believe you then!"

However, the Great One shook its head and said, "That person's name is too great for someone like you. If you do not accept the challenge, then you will automatically forfeit."

Shui Zi gritted his teeth in anger, and he turned to look at the sea of magical beasts that were swarming towards him at this moment, his back soaked in cold sweats.

Chapter 261 - Impossible To Beat

Shui Zi watched as the sea of magical beasts quickly closed their distance, and once they were only half a mile away, Shui Zi could no longer keep calm and shouted, "I give up! I give up! Get me out of here!"

The Great One coldly snorted after seeing Shui Zi surrender the challenge, "Not even going to attempt the challenge? You're a much bigger coward than I'd anticipated. Get lost. You do not qualify to even be in my presence!"

The Great One's eyes flickered with a golden light, and before Shui Zi realized it, he was back on the first floor of the tower.

Meanwhile, outside the tower, Long Yijun and the other Sect Masters just witnessed the lights on all 99 floors turn off, signaling Shui Zi's failure.

"What?!"

The Sect Masters there were speechless by this, as they'd truly expedited Shui Zi to defeat the tower.

A few moments later, Shui Zi left the tower with a dazed look on his face, looking empty, almost like he was dead inside.

"Shui Zi! What happened in there?! You were so close!" His Sect Master quickly approached him.

"I... I... can't do it. No human being can pass the 100th floor. It's impossible." Shui Zi responded in a voice of disbelief.

The Sect Masters there immediately frowned, and one of them asked, "What do you mean by that? What was on the 100th floor?"

"It... It was a dragon— a real dragon. I had to defeat a dragon." Shui Zi spoke, and his body trembled upon recalling the Great One's intimidating aura.

"What! A dragon?! Don't tell me you had to fight this dragon!" The Sect Masters there were shocked.

Even Long Yijun and the high-ranking sect elders were surprised by this since they didn't hear anything about a dragon from Yuan!

Shui Zi nodded and said, "It was a golden dragon, and it had the cultivation of a Spirit Master."

After taking a deep breath, he continued, "However, that's not even the worst part, since there was another challenge on the 100th floor, which involves defeating 100,000 Spirit Warrior magical beasts with only 24 hours to rest."

"100,000 Spirit Warrior magical beasts?! How is that even possible?!" The Sect Masters there repeated in a shocked voice, their expressions filled with disbelief. Even if they challenged this tower themselves, they would not dare to claim that they can defeat 100,000 magical beasts.

Shui Zi nodded again and said, "Furthermore, the dragon claimed that someone had managed to clear that challenge by defeating all 100,000 magical beasts."

'That's the challenge Disciple Yuan told us about...' Elder Xuan thought to himself after hearing Shui Zi's words.

At that moment, the Sect Masters there turned to look at Long Yijun who was casually sitting there with a smug look on his face.

"What are you looking at? You still have two more disciples. Hurry up, the Mystic Realm is coming up and I need to finish preparing for that." Long Yijun said to them.

However, the Sect Masters did not send another disciple inside the tower, and they remained standing there while staring at Long Yijun with deep frowns on their faces.

If what Shui Zi said was true— that they had to either defeat a Spirit Master dragon or fight 100,000 Spirit Warrior magical beasts, there was simply no way the remaining two disciples would be able to defeat this tower.

In other words, they are destined to lose their bet!

"Sect Master Long, you tricked us! You knew it was impossible to beat this tower, so you made the bet with the Dragon Slaying Saber as bait!"

One of the Sect Masters suddenly pointed at Long Yijun and blamed him for tricking them.

However, Long Yijun remained calm and said, "No shit, you idiot. Why else would I dare to gamble the Dragon Slaying Saber? With that being said, you are wrong about one thing— that the tower is impossible to defeat. If it's really impossible, how did my disciple defeat it?"

"Bullshit! I bet your disciple had an entirely different challenge and the tower is merely screwing with us because we're not disciples of this sect! Or you manipulated the tower to give us an impossible challenge!" The Sect Masters said.

Long Yijun shook his head and said, "As if I have the power to manipulate the tower. In the history of the sect, nobody— and I mean not a single person before 'that' disciple had managed to clear all 100 floors, and even the Founder was defeated on the 100th floor!"

The Sect Masters' faces dropped after hearing such words. Not even their Ancestor who was known as the number one genius during his era could beat the 100th floor? Then what kind of monster does it take to defeat the tower? Just who is this disciple the Dragon Essence Temple is trying so hard to hide?

"I know what you're thinking, but I won't say anything. If you wish to meet this disciple, you'll see him at the Mystic Realm." Long Yijun laughed out loud.

"Che!"

The Sect Masters there snickered coldly.

"Anyways, are you going to continue or not? If not, you can forfeit the bet and your treasures as well." Long Yijun held his hand out in a lazy manner.

The Sect Masters gritted their teeth in frustration.

Even though they knew it was impossible for the remaining disciples to defeat the tower, they couldn't just hand their treasures to Long Yijun without even trying, as that would simply make things even more embarrassing for them!

"I will challenge the tower!" One of the remaining two disciples suddenly stepped forward and said.

"Chances are I will not be able to defeat the dragon or 100,000 magical beasts, but I will definitely try!"

The disciple's Sect Master nodded and said, "Well said! We have not lost just yet!"

Thus, the next disciple went inside the tower and began climbing it.

'Go ahead, keep struggling. The results will remain the same, anyways.'
Long Yijun laughed inwardly at their futile efforts.

Chapter 262 - Abnormal Amount Of Visitors

Sometime after the next challenger went inside the Carp Leaping Over Dragon's Gate Tower, Long Yijun mumbled to Elder Xuan who was sitting right beside him, "He should be an Inner Court disciple by now. Go find him and let him enter the Dragon's Peak alongside Fei Yuyan."

Elder Xuan nodded, "I understand."

When the other Sect Masters noticed Elder Xuan leaving the scene, they asked, "Where's he going?"

"Elder Xuan does not want to waste any more of his time here since he already knows the outcome. Therefore, he's leaving to work." Long Yijun responded in a nonchalant voice.

"Y-You little—!"

The Sect Masters gritted their teeth at Long Yijun's obvious provocation. However, they didn't dare to claim that they will definitely win this bet, especially not after what they learned about the 100th floor.

Even for a Spirit Master like them, it would be impossible to defeat 100,000 magical beasts even if they were given a month, much less 24 hours of rest time, and they cannot fathom the talent and strength that is required to pass this tower.

If what the dragon on the 100th floor told Shui Zi was true— that someone had managed to defeat 100,000 magical beasts and clear the tower, then the

cultivation world is about to experience a turmoil it hasn't felt in countless years.

"Hey, what are you guys thinking?" One of the Sect Master there suddenly whispered to the other three.

"Isn't it obvious?! I'm thinking about how we can get ourselves out of this shithole! It's obvious that we won't win this bet. However, we'll be handing 4 Divine-grade treasures to the Dragon Essence Temple if we lose!"

"Is there anything we can really do at this point? We've sworn a blood oath! Unless you want to invoke a Heavenly Tribulation and curse your future generations, we cannot break the blood oath!"

"Fuck! We were blinded by the Dragon Slaying Saber! That bastard really got us good this time!"

"Even though we cannot do anything about the blood oath, we can still try to work something out with him after we give him our treasures. I highly doubt the Dragon Essence Temple wants to offend four sects at once!"

"Right! We can simply buy our Divine-grade treasures back, or we can offer something else in return for them!"

"Let's try to figure this out before our last disciple challenges the tower!"

Long Yijun noticed the other Sect Masters whispering to each other, and he could already imagine what they were talking about. However, it didn't matter to him, as the Dragon Essence Temple would benefit from this bet no matter what they did at this point, and he continued to watch the tower light up with golden lights.

Meanwhile, Elder Xuan went to Yuan's living quarters and knocked on the doors.

A few moments later, Yuan opened the door and greeted him, "Hello, Senior Xuan."

"Let's talk inside." Elder Xuan said.

Yuan nodded and closed the door after he entered.

Once they were seated, Elder Xuan began to speak, "First and foremost, allow me to congratulate you on becoming an Inner Court disciple."

"Thank you, the examination was pretty fun," Yuan said with a smile.

"Fun..."

A bittersweet smile appeared on Elder Xuan's face. In this entire sect, Yuan is probably the only disciple who would have fun during such an important examination.

"Anyway, I'm here to talk about the Dragon's Peak. The Sect Master wants you and Fei Yuyan to enter before the Mystic Realm that is only a week away. Are you available now? I can take you there right now."

Yuan nodded and said, "Yes, I am free. I was just training my Divine Sense."

"Training Divine Sense at your cultivation level, huh? I didn't start training my Divine Sense until I was a Spirit Master. Unfortunately, the Dragon Essence Temple doesn't have any Soul Techniques to assist you in that matter." Elder Xuan said.

"It's fine."

"Okay, then follow me. Let's go pick up Disciple Fei before we head to Dragon's Peak."

Just as Elder Xuan turned to walk towards the door, Yuan suddenly said, "Please wait a moment. Senior Xuan."

"Hmm?" Elder Xuan turned around and watched as Yuan retrieved a black jade mask before putting it on his face.

Elder Xuan raised his eyebrows after seeing this.

"Is it fine if I go outside with my mask? There are a lot of people looking for me, and I don't want them to recognize me." Yuan said.

Elder Xuan became even more puzzled after hearing his words, and he asked, "Are there disciples bothering you right now? I will immediately deal with them if that's the case—"

"No, it has nothing to do with the disciples, nor am I being bothered right now. However, there are people out there looking for me, and I have been told that they will be trying to enter the sect just to look for me because of my appearance at the zither competition."

"Now that you mention it, there has been an irregular amount of people trying to enter the sect as of lately, and most of them are rogue cultivators. Are they perhaps the people you're referring to?" Elder Xuan asked him.

Ever since the zither competition, a lot of people have been visiting the Dragon Essence Temple with some people even trying to sneak inside. However, none of the elders or Long Yijun found that weird, as it was normal for people to flock to the Dragon Essence Temple after what happened at the zither competition, and this is usually what happens after a competition or tournament.

Though, the number of people visiting the sect as of recent is through the roof and unlike anything the sect has experienced before, and most of them were rogue cultivators without any backgrounds.

"If these people are here because of you, then we need to tighten up the security around the sect..." Elder Xuan mumbled with a perplexed look on his face.

Sometime later, he said, "I'll speak with the Sect Master afterward. For now, let's get you and Disciple Fei to the Dragon's Peak so you can strengthen yourselves as much as possible before the Mystic Realm."

Chapter 263 - Dragons Peak

Chapter 263 - Dragon's Peak

After leaving the house, Elder Xuan led Yuan to the Inner Court to look for Fei Yuyan.

The appearance of Elder Xuan in the Outer Court surprised everyone and attracted countless gazes from the disciples around them, and they all bowed to him the moment they noticed him.

As a high-ranking sect elder, they are revered as much as the Sect Master himself, and they usually don't appear in public, much less the Outer Court, so for Elder Xuan, one of the most renowned high-ranking sect elder to appear in the Outer Court was very shocking, to say the least.

"Who's that Inner Court disciple following him? He's even wearing a mask..."

"Why is he wearing a mask? What's he trying to hide? His ugly face?"

"Who knows."

Sometime later, Elder Xuan and Yuan arrived at Fei Yuyan's living quarters and knocked on the doors.

After waiting for a few moments with no response, Elder Xuan knocked on the door again.

However, nobody answered the door.

"How odd..." Elder Xuan retrieved his jade slip and looked at it before continuing, "Disciple Fei hasn't signed out of the logbook so she should still be within the sect. Maybe she went to the Dragon Pavilion?"

"Do you have any idea where she went?" Elder Xuan decided to ask Yuan.

Yuan shook his head and said, "I tried to visit her a few days ago as well, but she wasn't here either."

"Let's go to Elder Shan's living quarters and see if Disciple Fei is there or if she knows Disciple Fei's location." Elder Xuan suggested.

Yuan nodded his head, and they proceeded to head to the Blossom Peak to see Elder Shan.

Sometime later, they knocked on Elder Shan's door.

"Who is it?" Elder Shan appeared before them a few moments later.

"Elder Xuan and... Disciple Yuan?" It took a few seconds for Elder Shan to recognize Yuan's black jade mask, and when she realized that it was Yuan, she subconsciously took a step back and covered her head with her hands.

"Elder Shan? What are you doing?" Elder Xuan raised his eyebrows when he saw her puzzling actions.

"A-Ahem! Nothing." Elder Shan cleared her throat before continuing, "Anyway, what are you doing here? And why are you hiding your face, Disciple Yuan?"

"It's a complicated situation for him, we'll discuss it later. As for now, we're looking for Disciple Fei so we can head to the Dragon's Peak. She wasn't at her house, so we figured to come here." Elder Xuan said.

"Oh, Fei Yuyan? She's currently in closed cultivation in the Immortal Caves." Elder Shan said.

"Immortal Caves? What's that?" Yuan immediately asked, his interest piqued.

"The Immortal Caves are located at Cloud Peak, where the spiritual energy is incredibly thick and abundant, only second to Dragon's Peak in the entire sect. Core Disciples usually spend the most time cultivating there, especially if there's nothing else to do outside. And since the Mystic Realm

is getting close, everybody wants to improve their cultivation as fast as possible to be eligible for the Mystic Realm."

"One must be eligible to participate in the Mystic Realm? How do you pick who gets to participate?" Yuan asked them.

"Well, the Mystic Realm is a mysterious place where one's overall strength and cultivation doesn't matter at all. Instead, one's talent reigns supreme. Everyone who enters the Mystic Realm will have their entire cultivation base wiped, but you'll regain your cultivation once you come back out." Elder Xuan explained to him.

And he continued, "Therefore, we pick the participants depending on their growth and improvements over a certain time. So far, you're the only disciple who is certain to participate in the Mystic Realm. As for the other two disciples... We'll figure it out by the end of the week.":

"Wow... A mystic place, indeed." Yuan's anticipation for this place grew slightly more.

"Anyway, since Disciple Fei isn't here and we can't just disturb her cultivation, I guess you'll have to go to Dragon's Peak by yourself for now, Disciple Yuan." Elder Xuan said to him.

"Okay." Yuan nodded.

"Thank you, Elder Shan. We'll see you later."

"Oh, right. Before I leave..." Yuan suddenly reached into his spatial ring and retrieved a cultivation technique.

"Can you give this to Disciple Fei when she comes out of cultivation?"

"This is...?" Elder Shan accepted the technique with a nonchalant look on her face.

However, when she realized what she was holding, her eyes widened with surprise, "The Divine-rank cultivation technique you'd obtained from the zither competition? You're already done with it?"

Yuan nodded, "Yes, I learned it quicker than I'd expected so I don't need it anymore. Please give it to Disciple Fei."

Elder Shan and Elder Xuan's jaws dropped after hearing his words. He'd managed to learn a Divine-rank technique in just a few days? As expected, his comprehension abilities are beyond their understanding.

"I understand... I will give this technique to Fei Yuyan when I see her." Elder Shan nodded her head.

"Thank you, Senior Shan!" Yuan said to her.

Elder Xuan and Yuan left the place shortly later, heading to Dragon's Peak that was almost two hours away.

"So this is the Dragon's Peak? It's... so empty..." Yuan stared at the spacious land before them with raised eyebrows.

"Well, the Founder was a simple man who loved to feel free, so he didn't have much if anything in his area," said Elder Xuan.

"I see... but the spiritual energy in this area... it's really abundant. I can feel my cultivation base slightly growing just from breathing in this place." Yuan mumbled.

"Rumors say this is caused by a treasure that the Founder had hidden in this place before his disappearance since this place was not like this in the beginning, and it only became like this after the Founder's disappearance." Elder Xuan said.

And he continued, "However, despite all of our efforts throughout the years, nobody has found the supposed treasure to this day, and it's been tens of thousands of years."

"I see..." Yuan mumbled with a pondering look on his face.

Chapter 264 - Where Is The Treasure?

"Anyway, you can stay here for as long as you like until the Mystic Realm begins. Although it might be a long shot, try to breakthrough to the Spirit Master realm before then. While your cultivation base may not matter in the Mystic Realm, it'll definitely shock a lot of people and affect their minds and performance." Elder Xuan said to him.

"If you need anything from me, just contact me using the communication jade slip. I'll be at the Carp Leaping Over Dragon's Gate Tower with the Sect Master and the others."

Yuan nodded, and he suddenly asked, "How are the guests doing? Did they manage to clear the tower yet?"

Elder Xuan shook his head and spoke with a smile on his face, "No, but one of them managed to reach the 100th floor. You didn't tell me about the dragon."

"Oh... I forgot... I'm sorry." Yuan said.

"Hahaha... Don't worry about it. It was a pleasant surprise. We won't blame you for it." Elder Xuan laughed out loud.

Sometime later, Elder Xuan left the place, leaving Yuan alone at Dragon's Peak.

"What am I supposed to do here? Just sit down and cultivate?" Yuan mumbled to himself since Elder Xuan didn't exactly give him any instructions.

"By the way, Xiao Hua, can you see the treasure in this place with your Divine Sense? I couldn't sense anything." Yuan suddenly asked her.

"No, Xiao Hua cannot sense anything either. The people in this place should've already swept this entire place with their Divine Sense, anyway, so either there's no treasure in this place or it cannot be found through normal means."

"Through normal means? How else can we locate a treasure besides our Divine Sense?" Yuan asked.

"There are treasures that can locate other treasures. There are also magical beasts with special senses that allow them to pick up treasure. There are even powerful arrays that can pinpoint treasures as long as it's within the array. There are many methods one can use to locate treasures. However, unless they're incredibly incompetent, the people of this sect should've already tried all of these methods throughout the years."

"If that's the case, perhaps there really is no treasure in this place, and this abundant spiritual energy is merely a natural phenomenon?" Yuan said.

"No, there's definitely a treasure in this place." Xiao Hua suddenly said. "Xiao Hua just analyzed the flow of the spiritual energy in this place, and it's not natural. Something here is attracting the spiritual energy to this place."

"Really? Then can you pinpoint what is causing this phenomenon?"

"No, Xiao Hua cannot find anything no matter how much she tries. Maybe one requires a special technique or treasure to find the treasure." Xiao Hua said.

"Hmmm? Special technique...?" Yuan raised his eyebrows as though he'd realized something.

'What if it's a treasure that can only be seen with the Dragon's Gaze? After all, the Founder also knew of this technique...' Yuan thought to himself.

With that in mind, Yuan activated the Dragon's Gaze and proceeded to look around. However, he found nothing out of the ordinary.

'Nothing? Maybe it's in a different area since this place seems very big.'

Thus, Yuan proceeded to walk around the Dragon's Peak as though he was taking a stroll while his eyes glowed gold and emitted an ancient aura.

"Nothing here..."

"Nothing out of the ordinary here either..."

Yuan spent the next two hours walking around the peak, but alas, he couldn't find the treasure.

'Perhaps there is really no treasure in this place? But Xiao Hua said there's definitely something manipulating the flow of spiritual energy in this place, hence the abundance of spiritual energy.'

After pondering for a moment, Yuan wondered if he needed to activate Divine Sense as well as Dragon's Gaze, so he proceeded to walk around the Dragon's Peak for the second time, but this time, he had both Dragon's Gaze and Divine Sense activated.

"Still nothing?" Yuan was truly puzzled now.

The Dragon's Peak was spacious but also very empty, so there are very few places one can hide a treasure.

The treasure could be hidden underground, but not even Xiao Hua could find the treasure with her Divine Sense that's powered by the cultivation of a Spirit King, so that was unlikely.

"If it's not hidden on the surface or underground, there's only one more place..."

Yuan slowly tilted his head until he was staring at the sky. However, there was nothing there.

"..."

After taking a deep breath, Yuan activated the Dragon's Gaze again.

"T-T-This is..."

Yuan subconsciously took a few steps back with a shocked look on his face when he saw the thing flying above the Dragon's Peak.

"What's the matter, Brother Yuan?" Xiao Hua asked him since she couldn't see anything in the sky.

Yuan pointed at the sky with his entire arm trembling, and he said, "There... There is a huge glowing dragon flying in the sky!"

"What? Xiao Hua cannot see anything in the sky," she quickly said.

"I am not lying! It's really there! It's circling around the area like a guardian of some sorts!" Yuan hastily said.

"..."

No matter how hard she tried to look, Xiao Hua couldn't see the dragon Yuan was talking about.

"Can you describe it, Brother Yuan?" she then asked.

"It's at least one... no, two hundred meters in length, and it doesn't appear to have a physical body— only a golden outline. It resembles the Great One I saw on the 100th floor in the tower." Yuan described the dragon to the best of his abilities.

"That sounds like..." Just as Xiao Hua opened her mouth to speak, Yuan suddenly said in a surprised voice.

"Oh, it just noticed me... and it's looking directly at me."

Yuan looked at the golden dragon in the sky that was also staring back at him with a profound gaze.

After a few moments of silence and stillness, suddenly, the dragon began moving.

"Eh?" Yuan's eyes widened with shock when he saw the dragon start to fly at him like a meteor, immediately sending chills down his spine.

Chapter 265 - Dragon Essence

Seeing the golden dragon flying at him, Yuan subconsciously retrieved his Empyrean Overlord and took a defensive stance as it felt like an extremely powerful and violent beast was rushing at him at this moment.

"Brother Yuan?" Xiao Hua was puzzled by Yuan's sudden alertness and called out to him.

But alas, Yuan was too focused on the dragon to hear Xiao Hua's voice.

Whoosh!

The dragon slithered through the air in a smooth movement before headbutting Yuan.

Yuan held the Empyrean Overlord in front of his body to block the attack, but to his surprise, as though it was a ghost, the dragon went directly through his sword and straight into his body!

"Ah!" Yuan shouted in a surprised voice when the dragon suddenly invaded his body.

"What happened, Brother Yuan?!" Xiao Hua left the necklace and asked him.

"T-The golden dragon went inside my body!" He quickly said.

"Brother Yuan, Xiao Hua believes that the dragon is—"

Right as Xiao Hua spoke, a notification appeared before him.

Ding!

[Heaven Refining Physique activated]

[Minor Dragon Essence has been refined]

[Soul Strength +10,000]

[Your Divine Sense has reached a new level]

[Divine Sense Mastery Level (1) → (2)]

"—Dragon Essence, so it's not harmful to your body. In fact, it will even benefit you greatly!" Xiao Hua said.

"Dragon Essence? What is that? I just gained a lot of stats from absorbing the Minor Dragon Essence." Yuan said.

"What! Brother Yuan already absorbed the Dragon Essence?!" Xiao Hua looked at him with a gawking expression on her small face.

Unlike monster cores, monster essences are very unique in the way they are created and absorbed. When a magical beast dies, its Dantian will form into a monster core that allows Cultivators to absorb some of its spiritual energy. However, when it comes to essences, they can be created without needing the magical beasts' death.

With that being said, only powerful magical beasts have the ability to create essences, mostly Divine Beasts like the Great One, and even then it requires a lot of energy and time to form its own essence.

As for why magical beasts would waste their time and effort on creating essences— it's sort of training for them, like how Yuan trains his Divine Sense, as it strengthens their control over their own spiritual energy as well as their soul and mental strength.

"B-Brother Yuan, even though it's only a minor essence, it normally takes months if not years for an individual to fully absorb it, yet you managed to absorb it so quickly, almost instantaneously... It's almost as shocking as your eating habits..." Xiao Hua said to him with her eyes wide as saucers.

"Does absorbing monster essences not give you Qi like monster cores do?" Yuan asked her since he didn't get any Qi from absorbing the Dragon Essence.

"Essences are unique in the way that different essences will have different effects. Some essence can give you Qi while others will grant you other benefits such as increased physical strength or mental strength." Xiao Hua explained to him.

"I see... and the Dragon Essence happened to give me Soul Strength..." Yuan mumbled.

"WHAT!" Xiao Hua suddenly shouted in a shocked voice.

"S-Soul Strength?! The Dragon Essence gave Brother Yuan Soul Strength?! Is this true?!" Xiao Hua asked him in a somewhat nervous manner.

"Y-Yes..." Yuan nodded, startled by her reaction.

"That's incredibly lucky, Brother Yuan! Out of everything one can obtain from essences, Soul Strength is the rarest and most sought after essence by even top Cultivators since it directly improves your Soul Strength without needing any Soul Techniques or training!" Xiao Hua said to him in an excited voice, her body slightly shaking from excitement as though she was the one who received the benefit.

"Either the Founder of this place is incredibly generous to leave behind the Dragon Essence or he wasn't the one who put the Dragon Essence here!"

Yuan nodded and continued to ask, "By the way, it's only a Minor Dragon Essence. Does this mean there are even higher qualities of essences?"

Xiao Hua nodded and said, "That's right. There are Minor Essences, Major Essences, and Divine Essences."

"I see..." Yuan mumbled, and he continued, "What about methods one can use to find essences? This Dragon Essence was hidden in plain sight yet nobody managed to find it despite thousands of years."

However, Xiao Hua shook her head and said, "Just like how each essence has different effects, they also have different properties. Therefore, there is no single method to look for essences. They're all incredibly rare and can only be found by chance or fate."

"As for Brother Yuan... since only you managed to find it despite it being in plain sight for so many years, one can say the Dragon Essence was fated to be found by you. In other words, it's fate."

"Fate, huh..." Yuan suddenly recalled his meeting with Senior Bai and their talk about destiny and fate. Perhaps he was destined for this fortunate encounter.

Suddenly, another phenomenon occurred in the place, as all of the spiritual energy gathered at Dragon's Peak began dispersing in every direction.

"What's going on?" Yuan looked at the change with wide eyes.

Xiao Hua responded in a calm voice, "The Dragon Essence was what attracted the spiritual energy to this area. Now that it's gone since Brother Yuan absorbed it, there is no longer anything attracting the spiritual energy, so it's only natural they are leaving. Soon, this place will return to being a normal place without its abundance in spiritual energy."

"I see..."

Xiao Hua then continued, "Brother Yuan, you should take this opportunity to cultivate and absorb as much spiritual energy as you can since it'll take some time before the spiritual energy in this place returns to normal."

Yuan nodded and immediately sat down and began reciting his cultivation technique.

Whoosh!

The spiritual energy that was dispersing suddenly stopped leaving and began approaching Yuan as though they were attracted to him, quickly

creating a small tornado around him. However, Yuan could only feel a gentle and comfortable breeze around him.

Meanwhile, his cultivation base began to soar closer and closer to Spirit Master!

Due to his title and untainted body, Yuan's cultivation speed more than doubled, not to mention the Dragon's Peak that was abundant with spiritual energy. Yuan absorbed over 3,000 Qi every second, and in just a minute, he'd absorbed over two hundred thousand Qi.

Meanwhile, Xiao Hua sat in front of Yuan and watched him cultivate in silence.

'What a crazy cultivation speed for someone at the Spirit Warrior realm... He's absorbing the spiritual energy like he's eating food, almost like an unstoppable monster.' Xiao Hua thought to herself as she stared at Yuan's peaceful face with admiration on her face.

'At this rate, Brother Yuan will absorb enough spiritual energy to breakthrough to Spirit Master in a month... And even though Brother Yuan won't become a Spirit Master in time for the Mystic Realm, it's already an incredible feat, especially since we're still in the Lower Heavens where the quality of Qi isn't as good...'

After an hour of cultivation, unbeknownst to Yuan or Xiao Hua, inside Yuan's body, the Dragon Essence he'd absorbed just finished merging with the golden symbols engraved in his bones, causing them to change slightly before emitting a bright and golden glow.

Whoosh!

The spiritual energy in the area suddenly grew restless, and they began rushing toward Yuan's body as though Yuan's body had become a black hole with intense suction.

"W-What's going on?" Xiao Hua mumbled in a dazed voice when she noticed this sudden change, and it was unlike anything she has ever seen before.

Ding!

[Nine Dragon Symbols has been activated!]

[Nine Dragon Symbols have reached level one]

[Due to the Nine Dragon Symbols, your cultivation speed have increased by 1,000%]

Yuan's cultivation speed suddenly increased by a whopping 1,000 percent, shocking and puzzling Yuan at the same time, as he had no idea what this Nine Dragon Symbols was or how he'd obtained it.

However, he didn't think about it too much for now and decided to focus on cultivating, as he was worried that if he'd stopped, this sudden boost would disappear as well.

[+8,411 Qi]

[+8,301 Qi]

[+8,569 Qi]

His Qi gathering speed per second immediately doubled, allowing him to absorb over 8,000 Qi every single second, and in just an hour, Yuan had managed to absorb almost 30 million Qi!

Xiao Hua watched Yuan cultivate with her mouth wide open and jaw dropped. What caused this sudden and explosive increase in cultivation speed? Does it have anything to do with the Dragon Essence? However, she has never heard of essences having such a unique ability after being absorbed! After all, even though the Dragon Essence had the ability to gather spiritual energy at Dragon's Peak, such an ability shouldn't have transferred to Yuan after he absorbed it! Otherwise, it would be too powerful, and the heavens would never allow such a flaw to exist!

'Wait a second... Brother Yuan also managed to obtain a magical beast's ability after he consumed its monster core! Maybe he can also do the same with their essence? But that would be too...' Xiao Hua didn't know whether to laugh or cry at Yuan's unbelievable existence.

Whenever it feels like she has witnessed all there is to Yuan's talents, he would suddenly show even more talents like some sort of magic show! But instead of taking out a rabbit from his hat, Yuan takes out unbelievable talents that would leave anyone filled with jealousy if they knew about it!

After another 6 hours of cultivation, Yuan decided to finally stop cultivating as it was getting late.

"Hmm? Xiao Hua? You were sitting there this entire time?" Yuan finally noticed Xiao Hua sitting in front of him when he opened his eyes.

"Yes..." Xiao Hua nodded with a dazed look on her face.

"I made some really good progress today," Yuan said with a smile on his face, and then he asked, "By the way, do you know anything about the Nine Dragon Symbols?"

"Nine Dragon Symbols? Xiao Hua has never heard of that before. Is that a treasure?" she asked with a tilted head.

"I don't know, but I think that is what's causing the explosive increase in my cultivation speed."

"Nine Dragon Symbols... Perhaps the phoenix will know something." Xiao Hua then said.

Yuan nodded, "I'll ask her when she comes back."

A few moments later, Xiao Hua entered the necklace before Yuan logged off the game.

Once Meixiu returned, she immediately went to cook dinner as usual before feeding Yuan.

After feeding Yuan, Meixiu went to take a quick shower before retiring for the day inside her room.

"Let's see if his friend has arrived yet..."

Meixiu wore the helmet and immediately went inside Cultivation Online.

Once she was inside the game, Meixiu looked around the place, and she immediately noticed a small commotion right outside the city gates.

Meixiu narrowed her eyes at the crowd of people that appeared to be surrounding an individual—a very beautiful young woman wearing tight red robes and a very mature body.

"That must be her..." Meixiu mumbled to herself before she approached her.

"Excuse me..." Meixiu tried to push her way to the young woman in the red dress, but alas, the crowd was too strong for her to do anything.

"Get out of my way!" A clear voice suddenly resounded loudly.

The place immediately turned silent, and a path quickly appeared in the crowd.

A few moments later, the young woman in the seductive red clothes walked out of the crowd and stopped in front of Meixiu.

"A naturally bored face and someone who doesn't understand 'fun'... You fit the description the Young Master gave me. Are you the Young Master's friend?" Feng Yuxiang asked Meixiu.

"By Young Master, do you mean Yuan?" Meixiu asked.

Feng Yuxiang nodded and said, "Looks like I have found the right person. Come with me, I'll bring you to the Eastern Continent so you can meet with the Young Master."

Author's Note: For those confused about the numbers, it's Cultivation Speed x Base Qi Absorption Rate. Yuan's cultivation technique absorbs around 500 Qi per second, and it's 610% and 1610% of that 500, not 1000% of 3000.

Chapter 267 - A New Experience

After meeting with Meixiu, Feng Yuxiang hugged Meixiu's waist and flew towards the heavens as she did with Yu Rou, and they proceeded to make their way towards the Eastern Continent.

"T-This is..."

Meixiu was shocked when Feng Yuxiang suddenly brought her into the air, and when she looked down, her body began trembling nonstop uncontrollably.

"Hm? Are you scared of heights?" Feng Yuxiang asked Meixiu when she noticed her shaking.

"I... I..." Meixiu was speechless. Since she has never flown in a plane or went to any tall places before, she was never aware of her acrophobia. In other words, she was scared of heights.

"Don't worry, I won't accidentally drop you or anything. You can close your eyes, too." Feng Yuxiang suggested this to her.

Meixiu immediately closed her eyes, but the image of the distant ground still lingered inside her mind.

"By the way, if you don't mind me asking, what's your relationship with the Young Master? I know you're friends, but I want to know more about you and the Young Master." Feng Yuxiang suddenly asked her.

"A friend, huh? Is that what Yuan said?" A slight smile appeared on Meixiu's face.

"Hm? You're not friends? Then what are you to him?"

"I'm more of his caretaker— a servant so to speak," Meixiu said.

"Oh? You're his servant as well?" Feng Yuxiang said in a surprised tone.
"I'm also the Young Master's servant."

Meixiu opened her eyes again to look at Feng Yuxiang with wide eyes filled with surprise. How could someone like her be a servant? She looks like a powerful madam from an influential family more than anything.

"What's with that look? You don't believe me?" Feng Yuxiang raised her eyebrows at Meixiu's doubtful gaze.

"Yuan... He called you a phoenix. Are you really a phoenix?" Meixiu suddenly asked.

"That's right. I'm a phoenix, but I have my powers sealed right now so I cannot show you." Feng Yuxiang nodded.

"Is that so..."

The two of them became silent afterward, and it remained that way for a couple of minutes until Feng Yuxiang suddenly said, "We'll take the teleportation device that's at the city of Liyang, which is about four hours away."

"F-Four hours?" Meixiu was slightly surprised.

"How long do you think it'll take us to reach the Eastern Continent and meet up with Yuan? Do you think we'll make it before sunrise?"

While Meixiu didn't mind losing sleep for a single night, she couldn't neglect Yuan's breakfast no matter what.

"By sunrise, huh? It's definitely doable, but I don't know if you'll be able to handle the speed, since you're a mortal..." Feng Yuxiang said to her.

"I will be fine," said Meixiu.

"If you say so..." Feng Yuxiang nodded, and she immediately raised her flying speed, nearly doubling it.

"!!!"

Meixiu could feel her chest tightening from the speed increase. Even though Feng Yuxiang shielded Meixiu from most of the wind pressure with her spiritual energy, it was still very powerful for a mortal who hasn't even started cultivating yet.

Meanwhile, inside his own room, Yuan tried to activate his Divine Sense again.

'Monster cores don't affect my real life cultivation when I consume them inside the game, but monster essences might be a different case... Hopefully, the Dragon Essence will finally enable me to use my Divine Sense in this world as well...'

With that in mind, Yuan took a deep breath and tried to activate his Divine Sense.

"..."

"..."

"..."

Yuan could feel his spiritual energy reacting to his attempt, but in the end, he was still unable to activate his Divine Sense.

'I still can't activate my Divine Sense, however, there was a response at least! It shouldn't be long before I can actually use my Divine Sense! Maybe if I raise a couple more levels...'

Even though Yuan couldn't activate his Divine Sense yet, he was feeling more motivated and hopeful than ever.

Thus, Yuan began cultivating.

However, immediately after he began cultivating, Yuan noticed something different about his cultivation speed— it'd suddenly increased again.

While it isn't as explosive as his cultivation improvements in Cultivation Online, it was still a pretty big difference compared to the last time he'd cultivated, and his cultivation quickly moved towards 5th level Spirit Warrior.

Two hours have passed since Feng Yuxiang and Meixiu met, and they'd just arrived at the city of Liyang, arriving two hours earlier than anticipated.

Feng Yuxiang landed directly in front of the city's entrance, shocking the guards there.

"Seniors!"

Everybody there bowed to Feng Yuxiang when they landed, startling Meixiu who knew nothing about Cultivators and their culture. It was a new experience for her.

"How may we help you, Esteemed Seniors?" The guards in front of them said before bowing to them again.

"We're here to use the teleportation device," said Feng Yuxiang.

"I understand. Please, follow us."

The guard proceeded to lead Feng Yuxiang and Meixiu into the city and towards the teleportation device.

On the way, Meixiu looked around the scenery and the people there with a somewhat intrigued gaze.

Since she rarely leaves the house and only goes out to go to school with Yu Rou, Meixiu doesn't have much experience in the outside world.

"You're somewhat different from what the Young Master described." Feng Yuxiang suddenly said to her.

"Me? What did he say about me?" Meixiu asked her with a curious look.

Feng Yuxiang smiled and said, "The Young Master said it's hard for you to find entertainment in things, almost like you're always bored."

"I see..."

To Feng Yuxiang's surprise, a somewhat sweet smile appeared on Meixiu's face.

Sometime later, they arrived at the teleportation device.

"Where would you like to go, Esteemed Seniors?" The guard guiding them asked.

"The Eastern Continent." Feng Yuxiang immediately responded.

"The Eastern Continent... That's a little bit far..." A perplexed expression appeared on the guard's face.

Seeing the guard's face, Feng Yuxiang continued, "Don't worry, we're not going to use the teleportation device for free. I'll pay for it."

The guard's expression immediately relaxed after hearing Feng Yuxiang's words, and he quickly nodded, "I understand! Please, follow me to the front!"

Chapter 268 - Nothing Is Impossible In The Cultivation World!

"Excuse me! Coming through!"

The guard forcefully led Feng Yuxiang and Meixiu through the crowd that was waiting in line for their turn at the teleportation device.

This caused the people already in line to frown, especially since most of them were from somewhat big families, and this was a slap in the face to them since they had to stand in line like everybody else.

"Hey! What gives? How come they get to skip the line while the rest of us stand here?! What's so special about them?!" Someone in the line suddenly shouted out loud in a frustrated voice, calling them out.

"That's right! Do you know who I am?!"

"I'll complain to the Mayor!"

The guard quickly turned around and responded to that person in a sarcastic voice, "Well, if you have the ability to fly, I will also allow you to skip the line. How does that sound?"

"Fly?"

The people there raised their eyebrows in a puzzled manner.

"Do you have a problem with us going first?" Feng Yuxiang suddenly turned around and spoke, even releasing a little bit of her Spirit

Grandmaster cultivation base.

"S-Spirit Grandmaster!"

The people there were immensely shocked by Feng Yuxiang's cultivation base. Just where on earth did this Spirit Grandmaster come from? And how come they don't recognize her?

"Please forgive us, Senior Grandmaster!"

The people there quickly lowered their heads and apologized to Feng Yuxiang.

Feng Yuxiang didn't say anything else and continued to approach the teleportation device with Meixiu following behind her.

'How overbearing...' Meixiu thought to herself, yet she found it somewhat admirable.

A few moments later, they arrived in front of the teleportation device.

"Esteemed Seniors, because the Eastern Continent is very far away, we can only teleport you to three places. Are you fine with that?" The person managing the teleportation device asked them.

Feng Yuxiang nodded and said, "Teleport us to the one closest to the Dragon Essence Temple."

"The Dragon Essence Temple, right? Give me a moment to look at the map..."

The worker proceeded to look at the large map that was pinned to a portable board nearby; it had the location of every city in the Lower Heavens with a teleportation device.

"That would be the Iron Lotus City, which is approximately 290,000 miles from our current location. As for the price... It will be 3,400,000 gold, Esteemed Seniors."

'3,400,000 gold!' Meixiu was inwardly shocked when she heard the astronomical amount of gold needed to use the teleportation device.

Yu Rou had told her about the exchange rates for Cultivation Online gold and real-life money, and it was about one gold for every seven dollars. In this case, 3,400,000 gold was worth at least 23,800,000 dollars!

This amount of money is more than enough to feed an entire family luxuriously for their entire life, and they're going to spend all of it on transportation? Not even the richest family in their world would dare to spend so lavishly.

'Just how on earth did Yuan make someone like her into his servant?' Meixiu couldn't help but become curious.

"Here's 2,500 spirit stones. Keep the change." Feng Yuxiang handed a storage pouch to the worker in a nonchalant manner, acting as though she was only buying some cheap food.

"T-Thank you very much, Esteemed Senior! Please give me a moment to prepare the teleportation device for you."

The worker accepted the storage pouch with excitement before counting the spirit stones inside.

Once he confirmed the payment, the worker went to set the settings on the teleportation device so it would teleport them to their desired location.

A few minutes later, the worker returned to them and said, "The teleportation device is ready. Just let me know when and I'll activate it. Once activated, you have 60 seconds to enter the teleportation device before it loses power."

Feng Yuxiang turned to look at Meixiu and asked her, "Are you ready?"

Meixiu nodded.

"Let's go then."

The two of them stood before the teleportation device a few moments later, and once the worker activated the device, they walked into the portal.

Meixiu felt a little dizzy after entering the teleportation device and the feeling lingered for some time even after the teleportation was finished.

"Are you okay?" Feng Yuxiang asked her.

"Yes... Just a little dizzy."

"I'm surprised you didn't throw up since mortals can't handle much spiritual energy, and you'd just walked through a portal created from a large amount of spiritual energy." Feng Yuxiang said to her.

And she continued, "You must have a strong soul strength. Makes me wonder why you're not a Cultivator. You might have the talent for it."

"I... have no reason to become a Cultivator," Meixiu said.

After all, she only joined the game so she could help Yuan out.

"No reason? There are plenty of reasons for one to become a Cultivator! Wealth, fame, status, power... Do you not have desires?" Feng Yuxiang asked her.

"My desire..." A certain thought appeared in her mind.

"I do have one, but becoming a Cultivator won't help me realize that dream. It's impossible." Meixiu shook her head.

"Impossible? Nothing is impossible in the cultivation world! At least this is what I learned after following the Young Master for a short time."

"Yuan?" Meixiu raised her eyebrows.

Feng Yuxiang nodded and said, "That's right. The Young Master is an incredible existence with a limitless future. I have only been with him for a few weeks and I can only imagine how strong he'll grow in the future."

"Anyways, we can continue this conversation later. Are you still dizzy? We won't make it to the Dragon Essence Temple by sunrise if we linger around for too long." Feng Yuxiang said to her.

"I am okay. We can continue." Meixiu nodded.

"Okay."

The two of them returned to the air shortly later, and Feng Yuxiang continued chatting with Meixiu like they were already friends while they soared in the clouds. Perhaps it was due to their similar background as Yuan's servant, but Feng Yuxiang found Meixiu to be an interesting individual who was very different from the average person.

Chapter 269 - We Should Play Together

Splash!

Right as the sun began rising at the horizon in the real world, a refreshing sensation surged from Yuan's body as he made a breakthrough and reached 5th level Spirit Warrior.

After the breakthrough, Yuan stopped cultivating and tried to activate his Divine Sense again.

A few moments later, he stopped and thought to himself, 'I still can't activate my Divine Sense, but I can feel its progress. Just a little more...'

Meanwhile, inside the game, Feng Yuxiang said to Meixiu after flying for many hours without rest, "I can see the Dragon Essence Temple. We've arrived."

"Hmm?"

Meixiu, who was just asleep, slowly opened her eyes to see the Dragon Essence Temple in the distance.

"This is a sect? It looks no different than a city," she mumbled.

"Most sects are a city itself, but unlike normal cities, only its disciples or approved guests are allowed inside. Furthermore, there are no businesses in sects. While there may be a few, it's all set up by the sect and not for profit." Feng Yuxiang explained to her.

"Anyways, it's sunrise. Let's get you to the Young Master's living quarters."

Feng Yuxiang then silently flew towards the Dragon Essence Temple before landing in the backyard of Yuan's living quarters a few minutes later since she didn't have the keys to the house.

Once they landed, Meixiu said to Feng Yuxiang, "Thank you for bringing me here, Senior Feng. I have to leave now."

Feng Yuxiang nodded, "I was just doing my job. Anyways, you can call me Feng Feng like the Young Master."

Meixiu logged off the game shortly later whilst Feng Yuxiang relaxed in the backyard to wait for Yuan to return.

After logging off the game, Meixiu removed the helmet from her head and sat on the bed with a somewhat dazed look on her face.

"Cultivation Online... What an experience... It really felt like I was living in another world just now." Meixiu mumbled to herself, and she finally understood why the hype and popularity for this game existed, as it was completely justified.

After sitting there for a few moments, Meixiu stood up and went to prepare breakfast for Yuan, and to her surprise, she didn't feel any fatigue or sleepy like she'd expected after staying inside the game for the entire night.

While the soup cooked, Meixiu went to wash her face, brush her teeth, and prepare for school.

Once breakfast was prepared, Meixiu knocked on Yuan's room and said, "It's time for breakfast."

"I'm awake." Yuan's voice resounded.

Meixiu opened the door and pushed the mini cart inside his room.

"I met with Feng Feng last night, and she took me from the Western Continent to the Eastern Continent, even arriving at your living quarters right before I logged off," Meixiu said as she fed Yuan breakfast.

"Oh? Already? That was quicker than I'd expected. How did it go? Did you enjoy it?" Yuan asked her.

"..."

After a moment of silence, Meixiu said, "Yes, I enjoyed it. It was a unique and mythical experience. Meeting Feng Feng, learning about cultivators and the cultivation world, using the teleportation device, and the most shocking experience of all— flying in the sky."

"As long as you had fun. I know you only intend on playing the game so you can help me sell items and gold, but you should really consider playing with me. We can travel the cultivation world and experience everything together."

Meixiu's eyes widened when she heard Yuan's unexpected words, which left her speechless for a good moment.

"What do you think, Meixiu? You're always working, even as a child. In fact, I think we're very similar, in the sense that we're always working for the same place. If it weren't for my sudden condition, I'm pretty sure that I would still be working for the Yu Family even right now. This may sound crazy, but I no longer see my condition as a curse. Perhaps it is even a blessing in disguise."

"Telling me to play with you... Is that a command?" Meixiu suddenly asked him.

"Of course not. It's a request, Meixiu. If you don't want to play with me, that's fine. However, from your words just now, I could tell that you really enjoyed your time in Cultivation Online. If that's the case, you might as well continue playing. You might even find another purpose in life besides working as I did."

"Are you really fine with me being by your side in Cultivation Online as well?" Meixiu asked again, her voice sounding somewhat nervous.

"Why did you make it sound like I can't stand your presence? Even though we've always been near each other for almost our entire lives, I've never once had such thoughts, and we've never really played together before. This is a great opportunity to do so."

"But I don't really have the time..." Meixiu sighed.

"It's fine. We can play together whenever you're free or don't have school on the weekends. I also don't mind missing a meal once in a while so we can play more." Yuan said with a smile on his face.

After a moment of silence, Meixiu said, "Okay. I understand. I'll play with you."

"That's great!"

After breakfast, Meixiu went to school with Yu Rou whilst Yuan continued his training inside cultivation online.

"Oh, right. I should go meet with Feng Feng first since she's probably waiting for me—"

Right as Yuan thought about returning to his living quarters to meet up with Feng Yuxiang, a trail of flames could be seen traveling in the sky like a shooting star, flying toward Yuan's location.

And for some reason, Yuan immediately recognized this flame.

"Feng Feng?"

A few moments later, Feng Yuxiang entered Yuan's body.

"I'm back, Young Master," she said to him afterward.

"Welcome back, Feng Feng. And thank you for your hard work. I'll let you drink some of my blood later." Yuan said to her.

"Really? Thank you, Young Master!" Feng Yuxiang's excited voice quickly resounded, as it has been some time since she tasted his delicious blood.

Chapter 270 - Three Years Old

After Feng Yuxiang returned to his body, Yuan sat down on the soft ground and began his cultivation.

The still atmosphere suddenly changed when Yuan started to absorb the spiritual energy in the air, and a small tornado appeared around him once again.

[+8,174 Qi]

[+8,412 Qi]

[+8,059 Qi]

Feng Yuxiang was greatly shocked when she saw this, as she'd just returned and didn't know about the Dragon Essence.

"What's happening? Did the Young Master consume a treasure that increased his cultivation speed?" Feng Yuxiang decided to ask Xiao Hua using her spiritual sense.

"Brother Yuan absorbed a Minor Dragon Essence, which gave him not only increased Soul Strength but also cultivation speed... I think." Xiao Hua responded to her.

"What! Dragon Essence?! Soul Strength! That's the rarest property one can obtain from essences! How lucky!" Feng Yuxiang grew even more shocked after hearing this.

"Wait... Cultivation speed? I have never heard of essences giving such an effect before," she suddenly realized.

"You may not know this, but Brother Yuan not only has the ability to consume monster cores. He can even obtain their abilities after consuming them. Perhaps it also applies to essences."

"What! That's impos—"

Feng Yuxiang wanted to say that such a thing couldn't be possible, but after recalling Yuan's unfathomable talents and his legendary physique, she decided to not continue that sentence.

After a moment of silence, Xiao Hua suddenly spoke, "Phoenix, you're a Divine Beast as well, right? Why don't you create some Phoenix Essence for Brother Yuan."

"You make it sound like it's easy making essence..." Feng Yuxiang responded in a sighing voice.

"I also have my powers sealed, so I cannot do that in a reasonable amount of time. Perhaps once the curse is lifted, I will be able to create some Phoenix Essence for the Young Master, but in my current condition, that's impossible."

Yuan cultivated in silence, not moving from that spot for ten hours straight.

At the end of the day, he'd obtained a little over 300 million Qi. In just two days, Yuan had managed to accumulate around 500 million Qi, which is enough Qi for someone at first level Spirit Apprentice to enter 4th level Spirit Warrior.

After he stopped cultivating, Yuan logged off the game to wait for Meixiu to return from school.

Sometime later, Meixiu returned home, cooked dinner, and began feeding Yuan.

"Yuan... Can I ask you why you decided to use this name?" Meixiu suddenly asked him.

"..."

After a moment of silence, Yuan said, "That was my name before I was adopted."

"Eh?"

Meixiu's eyes widened slightly from surprise. Now that she thought about it, she didn't know anything about Yuan's life before he was adopted into the Yu Family.

"As you already know, I was adopted into the Yu Family when I was just three years old. Yu Rou was still a baby at that time so she doesn't know about it. I don't know my real parents and when I was in the orphanage, everyone would call me Yuan."

"I see..."

"Do you know why I was adopted into the Yu Family in the first place?" Yuan suddenly asked her.

"I do not..." Meixiu said.

"Someone had posted to the internet a video of a three-year-old playing a piano, which immediately became an internet sensation. Of course, that kid was me, and when the Yu Family saw that video, they decided to adopt me and trained me so I can play for the family— at least that's why I think I was adopted. Otherwise, I cannot imagine the Yu Family adopting me for any other reason."

Meixiu was speechless after learning this for the first time. So the Yu Family adopted Yuan merely for his musical talents? Of course, this made sense and wasn't too shocking considering how the Yu Family treated him after Yuan could no longer play the instruments.

"I'm sorry..." Meixiu suddenly apologized to him.

"Why are you apologizing to me? You're not the one at fault here." Yuan chuckled.

"I know, but I am also part of the Yu Family." Meixiu sighed.

Once dinner was finished, Meixiu went to do her necessities before going to sleep.

'Even though I missed sleep last night, I didn't feel tired or sleepy at all during school today. How weird...' Meixiu thought to herself

Although she was trained to do her job even with very little to no sleep, it was odd for her to feel no fatigue despite lacking sleep.

The following day, Yuan returned to Cultivation Online and proceeded to spend another 10 hours cultivating, bringing the total of Qi absorbed to 800 million.

'I am still about 2 billion Qi away from Spirit Master... I might now make it to Spirit Master before the Mystic Realm even with my increased cultivation speed.' Yuan thought to himself.

Three days later, Yuan absorbed another 900 million Qi, accumulated 1.7 billion Qi.

Meanwhile, at Carp Leaping Over Dragon's Gate Tower, the gamble between Long Yijun and the other Sect Master has finally come to an end.

"Hahaha!" Long Yijun exploded with laughter as the last disciple walked out of the tower with a defeated look on his face, the results obvious.

"Looks like none of your disciples were able to defeat all 100 floors! I win this bet! Now, hand over your treasures!" Long Yijun said to the fuming Sect Masters with a wide smug on his face.

"This isn't the end, Sect Master Long! We'll be back after the Mystic Realm!" The Sect Masters there said to him as they reluctantly retrieved their Divine-grade treasures and handed them to Long Yijun in front of the spectators, shocking them greatly.

"Heavens! I thought this entire event was just for show! To think there was so much on the line!" The disciples watched with salivating mouths as Long Yijun held four Divine-grade treasures at once.

"We're leaving!" The other Sect Masters didn't dare to stay any longer and said to their disciples.

"You're leaving already? Don't you want to stay behind a little longer? Perhaps we can sit down for a drink or something!" Long Yijun said to them in a sarcastic voice.

"Hmph!"

The Sect Masters pretended they couldn't hear him and disappeared from the Dragon Essence Temple without looking back.

Chapter 271 - Last Two Spots

After the Sect Masters and their disciples left, Long Yijun returned to his headquarters with the other high-ranking sect elders.

"Hahaha! What a bunch of idiots! They really thought they were going to defeat the tower!" Long Yijun laughed merrily as he looked at the four Divine-grade treasures in his grasp.

"Sect Master, what should we do now? While it's great that we've obtained these Divine-grade treasures, I highly doubt the other sects will just let us keep them." Elder Xuan suddenly asked.

And he continued, "They'll definitely come back for them."

Long Yijun stopped laughing after hearing Elder Xuan's words and nodded with a serious look on his face, "I am well aware of that. We also have no need for these Divine-grade treasures, so I intend on selling it back to them."

"How much do you intend on selling it for?" Elder Bai suddenly asked.

Long Yijun showed a malicious grin and said, "The full price, of course!"

The sect elders were startled, but they were not shocked by Long Yijun's response.

A Divine-grade treasure is not something one can just buy even if they have enough money— at least not in the Lower Heavens where it's extremely scarce, especially when they are powerful treasures that have been passed down for generations.

If the Dragon Essence Temple had lost their Dragon Slaying Saber, despite their wealth, they would have needed to sacrifice a few decades of resources at the very least to purchase it back from the other sects. That's how ridiculously priceless these Divine-grade treasures were.

However, unless the other sects are willing to wage war against the Dragon Essence Temple to get their treasures back, they could only grit their teeth and pay the Dragon Essence Temple every coin for their treasures back.

"By the way, how's Disciple Yuan? Is he currently training at Dragon's Peak?" Long Yijun suddenly asked Elder Xuan.

"Yes, I took him there the same day you asked me. However, Disciple Fei is currently in closed cultivation, so she will have to enter the Dragon's Peak at another time," said Elder Xuan.

Long Yijun nodded and said, "That's fine. With the Mystic Realm right around the corner, the most important thing right now is making sure Disciple Yuan is prepared."

"Although we don't know what will happen in the Mystic Realm this year, it's definitely not going to be easy even with Disciple Yuan assisting us. Therefore, we need to make sure he has everything he needs."

"By the way, Sect Master, it appears that there are many people looking for Disciple Yuan. It's also why we've been bombarded with visitors lately. Apparently, they are here for Disciple Yuan, and Disciple Yuan doesn't want to be found by them— at least that's what I think."

"What? Who are these people looking for Disciple Yuan? And what do they want from him?" Long Yijun immediately frowned.

"We only know that these people are mostly rogue cultivators without any backgrounds. The sect elders have questioned a few of them, and these rogue cultivators all say the same thing— 'I just want to speak with 'Player Yuan'," said Elder Xuan.

"Player Yuan? Is that Disciple Yuan's title or something?" Long Yijun raised his eyebrows in a puzzled manner.

And then he said, "Anyways, regardless of their reason, if Disciple Yuan doesn't want to be bothered by these people, we will assist him. Tighten up the security. Nobody is allowed near the sect unless authorized by me from now on. If they dare get close, beat them up!"

Hearing Long Yijun's command, the sect elders responded, "Yes, Sect Master!"

"One more thing, Sect Master. This is regarding the last two spots for the Mystic Realm." Elder Shan said a moment later, and she continued, "Do we have any names yet?"

"I was just about to bring this topic up." Long Yijun nodded.

"Does anyone here have any recommendations? I've been too focused on Disciple Yuan and haven't paid much attention to the other Core Disciples."

"Well... Besides Disciple Yuan, I can only think of two disciples who qualify for the Mystic Realm." Elder Bai said.

"So you're also thinking about those two, huh?" Long Yijun mumbled.

He then looked around and asked, "Do any of you have objections to letting those two disciples participate in the Mystic Realm with Disciple Yuan?"

Elder Shan then asked, "Just to be clear, these two disciples are..."

"It's Gao Dongya and Xue Jiye," said Long Yijun.

Gao Dongya is the current leader on the Core Disciple's Power Ranking. He only became a Core Disciple three years ago and immediately shot up the rankings within months, reaching first place in less than a year of becoming a Core Disciple, and he has been in that position since then like an immovable mountain.

As for Xue Jiye, while she is only ranked 13th in the leaderboards, she only recently became a Core Disciple half a year ago. In terms of talents and potential, she was on par with Gao Dongya.

"When should we make the announcement?" Elder Xuan then asked.

"Tomorrow." Long Yijun immediately responded.

The sect elders there nodded their heads.

Meanwhile, in the real world, after dinner, Yuan said to Meixiu, "The Mystic Realm is coming up and I am very close to making a breakthrough, so I will stay in the game tonight to cultivate."

"Okay." Meixiu agreed without any complaints.

Thus, Yuan went back into the game sometime later, and he proceeded to spend the entire night cultivating. While increasing his cultivation in the real world is important, he also didn't want to disappoint those who were counting on him for the Mystic Realm.

[+8,019 Qi]

[+8,132 Qi]

[+8,252 Qi]

After spending the entire night cultivating, Yuan gained another 250 million Qi, moving towards Spirit Master at a rapid rate!

'I have only about a billion Qi left. If I continue to cultivate at this pace for two more days, I should be able to breakthrough to Spirit Master!' Yuan thought to himself as he logged off at sunrise for breakfast before returning to the game for another day of cultivation.

Chapter 272 - The Three Names

Early in the morning shortly after sunrise, Long Yijun summoned all of the Core Disciples within the Dragon Essence Temple.

Once they received this summoning, regardless of what they were doing, even if they were in closed cultivation at the Immortal Caves, the Core Disciples gathered at the location of the gathering within an hour.

"I was wondering when they'll announce this year's participants for the Mystic Realm."

"Right? They usually announce it a month before the Mystic Realm, but this year they waited until the very last minute."

The Core Disciples there mumbled to each other while they waited for Long Yijun to show up.

"I was getting worried that they might've forgotten about it for a second."

"Forget about the Mystic Realm that will determine a sect's ranking? Nobody would forget such an important event!"

"Who do you think will get the spots for the Mystic Realm?"

"I think we all know who'll be occupying the first and second spot."

"It'll probably be Gao Dongya and Xue Jiye, right?"

"Probably? You mean most likely? Out of all of us, they're the most prominent in terms of potential. The only question is who'll get the third spot."

"What about Liang Qichao? He's always mentioned when one talks about Gao Dongya and Xue Jiye."

"It's possible, but who knows, really. Everyone here has a chance to obtain that third spot."

While the Core Disciples there made their guesses on who'll occupy the third spot, Fei Yuyan stood at the back of the crowd like a bystander with a nonchalant look on her face.

'Even though he's not a Core Disciple, it's already obvious that they'll pick him for the third spot...' The image of Yuan's handsome face appeared in Fei Yuyan's head as she thought about him.

Suddenly, someone tapped her on the shoulder, causing her to turn around.

"What do you want?" Fei Yuyan immediately frowned after seeing Xuan Wuhan standing behind her with an innocent-looking smile on her face.

"Who do you think will get the third spot for the Mystic Realm?" Xuan Wuhan suddenly asked her.

Fei Yuyan silently looked at her for a moment before speaking, "You should already know the answer to that question. Are you making fun of me?"

"You're no fun at all." Xuan Wuhan shrugged, and then she continued, "Are you disappointed?"

"Why would I be? I never hoped to be picked for the Mystic Realm in the first place." Fei Yuyan said.

"Haaa..." Xuan Wuhan sighed and said, "Sometimes I wonder why you're even in the Dragon Essence Temple. You would fit more with the Heavenly Melody Academy instead."

"..."

Fei Yuyan remained silent at her remarks.

A few moments later, someone there suddenly said, "Look! It's Gao Dongya! He's managed to break through to the 7th level of the Spirit Warrior realm during his closed cultivation!"

"Heavens! Another breakthrough? When was his last breakthrough? Four months ago? I swear, it feels like he's always one level higher every time I see him. At this rate, he'll reach Spirit Master before he turns 30! What monstrous talents!"

A handsome young man with long black hair, eyes, and wearing a black disciple uniform could be seen slowly walking towards the disciples with a nonchalant look on his face, causing the disciples there to swallow nervously when they were met by his gaze.

Once Gao Dongya arrived at the gathering area, the place grew significantly quieter.

Though, a couple of female disciples there approached him and began trying to start a conversation with him.

"Senior Brother Gao, congratulations on getting a spot. Although it hasn't been announced yet, we're confident that you'll definitely be picked."

"Congratulations on your breakthrough, Senior Brother Gao. We should have a celebration or something at my living quarters later."

The other Core Disciples acted as though they couldn't hear their obvious flirting as it was a common sight for the top disciples to have admirers.

"Che. What a bunch of sluts. Just wait until they learn about Yuan. I won't be surprised even if they removed their clothes on the spot for him. Don't you think so, Disciple Fei?" Xuan Wuhan asked her in a low voice.

"..."

Fei Yuyan looked at Xuan Wuhan with disbelief on her face, but she managed to resist herself from responding to that claim in the end.

A few minutes later, the disciples began talking again as a pretty young lady approached the crowd.

"Looks like Xue Jiye also experienced a breakthrough. Third level Spirit Warrior at 20 years old. Her talents are definitely on par with Gao Dongya if not slightly behind."

And just like how the female disciples surrounded Gao Dongya, some of the male disciples there approached Xue Jiye and began trying to strike a conversation with her.

"Congratulations on your breakthrough, Fairy Xue. Just a glance and I can already tell that you've become prettier."

"Fairy Xue, how about we have breakfast at the Dragon Pavilion after this gathering? It'll be my treat."

Sometime later, Long Yijun and a few of the higher ranking sect elders such as Elder Xuan and Elder Shan arrived at the gathering area.

"Greetings, Sect Master! Greetings, Grand Elders!"

Every disciple there lowered their heads and greeted them the moment they got close enough.

After standing still, Long Yijun spoke in a loud voice, "I'm sure you all know why I gathered all of you here today. The Mystic Realm is in four days, and we will be announcing the disciples that were chosen to represent the Dragon Essence Temple and participate in the Mystic Realm right now!"

Long Yijun cleared his throat before going straight into the subject without any speeches like usual, "The disciples that will be participating in the Mystic Realm will be Disciple Gao Dongya and Disciple Xue Jiye!"

The Core Disciples didn't react much to the announcement since they had already expected this result, and they all patiently waited for the third name.

However, to the disciples' surprise, Long Yijun said in a calm voice, "That's all."

"What?"

The disciples' eyes widened with shock and disbelief. What about the third spot? There should be three disciples in total participating in the Mystic Realm! Where's the third name?! What happened to the third spot?!

OceanofPDF.com

Chapter 273 - Whos The Third Disciple?

Chapter 273 - Who's The Third Disciple?

"S-Sect Master! That's only two names! What happened to the third spot? I thought we were given three spots for the Mystic Realm?!" One of the disciples there decided to ask him.

Long Yijun turned to look at the disciple who just spoke and responded in a calm voice, "Indeed, the Dragon Essence Temple has been given three spots, and there will be three disciples participating in the Mystic Realm. However, I won't be naming the third disciple for now."

Long Yijun's words dumbfounded the disciples. He won't be naming the third disciple? Is it because they haven't decided on the third person yet or do they want to keep this individual hidden for some reason?

"..."

Gao Dongya narrowed his eyes with an uncertain expression on his face.

Meanwhile, Xue Jiye raised her eyebrows and thought to herself, 'The Sect Master is clearly trying to hide this individual... But why?'

After pondering for a moment, the image of two glowing golden eyes behind a black jade mask appeared in her thoughts, causing her body to tremble.

'It couldn't be!' Xue Jiye cried inwardly after recalling the cultivation prodigy who'd managed to comprehend 100 percent of the Tablet of Comprehension when she participated as an observer.

While the Dragon Essence Temple has never sent a disciple that wasn't a Core Disciple to the Mystic Realm, there were no rules stating that it must be a Core Disciple!

'It's possible! That masked person might take the third spot!' Xue Jiye thought to herself.

However, she hasn't heard of this person ever since the disciple examination ended.

'What happened to that person, anyway? Did he join the sect? Or did he leave?' Xue Jiye wondered to herself, feeling the desire to meet with this cultivation genius once again.

Sometime later, another disciple raised his hands and asked, "Sect Master, does that mean you've already picked a disciple for the third spot or you're still thinking?"

The disciples there swallowed nervously after hearing that question, as they also had the same question in their mind.

Long Yijun quickly responded, "The third spot is already occupied by a disciple."

"If that's the case, why can't you tell us who this disciple is? While we have no complaints about Disciple Gao and Disciple Xue participating in the Mystic Realm since they definitely qualify more than us, we cannot say the same for this third disciple," said a disciple.

And he continued, "And if I'm correct, we're allowed to challenge the sect's decision if we, the Core Disciples, believe that someone isn't qualified to participate in the Mystic Realm, as that's how it's always been."

"Indeed, you may challenge the sect's decision. However, that only applies when the disciple in question is questionable. In this case, it is without a doubt that this disciple qualifies for the Mystic Realm." Long Yijun said in a confident voice.

The disciples exchanged puzzled glances with each other. Just who is this disciple that has so much support and confidence from the Sect Master? Hell, even the sect elders there showed no signs of doubt, clearly showing their support for the Sect Master.

Seeing the doubtful atmosphere, Long Yijun suddenly smiled and said, "How about this? I am willing to bet my position as Sect Master of this sect that this disciple will, without a doubt, bring the Dragon Essence Temple to at least rank 3 at the Mystic Realm. If we achieve any less, I will resign from my position."

"WHAT?!"

Not just the disciples but even the sect elders there were greatly baffled by Long Yijun's announcement.

"S-Sect Master! That's a little..." Elder Xuan said to him in a nervous voice.

While he also believes that Yuan would achieve a high rank in the Mystic Realm, nothing in this world is certain, especially when it comes to the Mystic Realm.

"Sect Master, you don't have to do that. We won't doubt your decision any longer, so please, take back that statement!"

The disciples said to him in a panicked manner, as they couldn't have expected such a turn of events.

However, Long Yijun remained resolute and said, "This is not about your trust in me—but my trust in this disciple and my own judgment! If my judgment turns out to be wrong and it costs the Dragon Essence Temple the Mystic Realm, I don't deserve to be the Sect Master! That's all!"

The place quickly turned dead silent as nobody there could find any words to say to Long Yijun who was clearly very adamant about keeping to his words.

"Does anyone here have anything else to say before I let you all go?" Long Yijun asked them after a moment of silence.

The disciples remained silent, as their only question could not be answered at this moment.

"Then everybody but Gao Dongya and Xue Jiye may leave." Long Yijun said to them a few moments later.

Once all of the disciples beside the two Mystic Realm participants left, Long Yijun said to them, "Follow me."

Gao Dongya and Xue Jiye nodded their heads before following Long Yijun back to the sect master's headquarters, where Long Yijun proceeded to give them more details about the Mystic Realm.

"As you already know, the Mystic Realm is a month-long event where disciples from their respective sect must work together to obtain points by accomplishing feats within the Mystic Realm. Of course, this means that the sects with more slots have the advantage since they have more hands helping each other. But don't worry, I am confident that even with three people, we'll do fine. Teamwork is a must in the Mystic Realm, and I want the two of you to get used to each other over the next four days."

Hearing Long Yijun's words, Gao Dongyu spoke in a calm voice, "If that's the case, wouldn't it be better if all three participants are here? How can we strengthen our relationships with each other if one of us is missing?"

Long Yijun then said, "He's currently cultivating at Dragon's Peak right now so that's impossible. However, once he's done, I will definitely let you guys meet."

Chapter 274 - Rainbow Koi

"He's training at Dragon's Peak?"

Both Gao Dongya and Xue Jiye were surprised by this since even Core Disciples such as them would need to go through a lot of trouble before they're allowed to cultivate there.

"Anyways, let's continue." Long Yijun said, and he proceeded to speak more about the Mystic Realm to the two disciples.

Meanwhile, at Dragon's Peak, Yuan suddenly stopped cultivating and stood up before shouting, "Oh no! I totally forgot about the lecture for the Inner Court disciple!"

"Eh? Lecture?" Fang Yuxiang asked him.

"It was supposed to happen after the Inner Court Disciple Examination, but I'd forgotten about it because of the Dragon Essence! What a blunder... I hope my absence didn't cause any inconvenience..." he sighed.

"It's just a lecture, Young Master. You should be more worried about the Mystic Realm than some introduction class." Feng Yuxiang said.

"Oh, right. Speaking of the Mystic Realm, do you know anything about this place, Xiao Hua, Feng Feng?" Yuan asked after sitting down again.

"No, Xiao Hua doesn't know anything about the Mystic Realm." Xiao Hua said, surprising Yuan since she's usually the most knowledgeable.

"I know about it." Feng Yuxiang's voice quickly resounded, and she continued, "It's a very large event in the Lower Heavens that only occurs once every 10 years."

"It's an event where only the most powerful sects in the Lower Heavens can participate, and the results will determine the sects' rank for the next decade, so it's very important to these elite sects that care so much about their position."

"As for the participants in question, if you perform well and catch the attention of the judges, there's a very small chance that you'll be given the chance to become a disciple at one of the sects that exist in the upper heaven— Spirit Heaven."

"Wait a second... Does this mean the judges for this Mystic Realm are people from the upper heavens?" Yuan asked.

"That's right. The Mystic Realm is organized by 7 different sects from the upper heavens. It's a tradition that has existed since ancient times." Feng Yuxiang said.

"I see... Anything else?"

"Let's talk about the Mystic Realm itself. From what I heard, the Mystic Realm is actually a world of its own, meaning it doesn't belong to any of the heavens," said Feng Yuxiang.

"Anyways, while I haven't been to the Mystic Realm myself, I have heard plenty of stories about it. Inside the Mystic Realm, your cultivation base is wiped, so it's almost like you're starting from scratch in a sense."

"Inside the Mystic Realm, you can earn points by increasing your cultivation level or defeating magical beasts, and you can even earn points by helping people. Almost everything you do is judged."

"I see..." Yuan mumbled.

"Therefore, even if the Young Master reaches Spirit Master, it won't matter once you're inside the Mystic Realm."

"I know, but I still want to reach Spirit Master since I am so close to it. Once I reach Spirit Master, I'll probably take a break from cultivating like

this since I don't like spending most of my time sitting still like this." Yuan sighed.

"Young Master, how close are you to your breakthrough?" Feng Yuxiang suddenly asked him, and she continued, "I have a monster core at the 6th level Spirit Warrior with me if you want to consume it..."

"Eh? Really? But I don't want to accept something so precious from you without giving you anything in return— even if you're my servant." Yuan said to her.

"How about the Young Master donates more blood to me in return for the monster core?" Feng Yuxiang said.

"Are you sure? I'll be giving you my blood regardless if you give me the monster core or not."

"I'm sure, Young Master. In fact, my body is craving for your blood even as we speak, and I am trying my best to hold it in. If giving you this monster core will allow me to drink your blood even a day sooner, I would not hesitate!"

After thinking about it for a moment, Yuan nodded his head and said, "Okay. I'll exchange my blood for your monster core."

After all, he was already getting tired of sitting still after just a few days of cultivation, and he hated remaining in one spot for long periods of time since it reminded him of the real world.

"Great!"

Feng Yuxiang appeared from his body after Yuan agreed to accept the monster core, and she retrieved a monster core from her spatial ring.

"This is a monster core?" Yuan raised his eyebrows at the glowing monster core that looked somewhat different from the monster cores he had eaten, as it had this fiery appearance.

"Did you forget who I was before I became your servant already, Young Master? I am the owner of one of the most prestigious shops in the Golden Phoenix Bazaar. I have no need for 'normal' treasures, and monster cores are no different." Feng Yuxiang said.

And she continued, "This monster core belongs to a Rainbow Koi, an incredibly rare magical beast that can only be found in one place within the Lower Heavens— the Frozen Cave, one of the very few danger zones in this world."

"Rainbow Kois are Spirit Warriors at birth, and they grow incredibly fast. However, they don't really have much combat prowess, if any at all, and they die naturally once they reach Spirit Master, so they have a short lifespan, and if they die naturally, it won't drop its monster core."

"This is why Rainbow Koi monster cores are considered a priceless treasure and are sought after by many. Furthermore, people who absorb them have a very small chance to obtain a special power that allows them to control fire, and it gives more spiritual energy than normal monster cores at its level."

Feng Yuxiang explained to him.

"Controlling fire? From a fish? How does that work?" Yuan raised his eyebrows.

"Well, one can control fire using their spiritual energy, but those with this power can control fire without needing spiritual energy, saving them a lot of energy. Furthermore, the monster core enhances one's ability towards fire techniques, so most people looking for them are all practitioners who use techniques related to fire, such as alchemy masters."

"I see... What a unique monster core. It's definitely different from what I've consumed in the past." Yuan mumbled as he accepted the monster core from Feng Yuxiang.

Chapter 275 - Spirit Master

"While it might not help you breakthrough to Spirit Master, it should close that distance by a lot." Feng Yuxiang said to Yuan as she handed him the fiery-looking monster core that looked as though there were living flames trapped inside.

"Wow... It's warm..." Yuan mumbled after feeling the heat the monster core was emitting on his palms.

After taking a deep breath, Yuan popped the Rainbow Koi's monster core into his mouth, and unlike normal monster cores that only had a sweet taste, the Rainbow Koi's monster core actually tasted somewhat spicy after the sweetness!

"Oh, I had a breakthrough. I'm now a Spirit Master." Yuan looked at his hands with a slightly dazed look on his face, feeling his body overwhelming with energy and strength.

"W-What?!" Feng Yuxiang stared at Yuan with a gawking look on her face, as she didn't expect him to suddenly breakthrough, much less a breakthrough without any enlightenment!

Not even in her wildest dream could she have imagined that Yuan would reach Spirit Master without needing any enlightenment!

This kind of talent was simply too terrifying! It shouldn't exist if she has to be honest!

"So Brother Yuan didn't need enlightenment to reach Spirit Master, either, huh? Just where is Brother Yuan's limit if he even has one?" Xiao Hua's defeated voice suddenly resounded, sounding like she was already used to it.

"What do you mean by that?" Feng Yuxiang asked her.

"Brother Yuan also entered Spirit Warrior without any enlightenment; it was just like any other normal breakthrough for him." Xiao Hua said.

"Unbelievable..." Feng Yuxiang mumbled in a dazed voice, and she continued, "Just what is your body made of, Young Master?"

"Even if you ask me that, how am I supposed to answer that kind of question?" Yuan responded with a bittersweet smile on his face.

The most logical explanation would be the game's system that's allowing him to breakthrough without needing any enlightenment. Another reason that could be causing this would be his unknown bloodline.

Yuan summoned his status and looked at it—

Mental Strength: 39,975

Soul Strength: 51,410

Qi Experience: ???/???

'Huh? Why does my Qi Experience have so many question marks? Is the number so big that even the game is having trouble calculating it?' Yuan wondered to himself after seeing it. How will he see how much Qi he needs for the next level now?

Sometime later, Yuan said, "Anyways, now that I am a Spirit Master, I no longer need to continue cultivating, so I'll just leave this place and find something else to do until the Mystic Realm."

"Young Master, what about the fire controlling skill? Did you manage to obtain it after consuming the monster core?" Feng Yuxiang suddenly asked him.

Yuan nodded and said, "Yes, I got it."

"..."

Feng Yuxiang didn't show much of a reaction after learning that Yuan had managed to overcome the small chance and obtain the ability to control fire without using his spiritual energy, mostly because she was still numb from her previous shock.

"I'm going to tell Elder Xuan that I'm done here," Yuan said before retrieving the communication jade slip and calling Elder Xuan.

"What's the matter, Disciple Yuan?" Elder Xuan picked up a couple of moments later than usual.

"Senior Xuan, I just had a breakthrough and reached Spirit Master. What should I do now?" Yuan asked him.

"..."

However, Elder Xuan did not respond even a good minute later, making Yuan wonder if Elder Xuan was still there.

"Elder Xuan? Did you hear me?"

"Huh?! What did you just say? I'm sorry, but I don't think I heard you correctly just now. Did you say that you'd reached Spirit Master?" Elder Xuan finally responded, his voice filled with disbelief.

"Yes, that's right. I've just reached Spirit Master." Yuan repeated.

"..."

After another moment of silence, Elder Xuan spoke loudly, but he wasn't talking to Yuan—

"Sect Master! H-He did it! He reached Spirit Master!"

"What?! Is that true?!" Long Yijun's shocked voice, which was also filled with excitement, quickly responded.

"Yes! I am speaking to him right now!" Elder Xuan said.

"Hahaha! This is great! Bring him here!" Long Yijun then said.

"Yes, Sect Master!" Elder Xuan said before returning to Yuan, "Stay right there. I'll be there in a few to pick you up. The Sect Master would like to speak with you."

"Okay," Yuan said before closing the connection.

Meanwhile, at the sect master's headquarters, after Elder Xuan left the place, Long Yijun looked at Gao Dongya and Xue Jiye and said to them with a smile on his face, "Looks like you'll meet him sooner than expected."

Gao Dongya swallowed nervously.

'I heard them talking about reaching Spirit Master... Don't tell me...' he wondered inwardly.

Meanwhile, Xue Jiye had another thought in her mind, 'Is it him? Could it really be him? That genius during the disciple examination?'

Chapter 276 - Introducing The Team

A few minutes after he spoke with Elder Xuan through the communication jade slip, Yuan could see a cloud in the distance approaching his location.

A few more moments later, this cloud landed in front of Yuan with Elder Xuan standing on top of it.

"First and foremost, allow me to congratulate you on your breakthrough, Disciple Yuan. You don't see an 18-year-old Spirit Master every day if ever." Elder Xuan said with a warm smile on his face, looking like a grandfather watching his grandchildren grow up.

"Thank you, Elder Xuan," Yuan said.

"Come with me. I will take you to the Sect Master where you'll meet the other two disciples that will be participating in the Mystic Realm with you."

Yuan nodded and stepped onto the flying treasure before they soared to the sect master's headquarters.

They landed a few minutes later, and they walked into the building.

"It's really you! I knew it!" Xue Jiye shouted in a surprised voice the moment she saw Yuan's black jade mask, even pointing at him with a trembling finger.

Yuan turned to look at Xue Jiye, and he mumbled, "Oh, you're the girl who accidentally leaked herself during—"

"H-Hey! Why are you bringing that up?!" Xue Jiye quickly interrupted him in a panicked manner, and she continued with a flushed face, "And that was entirely your fault! If you hadn't looked at me with those eyes, none of that would've happened!"

"Oh, right. The two of you have already met." Elder Xuan remembered that Xue Jiye was the one watching over Yuan during the Tablet of Comprehension exam.

"Disciple Yuan, congratulations on reaching Spirit Master so quickly. Once again, you have exceeded my expectations." Long Yijun suddenly said to him, shocking Gao Dongya and Xue Jiye who only noticed his immense aura after the mention.

'Heavens! How long has it been since I last saw him when he was only at the fifth level of Spirit Warrior?!' Xue Jiye cried inwardly after seeing Yuan's overwhelming growth.

Meanwhile, Gao Dongya stood in the background with an unreadable expression on his face.

"Come over here, Disciple Yuan, so I can introduce you to these two who will be participating in the Mystic Realm with you." Long Yijun said.

Yuan nodded his head and went to stand beside Long Yijun, who patted his shoulders and said, "This is Disciple Yuan, a disciple who recently joined the Dragon Essence Temple. And before you question his qualifications, allow me to tell you some of his achievements."

Long Yijun cleared his throat before speaking in a manner that sounded like he was bragging about his own son in public, "Disciple Yuan has not only managed to take 100 steps during the third test at the silver pond but he'd also managed to achieve 100 percent comprehension at the final exam with the Tablet of Comprehension."

"What! 100 steps in the silver pond?!" Xue Jiye exclaimed.

However, Long Yijun wasn't finished, and he continued in an even prouder-sounding voice, "That's not all! Do you remember what happened recently at the Carp Leaping Over Dragon's Gate Tower?"

"Impossible... You don't mean he's..." Gao Dongya couldn't help but open his mouth after hearing this obvious hint.

"That's right! Disciple Yuan was the one who cleared all 100 floors, becoming the first person in the sect's history to achieve such a feat!"

Gao Dongya and Xue Jiye swallowed nervously upon hearing this, and they recall the rumors that had been spreading around the sect regarding the challenge on the 100th floor.

They slowly turned to look at Yuan and his clear eyes that glistened brightly behind his black mask.

"Now introduce yourselves." Long Yijun asked the two disciples.

Xue Jiye nodded and went first, "Even though we have already met before, allow me to introduce myself again. I am Xue Jiye, currently 20 years old, and I specialize in dagger techniques."

"Oh?" Yuan raised his eyebrows after learning that Xue Jiye also uses daggers, taking him by surprise.

After Xue Jiye's introduction, the handsome young man standing beside her said in a calm voice, "Gao Dongya, 25 years old, and I'm a swordmaster."

"Now that you know each other, I want you three to familiarize yourselves with each other before the Mystic Realm, as you are required to work in a team inside." Long Yijun said to them.

And then he continued, "Do any of you have any questions for me?"

Yuan quickly raised his hands and spoke, "When is the Mystic Realm?"

Long Yijun quickly replied, "The Mystic Realm will happen in four days, but we will leave the sect 2 days before that since the place is very far from

our current location, so you all have two days to prepare yourselves."

"Of course, since the Mystic Realm doesn't allow you to bring any treasures with you inside, you shouldn't need any luggage, to begin with," he continued.

"I would tell you more about the Mystic Realm but there have been rumors about the Mystic Realm being somewhat different from the previous years — that something big has happened in the upper heavens, so I can only tell you what the previous Mystic Realms have been like."

Thus, Long Yijun proceeded to tell them about the experiences the previous disciples had experienced inside the Mystic Realm.

By the time Long Yijun was finished, many hours had passed with half of the day already done.

"Anyways, this is all I know about the Mystic Realm. It may or may not be helpful information." Long Yijun said to them, and he continued, "I will contact you again in two days when we leave or when I need you again."

Sometime later, Yuan and the other two disciples left the sect master's headquarters.

"Hey, how about we go eat something at the Dragon Pavilion? My treat." Xue Jiye suddenly said shortly after they left, her gaze directly on Yuan as she spoke, almost like there was a deeper meaning behind her words.

"I'll pass." Gao Dongya didn't hesitate to refuse before walking away.

Chapter 277 - Xue Jiye

"What an unfriendly fellow, even though the Sect Master just told us to connect with each other. Oh well, at least I won't be using more contribution points." Xue Jiye said as she walked. Gao Dongya walked away.

A few seconds later, Xue Jiye returned to Yuan and asked him again, "What about you? Want to come?"

Yuan nodded his head, "I will go with you."

There was no way he'd refuse food, especially if it was free. Of course, he also wanted to know a little bit more about the disciples that will be participating in the Mystic Realm with him.

"Great. Then let's go."

Xue Jiye began walking shortly later, and she thought to herself, 'Unless he plans on eating with that mask on, I will finally be able to see the face behind that mask!'

The two of them arrived at the Dragon Pavilion sometime later, and they were taken to the best seat in the place.

Once they were seated, Xue Jiye said, "Go ahead. Order whatever you want. I'll pay for it."

Yuan nodded his head and proceeded to pick every item on the menu, shocking the waitress there and Xue Jiye, who stared at him with wide eyes.

Despite being a Core Disciple and unlike Fei Yuyan, Xue Jiye did not have many contribution points to spare since she would use them to exchange for

treasures to power up, and she didn't expect Yuan to order that much food, putting her in a difficult spot.

"You... Can you really eat all of that? Or are you just messing with me?" Xue Jiye asked him after the waitress went away to get the order.

"Why would I mess with you? Of course, I can eat all of them. Why else would I order them?" Yuan quickly responded.

"..."

Xue Jiye was left speechless by his serious voice.

After a moment of silence, she said, changing the topics, "Anyways, how long has it been since you joined the sect? A month?"

Yuan nodded and said, "About."

"What have you been doing since then? Well, besides challenging the Carp Leaping Over Dragon's Gate Tower and becoming the first person to have cleared all 100 floors?"

Yuan had to think a little before he responded. And after thinking for a minute, Yuan realized that he didn't really do much in the sect besides the Zither Competition and participating in a match.

"Well, I participated in a music competition and I fought another disciple on the stage," he finally said.

"You fought another disciple? Who would dare to fight you?" Xue Jiye seemed more surprised that anyone would fight a genius like him than anything.

"Someone named Wu Laohu, I think."

"Wu Laohu? Never heard of him." Xue Jiye shrugged.

As a Core Disciple, they usually don't pay attention to matters outside of the Inner Court, so while Wu Laohu was quite famous within the Outer

Court, he was essentially a nobody in the Inner Court.

Sometime later, the waitress returned with the food.

"Well... go on. I'd like to see you eat all of them." Xue Jiye said to him, anticipating to see Yuan remove his mask.

Yuan nodded, and as Xue Jiye had expected, he removed his black jade mask so he could eat properly.

"So young!" Xue Jiye's jaw dropped upon seeing Yuan's young and handsome face. "H-How old are you again?"

"Me? I'm 18 years old." Yuan casually responded.

"Eighteen?!"

Xue Jiye cannot imagine being 18 years old and a Spirit Master at the same time. What kind of talent would that take?

If only Xue Jiye knew that Yuan had only started cultivating recently. Who knows how she—or anyone in this world would react if they knew.

While Xue Jiye stared at him silently, Yuan went to eat his food before it turned cold, quickly consuming everything on the table.

'Did my capacity increase after becoming a Spirit Master?' Yuan wondered inwardly after realizing that he was not full despite eating so much food that would normally give him a full belly.

Meanwhile, Xue Jiye was full after a single dish.

"Thank you for this meal, Disciple Xue," Yuan said to her after wiping his lips with a warm towel.

"D-Don't even mention it..." she responded in a defeated voice.

After paying the bill with what felt like a bleeding heart, Xue Jiye said, "I guess I will see you in two days when the Mystic Realm begins."

Yuan nodded, "See you later."

By the time they left the Dragon Pavilion, the sky was already beginning to darken.

Yuan went straight home, where he tested the effects of becoming a Spirit Master.

The first he did was test his Divine Sense, and to his surprise, the area of effect for his Divine Sense more than doubled, perhaps even tripling compared to before, allowing him to see even Min Li's house—the entirety of it.

"Wow... I can see so many things at once..." Yuan mumbled in a voice of awe.

"Just wait until you're a Spirit Grandmaster or higher, Young Master. In the upper heavens, there are people who can cover even an entire city with their Divine Sense." Feng Yuxiang said to him.

"Un." Yuan nodded.

After familiarizing himself with his new profound strength, Yuan logged off for the day to test out his Divine Sense in the real world, but alas, he was still unable to fully release his Divine Sense.

"Welcome back, Meixiu," Yuan said to her after she returned from school.

"I'm back, Yuan."

"You don't have school tomorrow, right?"

"That's right," Meixiu said.

"Then would you like to play with me tomorrow? The Mystic Realm is in a few days, and I would like to hand the Divine-grade treasure to you so that you can sell it." Yuan said to her.

"I promised the Young Lady that I would visit her tomorrow morning, but I will play the game once I return," Meixiu said.

"Okay."

Meixiu went to prepare dinner later, and Yuan cultivated while he waited. Sometime later, Meixiu returned to the room with dinner.

Chapter 278 - Visiting Yu Rou

After feeding Yuan, Meixiu went to do her own things until she went to sleep.

Meanwhile, Yuan stayed up all night to cultivate like usual.

'I don't even remember when was the last time I got two nights of sleep in a row...' Yuan thought to himself, but oddly enough, he didn't feel any different despite lacking sleep. In fact, he felt more refreshed and energetic than ever.

The following morning, after feeding Yuan breakfast, Meixiu returned to the main house to meet with Yu Rou.

"Hey, Meixiu. Even though we saw each other at school yesterday, it feels longer than that." Yu Rou said to her.

However, Meixiu didn't immediately respond, and she looked around the room with raised eyebrows.

After a moment of silence, she spoke, "Young Lady, when was the last time you cleaned your room? It's a mess in here."

"You're exaggerating, Meixiu." Yu Rou casually said.

Meixiu turned to look at the clothes laying on the floor as well as the dirty desk in the distance.

Normally, Meixiu would be the one who cleans Yu Rou's room daily, but since she no longer lives here and spends most of her time with Yuan, that has become impossible.

"Young Lady... did you even find someone to replace me?" Meixiu suspected that nobody was taking care of Yu Rou in her place because no servant would dare to allow such an unkempt appearance in her room.

"..."

After a moment of silence, Yu Rou spoke, "I didn't find a replacement for you."

"What? Why?" Meixiu asked her in a genuinely surprised voice.

"Think about it, Meixiu. If I replaced you, my parents would know that you're currently taking care of Brother Tian, and there's a good chance that they'll tell you not to help him. Therefore, I cannot replace you no matter what." Yu Rou gave Meixiu an explanation on why she didn't find another servant.

"Oh..." Upon realizing the situation, Meixiu nodded her head.

"However, that doesn't excuse your messy room, Young Lady. I am going to clean up now." Meixiu said, and she immediately went to tidy up the room.

Seeing this, Yu Rou said with a smile on her face, "I didn't want to take any more of your job away from you, so I purposefully refused to clean my room so you can do it."

"..." Meixiu was speechless. Does Yu Rou intend on leaving her room dirty for an entire week just so she could clean it for her? That's unbefitting of her image.

"What about the other things? Who will take care of you?" Meixiu then asked her.

"I don't need anybody to take care of me. I have been taking care of brother Tian while taking care of myself for many years now— as if I need someone to do everything for me. And I don't trust anybody else to be so close in my life. They'll definitely tell my parents about everything I do."

"By the way, speaking of Brother Tian, how's he doing recently? Did anything significant happen?"

"Not that I know of." Meixiu shook her head as she folded Yu Rou's clothes.

"Oh, I see. Oh, when you go back, can you tell Brother Tian that players who have been approaching the Dragon Essence Temple are being beaten by the disciples of that sect so they cannot approach the place? Though, I think he should still try to hide his identity since we can never be too careful."

Meixiu looked at her with a still face before speaking, "Young Lady... Wouldn't it be better if you spoke to him yourself?"

Yu Rou immediately frowned and said, "And how am I supposed to do that, Meixiu? I cannot even meet with Brother Tian! While I can sneak a meeting with him, I shouldn't do something so risky when everything is still heated regarding Brother Tian's situation."

"But you don't need to see the Young Master to speak with him, Young Lady. You can always call him. There's no way the Masters would find out that way." Meixiu said.

"Eh?"

Yu Rou immediately turned dead silent, and she stared at Meixiu with a shocked expression on her face, looking like she'd just realized something.

"W-Why didn't I think of that before?! My brain must have stopped working after being told that I could no longer meet with Brother Tian! I totally forgot about this method!" Yu Rou exclaimed a moment later.

"Thank you for reminding me! Ah! But Brother Tian doesn't have a phone. Meixiu, since you'll be with Brother Tian whenever I can call him, I'll just call your phone and speak with Brother Tian that way!" Yu Rou then said.

Meixiu nodded, "I understand."

"I'll call you later tonight after dinner, so make sure you're free by then!"

After cleaning Yu Rou's room, Meixiu went to work outside a little just so the other servants won't be suspicious of her disappearance.

"Isn't that Meixiu? Hey, Meixiu! Where have you been lately? It feels like forever since I last saw you!" One of the other servants called her out after noticing her.

Meixiu stopped sweeping the floor and turned to look at the middle-aged woman that was approaching her, and she spoke with a nonchalant look on her face, "The Young Lady has assigned me with a project so I spend most of my time outside now."

The middle-aged lady nodded and said, "It must be hard being the only person working for the Young Lady. However, it's definitely much better than working for that crippled thing. I cannot imagine being near him, much less taking care of him every day. I'm glad the Masters finally got rid of him; it was long overdue. The Young Lady can also finally focus on her school and music without wasting her time on that thing."

"..."

Meixiu's grip on the broom subtly tightened when she heard the other servant's words, but she didn't say anything and remained silent. Hell, even her nonchalant expression remained still, acting like she wasn't affected by the other servant's clear disdain for Yuan.

Chapter 279 - Housekeeper

"By the way, if you're still cleaning, you should hurry up. The housekeeper, your mother, she'll be here to visit us in half an hour." The other servant said to her before walking away in a nonchalant manner.

"Mother, huh..." Meixiu mumbled in a low voice.

Indeed, visiting Yu Rou wasn't the only reason she returned today, as her mother, the head of the servants, was visiting today as well.

Ten minutes later, after cleaning up the area outside of Yu Rou's room, Meixiu went to the courtyard where many other servants were already gathered.

There were about a dozen servants working at the house, and all of them were already standing in an orderly fashion in a straight line.

"It's been a while since the Housekeeper visited us, and whenever she does, it's because something bad has happened."

"Not always. Sometimes she visits us to make sure things are in an orderly fashion. Of course, if she finds even the slightest mistakes, we'll get yelled at— and that happens every single time she visits."

Even though the Housekeeper had yet to arrive, these maids didn't dare to speak loudly, and they all mumbled to each other.

Meixiu ignored them and went to stand in the formation.

The other servants went silent for a moment when they noticed Meixiu. Out of all of the servants there, she was the youngest and most definitely the prettiest. Furthermore, Meixiu worked directly with Yu Rou, the Young

Lady, making her position above theirs automatically. This would, of course, cause some people to be jealous of her. However, knowing who Meixiu's mother was, they didn't dare to badmouth her, as they feared the Housekeeper more than the Masters themselves.

A few minutes later, much earlier than expected, a figure could be seen approaching them from a distance; it was a tall and pretty woman with black hair tied into a large bun behind her head, and she had a cold and serious expression on her face.

At glance, one could see similarities between her and Meixiu, such as their naturally nonchalant facial features and their somewhat distant aura.

When the servants saw this woman's figure, they immediately straightened their bodies and faces.

Once the Housekeeper stopped walking and stood a few meters in front of the formation, the servants all bowed and greeted her simultaneously, "Good morning, Senior Housekeeper!"

The Housekeeper didn't respond to their greetings and proceeded to walk and stand in front of the servant that was to the very right of the formation.

Once the Housekeeper stopped walking, the servant lifted her head and stood there like a statue.

The Housekeeper proceeded to inspect the servant's uniform and her appearance overall.

"Turn."

The servant turned her body around at the Housekeeper's command.

"Turn."

A few moments later, the servant turned around, facing the Housekeeper again.

"Your collar is crooked, there's a strand of hair on your shoulder, and your shoes are dusty. Since when did we hire monkeys to work for the Yu Family? Get out of my sight and fix yourself right now." The Housekeeper said to the servant in a cold voice.

"Yes, Housekeeper!" The servant didn't dare to complain despite being called a monkey, and she quickly left the scene.

Once she finished inspecting the first servant, the Housekeeper went to stand in front of the next servant and began inspecting her as well.

The Housekeeper continued to inspect the servants until all of them were checked.

"Turn."

Meixiu turned around in a smooth and graceful movement.

"Turn."

Meixiu turned around again.

"..."

The Housekeeper silently stared at Meixiu for a moment before turning around and walking back to her original spot without saying a word.

By the time the Housekeeper finished her inspection, the servants that were told to leave have returned with their appearances corrected.

Once everyone was back, the Housekeeper said, "It appears that most of you have gotten complacent since my last visit, hence your disgraceful appearances. If I spot even a single mistake during my next visit which will be unannounced, I will have everyone here retake their maid training. Of course, you can refuse, but that will be the end of your career in the Yu Family."

The servants there trembled after hearing the Housekeeper's words.

A few moments later, the Housekeeper continued, "I will walk around the house in a moment to make sure you're not slacking on cleaning the household, either."

The Housekeeper dismissed the servants a moment later, telling them to go back to work.

However, just as Meixiu began walking, she was stopped.

"You stay right here, Meixiu."

"Yes, Housekeeper," Meixiu responded before standing there in silence.

Once all of the other servants disappeared, the Housekeeper approached Meixiu and said, "You don't seem any different than usual despite the situation."

"I don't understand what you're trying to tell me, Housekeeper," Meixiu said.

"You can drop the act with me, little girl. The Young Master was disowned and you're telling me that you don't feel anything?" The Housekeeper said to her.

"Is that why you visited today... Mother?" Meixiu asked her.

"Yes, because I wanted to see your crying face, but it appears to me that you're not the least worried or saddened that he is no longer in your life. And to think that you used to motivate yourself using the Young Master whenever you were having difficulties during training."

Meixiu's eyebrows twitched upon hearing her mother's words.

And her mother continued, "Or did you forget about it? If you forgot your purpose— why you became a servant in the first place, allow me to help you remember. You were originally trained to become the Young Master's personal servant and more. The reason you even managed to endure the hellish training at such a young age was because you wanted to be with him — by the Young Master's side."

"You don't have to remind me because I remember it very well, mother,"
Meixiu said after a moment of silence.

"Really? Because it doesn't look that way." Her mother stared at her with a
mysterious glint in her eyes.

Chapter 280 - Meixius Mother

Chapter 280 - Meixiu's Mother

"Why do you even care, anyways? You usually don't talk about him. Furthermore, the Young Master is gone and there's nothing you nor I can do about it." Meixiu said when her mother continued glaring at her like she did something wrong.

"Do you really not care about the Young Master? Did your feelings for him change after he became a cripple? I guess you're no different from the other maids— always filled with disdain towards him and forgetting who he used to be." Her mother shook her head.

Meixiu gritted her teeth after hearing her mother's words before shouting in a loud voice, "Don't compare me to those trash!"

"..."

Her mother remained a calm expression despite Meixiu's unexpected outburst— or maybe because she expected Meixiu's outburst that she didn't react. Regardless, she has always managed to break Meixiu's nonchalant appearance with ease.

"I see." Her mother said in a nonchalant voice before turning around and walking away.

"Follow me," she suddenly said.

Meixiu didn't say anything and followed her mother inside the house.

A few minutes later, they arrived in front of Yu Rou's room, something Meixiu expected when she saw the direction they were walking in.

Meixiu's mother knocked on the doors immediately after they arrived, and she proceeded to stand in front of the doors in a manner that reeked of professionalism.

Meanwhile, Meixiu stood beside her in a similar fashion.

A few moments later, Yu Rou opened the doors.

"Greetings, Young Lady."

Meixiu's mother bowed to Yu Rou and greeted her. Meixiu followed despite already meeting with Yu Rou before this.

"Hello, Miss Meifeng. It's been a while." Yu Rou returned the greeting in a graceful manner.

"May I come inside for a moment?" Meifeng asked her.

"Of course." Yu Rou nodded.

Meixiu and her mother, Meifeng, entered Yu Rou's room a moment later.

Upon entering the room, Meifeng immediately started looking around the room with her sharp gaze, clearly looking to see if the room was clean.

"Don't worry, Miss Meifeng. Meixiu has been doing her job flawlessly." Yu Rou said with a smile on her face.

"I just wanted to make sure that my daughter hasn't been slacking on her work." Meifeng nodded her head, yet she still continued to inspect Yu Rou's room for another minute afterward, even wiping uncommon areas behind Yu Rou's desk with her fingers to see if there was any dust.

"Anyways, why did you come here today, Miss Meifeng?" Yu Rou asked her as she took a seat on the bed.

Meifeng then said, "I just wanted to make sure you were doing fine, Young Lady. Even though I work at the main household now, I used to be your

caretaker. Is it weird for me to come by once in a while to see your condition?"

Yu Rou showed a bittersweet smile before speaking, "As expected, you're here because of my brother's situation."

"I'm sorry you had to go through this, Young Lady. Don't tell the Masters I said this, but I really don't think the Young Master deserved to be disowned. Even though he's still so young, he'd already worked enough and deserves to rest for the rest of his life."

Meifeng's words dumbfounded Meixiu. In her mind, there was no way her mother could show such compassion— at least she has never seen it before.

"If there's anything I can do for you, please let me know."

Yu Rou nodded, "Thank you, Miss Meifeng, but I am fine."

After a moment of silence, Meifeng suddenly asked, "The Young Master... where is he right now? I cannot imagine leaving someone in his condition in the street and without a place to stay. Furthermore, his caretaker... Who's currently taking care of him?"

"That's..." Yu Rou immediately hesitated on responding.

Seeing this, Meifeng continued, "I know you're hesitant about telling me anything, and rightfully so. However, I am truly worried about the Young Master's wellbeing. You may not know this, but I was the Young Master's personal caretaker at one point."

"Eh? Really?" Yu Rou's eyes widened at Meifeng's words.

Meixiu was also surprised to hear this since she doesn't remember seeing her mother assist Yuan before.

"I was only assigned to him for a very brief moment, but during that short time, I've come to adore the Young Master and his talents that took the world by storm. I wanted to continue being his caretaker so I can personally witness his growth as a prodigy, but there were too many other things that

needed my attention, so I was eventually reassigned by the Masters." Meifeng said with a disheartened look on her face, her voice sincere.

However, before Yu Rou could even respond, Meifeng continued, "I'm sure the Young Master has a place to stay now, but that's not what I'm worried about. I am worried about his caretaker more than anything else."

"In fact, I have someone in mind. If you allow me, I will have that person take care of the Young Master."

"That's a bit..." Yu Rou didn't know how she should respond, and her eyes subconsciously turned to look at Meixiu for help.

"..."

As the head of all servants who could spot dust even from across the room, there was no way Meifeng could've missed the obvious shift in Yu Rou's eyes.

"I see... It's no wonder why I don't feel any sadness coming from you, Meixiu." Meifeng slowly turned around to look at her daughter with a narrowed gaze, and she continued in a slow but clear voice, "It's because you were never separated to begin with. You are the Young Master's new caretaker, am I right?"

Meixiu swallowed nervously after hearing Meifeng's words that were right on the spot.

"Miss Meifeng... This is..." Yu Rou also began panicking. What if she tells Meixiu that she cannot take care of Yuan? What if she assigns another individual to be Yuan's caretaker?

"That's right, mother. I am currently taking care of the Young Master. Do you have a problem with that?" Meixiu responded, not even bothering to hide the fact.

Chapter 281 - Yellow Envelope

"Do I have a problem, you say? Since when did you obtain the courage to speak back to me in such a manner?" Meifeng narrowed her eyes at Meixiu.

"..."

However, Meixiu did not back down and continued to stare at her own mother with a serious expression on her face.

"Miss Meifeng..." Yu Rou called out to her with cold sweat running down her own back.

After a moment of awkward silence, Meifeng finally spoke with a slight smile on her face, "No, I don't have any problems. In fact, I was going to help you volunteer to be the Young Master's caretaker."

"Really?" Yu Rou was surprised by Meifeng's approval.

Meifeng nodded and said, "When I couldn't stay by the Young Master's side, I thought that I could perhaps have Meixiu stand by his side in my stead. That's why I suggested training her in the first place."

Meixiu's eyes widened with surprise. While she'd agreed to take the training of her own will, she didn't know of her mother's intentions until today, and it was quite shocking, to say the least.

"Are you not worried about my parents saying something, Miss Meifeng? I doubt they'll allow your daughter to take care of Brother Tian..." Yu Rou suddenly asked her.

"Yes, I am. Hence, why I will be giving you two choices now, Meixiu." Meifeng said, and she stared at Meixiu dead in the eyes with a serious

expression.

"One, you will remain in the Yu Family and continue serving the Young Lady as her servant. However, you are not allowed to take care of the Young Master, as there is no way the Masters would allow you to do that."

"Or you can continue being the Young Master's caretaker. However, if you choose this path, you will have to leave the Yu Family and stop being the Young Lady's caretaker. It's either the Young Master or the Young Lady—you can't have both. Which will you pick?"

"..."

Meixiu's eyes widened with shock upon being given these two options.

However, to Meifeng and Meixiu's surprise, Yu Rou was the first to speak, and she said in a resolute voice, "Meixiu, you must pick Brother Tian! I can take care of myself, but Brother Tian... he cannot do that!"

"If I leave the Yu Family, what will happen to school...?" Meixiu suddenly asked.

"Of course, you will no longer be able to attend the same school as the Young Lady, as you're only there because of the Yu Family. However, if you're willing to pay the school fees by yourself, you'll still be able to attend the school like normal."

Meixiu frowned. Paying the school's fee by herself? Even with her savings, she won't last until the end of the year if she had to pay for such a prestigious school by herself.

"I know this is a difficult choice for you, but you cannot continue to sneak around. The Masters will eventually find out that you're helping the Young Master behind their backs, and the punishment for that will be much worse than just leaving the Yu Family. Hell, even my position may be at risk." Meifeng said.

And she continued, "If you choose to leave the Yu Family to take care of the Young Master, I'll also try to support you however I can. As for the Young Lady... I believe her when she says that she can take care of herself."

"Meixiu, do you even have to think about this?! You need to pick Brother Tian! As for your school, we'll think of something!" Yu Rou continued to urge her.

Meixiu suddenly closed her eyes, and memories of her childhood with Yuan quickly flowed into her head.

"What's wrong, Meixiu? Did you mess up again? Come here, you can cry on my shoulders..." Yuan's childish voice resounded in her head.

"Crying again? Here, do you want some chocolate? It'll make you feel better."

"Your training is almost done? Congratulations! Let's both do our best, okay?"

"..."

Meixiu opened her eyes after a long minute of silence before walking in front of Yu Rou.

After taking a deep breath, Meixiu lowered her body and bowed to Yu Rou, "I'm sorry, Young Lady, but I have decided to leave the Yu Family. Please forgive me."

A smile appeared on Yu Rou's face, and she nodded, "Thank you for your years of dedication and hard work, Meixiu. Please take care of Brother Tian from now on. I will definitely repay you in the future."

Sometime later, Meifeng said, "I will let the Masters know of your departure later, Meixiu."

She then turned to look at Yu Rou and continued, "Young Lady, if you don't mind, can I visit the Young Master? I haven't seen him in years..."

Yu Rou nodded and said, "Meixiu, you can bring Miss Meifeng to see Brother Tian when you leave. I'll have the other servants pack your things so you don't have to worry about that."

"Thank you, Young Lady."

"Don't call me that anymore, Meixiu. You're no longer working for me and I am no longer your Young Lady. Call me Sister Rou."

"That's... I understand, Sister Rou." Meixiu said to her after a slight hesitation, feeling a little bit odd afterward.

After talking with Yu Rou for a little bit longer, Meixiu left the place with Meifeng.

"..."

Once she was alone, Yu Rou laid on the bed with a dazed look on her face.

"Not just Brother Tian, even Meixiu is gone now... leaving me all alone in this place..." Even though she personally encouraged Meixiu to leave, Yu Rou couldn't help but shed some tears from Meixiu's departure.

After a moment of silence, she mumbled, "Maybe I should just leave this place and go with Brother Tian and Meixiu."

Yu Rou then got off the bed and walked to her desk. After unlocking one of the drawers with a key, Yu Rou used another key to unlock a box that was inside the drawers, retrieving a large yellow envelope that had a white label that read 'Certificate of Adoption'.

Yu Rou carefully opened the envelope that appeared to have already been opened before and stared at the certificate after taking it out, her expression as calm as a still pond.

After staring at the certificate and a certain name on it for a few moments, Yu Rou placed it back inside the envelope and locked her drawers before leaving her room with a gentle smile on her face.

Chapter 282 - Apology

After leaving the house, Meixiu brought her mother to Yuan's apartment in a limousine. Of course, this limousine belonged to Meifeng despite her status as a servant, as she was only second in rank in the Yu Family, directly below Yu Rou and her parents.

"The Young Master is currently living in this apartment?" Meifeng raised her eyebrows upon arriving at the place.

While the apartment wasn't too bad, it wasn't fitting for someone like Yuan — at least that's what Meifeng thought.

In her mind, a genius like Yuan, someone who can literally make money rain with his god-like musical talents, doesn't deserve to live in an apartment with hundreds of other individuals.

Sometime later, they entered the elevator and quickly made their way to the 17th floor.

Klack.

Meixiu opened the door to 17F with her keys and said, "Young Master, I'm home."

Yuan, who was cultivating while waiting for Meixiu's return, was puzzled to hear the words 'Young Master' come out of her mouth when she seemed to have gotten used to calling him Yuan.

However, Yuan realized something was amiss when he heard two sets of footsteps entering the apartment.

'Did Yu Rou come? No... these footsteps are too gentle.' Yuan wondered to himself who this visitor could be if not Yu Rou.

"Young Master, you have a visitor," Meixiu said to him from outside his room after gently knocking on his doors.

"Who is it?" Yuan asked.

"Young Master, it's me." Meifeng quickly responded in an unbelievably soft voice.

"M-Miss Meifeng?!" Yuan immediately recognized her mature voice despite many years of not hearing it.

"May I come inside?" Meifeng asked him from outside.

"Y-Yes. Please, come inside."

Meifeng turned to look at Meixiu and said to her with a serious expression, "Stay out here. I want to speak with him privately."

Although she was hesitant to leave Yuan alone with her mother, she couldn't find the strength to refuse and nodded her head.

Meifeng approached the doorknob with her hands, and after taking a deep breath, she turned the handle and opened the door.

Upon entering Yuan's room and closing the door, Meifeng turned to look at the young man lying on the bed.

"Young Master..."

Meifeng was surprised to see Yuan's healthy complexion, but she didn't think too much about it for now and decided to kneel beside the bed on both her knees.

"Miss Meifeng, what are you doing here? Did..." Yuan was worried that his adopted parents might have found out about Meixiu helping him, hence why her mother was here.

"No, the Masters don't know about my presence here. You can relax. I am not here to separate Meixiu from you—I can't." As though she could see through his worries, Meifeng reassured him of his worries in a gentle voice.

"Then why are you...?"

"I'm here to apologize to you, dear Young Master..." Meifeng suddenly reached for one of Yuan's hands and held it close to her heart, treating it as though it was some kind of fragile treasure.

"Apologize? What for?" Yuan asked her in a truly puzzled voice.

"For everything..." Meifeng sighed, and she continued, "If I hadn't shown your musical talents to the Masters, they wouldn't have made you play for the family, and you would've kept your childhood at the very least for a few more years."

"However, because I showed the Masters your talents, they adopted you and essentially made you into a slave whose only purpose in life was to play music for the family, and it's entirely my fault that you had to sacrifice your childhood—yourself—with nothing in return."

"You earned the Yu Family countless fame and wealth, but what did you get in return? Not only did you lose your ability to see at a young age, but you also lost your ability to move shortly after. And now, a few years later, even the family that you supported and helped rise to the peak of the music world abandoned you..."

"Furthermore, I even stopped visiting you because of this guilt, as I could not bear seeing the Young Master in such a condition. I know that there's nothing I can say or do that will get rid of this sin, nor do I expect to be forgiven, but please, even if you hate me, do not blame Meixiu for any of this. She's an innocent girl who did her best at a very young age even if I scolded her a dozen times a day just so she could be by your side when I could not. If you have to hate someone, hate me, who brought you into the Yu Family."

Tears flowed from Meifeng's eyes as she cried in silence since she didn't want Yuan to realize that she was crying.

"..."

After a moment of silence, Yuan spoke in a soft voice, "Miss Meifeng, I don't blame you for any of this, much less hate you. There's no way I can hate you. After all, if not for you, I would've never met my sister Yu Rou, Meixiu, and many others. And even if you didn't tell the Yu Family about me, they would've still learned about me sooner or later since that video was widespread."

"While I do blame someone for this, it's definitely not you. As for my childhood... Even though I had spent most of it playing music for the Yu Family, I didn't see it just as 'playing for the Yu Family'. Yu Rou, Meixiu, you, and everyone who watched me perform... It's because of your smiles when I play the instruments that I play them."

"Fame? Wealth? I don't care about any of that."

"Young Master..."

The tears that had begun to stop suddenly started flowing again for Meifeng, and she began crying in a suppressed manner, as she was unable to resist her tears this time.

"Miss Meifeng, this may sound weird, but can you lay your head on my hand?" Yuan suddenly asked her.

Meifeng didn't think too much about it and followed his instructions, planting her cheeks on his warm hands.

Feeling the warmth of Meifeng's face on his palm, Yuan gritted his teeth and mustered all of his strength and cultivation to move his fingers that were closest to Meifeng's eyes, wiping some of the tears from her soaked eyes, shocking her greatly once she realized what had just happened.

"Y-Young Master... you... just now..." Meifeng lifted her head to stare at Yuan, who had a gentle smile on his face at this moment.

Chapter 283 - The Perfect Solution

Hearing Meifeng's gasping voice, Yuan spoke with a smile on his face, "Even if my childhood was taken away from me, at least I still have my future, and I won't give up until I can personally leave this bed with my own strength."

"Young Master... you... are you really..." Meifeng almost couldn't believe what had just happened.

Did he just move his fingers? Even if it was just slightly, that is a huge improvement and a hopeful sign that he might actually recover in the future!

"Yes, I am really recovering. But please keep this a secret for now, as I want it to be a surprise for Meixiu and Yu Rou." Yuan said in a low voice.

"I will keep it a secret! I won't tell a single soul even if it's the last thing I do, I promise!" Meifeng nodded her head with excitement, causing the tears on her face to drop faster.

After spending a few minutes wiping her tears and calming down, Meifeng spoke, "Young Master, what do you plan on doing now that you're no longer part of the Yu Family? While you're definitely recovering, it's going to be difficult without the Yu Family's support and resources."

And she continued, "If you need money, just let me know and I'll do my best to support you."

"It's okay, Miss Meifeng. I already have a plan. However, I am worried about one thing."

"What are you worried about, Young Master? Is there anything I can do to help?"

"I don't know if you can help or not, but I am worried that Meixiu might get in trouble if the Yu Family learns that she's helping me, which might affect you as well, and I don't want that to happen. Do you know of any solutions?" Yuan asked her.

"I see..."

To Yuan's surprise, Meifeng actually began chuckling at his question, and he wondered if he'd said something funny.

"My dear Young Master, I have the perfect solution for that— one that won't cause any trouble for Meixiu even if the Masters find out," Meifeng said a moment later.

"Really?!" Yuan reacted with excitement. What could this solution possibly be? It sounded too good to be true!

"Yes, I would never lie to you, Young Master. Anyways, the solution to all of this is to have Meixiu leave the Yu Family, so even if she decides to work for you, they cannot complain about it." Meifeng said, immediately leaving Yuan speechless.

"M-Meixiu leaving the Yu Family? I don't think I can be that selfish— taking Meixiu away from Yu Rou. And what about Meixiu? What if she doesn't want to do that, and I won't force her either." Yuan quickly said.

"You don't have to worry about any of that, Young Master. In the first place, Meixiu was trained to become your caretaker, and lastly, she has already agreed to leave the Yu Family to be by your side." Meifeng finally revealed to him the situation.

"Wait... what? Meixiu decided to leave the Yu Family? What about Yu Rou?" Yuan mumbled in a shocked voice.

"Indeed, Meixiu has already left the Yu Family. I will be notifying the Masters later today. As for the Young Lady, she also agreed with this, even urging Meixiu to leave the family." Meifeng said.

"I... don't know what to say, really..." Yuan sighed, and he continued, "I just don't want to burden Meixiu any more than I already am..."

"A burden, huh?" Meifeng pondered for a moment before speaking again, "How about this, Young Master? Let's ask Meixiu what she thinks."

Meifeng then stood up from her kneeling position and took a moment to fix her appearance before going outside to call for Meixiu.

"Come here, Meixiu. The Young Master would like to speak with you." Meifeng said to her, who was standing near the entrance of the apartment.

Once they were inside Yuan's room together, Meifeng spoke, "Meixiu, the Young Master is worried that he might be a burden to you. Tell him the truth."

Meixiu nodded her head before speaking, "I enjoy taking care of the Young Master, and I do not see the Young Master as a burden."

"There you have it, Young Master. Meixiu herself has spoken. If you still doubt it, you're going to hurt Meixiu's feelings."

"I see..." Yuan mumbled in a somewhat dazed voice.

"Anyways, Meixiu will no longer be part of the Yu Family, and she will be your caretaker starting today." Meifeng said before turning to look at Meixiu, "As for school, if you wish to continue attending school, then I will try to work something out."

Meixiu nodded her head.

Once everything was settled, Meifeng looked at her watch and said, "I don't have much time left here, but before I leave, I need to make sure that you haven't forgotten your training and that you're taking care of the Young

Master properly. Therefore, you're going to show me how you take care of the Young Master right now."

"Right now? But what am I supposed to do? The Young Master already ate breakfast..."

Meifeng stood still for a moment before moving to wipe Yuan's forehead with her finger.

She then said, "Look, the Young Master is sweating. I want you to change his clothes, and while you're at it, wash his body."

Meixiu's eyes widened after hearing her mother's words. While she doesn't mind changing Yuan's clothes, washing Yuan's body in front of her mother is an entirely different story, especially if the last incident were to repeat itself.

"Why are you hesitating? If you're not going to take care of the Young Master properly, I won't hesitate to replace you."

Meixiu swallowed nervously, but she didn't dare to refuse her mother. Therefore, she could only nod her head.

Thus, Meixiu began removing Yuan's clothes whilst Meifeng stood in the background and silently watched her every movement.

This reminded Meixiu of her childhood when she was still in training, and just like currently, her mother would watch her from a distance, calling out on every minor mistake she makes.

Chapter 284 - Does It Feel Good?

"Meixiu, why are you removing the Young Master's clothes now?" Meifeng suddenly stopped Meixiu before she could even remove Yuan's shirt.

Seeing Meixiu's puzzled expression, Meifeng said in a strict voice, "Look around, do you see anything to carry the Young Master with? Or did you plan on letting the Young Master lie on the bed naked and wait until you're prepared? What if the Young Master catches a cold because of that?"

Meixiu's eyes widened after realizing her fault, and she immediately stopped removing Yuan's clothes to prepare the wheelchair.

"I apologize, Young Master," Meixiu said to him afterward.

"Don't worry about it, Meixiu," Yuan said.

However, Meifeng said, "The Young Master may forgive you, but I won't be as forgiving as your mother and trainer."

Sometime later, after she prepared the wheelchair, Meixiu picked up Yuan and carefully placed him onto the wheelchair while he was fully clothed.

Once Yuan was seated securely on the wheelchair, Meixiu pushed him into the bathroom, where she proceeded to remove Yuan's clothes.

"..."

Meifeng didn't say anything about this, but that's mostly because her attention was distracted by Yuan's refined body.

'How can someone who hasn't moved a muscle for so many years have such a refined body?' Meifeng wondered to herself.

While Meifeng stared at Yuan's naked body with a dazed look on her face, Meixiu turned on the water for the showerhead and began rinsing Yuan's body once she checked the temperature.

"Let me check the temperature as well." Meifeng suddenly said.

Meixiu nodded, handing the showerhead to her mother.

After feeling the temperature of the water for a moment, Meifeng handed the showerhead back to Meixiu without saying anything, which meant she has no complaints most of the time.

After rinsing Yuan's body, Meixiu squeezed some body wash onto a sponge and prepared to scrub Yuan's body.

However, Meifeng quickly stopped her and said, "Stop right there, Meixiu. What's that in your hands?"

"A sponge...?" Meixiu responded in a puzzled voice.

"And you plan on washing the Young Master's fragile body with a sponge? Use your hands!" Meifeng said to her.

Meixiu swallowed nervously before nodding her head and tossing the sponge to the side.

She began scrubbing Yuan's body with her bare hands shortly after, feeling surprised once she realized just how strong Yuan's body was.

A few minutes later, after washing Yuan's body and legs, Meixiu reached the area she feared the most, especially since her mother was still watching.

After swallowing nervously, Meixiu took a deep breath and began washing the final area with shaky hands.

Of course, Meifeng didn't miss this, but she remained silent.

"Hmm?" Meifeng raised her eyebrows when a certain something on Yuan raised as well.

'Since he can move his limbs to a certain extent, it's safe to assume that he can feel again as well, right?' Meifeng wondered to herself after seeing Yuan's wondrous reaction.

"Young Master, how are you feeling right now? Does it feel good?" Meifeng suddenly asked him, shocking Meixiu to the point where she stopped moving to stare at her with wide eyes.

"Eh? What do you mean by that, Miss Meifeng?" Yuan asked her in a genuinely puzzled voice.

"Hmm..." Meifeng narrowed her eyes and pondered, 'So it's just his body's natural reaction, huh? Or maybe he just doesn't understand it? Nobody taught him about that kind of stuff, after all.'

"Never mind, Young Master, it was just a misunderstanding," Meifeng said a moment later before looking at Meixiu.

"Why did you stop? Hurry up and continue washing the Young Master or he'll catch a cold," she continued.

Meixiu nodded her head with a dazed look on her face, and she continued washing Yuan's body.

"Slow down. What if you damage it? That area is worth more than you can possibly fathom, Meixiu." Meifeng said to Meixiu when she noticed Meixiu's rushing movements.

"I'm sorry," Meixiu said.

"Don't apologize to me. Apologize to the Young Master."

"I'm sorry, Young Master."

Yuan didn't know what they were talking about or why Meixiu was apologizing so he responded casually, "Don't worry about it."

After taking another minute to wash Yuan's precious area, Meixiu finally rinsed his soapy body with warm water before quickly drying him off with

a small towel.

A few moments later, they returned to Yuan's room.

Meixiu placed a blanket on the bed and placed Yuan on it before wiping the rest of his body.

Once Yuan was fully clean and dried, Meixiu helped Yuan into a new set of clothes.

However, just as Meixiu prepared to comb Yuan's hair with a brush, her mother interrupted and said, "I will brush the Young Master's hair."

Meixiu didn't refuse and passed the brush to her, and Meifeng began brushing Yuan's long hair gently and professionally.

"Thank you, Meixiu, Miss Meifeng. Words cannot describe my gratitude for your hard work." Yuan said to them afterward.

"Although we appreciate your feelings, we're not doing this for your gratitude, Young Master." Meifeng quickly responded.

"Even if that's the case, it won't change my feelings."

A few more minutes later, Meifeng's phone began ringing.

"It's my alarm, which means it's about time for me to leave. Although my visit today was shorter than I'd hoped, I will definitely return in the future to make sure everything is fine, Young Master." Meifeng said as she laid Yuan back onto the bed.

"Okay."

After Meifeng left the apartment and going downstairs to where her car was parked, Meifeng looked at Meixiu and said, "Meixiu, your dream... don't give up hope."

Meixiu's eyes immediately widened, and she asked in a mumbling voice, "W-What do you mean by that, mother?"

However, Meifeng dodged her question and said with a rare smile on her face, "Keep working hard and you'll definitely be rewarded in the future."

And before Meixiu could say anything else, Meifeng entered the car and closed the door before driving away.

After standing around for a few moments, Meixiu went back upstairs.

"Are you ready to play with me, Meixiu?" Yuan asked her after she returned.

"Just a minute, Young Master. I promised the Young Lady that I'd call her when I come back so she could talk to you." Meixiu said to him as she retrieved her phone and called Yu Rou.

Chapter 285 - Phone Call

"Young Master? Miss Meifeng is no longer here. You can call me Yuan again." Yuan said to Meixiu.

"Oh, right..." Meixiu realized that she'd subconsciously reverted back to her old ways of addressing him after her mother's unexpected visit.

After calling Yu Rou's cell phone, Meixiu waited for her to answer.

One and a half rings later, Yu Rou picked up the phone and said, "Hello? Meixiu? Are you back at Brother Tian's place right now?"

"Yes, Young— Sister Rou. I am with him right now," Meixiu responded.

"Great! Can you pass the phone to him? You can even turn on the speaker."

Meixiu then turned on the speaker before placing the phone a few inches beside Yuan's head.

"Hello? Can you hear me?" Yu Rou's voice resounded on the speaker.

"I can hear you, Yu Rou," Yuan said.

"Phew! It feels like forever since I last heard your voice! And I'm sorry that I didn't call you early, Brother Tian. Even though I cannot see you, the thought of calling you never entered my mind for some reason."

"Don't worry about it."

"Is Miss Meifeng still there?"

"No, she just left."

"I see... Then I will assume that she'd already told you everything regarding Meixiu's situation."

"That's right. Miss Meifeng told me everything. But are you sure about this, Yu Rou? What about your caretaker? Will you be fine alone?"

"Are you underestimating me, brother? Did you forget that it was me who took care of you for the last couple of years? I think I can handle myself just fine!" Yu Rou said in a prideful voice.

"I guess you're right, Yu Rou. I'm sorry for doubting you. I just wanted to make sure."

"Don't worry about it. Anyways, I promised Xia Jingyi that I will play Cultivation Online in a bit so let's get to the topic."

After taking a deep breath, Yu Rou said, "Doctor Wang called me last night, and he said that he'll be visiting you later this afternoon. I gave him your address, so he should be there soon."

"Doctor Wang...? I understand." Yuan said.

"Next, let's talk about your bank account. I have created another bank account for you and Meixiu, so you'll both have access to it. As for the account that will be selling the items, I will send the information to Meixiu after this call."

"Meixiu, make sure you follow the instructions! Though, it's probably going to be impossible to completely hide Brother Tian's identity since he's selling a Divine-grade treasure, something only Player Yuan would have at this moment, especially when it's a zither and everybody knows that he'd participated in a zither competition."

"I understand," Meixiu said.

"Anyways, this is all I have for now. I'll call you tomorrow morning again, Brother Tian and Meixiu!" Yu Rou said to them before hanging up the phone.

"Now, let's—"

Just as Yuan opened his mouth to speak, Meixiu's cell phone began ringing again.

"Did you forget something?" Meixiu asked Yu Rou who called back for some reason.

"Right, I almost forgot to tell you that your stuff has been packed, and it will be shipped to your place tomorrow. Bye!" Yu Rou said before hanging up again.

"Anyways, what should we do now? I wanted to play with you when you returned, but Doctor Wang will be arriving soon." Yuan sighed.

"It's okay, Yuan. Now that I have left the Yu Family and school, I can stay home all day and play whenever you want." Meixiu said to him.

"Eh? You don't plan on going to school?" Yuan asked her in a surprised voice.

"I don't know yet, but I certainly don't have the funds to go to school since the Yu Family won't be supporting me once they learn of my leave."

"If it's money you need, once we sell the Divine-rank treasure, we should have more than enough to pay for your school!" Yuan said.

"The money from the game...?" Meixiu mumbled.

"Don't you want to go to school, Meixiu? You'll still get to see Yu Rou if you do." Yuan asked her.

After pondering for a moment, Meixiu said, "I... don't really want to go to school if I am being honest. It's a musical school filled with talented musicians but I can't even play a single instrument, making me feel out of place. And while there are classes not related to music, I learned these things years ago when I was a child. The only reason I went to school was because of Sister Rou."

"If you don't want to go to school, there is really nothing I can do. Since that's the case, let's play Cultivation Online together until you find something you want to do." Yuan said to her after a moment of silence.

"Okay." Meixiu nodded.

Half an hour later, Doctor Wang appeared before their doorsteps and knocked on the door.

"Oh, Meixiu. I guess this is the right place since you're here." Doctor Wang greeted her with a smile.

"May I come inside the apartment and see the Young Master?" Doctor Wang then asked.

Meixiu nodded.

"Young Master, how are you feeling?" Doctor Wang asked after entering his room.

"Doctor Wang, you can stop addressing me as Young Master now that I am no longer with the Yu Family," Yuan said to him.

"But I have been calling you 'Young Master' for almost ten years now. It's going to be awkward for me to suddenly change it."

"I guess whatever makes you feel more comfortable." Yuan then said.

"Thank you, Young Master. Anyways, I have heard about your situation from the Young Lady and I really don't know what to say..." Doctor Wang sighed, his gaze on Yuan a pitiful one.

"The Yu Family... what are they thinking, disowning their own son, not to mention the condition you're in... I have been speechless ever since I learned about it. When I told my granddaughter about it, she even bawled her eyes out for an hour straight." Doctor Wang shook his head.

After all, what kind of parents would throw away their disabled son out like trash because he didn't want to work for them?

Chapter 286 - Minimal Price

"Don't worry, Young Master. Even if the Yu Family abandoned you, I will never abandon my patients." Doctor Wang said in a sincere voice.

"Thank you, Doctor Wang, but just your feelings are enough," Yuan said to him after hearing his words.

"Young Master, you do not have a choice in this. I had sworn to myself many years ago that I will never leave my patients' side until they're healed or take their very last breath trying." Doctor Wang said in a stern voice.

And he continued, "Even though I won't get a penny out of the Yu Family by doing this, it has never been about the money. I— your fans— we all want to see your recovery and await the day you can stand on the stage again with an instrument by your side. Of course, now that you are no longer with the Yu Family, you won't need to play the instrument. However, I still hope for that day."

"I..." Yuan opened his mouth but realized he was left speechless by Doctor Wang's words.

"You don't have to say anything, Young Master. Furthermore, I will still do your monthly check-up at the hospital like always and you won't have to pay a single penny for it." Doctor Wang said.

"No, I cannot let you do that, Doctor Wang. I will pay you for the treatments." Yuan quickly said.

"No offense, Young Master, but where are you going to get the fund? Unless your parents left you a fortune before disowning you, I cannot see how you'll be able to afford it."

"I may not have the money now but I will definitely have it soon."

Doctor Wang raised his eyebrows after hearing Yuan's confident voice, and he said in a defeated voice, "I understand... but I won't ask you for it."

Sometime later, Doctor Wang began his check-up on Yuan.

"Young Master, your muscles have gotten more robust and refined since I last saw you... again..." Doctor Wang said to him in a voice of disbelief afterward, as he has never seen anything like this before despite decades of experience in the field.

What exactly is Yuan's body made of that allows him to grow such a refined body just from eating nothing but soup every day when even normal, functioning people would require a healthy diet and continuous exercise to maintain it, much less obtain it?

Just like his unknown illness, his physique is a phenomenon of its own.

After putting away his tools, Doctor Wang asked, "Young Master, how has your appetite been lately? Are three bowls of soup enough or do you think we should increase it?"

Doctor Wang also wanted to see if increasing his food intake would help strengthen his body even more.

"Hmm... I think I can handle four— even five bowls of soup now. Meixiu, what do you think? Is that too much for you?" Yuan asked her since she's the one who will be cooking it.

"It's okay. I can handle it." Meixiu said.

"Then let's try 4 bowls of soup for one week to see if you can handle 5." Doctor Wang said.

"I understand," Yuan said.

"Anyways, as always, your body is perfectly healthy, Young Master. But if anything ever happens or you feel even the slightest discomfort, call my

phone immediately."

"I will. Thank you again, Doctor Wang."

Doctor Wang left the apartment shortly after.

"Yuan, before we play, let me look at the information Sister Rou sent me so I know how to sell the treasure," Meixiu said to him after locking the door.

"Okay. I will wait for you inside the game. You're in the backyard of my living quarters, right?"

"Yes."

"Alright. I'll see you inside the game!" Yuan said to her before going inside the game.

After helping Yuan log into the game, Meixiu went into her room and pulled out a thin laptop that she uses mostly for work.

Once she found Yu Rou's message in the form of an email, Meixiu began reading about the website and how the place functions.

[The website is called COPlayerAuctions.]

[The account's information is...]

[In order to sell an item you must...]

[Once you submit your item...]

[After they confirm the item in-game...]

[Make sure you use a VPN when you're on the website just in case people want to track you down...]

[The bank information is...]

Meixiu read through the message multiple times just in case she missed anything before going to the website COPlayerAuctions.

On the front page, after logging into a VPN and the account Yu Rou provided for her, Meixiu clicked on the large 'sell' that was right next to 'buy' and 'trade' and proceeded to type the information that Yuan had given her right before entering the game.

[Type: Auction]

[Item name: Frozen Jade Zither]

[Grade: Divine]

[Quality: Low]

[Type of treasure: Instrument]

[Continent: Eastern Continent]

[Time limit: 7 days]

[Minimal Price: —]

Meixiu stopped at the minimal price since she was never given a number, and she pondered how much a Divine-grade treasure would be worth before giving up and searching the site for comparison.

Of course, nobody was selling anything even close to Divine-grade with the vast majority of them selling common items and Spirit-grade treasures.

"These people are selling Spirit-grade treasures for thousands of dollars?" Meixiu's eyes widened with surprise when she saw the players asking for thousands of dollars for a single Spirit-grade treasure.

However, even more shocking was the auction place where there were treasures being sold for tens of thousands of dollars.

After looking around the website for a couple of minutes, the highest grade of treasure she could find was an Earth-grade treasure that was being auctioned for a whopping 500,000 dollars— half a million dollars!

"Earth-grade... According to Yuan, that's two grades below the Divine-grade, yet it's already being sold at such an astronomical price."

After pondering for some time, Meixiu finally decided on a price and typed it into the website.

[Minimal Price: 100,000,000]

One normally wouldn't dare to put such an astronomical number price tag fearing that nobody would bid, but Meixiu was used to seeing big numbers from working with the Yu Family, hence why she clicked 'sent for review' without hesitation.

OceanofPDF.com

Chapter 287 - Fake Request

A few seconds after Meixiu sent her auction request through the website, a staff member saw her request due to the request being tagged 'urgent' because of the information Meixiu had put in.

"Hmm... What do we have here... What?! Divine-grade treasure?!" The staff's initial thoughts after seeing Meixiu's auction request was that it must have been done by a troll since nobody has sold a treasure higher than Earth-grade since the game went online.

However, no matter how ridiculous the request seemed, it was his job to look through it.

"A Divine-grade zither... An instrument... Eastern Continent... Minimal price... 100 million?!" The staff's eyes bulged at the ridiculous price. However, if this was truly a Divine-grade treasure, that amount of money would be more justified.

"This request is obviously a troll, yet I am somehow hesitant to decline it for some reason..." The staff was feeling perplexed about this situation.

"This account is not only an anonymous account but also a new one, and it's selling a Divine-grade treasure that no player would have at this stage of the game... No, there's actually one person who could possibly have a Divine-grade treasure— Player Yuan. However, would he really sell his Divine-grade treasure so soon after getting it? Even if it's just an instrument, one wouldn't sell such a treasure unless they have something even more valuable..."

"People say he's rich since he isn't swayed by the countless offers to reveal his identity, so he doesn't need the money... Yet here he is, selling a Divine-

grade treasure. Yeah, right."

Despite his suspicion that the request was fake, the staff didn't decline it immediately and sent a note to the anonymous requester.

[If you really have a Divine-grade treasure for sale, you wouldn't mind depositing 10,000 dollars first as a precaution if it turns out to be fake and a waste of our time, right? Once we determine that you really have a Divine-grade treasure, we will not only return the 10,000 but even double it. If you don't respond within 24 hours, we will deem this request to be fake and delete it as well as ban your account.]

Meanwhile, halfway across the world, Meixiu received a notification just as she prepared to close her laptop.

After reading the staff's note, Meixiu responded with a single word.

[Okay.]

Ding!

The staff responded half a minute later with the instructions.

Meixiu followed the staff's instructions and deposited 10,000 dollars on the site without hesitation.

[I have confirmed your deposit. Please tell us the city closest to your location so we can estimate how long it'll take for the nearest staff member to arrive for a meeting.]

The staff behind the computer typed this sentence with trembling hands since he didn't expect this supposed troll account to immediately deposit 10,000 dollars without hesitation.

'Either this troll has a lot of money and is willing to spend 10,000 dollars to waste our time or he's the real deal!' The staff swallowed nervously as he pressed enter to send the message to Meixiu.

Ding!

[I will let you know the location later.]

Since Meixiu doesn't know anything about the game nor its location, she couldn't give the staff a location until she speaks with Yuan.

However, the staff member responding to Meixiu was shaking behind the desk in nervousness.

"Later?! Why the hell are you making me wait?!" He couldn't help but curse out loud, causing his co-workers to look at him.

"What are you shouting about?" They asked him.

"Come look at this!" The staff pointed at his screen.

The workers gathered around him and read his conversation with Meixiu.

"What the? Divine-grade treasure? Is this for real?"

"Fuck! This must either be a troll or Player Yuan!"

"If this is a troll, he's one rich troll to spend 10,000 dollars just to waste our time."

"Right?! I was thinking the same!" The staff said.

"But what if it's real?"

"Then this auction will become the biggest auction on our website to date even if we include the auctions from the old games."

"Too bad we won't know until he gives us a location and we meet to confirm the treasure."

"Should we notify the headquarters or the higher up about this?"

"Not until we verify the treasure."

While the staff waited nervously for Meixiu to give them the location, Meixiu herself laid on the bed with the helmet on her head.

However, she didn't immediately enter Cultivation Online. Instead, she laid there with a nervous expression on her face.

"I am going to see Yuan... And he's going to be completely healthy inside the game..." Meixiu swallowed nervously at this thought.

After lying there for a couple of minutes, Meixiu pressed the power button on the side of the helmet and entered Cultivation Online.

Meanwhile, inside the game, Yuan said to Feng Yuxiang the moment he entered the game.

"Feng Feng, come out. I'll feed you my blood now."

Feng Yuxiang immediately appeared before him with her eyes glistening with anticipation.

Yuan retrieved the Starry Abyss and quickly slit an opening on his finger.

"Here you—"

Before Yuan could even finish his sentence, Feng Yuxiang threw herself at him and immediately began sucking his finger like she was a vampire starved of blood.

Xiao Hua also appeared just in case Feng Yuxiang wouldn't be able to stop sucking Yuan's blood by herself.

"Aaaahh... How refreshing..." Feng Yuxiang stopped sucking a few minutes later, releasing a satisfied sigh afterward.

"Are you okay, Young Master? Should I stop now?" Feng Yuxiang looked at him with her eyes glowing a beautiful golden color.

"I'm okay. You can drink some more." Yuan nodded.

"Thank you, Young Master!" Feng Yuxiang did not hesitate to place Yuan's finger back into her mouth and continued sucking his blood.

A few more minutes later, to Yuan's surprise, Feng Yuxiang's hair suddenly changed colors, turning scarlet red with a fiery feeling to it!

"Aaaaaah~" Feng Yuxiang released Yuan's finger from her mouth after another moment, completely oblivious to the changes in her appearance.

Chapter 288 - Meeting Meixiu

"Feng Feng... Your hair..." Yuan pointed at her scarlet hair with his finger that was still wet with Feng Yuxiang's saliva.

"Eh? What about my hair?" Feng Yuxiang looked at her hair.

"What! It turned red!" Feng Yuxiang exclaimed in a surprised voice after realizing this, almost like it was completely unexpected.

"Is that supposed to happen?" Yuan asked her a moment later.

"Yes! This means your blood is really working and suppressing the curse on me!" Feng Yuxiang nodded her head.

"What about your powers, phoenix?" Xiao Hua asked her.

"Unfortunately, it's still completely sealed. However, I have no doubt that if I continue sucking the Young Master's blood, my curse will sooner or later disappear entirely! I have lived over 10,000 years like this! A few more years—even a few decades won't affect me!" Feng Yuxiang spoke with enthusiasm in her tone.

Once Feng Yuxiang stopped sucking Yuan's blood for a minute, the small opening on his finger closed by itself within seconds.

As for Feng Yuxiang, her golden eyes and scarlet hair also returned to normal shortly after.

"Oh, right. Meixiu will be joining us today," Yuan said to them.

"Meixiu? Really?" Feng Yuxiang seemed happy to see Meixiu again.

"Yes, she should be here any minute—"

Yuan suddenly stopped speaking when he noticed a familiar presence appear in his backyard out of the blue.

Even though he doesn't have his Divine Sense activated, after becoming a Spirit Master, he gained the ability to naturally detect others' presence as long as they were close enough and he wasn't too distracted.

"I think that's her," Yuan said in an excited voice before he stood up and walked towards the backyard.

Once he reached the door that led to the backyard, Yuan took a deep breath and opened the door.

Meanwhile, Meixiu, who had just entered the game, turned around when she heard some noises coming from behind her.

"You are..."

Meixiu's eyes widened with shock when she saw the handsome young man standing at the opened door a few meters away from her.

Although his appearance slightly differed from his body in the real world, Meixiu could instantly tell that she was looking at Yuan at glance.

Even though it has been at least a decade since she last saw him in such a perfect and healthy appearance, Meixiu would never forget Yuan's lively face and unique charisma, especially his clear eyes that radiated with innocence.

Meanwhile, in Yuan's eyes, other than her maid uniform and height, Meixiu looked almost no different from how he remembered her. Long silky black hair, a neatly cut and even bang, crystal clear black eyes, and her unique characteristic— a naturally bored-looking face.

Of course, she was much taller than the child from back then, not to mention her beautiful face that would not lose to even the top beauties in

the Dragon Essence Temple such as Xuan Wuhan or Fei Yuyan, perhaps even beating them in certain criteria.

"Yu...Yuan?" Meixiu mumbled his name in a dazed voice.

"It's been a while, Meixiu. You're even taller than Yu Rou now." Yuan slowly approached her with a handsome smile on his face.

"..."

Almost as though she didn't know what to do or how to react, Meixiu remained standing there like a frozen statue until Yuan was practically standing in front of her.

"I have always wanted to do this..."

Yuan suddenly opened his arms wide and embraced Meixiu before speaking in a gentle voice, "Thank you, Meixiu... for taking care of Yu Rou and me for all these years..."

"Yuan..."

Two streams of glistening tears suddenly appeared on Meixiu's beautiful face, quickly staining Yuan's shoulders.

Meixiu slowly lifted her arms a moment later before returning Yuan's hug, yet she didn't say anything, only embracing Yuan in silence.

"They seem very close with each other." Feng Yuxiang mumbled in a mosquito-like voice as she peeked her head from inside the house and watched them hug each other.

"..."

Xiao Hua also did the same without moving her mouth, watching their reunion in silence.

Sometime later, Yuan removed his arms from her and stepped back.

"Meixiu, let me introduce you to my friends first," Yuan said to her before turning around to look at the opened door.

"Xiao Hua, Feng Feng, come here," he said to them.

A few moments later, the two of them left the house and stood beside Yuan.

"You already know her but this is Feng Yuxiang, also known as Feng Feng, and she's a phoenix." Yuan pointed to Feng Feng and said.

He then pointed to Xiao Hua and said, "This is Xiao Hua, my first friend in this world, and she's like another little sister to me."

Xiao Hua nodded her head at Meixiu after the introduction.

"Now let me introduce you to Meixiu." Yuan said, and he continued, "Xiao Hua, Feng Feng, this is Meixiu, who is like a family member to me since we've always been near each other since childhood. And just like Yu Rou, she has helped me tremendously throughout the years. It wouldn't be an exaggeration even if I said that I wouldn't be alive now if it were not for the two of them and their support for me."

"Alongside Yu Rou, she's one of the most important people in my life."

"I've said this before, but any friends of the Young Master are also a friend of mine! If you ever need help, don't hesitate to come to me for help!" Feng Yuxiang said to Meixiu.

"Xiao Hua too."

"It's nice to meet all of you." Meixiu nodded.

And then she focused her gaze on Yuan.

'Especially you, Yuan...' A rare smile appeared on Meixiu's face as she stared at his handsome face.

Sometime later, they returned to the house and took a seat on the couches in the living room.

"Let me brew some tea for us." Feng Yuxiang said to them before going to the kitchen.

Meanwhile, Yuan began telling Meixiu about his experience in cultivation, starting from the beginning when he first met with Xiao Hua to how he got this point.

OceanofPDF.com

Chapter 289 - Long Chen City

"So during the Inner Court Disciple Examination, I fought the Jade Frog for the second time, and I—"

"Young Master, I'm back with the tea." Feng Yuxiang returned to the living room an hour after she left to make tea, but since Yuan was too absorbed in telling Meixiu his experience with the game, he didn't notice how much time had passed.

It was the same for Meixiu, who was simply too absorbed in Yuan's story and his liveliness that made her forget about the passage of time.

"Thank you, Feng Feng," Yuan said to her as she poured the tea for them.

"Hm? What kind of tea is this? It's all red." Yuan asked her after picking up the teacup and noticing the red water that resembled watered-down blood.

"It's tea made from a valuable type of herb that can boost one's mental strength. People call it Crimson Lotus Tea." Feng Yuxiang said.

Yuan proceeded to take a sip of this Crimson Lotus Tea after blowing it a few times.

"Oh? It's sweet." Yuan mumbled in a surprised voice afterward, and he chugged the entire cup a moment later.

Ding!

[You have gained the following effect from consuming Crimson Lotus Tea]

[Mental Strength +1,500]

Meixiu also gained the same stats after drinking the tea.

"Feng Feng, I drank a tea called Phoenix Blossom Tea before and it increased my Soul Strength. Is there a limit to how much benefit one can obtain from drinking tea or consuming treasures in general?" Yuan asked her afterward.

Feng Yuxiang nodded, "Of course there is a limit, Young Master. If one can obtain strength from drinking the same tea every day, there wouldn't be so many cultivators risking their lives in the cultivation world."

"When it comes to treasures that can be consumed, especially teas, there is a limit to how much benefit one can gain before their body stops benefitting from that specific treasure no matter how much more they consume."

"Most treasures will only work once before one can no longer benefit from them. As for treasures that can benefit you multiple times, they are too few and far between." Feng Yuxiang explained to him.

"I see..." Yuan mumbled.

"Anyways, I would still drink this tea even if I don't gain anything from it." Yuan extended his cup and continued, "Can I get another cup?"

"Of course you can." Feng Yuxiang poured him another cup.

Sometime later, Meixiu said, "Yuan, I have created an auction request for the Frozen Jade Zither, but it still needs to be verified. The staff asked me to give them my closest city so they can meet up and look at the treasure."

Yuan nodded and turned to ask Feng Yuxiang, "Where's the nearest city?"

"That would be Long Chen City, which was obviously named after the Dragon Essence Temple's Founder. And it's about 20 miles from this place." Feng Yuxiang said.

"I see... Since there's still some time left before the Mystic Realm, let's try to sell the treasure." Yuan said to Meixiu.

"Wait a second, Young Master. What are you trying to sell? The Frozen Jade Zither?" Feng Yuxiang asked him.

Yuan nodded, "That's right. I don't really have a need for it since I already have the Soul Ensnaring Zither."

"Why? Do you need money for something?"

"Yes."

"If you want, I can give you some..." Feng Yuxiang said, even reaching for her spatial ring.

"It's fine, Feng Feng. I can just sell the zither. And you should already know by now that I don't like having everything handed to me without giving any effort myself."

"I understand..." Feng Yuxiang nodded in a somewhat dejected manner.

"I need to let the Seniors know that I'll be leaving the sect before I actually leave."

A few moments later, Yuan called Elder Xuan with his communication jade slip.

"Hello? Disciple Yuan?"

"Senior Xuan, I would like to leave the sect for a bit."

"Leaving the sect? Where are you going? The Mystic Realm is just three days away!"

"I have some business at Long Chen City with my friend. It shouldn't take long— probably a couple of hours."

"Oh, if it's just Long Chen City, go ahead. I would accompany you, but I am extremely busy right now and the other elders as well so you'll have to go alone. The Dragon Essence Temple is also closely associated with Long Chen City so there shouldn't be any problems if you go there, especially if

you're wearing the sect's uniform. However, if anything happens, don't be afraid to use the life-saving treasures we gave you." Elder Xuan said to him.

"I understand. Thank you, Senior Xuan."

"Stay safe."

After hanging up, Yuan said to Meixiu, "You can tell them to meet us in Long Chen City."

Meixiu nodded her head before logging off and going to her laptop.

[Long Chen City.]

Ding!

A response quickly returned ten seconds later.

[We can be at the northern gates within half an hour. Are you able to make it there within that time?]

[Yes.]

[Then we will see you there in half an hour.]

"I'm going online to meet the client!" The staff said after closing the chat.

"Do you want us to come with you just in case?"

"No, I can do this by myself. I'm not going to let you guys take my credits."

"Hahaha! I bet you it's going to be a troll, anyways!"

"You can keep the credits! If you meet Player Yuan, don't forget to ask for his autograph! Hahaha!"

Despite his co-workers laughing at him, the man who accepted Meixiu's auction request went to the gaming room that was located at the same building he worked at.

"Luckily for me, I didn't leave Long Chen City after failing to learn more about Player Yuan at the Dragon Essence Temple." The man sighed to himself before lying on one of the ten available beds there and wearing the helmet on his head.

"Let's hope this won't be a waste of time..." he sighed before pressing the power button and entering the game.

Chapter 290 - Verifying The Treasure

After returning to the game, Meixiu told Yuan about the situation.

"The northern entrance at Long Chen City in 30 minutes, huh. We can arrive in a few minutes if we fly there." Yuan nodded.

"However, since we're going to be meeting with a player, we should hide our identities."

Yuan turned to look at Xiao Hua and asked her, "Xiao Hua, do you have another mask like the Black Jade Mask to give to Meixiu?"

Xiao Hua shook her head.

"If you need a mask, I have one, Young Master." Feng Yuxiang said.

"Really? Do you think we can borrow it for now?"

Feng Yuxiang nodded and pulled out a red mask from her spatial ring a moment later.

Unlike the Black Jade Mask that was large enough to cover one's face, this mask only covered the upper half of one's face, leaving the chin and mouth exposed. Furthermore, it was red in color with some gold outlines.

"You can keep it. I tried selling it years ago but eventually gave up and tossed it with the other things I couldn't sell." Feng Yuxiang handed it to Meixiu in a casual manner.

[Crimson Mask]

[Grade: Spirit]

[Quality: High]

[Mental Strength Required: 1,000]

[Description: A beautiful red mask that increases your Mental Defense by 2,000]

"Thank you, Feng Feng." Meixiu accepted the mask.

"Even though it's a treasure and you don't have any cultivation, you should be able to wear it after consuming the Crimson Lotus Tea." Feng Yuxiang said.

And she continued, "Speaking of your cultivation, do you intend on staying as a mortal forever, or are you going to start cultivating soon?"

"I..." Meixiu turned to look at Yuan for help since she didn't know anything about cultivators.

"I think you should become a cultivator, Meixiu. This way, you can protect yourself in this world that's full of unreasonable people." Yuan said to her.

"I will protect you whenever we're together, but there may be times when we're separated."

Meixiu nodded, "Okay, I will become a cultivator."

A few moments later, Yuan retrieved the flying sword and said to Meixiu, "I can carry you."

"Eh?" Meixiu's eyes widened after hearing Yuan's words. He wants to carry her?

"Ahem!" Feng Yuxiang suddenly cleared her throat before speaking, "If you want, I can carry you instead..."

Meixiu nodded and said to Yuan in a somewhat bashful voice "I'm sorry, but I don't think I'm ready to be carried by you... yet..."

Yuan didn't understand what she meant by that but nodded his head regardless.

"Okay, I'll leave Meixiu to you, Feng Feng."

Sometime later, Yuan jumped on the flying sword and flew towards the sky with Xiao Hua.

Feng Yuxiang followed them after carrying Meixiu like before.

"Xiao Hua, you mentioned that some people are able to fly before Spirit Grandmaster. Do you think I can learn to fly now that I am a Spirit Master?" Yuan asked her while they flew toward Long Chen City slowly.

"In order to fly, Brother Yuan must learn Qi Manifestation to a certain extent, where you release the spiritual energy inside your Dantian outside and control the gravity around you."

"How does one learn Qi Manifestation? Is there a technique for it?" Yuan asked.

"No, Qi Manifestation is something one must learn by themselves."

"I see... I will try it later." Yuan nodded.

Yuan and the others descended from the sky a few minutes later once they could see Long Chen City in the distance.

Once they returned to the ground, they walked a few hundred meters until they could see the entrance to the city.

"This is the northern entrance, right?" Yuan asked Feng Yuxiang.

"That's correct."

Thus, they began waiting for the staff member from the auction site.

"Xiao Hua, Feng Feng, can you hide for now? There's a chance the players can use you to identify us." Meixiu suddenly said to them.

"Oh, Meixiu's right. We're trying to hide our identity." Yuan agreed with Meixiu.

Xiao Hua and Feng Yuxiang nodded their heads and disappeared by returning to Yuan's body.

"Wow..." Meixiu mumbled in a dazed voice after seeing this scene.

About ten minutes later, they could see a skinny man in his late twenties wearing plain clothes approaching them with a nervous smile on his face.

"Hello... I am a staff member at COPlayerAuctions... Are you the ones selling the Frozen Jade Zither?" The staff said in a nervous voice, mostly because of the invisible but powerful aura coming from Yuan, who stood there menacingly in the staff's eyes.

'A black mask... Could it really be? Player Yuan?' The staff swallowed nervously at this thought.

"We are," Meixiu said.

"Hello, esteemed guests. You can call me Lee, and I am here to verify the Frozen Jade Zither's legitimacy before we begin the auction."

"How are you going to verify the treasure?" Meixiu then asked.

"I just need to verify the grade of the treasure. However, before we do that, let's go somewhere more private. There are too many people around here."

Yuan and Meixiu then followed this person named Lee into the woodland behind them.

A few minutes later, they stopped.

"Now, if you could, please take out the Frozen Jade Zither. I just need to verify the grade and quality to make sure it's real. Also, you can rest

assured that I won't touch the treasure until we officially begin the auction with your approval," said Lee.

Meixiu turned to look at Yuan since he was the one who had the treasure.

After nodding his head, Yuan retrieved the Frozen Jade Zither from his spatial ring and held it in front of Lee.

"This is..." Lee felt the chills throughout his body the moment the Frozen Jade Zither appeared, and the atmosphere in that area also became colder.

Lee narrowed his eyes at the zither.

[Frozen Jade Zither]

[Grade: Divine]

[Quality: Low]

[Mental Strength Requirement: 35,000]

[Soul Strength Requirement: 50,000]

[Description: Can create music notes that will freeze one's heart and soul]

"R-Real... It's really a Divine-grade treasure!" Lee subconsciously took a few steps with a shocked expression on his face after seeing the zither's stats.

Chapter 291 - The Treasure Is Real!

'I-It's real! Since this Divine-grade treasure is real, there's a very good chance this person in the black mask is...' Lee turned to look at Yuan with a shocked face, looking like he'd just received a revelation.

"Have you verified it?" Meixiu suddenly asked him.

"Y-Yes! I have! Thank you very much!" Lee quickly responded in a startled manner.

"What should we do from this point?" Meixiu then asked.

Lee swallowed heavily and took a deep breath to calm himself down before speaking, "Before we continue, I have a few questions for you. The questions, of course, are optional, so you don't have to answer them if you don't want to. However, it would be in your and the bidders' best interest that they have more information on the treasure."

Meixiu nodded her head.

"Ahem! First and foremost, where did you obtain this treasure? A brief background is fine as well." Lee then asked.

"It was obtained from an event," Yuan responded.

'What a young voice! Could Player Yuan be a youngster?!' Lee cried inwardly after hearing Yuan's voice.

Lee swallowed nervously and continued to ask, "I-If you don't mind me asking, was it obtained from the Zither Competition that occurred

recently?"

Lee really wanted to straight out ask Yuan if he was really Player Yuan but due to their anonymous account, such a question would break the terms of service, as anonymous accounts are called anonymous for a reason. With that being said, as long as he doesn't ask questions that directly ask for their identity, it would be fine.

"It's..."

Yuan opened his mouth to speak, but Meixiu quickly interrupted, "You may move onto the next question."

Lee nodded and immediately asked the next question without any complaints, "Then let's continue to the auction itself."

"You requested for the minimum bid to start at 100 million dollars, is that correct?"

"Yes," Meixiu said.

"The time limit for the auction will be 7 days, is that correct?"

"Yes."

"Do you have any special requests for the auction?"

"No."

"Do you accept trades, or do you want money only?"

"Money only."

Meixiu answered Lee's questions as straightforwardly as possible.

"Thank you. Now, allow me to explain to you how the auction will proceed since this appears to be your first time working with us." Lee said.

And he continued, "Once we get your approval and receive the treasure, we will immediately begin the auction. There is normally a line based on a first come first serve rule, but we will make an exception this time and give your treasure priority due to its value."

"At the end of the auction, the highest bidder will pay the money to the website, which will be transferred to your account after deducting the service fees, which is 10 percent of the total amount. Once we transfer the money to your account, we will hand over the treasure to the buyer. Do you have any questions so far?"

Meixiu pondered for a moment before speaking, "Are there any assurances for us? What if you take the treasure and run with it?"

"I understand your worries, esteemed guest, and while I personally don't have anything to reassure you, I do hope the website's reputation that has been built upon decades of trust will reassure you to some extent."

"Our website, COPlayerAuctions, has over ten million successful transactions since its foundation with millions of dollars transferred every day. In total, our website has earned tens of billions of dollars for the players. Furthermore, all of this was done without a single fraud transaction. While we have been accused of stealing before by people for clout and money, plenty of times at that, we've been proven innocent for every single case."

Lee explained their website's history and its trustworthiness.

"If that's not enough to convince you to trust us, we will even deposit the requested minimal amount— 100,000,000 dollars into your account temporarily. Of course, you won't be able to withdraw it until after the bid."

"What do you think?"

After pondering for a moment, Meixiu nodded, "Okay."

"Great! Can you give me about 30— no, 15 minutes to prepare things? I will log off and approve of the auction as well as notify the higher

management so they can transfer the money to your account. Once that's done, I will return for the treasure."

"Okay."

"Thank you!"

Lee logged off a few seconds later.

Yuan and Meixiu also logged off shortly after.

Meanwhile, after logging off, Lee removed the console from his head before rushing out of the room with an ecstatic look on his face.

"It's real! It's real! It's really real! Hahaha!" Lee laughed out loud as he ran in the hallways, quickly returning to his workroom.

Bang!

Lee opened the door with force and shouted loudly, "It's real! The treasure is real! I verified it! It's really a Divine-grade treasure! And the person selling it was most likely Player Yuan!"

Everybody in the room stopped whatever they were doing and turned to look at him with dumbfounded expressions on their faces.

"W-Wait a second... Are you serious? The auction request is real?" One of Lee's co-workers asked him in a trembling voice.

"Yes! I will explain it later since I need to call upper management asap!"

Lee immediately went to pick up his phone and dialed a number.

"Hello, this is Lee. My staff code is 19X6SE... This call is regarding one of the auction requests I had received recently..."

Lee proceeded to explain to the upper management about the Frozen Jade Zither, which immediately caused a stir within the upper management.

"Are you sure?! That Player Yuan might be selling his Divine-grade treasure?!"

"Yes, I am fairly certain that was Player Yuan. His appearance and black mask matched the descriptions from those who saw him at the Zither Competition!" Lee said with confidence in his voice.

"This is huge news! And this auction... we're going to make sure the entire world knows of it! Don't mess this up, Lee! Your head is on the line here!"

"Yessir!" Lee said before hanging up and going to his computer to speak with Meixiu through the website.

Chapter 292 - Announcing The Auction To The World

[Hello, this is Lee. I have just spoken with the upper management, and they have agreed to proceed with the auction. 100 million dollars should be deposited into your account within the next few minutes.]

After sitting in front of her laptop for a couple of minutes after she logged off from Cultivation Online, Meixiu received this message from Lee on COPlayerAuctions.

And just like Lee had promised, 100 million dollars was added to her account's wallet.

[I have received the money.] Meixiu typed.

[Great, then we may proceed with the auction. Once again, the bid will last for 7 days, and you will receive the money within 48 hours after the auction with the service fees already deducted, which is 10 percent of the total amount.]

[I understand.]

[Then I will meet you inside the game in five minutes to retrieve the treasure from you.]

[Okay.]

After her message, Meixiu went to explain to Yuan the situation.

"They have deposited 100 million dollars into our account, but we cannot withdraw it until after the auction."

"That's fine."

They returned to Cultivation Online a few minutes later and waited for Lee to log in.

Once Lee also returned to the game, Yuan handed the Frozen Jade Zither to Lee, who immediately tossed it inside his spatial ring.

Even though spatial rings are expensive, every staff member working for the website was given one so that they can safely secure the treasures given to them.

"Thank you for trusting us. We will not disappoint you. The auction will begin tomorrow after we advertise the auction to the world," said Lee to them before logging off the game.

"What should we do now?" Meixiu asked Yuan afterward.

"Want to hang out at Long Chen City for the rest of the day? We can eat food and look at stores together. Perhaps we can even look for a cultivation technique for you." Yuan said.

"Eat food and look at stores?" Meixiu mumbled.

'Isn't this basically a date?' she wondered inwardly.

After a moment of silence, she spoke, "But I already have a cultivation technique. It was given to me when I first started."

"Oh, the basic cultivation technique? I have it as well but I never used it since I have a better one. And if you have a better cultivation technique, you will be able to cultivate faster." Yuan said.

"I understand." Meixiu nodded.

Feng Yuxiang's voice suddenly resounded, "I would give you a cultivation technique but I don't have any, and as a Divine Beast, we don't really need any cultivation techniques since we absorb the spiritual energy in the air

naturally. Of course, having one would help, but it won't help me since I cannot increase my cultivation base because of the curse."

"Xiao Hua, what about our cultivation technique? Do you think Meixiu can learn it as well?" Yuan then asked her.

"If Sister Meixiu agrees to help Xiao Hua with her legacy," she replied.

"What do you think, Meixiu?" Yuan then asked her.

"Okay." Meixiu nodded.

"Great! Thank you, Xiao Hua!"

Sometime later, Yuan and Meixiu made their way towards Long Chen City, and since Yuan was wearing his Inner Court uniform, the guards allowed them to enter the city without paying any fees, even greeting them with respect.

Meanwhile, in the outside world, the world was taken by surprise when COPlayerAuctions, the leading market for Cultivation Online, announced their latest high-profile auction.

"What?! There's going to be a Divine-grade treasure being auctioned off later?! Impossible!"

"It's real! The website made an official announcement just a few minutes ago! They have also verified the treasure!"

"Heavens! Who could possibly sell a Divine-grade treasure at this stage of the game, much less have one?!"

"I can only think of Player Yuan when it comes to having Divine-grade treasures!"

"Could this treasure be one of Player Yuan's treasures?!"

"That's very likely, but the website didn't mention Player Yuan's name, which is odd considering that it would definitely bring more attention to the

auction if they attached his name to the auction!"

"Who knows, really. We can only wait for more information about this auction."

While the news spread from the peoples' mouth, it was also mentioned on the news and the internet, especially Player Yuan's dedicated forums which blew up with speculations regarding this auction being related to Player Yuan.

[Player Yuan might have auctioned off his Divine-grade treasure!]

[There's a high possibility that this treasure belongs to Player Yuan!]

[The auction will start at a whopping 100 million dollars, becoming one of the most expensive auctions right off the bat!]

While the internet raged with excitement, the Legacy and wealthy families out there began preparing their money for the treasure.

"What a damn pity this Divine-grade treasure is only an instrument! If it was a sword or any other weapon, I wouldn't be so hesitant about joining the auction!"

"Then should we ignore this auction?"

"No, let's still try to buy it. Who knows when such an opportunity might arrive again. However, we won't go all out."

Many people had the same sentiment towards this auction since the Divine-grade treasure was only an instrument and not an actual weapon.

However, not every family had the same opinion. In fact, it was the complete opposite for wealthy families with a musical background. In their eyes, the zither, one of the most popular instruments ever since Player Yuan's debut at the Zither Competition, was akin to the holy grail, something they must get their hands on!

Thus, it was a chaotic scene across the world for most musical families and companies.

Meanwhile, at the Yu Family, Tang Lee slammed the table with an excited expression on her face after hearing about the auction, and she said, "We must get our hands on this Divine-grade zither!"

Yu Yong nodded his head in agreement and said, "Not only will this benefit our players since most of them use the zither but we might even get to know this Player Yuan's identity if we manage to buy it."

"I will call our accountants right now. We can't let the other families get their hands on this treasure!" Tang Lee immediately pulled out her cell phone and began calling people.

OceanofPDF.com

Chapter 293 - We Should Do This More Often

After speaking with a dozen accountants, Tang Lee closed her phone and said to Yu Yong, "We're ready to bid whenever the auction begins."

"Good. This is going to be a fierce fight. The other families won't let us obtain the zither easily since whichever family gets it will have a massive advantage over the other families." Yu Yong nodded.

Meanwhile, similar situations played out in the other musical families.

"We must get our hands on this Frozen Jade Zither! We cannot let the Yu Family get it or our current advantage will instantly disappear!"

"The Yu Family may be rich, but their resources are not unlimited, especially not after what happened to their golden goose!"

Wealthy families around the world prepared their bank for the upcoming auction whilst the common folks waited for the spectacle.

Meanwhile, inside Cultivation Online and the Dragon Essence Temple, Elder Shan knocked on Fei Yuyan's doors.

"Master? Do you need something?" Fei Yuyan greeted her at the door, but she found it unusual that Elder Shan would visit her unannounced.

"Here, Disciple Yuan asked me to give this to you." Elder Shan extended her hand with a scroll in her grasp.

"What's this?" Fei Yuyan raised her eyebrows as she accepted the scroll.

"It's the Divine-rank technique the two of you had obtained at the zither competition. Apparently, he's done with it." Elder Shan explained.

"Wait... He's done with it already? How long has it been since the competition? A week?" Feng Yuxiang mumbled in a dazed voice.

"He handed it to me a couple of days ago so it actually took him much shorter than that."

"Unbelievable... I cannot imagine learning a Divine-rank technique in such a short time. His comprehension abilities are simply god-like." Fei Yuyan sighed in a defeated voice, realizing that she will never be at Yuan's level.

"By the way, the last spot for the Mystic Realm... It's Disciple Yuan, isn't it?" Fei Yuyan suddenly asked.

"Is it that obvious?" Elder Shan smiled.

"Of course," she nodded.

"Don't tell anybody about this, though. The Core Disciples won't be happy if they learn that an Inner Court disciple had taken their spot— a new disciple who recently joined, at that." Elder Shan said.

"Don't worry, Master. I won't tell anybody." Fei Yuyan promised.

"Anyways, good luck with the technique. I've got a few more things to do before the Mystic Realm."

"Thank you, Master."

"Don't thank me— thank Disciple Yuan the next time you see him. Maybe even a kiss." Elder Shan chuckled.

"M-Master! Don't make such jokes! It's not funny! We... The two of us live in different worlds. I don't qualify to be with someone like him." Fei Yuyan sighed in a dejected manner.

"..."

Elder Shan didn't expect Fei Yuyan to respond so seriously, leaving her speechless.

After a moment of awkward silence, Elder Shan said, "If you really like him, I don't think it's impossible. You never know—he might even make you his Dao Companion."

"Dao Companion...?" Fei Yuyan stared at Elder Shan with wide eyes filled with surprise.

"Don't underestimate yourself, Disciple Fei. You're one of the Three Graceful Fairies, have some more confidence in yourself. And if you don't ask him, how else are you going to find out?"

"I see... Thank you, Master, for your advice." Fei Yuyan nodded.

Sometime later, Elder Shan left Fei Yuyan's living quarters.

"Disciple romance, huh? If only there was someone like Disciple Yuan during my disciple days..." Elder Shan returned home with a solemn look on her face.

Meanwhile, in Long Chen City, Yuan and Meixiu walked side by side as they strolled through the city.

"Senior Disciple, how about some chicken skewers? It's on me!"

A middle-aged man working by the streets suddenly called out to Disciple Yuan, offering them free food.

Yuan immediately nodded, "Thank you."

"This is the least I can do for the Dragon Essence Temple that has helped our community a lot!" The worker laughed as he handed Yuan two sticks of chicken skewers.

"Here you go." Yuan handed the other chicken skewer to Meixiu.

"Thank you..." Meixiu accepted the chicken skewer.

After eating the skewer, Yuan sighed, "That chicken skewer made me even more hungry. Do you want to sit down and eat some food?"

"Whatever you want to do," Meixiu responded.

Yuan nodded and took her to a random restaurant where they spent the next hour sitting down and eating food.

Inside the restaurant, Yuan displayed his amazing eating abilities to Meixiu who was only slightly surprised by his eating habits.

"The food in this game... the taste is too realistic..." Meixiu was more shocked by how well her tastebuds worked inside the game, almost like she was eating real food.

"Right? This is actually my favorite part about Cultivation Online! I am only limited to soup outside, but in this world, I can eat whatever I want!" Yuan said with a bright smile on his face.

After they finished eating and Yuan paid the tab which was given a discount because of his status as an Inner Court disciple at the Dragon Essence Temple, Yuan and Meixiu continued to wander the city until they eventually found something that would pique their interest and cause them to stop momentarily, almost like two lovers on a date.

As the sky grew darker, Yuan and Meixiu left the city and flew back to the Dragon Essence Temple with the help of Xiao Hua and Feng Yuxiang.

"I had fun today, Meixiu. We should definitely do this more often— just spending our days leisurely." Yuan said to her after they returned to his backyard.

Meixiu nodded with a slightly rosy face that was hidden by the darkness outside, "I had fun too."

"Anyways, before we log off for the night, let's see if Meixiu can learn Heaven's Secret Art." Yuan said to Xiao Hua once they went back into the house.

"Okay." Xiao Hua nodded her small head before taking out her book.

After giving Meixiu some instructions, Yuan sat down in the lotus position with Meixiu sitting right beside him.

However, before she started, Xiao Hua said, "By the way, Sister Meixiu, are you sure you're willing to help Xiao Hua with her legacy? Xiao Hua can only teach you the technique if you agree."

Although she didn't know anything about Xiao Hua's legacy, Meixiu nodded her head.

A few moments later, Xiao Hua began reading her book, quickly filling the room with incomprehensible words, almost like she was mumbling gibberish.

Chapter 294 - Frozen Jade Zither Auction

An hour after Xiao Hua started reading her book, she suddenly closed it and stopped reciting the technique.

"What do you think, Meixiu?" Yuan asked her afterward.

Meixiu shook her head and said, "I didn't understand a thing."

"That's completely expected since it normally takes months, even years to learn a cultivation technique at this level— that is unless you're Brother Yuan, of course." Xiao Hua said.

And she continued, "Although Xiao Hua appreciates Sister Meixiu for agreeing to help Xiao Hua with her legacy, Xiao Hua thinks you should find a more suitable cultivation technique."

"Eh? Shouldn't you give Meixiu some more time to learn the technique? I think it's still too early for her to give up." Yuan said.

However, Xiao Hua shook her head and said, "Xiao Hua can tell. Unlike Brother Yuan, Sister Meixiu was unable to remain focused the entire time. Even if she cannot learn the technique in a few hours like Brother Yuan, she should at least have the ability to remain focused."

"When one cannot remain focused during a certain cultivation technique, it usually means they are not suited for the cultivation technique, so they won't learn it no matter how long they study it." Feng Yuxiang suddenly jumped in.

"I also tried to learn the technique but was unable to focus even slightly so I gave up after a few minutes." Feng Yuxiang shrugged.

"That's because you're a Divine Beast. Only human cultivators are able to learn Xiao Hua's technique," she said.

"What kind of cultivation is it, anyway? I'm kind of interested." Feng Yuxiang said.

However, Xiao Hua shook her head and said, "It's a secret."

"Sorry, Meixiu, but I guess you can only cultivate the basic cultivation technique for now until we find you a more suitable cultivation technique," Yuan said to Meixiu.

"I don't mind," she said in a calm voice.

Sometime later, Yuan and Meixiu logged off the game.

After logging off, Meixiu went to cook dinner while Yuan cultivated in his room.

Once dinner was served, Meixiu went to sleep. As for Yuan, he spent the entire night cultivating like usual.

The following morning, after breakfast, Meixiu took her laptop to Yuan's room and said, "The auction will start in a few minutes."

"How much do you think we'll be able to sell the Frozen Jade Zither for?" Yuan asked her.

"Who knows, but it should be more than enough to support us for a very long time," Meixiu said as she pulled up the website.

The first thing that popped up when she entered the website was the words 'Divine-grade Treasure Auction'. Upon clicking this pop-up, she was immediately taken to the auction.

[Frozen Jade Zither]

[Grade: Divine]

[Quality: Low]

[Type of treasure: Instrument]

[Requirements: 35,000 Mental Strength, 50,000 Soul Strength]

[Description: Obtained from an event]

[Time limit: 7 days]

[Starting Price: 100,000,000]

[Minimal Bid: 100,000]

[Time until auction starts: 14:39]

[Current Bidders: 150,241,777]

"Wow, there are over 150 million people on this page as of this moment," Meixiu mumbled as she watched the number increase by thousands with every passing second.

However, despite the massive amount of 'bidders' there, the majority of them were only there to spectate the real bidders fight each other for the first Divine-grade treasure ever being sold.

Meanwhile, across the world, news outlets and online streamers were all focused on the auction.

As the timer approached zero, the anticipation from people around the world only heightened.

By the time there was only one minute left, the auction had amassed a grand total of 300 million 'bidders', breaking the website's record by ten folds, and this number would only increase.

[Auction begins!]

The second the auction started, the 100,000,000 starting price suddenly jumped up by a massive 10 million dollars!

[Ling Family has bid 110,000,000!]

[110,000,000]

However, not even ten seconds later, the number jumped again!

[Anonymous has bid 125,000,000!]

[125,000,000]

The number continued to grow with every passing minute, and in just ten short minutes, the price for the Frozen Jade Zither had reached 200,000,000 dollars!

[Yu Family has bid 200,000,000!]

Furthermore, in order to bid in an auction, one must actually have the funds available and ready in their account!

The explosive increase shocked the majority of the spectators, but in the eyes of these wealthy families, the fight was just beginning!

The website reached a peak of 500 million 'bidders' an hour after the auction started, slowly decreasing once the bidding also slowed down.

[Lotus Family has bid 258,000,000!]

[Chen Family has bid 258,500,000!]

[DreamSlayer has bid 260,000,000!]

[Anonymous has bid 261,000,000!]

"It's already at 260 million, Yuan," Meixiu said to him in a calm voice.

While the number may seem astronomical to the average person, in Meixiu's eyes, who has seen larger numbers, she didn't show too much reaction to it.

As for Yuan, who used to earn similar numbers in a month from playing professionally also didn't show much excitement when he heard the amount. In his mind, he only needed enough money to support himself and Meixiu.

"I see... Anyways, there are still seven days. Let's leave it for now." Yuan said.

"Okay."

After closing her laptop, Meixiu helped Yuan enter the game before she went to her own room and entered the game herself.

Inside the game, Yuan said to Meixiu, "I will be participating in the Mystic Realm in a few days, but we will be leaving the sect sometime today. Do you want to come with me, Meixiu?"

Meixiu nodded, "Yes."

After all, if she's not with Yuan, she has nowhere else to go, nor was there anything for her to do.

Sometime later, Yuan could feel the communication jade slip in his pocket tremble.

"Disciple Yuan, please come to the sect master's headquarters. We're going to be leaving the sect in an hour." Elder Xuan's voice resounded from the

jade slip.

"Okay," Yuan replied before leaving his living quarters with Meixiu shortly after.

Chapter 295 - Dao Companion

"Yuan, should I wear my mask as well?" Meixiu asked him before leaving the house.

"Oh, right. I almost forgot. Let's wear our mask just in case." Yuan nodded as he wore the Black Jade Mask.

Meixiu followed and wore her Crimson Mask before following Yuan outside.

"Hmm? Disciple Yuan? Where are you going? And who's that beside you? She doesn't look like a disciple." Min Li noticed them and called out to him from her windows.

"Good morning, Disciple Min. I am heading to the sect master's headquarters right now," said Yuan.

"Sect master's headquarters? Did you do something again? Most disciples go there only when they're in trouble with the Sect Master," Min Li said in a slightly worried voice.

"Haha... No, I am not in trouble. I'm meeting with Elder Xuan there since we're about to leave the sect for the Mystic Realm."

"W-Wait a second... The Mystic Realm? Don't tell me you're going to participate in it?" Min Li stared at him with wide eyes, but after she recalled his talents, her shock almost instantly disappeared.

"That's right." Yuan nodded.

"I-I see... Well... Good luck, I guess..." Min Li was speechless.

"Oh, and this is my friend, Meixiu. See you later, Disciple Min!"

Yuan left the place shortly after, leaving Min Li standing by the window with a dazed look on her face.

"That was Min Li, my neighbor, and a fellow disciple. She's from a really powerful and influential family from what I heard," Yuan introduced her to Meixiu after they left.

Sometime later, they arrived at the sect master's headquarters.

Knock *Knock*

Yuan knocked on the door loudly after arriving at the doorstep

"It's me, Disciple Yuan!"

The door opened a few moments later and Elder Xuan appeared before them.

"Welcome, Disciple Yuan—" Elder Xuan stopped speaking when he noticed Meixiu standing beside him.

"Who's this?" he then asked.

"This is my friend, Meixiu. I hope you don't mind her tagging along with us." Yuan said to him.

"Your friend...?" Elder Xuan raised his eyebrows.

He then said, "Let's assemble with the others for now. We'll see what the Sect Master has to say about this."

Yuan and Meixiu followed Elder Xuan inside the building to meet with Long Yijun, the high-ranking sect elders, as well as the participants.

"We've been waiting for you, Disciple Yuan— Hm? Who's that?" Long Yijun asked the moment he noticed the person with a feminine figure standing next to Yuan.

"This is my friend, Meixiu, and I'd like to bring her with me," Yuan said.

"Your friend...?" Everyone in the room turned to look at Meixiu with raised eyebrows.

"You say she's your friend, but she's actually your Dao Companion or something, right?" Elder Shan chuckled after a moment of silence.

"Dao Companion? What's that?" Yuan asked in a puzzled voice, forgetting that he'd heard this term before.

"You don't know? A Dao Companion is someone who has sworn to follow you for the rest of their lives." Elder Shan explained.

And before Yuan could even say anything, Meixiu opened her mouth and said in a calm voice, "I guess you can call me his Dao Companion."

"Eh?"

All of the eyes on her widened with shock and surprise. Yuan's Dao Companion?! But they couldn't sense any cultivation from her! In other words, she was a mortal! How could a mere mortal be the Dao Companion of a heaven-defying genius like Yuan?

"A-Are you really his Dao Companion? You're not joking with us here, right?" Elder Shan asked her in a trembling voice since she personally couldn't believe it.

Meixiu nodded her head and spoke in a serious voice, "I have promised to follow and serve Yuan for the rest of my life."

Unbeknownst to the people in the room, Meixiu was talking about their relationship in the real world. Of course, Meixiu herself has never heard of the term Dao Companion until today and misunderstood its meaning after hearing Elder Shan's poor explanation.

"I see... if you make it sound like that, I guess you can call her my Dao Companion." Yuan also agreed, following Meixiu's misunderstanding.

Elder Shan's jaw dropped to the floor after hearing Yuan's confirmation.

After a moment of awkward silence, Long Yijun cleared his throat before speaking, "S-Since she's your Dao Companion, I guess she can tag along."

"Thank you, Sect Master." Yuan nodded, completely oblivious to the misunderstanding that had been created from this situation.

'Looks like someone had beat you to the punch, Disciple Fei...' Elder Shan sighed inwardly, feeling a little pity for Fei Yuyan.

Elder Xuan also had similar thoughts, but he was thinking about his granddaughter, Xuan Wuhan, instead.

"Anyways, now that everyone is here, we can start making our way to the Mystic Realm." Long Yijun said.

"Disciple Yuan and his Dao Companion, Disciple Gao, Disciple Xue, Elder Xuan, Elder Shan, Elder Dai, and myself will be going to the Mystic Realm while everyone else will remain here to take care of the sect while we're gone."

Long Yijun then turned to look at Elder Bai and said, "I'll leave you in charge until we return, Elder Bai."

"I will protect the sect with my life on the line, Sect Master." Elder Bai nodded with a serious look on his face.

Sometime later, everyone that was going to the Mystic Realm gathered outside.

Once they were outside, the sect elders retrieved their flying treasures.

Elder Shan summoned her boat and Elder Xuan summoned his cloud treasure.

"Come over here, Disciple Yuan." Elder Shan patted her flying treasure.

Yuan didn't say anything and entered the boat, followed by Meixiu.

"The two of you can ride with me." Elder Xuan said to Gao Dongya and Xue Jiye.

A few moments later, once everyone was on a flying treasure, they took to the skies.

"What about the Sect Master?" Yuan asked when he noticed that they'd left him behind.

"Don't worry about him— look." Elder Shan pointed below them.

Yuan turned his head to look at the direction she was pointing, and to his surprise, there was a dragon flying towards them with Long Yijun and Elder Dai riding on its head!

Chapter 296 - Flying Treasure

Yuan felt his heart skip a beat when he saw this dragon, and he exclaimed in an excited voice, "Is that a real dragon?!"

Even though this dragon wasn't as intimidating as the Great One, it was still an exciting sight to see a real dragon.

However, Elder Shan chuckled and said, "No, you silly. Do you remember when Elder Xuan said there are flying treasures that resemble magical beasts but aren't actually real? That dragon is one of those flying treasures. There's no way anyone would be able to tame a mighty dragon and ride them like a flying treasure."

"Is that so... but it looks so realistic," Yuan mumbled in a somewhat disappointed voice.

"You can tell whether it's real or not by its aura." Elder Shan then said.

"Oh, you're right... I cannot sense any aura coming from it." Yuan realized.

Feng Yuxiang's voice suddenly resounded in Yuan's head, "Once I am able to transform back to my phoenix form, I'll let the Young Master ride me as much as he wants! Who needs dragons when you have a phoenix! We're both Divine Beasts, anyway."

A smile appeared on Yuan's face, and he mumbled, "Thank you, Feng Feng."

Seconds later, Long Yijun caught up to them, and he said, "We're going to take the teleportation device at Bright Needle City to the Northern Continent, where the Mystic Realm will take place. It's going to take a couple of hours before we arrive at the city so you can relax until then."

"Yes, Sect Master!" They responded.

Sometime later, Elder Shan opened her mouth and spoke, "Disciple Yuan, since we have plenty of time, why don't you tell me a little more about you and your Dao Companion here? How'd you two meet?"

Yuan nodded and said, "Her parents worked for my parents, so we've known each other since we were kids."

"Oh, childhood friends, huh? What a lovely relationship already." Elder Shan chuckled.

Then she looked at Meixiu and said, "I'm very interested in what kind of woman could captivate someone like Disciple Yuan's heart. Of course, if you don't want to show your face, that's fine as well."

'Captivate Yuan's heart?' Meixiu found Elder Shan's choice of words to be weird, but she didn't think too much about it and nodded her head before removing her Crimson Mask to show Elder Shan her face.

"I see..." Elder Shan nodded her head as though she realized something, not feeling the slightest shock that Meixiu was a beauty, as it was only natural for someone as talented as Yuan to have a beauty by his side. In fact, it would be weird if Yuan's Dao Companion wasn't a beauty.

"Anyway, you're certainly one lucky lady, becoming his Dao Companion at such a young age. You have no idea how many people will be envious of you in the near future." Elder Shan said.

"T-Thank you...?" Meixiu said in a hesitant voice since she wasn't exactly sure what Elder Shan was talking about.

Sometime later, Yuan asked, "Senior Shan, since you're a Spirit Master as well, can you use Qi Manifestation?"

"Qi Manifestation? Only Spirit Grandmasters can do that!" Elder Shan quickly said.

"Really? But I heard that some Spirit Masters are able to use Qi Manifestation."

Elder Shan shook her head and said, "Maybe if they're a heaven-defying genius or have some unique physique, but under normal circumstances, one cannot use Qi Manifestation before they become a Spirit Grandmaster. Well, I can release my Qi outside to a certain extent, but that's not true Qi Manifestation."

After a moment of silence, she continued, "Well, if it's you, who can use Divine Sense before reaching Spirit Master, maybe you can use Qi Manifestation before you become a Spirit Grandmaster. Though, you'll probably still need to be around peak Spirit Master before you can do it."

"Do you want to try it now?" Elder Shan suddenly asked.

"Really? How do I try?"

Elder Shan extended her hand and said, "Now gather your spiritual energy in your hand and imagine it leaving your hand and touching my hand."

Yuan nodded and followed her instructions, lifting his hand and gathering his spiritual energy in his hand.

He then imagined it leaving his hand, almost like he'd grown a second hand.

However, he gave up a moment later when he couldn't release the spiritual energy, and it was like there was an invisible wall preventing him from doing so.

"Don't worry, if it was so easy, every Spirit Master would be able to do it." Elder Shan said to him afterward.

Yuan nodded and said, "I'm going to continue trying."

"Go ahead. Just don't exhaust yourself. Qi Manifestation also requires a lot of energy to maintain." Elder Shan said to him.

A few moments later, Xiao Hua's voice resounded inside his head, "Brother Yuan, Qi Manifestation is very similar to Divine Sense. Just practice like you would with Divine Sense."

'Now that you mention it, they are very similar!' Yuan realized this fact and immediately started trying to release his spiritual energy like he does with Divine Sense.

After an hour of practicing, Yuan finally managed to produce some results! Although it was only very slightly, he'd managed to extend his spiritual energy a few inches outside his body!

When Elder Shan saw this, her eyes widened with shock.

"D-Did you just...?" Elder Shan mumbled in a dazed voice.

"I think I am getting a hang of it." Yuan nodded.

"Unbelievable... To think you'd actually manage to release your spiritual energy outside of your body, even if it's just a little, and you'd just entered Spirit Master. I am a little ashamed of myself now..." Elder Shan sighed.

Thus, Yuan continued to practice his Qi Manifestation for the next few hours until they arrived at Bright Needle City.

However, instead of descending outside the city like one normally would, Long Yijun led them directly inside the city, only descending once they were directly above the teleportation device.

Of course, nobody complained when they saw this, and the workers there even welcomed them with bright smiles on their faces.

Chapter 297 - Mystic Realm

Gathering Spot

"Welcome to Bright Needle City, Seniors from the Dragon Essence Temple. Are you heading to the Northern Continent for the Mystic Realm?" The worker there immediately recognized their identity and even their destination at a glance since he was warned beforehand.

"Yes, we are." Long Yijun nodded his head.

Sometime later, after paying the worker the bill in spirit stones, Long Yijun and the others walked through the teleportation device.

"Are you okay?" Yuan asked Meixiu after noticing the discomfort on her face.

"Yes... Just a little dizzy." Meixiu said.

"That's what happens when mortals use teleportation devices. Don't worry, it's nothing serious and will go away after some time." Elder Shan said to them.

A few moments later, they returned to the skies on their flying treasure.

"We'll arrive at the location in three hours." Long Yijun said to them in the air.

"By the way, I have been wondering, but how many sects will be participating in the Mystic Realm?" Yuan suddenly asked them.

"Well, it's different every time, but there will always be over 100 sects." Elder Shan said, and she continued, "And out of these sects, only 100 of

them will enter the sect ranking and become an elite sect, and our Dragon Essence Temple ranked 7th during the last Mystic Realm."

"If I remember correctly, the slots for each sect are distributed depending on their previous results. How will new sects obtain these spots if they didn't participate previously?" Yuan then asked.

"In the case that a new sect wants to participate in the Mystic Realm, there are a few ways they can obtain a slot, whether it be earning them through important events or even straight-up buying them with money, which most of them do. Of course, they can only obtain one slot maximum no matter how they obtained it."

"Over 100 sects, huh? That's a lot of people. What benefits does being an elite sect bring besides recognition?" Yuan then asked.

"Nothing, really. However, recognition and fame are the most important factors for sects since that's what attracts new disciples. Even though the difference between rank 7 and rank 6 may not seem very much in your eyes, it's actually very vast, especially since that might be the deciding factor for someone looking for a new sect."

"I see..." Yuan nodded.

About an hour later, their scenery suddenly changed drastically, going from a world rich with trees and greenery to a barren world that barely had any healthy-looking trees, and the further they went, the more desolate the place looked.

"Where are we?" Yuan couldn't help but ask, feeling an ominous feeling coming from this place.

"This is the 'Desolate Land', a unique place that takes up one-third of the entire Northern Continent." Elder Shan explained.

"Did something happen in this place that caused this atmosphere?" Yuan continued to ask.

"Legend has it that a fight had occurred in this place."

"A fight...?" Yuan raised his eyebrows.

Elder Shan nodded, "That's right. Not a war— a fight between two cultivators."

"Good lord... two people caused this? Is that even possible?" Yuan's eyes widened with surprise.

"Yes, but this happened in the ancient times when there were no restrictions between each of the heavens and Immortals were free to roam from heaven to heaven with little to no effort. Perhaps what happened in this place is the reason the mighty Heavens placed the restrictions on us in the first place— at least if the legend was true."

"Is that so..." Yuan mumbled before turning to watch the scenery again.

Although there was nothing to see, the barren world itself was a spectacle for Yuan, who has never seen such a view before.

A few more hours later, Long Yijun said to them, "We're almost there. Prepare yourselves."

"W-What is that thing in the distance?" Yuan suddenly asked, his voice sounding a little shocked.

Meixiu narrowed her eyes, and she could see some sort of chasm in the distance, almost like a pair of gates opened slightly.

"That's the gates to the Mystic Realm. Quite big, right?" Elder Shan chuckled at his reaction.

"Big is an understatement, Senior Shan. That thing is massive! Is that a treasure? How did they move that thing? Or has it always been there?" Yuan expressed his awe.

"Yes, it's a treasure, and no, they cannot move it." Elder Shan explained.

A few minutes later, the already large gates appeared even larger, making anyone who was in its presence feel like mere ants.

"We're here." Long Yijun said about ten minutes later.

Once they stopped flying in the air, Yuan and everyone else looked down at the area, and to their surprise, there were houses built on the ground along with some camps and a couple of hundred people.

"We're landing." Long Yijun said before descending his flying treasure.

Yuan and the others could feel numerous gazes suddenly directed in their direction.

"Ignore them." Elder Xuan said.

Once they landed, Long Yijun retrieved his flying treasure which turned into a toy-like object that resembled a dragon. He then pulled out another toy-like object from his spatial ring, which resembled a house this time.

Long Yijun poured his spiritual energy into this toy house before throwing it at the empty lot in front of them.

Poof!

The palm-sized toy house suddenly expanded until it was the size of a real building, leaving Yuan speechless and Meixiu full of surprise.

"Quickly, go inside." Long Yijun said to them in a hasty voice, sounding as though they were in immediate danger.

Yuan and the other didn't dare to linger and immediately went inside this building that was already filled with decoration.

However, while the disciples went inside, Long Yijun and the sect elders remained standing outside while facing a certain direction, almost like they were waiting for something.

And a few seconds later, they could see many figures approaching their direction, all of them emitting powerful auras belonging to Spirit Masters with even one of them being a mighty Spirit Grandmaster!

Chapter 298 - Jealousy

"It's been a while, fellow Daoists." Long Yijun greeted the guests with a friendly smile on his face while the three elders stood behind him with vigilant looks on their faces.

Even though these guests all had friendly-looking expressions on their faces, one can never be too careful in the cultivation world where anything can happen, especially when they are competitors.

"Sect Master Long and sect elders, it's been ten long years since our last meeting."

"You arrived almost at the last minute this time, Sect Master Long. Did something happen? The Dragon Essence Temple is usually always the first ones to arrive."

"Don't tell me you almost forgot about the Mystic Realm?"

These guests were all Sect Masters and high-ranking elders from the other sects, their intentions unclear.

"I guess you can say something like that." Long Yijun responded in a calm voice.

"By the way, I heard the Dragon Essence Temple managed to win a major bet recently that earned them a few Divine-grade treasures. Congratulations." One of them suddenly spoke, mentioning the gamble Long Yijun made with the other sects.

"Hahaha! Thank you! Indeed, my Dragon Essence Temple managed to amass a small fortune due to some minor luck! However, my sect doesn't really need these treasures, so if you would like to buy them, give the

Dragon Essence Temple a visit after the Mystic Realm! I will even give you a discount!" Long Yijun said, still with an innocent-looking smile on his face.

The Sect Masters there stared at Long Yijun with dumbfounded looks on their faces, as they didn't expect him to suddenly start selling the Divine-grade treasures he'd obviously tricked from the others! What a shameless fellow, they all thought!

"A-Anyways, I have been wondering for a while now but I only saw two disciples from your group. I thought the Dragon Essence Temple obtained 3 slots from the last Mystic Realm?" The Spirit Grandmaster there suddenly asked.

The two disciples he was referring to were Xue Jiye and Gao Dongya. As for Meixiu, there was no way they'd let a mortal who hasn't even begun to cultivate enter the Mystic Realm. Meanwhile, in his eyes, Yuan, who was emitting the aura of a Spirit Master— it was impossible for someone like that to be a mere disciple.

In fact, everybody there thought the same and mistook Yuan as another sect elder from the Dragon Essence Temple.

Long Yijun realized this fact and took advantage of their misunderstanding and said with an arrogant-looking smug face, "The Dragon Essence Temple is so confident this year that we'd decided to only use two out of our three slots."

"What?! Are you insane?!"

The Sect Masters there were shocked speechless by Long Yijun's claims.

So confident in his two disciples that they'd be willing to give up an entire spot?! Not even the number one sect would do such a foolish thing! After all, every additional spot in the Mystic Realm could be the difference between rank one and rank 10!

Furthermore, they have already done their research on Xue Jiye and Gao Dongya even before they became Core Disciples! While they are, without doubt, among the top geniuses in the Lower Heavens, they don't show any heaven-defying talents that would shake the entire world, and the other sects also have similar talents, hence why the Sect Masters couldn't understand where Long Yijun's confidence was coming from.

After talking with each other for a few more minutes, the people from the other sects left Long Yijun and the others alone, yet they felt as though something was amiss.

"Let's go inside as well." Long Yijun said to the sect elders afterward.

Once they were inside the building, Long Yijun burst out laughing, "Hahahaha! These idiots really believed me! They really thought I would give up such a valuable spot over arrogance!"

Yuan and the other disciples watched him laugh with raised eyebrows.

After laughing for some time, Long Yijun said, "Anyways, you guys can relax until the Mystic Realm starts in two days. There are plenty of rooms in this building so pick whichever one you want. The sect elders and I will keep watch until then."

Sometime later, Meixiu said to Yuan, "It's getting late so I'll log off first to prepare dinner."

Yuan nodded, "I'll also log off in a bit. I want to practice Qi Manifestation for a little longer."

After logging off the game, Meixiu went to prepare dinner.

While dinner was cooking, Meixiu went to check on the Frozen Jade Zither's auction.

[Time until auction ends: 6 days 10 hours]

[Current Bid: 410,000,000]

"400 million already, huh? At this rate, it will definitely reach half a billion."

Although the auction has slowed down, Meixiu had no doubt that it would reach at least 500 million.

A few minutes later, Meixiu could hear her phone ringing, and to her surprise, it was from her mother.

"Hello," Meixiu answered the phone after taking a deep breath.

"Meixiu, I have spoken with the Yu Family and notified them of your leave." Meifeng's voice resounded a few seconds later.

And she continued, "They were definitely not happy about it, especially since you're my daughter and the Young Lady's personal maid. However, there was nothing they could do about it since you're not bound to a contract like I am since you're still not old enough to legally sign any contracts. If you had been even a few months late, you would've been stuck with the Yu Family for essentially the rest of your life, so consider yourself lucky."

"I see... Thank you... mother..." Meixiu said to her after hearing this news.

"Don't thank me, Meixiu. I didn't do this for you. Everything is for the Young Master." Meifeng said.

After a moment of silence, Meifeng suddenly said, "Meixiu... To tell you the truth, I am very envious of you, who can stay by the Young Master's side, whilst I can only watch him from a distance. Therefore, if you don't treat the Young Master properly, I won't forgive you. Do you hear me?"

"I hear you..." Meixiu responded in a somewhat dazed voice.

Chapter 299 - Rebellious Stage

"Good. Then I'll be leaving now." Meifeng said to Meixiu before cutting the phone call.

"Haaa..." Meifeng released a long and deep breath afterward, rubbing her eyes in a tired manner.

A few moments later, Meifeng turned around and entered the room that was right behind her with a serious-looking expression on her face.

Inside the room, there were two individuals sitting across from each other on a small but fancy table filled with luxurious food and a couple of servants standing at the end of the room.

"What did Meixiu say? Did you manage to convince her to stay?" Yu Yong asked her the moment she returned.

Meifeng shook her head and said, "Unfortunately, she wouldn't listen to me no matter how much I tried to convince her, even cutting the line on me forcibly when I tried. I will take full responsibility for my daughter's sudden departure, Masters."

Yu Yong placed his utensils down before sighing, "Don't worry about it, Meifeng. It's not your fault. Meixiu is probably in her rebellious stage since she's around that age. Once she gets over it, she will definitely return to us so let's just give her more time."

"Thank you, Master Yu." Meifeng bowed to him.

Obviously, it was only an excuse that Meifeng had created for Meixiu, as she'd told the Yu Family that Meixiu was tired of working and decided to leave.

"Anyway, how is the auction looking for the Divine-grade treasure?" Tang Lee suddenly asked.

"Allow me a moment to check," Meifeng said as she pulled out her phone.

After checking the auction, Meifeng said, "The highest bid right now is 411 million dollars; it'd increased by 21 million since we last checked half an hour ago."

"I see... Do you have any predictions on how much it might cost by the end?" Tang Lee then asked.

"It's hard to tell since this is the first time a Divine-grade treasure has been sold. Furthermore, it is highly likely that this treasure belongs to Player Yuan. With that being said, the price most likely won't see any more significant increases since this treasure is only an instrument, and its high requirements restrict most if not all of the players at this moment, so most of the other families have already stepped back." Meifeng said.

Yu Yong nodded and said, "While it's true that the treasure has a high requirement, this is an investment for the future! Once we have someone who can use that zither, everything will change and we will overtake the other families!"

"Continue monitoring the auction. We'll stop bidding for now until the last day."

"Yes, Master Yu."

Meanwhile, after dinner was prepared, Meixiu went to feed Yuan four bowls of soup as instructed by Doctor Wang.

A few minutes after dinner, almost as though she knew, Yu Rou called Meixiu— or more specifically, Yuan.

"How was your day, brother? I saw the auction! It's a massive success! Over 400 million dollars in a single day— you'll definitely get at least 500

million from the auction!" Yu Rou's excited voice resounded in his ears, making it feel as though Yu Rou was really in the room.

"At this rate, you won't have to worry about not having enough money for the rest of your life!"

"Indeed," Yuan said.

"By the way, do you see other players at the Mystic Realm?" Yu Rou suddenly asked.

"No, I just got there myself."

"I see... Well, good luck, brother! Although I will be going back to school tomorrow, I had a lot of fun with Xia Jingyi. We did many quests together, even hunting a dozen magical beasts. Of course, I was the one who slew them all!" Yu Rou spoke in a proud voice.

"That sounds fun," Yuan said with a smile on his face.

"It is! You should come play with us once you're done with the Mystic Realm."

"That's what I plan on doing— oh, wait. I still have one more thing to do before the Mystic Realm."

"Take your time, brother. We have plenty of time to play the game together." Yu Rou said.

"Anyway, I will talk to you later. I'm going to sleep now. Goodnight, brother. Goodnight, Meixiu."

"Goodnight, Yu Rou."

"Goodnight, Sister Rou."

After the phone call ended, Meixiu returned to her own room to sleep whilst Yuan cultivated.

The following morning, after breakfast, they returned to Cultivation Online.

"Good morning, everybody." Yuan greeted them.

"Did you have a good rest last night? The Mystic Realm won't start until sunrise tomorrow but there will be a gathering later today since all of the participating sects have arrived." Elder Xuan said to him.

Yuan nodded, then he asked, "By the way, I have been wondering, but do you think I can take a closer look at the gates to the Mystic Realm? Or would that be too dangerous?"

"Well, besides some roaming magical beasts in this area, there's really not much danger. And with so many peak experts in this place, even a Spirit Grandmaster magical beast won't be able to do a thing, so you don't have to worry about them." Elder Xuan explained.

Long Yijun interrupted, "It's not the magical beasts we're worried about—it's the other sects. While it's very unlikely that anybody would start a fight here, it's not impossible, and it has happened before."

"Even if we may act friendly to one another, it's all just a public act. Don't forget, we're all competitors fighting for the next highest rank."

"However, if you want to look at the gates, I won't say no. Just make sure you're with one of the sect elders." Long Yijun said.

"I will come with you." Elder Xuan said, and he continued, "And before you leave, change into these clothes."

Yuan accepted the clothes that resembled what sect elders would wear.

"The others think you're a sect elder because of your cultivation base. It would be in our best interest to keep them thinking that until the start of the Mystic Realm." Elder Xuan said.

"Okay. Do you want to come with us, Meixiu?" Yuan asked her.

Meixiu silently nodded her head.

Chapter 300 - Taking A Closer Look At The Mystic Realm

"I-I also want to come!" Xue Jiye suddenly said, and she continued, "It's my first time coming to this place, and it's probably going to be my last, so I want to make it more memorable!"

Elder Xuan nodded, "Okay."

A few moments later, Yuan went to the other room to change his clothes, wearing the sect elder's uniform given to him by Elder Xuan.

"Wow, you look much better in those clothes than I'd anticipated. You'll definitely be a popular sect elder if you become one, especially among the female disciples." Elder Shan's eyes widened with surprise when she saw Yuan wearing the sect elder's uniform, which gave him a more profound feeling and also enhanced his handsome appearance by a level.

Even Xue Jiye couldn't help but swallow nervously after seeing Yuan's new appearance.

After another moment, Yuan and Meixiu wore their masks before going outside with Elder Xuan, making their way towards the Mystic Realm that was only a couple of miles in the distance.

Since the place was an empty and flat land and the gates were massive, the Mystic Realm looked much closer than reality, and when they approached the gates, it felt like they weren't getting any closer despite walking towards it for many minutes.

About half an hour later, they could see a large group of people gathered in the front, all staring at the Mystic Realm with awe on their faces.

"Looks like we're not the only ones who wanted to look at the Mystic Realm." Xue Jiye mumbled as they approached this group.

The people there turned to look at them when they noticed their presence.

"The Dragon Essence Temple, huh?"

However, they didn't pay too much attention to them and returned to looking at the Mystic Realm that was emitting an otherworldly light, almost like it would lead them to another world if they entered the light.

Meanwhile, Yuan was wondering if there were any players among these people, as they all looked relatively similar to each other in terms of appearance and the aura they gave off.

"Wow, this treasure is even more massive than I thought..." Yuan mumbled in a dazed voice as he tilted his head to look at the giant gate that pierced the clouds in the sky.

There were also these complex symbols on each side of this gate, giving the place a more mystical feeling to it.

Almost as though they were captivated by it, Yuan and the others stared at this gate with dazed looks on their faces for many minutes without blinking.

Suddenly, unbeknownst to the others there, a voice resounded from beyond the Mystic Realm that only reached Yuan's ears, and it was an ancient-sounding voice, almost as though it was beckoning him.

'Alas...'

'I have...'

'Been...'

'Waiting...'

'For you...'

Yuan's eyes widened when he noticed a semi-transparent figure hovering directly between the gates, almost like a hologram of sorts.

However, this person didn't have a face. It had long black hair that flapped behind him like a cape, and it was wearing black clothes with gold outlines around the clothes, giving this individual a majestic atmosphere, almost like he was royalty.

When Yuan saw this faceless individual, his blood began boiling for some reason, and it was unclear whether the reaction was due to excitement or something else entirely.

"Who... are you?" Yuan mumbled in a mosquito-like voice.

Even though this individual hovering in front of the Mystic Realm lacked any facial features, Yuan could somehow tell that it was looking directly at him.

'Come...'

'Here...'

This ancient voice continued to beckon Yuan.

After an unknown amount of time had passed, Yuan suddenly felt someone pat his shoulders.

"Are you okay?" Elder Xuan asked him.

"Eh? What do you mean?"

"I have been calling you for a while now, but you were absorbed in the Mystic Realm, not noticing it."

"Oh, I'm sorry. I was a little too focused on that figure floating in front of the gates. Who is that person?" Yuan said.

"Huh? Figure? What are you talking about? There's nobody there." Elder Xuan looked at him with a surprised expression.

Elder Xuan then turned to look at the gates just in case, but as he'd expected, there wasn't anybody there.

"Are you sure you saw somebody there? One cannot approach the Mystic Realm without the tokens, hence why we aren't getting any closer than this, and we won't be getting these tokens until later today." Elder Xuan explained to him.

"Yes, I'm sure," Yuan said, and he proceeded to describe the faceless man to Elder Xuan.

"Hmm... As far as I'm aware, nobody has seen this faceless individual before since I have never heard of this person until today. We can ask the Sect Master later, but we should get back for now since the gathering will happen soon."

"Okay." Yuan nodded, following Elder Xuan and the others back to their building.

'Come...'

'Here...'

The voice continued to resound inside Yuan's head even as he left the place.

However, when he turned around, that faceless individual was no longer there, and the voice disappeared shortly after as well.

Once they returned to their building, Elder Xuan explained the situation to Long Yijun.

"Interesting... A faceless individual..." Long Yijun pondered with a serious look on his face.

"Do you know something about this, Sect Master?" Elder Xuan asked.

After a moment of silence, Long Yijun shook his head and said, "While I have heard of numerous phenomena occurring around the Mystic Realm before, I don't recall anything about a faceless person. I can ask around later, but don't expect an answer."

"I see..." Yuan nodded.

"Anyways, the gathering won't happen for another two hours, but we should start heading there now or else it will look bad for the Dragon Essence Temple if the envoys from the Spirit Heaven arrive before us."

"Envoys from the upper heavens? Does this mean people from this Spirit Heaven will come down here?" Yuan asked.

Long Yijun laughed and said, "Of course not, silly. It takes too much effort and resources to come down here. Even if they're incredibly rich, they won't be able to afford coming down here every decade!"

Chapter 301 - The Aura Of A Spirit King

"Is that so... What a pity. I wanted to see someone from the Spirit Heaven." Yuan sighed.

Long Yijun chuckled at his words and said, "Besides having a much higher cultivation base and being more knowledgeable because of their larger world, there's really not much difference between us. It's not as if people from the upper heavens are different entities."

"I see... that makes sense." Yuan nodded.

"Anyways, let's get moving. The other sects are already gathering at the location."

The Dragon Essence Temple left the building and followed the other sects to the gathering area that was just a few miles away from their lodging location.

Sometime later, they arrived at the gathering area, where over a hundred sects gathered and stood separated from each other but in an orderly fashion, almost like a massive military formation getting ready for war.

The Dragon Essence Temple stood at the very front of this massive formation. Despite the fact that many sects had arrived before them, there was an empty spot in the front with other sects occupying the spots behind it, almost like it was left empty specifically for the Dragon Essence Temple.

Each sect had around five to ten people with them, but there were also sects that brought over a hundred people, mostly for spectating.

While everybody there waited for this envoy from the Spirit Heaven to show up, Yuan turned to look at the Mystic Realm that was in the distance, hoping to see the faceless figure again.

'Xiao Hua, Feng Feng, was it just me, or did you two also see that faceless figure?' Yuan decided to ask the two experts dwelling inside his body.

'Xiao Hua didn't see anyone like that.'

'Me neither, Young Master. Are you sure you weren't seeing things?'

'I'm sure. It was even calling for me... I don't know why, but I felt somewhat nostalgic when I saw this faceless figure, almost like I'd seen it before, but that's impossible. Maybe I'm just overthinking things,' Yuan sighed inwardly.

Suddenly, Xiao Hua said in a serious voice, 'Brother Yuan, be careful. There are a lot of people looking in our direction right now. Although I cannot say for certain that they're looking at you, it's very likely.'

Hearing Xiao Hua's words, Yuan realized why he was feeling uncomfortable for some time now. So it was caused by these stares.

'The Dragon Essence Temple is quite popular, after all. I wouldn't be surprised if they were staring at us.' Yuan said.

'While that is true, the looks they're giving are different from that of awe or admiration, and they look more like they're trying to see through your mask, Young Master.' Feng Feng added.

Yuan's body shuddered after hearing these words, and he wondered to himself, 'It couldn't be the other players, right?'

Indeed, these people staring at Yuan were all players that were chosen to participate in the Mystic Realm. While their cultivation bases are nothing exaggerated like Yuan, who was a Spirit Master, they all show promising talents, not to mention their Heaven-rank physiques.

Although the Sect Masters and Sect Elders all mistook Yuan as a Sect Elder because of his Spirit Master cultivation base, the players were not fooled by his cultivation, mostly because Player Yuan was famous for his black mask ever since the zither competition, and everybody knew that he was in the Dragon Essence Temple, hence why they expected him to show up at the Mystic Realm.

And just as the players had expected, Player Yuan showed up.

'So that's the famous Player Yuan, huh? Even though I cannot see his cultivation base, he gives off the same feeling as our Sect Master—the same domineering aura.' One of the players there thought inwardly.

'Player Yuan... Just you wait! If we ever meet in the Mystic Realm, I am going to rip that mask off your face and reveal your identity to the world!' Another one thought.

'Player Yuan... I wonder what he looks like underneath that black mask...'

Sometime later, the atmosphere in the place began to change, and although it was a subtle change at first, all of the Sect Masters there noticed it.

Upon feeling this change, they all said to their disciples, "The envoy is coming! Stand straight and don't utter a single sound unless you're told to speak!"

The entire place immediately turned dead silent, and everyone there waited nervously for this 'envoy' to show up.

Whoosh!

The wind suddenly picked up, and a massive portal appeared above the sects, shocking the Sect Masters.

"W-Wait! What's happening?!"

"T-This is! Somebody from the upper heavens is trying to come down to the Lower Heavens?! Did they send an envoy to personally oversee the Mystic Realm this time?!"

Usually, the experts from Spirit Heaven would just use some sort of treasure to speak with them from above, and rarely would they come down to the Lower Heavens in person. In fact, the last time a real envoy showed up in the Lower Heavens for the Mystic Realm was over 10,000 years ago!

Perhaps this is what the rumors actually meant? That a real envoy would be showing up?

The spiritual energy in the area started acting up and began rushing towards the portal in the sky.

A domineering aura appeared moments later, and it was something nobody there— not even the Sect Masters, have experienced before.

However, two people recognized this kind of aura.

Feng Yuxiang, who had experienced it herself not long ago when she first met Yuan.

And Xiao Hua, who could emit the same aura herself— the aura of a Spirit King!

"Young Master, it's a Spirit King! A Spirit King is descending!" Feng Yuxiang said to him in an excited voice.

"What? The same level as Xiao Hua?" Yuan was surprised to hear this since this is his first time seeing another cultivator at the same level as Xiao Hua ever since he started playing the game.

After a few more moments of suspense and tension, Yuan and the others could see a figure coming out of the portal— an old man wearing black and red robes.

Chapter 302 - Once

"Welcome to the Lower Heavens, Senior Envoy!"

The Sect Masters and experts there all bowed to this old man in black clothes after he descended.

This old man swept the crowd with a calm gaze before nodding his head and speaking in a nonchalant voice, "My surname is Nie. You can simply address me as Senior Nie, and I am from the Nine Array Academy, one of the seven Spirit Academies within the Spirit Heaven."

Despite speaking in a calm tone, his voice sounded very clear for everyone there, almost like he was standing directly in front of them.

"I was sent down here to the Lower Heavens for one... No, two purposes. First and foremost, I will be overseeing the Mystic Realm, and secondly, I am looking for potential talents to bring to the Spirit Heaven with me."

"WHAT?!"

The people there expressed immense shock after hearing Senior Nie's words.

Senior Nie continued to speak, ignoring the peoples' shocked reaction, "However, I can only bring a very limited number of people with me. Three people to be exact. Therefore, I will select the participants with the most potential and best results in the Mystic Realm to come with me."

"If you manage to get selected, you'll also have a chance to become a disciple at one of the seven Spirit Academies, and depending on your potential, you might even become an Inner Disciple straight away."

"The seven Spirit Academies are the most prestigious and influential sects in the Spirit Heaven with countless resources and heavenly techniques. Countless cultivators dream of becoming a disciple at one of these seven sects, but one must go through rigorous tests before they are accepted as a disciple. However, you will get to bypass such tests and become a disciple immediately if you're chosen."

The disciples there trembled with excitement after hearing Senior Nie's words. If they are chosen to go to the Spirit Heaven with Senior Nie, their future will surely be a successful one! This was a once-in-a-lifetime opportunity!

As for the Sect Masters and Sect Elders there, while they were happy for their disciples for getting such a grand opportunity, they were also quite jealous of the disciples since most of them dream of ascending to the Spirit Heaven as well.

Meanwhile, the players there were even more excited.

'If I get to ascend to the Spirit Heaven before I reach Spirit Grandmaster, I will immediately be ahead of every player in the Lower Heavens, and there's even a good chance that I could surpass the seemingly unrivaled Player Yuan!'

The players thought to themselves.

"Now that I've introduced myself, allow me to tell you about the Mystic Realm." Senior Nie said.

After taking a deep breath, he continued, "Let's talk about the rules of the Mystic Realm."

"With that being said, these rules are mostly rules set by the Mystic Realm and they are not something I—or anyone for that matter—have control over. You can consider it as the rules of that world."

"Anyways, first and foremost, your cultivation base will not matter in the Mystic Realm. Once you enter the gates to the Mystic Realm, your

cultivation base will be wiped, and you'll have to start from scratch. However, this is only temporary since your cultivation base will return once you come back out. Furthermore, any spiritual energy you obtain whilst inside the Mystic Realm will affect your real cultivation base, so you'll even see an increase in your cultivation afterward depending on how much you earned inside."

After giving the people a few moments to digest the information, Senior Nie continued, "Next! Treasures are not allowed inside the Mystic Realm! If you have anything that isn't a part of your body, you'll be rejected by the Mystic Realm until you get rid of those treasures!"

"As for the third rule which is related to the second rule, just like treasures, you're not allowed to bring your magical beasts into the Mystic Realm since they are considered as their own entity! Of course, you can bring your magical beast inside if you give it a token! However, that will take away one precious spot, so you'll have to consider if that's worth it or not!"

Yuan raised his eyebrows when he heard this. What about Xiao Hua and Feng Yuxiang? Does this mean they'll have to stay out here while he goes inside?

'Looks like we won't be able to follow you inside the Mystic Realm, Young Master.' Feng Feng suddenly said to him.

"Unless we take the two disciples' spot from them...' she added.

However, before Yuan could say anything, Senior Nie continued, "Furthermore, only those who are below the age of 30 are allowed to enter the Mystic Realm! As for those who have magical beasts as servants, the magical beast must be younger than 100 years old!"

'100 years old... I guess I won't be able to go in after all...' Feng Yuxiang sighed.

'What about you, Xiao Hua? You're human, so you should be able to enter... Unless you're over thirty...' Feng Yuxiang said to her.

"..."

However, Xiao Hua didn't respond to her and remained silent.

'It's okay, you two. Even if you can go inside with me, I cannot take away the others' spots. They earned it, and it'd be incredibly rude of us if we stole it.' Yuan said to them.

'I knew that, Young Master. I was only joking with you.'

"The next rule— once you enter the Mystic Realm, you have 30 days to show results and obtain points. You can obtain points by increasing your cultivation, slaying magical beasts, finding treasures, clearing trials, and many more methods. If you manage to obtain a certain amount of points, you will be able to enter the Mystic Pagoda somewhere inside the Mystic Realm. As for what's inside the Mystic Pagoda... I cannot tell you— nobody can. Why? Because nobody has managed to enter the Mystic Pagoda before." Senior Nie said.

And he continued with a subtle smile on his face, "If you manage to enter the Mystic Pagoda, you're guaranteed to come to the Spirit Heavens with me so keep that in mind."

Chapter 303 - Distributing The Tokens

"Now let's talk about your safety in the Mystic Realm— although you won't outright die if you die inside the Mystic Realm, there's a chance that it might affect your cultivation once you leave the place so don't take death lightly inside just because you won't die for real." Senior Nie continued to speak.

"If you happen to die inside the Mystic Realm, you will immediately be teleported out of the Mystic Realm, and you won't be able to enter for a second time since every individual can only enter the Mystic Realm once in their lifetime."

"That's all I have for now— does any of the Sect Masters here have any questions for me before I hand out the tokens?" Senior Nie swept the crowd with a calm gaze.

The place remained silent. Although all of the Sect Masters had questions inside their heads, it was not related to the Mystic Realm that they've seen many times before, and it might offend Senior Nie if they brought it up in their current situation.

"Then I shall begin handing out the tokens now."

After taking a deep breath, Senior Nie spoke, "Ranked first, Heaven and Earth Palace, 7 tokens."

"Heaven and Earth Palace is present, Senior Nie!"

The Sect Master of the Heaven and Earth Palace responded loudly.

Senior Nie then tossed seven square-shaped tokens made of a blue material that resembled jade at the Sect Master of the Heaven and Earth Palace.

After accepting the tokens, the Sect Master bowed in a respectful manner, "Received! Thank you, Senior Nie!"

Senior Nie nodded his head before continuing, "Ranked second, Grand Sword Mountain, 6 tokens."

"Grand Sword Mountain is present, Senior Nie!"

The Sect Master of the place responded, and Senior Nie handed them 6 tokens.

"Ranked third, Flaming Fists Sect, 5 tokens."

"Flaming Fist Sect is present, Senior Nie!"

"Ranked fourth, Azure Phoenix Sect, 4 tokens."

"Ranked fifth, Purple Lotus Fairy Garden, 3 tokens."

"Ranked sixth, Frozen Blade Academy, 3 tokens."

"Ranked seventh, Dragon Essence Temple, 3 tokens."

"Ranked eighth, Three Poisons Manor, 2 tokens."

"Ranked ninth, Heavenly Totem Sect, 2 tokens."

"Ranked tenth, Diamond Palms Sect, 2 tokens."

After naming the top ten sects, Senior Nie said, "The rest of you will be getting one token each."

He then tossed over a hundred tokens down, each flying to one of the Sect Masters there.

In total, there were 150 tokens handed out by Senior Nie, meaning there will only be 150 participants entering the Mystic Realm.

"The Mystic Realm will open at sunrise tomorrow, and I won't be back until then." After saying those words, Senior Nie flew away and quickly disappeared from the scene, almost like he was in a hurry to go somewhere.

Once Senior Nie's presence was completely gone, everybody there sighed in relief, feeling as though a large amount of pressure had just been lifted from their bodies.

When they were certain that Senior Nie would not suddenly return, the massive formation began breaking apart and the sects returned to their own lodging.

"Let's also return." Long Yijun said to them.

Yuan and the others nodded and followed Long Yijun back to the building.

However, before they could reach the building, someone suddenly called out loud, "Player Yuan!"

Yuan's body subconsciously stopped walking and turned around after hearing his name being called out by an unfamiliar-sounding voice.

When he turned around, there was a handsome young man with short black hair and a cold face standing behind him, looking to be in his mid-twenties.

"Remember my name— Lightning Emperor! I don't care who you are but I will surpass you soon! Just you wait!" This player who is renowned around the world as one of the current top players said with a serious look on his face.

However, before Yuan could even respond, Lightning Emperor turned around and walked away.

'Lightning Emperor? Why does his name sound so familiar?' Yuan wondered.

Then he remembered.

'Oh, right! Yu Rou mentioned him once before— that top player who had the highest cultivation base.'

Yuan narrowed his eyes at Lightning Emperor and looked at his cultivation base.

'Sixth level Spirit Warrior, huh.'

"Did you know that disciple from the Grand Sword Mountain?" Long Yijun asked him.

"Not really." Yuan shook his head, and they began walking again shortly after.

However, another player called out to Yuan after a few steps.

"Player Yuan! If you dare, show me the face behind that mask!"

This player outright asked Yuan to reveal his identity in a shameless voice.

Yuan looked at this goofy-looking young man for a moment before he continued walking, completely ignoring the player.

"Hey! Where do you think you're going—"

The player tried to approach Yuan, but alas, Elder Xuan stepped between them and said, "If you wish to speak with our disciples, you should bring your Sect Master with you."

The player swallowed nervously upon feeling Elder Xuan's invisible pressure, and he decided to turn around and run away.

"I'll do whatever it takes to see your face, Player Yuan! See ya in the Mystic Realm! Hahaha!" The player laughed out loud as he disappeared into the distance.

"You sure have a lot of friends, Disciple Yuan." Elder Xuan said to him afterward.

"If only that was the case..." Yuan sighed.

A few more players tried to approach Yuan after the last person, but before they could get close, Elder Xuan would always stand in their path and block them, and not wanting to be outdone by Elder Xuan, Elder Shan also did the same, even fighting him to block the other players.

"Player Yuan! Please shake my hands!"

Another voice resounded, this time from a female player.

"Please stay away. Our disciples do not wish to speak with any guests right now." Elder Shan immediately blocked this female player.

However, Yuan stopped walking and turned around, thinking to himself, 'This voice... It sounds so familiar...'

When Yuan turned around and finally saw the face of this female player, his eyes widened, and he nearly blurted out her name in surprise.

'Wang Xiuying! What's she doing here?'

Indeed, this person was Wang Xiuying, Doctor Wang's granddaughter!

Chapter 304 - Handshake

"I see... Sorry to bother you..." Wang Xiuying sighed after being told off by Elder Shan, and she turned around with a dejected look on her face.

However, a stiff voice suddenly resounded, halting her steps.

"Wait."

"Huh?" Wang Xiuying turned around, and to her surprise, Yuan was looking at her, even walking in her direction.

"D-Disciple Yuan?" Elder Shan looked at him with wide eyes. He ignored all of the male cultivators when they tried to approach him, but when it came to a pretty young lady approaching him, he didn't mind it, even responding to her?

A few moments later, Yuan stood in front of the speechless Wang Xiuying.

He then extended his hand, almost like he was asking for a handshake.

Wang Xiuying stared at Yuan's hands in a dazed manner, her eyes filled with disbelief.

"You wanted a handshake, right?" Yuan asked her in a low voice so she won't easily recognize him, snapping her out of her daze.

"Y-Yes! Sorry for the delay!" Wang Xiuying nodded her head before she quickly reached for Yuan's hands, giving him a firm handshake.

'What a pair of beautiful and clear eyes— it reminds me of someone...'
Wang Xiuying thought to herself when she looked at Yuan's bright eyes

through the holes in the mask, feeling nostalgic for some reason, almost like she'd seen them before.

"Umm..."

Despite shaking hands for longer than one normally would, Wang Xiuying didn't remove her hands from Yuan, almost like she'd forgotten about it after seeing his eyes.

"Oh! Sorry!" Wang Xiuying hastily released her grasp once she realized the situation.

"Anyways, I am Healer Wang, and I'm from the Medicine Valley. It's an honor to finally meet you, Player Yuan! Thank you for shaking my hands, and good luck in the Mystic Realm!" Wang Xiuying gave Yuan her nickname, completely unaware that Yuan already knew her real identity.

'Healer Wang...?' Yuan raised his eyebrows at her name but he didn't say anything, merely nodding in silence.

Once Wang Xiuying left, Yuan returned to the others.

"Yuan, that girl was Doctor Wang's..." Meixiu also recognized Wang Xiuying since she visits Doctor Wang's hospital often with Yu Rou.

"Yes, it was Wang Xiuying," Yuan confirmed. "Just like you, she looked almost like she did when she was young, so I immediately knew it was her."

"So you knew her?" Elder Shan said.

Yuan nodded, "Yes, she's a good friend of mine."

Elder Shan became even more confused after hearing such words since it looked the complete opposite just now, almost like it was their first meeting, especially since Wang Xiuying didn't appear to know him.

Sometime later, they returned to their lodging.

Inside, Yuan spoke, "Since I cannot bring treasures inside, I won't be able to hide my face... Are there any methods to get around this?"

Long Yijun then said, "That's simple— you can just wear an ordinary mask inside."

"I see..."

"I can go buy one right now." Elder Xuan said.

"Thank you for your trouble," Yuan said to him.

Elder Xuan left the place shortly after to buy some masks for Yuan.

Long Yijun said afterward, "Here are the tokens for the Mystic Realm. Don't lose them or you won't be able to enter the Mystic Realm."

He then handed a blue token to each of the participants.

"As for your treasures, you can hand them to me now or before you enter the Mystic Realm tomorrow. I'll hold onto them for you." Long Yijun then said.

Gao Dongya and Xue Jiye handed their spatial rings and storage pouches to Long Yijun a moment later.

"What about you, Disciple Yuan? I can hold onto them for you, or you can let your Dao Companion hold it for you." Long Yijun asked him afterward.

'Xiao Hua will hold onto your treasures for you tomorrow, Brother Yuan.' Xiao Hua suddenly said to him.

"It's okay, Sect Master. I have someone else who will keep my treasures safe." Yuan said to him.

"If you say so..." Long Yijun nodded with a puzzled look on his face.

Someone else will hold onto his treasures? Who else besides Meixiu will do that?

Sometime later, Long Yijun dismissed them until tomorrow.

Yuan and Meixiu logged off the game to rest for the big event tomorrow.

While dinner was cooking, Meixiu checked the auction, but the price only increased by a few hundred thousand since the last time she checked.

'The auction has slowed down to almost a halt, but it'll pick back up on the final day,' she thought to herself.

After feeding Yuan dinner, Meixiu went to sleep. Yuan also went to sleep since he wanted to rest properly before the big day tomorrow.

Early in the morning tomorrow, way before sunrise, Meixiu woke up and prepared breakfast. After feeding Yuan, they both entered the game.

"Are you all ready?" Long Yijun looked at them.

"Yes, Sect Master!" They all nodded.

"Disciple Yuan, here." Elder Xuan handed Yuan a black mask, but it was made of ordinary material.
